

# **PUNISHED BY HIS LOVE**

## **I'm Sorry My Love Novel Alternative**

### **Chapter 2786**

Back then, when Shaoqin and Cheng Feng fought, Cheng Feng told Shaoqin that he took good care of Galia and that he could return Galia, but when he went to pick up Galia, Galia's person was not there.

At that time, she and Shaoqin both felt that Cheng Feng was cunning.

Thinking about it now, Cheng Feng was really wrong.

"What's wrong with Suzi?" Mi Lu asked.

Suzi shook his head: "No...nothing, I just feel that God's will tricks people, and God's will tricks people!"

How could she tell Galia that she was one step short of finding Galia, but she missed it again, because this one step was only short, and Galia suffered for so many more years.

After a pause, she asked Mi Lu, "After you escaped, you were abroad. How did you live abroad while pregnant?"

Hearing this, Mi Lu smiled more bitterly: "At that time..."

She choked her throat, and her tears fell down: "As you said, it's really God's will to make people, I have never suffered hardship since I was a child, I really don't know that there are still such bitter days in life.

I just heard you say that you had a hard time when you were young.

I also saw Aunt Alyce wandering for so many years and suffering for so many years, but I never thought that such a life would one day be my turn.

But once life is so miserable, there will be a lot of bitterness, so I don't feel it anymore.

At that time, although I had a big belly, my running speed was light in those days.

I can grab food with a lot of black kids.

Every time I grab more than them.

I can also tell very accurately what is good and what is not edible in the trash.

Because I heard Aunt Alyce say it before, so I have experience. "

When she said this, Mi Lu smiled happily.

Suzi burst into tears when he heard it.

All of them have suffered.

She, mother, Rayna, and even the only one, followed her through the most difficult five years with Suzi.

But Galia...

How could Galia live such a life?

Who is Galia?

At home, her parents dote on her, marry Ming Zhen Mingzhen dotes on her, and go shopping with Rayna. Rayna helps her carry her bags.

When buying clothes with Suzi, Suzi paid for her.

Even Galia and the only one, when they eat and play with half-sized children like Mingsai Mingsai, are the only one and Mingsai busy Yanyan lining up to buy milk tea, Galia often grabs something to eat with them.

She is so happy and sweet.

God has never been willing to treat this kind, warm and heartless girl harshly.

The people around Galia, including such a small Shen Weiyi, were never willing to scold Galia, and all the staff protected Galia.

But Galia, she actually went to the garbage dump to pick up food to eat?

If the only one hears this, the only one must be distressed crying.

Suzi was also distressed, and hugged Galia in his arms: "I'm sorry, I'm sorry Galia, I'm sorry, I'm sorry for you, I didn't protect you, if I could find you faster then , you won't suffer so much. Galia, I'm sorry for you."

Mi Lu shook her head and smiled: "Actually, Suzi, in fact, there is none. At first, I also understood why God made me suffer so much. Later, I realized that God helped me. It saved my life."

Suzi didn't understand: "Ah? You... What did you say?"

Mi Lu suddenly smiled sweetly: "Because, because I have a strange blood disease."

## **Chapter 2787**

Suzi and Pan Mingsai were stunned at the same time.

Immediately after that, Suzi asked again: "You... Are you still sick? You... Are you hungry at the time and couldn't eat every day, leading to anemia, so you got blood disease?"

Pan Mingsai couldn't wait to ask Mi Lu: "Sister Galia, the reason why your blood is different from yours before, and your parents' blood is because you were sick and your blood changed?"

Galia shook her head and smiled: "Well, to be precise, I transplanted a rare early stem cell and cured my disease."

Suzi grabbed Galia and asked, "What's going on, Galia?"

Mi Lu breathed a sigh of relief, and said eloquently: "I was in a slum abroad at the time, and every day I was fighting for food with a group of black children and some homeless people. Just like this, my stomach is getting bigger. .

To be honest, I can't guarantee myself, will my child still be born?

Where will I be born?

None of this can be guaranteed. I thought at the time that it would be good if I could die with my child, and if my child could accompany me in my belly for one more day.

Maybe God saw me suffer so much.

Maybe God saw how big my belly was.

Suddenly one day, I was brought home by an Asian couple.

It was a couple who was a little older than me, about thirty-five or six years old. The couple had no children, but they had a good relationship. Both of them were professors in the university.

In their spare time, the husband and wife are both novel writers.

They saw that I was Asian and was pregnant. It was really pitiful, so they took me in and let us work as helpers in their house, that is, domestic helpers.

Since then, I have had a fixed place to live, and I have bread and milk to drink every day.

Because their husband and wife are both Asian, I can still cook.

I used to be at home, and I didn't know how to cook anything. I also followed the middle-aged couple. I learned to cook. My daily job was to clean the house, clean the room, and bask in the sun on the reclining chair when I was free.

It was a comfortable time. "

Suzi rolled his eyes at Galia angrily: "Then why didn't you give us a call at that time! You know how hard it was for us to find you!"

Mi Lu shook her head: "I didn't dare to fight, because I was about to give birth, and I was afraid that my parents would be worried. I thought that after I gave birth, I would save some money at the professor's house, and I would be able to take my child back to China.

But just as I was about to be sent to the delivery room to give birth, I was found to have a rare genetic disorder. "

"What disease?" Suzi asked.

"It is a group of diseases caused by genetic mutations. This disease is one in a million, rare in the world, and this disease was born to me. If I am not pregnant, or the child in my belly is not big enough To a certain extent, I wouldn't get sick. But as the fetus got bigger, and I was pregnant with twins, I got sick just when I was supposed to."

Suzi and Pan Mingsai: "..."

At this moment, neither of them knew what to say.

Suzi looked at Pan Mingsai.

Pan Mingsai is a medical student. She understands the profoundness of medicine and the number of intractable diseases around the world.

"There are billions of people in this world, many people, many people will get some strange diseases that even our doctors have never seen. Galia... How can sister Galia be so unfortunate?" Pan Mingsai held Galia in his arms.

She cried and cried: "Sister Galia..."
