

Campus Master Chapter 2971

“Young Master Wu, you ran into Ji Feng in the clubhouse?”

Hearing the frivolous voice coming from the phone, a thick murderous light flashed through Wu Zhiyong’s eyes, a cold light flickering.

He said in a cold voice, “Don’t you still know?”

That was a trap set by the other party, and now he was asking him like this, wasn’t this a deliberate attempt to humiliate him?

The other party said, “Oh, this is really a bit surprising, could it be that my luck is so strong this year that I would still have this kind of unexpected luck!”

Wu Zhiyong gritted his teeth and his face was gloomy. Although he did not understand the other party’s meaning, however, the other party’s smugness was evident.

This made his killing intent grow even stronger in his heart!

This trap that the other party had set for him had really threatened him. Just now, he received a phone call from Yanjing, from his second uncle, in which his second uncle sternly questioned him about what he had done in Jiangzhou that had caused the military to intervene in the investigation.

He had no words to say!

In the end, in the phone call, Second Uncle gave him a severe reprimand and ordered him to return to Northern Shaanxi Province immediately, which sent chills down his spine.

If he couldn’t get that old master, he didn’t know when his father’s illness would get better, and if it didn’t, then his position in the Wu family would be in ruins!

But now, even before he could hire the old master, he had fallen into someone else's scheme, how could he not be angry?

"Who the hell are you and what exactly do you want?!"

Although he was very deep in the city, he was used to being a superior person, so he could not stand the thought that someone would dare to set him up like this, so his power flowed out when he spoke.

However, this did not have much deterrent effect on the mysterious person on the other end of the phone, as the other party laughed after hearing this instead: "Young Master Wu, I want many things, but right now, the first thing I want is to make Ji Feng die!"

Wu Zhiyong froze for a moment, a look of dismay on his face.

"How about that, that's your idea too, right?!" The other party asked with a grunt as if he had expected Wu Zhiyong's reaction.

"I don't care what kind of grudge you have with Ji Feng, but, you should not involve me in this, moreover, now your actions are already provoking me over and over again!" After a brief moment of consternation, Wu Zhiyong said in a cold voice.

"You are wrong, I am not provoking you, as I said before, I am trying to make friends with you!" The other party said.

"What a load of nonsense!"

Wu Zhiyong rebuked, "With something like you hiding your head, you are also worthy of being friends with me?" The other party was setting up a trap to trap him, this was his enemy, at this Wu Zhiyong was extremely angry, it was always him who set up traps for others, he had never been set up before, this was the first time!

You can imagine how annoyed Wu Zhiyong was!

“You’re wrong!”

To this anger of Wu Zhiyong, the other party was unconcerned and said, “The enemy of an enemy is a friend, we both share a common enemy, Ji Feng, then, the basis for us to be friends is there!”

Wu Zhiyong caught some information from the other party’s words, but he was unsure whether the other party was saying that on purpose or whether he really had a grudge against Ji Feng.

“Since you want to be friends, then don’t play this game, you’re making me not see any semblance of sincerity from you!” Wu Zhiyong said in a cold voice, “Want to join forces with me no problem, come out and meet, so hide your head, I won’t be friends with people like you!”

“No way oh!”

The other party laughed twice and said, “Young Master Wu, don’t bully me, I’m such an unrelated person with no background, if I really met with you, then you wouldn’t tear me apart? It’s better for us to contact each other by phone like this!”

Wu Zhiyong frowned, the other party did not fall for it, which left him no choice, he had traced the source of the phone, but the result of the tracing found that it was a black card, and the signal tower used by the other party was still constantly changing its location, which meant that the other party was prepared, it was difficult to trace from that aspect.

So hearing that the other side was now saying they wanted to be friends again, Wu Zhiyong planned to meet with the other side – and if they were willing to meet, it would be the death of them!

But now, since the other party wasn’t falling for it, his plan was even out of the question, so he said coldly, “It seems your sincerity is very doubtful!”

And then, he snapped and hung up the phone. His face swirled into a grimace, this mysterious person who seemed to be everywhere had made his situation extremely passive and gave Wu Zhiyong a very heavy sense of crisis!

"I will find you, for sure!" Wu Zhiyong said coldly in his heart. But he did not know that after he hung up the phone, somewhere in Jiangzhou, someone was also having a conversation about him.

"Tsk, I really didn't expect that there would be such a surprise, Ji Feng actually went to that clubhouse too!" A male duck voice said, "I was originally just thinking of putting Wu Zhiyong up against the officials, but I didn't expect that Xiang Yongzhan would personally lead the team, and that Ji Feng would go there too... This is really bad luck for Wu Zhiyong!"

"Wu Zhiyong is indeed somewhat unlucky with his timing!" Another person said.

"Humph!"

That male duck voice snorted coldly and said, "His bad luck in time is because he met Ji Feng, and my bad luck in time is also because I met Ji Feng!"

The other man couldn't help but shake his head, he knew that this one had suffered from Ji Feng, so he had always been nostalgic about Ji Feng in his heart, and could even be said to be a bit paranoid.

"What are you going to do next?!"

"What to do? I'm going to make Wu Zhiyong and Ji Feng lose both of them!" That male duck voice said viciously, "Whether it's Wu Zhiyong or Ji Feng, Jiangzhou will become a sad place for them!"

"I still don't think we should be careless!" Another person said, "Whether it's Ji Feng or Wu Zhiyong, those are not simple characters, although Wu Zhiyong's status in the Wu family has declined now, but a thin camel is bigger than a horse, his energy is still very scary! As for Ji Feng"

"What kind of thing is Ji Feng? It's just a wild seed, I'll be afraid of him?!" The male duck voice said angrily, "Just watch and see how I play them both!"

Another person said in his heart, "I'm afraid you'll play with fire!"

.....

Ji Feng and Bai Zhu used the fastest speed to arrive at their destination, which was a villa area located in the western suburbs of Jiangzhou, a high-class villa area in Jiangzhou, not the kind of so-called mansions that are casually advertised, much less a high-class community that dares to advertise that it is surrounded by a river when there is a stinky ditch at the entrance.

On his way here, Ji Feng also did some understanding of this villa area, which is considered one of the real upscale neighborhoods in Jiangzhou.

At the very least, as far as housing prices were concerned, this place was definitely upscale!

But Ji Feng was more or less strange, after the incident, old Li did not hide, but still lived in this high-class villa area? Was he too slow to die?

On a small road some distance away from the district, Ji Feng saw Xiang Yongzhan, this guy was also in plain clothes, also not driving a military car, followed by the special combat brigade's soldiers, also dressed in the same way.

"Coming!"

Xiang Yongzhan opened the car door to let Ji Feng sit in, but then he frowned and asked, "You've been drinking? I should have known I wouldn't have let you come!"

Although Ji Feng had long since sobered up, the smell of alcohol on his body could not evaporate in a short time, and there was still some residual smell.

"It's fine, just a little bit of alcohol, it won't delay things!" Ji Feng said.

"If you were my soldier, if you were like this and still wanted to carry out your mission after drinking, I would have kicked you over long ago!" Xiang Yongzhan hummed, he was extremely strict with his subordinates, especially when participating in operations, that can kill you at every turn, in this situation must maintain absolute sobriety!

Ji Feng laughed and said, "Next time is not an exception! I was drinking with my friends at noon, but I didn't expect a sudden call from your side, so it's a good thing I didn't drink too much."

Xiang Yongzhan naturally knew that with Ji Feng's status he must have entertained a lot, and he understood, but now since it was an action, he couldn't help but think about Ji Feng's safety, so he said, "Then for the action later you just have to watch from behind, you can't make a move!"

Ji Feng nodded his head very readily and agreed: "No problem, as long as it's not necessary, I definitely won't make a move!"

"Yes definitely not to make a move!" Xiang Yongzhan said, "There is no need for you to make a move today either, we have enough people, not only are my people here, the intelligence department is also here!"

"People from the intelligence department are also here?!" Ji Feng was a bit surprised, "They are also going to participate in the operation?"

"That's right."

Xiang Yongzhan nodded, "This time they're not only going to take part in the operation, but it's mainly them and us, so you just need to watch from the back."

Ji Feng nodded and smiled, "No problem, then I'll be waiting for news of your victory!"

After a pause, Ji Feng asked, "Old Xiang, Old Li is here in the villa area?"

Xiang Yongzhan nodded and said, "According to the news from the intelligence department, he is here, and the intelligence department has already detected exactly which villa it is, and is now inside for the final deployment of the operation."

Ji Feng frowned, "Don't you think it's a bit strange? If it was really Old Li's men who kidnapped Professor Yu, or if he was involved, then he's still not running away now? Instead, he's still hiding here?"

Xiang Yongzhan shook his head and said, "There's nothing that doesn't make sense, it's simple, maybe he thinks the most dangerous place is the safest place, or maybe he still has unfinished business here, all sorts of possibilities!"

Ji Feng nodded his head and said, "That's right too! Anything we say now is just speculation, once we catch the person, everything will be clear once we interrogate him."

Time passed, and in a flash, they had been waiting here for almost an hour.

"Buzz~!"

Xiang Yongzhan's eyes suddenly snapped open, "The action has begun! Ji Feng, we'll go first, you can just follow behind!"

Ji Feng nodded and said, "Don't worry, I'll give you guys a head start!"

Campus Master Chapter 2972

Xiang Yongzhan drove into the villa area with his men, but strangely enough, they were not questioned by the security guards at the entrance. Ji Feng guessed that they must have already bought off the security guards at the entrance before, or had some special pass.

However, Ji Feng did not find any pass in Xiang Yongzhan's car, so he thought it should be because Xiang Yongzhan had already communicated with the security guards of the district before this.

This makes Ji Feng heart can't help but secretly wake up, very often, no matter for the company or for the community, security guards are responsible for the first line of defense for security, if something goes wrong here, then the next will probably be a collapse of a thousand miles!

So, in the future, no matter what, we must pay attention to security guards.

This reminded Ji Feng of the Tengfei Group, relying on Yi Xingchen's dispatch alone wouldn't work, if something went wrong with one of the security guards, it might cause a bigger problem.

As their minds wandered, Ji Feng and Bai Zhu also walked inside the villa area, except that both of them were wearing sunglasses and their collars were up, which looked cool but made it impossible for the security guards to see their faces clearly, and it seemed that the security guards at the post didn't suspect them, they just looked at them twice in a somewhat strange manner before passing by.

"Young Ji, the security guards here are so irresponsible!" Bai Zhu couldn't help but say, compared to the security guards in the district they lived in now, the security guards here were obviously a bit less competent.

"I'm afraid they're not irresponsible, but they've been bought and paid for before!" Ji Feng said.

Bai Zhu shook his head, but was very unimpressed.

Even a fool could see that Xiang Yongzhan had brought so many people into the community, so they were definitely going to make a move, and once there was a move, there was no way there would be no movement at all, but I'm afraid the security guards hadn't thought that if there was even the slightest accident in the community, it would be their responsibility!

I'm afraid that when the time comes, they won't have the guts and courage to take responsibility.

"Young Ji, they've gone over there!" Bai Zhu pointed to a road on the right and said, "Should we keep our distance from them?"

"Follow them, just keep a little distance!" Ji Feng said. Although he wasn't taking part in the action, he wouldn't just hide behind and watch the action.

Xiang Yongzhan led the Special Combat Brigade's warriors all the way forward, and the two of them followed right behind Ji Feng. Eventually, Ji Feng noticed that Xiang Yongzhan and the others had reached a green belt and stopped, and Ji Feng immediately said, "Bai Zhu, stop!"

“Buzz~!”

With the vibration of his mobile phone, Ji Feng saw the message sent by Xiang Yongzhan.

“Ji Feng, just watch from the back, don’t get too close!”

“This guy!”

Ji Feng couldn’t help but shake his head and laugh, Xiang Yongzhan’s stubbornness in certain aspects was unmistakable at this moment.

However, Ji Feng did not intend to bother with him, but on the contrary, he still had some appreciation. Without this stubbornness, I am afraid that even if Xiang Yongzhan had the care of the Xiang family and this background, he would not be able to go too high.

The first thing you need to do is to get back to the police, but you don’t need to get closer. In fact, he was originally planning to give Xiang Yongzhan and the others a chance to take the lead from behind.

Unless something goes wrong and he can help pick up the pieces on the side, that’s fine!

“Still lacking an official identity!”

Ji Feng couldn’t help but sigh. The moment he encountered an operation this problem became more and more prominent, especially during this recent period, dealing with the police and the military more often, and an official identity became more and more important.

However, the status of military advisor given to him by Jiefang has no authority to command operations, in fact, it is only a civilian titular position!

This made Ji Feng just couldn’t help but feel more or less tied up every time he was in action, making him quite restricted, but whether it was the police or the military, yet it was the most demanding unit, if

you didn't have the authority to do so but took part in an operation, or carried out something alone, it was a crime.

The October bar bombing is the best proof of that!

Even if Ji Feng traced it to the October Bar at the time to track down Professor Yu, but once something happens or something goes wrong, you are suspect in the eyes of the police!

"If you go on like this, you'll either be a private detective or turn into a black`gang!" Ji Feng shook his head helplessly, whether it was a private detective or a black`gang, that is without a license but always have to do something, when you think about it, he found that he was really too similar to these two kinds of people.

"In fact, it's not even better than a black`gang!" Bai Zhu suddenly said.

"What?!" Ji Feng was stunned.

Bai Zhu said, "When people from the black`gang do things, the police will turn a blind eye to it, or even pretend not to see it even if they happen to encounter it, but even if you are the owner of the Tengfei Group and a son of the Ji family, the police will summon you as usual when they say so!"

Ji Feng froze, couldn't help but nod bitterly and said, "You're absolutely right." He thought of Li Ruonan, this woman can really be no different from what Bai Zhu said!

"Look, young Ji, there are people in the car over there, I don't know if it's the other way!" Bai Zhu suddenly said.

"Where?"

Ji Feng immediately looked in the direction she pointed, and immediately found that there were several cars parked in the distance, and in one of the cars in front, there seemed to be people in it, as if someone was inside, but the windows and doors were tightly closed, and it was still in the neighborhood, which made it seem strange.

He nodded slightly and said, "It should be someone from the intelligence service!"

Since they had found the people from the intelligence department, the target of the operation was now self-explanatory, just looking at where they were and where the people from the intelligence department were, the most suitable place to attack was in the two villas between them, but which villa Old Li was in specifically, Ji Feng was still unknown for the time being.

"It's impossible to run away!"

Bai Zhu said, "No matter which one the person is in, there's no way to get away!"

These two villas are joint villas, no matter which one the person is in, if they are blocked back and forth by the people from the intelligence department and the special operations brigade, there is absolutely no way to escape!

Ji Feng, however, shook his head and said, "Fear is" He didn't finish his sentence immediately picked up his phone and sent a message to Xiang Yongzhan.

"Old Xiang, when people target hostages!"

The front is a townhouse, agile people can easily jump from this home to the balcony of that home, and the villa is only a total of two and a half floors, even if they fall, they can not fall to their death, so there is no question of daring to jump.

What's more, now that we are in a life-or-death situation, we dare to jump into the sea, not to mention jumping onto the balcony!

Xiang Yongzhan didn't reply, but Ji Feng could be sure that he must have received the message, just that it was definitely not convenient to reply in the middle of the action.

"Why haven't they done anything yet? Always waiting here, in case the other side finds out, wouldn't it be a problem?!" Bai Zhu frowned.

“Don’t be anxious, they must have their own considerations!” Ji Feng said in a deep voice.

Bai Zhu nodded slightly, while paying attention to the military’s actions, she was also extremely vigilant in looking around, this was the result of habit, despite not coming from a bodyguard background before, but after following Ji Feng for a long time, there was a considerable increase in vigilance, so when she arrived here she was also habitual in eliminating danger first.

“Action!”

Ji Feng suddenly said in a deep voice.

Bai Zhu immediately turned her head to look, and she found that the doors of the special operations brigade’s vehicles were all open, and a group of people quickly got out and rushed towards one of the villas, and the cars in the distance also got out and rushed over as well.

This time Bai Zhu was even more alert, while Ji Feng was frowning and looking carefully, looking at the direction the Special Combat Brigade’s soldiers and the intelligence department’s people were rushing, it seemed to be the villa on the left, but that villa looked like it was vacant, except for the windows left by the developer when they handed over the house, there weren’t even curtains inside, it was completely a rough house, it didn’t even look like it was occupied!

A blindfold?

This thought flashed through Ji Feng’s mind, and he was watching, but he heard a snap, then he saw the living room door of the villa on the right suddenly open, and a man walked out quickly and yelled at the Special Combat Brigade’s soldiers and the intelligence department, “Hey! What are you doing!”

“Restrain him!”

A loud shout rang out, followed by two men rushing towards the man, and then the man shrieked, “What are you doing? Robbery! Robbery!”

“Boom~!” The man just screamed twice before he was knocked down with a punch!

“Woo~”

He cried out in pain on the ground, but he couldn't stop the other warriors at all, and instantly opened the door of the villa on the left and rushed in.

However, Ji Feng, who saw this scene, could not help but frown furiously and was shocked, “It's him?!”

Bai Zhu immediately asked, “Young Ji, who is it?! Was it caught?!”

“No!”

Ji Feng slowly shook his head, but his gaze never left the guy who was pinned to the ground by the two warriors, his heart was extremely stunned and puzzled at the same time, “How could it be him?!”

The person who suddenly walked out of the villa on the right and shouted was no other than the general manager of the South Guangdong Brilliant Group, Zhai Yadong!

Ji Feng believed that he would never be wrong, this middle-aged man being pinned to the ground was definitely Zhai Yadong!

But this made him more and more confused, and he really couldn't understand it, wasn't Zhai Yadong working as his general manager in South Guangdong? How could he suddenly appear in Jiangzhou? And, in such a situation?

More importantly, how did Zhai Yadong suddenly appear in the villa next door to the person the military wanted to arrest, that was the point!

“Wu Zhiyong, Brilliant Group, Zhai Yadong” Ji Feng's mouth kept reciting these names over and over again, his brain racing, hoping to find out what this had in common.

Skip to conten

Campus Master Chapter 2973

Zhai Yadong was instantly restrained, and the men from the intelligence department rushed into the villa on the left together with the fighters from the special operations brigade, while leaving some of them outside in case anything came up outside, an action that was all too easy for them to handle.

However, Ji Feng's attention was not on the left side, but on Zhai Yadong and the villa that Zhai Yadong had rushed out of.

Suddenly, a figure flashed through the gap in the curtains of the villa on the right, and Ji Feng's heart was suddenly struck, and then he jerked open the car door and said loudly, "There's someone in the villa on the right! Charge in!"

However, the people involved in the operation looked at Ji Feng, but no one listened to his order.

Ji Feng snorted coldly and dashed towards the villa on the right with lightning speed, he suspected that this was a blindfold, the rough house on the left was probably empty and the person might be hiding in the villa on the right.

"What are you doing! Back off!" However, the soldiers and intelligence people on the scene saw Ji Feng rushing over, but they came to stop him, while shouting a rebuke.

"The man is in the house on the right!" Ji Feng shouted, "Charge in with me and grab the man!"

"No!"

A young man shouted, "Back off, this is none of your business here!"

Ji Feng's face sank as he snapped around the man while shouting, "Special Combat Brigade fighters, follow me in!" Since he couldn't command the people from the intelligence department, there were many warriors from the Special Combat Brigade that he was familiar with, and they knew his identity, so Ji Feng could only shout at them.

Sure enough, there were two warriors who followed Ji Feng and rushed over.

“How dare you!” Zhai Yadong struggled and was about to get up, but he was kicked down by one of the warriors.

The original right villa door had already been opened by Zhai Yadong, so Ji Feng led the two warriors and rushed straight in. At the same time, Ji Feng had already activated the bio-current to act on his eyes, and his penetrating eyes quickly swept through and found that there was no one on the ground floor, so he immediately led the Special Combat Brigade warriors to rush towards the first floor.

“Who are you people and who let you in!” A loud shout suddenly rang out from upstairs, and then a man was seen stomping down, directly meeting Ji Feng and the others at the turn of the first floor.

“It’s you?!”

That voice was stunned, and then roared angrily, “Ji Feng! Who gave you the right to trespass? Get out!”

Of course, Ji Feng had seen the person who spoke, and it was Shao Jie!

“Search!”

Ji Feng shouted, while coldly staring at Shao Jie, but in his heart he was puzzled, while his mind was turning rapidly, how could Zhai Yadong and Shao Jie both appear here at the same time?

The two soldiers of the special operations brigade naturally paid no attention to Shao Jie, hearing Ji Feng’s order, they immediately rushed up and searched from room to room.

When Shao Jie saw how reckless Ji Feng was, he was furious, his face turned blue and he roared, “Ji Feng! You’ve gone too far!” Saying that, he actually reached out to come and grab Ji Feng’s collar, while trying to push Ji Feng outwards.

“Excessive, you bastard!”

Ji Feng roared in anger and flung his hand and slapped Shao Jie's face fiercely, with a snap, Shao Jie instantly slapped on the ground and let out a miserable scream.

Covering his face, he stared at Ji Feng with resentment and roared, "Ji Feng, you dare to hit me, you seek death!"

Ji Feng stared at him fiercely and said in a cold voice, "If you dare to speak half a word again, I'll waste you now! Say, why are you here?!"

"It's none of your business where I am!" Shao Jie said angrily, but although he was angry, Ji Feng's ice-cold expression made people's hearts tighten, but he didn't dare to say any more excessive words.

"You wait!"

Ji Feng gave him a cold look, "You'll have to suffer later!"

Shao Jie's heart chilled, but he didn't dare to say anything else.

Ji Feng no longer cared about him, but used his Perspective Eye to scan the surroundings, hoping to find any suspicious people or any suspicious items. Since he had already rushed in, it was natural to look thoroughly first, and as for the consequences, let's wait until later!

However, after looking carefully for a while, Ji Feng did not see anything wrong. A few moments later, two soldiers came down from the upper floor and shook their heads slightly at Ji Feng.

Ji Feng's eyes narrowed for a moment and looked down at Shao Jie, who coldly snorted, a smug look flashed in his eyes and said with a cold smile, "Ji Feng, I'll see how you end up this time!"

"Looks like you're very confident!" Ji Feng stared at him.

“I don’t understand what you’re saying, I only know that you’re going to be unlucky, trespassing and beating up old people for no reason, I won’t let you off!” Shao Jie said with gritted teeth and resentment.

“Whatever!”

Ji Feng coldly snorted, pointed at Shao Jie and said, “Arrest him!”

Shao Jie was shocked at his words and roared, “Ji Feng, how dare you! Who are you to arrest me?”

The two soldiers didn’t hesitate in the slightest, the words “obey orders” were displayed in their bodies, they didn’t allow Shao Jie to resist in the slightest, they directly subdued him and controlled him.

Only then did Ji Feng ask: “Have you searched the upstairs carefully?”

A soldier nodded and said, “All have been searched.” He didn’t say the following words, but it was obvious that nothing had been searched, but such words were usually not said in front of outsiders, because that would put the person giving the order in a passive position.

Ji Feng nodded and said, “Take him out and control them all along with that person outside, but don’t let the two of them be together and don’t let them have any communication.”

“Yes!”

The two warriors nodded and answered.

Ji Feng let them take Shao Jie out first, and prepared himself to go back up to the first floor to search.

Shao Jie shouted angrily, “Ji Feng, you have a personal vendetta and are deceiving people too much!”

Ji Feng snapped back and stared at him, saying in a cold voice, "How did I take personal revenge? Tell me!" Shao Jie's words made Ji Feng's heart stir, how did he know that he was holding a personal grudge and not seeking revenge in private? You know, those two soldiers were both wearing civilian clothes!

Shao Jie seemed to have realised that he had lost his tongue, and then he didn't say a word, just stared at Ji Feng with resentment.

"Not saying anything? It doesn't matter, you'll say it sooner or later!" Ji Feng said coldly, "Take it away!"

"Go!"

The two soldiers pressed Shao Jie and walked out, Ji Feng coldly snorted and went up to the first floor.

He arrived at the first floor and used his penetrating eyes to carefully observe. But in the end, he didn't find anything useful, let alone find anyone hiding anywhere, and he couldn't help but frown.

Ji Feng thought to himself, "Could it be that it is really a coincidence that Zhai Yadong and Shao Jie are here now? But why would it be here?"

There was also Wu Zhiyong, whose appearance in Jiangzhou was also strange and seemed very abnormal.

Zhai Yadong and Shao Jie were the general manager and assistant of the Brilliant Group, which belonged to the Wu family, respectively, and Wu Zhiyong had also come to Jiangzhou

Ji Feng felt as if he had touched something, but for a moment he had no clue.

After carefully searching the upstairs and downstairs, Ji Feng did not find anything wrong, so he had no choice but to leave the villa, but the doubts in his heart did not diminish by half.

As soon as he came out, he saw that there were already people standing outside, Xiang Yongzhan and the others were standing on the lawn outside, seeing Ji Feng come out they all looked over, looking as if they had been waiting for him to come out.

“Ji Feng, what are you doing?”

Seeing Ji Feng come out, Xiang Yongzhan immediately walked over and asked with a frown, “How did you get them arrested? Isn’t this nonsense on your part?”

“Nonsense? I don’t think so!”

Ji Feng coldly snorted, “Do you really think so?”

Xiang Yongzhan frowned and said, “Have you been drinking too much? What we want to catch this time is not those two people!”

Ji Feng shook his head and said, “Let’s talk about this matter later, how is your operation going? Have you caught anyone yet?”

As soon as this was mentioned, Xiang Yongzhan looked pensive, shook his head slightly and said, “No, there was no one inside, but some household utensils were found inside, and after probing with the infrared detector, it was found that there was still heat left on some household utensils, and there was also a cigarette butt that had just been extinguished!”

Ji Feng’s eyes narrowed at once: “Did you send someone to search?”

There was no doubt that since there was residual heat present on the household utensils, and there was also a cigarette butt that had just been extinguished, all these signs indicated that the person inside must have just left, and obviously not far away!

“We have now sent people around to search, and have also retrieved the skynet cameras to extend the range to five kilometres around, so hopefully we can track them down!” Xiang Yongzhan said with a

sullen face, he was also a bit annoyed, again just one step away, just one last step away from catching the person!

“Let’s hope we can catch it!”

People have already run away, although not far away, but there is some difficulty in trying to catch them, like this kind of people in advance must have retreat, especially now the transportation is really too fast, driving words with this western suburbs traffic situation, five kilometres I’m afraid it won’t take much time to go out.

“Ji Feng, what are you going to do with those two people?!” Xiang Yongzhan suddenly asked.

“I suspect they have problems!” Ji Feng said, “Don’t you think that it’s too much of a coincidence for them to appear?”

“It’s too much of a coincidence!”

Xiang Yongzhan nodded and said, “But it’s hard to catch them with just that, after all, their identities are not ordinary either!”

Zhai Yadong and Shao Jie were here now, how could Xiang Yongzhan not suspect? But suspicion was suspicion, but without evidence, it would be a bit improper to try to arrest them.

Ji Feng frowned and said, “You still care about their identities? As long as there is suspicion, that’s enough!”

“That’s true, but there’s still the Wu family standing behind them!” Xiang Yongzhan said, “Moreover, those two people are saying that you have a personal vendetta, if they are really arrested, when the time comes, not only will the Wu family be in trouble, you will also be in trouble!”

If it was to others, involving military secrets, absolutely just suspicion is enough to arrest people, but, now the Wu family’s old man is still around, the influence is also there, there is evidence that arrests, but now there is no evidence, if really arrested Zhai Yadong and Shao Jie, is to give people shame!

“A personal vendetta! How does he know that I have a personal vendetta?” Ji Feng said in a cold voice, “He already said so when he was in the house, how did he know that you guys were public?”

Skip to conten

Campus Master Chapter 2974

Xiang Yongzhan’s face instantly sank, “You suspect that he knew we were coming?”

Ji Feng shook his head, “That’s not necessarily true. However, he at least knew that you guys were coming, it’s possible that he got the news in advance, or it’s possible that he found out when you guys were ambushed around! Of course, it’s unlikely that he got the news in advance.”

After all, this was considered a semi-military operation, if Shao Jie and the others had known about it in advance, it would mean that someone within the military had leaked the news, but this was a temporary operation, if this was the case and Shao Jie was still able to get the news in advance, it would mean that his inside man must be among the people involved in this operation.

But this possibility was too small.

Xiang Yongzhan said in a deep voice, “Arrest! I’ll interrogate them personally!”

Ji Feng nodded and said, “In addition, these two villas should be carefully searched by people and also secretly sent to monitor them, we can’t always be one step slower like this, so we can never catch anyone!”

“You’re right!” Xiang Yongzhan nodded his head and said, “I’ll arrange for someone to do it right now! But you should also be mentally prepared, if you can’t interrogate anything important from those two people, then you might really have to get a reputation as a personal vendetta.”

“I’ve even carried the reputation of being a murderous maniac, so I’m still afraid of a personal vendetta?!” Ji Feng said.

“Good!”

He knew that Ji Feng was talking about the storm that happened some time ago when someone secretly slandered Ji Feng because of the incident on Treasure Island, "If you dare to take it on, then naturally I am even more obliged as a soldier, I will carry this matter!"

Ji Feng said, "Let's not talk so much first, I'll go next door and take a look!"

Xiang Yongzhan nodded, "Be careful, the scene has been protected, don't destroy it!"

This time the operation fell through again, both of them were not in too good a mood, one day without catching Old Li meant one day without finding Professor Yu, and the possibility of secrets leaking would be a bit higher.

But this is still the second most important thing, the intelligence department plus the special operations brigade at the same time, but still can not catch a Lao Li, this is definitely a great test for the military's ability, can even be said to be a bit of a slap in the face!

Xiang Yongzhan is fierce to find Old Li, now since Shao Jie is somewhat suspicious, there is nothing more to say, arrest and interrogate!

As for the Wu family behind those two people, Xiang Yongzhan really wasn't afraid, even if the lawsuit was taken to the central head, he would still have a case to make!

Before Ji Feng went to the next villa, he glanced at Shao Jie and Zhai Yadong, and found that Zhai Yadong was sitting on the ground a little angry, but also a little downcast, while Shao Jie was staring at himself with resentment, the slap marks on his face extremely obvious!

After a cold glance at them, Ji Feng turned around and went to the villa on the left, he had just arrived at the door when he found a soldier pulling the cordon and said to him; "Chief, the scene inside has been secured, you see"

Ji Feng nodded and said, "Good then, since it's already protected then I won't go in, the inside must be protected, but also search carefully, you might be able to find something useful!"

“Yes!”

The soldier answered.

Ji Feng nodded and didn't go in again, he wouldn't cause trouble to these soldiers' work because of his insistence, so he turned around and left.

At this time Zhai Yadong and Shao Jie were being escorted to the car, and while walking Shao Jie was still shouting angrily, “Do you know who I am? I will make you regret it”

Boom!

As a soldier slammed a fierce fist into Shao Jie's waist, a painful pain almost made him pee, and his voice came to a screeching halt. And then, he was thrown into the car, like a dead dog.

He only said that he saw our actions from the window and saw that we were probably from the public, that's why he said you had a personal vendetta!”

Ji Feng frowned and asked, “Is that what he said?”

Xiang Yongzhan nodded, “That's right, that's what he said! Whether what he said is true or not, this explanation can make sense!”

“It makes sense, but it's also far-fetched!” Ji Feng said, “Are you still going to try?”

“Of course I'm going to try!”

Xiang Yongzhan said.

Ji Feng said, "Then you have to be quick, if the Wu family gets wind of it, then it's likely to come and stop you!"

Xiang Yongzhan also realised this possibility, he nodded and said, "I'm going back, what about you, are you coming along?"

Ji Feng thought about it and nodded.

The rest of them started to retreat. Xiang Yongzhan had already sent someone to inform the Jiangzhou police that no police would come here even if there was a big commotion, and there was a cordon around, so those residents of the district who heard the commotion and gathered in the distance to see what was going on would not come close.

The people who live here are rich people, they know better than to touch some things, watching the hustle and bustle also need to be divided into occasions, so they quickly dispersed, of course, some people stand in their own upstairs windows to sneak a look, it does not matter.

On the way back Ji Feng suddenly said, "By the way, we should send people to go door to door, maybe someone knows Old Li's movement!"

This is a common trick used by the police, although slow and stupid, but quite useful.

Xiang Yongzhan said, "Don't worry, I've already sent someone there."

Thinking carefully about whether there were any more oversights, the two of them deliberated all the way to the military compound, where Ji Feng went directly to Xiang Yongzhan's office, while Xiang Yongzhan immediately interrogated Shao Jie and Zhai Yadong.

However, they did not get the results they wanted from Shao Jie and Zhai Yadong. Shao Jie still stuck to his original story, stating flatly that he had seen the action below from the upstairs window, so that was why he realised it must be a public action.

Moreover, Shao Jie insisted that he had a grudge against Ji Feng, and that this was Ji Feng taking revenge on him.

“Revenge against him?!”

Ji Feng said coldly, “If I want to take revenge on him, is there any worse means than this?!”

Xiang Yongzhan said, “But the problem is, he is now sticking to this statement, biting off more than he can chew, unless drugs are used, then it really may not be possible to pry his mouth open!”

“Use drugs?”

Ji Feng asked in a deep voice, “Any concerns?”

Xiang Yongzhan sighed lightly and said, “After all, their status is not ordinary ah, that Zhai Yadong is also considered a distinguished entrepreneur, is a certain influence, and the most important thing is the Wu family behind them.”

Ji Feng nodded slightly, he also knew that now the military was actually not the same military that could interrogate anyone in the past, at the very least, all forces were now seeking a balance, and the military was no exception.

What’s more, the Xiang family was not alone in the military, and I’m afraid that there were quite a few people staring at the seat underneath Chief Xiang’s buttocks.

“Or else, let me do the trial instead?!” Ji Feng said, “No drugs will be used, but the two of them will suffer some torture.”

“Are you sure?” Xiang Yongzhan didn’t answer hastily, but asked.

“At least it won’t leave traumatic injuries.” Ji Feng said, when it came to interrogation he had too many ways to do it, it would just definitely cause some consequences, but there would definitely be no trauma.

“Then

Xiang Yongzhan just wanted to speak, his phone suddenly rang, he took out a look, can’t help but frown: “It’s the head of the military district!”

And then he immediately picked up the phone, and a moment later, his face sank.

“What’s wrong?”

When Xiang Yongzhan hung up the phone, Ji Feng asked.

Xiang Yongzhan shook his head and said, “The interrogation can’t go on, it was the head of the military district who called just now, the top already knows that we have arrested Shao Jie and Zhai Yadong, asking if we have any evidence, if there is no evidence we have to release them immediately, now the head is on his way here!”

Ji Feng’s face sank.

Xiang Yongzhan patted him on the shoulder and said, “Look for another chance!” In his heart, he actually thought that Ji Feng’s insistence on interrogating Shao Jie and Zhai Yadong might have other intentions as well.

After all, the feud between Ji Feng and the Wu family was clear to Yongzhan, and he had also heard about what had once happened in Southern Guangdong.

In the end, both Shao Jie and Zhai Yadong were released, and the head of the Jiangzhou Military Division arrived in person, and although he did not criticise Xiang Yongzhan, there was a reprimand in those words.

“Ji Feng, you wait, this is not over!” When Shao Jie was leaving, his eyes were extremely resentful and he gritted his teeth.

Ji Feng didn't even pay attention to him, Shao Jie was even more furious when he saw this, but there was nothing he could do, he knew that he definitely couldn't move Ji Feng by coming openly, unless Ji Feng had really made a big mistake. But now, he could only leave in disgrace.

Xiang Yongzhan was also a bit annoyed and as soon as the people left, he immediately said, “Check! I'll arrange for someone to find out about the villa they were in and why they were in that villa!”

Ji Feng shook his head, “Check Old Li first! Old Xiang, didn't the intelligence department already determine that Old Li was in that villa? How come they still came up empty?”

Xiang Yongzhan didn't know why, but he gritted his teeth and said, “I'll go and transfer all the information here, let's recheck!”

Soon, Xiang Yongzhan transferred the information and also brought a message: “The intelligence department people are also suspecting, so they rechecked again, including the people and cars that came in and out during that time, all of them were carefully checked, no old Li was found to have left, he was indeed near that villa!”

Ji Feng said, “Let's check again!”

They went through all the information first, and then started to carefully look at the surveillance footage again.

“Look, this is Old Li, he entered the villa!” Xiang Yongzhan said, pointing to a man on the screen.

“Look down!”

The duo stared at the screen carefully until the footage was finished, and there was no sign of Old Li leaving, and when they looked at the time again, it was even past the time they had acted.

Ji Feng jerked his head up and said, "Old Xiang, we might have neglected it!"

Xiang Yongzhan also realised something and said, "That's right! Old Li hasn't left that villa area, he's probably hiding around there!"

"Go back immediately!"

"Notify the people on duty at the scene to carefully search the area immediately!"

Skip to conten

Campus Master Chapter 2975

When they realized that it wasn't the intelligence department's people who hadn't checked correctly, but rather the slightest negligence that might have caused the target to slip away, Ji Feng and Xiang Yongzhan didn't say a word, they rushed to the villa area in the western suburbs at top speed!

On the way, Ji Feng said, "Old Xiang, don't rush first, calm down, the good thing is that your people and the people from the intelligence department are still around there now, there are still people on guard there, so Old Li might not have thrown out yet, it should still be too late to mend the fold now, but we must calm down ourselves first!"

I'm afraid that a large part of the reason for some of the previous oversights was that they had acted in too much of a hurry, and by not calming down themselves, they were prone to negligence and were not as meticulous.

Now, even if they are in a hurry, it is impossible to reach that villa area in the western suburbs in one step. Since this is the case, it is better to calm down and deliberate carefully first to see where there are still any oversights.

After all, the matter had already come to this point, so it was useless to be anxious even if we had already made a mistake.

Xiang Yongzhan said in a deep voice: "Ji Feng, this time it was my carelessness."

Ji Feng waved his hand and said, "Now is not the time to blame yourself or pursue responsibility, think again, what other intelligence did you not pay attention to before, or what you overlooked!"

Xiang Yongzhan thought carefully for a while before he slowly shook his head and said, "For the time being, there is no more, about this case of Professor Yu, all the circumstances have been understood clearly, other information and intelligence that is Professor Tong's case, this case now has a special person in charge."

The special warfare brigade is not a case investigation brigade, Xiang Yongzhan just does not have a combat mission right now, that's why he will assist the military district and the intelligence department to pursue these key cases, when there is a mission, then he will immediately leave these cases to carry out the mission.

Investigating cases is not all, there are many more important things to do. That's why Xiang Yongzhan wasn't in charge of a particular case, but had someone else in charge of it.

"But I can guarantee that as long as the information is sent to me, there should be no omissions!" Xiang Yongzhan said.

"That would be best!"

Ji Feng nodded slowly and said thoughtfully, "In that case, that villa in the western suburbs was the last place Old Li appeared, and the timing of that footage was still after our actions, which means that even after we had left for a while, Old Li still hadn't left!"

Xiang Yongzhan nodded and said, "You watched the video just now, it's exactly right!"

"Then it means that Old Li must have a hiding place in that villa area, and it's a hiding place that we don't know about!" Ji Feng asserted.

"The villa next door?!" Xiang Yongzhan blurted out.

The houses in the villa area were somewhat scattered, and the roads were wider than those in the neighborhoods in other parts of Jiangzhou, surrounded by green belts. Since the intelligence department's people had already ambushed there, it was unlikely that Old Li would run away to somewhere else, and the villa next door should be his hiding place.

However, Ji Feng shook his head, "I've searched the villa next door carefully and found nothing!"

At first he suspected the same thing, but the villa next door where Shao Jie and Zhai Yadong were located he had searched, and did so with his penetrating eyes, and found nothing.

Xiang Yongzhan's brow couldn't help but frown: "Then where can it run to?!"

Ji Feng said, "Take another look in the field, maybe we'll find something."

Xiang Yongzhan nodded slightly, this was all that could be done now.

They once again went to the villa area, but this time Xiang Yongzhan didn't bring many people with him, he just brought two soldiers, one was responsible for driving and the other drove a military SUV, just in case.

After arriving at the villa area, they went straight to the villa where the target was located. There were still soldiers on duty at the scene, and they saluted when they saw Xiang Yongzhan.

"How's the situation?!" Xiang Yongzhan asked.

"Report, nothing unusual!" The soldier replied.

Xiang Yongzhan turned his head and looked around, and said in a deep voice, "Keep an eye on these two villas, and carefully inventory the surrounding areas, including the whole neighborhood, search carefully, don't miss anything!"

"Yes!"

Several soldiers began to search around immediately, each responsible for a different direction.

Ji Feng also casually skipped around, his eyes sweeping the surrounding green belt, as well as around the villas. But at this moment, he suddenly felt someone staring at him, and he immediately looked up, only to find Shao Jie staring at him with a grim face from the first floor window of the villa on his right.

Seeing that Ji Feng had already noticed, Shao Jie pointed at him through the window and seemed to say something out of his mouth. Although he couldn't hear the sound through the window, he couldn't hide it from Ji Feng, Shao Jie was cursing an expletive!

Ji Feng said in a cold voice: "If you have something to say, say it openly! If you have anything to say, you can come down! Don't hide up there with your mouth full of shit!"

"Hula!" A click.

The window was pulled open, and Shao Jie said in a cold voice, "What are you doing here? I haven't settled the previous score with you yet!"

Ji Feng gave him a cold look, "Shao Jie, don't get too complacent. Don't let me find out that you have anything to do with this matter, or else no one will be able to protect you!"

Shao Jie's face looked a little ugly as he gritted his teeth, "You'd better mind your own business!"

"Shao Jie!"

Another voice came, but I saw Zhai Yadong's figure appeared next to Shao Jie, he poked his head out to look at Ji Feng and said, "Young Ji, sorry, Shao Jie is young and easily impulsive, he said some inappropriate words, don't take it to heart!"

Ji Feng glanced at him and turned around to continue skulking around. This Zhai Yadong was clearly talking with his eyes wide open, Shao Jie was young and didn't know any better? Is forty years old considered an adult?

Seeing that he was actually ignored by Ji Feng again, Shao Jie suddenly turned blue and opened his mouth to say something, but he was stopped by Zhai Yadong.

Ji Feng ignored him, but it didn't mean that Xiang Yongzhan was also a good-tempered person, he glanced at Shao Jie and said in a cold voice: "Don't take yourself too seriously, even Wu Zhiyong wouldn't dare to be so reckless here!"

Shao Jie heard this and said angrily, "You are the ones who are unrestrained! I live here in peace, who suddenly broke into my house and who beat me up? I'm telling you, I've already called the police, so you'll"

"Didn't anyone ever tell you that you have a terrible voice? Don't dirty my ears here!" Xiang Yongzhan said in a cold voice.

"What did you say?" Shao Jie gasped, "Don't think that just because you're a soldier I"

"Don't you dare burst out another half word from your teeth!" Xiang Yongzhan's face sank.

Shao Jie choked for a moment.

Xiang Yongzhan glared at him, the disgust in his eyes undisguised. It was true that this man had a knot with Ji Feng, but Ji Feng's arrest of him was justifiable, but this man had the intention to interfere with their search, which made Xiang Yongzhan a little angry.

The Wu family's dog is just a dog, how dare he speak out here?

Ji Feng's speed was not fast, no different from walking, but his sight was sweeping through the surroundings without listening, with his perspective eye opened, everything around him could not escape his sight, including the rubbish that was thrown in the green belt, but he just did not see any trace of someone walking by.

But Ji Feng was not in a hurry. I'm afraid that in terms of patience, not many people could compare with his patience honed from the training space of his intelligent brain, so he was still walking calmly.

There were too many traces at the scene to be seen just by looking at this, and Ji Feng didn't intend to be able to easily determine how many people had walked the scene, how many complete tracks there were, etc. like those criminal investigation experts.

He only needed to see if some of the places that weren't long gone were traces of someone passing by, and that was all.

Unknowingly, Ji Feng had already walked around the two villas and returned to the original point, still seeing Shao Jie's resentful look again, but he ignored it, now was not the time to clean up this person, a character like Shao Jie, normally just educating him would not be of any use at all, if there was an opportunity to kill him with a stick!

"Ji Feng, did you find anything?" Seeing Ji Feng walking back, Xiang Yongzhan asked in a low voice.

"Not yet."

Ji Feng shook his head and said, "I'm going to take another look."

Xiang Yongzhan said in a low voice, "Maybe, we really missed a good opportunity, the target might have already left this neighborhood."

Ji Feng said; "Unless that Old Li can fly and disappear!"

From the CCTV footage there was no sign of Old Li leaving at all, so how did he leave? Unless Old Li could fly, or go through the underground!

Wait!

Ji Feng suddenly froze for a moment, through the underground?

..... sewers?

When thinking about this Ji Feng suddenly couldn't help but feel a stir in his heart, and turned his head sharply to look at the villa on the left, his brow furrowed tightly.

When Xiang Yongzhan saw this he couldn't help but ask: "What's wrong?!"

Ji Feng lowered his voice and his eyes sharpened, "Old Xiang, did you really search this villa carefully?"

Seeing how serious he was speaking and how serious he looked, Xiang Yongzhan nodded and said, "Of course I searched it, and I searched it carefully, there are just some simple living facilities inside, it's empty, there's no place to hide anyone at all."

"What about underground?!"

"What?!"

Xiang Yongzhan couldn't help but freeze for a moment.

Ji Feng asked in a deep voice, "What about underground? Underground of the villa, is there any possibility to hide people?"

Xiang Yongzhan was stunned, "Underground? Impossible!"

"Why?!" Ji Feng asked at once.

"This villa is purely a rough house, it's not even decorated inside, it's all concrete, there aren't even any rat holes, how can it hide people?" Xiang Yongzhan said.

“I want to go in and have a look!” Ji Feng said. He felt it was better for him to explore it carefully.

“You didn’t go in last time?!” Xiang Yongzhan asked.

Ji Feng shook his head and said, “There were soldiers pulling the cordon at that time, so I didn’t go in. Go! Go in and take a look!” The more he thought about it, the more he thought it was possible.

Xiang Yongzhan then followed, and the two of them lifted the cordon and went in. The first thing they saw was the empty living room, the floor was concrete, the walls were scraped white, there was no decoration at all, only the simple bedroom door bathroom door and some other simple facilities that the developer had originally left for them.

Ji Feng scanned around while frowning: “Isn’t this a high-class district? Doesn’t the developer give decoration?”

Skip to conten

Campus Master Chapter 2976

Xiang Yongzhan shook his head and said, “I haven’t learned anything about this aspect, but it looks like this should not be given to renovation!”

Ji Feng smiled and nodded slightly, his eyes checking in all directions.

He had no intention of going to the first floor and wanted to hide on the ground floor, there was only one floor between the first and first floors, which was at most worth being able to hide rats. The only place to hide would be underneath the ground floor.

“There is no underground garage in this villa?” Ji Feng asked.

“It’s an above ground garage, as you saw just now, there’s only a garage outside!” Xiang Yongzhan knew what he wanted to ask, “The garage was also searched long ago, there are no cars inside and no wheel marks!”

Ji Feng nodded and lowered his head, watching carefully.

However a moment later he was frowning slightly, his penetrating eyes could surprisingly only just penetrate one floor, further down it seemed to be blocked by something, surprisingly he couldn't see through.

However, this discovery caused a brilliant light to flash in Ji Feng's eyes, not being able to see through was right! If there was nothing underground but the foundation, he would definitely be able to see it, and only if he couldn't see through it would it mean that there was really something underground.

There must be an entrance!

Ji Feng started to look around and when Xiang Yongzhan saw him, he couldn't help but ask, "Ji Feng, is it really underground?" He immediately became alert and at the same time waved his hand, and the two warriors had also touched their hands to the hilts of their guns.

But Ji Feng didn't answer, he just gestured!

Xiang Yongzhan's spirits immediately lifted, of course he could understand this gesture made by Ji Feng, it was a hint that there was something underground. Xiang Yongzhan also immediately gestured to the two soldiers, who immediately pulled the bolt of their guns and loaded the bullets at the same time.

Ji Feng paced back and forth in the living room while carefully observing, and suddenly, he jerked to a halt.

It was right here!

He squatted down, not caring that the floor was covered with dust, and reached out his hand and slowly felt around the floor.

"Knock, knock, knock!" He suddenly banged on the ground a few times.

“Hooray!”

Without even waiting for Ji Feng to say anything, Xiang Yongzhan walked over quickly with two warriors, the sound made by Ji Feng knocking on the ground just now had said it all, the ground was empty!

“Prepare for battle!”

Xiang Yongzhan bellowed, “That sapper shovel come, smash the ground for me!”

Ji Feng, however, suddenly waved his hand and said, “Don’t rush, since there’s something fishy underground, that means there must be a way to enter!”

We don’t know what’s underground yet, so who knows what the consequences will be if we do it the hard way. The explosion at the October bar had made Ji Feng remember.

His eyes looked around the living room over and over again, the empty living room didn’t seem to be anything special, yet, Ji Feng knew that there must be a way to enter.

“Could it be on the first floor!” Xiang Yongzhan suddenly said.

“It’s also possible.”

Ji Feng nodded his head and said, “Old Xiang, call a few people in and search carefully.” He didn’t know what the way in was, maybe it was a mechanism, maybe it required something special, but he was certain that the way in must be inside this villa.

Immediately, Xiang Yongzhan called the two soldiers at the door and was ready to take them upstairs to search. This discovery by Ji Feng made him realise that they hadn’t searched thoroughly before. In fact, it was only Ji Feng who had a penetrating eye, otherwise no one would have thought that there would actually be an underground space underneath this concrete floor.

“There’s no need to search!”

Ji Feng suddenly stopped the two warriors.

Xiang Yongzhan immediately asked, "You found it?"

Ji Feng pointed to a socket on the wall, stood up and walked over, and said, "This socket is interesting!"

Xiang Yongzhan asked, "This is the switch for the entrance?!"

Ji Feng hummed, "Eight out of ten`9!"

He couldn't tell Xiang Yongzhan that the wires behind this socket were different from the wires connected to all the other switches in the house, but he could almost conclude that this socket was most likely the switch for the entrance to the underground space.

Xiang Yongzhan frowned and asked, "How does this socket turn on? Does it just press down? Or do you need wires to connect it?"

Ji Feng didn't answer, but watched carefully for a moment, then pressed his finger on the socket.

"Pop!"

There was a crunching sound.

All that could be seen was that the middle of the socket actually dented down at once, and the next moment, all that could be heard was a ta-da sound, and a soldier immediately shouted, "It's popping up!"

Ji Feng and Xiang Yongzhan immediately looked back, and saw that the piece of concrete, which he had originally found to be somewhat empty, had actually popped up a bit, about a centimetre higher than the rest of the ground, while there was a buckler exposed.

Xiang Yongzhan was instantly delighted, "That's the switch! It's exposed!"

Ji Feng said, "Be careful, there might be people underground, or there might be traps!"

Xiang Yongzhan nodded and turned his head, "Tear gas, detectors!"

One of the warriors had already started contacting the outside and soon four or five warriors came over, still carrying some of the equipment, all ambushed around, black holes with guns pointing down.

Ji Feng said, "Be careful, open the entrance first!"

A soldier nodded and used a sapper's shovel against the buckler of that entrance, prying it violently, the entrance was opened at once, revealing a metallic sheen, the door of this entrance just had cement on top, the bottom was actually made of a kind of metal.

Ji Feng immediately raised his eyes to look at it and immediately found that underneath this entrance was actually a staircase, one step after another, leading all the way to the depths. This entrance could easily accommodate an adult to enter and exit, so it seemed that this was the passage to the bottom.

"Prepare to attack," Xiang Yongzheng whispered.

"Boom~!"

As soon as his words fell, a dull gunshot could be heard from inside, which came out loud and frightening in the not-so-wide passage.

Everyone could not help but be startled, but the soldiers of the special combat brigade had very rich combat experience, and instinctively fell down the moment they heard the sound of gunfire, while their guns were already aimed at the entrance.

Xiang Yongzhan sank his face and said, "Tear gas!"

“Pfft! Pfft!”

The next moment, several tear gas shells were shot into the passage.

Xiang Yongzhan followed up with a bellow, “Shock grenades!”

A soldier snapped forward two steps, holding an odd flamethrower-like device and pulling the trigger at the hole.

“Boom~! Boom boom!”

All of a sudden, violent vibrations suddenly erupted from below, causing Ji Feng’s body to shake and his ears to buzz, he was instantly alarmed, “Old Xiang what are you up to, you want to blow up all the people below?!”

Xiang Yongzhan waved his hand, “Charge!”

And only then did he explain to Ji Feng, “Don’t worry, it’s just a shock bomb, it will only produce shock waves, the violent vibrations will knock people out, it’s more useful than any tear gas or flash bombs or anything like that!”

Only then did Ji Feng dawn on him, “Military equipment?”

“For the military!” Xiang Yongzhan said, “You be careful up there, I’ll go down first!”

“I’ll go too!”

Ji Feng casually assigned two soldiers and said, “Guard the top, anyone who tries to approach without permission will be killed!”

The two soldiers immediately replied, "Yes!"

At the same time, they put on the gas masks handed over by Xiang Yongzhan. The tear gas grenades did not recognize people, so if they went down without the gas masks, they would be smothered with tears and snot.

This is a not very big underground space, all made of metal, the surrounding walls are emitting the coldness of metal, and it is also an uncommon metal, Ji Feng does not know what kind of metal for the time being.

At this moment, the smoke emitted from the tear gas grenade had filled the entire underground space, but this did not half hinder Ji Feng's vision, he quickly surveyed the entire underground space before hearing the front shout, "Clear!"

"Clear!"

"Clear!"

"Gotcha!" A warrior shouted, "Two men, no threat!"

Xiang Yongzhan's spirits lifted at the sound of this, "Bring it up."

Acting quickly, Ji Feng could only follow and exit as quickly as possible, returning to the living room on the ground floor, Ji Feng took off his gas mask and waited for a few warriors to come out, then he saw a few warriors carrying two people up.

Right after that, Xiang Yongzhan also came up and said, "Ji Feng, come and see if it's Professor Yu!"

Ji Feng's gaze fell on the two people being carried out and fixed his eyes on Old Li, Professor Yu!

"It's Professor Yu!"

Ji Feng's spirit was lifted and he walked over with great excitement, ignoring the thick smoke coming out of the entrance, and set Professor Yu aside as soon as he could, saying, "This is Professor Yu!"

Xiang Yongzhan said excitedly, "Good! I didn't expect to end the pot in one go!" Not only did he catch Old Li, but he also found Professor Yu, this trip was not in vain!

But Ji Feng couldn't help but frown: "Old Xiang, what's going on here? Didn't you say that concussion bombs are not lethal to people? Are they going to be okay?"

He probed that Professor Yu's breathing was still quite even, but extremely weak, obviously not in very good health.

Xiang Yongzhan said, "They're probably just stunned, send them to the hospital immediately!"

Ji Feng said, "Send them to the military hospital, someone should escort them on the way!"

Xiang Yongzhan ordered, "Do as you are told!"

The two soldiers immediately and quickly took both Professor Yu and Old Li out, and together with the people outside, took them both to the military hospital.

After sending Old Li and Professor Yu away, Xiang Yongzhan ordered someone to take out the tear gas canisters from the underground space and began to clean up the area below, while contacting the military district and the intelligence department.

However, the tear gas was so powerful that it took one to twenty minutes to clear the bottom almost, but there was still smoke in the air, and Ji Feng and Xiang Yongzhan still had to wear gas masks when they went down.

"Look Ji Feng, it's good that you suspected it was here, otherwise who would have thought that there would be a space like this underground!"

Looking at the not-so-large space, Xiang Yongzhan couldn't help but say, "This old Li is really cunning to the extreme, he's hiding here! No wonder we can't find him!"

Skip to conten

Campus Master Chapter 2977

Ji Feng looked around, "I'd like to know more about who actually built this basement!"

He patted the metal wall next to him and said, "A basement like this is not easy to build!"

Not to mention what kind of metal this was made of, there were many types of metal nowadays, and Ji Feng didn't know them all, just carving out a basement under this villa alone was not a small project. At least, it was not something that could be completed in a short time.

Xiang Yongzhan nodded slowly and said, "It seems that the property or the developer, someone is hiding something!"

Ji Feng suddenly asked, "The power of the shock bomb won't make Old Li turn into some kind of dementia or something, right?"

Xiang Yongzhan said, "By definition, it won't, don't worry, even if he becomes demented, I'll still pry his mouth open!"

Ji Feng then smiled and nodded, he believed in Xiang Yongzhan's tactics and knew that Xiang Yongzhan must be holding a fire in his stomach. The special operations brigade and the intelligence department had been played around by such a person and had failed several times, so it would be strange if Xiang Yongzhan was in a good mood.

Obviously, this old Li's fate was doomed, and it would definitely not be too pleasant!

But what Ji Feng was more interested in was who else was standing behind Old Li, who had kidnapped Professor Yu for no reason.

After sweeping around, Ji Feng found that there was a small room in this basement, there were also vents, and even lighting facilities, it was quite complete.

“Look here, someone must be serving them food!” Xiang Yongzhan said.

Ji Feng looked in the direction he pointed and found quite a few lunch boxes piled up in a corner of the small room, as well as some plastic bags and chopsticks, which were obviously the rubbish produced by Old Li and Professor Yu’s meals.

Apart from that, there were some beddings here and there were quite a few cigarette butts on the floor.

“Judging from this quantity, Professor Yu has probably been imprisoned here since he was arrested!” Ji Feng analysed, “That’s a bit strange, they just arrested Professor Yu, they could have taken him away as soon as possible, why would they stay here?!”

Professor Yu’s family only reported to the police after a night, which means that Old Li had exactly enough time to take Professor Yu away from Jiangzhou, but why did they leave him here after just arresting him and never left?

“These are all questions, I will ask them out of Old Li’s mouth!” Xiang Yongzhan said in a deep voice.

“Then, I’ll be waiting for your good news!” Ji Feng smiled and said.

When he came out of the villa, Ji Feng looked back at the villa next door again, Shao Jie and Zhai Yadong appeared here, it was not normal to think about it anyhow.

Xiang Yongzhan saw Ji Feng’s meaning and said, “We can’t move them now without evidence.”

Ji Feng smiled.

Next, Ji Feng would just have to wait patiently. I believe that Xiang Yongzhan wouldn't let Old Li rest for too long, and I'm afraid that Old Li's good days would come to an end from the moment he opened his eyes in the hospital.

On his way back, Ji Feng received another piece of good news, Xiao Yuxuan had returned from Shancheng and, brought back the results of his expedition.

"Go to the company!" Ji Feng said, "Yu Xuan is back."

Bai Zhu nodded, and when she reached the intersection in front of her she flicked the steering wheel, and the car turned into the horizontal lane.

When he came to the company and went straight to Xiao Yuxuan's office, he found that several executives of the Tengfei Group were there, Ji Feng went to Zhao Kai first, who knew that when he saw Ji Feng, Zhao Kai's first words were, I want someone!

Ji Feng instantly laughed: "Want what kind of people?!"

Zhao Kai screamed: "You, the boss, must support my work, you see I am so busy that I want to split one person into two, and this is not enough, how dare you not give me more people?"

Ji Feng laughed: "How many people do you want?"

Zhao Kai blurted out, "Of course, the more the better! But we can't spread out too big at the beginning, so I'm going to start with twenty people!"

"Twenty people?!" Ji Feng was stunned, "So many?!"

"No way, at least let me build the framework, ah, with the manpower I have on hand now, it's not enough just to organize the information, let alone to collect it!" Zhao Kai said helplessly, "I've been studying the model of other companies' intelligence departments recently, twenty people is already the minimum!"

Ji Feng smiled, deliberated slightly for a moment, nodded and said, "How about this, you communicate directly with Yu Xuan about this matter, how many people you want, you ask her directly for them, I will talk to her later and let her fully support you!"

Zhao Kai laughed bitterly, "Mobilizing twenty people at once, General Xiao will agree?"

Ji Feng said at once, "As long as you can set up the intelligence department, you can give people and money if you want! But there is one premise, it must be someone you can trust!"

Zhao Kai could not help but shake his head at his words and said, "There is no problem with trustworthy people, but I can only try to eliminate the possibility of betraying the company, you see even the CIA in Rice has traitors, let alone we are just a private company, we don't even have the power to punish, at most we will be fined a little bit of money!"

Ji Feng nodded, this was also a realistic problem, in fact it was no different from jumping ship, as long as you could afford to pay the breach of contract, it was easy to jump ship. For ordinary employees, the big deal is not to have a month's salary, it's as simple as that!

"In a word, the company has no deterrent effect on its employees!" Ji Feng nodded and said, "But this is something that can't be helped, try to do it for the good, give the staff higher welfare, make them feel a sense of belonging to the company, and for those who leak secrets, hold them legally responsible!"

Zhao Kai said, "That's all we can do now."

His words made Ji Feng suddenly have an impulse to follow what Zhang Lei said last time and set up a base overseas, once he had the autonomy, then many things would not be so tied up.

But this is only a thought, Ji Feng shook his head and said: "This problem can not be avoided, we can only try to be careful. You should also pay more attention in this area, and it is entirely up to you to decide what to do!"

With these words from Ji Feng, Zhao Kai had a bottom in his heart, he was confident that he could make the intelligence department of the Tengfei Group into the kind of intelligence department like those of other large international groups or even the think tanks of those plutocrats!

Ji Feng thought about it and said, "Kai Zi, you're coming with me now!"

Zhao Kai was stunned, "Where to?"

Ji Feng said, "Go to Yu Xuan's place and get your affairs settled first." He had always attached great importance to the intelligence department, without a strong intelligence department, it was tantamount to being blind, especially since the recent period, Ji Feng had felt this more deeply.

He even intended to allocate some of the people from the Tengfei network to Zhao Kai's men, not now of course, but when the intelligence department was established and the framework was formed, he would slowly fill it with people.

When he came to Xiao Yuxuan's office again, she had already finished talking and Zhao Kai said with a smile, "Mr. Xiao, am I disturbing you?"

Xiao Yuxuan laughed lightly, "When did you learn to be like Mr. Han, this is not like you!"

Zhao Kai pushed his glasses and laughed, "Actually, I was just saying a polite word!"

The three of them were instantly amused.

After chatting for a while, Ji Feng brought up Zhao Kai's question, "Yuxuan, in this regard, you have to fully support Kai!"

Xiao Yuxuan knew that the intelligence department was something that Ji Feng attached great importance to, second only to the security department, so after a little thought, she said, "No problem, Zhao Kai, go to the personnel department later, I'll make the arrangements, whether it's a new recruit or an existing employee in the company, you can pick as many as you like, twenty places right?"

Zhao Kai nodded, "Yes."

Xiao Yuxuan said, "Since there is a serious shortage of staff, let's recruit some more, twenty-five!"

Zhao Kai was overjoyed at his words, "Thank you, Mr. Xiao!"

Xiao Yuxuan shook her head and said, "You're one of us, why are you still polite? Just now Ji Feng also said, how to use these people, what positions to arrange, you make your own decision, in the future, if you need anything, you can come to me directly, I will arrange for you!"

Zhao Kai nodded his head, but his heart could not help but be moved.

Once the problem was solved, Zhao Kai immediately went to work, and Xiao Yuxuan then called the personnel department.

"You still want to issue documents?" Ji Feng listened to Xiao Yuxuan on the phone and asked the personnel department to send her documents that she wanted to sign, so he couldn't help but ask.

"The appointment of twenty-five people, this definitely needs to have official documents, if it's done casually like this, the company will still be in chaos?!" Xiao Yuxuan gave him a blank look and said, "I know you attach importance to the intelligence department, but to cross over so many people at once, you really dare to agree!"

Ji Feng laughed: "You haven't understood how important the intelligence department is!"

"I would not know?!" Xiao Yuxuan angrily said, "Otherwise what do you think those five extra people are for?"

"I know you support me, but what I'm talking about, is this intelligence department's other mission!" Ji Feng said, "This intelligence department that I plan to set up, not only must it be of great help to the company, but it must also be able to help me at critical moments!"

Xiao Yuxuan was a little surprised and asked, "You are thinking of establishing a department of a nature like an investigation company?" She knew that there were professional commercial investigation companies in society now, but they had also been banned by the state in many cases, so she thought

that by setting up this kind of intelligence department in the company, Ji Feng was actually hedging his risks.

In its nature, it was still a commercial investigation company!

Ji Feng smiled and nodded: "Right on the money! But it's not all purely commercial investigation, it will expand to many aspects in the future, and it will investigate very deeply! Yu Xuan, I have a hunch that by putting Zhao Kai in charge of the intelligence department, as long as we give it strong support, this intelligence department will probably give us a surprise in the future!"

Xiao Yuxuan said, "Let's just hope it's not a surprise!"

Ji Feng smiled and pinched her nose, saying, "Don't worry, even if the intelligence department grows stronger in the future, isn't it still under the group's name!"

Xiao Yuxuan shook her head and said, "I hope I won't come true with a prophecy!"

Skip to conten

Campus Master Chapter 2978

The first thing you need to do is to take a look at the website. The intelligence department, no matter how much it develops, is still a department under the Tengfei Group, what can go wrong?"

He knew that women would be more delicate in their considerations, but he did not think that the intelligence department could make any mess, he had done special understanding, now in some big cities, there are many similar business investigation companies, not to mention the international, it is not even counted.

Even, some of the successful international investigation companies, and the state have cooperation, the state is not convenient to investigate some things, are given to them to do, and are able to do a pretty good job.

Now the intelligence department of the Tengfei Group is only developing in this direction, but to become that kind of company, I don't know how many years will pass!

Xiao Yuxuan said, "I hope I'm overthinking it, by the way, the production line has been negotiated, I compared it with other companies, their offer is not too high, because it's a domestic company, the price aspect is very advantageous, moreover, the other company is not small, I plan to cooperate with them!"

Ji Feng nodded his head and said, "OK! Since you think it's fine then get on it as soon as possible, time is a bit tight now!"

Xiao Yuxuan said, "If you agree, then I'll contact them and have them ship it! But you should also be mentally prepared, although we have a workshop, there are some areas that are not suitable for alloy production and need to be modified."

The original workshop was only reserved, the Tengfei Group was not involved in alloy production at that time, now the workshop is somewhat less suitable, such as sewage facilities, such as ventilation and so on, all these need to be renovated.

Ji Feng pulled the chair to Xiao Yuxuan, took her hand and said, "Yuxuan, you are the old president of the company, just take full charge."

Xiao Yuxuan looked at him with beautiful eyes and said, "Trust me so much? Aren't you afraid that I will bring the company down?"

Ji Feng laughed: "It's no big deal if it collapses, if it really doesn't work out then we can start all over again."

Xiao Yuxuan pursed her lips and said, "Really?"

"In my heart, the company only comes second, the family is the most important!" Ji Feng said.

Xiao Yuxuan smiled happily.

A moment later, she suddenly remembered something and said, "Right, I've heard some whispers in the company recently, all about Han Zhong's girlfriend Wang Jun, should I remind Han Zhong?"

Ji Feng couldn't help but frown at his words, "What rumors?"

Xiao Yuxuan said: "Some people reflect that Wang Jun's style is too domineering, often meddling in the affairs of other departments, and some other problems I think it is necessary to remind Han Zhong, if Wang Jun relies on his identity to act recklessly in the company, when the company's production is delayed is the second, the most important The most important thing is, I am afraid that when the time comes, we are not very good with Han Zhong, will make it difficult for Han Zhong to do."

"This woman, really"

Ji Feng couldn't help but shake his head and said, "Just pretend you don't know about this matter, just have it in your heart."

The smart Xiao Yuxuan immediately heard the implication of Ji Feng's words and asked, "What, is there something wrong with her?"

Ji Feng said, "This matter will be handled by Han Zhong, just leave it to her!"

Xiao Yuxuan knew that Ji Feng had something in mind, so she didn't mention it again. Although Wang Jun was Han Zhong's secretary and his girlfriend, she couldn't afford to make any big waves with her status. Xiao Yuxuan was also just afraid that Han Zhong would have a hard time doing it and that it would be awkward for everyone to see each other when the time came.

"Let's hurry up and get the project started!"

Ji Feng said, "Just leave this to the people below, you shouldn't work too hard!"

Xiao Yuxuan nodded: "I know."

Ji Feng said, "Just knowing is not enough, you have to execute!"

"Yes, you are the head of the family, who dares to disobey your words!" Xiao Yuxuan gave him a white look.

Ji Feng smiled, but in his heart he knew that with Xiao Yuxuan's character, if he didn't specifically instruct her, she would definitely do it herself because she knew it was a project she valued, but the company was so big, Xiao Yuxuan would be exhausted one day if she always did it herself.

This is still Xiao Yuxuan is practicing aerobics every day, otherwise, if it were an ordinary person's body would have been exhausted long ago.

Ji Feng originally intended to accompany Xiao Yuxuan, but he sat next to her and couldn't help but look at her charming appearance, which made Xiao Yuxuan blush and blush, and drove him out with a red face.

After leaving the Tengfei Group, Ji Feng thought about it and dialed Xiang Yongzhan's phone number.

"I was just about to call you!" As soon as he picked up the phone, Xiang Yongzhan said, "Good news, Professor Yu and Old Li are both awake!"

"Both awake?!"

Ji Feng's spirit lifted and he immediately asked, "How are they doing?"

Xiang Yongzhan said, "Both are fine, the hospital gave Professor Yu a thorough checkup and there are no other problems except for some common diseases of the elderly."

Ji Feng immediately asked, "What about Old Li?"

He wanted to know if there were any problems with Old Li and whether he could be interrogated.

Xiang Yongzhan said, "He's fine too, now the man has been escorted to the military compound and is being prepared for interrogation!"

Ji Feng said, "I'm coming to your place!"

Xiang Yongzhan said, "OK, I'll send someone to meet you at the door, you can wait in my office directly after you come, this is a military case, there are other sister departments involved, it's not convenient for you to conduct interrogation directly."

"No problem!"

Ji Feng nodded, he knew that there were also intelligence departments and other departments involved in this, although he now had a consultant status, it was not good for him to intervene, however, it was good to be able to know the news at the first time.

Afterwards, Ji Feng immediately called Xiao Yuxuan and asked her to send someone to visit Professor Yu in the hospital on behalf of the Tengfei Group, after all, the reason why Professor Yu was arrested was eight`9 times because of his involvement, besides, there is still cooperation between the two sides now, out of courtesy, they should also visit at the first time.

.....

"Wu Zhiyong, want to find that national hand to save your father, you do one thing for me, I will immediately send someone to have that national hand to Yanjing!"

Once again, he received a call from that mysterious person, and Wu Zhiyong's heart was already thick with killing intent, yet when he heard these words, he couldn't help but frown, because in the other party's voice, there was no longer that frivolity, instead, it carried some anger, and there seemed to be some changes in his voice as well.

"You think I would be threatened and held back by you?!" Wu Zhiyong said in a cold voice.

“I think you know better than I do what your father’s condition is, and from what I understand, if there is no effective means of treatment, then I’m afraid he won’t last past this year!” The voice on the phone said, “But the national expert you are looking for happens to be able to treat your father’s illness, do you think, is this news sincere enough?!”

Enough of your mother!

Wu Zhiyong almost burst out in anger, he was being led around by the other party’s nose, and even fell into the other party’s trap, and was held in hatred by Xiang Yongzhan, and this was still called sincere?

The other party has repeatedly put obstacles in the way of his search for the old national player, which is already an act of provocation in itself, and Wu Zhiyong is not the kind of master who is grateful for a slap on the wrist and a sweet date.

However, now that the other party was in the dark and he was in the light, and the other party had his soft spot, he had to hold back the anger in his heart and said through clenched teeth, “What are you trying to do again?”

“Don’t be so harsh, I just want to join forces with you to do something, and I promise it’s something you’ve always wanted to do but haven’t done!” The other man said.

Wu Zhiyong glanced at the few people next to him and saw that they were crackling their keyboards on the computer, frowned and asked, “What is it exactly?!”

The other party said, “It’s simple, kill Ji Feng! As long as you kill Ji Feng, I will make sure that your father’s illness will be cured!”

The sharp light in Wu Zhiyong’s eyes flashed abruptly, “What did you say?!”

“I said, you help me kill Ji Feng!” The other party said, “That’s what you’ve always wanted to do, right? How about it, as long as you can do this, your father’s illness will definitely be cured!”

“I originally only knew that you were an egomaniac, but now I realise that you’re still an idiot!” Wu Zhiyong said coldly and wanted to hang up the phone, when out of the corner of his eye he glanced at someone who was desperately giving him hand signals to not hang up the phone, he then took a deep breath and barely held it in.

“What do you mean?!”

Wu Zhiyong’s words made the mysterious man a little annoyed.

However, this sounded to Wu Zhiyong but it caused a cold smile to spread across the corners of his mouth, he had thought that the other party was completely dominating the initiative and was as steady as a mountain, but now it seemed that the other party wasn’t that flawless!

For this kind of person, if it was the original Wu Zhiyong, he would not even say a word to the other party, this kind of person he would not even put in his eyes.

But now, in order to delay the other party and stall for time, he could only endure.

Wu Zhiyong said in a deep voice: “Do you know what Ji Feng’s status is? Do you think it’s appropriate for you to say this to me?”

“Young Master Wu, don’t pretend to be so righteous, I don’t believe you don’t want to kill Ji Feng! I do know that you have fallen in his hands more than once!”

The other party grunted and said, “It’s because it’s not easy, that’s why I’m letting you do it! You, Young Master Wu, are a person with great energy and background, so it’s not difficult for you to mobilize a handful of men or find a few top experts, right?”

Idiot!

Wu Zhiyong cursed in his heart, the other party was a complete idiot!

If things were really as simple as the other party thought, would he still let Ji Feng live until now?

“Why don’t you do it yourself?” Wu Zhiyong laughed coldly, “You’re so godlike, you’re still afraid of a mere Ji Feng? It’s not a handy thing to kill him if you want to?!”

“I think it’s more appropriate for you, Senior Wu, to do it!” The other party said, “Young Master Wu, cut the crap, if you agree, your father will get better, if you don’t agree, then the grand master of the Wu family will have to wait for death! Think about it yourself!

Skip to conten

Campus Master Chapter 2979

There was a touch of coldness in Wu Zhiyong’s eyes and a hint of mockery as he watched the man next to him shake his head, his face couldn’t help but sink and his brow furrowed.

“You can consider my offer, two choices, your father’s life is in your own hands!” The other man said.

“Snap!”

Wu Zhiyong no longer had any semblance of patience and simply hung up the phone, then immediately turned his head to ask the person next to him, “What’s going on?”

The man next to him shook his head and said, “Young Wu, I’m really sorry, the other party is defensive, we can’t trace it!”

Wu Zhiyong immediately frowned, “You are all experts, you can’t trace him even though I’ve been talking to him for so long?”

“The other side is using an encrypted signal, we can’t break it!” The man said helplessly.

“Rubbish!”

Wu Zhiyong snorted coldly and waved his hand, "All of you go out!"

The group of people left the room awkwardly, and with a sullen face, Wu Zhiyong kicked the coffee table over, spilling the tea on it onto the floor.

"Encryption? No matter how you hide, I'll definitely find you out!" Wu Zhiyong muttered to himself in a cold voice.

Wu Zhiyong had never been one to be slaughtered, that mysterious person had been leading him by the nose, which made him extremely angry, so he urgently deployed a group of computer experts to prepare to track down that mysterious person, but what he didn't expect was that this time the call was so long that these computer experts were unable to track down the other party!

This made Wu Zhiyong's already bad mood become even worse and more alert!

That mysterious man knew too much!

His father, Wu Zhengmin, had fallen ill, and not many people knew about this matter even in Yanjing, but this person knew about it, and moreover, knew everything about his identity, and even knew about his family's affairs, which gave Wu Zhiyong a feeling of being stripped naked!

More importantly, Wu Zhiyong sensed an inexplicable sense of crisis from this matter.

That mysterious person had been luring him to confront Ji Feng, and now it was even more explicit, going so far as to directly want him to kill Ji Feng!

Wu Zhiyong realised that his situation might become even worse!

"When did a time come when a random cat or dog could jump out and play with me?" Wu Zhiyong's voice was cold and frightening, and his face was even more gloomy, "I want to see what kind of tricks you can play!"

“If, like this, you think that I, Wu Zhiyong, am being held by you, then you are also underestimating me too much!”

Wu Zhiyong stood motionless on the floor of the room, but in his mind he was thinking fast.

He seemed to have sensed something, but for a moment he had no clue.

However, what he had experienced in these few days in Jiangzhou had made Wu Zhiyong understand that he was no longer the old Wu Zhiyong, especially since the fall of Wu Zhengmin had made his status as the eldest grandson of the Wu family's first family seem a little awkward.

“Perhaps, I am standing in the way of someone!” Wu Zhiyong gritted his teeth.

.....

Ji Feng didn't have a long time to wait in Xiang Yongzhan's office, and about an hour or so later, Xiang Yongzhan came back.

“How was the trial?!” Ji Feng asked.

“Drugs were used and he opened his mouth!”

Xiang Yongzhan said, “He explained some things, but, none of them are the main point.”

Ji Feng immediately asked, “What do you mean? After using drugs he can still avoid the main point?!”

Xiang Yongzhan shook his head and said, “No, he's just a small minion!”

“A minor minion?”

Ji Feng was a bit surprised, he knew that there must be someone behind Old Li, but he hadn't thought that even Old Li was a minion, then what kind of person was the main messenger of this matter?

The villa was also provided by someone else, and the basement was already there, so he didn't know exactly what was going on."

Ji Feng couldn't help but frown at his words, "This is what he explained?"

Xiang Yongzhan nodded and said, "I interrogated carefully, those fake police officers were all found by him, he did all these things, there was someone behind it, but he didn't know exactly who it was, the other party was always in contact with him by phone."

Ji Feng immediately asked, "Then the explosion at the October bar, and the clubhouse"

"It was all his doing!"

Xiang Yongzhan said, "But they were all directed by someone! But he doesn't know who the other party really is!"

Ji Feng frowned tightly, "That means, we've been working hard these past few days and only caught a few minions and incidentally a small boss who had irregular dealings with certain leaders, but nothing else has been harvested?!"

Xiang Yongzhan's face was also a bit unsightly, this time there was indeed no harvest, "Don't be so downhearted either, at least Professor Yu was saved!"

That's the only way to comfort yourself!

Ji Feng asked, "Could it be that Old Li didn't explain a single useful thing?"

Xiang Yongzhan said, "He gave out a phone number and a photo of his wife and child after they were kidnapped! The phone number was used by the guy who kidnapped his family to contact him!"

“What about it?” Ji Feng immediately asked.

“I’ve sent someone to check, this number has been using the signal tower in Jiangzhou!” Xiang Yongzhan said, “However, the source cannot be traced from this number, it’s an anonymous calling card!”

“I knew it!”

Ji Feng shook his head helplessly, although nowadays phone cards must be registered with real names, yet there were still many of those bearer phone cards before, and it wasn’t difficult to get a fake phone card if you wanted to, so when Xiang Yongzhan just said phone cards, Ji Feng didn’t hold much hope!

He said in a deep voice: “This means that our trail is cut off here, right?!”

Even though he didn’t want to admit it, Xiang Yongzhan could only nod and say, “Broken!”

Ji Feng mused, “If we analyze the range of the signal tower used by this number, can we find out a rough idea?”

Xiang Yongzhan shook his head, “A signal tower is used by many people every moment, how can this be checked?”

“It seems like it’s really broken!”

Ji Feng couldn’t help but sigh, after working for a few days, but in the end, he only got such a result, which was really a bit unsatisfactory.

Xiang Yongzhan said, “That’s all we can do, Old Li has never even met with the person who is behind this, so even if we wanted to investigate, we would have no direction, much less a clue.”

Ji Feng suddenly asked, “Did Old Li say why the person behind him told him to arrest Professor Yu?”

“I asked, Old Li said that the other party told Professor Yu to hand over the information on the new chrome alloy.” Xiang Yongzhan said, “But Professor Yu didn’t hand it over.”

“That’s really the case!”

Ji Feng wasn’t too surprised, from the fact that those few fake policemen went to Professor Yu’s house to search for the materials, he could probably understand the other party’s purpose.

Only, this result was obviously not what he wanted.

“If there are clues, then keep investigating!” Ji Feng said, “Can you give me a copy of the information on this case?”

“Give it to you?” Xiang Yongzhan asked, “What do you want to do?”

“I want to check it out again myself!” Ji Feng said, just working for nothing for a few days only to save Professor Yu, this at best only made him resentful, but, without catching the black hand behind the curtain, the crisis would always exist, today it was Old Li who had caught Professor Yu, then there might be Old Wang, Old Zhang and Old Zhao in the future, should he be so passive again and again?

The man behind the curtain must be caught!

Xiang Yongzhan nodded and said, “Yes.” This was something he could still do, and although the case could not be considered closed here, it was obvious that it could not be investigated unless there were other clues later.

“That’s a good calculation! Finding someone out to be a scapegoat, even if they are found out, they are not afraid!” Xiang Yongzhan shook his head and said, “Moreover, the other party is linking one loop to another, it seems that we are not dealing with ordinary people.”

“The bomb at the October bar, who was it for?!” Ji Feng suddenly asked.

“You mean?”

Xiang Yongzhan smiled and his face couldn't help but change slightly, “Is this the other side trying to provoke the police? Or provoking us?”

Ji Feng shook his head, “I don't know, but, I always feel that something is unreasonable!”

“It's unreasonable!” If it wasn't for Ji Feng's reminder, he would have almost overlooked the fact that since the other party's aim was the information on the new chrome alloy in Professor Yu's hands, then why did they place a bomb in the October Bar?

If they made a big deal out of it, the top would definitely take it seriously and investigate it more strictly, wasn't the other party asking for trouble?

“That's why I think it's a bit unreasonable.”

Ji Feng said, “Alright, we can't think of anything just by analyzing it here, you can give me the information, I'll take it back and read it slowly.”

Xiang Yongzhan nodded and said, “I'll ask someone to bring it to you.”

Saying that, he suddenly remembered something and said, “By the way, you said that Wu Zhiyong's appearance, is it a coincidence?!”

Wu Zhiyong!

When Ji Feng heard Xiang Yongzhan's words, his heart suddenly twitched as a possibility occurred to him.

“I don't know. You don't even know, so my information is even less well-informed.” Ji Feng shook his head and said, “I only know that it's strange that he suddenly appeared in Jiangzhou!”

“I’ll find out!” Xiang Yongzhan said.

Ji Feng nodded and didn’t say anything else, it was a matter between the big families, he wouldn’t provoke Xiang Yongzhan to move Wu Zhiyong, Xiang Yongzhan also had his own judgment.

However, Ji Feng’s heart always felt some strange, Wu Zhiyong suddenly appeared in Jiangzhou, and the original itself in South Guangdong Zhai Yadong and Shao Jie, surprisingly also appeared in Jiangzhou, and they are always a bit involved with this case, let people suspect!

A few moments later, Ji Feng took the information about this case given by Xiang Yongzhan and said, “Let’s go first, feel free to contact if there is anything.”

Xiang Yongzhan still had things to do, and Professor Tong hadn’t heard anything by now, so he didn’t have time to entertain Ji Feng, so he nodded and said, “Maybe I’ll need your help next.”

“Just give me a call!” Ji Feng waved his hand and took Bai Zhu with him to leave the barracks.

Skip to conten

Campus Master Chapter 2980

After returning home, Ji Feng immediately started reading the information he got back from Xiang Yongzhan.

In fact, he also knew that the case had basically come to an end here, even if there were still doubts, I’m afraid they were only doubts, without stronger evidence or clues, it would be difficult to investigate further.

The other side’s tactics are not very clever, just looking for a scapegoat, or a puppet, himself hiding behind the scenes, even Old Li, who is directly under the orders of the other side, has not met, want to investigate the difficulty can be imagined.

So Ji Feng didn’t hold much hope. In fact, what he really wants to find from this information is not the other clues of this case, he believes that just relying on him to look for it alone may not be as good as

the analysis of so many people in the military intelligence department, he actually just wants to find something from it to support his own guesses and suspicions.

..... Wu Zhiyong!

Deep down Ji Feng still has some suspicions about Wu Zhiyong!

After all, the timing of this person's appearance in Jiangzhou was too suspicious, plus the appearance of Zhai Yadong and Shao Jie, the timing was all too coincidental. Ji Feng had always been convinced that there were not that many coincidences in this world, and even if there were, nine times out of ten they were thought to be arranged.

At this time, Ji Feng did not know that Wu Zhiyong was actually already in trouble and had fallen into the mystery man's trap, and he struggled to find some connection between them.

Although this case had happened, the normal operation of the Tengfei Group had not been affected in the slightest. Just two days after Professor Yu was found, the company in Shancheng had started to load and ship the production line, and at the same time, the renovation work of the Tengfei Group's workshop had also started.

Everything seemed to be back on track, and after reading the information several times without finding any clues, Ji Feng also put the matter aside for the time being, only to receive a call from Xiang Yongzhan in the meantime, saying that the top had started investigating the purpose of Wu Zhiyong's visit to Jiangzhou.

Next, someone from above would come out to talk to Wu Zhiyong.

The reason is that this case involves some secrets, especially when the laser gun is successfully developed, the new chrome alloy becomes a national key project, Wu Zhiyong is involved in this case, naturally will be treated with caution.

This is the first time I've ever seen a man in the world who has been involved in a case like this, and he's not too concerned about it, because he knows very well that with Wu Zhiyong's status, this won't cause him much trouble.

Instead of wasting time focusing on this, it would be better to devote more energy to the development of the Tengfei Group.

However, on the third night, Ji Feng received a call from his younger uncle, Ji Zhenping, who told him a piece of news that took him by surprise.

“Little Feng, that thing you said last time has been found out.” Ji Zhenping said, “It shouldn’t be that something is wrong with Wu Zhiyong’s health, but his father!”

“Wu Zhengmin?!”

Ji Feng couldn’t help but stare at his words, although Wu Zhengmin was still holding a leadership position after retiring to the second line, he was no longer in a position of real power, plus he was too far away, so Ji Feng hadn’t paid attention to him, but he didn’t expect it to be Wu Zhengmin’s health that was in trouble!

He immediately asked, “Little Uncle, what’s wrong with Wu Zhengmin’s health?!”

Ji Zhenping said, “He’s sick! I heard that he vomited blood while he was at home, the problem is very serious, several national experts have gone to see him, but nothing good can be done, now the Wu family has blocked the news, it seems that the illness is not serious.”

Although the Wu family has blocked the news, but, there is no impermeable wall in this world, Ji Zhenping wants to inquire the news is not much difficult thing!

Ji Feng was extremely surprised to hear this news, Wu Zhengmin had suddenly fallen ill? And he vomited blood?

“Those national experts couldn’t do anything either?” Ji Feng asked. The so-called national masters were naturally self-explanatory, even they couldn’t do anything?

“I heard that there was nothing that could be done! It’s not even possible to tell what kind of disease he has, rather some people guess that it should be poisoning, but this is just blackmail, what exactly is the case, those national masters won’t say anything to the outside.” Ji Zhenping said.

Ji Feng nodded slightly, that was true, those state experts were all treating big leaders, if their mouths were not strict and they talked around, then the consequences would be very serious.

“When Wu Zhiyong went to Jiangzhou, he should be looking for an old retired national expert in Jiangzhou, when he was in the health care bureau that old national expert also saw your grandfather, his medical skills are quite good!” Ji Zhenping said.

“No wonder!”

Ji Feng nodded thoughtfully, this shouldn’t be fake news that little uncle had inquired about, after all, now that Wu Zhengmin had retired to the second line, I’m afraid that even if the Wu family wanted to make a fake image, it would be for the old man’s health, not because Wu Zhengmin had gone to such great lengths.

He nodded his head and said, “Little Uncle, I understand.”

Ji Zhenping let out a sound and said, “In addition, there is a news to tell you, today I went to visit the old man and mentioned the weapon you developed, the old man was especially happy and asked me to convey a message to you, he said he saw hope from your body!”

Ji Feng couldn’t help but feel uplifted!

These words of the old master made him think a lot in an instant, the old master saw hope in him, what hope did he see?

Was it the hope for the country to rise, or was it what he had once said when he first met the old master, ten years to walk on top of the world?

“I will continue to work hard!” Ji Feng said.

“Kid, do a good job!” Ji Zhenping smiled in satisfaction.

After ending the call, Ji Feng silently went to the window, looked up into the distance, and a fighting spirit surged in his heart. Now that the pavement had probably been completed, the next time was when the Tengfei Group would really take off!

Two days later, the production line arrived, and at that time, the renovation of the workshop had also been basically completed under the overtime efforts of the workers, and the masters who came with the manufacturer began to assemble it.

At this point, the Tengfei Group had entered the industrial field. Although the output was limited even after the production line had been assembled, with the expansion of the production line, the new chrome alloy produced by the Tengfei Group would usher in a period of market explosion!

The next most important thing was to negotiate with the military, but to Ji Feng’s surprise, before he could contact Xiang Yongzhan, the military came, and Xiang Yongzhan was among them.

“What is this?”

Ji Feng couldn’t help but ask when he saw Xiang Yongzhan hand over a stack of printed paper.

Xiang Yongzhan said, “A contract! Take a look!”

Ji Feng took the contract and looked at it, and found that it was surprisingly a contract drawn up by the military to cooperate with him in the production of laser guns, and while Ji Feng was reading it, he heard Xiang Yongzhan say, “What it means is that the parts are produced separately, and the Tengfei Group is mainly responsible for providing the alloy and technology.”

“Separate production?!” Ji Feng asked, “So, the other manufacturers have been chosen?”

“That’s right.”

Xiang Yongzhan said, "It's all stated on the contract, just take a look."

Ji Feng looked at the contract and found that the manufacturers of the other components had indeed been indicated on it, he just glanced at the names of these few and immediately understood that these were all military factories, considered to be enterprises within the military, although it was now explicitly a separation between the military and enterprises, but what was actually going on was clear to everyone.

Xiang Yongzhan said, "Considering the lack of production capacity of the Tengfei Group, and also considering the confidentiality, this is what the top decided, what do you think?"

Ji Feng heard the meaning beyond the words of Xiang Yongzhan, in fact, the lack of production capacity is all secondary, the real main thing is, confidentiality, in fact, to put it bluntly, it is also to take care of the military industry.

Originally, Ji Feng did not intend to swallow the production of laser guns alone, what he wanted was only what he deserved, and he also did not intend to let the Tengfei Group become a military industry enterprise, so he had no problem with this kind of separate production.

Because Xiang Yongzhan had already made it clear that the Tengfei Group would provide the alloy and the technology, the key was the technology, and the contract had already stated Ji Feng's interests.

"I have no problem with that."

Ji Feng said, "Will you sign now?"

Xiang Yongzhan then nodded and gave a thumbs up to Ji Feng, this Ji Feng guy's brain was really not a cover, he didn't even say much explicitly, this guy made a decision so quickly.

The process of signing the contract was simple, Ji Feng took the contract and at this time the military people handed over another document, which was the military's approval.

The whole process took less than an hour. When the military people left, Xiang Yongzhan stayed behind and said, "Older brother, you're really something, you can give up such a big profit with your eyes, you have guts!"

Ji Feng laughed: "If you keep everything good to yourself, you'll be held against people!"

What he wanted when he cooperated with the military was just an opportunity, as well as a name, rather than having his eyes on the profits from the arms. But the fact was that the profit the military had stipulated for him in the contract was already very high, even exceeding his psychological price, and he knew that this was actually the compensation the military had given him.

"It's best if you can think about it!"

When Xiang Yongzhan saw how understanding Ji Feng was, the rest of his words were unnecessary, "The old man told me to tell you that this time, it counts as the military owes you a favour! Understand what that means, right?"

Ji Feng shook his head and said, "I don't understand, explain it to me?"

Xiang Yongzhan instantly laughed and cursed, "Fuck off!"

Ji Feng couldn't help but laugh too.

"Do you have any other demands and conditions?" Xiang Yongzhan asked, "If you have, just say it all together, it's fine to count it as an additional contract."

"There are no more conditions, but"

Ji Feng suddenly asked, "If I were to get an island overseas as a base, would the military support it?"

Xiang Yongzhan froze for a moment: "What do you mean?"

Ji Feng laughed, "I just thought about it casually and planned to get an island outside and move the headquarters of the Tengfei Group there, so that the secrecy would also be improved."

Xiang Yongzhan looked at him suspiciously and asked, "Is it that simple?"

Ji Feng stretched his hands, "What else do you think?"

Xiang Yongzhan said, "Alright, whatever you want to do, if you can buy the island, that's your freedom, I'll go back and ask for you, I haven't done this kind of thing before."
