

Super Rich Dad Chapter 309-310

Chapter 309 - Break a leg first

Jiang Hao looked around and couldn't help but wonder a little about this statement from Liu Qiang.

But soon, he saw Liu Qiang reveal an incomparably smug expression and said, 'To tell you the truth, this company is our family's, you dare to come here today, and still want to walk out? But since you're here, we can settle old scores and new ones together!'

'Your family's company?' When Jiang Hao heard this, he couldn't believe it, how could this Huoyuan Group be Liu Qiang's family's?

And this was all too much of a coincidence, right?

'Oh, what's the matter, are you scared?' When Liu Qiang saw Jiang Hao's surprised expression, he really thought that Jiang Hao was scared, so he became even more proud and said smugly, 'Now do you know how powerful our Liu family is? Let me tell you, my father is Brother Chu Jianghao, you dare to offend our family, wait to die!'

Brother Chu Jianghao? Liu Guohao? So that was it, so everything was really such a coincidence.

Jiang Hao was a bit surprised, but since that was the case. Instead, he smiled, seemingly somewhat relieved.

'What are you laughing at?' Liu Qiang was displeased when he saw Jiang Hao laughing and chided, 'You're dead on your feet and you still don't know it? Do you believe that if I just scream now, you won't even be able to get out of the door of our family company today ah!'

Liu Guohao twisted his head to look at the few security guards standing guard not far away, and his heart was full of courage.

He didn't believe that even if Ye Yunjie showed up again, what else could he do?

That day he had conceded because he did not have as many people as the other side.

But today was different. For one thing, this was their family's company, and as long as he raised his arms here, there was no telling how many people he could call out at once.

Secondly, it was his father's name, Chu Jiang Ho, which was a figure that could be compared to Qiao San in Chu Jiang.

The first thing is that Liu Guohao also relied on the fact that he had a group of talented people under him to gradually start his family. After so many years of development, the Liu family, both in terms of strength and reputation, is not what it used to be, and has become a real big family.

Anyone who dares to cause trouble on the Liu family's turf, or even do anything to himself, is provoking his father Liu Guohao.

And given Liu Guohao's character, there was almost zero tolerance for such things, and he would definitely return the severest punishment.

Liu Qiang even took it for granted that Jiang Hao was bound to die today!

But what he didn't expect was that Jiang Hao only snorted and laughed at his words, saying blandly, 'Oh really? Then I'd like to see which one of us will die first!'

Jiang Hao raised his head and looked at the glorious Hao Yuan Mansion, not even putting it in his eyes, and continued, 'Not to mention you, even your father here today would only dare to treat me with respect, if he dares to do anything wrong, then I guarantee that your Liu family will disappear from Chu Jiang!'

Jiang Hao was certainly not joking, but he knew he had the strength to do so now.

What's more, what Liu Qiang had done before had indeed angered Jiang Hao, and Jiang Hao was trying to clean him up.

And coincidentally, this unlucky man was Liu Guohao's son, and Liu Guohao was the very person he was negotiating with today.

In fact, it is said to be a negotiation, but Jiang Hao understands in his heart, even if he does not find Liu Guohao to cooperate, there are still plenty of people in Chujiang to cooperate with.

And even if Jiang Hao you are away from supporting a company is not impossible.

Instead, to be able to cooperate with yourself, this is an extremely rare opportunity for Liu Guohao, or any of the families in Chujiang.

If they don't grasp this opportunity well, there will be none in the future.

And everyone knows that as long as they can take this opportunity to befriend the overseas Shen family, they will definitely soar to great heights.

So unless any Liu Guohao's head was pierced, he would dare to mess with himself.

In that case, not only could Jiang Hao choose not to cooperate with the Liu family company, he could even use all the power he could mobilise to uproot the Liu family.

Jiang Hao felt that there were simply a large number of people or families in Chu Jiang who would be willing to do such things for him.

Jiang Hao looked at Liu Qiang indifferently, and his eyes seemed to carry a few moments of killing intent.

But what he said, Liu Qiang did not know.

In his opinion, Jiang Hao was probably just an ordinary student, probably just some relatives with Ye Yunjie, and this person, Ye Yunjie, Liu Qiang had not heard of in Chu Jiang at all.

To deal with such two people, one did not need to waste much effort at all.

Jiang Hao's wild talk here was just pure nonsense, and would do nothing but anger himself.

Liu Qiang's face was shaken with anger as he pointed at Jiang Hao and shouted with recklessness, 'What do you think you are? Do you really think this is a place where you can run wild? Do you believe me, I will let you die here now!'

Liu Qiang's eyes were full of anger as he turned his head and shouted at the few security guards behind him, 'What are you still waiting for? Hurry up and come here!'

A few security guards froze at his words, and then hurriedly ran over, the leader of which was full of panic.

'Young Qiang, what's wrong?'

Liu Qiang snorted coldly, pointed at Jiang Hao and said, 'First, break a leg for me!'

Chapter 310 - Involving you

A few security guards froze for a moment at the words.

They were just simple security guards, not the fighters Liu Guohao had recruited to grab the land.

They couldn't do things like breaking people's legs when they came up, and they didn't dare to do it.

Besides, this was the ground floor lobby of the company's building, where the public was in full view

'Mr Qiang, isn't that a good idea? This is our company, Mr Liu has said so before.'

Although these security guards knew what kind of character their boss was, they knew even better that Liu Guohao had been gradually whitewashing himself recently.

Those things that hurt people and fight at every turn, he less than himself has long since stopped doing them, and does not allow his own men to do them.

A few years ago, there might have been cases where people were injured in the company.

But now Liu Guohao has long stopped allowing such things to happen.

This is because it is really affecting his reputation.

After all, once word gets out that you are working with you, either by coercion or bullying, or by fighting and killing, who will dare and who will work with you again?

The result of doing so is to cut your own throat and dig your own grave, and Liu Guohao has long understood this.

The employees of these companies know it even better, but Liu Qiang is the only one who does not understand this and does not care about these rules and regulations.

How else would he have kept such a group of thugs outside.

Hearing the security guard's words, Liu Qiang's face suddenly turned gloomy and he slapped the head of the security guard on the face, shouting angrily, 'F*ck you, are you talking to me? Who the hell are you? Who are you? Does this company listen to you or to me? Do what I tell you to do, or I'll break your legs first!'

That security captain smiled, and with an eager face, he hurriedly made apologies in a loud voice.

'Qiang Shao Qiang Shao I am wrong, you do not get angry, I am also for your own good ah, at first Liu always explained, in the company if this kind of thing happened, no matter who will be pursued, you are not afraid of Liu General Liu General Liu he pursued you'

The more Liu Qiang heard this, the angrier he became, and kicked out, knocking the head of the security guard onto his back.

'F*ck you! I want you to control ah? That's what my father used to restrain you, it has nothing to do with me, I'm asking you today, are you going to move your hand or not? I'm asking you, do you want to die or do you want to live?'

Liu Qiang's state was a little crazy, he was really angry.

After all, this security guard was their family's, now he had asked these few people to clean up Jiang Hao, and they had disobeyed his orders, wouldn't that be a slap in his face?

Liu Qiang despised Jiang Hao desperately, and now that he had disgraced himself in front of Jiang Hao, how could he not be angry!

Liu Qiang pointed at the security guard with a murderous look, questioning whether he was listening to his words or not.

The security guard fell to the ground and didn't dare to get up, shaking his head repeatedly, 'Young Master Qiang, that's illegal, you can just kill me, I just don't want to do this job, I can't do that kind of thing either.'

When Liu Qiang heard this, he jumped on top of the head security guard and punched and kicked him, still cursing under his breath.

'You dare to disobey me, don't you? You dare to talk back to me, don't you? Don't you want to quit? Then I'll cripple you first, and then you can get out of our family company.'

Liu Qiang hit him so hard that the head of the security guard wailed and wailed, his face bruised and swollen.

He was so miserable that even Jiang Hao couldn't stand to see him anymore.

Jiang Hao was really not used to seeing people like Liu Qiang, they were purely characters who were afraid of being soft and hard.

Jiang Hao looked at the security guards who were anxious like ants on a hot pot and shouted, 'What are you looking at? Are you just going to watch him beat you up?'

Those few security guards also looked helpless.

After all, Liu Qiang was the proprietor, and Huoyuan was so powerful in Chujiang, so they could only endure Liu Qiang's beating, and how could they dare to fight back?

Although several security guards were anxious, they were still hesitant to move forward, and Jiang Hao looked anxious.

Jiang Hao sighed and could not stand it any longer, so he rushed up to Liu Qiang and pushed him off the head of the security guards when he was not paying attention.

Liu Qiang was pushed out of the way and fell heavily to the ground, screaming in pain, 'Who's that, looking for death isn't it'

When he saw clearly that the person pushing him away was Jiang Hao, Liu Qiang became even more enraged and cursed angrily, 'Bastard, what do you want? Are you looking for death?'

But Jiang Hao didn't give Liu Qiang a second thought and went to help up the head security guard who had been beaten up, 'How are you?'

The security guard looked at Jiang Hao, his face was full of gratitude, tears were in his eyes, he didn't expect that so many of his brothers were watching him being beaten, and the one who finally saved him was Jiang Hao.

The head security guard wiped a tear from his eye and shook his head, 'It's alright, young man really thank you, I I quit, this place has no humanity, I quit!'

After saying that, the security guard instead looked at Jiang Hao with a worried face and sighed, 'Just young man, today is going to drag you down, ah!'
