

Campus Master Chapter 3111

When he returned to Island No. 1, Ji Feng immediately called his younger uncle Ji Zhenping.

“What? Are you sure it’s true?” When Ji Zhenping heard the news Ji Feng said on the phone, he couldn’t help but be shocked, even though he had long experienced practiced out and truly had the poise of a great general, he couldn’t help but be surprised after hearing this news.

“It should be true!”

Ji Feng said, “This was given to me by Ji Lihai, he must have already had a death wish at that time, there is absolutely no way he could have tricked me with a fake one, he didn’t have any need to do so!”

“Good then, I’ll go there personally, you must keep it safe!” Ji Zhenping said immediately.

“Good!”

Ji Feng nodded his head.

After hanging up the phone, Ji Feng took out that USB stick, and was certain in his heart that what was inside it, must be real!

In fact, Ji Feng also analyzed whether the information in the USB stick was real or not, because this person, Ji Lihai, gave Ji Feng a whole new perception, this was definitely an old fox and a lord!

A person like this, everything he does may have a meaning behind it, so although Ji Feng was shocked even after reading the contents of the USB stick, he retained a trace of doubt in his heart.

After all, the only times he had dealt with Ji Lihai before, Ji Feng was actually at a complete disadvantage.

A man who could even say he didn’t want his own life really sent chills down one’s back.

However, after analysis, Ji Feng confirmed that the contents of this USB stick should be true.

Only, I am afraid that it was not left for him, but for Ji YuHai!

Because, at that time, Ji Lihai already knew that he would die in 8`9 out of 10, then the first thing he thought of would be his daughter, Ji Yuhui, which was evident from the fact that Ji Lihai had privately sent Chen Xue Dong to rescue Ji Yuhui.

Ji Feng speculated that at that time, Ji Lihai might have been prepared in two ways.

First, if he had said he was dead, then this USB stick would have been told by Chen Xuedong to Ji Yuqing and then fallen into the hands of Ji Yuqing. Ji Lihai did not put it in the former room of Ji’s mother just to hide it. The item was a bomb in the hands of Yvonne Ji, but it was also a talisman.

If Ji Yuet-jen was in danger and she revealed the contents of the USB stick, those people involved in it would never see her die. At least, before she got the flash drive, Ji Yueting could not die.

Secondly, if she did not die, then let Chen Xue Dong tell herself the whereabouts of the USB stick and hand it over to her.

In this way, once he got the USB stick, he would definitely not be indifferent, or at least, Ji Yujie would be safe and sound.

However, Ji Feng speculated that it should be a little more likely to be the first one.

The reason was that although Ji Lihai was determined to die and wanted to die with Chen Wan, Da Ma and the others, he was actually missing an extremely crucial factor, and that factor was him, Ji Feng!

How to attract all of them to the manor, and what to use as a bargaining chip?

Ji Feng, who had been working against the dynasty, was definitely the best bargaining chip, and the best bait!

So Ji Feng speculated that Ji Lihai must have wanted to hand over the USB stick to Ji Yuoyi. Of course, this was the worst possible scenario, and also the most optimistic idea.

It was because Ji Lihai was afraid that he was not too sure that he could escape from the Dynasty's pursuit, so he only sent someone to rescue Ji Yujie, without saying that he would rescue Ji Feng as well.

But since Ji Feng had returned, the leverage was there!

This involved a second possibility!

However, no matter which possibility it was, the first prerequisite was that the USB stick must be important and what was inside was real, which would be able to be Ji Yujie's talisman!

So Ji Feng concluded that what was inside was real!

Only, why Ji Lihai did not take action himself, instead he must die with Da Ma and the others, Ji Feng was a bit puzzled.

"Perhaps, it's because the dynasty's people are hiding too deeply, or perhaps, it's because Ji Lihai is involved with those people?" Ji Feng pondered for a moment and shook his head slightly, there was no way to know these things now, I'm afraid that only Ji Lihai knew.

As for Ji YuYi, I'm afraid she knew even less about Ji LiHai's affairs, after all, their father-daughter relationship had always been very bad.

But in retrospect, this was not just a way for Ji Lihai to protect her!

"It seems that Ji Lihai has known about the existence of the dynasty for a long time, and is also clear about how terrifying it is." Ji Feng secretly said, "Perhaps it was after trying countless ways that, in the end, Ji Lihai chose such a path."

For the dynasty to infiltrate to the treasure island, Ji Feng did not feel surprised, from the mouth of Da Ma, Ji Feng once again determined that the identity and status of No. 1 is definitely not low, even the Da Ma of the treasure island obeys the orders of No. 1, thus it can be seen that a large area near the centre of China, I am afraid that this No. 1 is in charge!

"The king is Wang Wengao, so who is No. 1?" Ji Feng secretly pondered.

He shook his head, this No.1 was really hidden too deeply, apart from having heard of the name, he didn't even have a single bit of information about this person.

"A person in charge whose status is still above the king's"

Ji Feng secretly mused, "His explicit status, I'm afraid, is also above Wang Wengao! This is a big fish!"

.....

On the same day Ji Feng made the call, Ji Zhenping arrived at Island No. 1 on a military plane.

"Where's the stuff?"

Just after he got off the plane and saw Ji Feng, Ji Zhenping asked impatiently.

Ji Feng directly took out the USB stick from his pocket and handed it to Ji Zhenping.

"You just kept it in your pocket?" Ji Zhenping frowned, "Such an important thing, aren't you afraid you'll lose it?"

"It might be lost in other places, but it definitely won't be lost in my hands!" Ji Feng laughed, in his opinion, there was no place safer than on his person!

"You brat!"

Ji Zhenping shook his head and laughed, however, he was extremely satisfied with this nephew, looking at the sons of other families, there had never been any who could have what Ji Feng had achieved now!

In the car on the way back, Ji Zhenping's expression became serious: "Little Feng, this time you were too reckless in going to Treasure Island. The commotion you made was too big!"

Ji Feng shook his head and said, "I just went to find someone, I didn't make this commotion, it was the people from the dynasty!"

"It's not just the dynasty's people!"

Ji Zhenping said, "Certain people from Treasure Island are also involved! If it wasn't like this, the Treasure Island side definitely wouldn't have accepted it so calmly."

Speaking here, his face sank, "This time, if what's in this USB stick is true, it will definitely not just be like that!"

Ji Feng said, "The information in the USB stick is definitely true!"

Ji Zhenping said, "Let's put aside whether it's true or not, have you ever thought about what would happen to you if Dynasty's people got their hands on it this time?"

"I understand." Ji Feng nodded, he understood what Ji Zhenping meant, the dynasty's people didn't even want to catch him, they directly wanted to kill him. If the dynasty's people had gotten their hands on him this time, then I'm afraid he would all be lying in the morgue by now.

“You’re not the same as before, this place is at the tip of the storm, and you ran off to Treasure Island without even saying hello, that alone is not right. Besides, you went to Treasure Island with only a few people, should I say that you are bold in your art, or should I say that you are reckless?”

Ji Feng shook his head and laughed bitterly, “I also didn’t expect that this time it would actually involve someone from the dynasty!”

“That’s why you usually have to pay more attention to your own safety!” Ji Zhenping hummed.

Ji Feng nodded, this time it was a lesson to him, if he wasn’t lucky, I’m afraid Liu Zejun would have been accounted for there, losing a great general not to mention, even from a friend’s point of view, he definitely didn’t want to see Liu Zejun die because of this!

“Apart from these, have you learned anything else about the dynasty?” Ji Zhenping didn’t say any more, but changed the subject. After all, now that Ji Feng was an adult and could take charge on his own, it was not good for him to speak too heavily.

“No!”

Ji Feng shook his head, “All I know is that the Dynasty personnel in Treasure Island are all supposed to be under the command of Number One.”

“It’s this Number One again!” Ji Zhenping sank his face and said in a cold voice, “Just wait, sooner or later, he will reveal his fox’s tail!”

“Little Uncle, isn’t there a bit of information about No. 1’s identity?” Ji Feng asked with a frown.

“I’m not in charge of intelligence in this area, but from what I’ve learned, there should be no information found about No. 1’s identity yet.” Ji Zhenping shook his head, “Don’t be anxious, take your time with the dynasty, right now the focus from above is on developing the economy, the task at hand, is to deal with the upcoming war! Winning this war will give China time and space for rapid development in a short period of time, but if it loses

Ji Feng was silent for a moment and said, “We will definitely win the war!”

Ji Zhenping laughed, “You are confident!”

When he came to his residence, Ji Zhenping only rested slightly, after eating, he raised his hand and looked at his watch, “OK, I’ve got the stuff, you go and do your work, I’ll go around!”

Ji Feng was stunned, “Go around?”

Ji Zhenping nodded and said, “The situation over here is getting more and more tense now, although several parties are trying their best to restrain themselves, a big battle is inevitable, it’s just a matter of time! Since we’re here, it’s better to see the situation over here with our own eyes.”

“Little Uncle, when do you think the war will break out?” Ji Feng asked.

“It’s hard to say this.”

Ji Zhenping shook his head and said, “Right now all sides are building up their strength but are trying to exercise restraint, everyone understands that they can’t fight as a last resort, but against Chinese naval

power, this battle has to be fought, so no one can predict. I am also just looking at the periphery, next there will be important generals from the military who will personally come over to inspect the situation, so I can't do it without being cautious!"

Ji Feng nodded and suddenly said, "Little Uncle, why don't I secretly lead someone to knock out one or two of their warships first?"

Campus Master Chapter 3112

"Don't ever!"

Ji Zhenping was taken aback by Ji Feng's words and quickly said solemnly, "Little Feng, you know very well how powerful the weapons of war really are now, the warships of both sides are now spread out in various ports, heavily guarded, and there are a large number of minefields at sea, special operations are not feasible in such a large-scale war."

After a pause, he added: "Besides, even if you could really knock out one or two warships, it wouldn't make much difference to the contrast in power between the two sides, and would instead alert the other side, which would more than make up for the loss!"

Ji Feng slowly nodded, although he had a way to ensure that the operation could definitely succeed, the strike was limited in power, unless he could directly eat a certain fleet outright, otherwise, it was better not to alert the snake.

"Little Feng, give me an answer, how is the defence on island number one, exactly?" Ji Zhenping suddenly asked.

Ji Feng was stunned for a moment, then he understood what Little Uncle meant, Little Uncle was worried that once war broke out, Island No. 1 would be the first to be hit, even though Island No. 1 was not the main target of a strike, the location was too important, in the southern waters, no matter which route was taken, Island No. 1 was able to get stuck easily, so there was absolutely no reason for countries like Vietnam not to strike Island No. 1.

"As of now, I'm 80% sure I can hold it!" Ji Feng said.

"That's good!"

Ji Zhenping nodded with relief at his words. Eighty percent certainty was already not small, if Ji Feng said that he was ten percent certain, he would not believe it instead.

In any war, there are countless surprises, no one can control the entire war trend 100%!

In fact, Ji Zhenping did not know that Ji Feng was indeed ten percent sure in his heart. At the very least, he could guarantee that Island No. 1 would remain standing, but his current strength was only enough to defend Island No. 1, and could not be spread to the entire army, otherwise, there would be no need for such a confrontation.

Afterwards, Ji Zhenping went to the troops' temporary quarters. This battle is mainly a war at sea and in the air, the army can only play a role in the southwest region and on island number one, to achieve the purpose of holding back the Vietcong forces.

The next morning, he took a boat to the nearest naval base for inspection. Only then did Ji Feng realize that Ji Zhenping's visit was not just for the USB stick in his hand, but that coming to the south to see the situation on the ground was also one of his purposes.

.....

The matter of Treasure Island did not stir up any ripples, as if it had never happened, whether it was the official or private media, there was no mention of it.

This is because the matter is too sensitive and involves the military of Treasure Island, and the top brass of Treasure Island is naturally unwilling to let the matter get out. As for China, Ji Zhenping's words had said it all.

Some things were not done, but it was not the right time.

In this regard, Ji Feng did not take it to heart, although he almost gave an account of himself on Treasure Island and, moreover, Ji Lihai had played some kind of dishonourable role in it, using him, but now that Ji Lihai had died with Chen Wan, Da Ma and the others, the matter was over here.

Although the dynasty's penetration in the island was also deep, it was not something that Ji Feng could manage, so someone else would naturally worry about these matters.

On the contrary, Ji Feng paid some attention to the news of the Chuk Yuen Gang.

However, what surprised him was that, despite the death of Ji Lihai, there was no civil unrest in the Chuk Yuen Gang, but a new leader was elected just two days later.

This made Ji Feng feel more or less at ease. At least, since the new leader was one of Ji Lihai's former direct descendants, and since Ji Yu-yeh was far away in the country, she might not be subject to any difficulties.

Thinking about Ji Yuhui, Ji Feng couldn't help but sigh, this woman, it seemed like she was born with the golden key in her mouth, but in reality, her sufferings were hard for outsiders to understand!

"Boss!"

Yao Zhijian's voice interrupted Ji Feng's thoughts.

Ji Feng immediately had a mental shake: "All done?"

Yao Zhijian nodded and said, "Don't worry, it's all done, everything that should be booked has been booked and everything that should be custom-made has been made, and no one else will know about it."

Ji Feng nodded and smiled, "That's good, how about it, this trip over was tough, right?"

"No!"

Yao Zhijian smiled and said with a bitter face, "Boss, I only realized that doing these chores in person is even more troublesome than fighting a war!"

Ji Feng laughed: "This is also a way to let you gain experience first, you will go through all this in the future too!"

"Hey!"

Yao Zhijian shook his head and said, "I don't want this right now, I'm having a good time in the battle group!"

Ji Feng lost his smile, "Now that you say that, your mind will definitely change later!"

Yao Zhijian finished his report and soon returned to the battle team to train again. This encounter in Treasure Island made him realise that he still had room for improvement in his marksmanship. Using a professional sniper rifle, he was naturally comfortable with it, but if he was using an ordinary rifle, there was a certain gap compared to Ji Feng's level.

This made Yao Zhijian realise that if he wanted to hold on to the number one sniper position in the entire battle team, he couldn't stop there and had to improve further.

Gymnastics was definitely the first choice!

After Yao Zhijian left, Ji Feng shook his head and smiled, "This guy, still this kind of living treasure character!"

In fact, it is strange to say that Yao Zhijian is a sniper, and it is reasonable to say that this profession definitely requires an extremely calm and composed personality to be able to do it, especially when it comes to sniping, even a smile of a twitching finger, or a slightly faster heartbeat of a few beats, will affect the shooting accuracy.

However, Yao Zhijian is a bouncy and active character, sometimes like a child who has not grown up, but once he enters combat, he is extremely calm, this contrast makes Ji Feng a little surprised.

However, when he thought of the gymnastics mentioned by Yao Zhijian, Ji Feng could not help but frown slightly.

"Bodybuilding gymnastics"

Ji Feng whispered softly to himself.

He had already understood that the gymnastics that the intelligent brain was talking about was actually a gamma system cultivation method, and the bio-current generated in the body of the person practicing gymnastics was actually what the ancient martial arts masters in China called internal energy, or true qi.

It's just that this gymnastics is a form of exercise developed after a highly in-depth study of the human body by cutting-edge technology, which is more efficient than those ancient martial arts, but between the two, they seem to be on the same path!

Sometimes, Ji Feng even wondered if physical exercise could be regarded as a form of ancient martial arts.

For example, in those martial arts novels, some people practise the Nine Yang divine Kung Fu, while others practise the unknown internal martial arts techniques, because the internal martial arts techniques differ in level, so the practitioners want to cultivate differently.

Some people are able to become the most powerful experts in the world, while others are only slightly better than those mountain thieves and bandits, that's the reason.

"Right!"

Thinking of this, Ji Feng suddenly had a thought in his mind, "If we say that we treat body building exercises as a kind of internal gong heart method for cultivation, then, the fourth stage of body building exercises, which is slow to find the doorway, is it possible to borrow some methods from ancient martial arts? Or, directly cultivate the ancient martial arts heart method, so as to find another way?"

As soon as this thought popped up in his mind, he could no longer restrain it. Ji Feng vaguely realised that this might be a feasible path, no more, it couldn't be any more wrong.

"This method, it's worth trying!" Ji Feng secretly said, thinking of this method, he suddenly had a feeling of light before his eyes.

But soon, Ji Feng was worried, "But where should I find this Ancient Martial Arts Heart Method"?

He was not deeply involved with the ancient martial arts schools, only Shen Jingyi's family was an ancient martial arts family, and that Tan family that Shen Jingyi had once been married to, both sides had also fought, other than that, Ji Feng's side was only Yang Bin who was an ancient martial arts expert.

If he went to other ancient martial arts schools to ask for the cultivation method, it was obviously not feasible. Although Ji Feng did not know much about these schools, he knew that the cultivation method was the most important treasure of a school, so naturally, it would not be easily given to an outsider.

Then, there was only one way to ask Yang Bin first.

Ji Feng concentrated his mind and his consciousness entered his mind.

"Master."

When the intelligent brain saw Ji Feng enter, it immediately greeted, "Master, you haven't come in for a long time."

Ji Feng froze, "How long has it been?"

The intelligent brain said, "Almost a month."

Ji Feng then couldn't help but secretly frown, now the Wise Brain was talking more and more like a person with autonomous consciousness, if one didn't look at its main body and just carry on a conversation, I'm afraid no one would take it as an intelligence.

"Wise Brain, I thought of a way that might allow me to enter the fourth stage of my cultivation." Ji Feng suppressed the other thoughts in his mind and said, "So I came in to discuss it with you, so you can see if it's feasible."

"Master, please speak." The intelligent brain said.

“How much information on ancient martial arts have you collected?” Ji Feng asked.

“As instructed by the master, I have collected all the information that I can access.” The intelligent brain said.

Ji Feng nodded: “Then according to your analysis, if I change to ancient martial arts now, do you think it will be of any help in entering the fourth stage?”

“No!”

The intelligent brain said.

When Ji Feng smiled, his brows immediately furrowed, “No? Why?!”

Campus Master Chapter 3113

He originally thought that the intelligent brain should give him a positive answer.

According to his analysis, the ancient Chinese martial arts were similar in nature to the physical exercises in the training space of the Wisdom Brain, but what he did not expect was that the Wisdom Brain rejected his idea and threw cold water on his head!

The intelligent brain said, “Master, according to the information collected, the energy produced in one’s body after the cultivation of Chinese ancient martial arts is somewhat different compared to biological currents. In addition, Chinese Ancient Martial Arts and Body Building Exercise are not the same cultivation system and cannot be shared.”

Ji Feng couldn’t help but frown at his words, “Can’t be common?”

The intelligent brain said, “Yes, master!”

Ji Feng asked, “Then according to your analysis, bio-current and internal force are also very different?”

The intelligent brain said, “Although the two are similar to a certain extent, they are also different and cannot be compared to each other.”

Ji Feng fell silent when he heard that.

He didn’t expect this result, originally he thought he had finally found the opportunity to break through to the fourth stage, but he didn’t expect that it would be such a result, the two were not the same thing, they couldn’t be shared!

“Then bio-current and internal power, what exactly is the difference?” Ji Feng was still a bit reluctant and asked.

“No data is available at the moment, unable to make a detailed analysis!” The intelligent brain said.

Ji Feng frowned and said, “In that case, you actually can’t say anything about it?”

The intelligent brain said, “There’s not enough data.”

Ji Feng slowly nodded, this was not the first time he had encountered such a thing as insufficient data from the intelligent brain, so he did not feel surprised, after all, even if the technology of the Gamma

Galaxy was more developed, it was still different from certain things on Earth, and it was normal that he could not analyze it.

“Then, am I allowed to try?” Ji Feng asked again.

“In the absence of detailed data, it is not recommended that the master make an attempt!” The intelligent brain said.

Ji Feng nodded and said, “I know.”

Afterwards, Ji Feng didn’t ask any more questions, but continued to practice body-building exercises.

However, his heart was very reluctant because he felt that, no matter whether it was body building gymnastics or the ancient Chinese martial arts, they were both ways to enhance one’s physique and give one transcendent abilities after all, and they were also ways to strengthen oneself by absorbing external energy without side effects, there must be similarities between the two.

At the very least, the principles and effects are the same. All that differed was the process, and the difference between the bio-current in the body and the internal energy.

So, even though the Wise Brain did not advise him to try it, he decided to give it a go.

When he exited from the training space of the wise brain, the sky was already dawning.

Looking at Tong Lei, who was still asleep beside him, Ji Feng couldn’t help but smile slightly. During this period of time, Tong Lei had put all her energy into school and was living a very fulfilling life every day, which made Ji Feng happy to see.

Tong Lei was quiet in nature, not suitable for the shopping mall or those things that were disturbing, and was most suitable in school.

Moreover, what she is doing is not meaningless, on the contrary, for Ji Feng, what Tong Lei is doing has precisely a very important meaning.

The extent to which the Tengfei Group could develop in the future depended entirely on the cultivation of talents.

And the school that Tong Lei runs, whether it is the school in Jiangzhou or the school on island number one, has added a special curriculum to the normal curriculum – the system of knowledge from the Gamma system!

Although the knowledge of the Gamma system is still only the most basic, in ten years’ time at most, the entire Gamma system will be applied to teaching, and by then, the first students who have received the Gamma education system will be able to start to function.

In a decade or so, these people will be the mainstay of the research staff of the entire Tengfei Group, and by then the entire Tengfei Group will be taken over by the talents trained by the Gamma education system.

What Tong Lei is doing now will be of immeasurable importance in the future!

After kissing the delicate beauty on her face, Ji Feng quietly got up, dressed and went outside. The breeze blew by, carrying a faint smell of the sea breeze, making people feel relaxed and happy.

Outside, patches and patches of woods swayed gently in the breeze. Ji Feng came to the top of the building and looked into the distance, the shimmering sea was endless, the scenery was mesmerizingly beautiful.

“Such a beautiful place, it won’t bear the shelling anymore!” Ji Feng secretly said, no matter what kind of war was fought in the future, he would not let No. 1 Island become a battlefield again.

After moving his body slightly, Ji Feng couldn’t help but frown slightly, the discomfort in his left arm was still very obvious.

“This arm is kind of ruined!” Ji Feng sighed lightly, he had to admit that the technology of the dynasty was really powerful, and the kind of ancient martial arts plus modern technology transformers that were cultivated were really strong.

Fortunately, although there were quite a few ancient martial arts masters, there didn’t seem to be many of them in the dynasty, and very few of them were willing to undergo such transformations, otherwise, the dynasty would really have an extremely terrifying army of transformers!

At that time, the dynasty’s army would be able to sweep the world!

This is not an exaggeration at all!

Without having seen the terrifying nature of the transformed people, one would never be able to appreciate it.

“Since the dynasty can combine ancient martial arts with modern technology, can’t I try it?” Ji Feng suddenly moved in his heart and secretly said.

Of course, what he said about trying was not as perverted as Dynasty’s transformed people, who were born to transform people into inhuman beings, he just thought that since Dynasty could combine ancient martial arts with modern technology, it meant that the internal force cultivated from ancient martial arts should be very inclusive, so maybe, he could practice body building exercises and then cultivate ancient martial arts at the same time!

Ji Feng decided to give it a try!

The words of the intelligent brain, he only took them as a reference, he had his own ideas on what to do exactly.

Just think of it and do it!

After breakfast Ji Feng called for Yang Bin and asked about practicing Ancient Martial Arts.

Yang Bin was a bit strange: “Sir, aren’t you an expert in ancient martial arts?”

Ji Feng actually asked him about the cultivation of ancient martial arts, which made Yang Bin feel strange, because in his opinion, Ji Feng himself was an expert in ancient martial arts, and a top expert at

that, having reached the Innate realm and being able to release his true qi at will, which even ordinary Innate experts could not do with as much ease as he did.

But now, Ji Feng actually asked him for advice?

Ji Feng smiled and said, "As you know, my cultivation method is not quite the same as the ordinary ancient martial arts heart method, it is considered a rather alternative cultivation method."

Yang Bin nodded, he knew about body building exercises and did feel that this cultivation method was not quite the same as ordinary ancient martial arts mind techniques, but it was extremely efficient, moreover, it was very easy to get started, even if he couldn't cultivate to an advanced level, the effectiveness of just strengthening his body and body was better than ordinary ancient martial arts mind techniques alone!

"However, there's a little problem with my cultivation now, to be precise, I've hit a bottleneck!" Ji Feng said, "My cultivation has been stagnant for a long time, so I need to find some methods to draw on."

"So that's how it is!"

Yang Bin immediately understood, "Sir, you want to learn about the cultivation methods of ancient martial arts as a way to corroborate with your cultivation methods?"

Ji Feng nodded and said, "That's right."

Yang Bin immediately said, "I cultivate a kind of internal martial arts, first practice fist, then cultivate internal power"

He immediately told his cultivation method without reservation.

Ji Feng listened carefully, corroborating in his mind with the body-building exercises he practiced, and vaguely seemed to have a vague feeling, but could not grasp it.

"Sir, will this help you?" Yang Bin asked as he finished.

"It definitely helps."

Ji Feng nodded and smiled, even if it didn't help in cultivation for the time being, Yang Bin's method of practicing boxing first and then cultivating internal strength still gave Ji Feng some inspiration, he felt that since he couldn't make a breakthrough in cultivation for a while and didn't find a way to enter the fourth stage for the time being, perhaps, practicing boxing would be a good choice.

At the very least, it would be a complement to his stances.

In ancient martial arts, apart from internal martial arts, stances are also extremely important. Some people do not have a high level of internal strength, but they are able to greatly enhance their attacking power just by relying on subtle stances.

This is the beauty of stances!

What Ji Feng practiced were all killing techniques, one move after another, all straight to the point, just to kill in one blow, which could not be said to be wrong, but the killing aura was so heavy that it seemed to be sharp and piercing.

“Perhaps, it is most appropriate to start with the basics!” Ji Feng said secretly.

“Ding

Ji Feng was about to learn the ancient martial arts routines from Yang Bin when his phone suddenly rang.

The call was from Xiao Yu, and Ji Feng immediately picked up the phone, “Xiao Yu, why are you calling me so early? Is something wrong?”

On the other end of the phone, Ji Xiaoyu snapped, “Third brother, you’re so bad, I have to be in trouble before I can call you, you went to No.1 Island for so long without saying to give me a call

Ji Feng immediately laughed: “Fine, fine, third brother is wrong.”

Ji Xiaoyu smiled cheekily, “Third brother, are you busy now?”

Ji Feng said, “Not bad, what’s wrong?”

“Then, can you come to Jiangzhou for a trip?” Ji Xiaoyu’s voice was suddenly a little hesitant, with some squirming.

“Go to Jiangzhou now? Xiao Yu, do you have something going on?” Ji Feng knew Xiao Yu, this girl usually didn’t squirm like this when she spoke, now she was so hesitant and asked him to make a trip to Jiangzhou, it would be strange if nothing was wrong.

“Just a little thing.”

Ji Xiaoyu said vaguely, “Third brother, if you’re busy then forget it, it’s not urgent anyway!”

Ji Feng laughed, “I’d better go over now.”

Campus Master Chapter 3114

Now that he couldn’t find a way to break through to the fourth stage, Ji Feng had some free time, not to mention that he hadn’t seen Xiao Yu for a long time and missed her, so Ji Feng decided to leave for Jiangzhou right away.

Jiangzhou was not a short distance from Island No. 1, but it didn’t take long by plane, and at noon, Ji Feng arrived in Jiangzhou.

“Third Brother! I’m here!”

As soon as he exited the airport passageway, Ji Feng saw Ji Xiaoyu waving his hand and waiting for him.

Quickly walking up to Ji Xiaoyu, Ji Feng smiled and said, “Haven’t seen you for a while, Xiaoyu has grown into a big girl too!”

At this time, Ji Xiaoyu was wearing a pair of rust-red seven-part trousers with a little harlequin style looking very casual, and her original youthful student dress had turned into a fashionable city girl dress at this time, which matched her beautiful appearance, and had a unique charm.

Ji Xiaoyu, however, blushed and pouted, "Third brother, you've also learned badly from second brother, you just know how to flirt with me!"

Ji Feng laughed, "I'm telling the truth, don't believe me, look, everyone around is staring at you!"

Indeed, as Ji Xiaoyu stood here, many of the men around her were staring at her, full of youthful vitality and with a fashionable urban flavor, she was like a beautiful scenery here, which was indeed very eye-catching.

Ji Xiaoyu wrinkled her nose: "Third brother, if you keep saying that I'll ignore you!"

Ji Feng laughed out loud, "Good! Good! No more talking. Xiao Yu, you asked me to come to Jiangzhou, what's the matter?"

"Let's talk about it in the car." Ji Xiaoyu said.

"Fine!"

Ji Feng nodded, this was indeed not the place to talk, there were quite a few people around looking this way, no matter what the matter was, it was always bad to discuss it here.

When he came to the car park, Ji Feng couldn't help but smile again, Xiao Yu the girl's car was actually a sedan produced by the Tengfei Group, and it was a rare pink colour that looked very feminine.

"Xiao Yu, you have this car"

"Pretty, isn't it? It was given to me by my sister-in-law!" Ji Xiaoyu said smugly.

"Sister-in-law? Which sister-in-law?!" Ji Feng asked.

"It's sister-in-law Lei Lei!"

Ji Xiaoyu couldn't help but complain, "Third brother, you're really bad, I used to have to squeeze the bus or take the underground every day to go to work, and you didn't know to send me a car, or sister-in-law Lei Lei thought of it and had someone send me one on purpose!"

Ji Feng froze, he didn't expect that Tong Lei would actually make such an arrangement, but this was obviously the right thing to do, just by looking at the smile on Xiao Yu's girl's face, he could tell how much she liked this car.

This made Ji Feng also had to sigh, the fact that the Ji family had been able to stand for decades without falling could not just be because of the presence of the old man, the education of the elders of the family to the juniors below was also one of the reasons.

With a status like Ji Xiaoyu's, if she wanted a car, what kind of car couldn't she get? I'm afraid that even if she wanted the most expensive limited edition in the world, there would definitely be someone who would bashfully deliver it to her, even if it was the most expensive customized version, it was not something out of reach, and moreover, all the formalities would definitely not need to be bothered by Xiao Yu.

But this girl still squeezed the bus to work!

“This is an oversight on my part, how come you don’t know to buy a car for yourself?” Ji Feng asked with a smile.

“I don’t have so much money!”

Ji Xiaoyu hummed, “The company I originally worked for was too stingy, seeing as I only graduated with a bachelor’s degree, they only gave me a little over four thousand a month, luckily second brother helped me find a house, otherwise I wouldn’t have much left in my monthly salary just from rent plus living expenses, and I would still have money to buy a car?”

Ji Feng was dumbfounded, “So how can you afford to support yourself now?”

Ji Xiaoyu said, “I changed jobs! Someone is paying me well and doubling my salary!”

Seeing Ji Xiaoyu’s smiling face, the smile on Ji Feng’s face couldn’t help but brighten up a bit, “Xiao Yu, I remember that you studied management, right? I’ll help you find a job, how about that?”

“You?”

Ji Xiaoyu took a look at him and immediately shook her head, “No! I’m not going to work in your company, there’s no point!”

Ji Feng was immediately amused: “Little girl, an easy and well-paying job is not interesting? Then what kind of job is interesting?”

“The job I have now is quite good!” Ji Xiaoyu said, “Third brother, I’m already a supervisor now, I’m in charge of more than twenty people below me, and our group’s performance is very good, as long as I keep it up, I’ll be able to sit in the position of department manager next year.”

Only then did Ji Feng realise that Ji Xiaoyu was actually doing quite well. Originally, he only knew that Ji Xiaoyu was working in a cosmetics company, but he didn’t expect that after only a short time, this girl was already a supervisor.

Ji Feng suddenly realised that he had cared too little about the people around him over this period of time, and his energy had all been distracted by the construction of Island No. 1 and the dynasty’s affairs.

“Third brother, why are you dazed?!” While Ji Feng was secretly lamenting, Ji Xiaoyu had already gotten into the car and lowered the window glass.

Ji Feng smiled as he sat in the passenger seat, seeing Ji Xiaoyu skillfully start the car, then put it in gear and drive it away from the parking space, he then realised that in the year or so he had stayed on No. 1 Island, this girl Xiaoyu had really grown up.

“Third Brother, it’s time for dinner, I’ll treat you to dinner.” Ji Xiaoyu said.

“Sure!”

Ji Feng nodded and smiled, “I’ll listen to your arrangements today.”

He could tell that this girl definitely had something going on, but she was just a bit squirmy and didn’t seem to have thought about what to tell him yet. He couldn’t help but feel a twitch in his heart, this girl couldn’t be in love, could she?

Ji Xiaoyu led him to a cafe and found a card table. After they sat down, Ji Feng took the menu and ordered a few dishes.

Soon, the dishes came up and Ji Feng smiled, "Hurry up and eat, this yellow fish should be eaten while it's hot, the taste will change if it gets cold."

He then ate on his own.

Until he was almost done eating, Ji Xiaoyu finally couldn't help but say, "Third brother, why didn't you ask?"

Ji Feng laughed, "Ask what?"

Ji Xiaoyu angrily said, "Before, you were asking me all the time what I was asking you to come to Jiangzhou for, how come now you're just eating and not even asking a single question!"

Ji Feng was instantly amused, "Just now I asked you and you didn't say anything!"

Ji Xiaoyu squirmed for a moment, wanting to say something but then stopped.

"Did you encounter something difficult? What, you can't say anything to Third Brother too?" Ji Feng asked.

"Third Brother, Second Uncle asked me to come to the house for dinner!" Ji Xiaoyu suddenly said.

Ji Feng said, "What's wrong?"

He knew that Second Uncle Ji Zhenguo was also extremely fond of Xiao Yu, especially Second Aunt, who was simply closer to Xiao Yu than her own daughter because she didn't have a daughter, and would go to school every now and then to see Xiao Yu when she was in college. So at this time, hearing Xiao Yu say this, Ji Feng did not feel surprised at all.

"He told me to go with someone else!" Ji Xiaoyu said.

"With someone else? With who?" Ji Feng was stunned.

But soon, Ji Feng reacted, "Xiao Yu, are you in love?"

Ji Xiaoyu blushed slightly but nodded, "Yesterday I met Erniang, then Second Uncle called me and asked me to go to the house"

Hearing Ji Xiaoyu's somewhat embarrassed words, Ji Feng understood what was going on.

It turns out that yesterday, when Ji Xiaoyu was out with her boyfriend, it just so happened that when Second Aunt came over to visit Xiaoyu, she met Xiaoyu's boyfriend, and after she came home, she must have told Second Uncle about Xiaoyu's relationship, so Second Uncle called and asked Xiaoyu to bring her boyfriend to the house for dinner together.

Ji Feng knew that actually the dinner was only incidental, it was only true that Uncle Er wanted to see Xiao Yu's boyfriend!

"Xiao Yu, are you living with your boyfriend?" Ji Feng suddenly asked.

“Which is not!”

Ji Xiaoyu hurriedly shook her head and said with a red face, “It’s just that he happened to come looking for me yesterday, and then he was met by Erniang, so she might have misunderstood”

That’s no wonder!

Ji Feng instantly laughed, he originally thought it was strange, it was normal for young people to fall in love, usually this kind of thing, the second uncle would definitely not venture to ask too much, obviously, the second aunt had met her boyfriend at Ji Xiaoyu’s place, so she assumed that the two of them were already living together.

In the eyes of the older generation, this is a big deal. If it was other young people living together, it might not matter, but when it comes to their own niece, Second Uncle and Second Aunt immediately take it seriously.

That’s why there was that phone call from Second Uncle, asking Xiao Yu to bring her boyfriend along.

“So you asked me to come, is it to escort you? Or is it to give you courage?” Ji Feng asked with a smile.

“No, it’s just that my boyfriend he’s a bit, too honest, and I’m afraid that second uncle won’t be satisfied when he sees it.” Ji Xiaoyu was a little worried.

Ji Feng was stunned, “Too honest? Xiao Yu, give me an introduction to this boyfriend of yours. This girl of yours is really something, she’s in love and still hides it, even I don’t tell her, if Second Aunt didn’t happen to come across it, how long do you plan to hide it?”

Ji Xiaoyu was a bit embarrassed, “I haven’t thought of what to tell you guys yet.”

“Alright, tell us about that boyfriend of yours.” Ji Feng didn’t say anything else, this girl was already thin-skinned, and although she was lively and active, she was not someone who could wipe her face, so she would be embarrassed if she said too much.

“His name is Wu Peng, he is from East China, his family is from the countryside, his family is not very rich.” Ji Xiaoyu said, and as she spoke, her gaze was fixed on Ji Feng’s face, as if she wanted to see Ji Feng’s reaction clearly.

“Mm.”

Ji Feng nodded, “Then what?”

Ji Xiaoyu froze for a moment, seemingly not expecting this kind of reaction from Ji Feng, and after a moment of hesitation, asked, “Third brother, would the rural ones not be good?”

Ji Feng laughed, “What’s so bad about it? Don’t you forget, I also came from the countryside, your eldest mother also came from the countryside, and grandfather, isn’t he also from the mud leg? I never felt there was anything wrong with being from a rural background, so how come you have baggage in this regard?”

Ji Xiaoyu smiled at her words, and a smile suddenly appeared on her delicate features.

Campus Master Chapter 3115

“Are you worried that second uncle and second aunt might reject him because of Wu Peng’s origin?”

Ji Feng shook his head with a smile, “There’s absolutely no need for you to worry about that. You, instead of always worrying about what others think, you should ask yourself whether this Wu Peng is suitable for you or not!”

Ji Xiaoyu was a little embarrassed by the comment, “That’s why I asked you to help me with advice!”

“What have you been doing?”

Ji Feng couldn’t help but laugh in his heart, if this girl hadn’t been accidentally bumped into by the second aunt, I’m afraid she would still be hiding it now, he thought this in his heart, but his mouth didn’t say so, instead he said with a smile, “Okay, I’ll help you advise, then you can continue to talk.”

Ji Xiaoyu did not know that Ji Feng was laughing at her in his heart and said, “Wu Peng is a network company, and our company in the same office building, once when it happened to rain at the end of the day, I accidentally splashed him, and then we both met from that time ”

Ji Feng nodded slightly and asked, “What kind of work does Wu Peng do in the network company?”

Ji Xiaoyu said, “Data mining! It’s something about databases.”

“That’s a technical job!”

Ji Feng laughed. He knew something about data mining, and now Tengfei Network was also involved in this area of work, which required a certain amount of skill, although it wasn’t as technically demanding as writing software and other positions in the it industry, but it wasn’t much different.

Moreover, those who do this kind of work are generally technical geeks.

No wonder Ji Xiaoyu would say that Wu Peng was honest!

Doing this job, even if he wanted to have a fancy mind, he wouldn’t have that chance.

“So you’re asking me to come over now, do you want me to help you escort you?” Ji Feng asked with a smile.

Ji Xiaoyu nodded shyly, “I’m afraid that when the time comes, Wu Peng won’t be very good at talking and might make Second Uncle unhappy, Third Brother, if you go along, Second Uncle definitely won’t make things too difficult for Wu Peng.”

Ji Feng understood why Ji Xiaoyu had called herself over, it turned out that this girl was afraid that her boyfriend would be given a hard time!

He couldn’t help but laugh: “Xiao Yu, just put a hundred hearts into it, second uncle will definitely not make things difficult for Wu Peng, he asked you to go over for dinner, I’m afraid he just wants to keep an eye on you and see how this young man is!”

“But Wu Peng doesn’t know our family’s situation yet.” Ji Xiaoyu was a little hesitant, “I’m a little worried”

“So it’s like that!”

Ji Feng was relieved, no wonder this girl was always a little hesitant and looked like she wanted to say something but didn't. It turned out that it was that Wu Peng still didn't know Xiao Yu's identity.

I'm afraid that Xiao Yu was not only worried that second uncle would make things difficult for Wu Peng, making Wu Peng's honest nature make a fool of itself, but most of all, I'm afraid she didn't know how to tell Wu Peng about her identity, right?

After pondering for a moment, Ji Feng said, "Xiao Yu, it is proper to bring your boyfriend to visit second uncle. However, can you be sure that Wu Peng is suitable for you?"

From Ji Xiaoyu's attitude, Ji Feng was able to tell that this girl seemed to be unable to eat what exactly would be Wu Peng's reaction if he knew her true identity.

In fact, this also showed that Xiao Yu did not seem to be that sure about the feelings between her and Wu Peng.

At the very least, Xiao Yu did not seem to have the confidence.

This is not a good sign!

And most importantly, what Ji Feng feared the most was that Wu Peng was the kind of person who had a particularly strong sense of self-esteem, to the point where he could even be said to be almost that paranoid.

Ji Feng himself came from a small county, and he had seen many people who had been repressed too hard in high school in small places, and ended up indulging themselves as if they had broken out of their cages at once when they arrived at university, as if they were like fish in the sea and couldn't even contain themselves in their excitement.

On the contrary, there are other people who also come from small places or from the countryside, and when they first arrive in the big city, they are overwhelmed by the developed and prosperous city.

Such a person is very sensitive in dealing with others, and often a thoughtless word or an unintentional look from others will make him think a lot, or even secretly hold a grudge against the other person in his heart.

Moreover, this kind of person has a distinctive characteristic: a strong sense of self-esteem. They cannot bear to be hurt or stimulated at all.

But on the contrary, this kind of person still behaves very generously on the surface, but in his heart he thinks that everyone is drunk and I am awake alone, and he has a feeling of being above the world.

Of course, there are also a large part of those who come from small places or from the countryside, who can put their feet on the ground and work hard little by little, and although they bear a lot of pressure in life and economy, they can rely on their own efforts and eventually work out their own results.

In Ji Feng's heart, he most hoped that Wu Peng was the last kind of person, coming from the countryside, with the tenacity and drive of a farmer, as long as he was given a chance, he would make dazzling achievements.

But now, seeing Xiao Yu's reaction, Ji Feng was a little worried, this Wu Peng, wouldn't he be the second type of person?

Hearing Ji Feng's question, Ji Xiaoyu nodded without even thinking: "I think he's suitable for me!"

Ji Feng was surprised and asked, "You're so sure?"

Ji Xiaoyu said, "I just know."

Seeing Ji Xiaoyu's affirmative answer, Ji Feng smiled, "It seems that the two of you have a pretty solid relationship, since that's the case, then what do you have to worry about?"

Ji Xiaoyu was just about to speak when she was interrupted by Ji Feng.

"I know, you're afraid that after he knows your true identity, he'll feel that the gap between the two families is a bit big and will back off, right?" Ji Feng shook his head and said, "If he really retreats, then I think it's the opposite of good. It's better to retreat now than to separate later. The deeper you get to know each other, the greater your inferiority complex will be, and separating at that time will hurt both of you more!"

Ji Xiaoyu was suddenly silent.

"How about this, you call Wu Peng over first, I'll talk to him, if he can't even get past me, then don't go to Second Uncle's house again." Ji Feng said, he was also a young man, if this Wu Peng couldn't even talk to him or act inappropriately in front of him, then it would be even more impossible to hide it from Second Uncle's eyes.

Ji Xiaoyu hesitated for a moment and said, "Okay. But third brother, you can't bully him!"

"What are you talking about!"

Ji Feng glared in anger, "If you two become then he is my brother-in-law, why would I bully him? So I came all the way from Island No. 1 just to bully my brother-in-law? What's wrong with me?"

Ji Xiaoyu was then happy and relieved, "I knew Third Brother was the best! Then I'll let him come over now."

Ji Feng said, "How about this, there's a park next to the family courtyard of the municipal party committee, just ask Wu Peng there, when the time comes, you wait in the car and I'll have a chat with him there."

"Mm."

Ji Xiaoyu nodded and took out her mobile phone to call Wu Peng.

Ji Feng, however, couldn't help but shake his head, it was said that a woman in love would have a severely lowered IQ, and it seemed that this also applied to Xiao Yu's body. Seeing Xiao Yu's hesitant look, she actually didn't even know how Wu Peng would react, which means that Ji Xiaoyu wasn't fully confident in the relationship between the two of them!

"Wu Peng ah Wu Peng, you mustn't let me down!" Ji Feng secretly said, "This girl, Xiao Yu, is obviously moved with true feelings, if this time doesn't work out, I'm afraid it will hurt Xiao Yu quite a bit."

After Ji Feng paid the bill, Xiao Yu drove the car and took him to a small park near the family compound of the municipal party committee, the two of them parked the car in the car park, and Ji Xiao Yu became anxious, looking down at her watch from time to time.

Seeing her appearance, Ji Feng said with some amusement, "Girl, there's no need to be so anxious, there's just a bit of traffic jam at this time of the day, it's normal for him to be a little late."

Ji Xiaoyu said, "I'm worried that he won't be able to find the car park over here, Third Brother, you wait here for a while, I'll go wait for him at the park gate!"

"Fine."

Ji Feng smiled and nodded, but in his heart he was bemoaning, really, girls are extroverted, this girl is really tight with her boyfriend!

However, from this, it could also be seen that Ji Xiaoyu was sincere about this Wu Peng.

I just don't know, what exactly is Wu Peng's attitude towards Xiao Yu.

.....

The fact that Wu Peng came from a small county below the rural areas, because is in the eastern region, with these decades of reform and opening up, their small county's economy has become good, but only good, after all, even rich places have poor, even poor places have rich, Wu Peng's small countryside, is just the general rural areas.

But the living conditions of Wu Peng's family were not bad, and a young man of his age had not suffered much from childhood, let alone working in the fields.

However, the property prices in Jiangzhou were so expensive that his family could support him until he graduated from university, but could not give him any more support, let alone buying a house in Jiangzhou.

This made Wu Peng a bit distressed!

Especially, when he had a girlfriend, he wanted to give her a stable home, not for any other reason, because there was a saying passed down in their old family – when someone's daughter marries you, she should at least have a place to shelter from the wind and rain, right?

The saying that if you marry a chicken, you should at least have a roof over your head?

If the person who said that had a daughter of his own, if he asked his daughter to marry a beggar or a fool, do you think he would do it?

So Wu Peng was very distressed, especially, when his girlfriend told him that her elders knew about the two of them and wanted to invite them both to dinner, this made Wu Peng even more apprehensive.

Because, he didn't know what to say to his girlfriend's elders, he couldn't give back any promises now!

But no matter what, what should be faced must still be faced.

"Wu Peng, this way!"

A pleasant voice came, Wu Peng looked up and a smile immediately appeared on his face as he quickly walked over, "Xiao Yu!"

Campus Master Chapter 3116

"Xiao Yu, didn't you say you were going to your second uncle's house, why did you come to the park?" Wu Peng asked a little strangely.

"My third brother is back, let's have a chat with him first." Ji Xiaoyu said.

Wu Peng froze for a moment, then nodded his head and said, "Right, right! Xiao Yu, this arrangement of yours is really good, I was worried about what gifts I should buy when I go to second uncle's house, it's best to ask for advice from third brother."

Ji Xiaoyu snapped, "Are you stupid? If you ask my third brother, he will definitely say that there is no need to buy anything, you can only ask your friends for advice on such matters. Forget it, let's talk about it later, let's hurry over there first, Third Brother is waiting in the park."

Wu Peng scratched his head in embarrassment, "That's right, I'm to blame for not thinking it through."

Ji Xiaoyu couldn't help but worry a little, Wu Peng was so honest, I really don't know if Third Brother could see it!

"Wu Peng, there's something I didn't tell you before." Ji Xiaoyu suddenly said, "Actually, about my family, it's a bit unusual, when Third Brother speaks later, I hope you won't be angry."

"What am I angry about?" Wu Peng asked strangely.

"Forget it, you'll know later." Ji Xiaoyu didn't explain much, things had come to this point anyway, so he might as well just let Third Brother talk to him.

When the two arrived at the park, Ji Feng was already sitting on a bench and waiting.

From a distance, Ji Feng saw Ji Xiaoyu walking over with a young man wearing glasses. He knew that this young man should be Xiao Yu's boyfriend Wu Peng, so he watched carefully.

What Ji Feng found was that Wu Peng was about 5'8" and was quite a good match for Xiao Yu, but that wasn't the most important thing, he wasn't one to judge people by their appearance either, what made Ji Feng care was that when Wu Peng and Ji Xiao Yu were walking over, Wu Peng's steps weren't too big, it should have been to take care of Xiao Yu's pace.

If this was not a person who was deliberately acting, then it was very attentive.

Soon, the two came to heel.

"Wu Peng, this is my third brother, Ji Feng."

Introducing her boyfriend to Ji Feng, Ji Xiaoyu looked a little less than impressed, "Third brother, this is Wu Peng."

Wu Peng hurriedly said, "How are you, third brother."

Ji Feng smiled and nodded, "How do you do."

Although Wu Peng called him Third Brother, judging from his actual age, this Wu Peng did not seem younger than him, of course, he was actually just less than two years older than Xiao Yu. But even if Wu Peng was older than him, he still had to call him brother, it was a tradition.

“Xiao Yu, see if there’s a drink vendor around here, I’m a bit thirsty.” Ji Feng turned his head and said to Ji Xiaoyu.

“Mm.”

Ji Xiaoyu nodded and admonished a little less reassuringly, “Third brother, Wu Peng is not very good at talking, so you should be more tolerant.”

Ji Feng smiled and said, “Don’t worry.”

Wu Peng hurriedly said, “It’s better for me to go buy it, third brother, what kind of drink do you want to drink

Ji Xiaoyu said, “You stay here and talk with third brother, I’ll just go.”

She secretly said in her heart, this silly boy, this is to give you a chance to communicate properly with third brother, what’s the matter with you going to buy drinks!

“Wu Peng, have a seat.”

After Ji Xiaoyu left, Ji Feng said with a smile.

Wu Peng gave an ay, “Third brother, you sit too.”

Ji Feng smiled, if it was in normal times, he didn’t like to be so polite with people, but now was different, “Smoking?”

Seeing the cigarette Ji Feng handed over, Wu Peng waved his hand, “Don’t be polite, Third Brother, I don’t know how to smoke.”

Speaking of this he was a little embarrassed, “I didn’t bring any cigarettes either. I don’t smoke myself, so I usually don’t think of bringing cigarettes to greet people.”

Ji Feng laughed: “It’s okay, I’m not too addicted to smoking

 Wu Peng, how long have you known Xiao Yu?”

Wu Peng said, “Quite a long time.”

Ji Feng nodded his head and suddenly asked, “Xiao Yu hasn’t told you about our family, right?”

Wu Peng shook his head, “No. I asked her about it and she said that your family is just an ordinary family, uncle is a civil servant and auntie is an ordinary working person.”

Ji Feng laughed, “Actually, Xiao Yu didn’t tell you the truth. Our family isn’t an ordinary family, but a bit complicated.”

Looking at Wu Peng’s dazed look, Ji Feng smiled, he didn’t ask how the relationship between Wu Peng and Xiao Yu was, instead he came up and opened up about the family’s situation.

“Xiao Yu is my cousin, my younger uncle’s daughter. Our families are both in Yanjing, and my youngest uncle is indeed a civil servant, but not an ordinary one. Rather, he is a general in the army!” Ji Feng stared at Wu Peng as he spoke.

“General?”

Wu Peng was instantly taken aback.

Ji Feng nodded his head and said, “That’s right. It’s a general! But exactly what the position is, I can’t tell you yet due to the principle of confidentiality. But what I can tell you is that Xiao Yu’s father, holds a very, very high position! Also, the second uncle’s family that you are going to today is not an ordinary family, the high ranking official of Jiangzhou City, is the second uncle that Xiao Yu is talking about!”

“Ah?!”

Wu Peng exclaimed, his face couldn’t help but show a shocked expression, “Jiang, a high ranking official in Jiangzhou City, is Xiao Yu’s second uncle?!”

“That’s right!”

Ji Feng nodded, but his gaze never left Wu Peng’s face, he carefully observed and found that the shocked look on Wu Peng’s face was not faked, which meant that Wu Peng did not know Xiao Yu’s identity before.

Ji Feng opened up and said this, not just to explain for Xiao Yu, in fact, he also had the intention of testing Wu Peng, wanting to know if Wu Peng was clear about Xiao Yu’s identity before, but pretended not to know.

Now it seemed that Wu Peng was not pretending.

Just as Ji Feng was observing him, Wu Peng’s heart was filled with shock, his mouth was open, and it took him a long time to come back to his senses, an unnatural look flashed across his face, “Third, third brother, do you think I’m not good enough for Xiao Yu?”

Ji Feng smiled, “And what do you think?”

Wu Peng’s face turned a little red and he looked extremely embarrassed.

“Xiao Yu’s father has three brothers in total, my father is the eldest, Xiao Yu’s father is the youngest, there is only one girl like Xiao Yu in the three families, and all of us are very precious to her.” Ji Feng said, “In my eyes, she is just like my own sister, and the old man in the family even likes her very much! It can be said that she is the little princess of our family, do you understand when I say this?”

“..... I understand.”

As Ji Feng said these words, Wu Peng’s face turned green and red for a while, embarrassed beyond measure, and after a moment, he stood up, squeezing out a hard smile on his face, “Third brother, I understand what you mean. I know that I’m not good enough for Xiao Yu, I have this self-knowledge.”

With a smile on his face, Ji Feng nodded his head.

“Then”

Wu Peng's voice was a bit lost and sullen, "I'll take my leave now."

Ji Feng nodded, "Good."

Wu Peng smiled bitterly, shook his head and turned to leave.

Ji Feng sat there without moving a muscle, and didn't even make a comment to stay. In fact, at this moment, Ji Feng was happy and disappointed at the same time.

When he said Xiao Yu's identity, he didn't see a half-hearted look of joy on Wu Peng's face, which wasn't faked, otherwise it definitely wouldn't have escaped his eyes. That is to say, after knowing Xiao Yu's identity, Wu Peng was not happy that Xiao Yu had such a background, he didn't want to climb the dragon!

For this reaction of Wu Peng, Ji Feng was very happy, he hoped that Xiao Yu could find someone who liked her, not someone who liked her status.

Of course, with Xiao Yu's looks and personality, there must be many, many men who liked her, but if they knew her identity, I believe the vast majority of them would like her while liking her!

But Wu Peng was obviously not like that, so Ji Feng was happy in his heart.

However, the next reaction of Wu Peng was very disappointing for Ji Feng.

After hearing this from him, Wu Peng actually left just like that, which made Ji Feng disappointed!

But after turning his head and thinking about it, Ji Feng was relieved. Not everyone had the courage to go for a general's daughter, especially someone like Wu Peng who came from an ordinary background.

Perhaps, an ordinary life was the best for him!

"Third brother!"

Just as Ji Feng was shaking his head, suddenly came Wu Peng's voice, he looked up and saw that Wu Peng, who had already walked a dozen metres, had unexpectedly turned back, "Third Brother, I am sincere about Xiao Yu, can this be for a chance to win?"

Ji Feng froze for a moment, "What chance?"

Wu Peng gritted his teeth, "I'm not willing to leave Xiao Yu just like that. I know that I am not worthy of Xiao Yu because of my ordinary background, but I believe that Xiao Yu is also sincere to me, and I am equally sincere to Xiao Yu, so with this, can I get a chance to prove myself!"

Ji Feng asked, "What do you want to prove?"

Wu Peng seemed to be open-minded: "I don't know what I want to prove, I just hope that I can meet your requirements! With my best effort! If I want to be with Xiao Yu, what kind of conditions do I need to meet? I just need a chance like this!"

Ji Feng looked at him, saw Wu Peng's tense face, and then looked at his joints that were a little white from overexertion, and couldn't help but smile slightly, "Don't you have that opportunity right now?!"

Wu Peng froze for a moment.

Ji Feng smiled, "Since Xiao Yu can bring you to see me, doesn't that mean that you actually already have this opportunity! Doesn't it?"

Wu Peng slowly shook his head, "But I know you guys must not be satisfied with me, I want to use my efforts to be with Xiao Yu in an honorable manner."

Ji Feng looked at him and suddenly laughed: "It's useless for you to ask me, the opportunity is in your hands to grasp."

Wu Peng's face instantly surfaced a flush, looking extraordinarily excited, "Third brother, you're saying yes?"

Ji Feng shook his head: "It doesn't matter whether I agree or not, the key is whether Xiaoyu agrees. Whether you can get together with Xiao Yu in the future will depend on how the two of you get along."

Even if Wu Peng was stupid, he knew that Ji Feng had passed this hurdle!

Although Wu Peng did not know how Ji Feng, who was so blunt and unforgiving just now, could not object to him dating Xiao Yu so easily, there was one thing he took to heart.

The key to getting along with Xiao Yu depends on how the two of them get along!

If Xiao Yu's family had this attitude, Wu Peng had full confidence that he would be able to get together with Xiao Yu because, he was one hundred percent true to her!

Campus Master Chapter 3117

"Let's go!"

Ji Feng smiled and stood up, patted Wu Peng's shoulder and said, "I'm a person who speaks rather straight, you don't mind, after all, Xiao Yu is my sister, I have to think of her."

Wu Peng said with embarrassment, "Third brother, I misunderstood you just now, I'm really sorry."

Ji Feng waved his hand, "There's nothing to be sorry about, if I were you, I'm afraid I would also be thinking like you, all right, it's not too early now, let's go to Second Uncle's house."

Wu Peng nodded his head repeatedly, now even if he was more honest, he knew that Ji Feng was not deliberately making things difficult for him just now, but was testing his attitude towards Xiao Yu.

What's more, Wu Peng was just honest, not stupid!

However, once he talked about going to Xiao Yu's second uncle's house, Wu Peng immediately got nervous again. Originally, not knowing what Xiao Yu's second uncle's status was, Wu Peng was already nervous, and now that he knew, he was even more restrained.

Although he was sincere about Xiao Yu, he could not contain the apprehension in his heart at the thought of meeting a senior city official in Jiangzhou.

"Don't be nervous, this hurdle will have to be passed sooner or later, unless you don't want to be with Xiao Yu." Ji Feng laughed, he naturally could see how nervous Wu Peng was.

"Mm."

Wu Peng nodded his head vigorously, as if he was giving himself a pep talk.

Ji Xiaoyu came back after a while, carrying a handy bag in her hand, "Third brother, I know you don't like those drinks, so I bought you mineral water"

As she spoke, her gaze was constantly glancing between Ji Feng and Wu Peng, as if she was curious to know what kind of conversation had taken place between them.

Ji Feng was actually not very thirsty, but he still took the water and said, "Let's go, there's a fruit stall in front, buy some fruit."

Wu Peng immediately let out an ah, "Third brother, going to visit the elders and only buying some fruit, is that okay?"

"It's fine."

Ji Feng said, "It's only inappropriate to buy other things, fruit is just right."

Wu Peng then said nothing more.

In fact, he didn't know what to buy, it seemed inappropriate to buy anything when going to the home of a senior city official, so it was better to listen to Ji Feng.

And when Ji Xiaoyu saw this scene, her beautiful eyes couldn't help but reveal a slight smile.

It seemed that the conversation between Third Brother and Wu Peng was quite good, and at the very least, Third Brother's impression of Wu Peng was not that bad.

The park was right next to the family compound of the municipal party committee, so the three of them did not drive and walked directly towards the family compound of the municipal party committee. On the way, Ji Feng chatted idly with Wu Peng.

"Wu Peng, I heard from Xiao Yu that you are in the IT industry?" Ji Feng asked.

"Mm."

Wu Peng nodded, "It's in data mining, I used to do software development, but I didn't do it for long, then I jumped to this company to do data work."

Ji Feng laughed: "I don't know much about this area, what kind of work do you do in this data mining?"

Wu Peng said without even thinking: "The work involves a wide range, software, information, frameworks and so on all do" Speaking of work, Wu Peng immediately seems to be a new person, words immediately more up, words are also much more fluent.

However, even when it comes to this line of work, Wu Peng still speaks slowly, Ji Feng listened to the slight nod of the head, from the speech can be seen some clues, Wu Peng's character is very good, is a person who is nothing hot tempered.

"I heard that being in this business is all quite tiring?" Ji Feng asked with a smile.

"It's okay, not very tired, just a bit busy with work, rarely have time to rest." Wu Peng said, "Especially in recent times, because he has just been promoted to supervisor, his work has become even busier, and

he can only have a day or two off in half a month. But don't worry, Third Brother, I won't leave Xiao Yu out even if I'm busy with work."

Ji Feng smiled and waved his hand, "That's not what I meant. It's really good that you've become a supervisor at such a young age."

Wu Peng scratched his head and smiled somewhat embarrassedly, "Being a supervisor pays higher, my family's condition is not too good, and I can only work hard if I want to buy a house in Jiangzhou."

Ji Feng smiled and nodded his head.

Seeing that Ji Feng didn't say anything, Ji Xiaoyu couldn't help but say, "Third brother, this business that Wu Peng does is very lucrative, he's just been promoted to supervisor now, he can get 50,000 to 60,000 a month."

Ji Feng was stunned, "Really! That's really quite a lot!"

Wu Peng said with embarrassment, "It's just that in the last year or two, this industry has been more efficient, so he gets more, later on, when it stabilises, it won't be so much."

Ji Feng laughed: "It's already quite a lot!"

For the IT industry, Ji Feng understands some, however, when it comes to this industry, the area involved is not small, for the data mining industry he is not too clear, but a monthly income of tens of thousands of dollars, for working people, is indeed already quite a lot.

With this income, it should not be a problem to buy a house within a few years, and there should not be any pressure in future life.

Ten minutes later, the three of them arrived at the family compound of the municipal party committee, and since the three of them didn't have passes, they had to call Ji Zhen Guo, but before Ji Feng could take out his mobile phone, a car horn suddenly sounded behind them.

"Tick tock!"

Immediately afterwards, a voice came, "San'er?! Xiao Yu?"

Ji Feng turned around and saw a head poking out of a black Lincoln luxury SUV behind him, Ji Shaolei.

"Second brother!"

Ji Xiaoyu immediately shouted happily.

Ji Feng laughed, "Second brother, changing cars again?"

Ji Shaolei laughed and shouted to the doorman, "Brother Liu, this is my younger brother and sister." And only then said, "You kid is hogging my X6 and not returning it, what if I don't change the car? Brother I am at least an old boss, I need to have face to drive."

While the two were joking, a woman got off the passenger side of the Lincoln, but it was Ji Shaolei's wife, Xiang Yurou.

“Let’s talk inside, I’ll go and park the car first.” Ji Shaolei said, stepped on the accelerator and left in a huff.

“Little Feng, it’s been a long time since we’ve seen each other.” Xiang Yurou was still as valiant as ever, even with her long hair, that heroic aura was still there.

“Xiaoyu, this is your boyfriend, right? Well, he’s much more handsome than your second brother!”

“Second sister-in-law, don’t you dare bully people like that!” Ji Xiaoyu snapped.

When Wu Peng saw such a beautiful and unique woman, he couldn’t help but be restrained and glanced at Ji Feng, seeing Ji Feng nod, he then shouted, “Second sister-in-law, hello, I’m Wu Peng.”

Xiang Yurou looked at Ji Xiaoyu and Wu Peng full of smiles and nodded, “Not bad, not bad, let’s talk inside.”

Ji Feng patted Wu Peng on the shoulder and smiled, “Let’s go, go to the house.”

Wu Peng nodded somewhat nervously and followed directly to the first floor.

When he arrived at home, the second aunt was already waiting at the door, obviously having gotten the news, and when she saw Ji Xiaoyu bringing Wu Peng in, she greeted him warmly.

At this time, Ji Shaolei, however, pulled Ji Feng aside: “Third son, go out and have a cigarette.”

The second aunt glared, “Smoke less, you don’t learn at a young age!”

Ji Shaolei laughed heatedly and walked out.

When the two came outside, Ji Shaolei lowered his voice and asked, “San’er, what’s going on, when did you come back and how did you come with the two of them?”

Ji Feng said, “Xiao Yu was afraid that he wouldn’t be able to pass here, so he asked me to come and strengthen his courage.”

Ji Shaolei was then relieved, “I told you! I thought you already knew this Wu Peng, Xiao Yu is too deep in hiding, if your second aunt didn’t overlook it, she might have to hide it for a long time! Hey, have you talked to him yet, what do you think of this person?”

Ji Feng nodded and smiled, “I think it’s okay, quite honest and down-to-earth, I don’t see anything bad in his initial contact.”

“Not pretending, right?” Ji Shaolei asked.

“I don’t think so.” Ji Feng shook his head, “Don’t you still know Xiao Yu’s character, she definitely won’t reveal her identity outside.”

“I mean other aspects, like did he deliberately pretend to be nice to Xiao Yu or pretend to be polite or something?” Ji Shaolei asked.

Ji Feng lost his smile and said, “How can this be called pretending? Which man should not act better the first time he goes to meet the woman’s relatives? Even if you are pretending, you have to have the heart to do so.”

“That’s not necessarily true, look at me, when I go to your sister-in-law’s house I don’t pretend at all.” Ji Shaolei laughed heatedly.

“That’s because you don’t have any pretending!”

Ji Feng snorted, “Who in the whole Yanjing doesn’t know that you’re a mixed-up devil, I think, it’s just that sister-in-law herself is willing, otherwise, it’s strange that the old Xiang family can marry their daughter to you!”

“Holy shit!”

Ji Shaolei was speechless.

The two didn’t chat for long before Ji Zhenguo came back from outside. To Ji Feng’s surprise, Ji Zhenguo didn’t say much, but only asked about Wu Peng’s family situation and work situation.

“The future is your young people’s world, no matter what you do, you have to be serious and not follow your nature.” Ji Zhenguo said a few simple words, and then stopped continuing the topic.

Not long after eating, Ji Feng was about to have a chat with his second uncle when he suddenly received a call from Wang Xin.

“Boss, there’s a situation that I need to report to you, the company is in a bit of trouble.” Wang Xin said.

“What kind of trouble?” Ji Feng immediately asked.

“It’s not clear over the phone, so if you have time, you’d better come over.” Wang Xin said over the phone.

Ji Feng said, “I’m coming over.”

After hanging up the phone, he said a little about the situation, and Ji Zhenguo nodded, “If you have something to do, go ahead and get busy, and come over tomorrow if you’re free.”

Ji Feng nodded and prepared to leave, Ji Xiaoyu immediately said, “Third brother, let me walk you there.”

Ji Feng instantly smiled, “It’s fine.”

He knew that Xiao Yu was afraid that Wu Peng would not be able to get out and be too restrained if he stayed here for a long time, a feeling he could understand, so he agreed readily, and when he saw the second aunt’s reproachful gaze, he just laughed heatedly.

“San’er, remember to come over tomorrow!” Ji Shaolei said.

“Got it.”

Ji Feng nodded and took Xiao Yu and Wu Peng with him and left.

When they arrived at Tengfei Network Company, Ji Feng said, “Xiao Yu, you guys follow along and come up, maybe I need to use the car today.”

Campus Master Chapter 3118

When he arrived at the network company, Wang Xin was already waiting.

Seeing that Ji Feng still had two people with him, Wang Xin was slightly surprised, but still hurriedly arranged for someone to greet Wu Peng and Ji Xiaoyu.

“Where’s Yang Yu?” Ji Feng asked.

“He’s busy in the office, should we call him out?” Wang Xin said.

Ji Feng waved his hand, “No need, you said on the phone that something happened to the company, what was it?”

Wang Xin didn’t answer immediately, but first glanced at Wu Peng and Ji Xiaoyu, Ji Feng said, “It’s alright, they’re not outsiders, you can say anything straight away.”

“Mm.”

Wang Xin nodded before saying, “Boss, around 1:20 this afternoon, the company’s server was attacked and some data was lost.”

Ji Feng froze, then laughed, “Attacked again?”

Ever since Tengfei launched its 3d browser and the company started to rise rapidly, it was only normal that it would be attacked by hackers every now and then. In fact, almost all internet companies, especially the big ones, would be attacked by hackers.

So this time when he heard that Tengfei Network had been attacked again, Ji Feng only froze for a moment and was not too surprised.

Wang Xin, however, did not smile, but said, “Boss, this time the attack is a bit different.”

Ji Feng asked, “What do you mean? Did it lose any important data?”

“The data lost is not very important, and it can be easily recovered after repair.” Wang Xin shook his head and said, “However, what is worth paying attention to is the way the attack was carried out this time.”

After a pause, as if organising his words, Wang Xin said, “This time, the other party’s attack method was extremely clever. If it wasn’t for the fact that Yang Yu happened to be cleaning up the data and discovered a set of abnormal data, none of us would have been able to discover the other party’s attack!”

When Ji Feng heard this, the smile on his face gradually disappeared: “I remember, you guys set up a special firewall before, right? The other party broke through the firewall and you guys didn’t notice it at all?”

As a network company with two great generals sitting in the town, Yang Yu and Wang Xin were both computer experts themselves, and they naturally understood the importance of firewalls.

Therefore, the two of them had specifically set up a firewall a long time ago and had tested it many times.

“No!”

Wang Xin shook his head and said, “The firewall we set up is unable to block the other side at all, and I even suspect that this firewall doesn’t even give the other side half a hindrance at all.”

Ji Feng frowned, “It looks like the one who invaded this time is a master!”

“Actually, that’s not the most important thing, what’s really scary is that our company’s network, internally and externally, is separate, and without a manual connection, the internal LAN and the external internet won’t be connected, there’s an interface in between, although it’s only disconnected by a program, not by directly unplugging the network cable and separating it.”

Wang Xin pursed her lips, “As a result, that hacker actually connected the internal network through remote manipulation!”

Ji Feng said at once, “In other words, that intruder, after breaking through the firewall, then cracked that disconnection program that you guys set up?”

“And it didn’t leave any traces!” Wang Xin added.

Ji Feng nodded slowly, “Indeed, he’s a master!”

Wang Xin said, “As much as I hate to admit it, I have to say that this hacker is more skilled than both Yang Yu and me, and the gap is not small.”

Ji Feng frowned and pondered for a moment before asking, “Then what do you plan to do next?”

Wang Xin said, “We spent most of the afternoon carefully checking the data and found that apart from those that were corrupted, there was no trace of them being copied, to put it mildly, we can only say that it was a fluke, if Yang Yu hadn’t happened to be cleaning up the data today and accidentally discovered the anomaly, I’m afraid that we wouldn’t have known that people had stolen all our data, luckily there is no too much damage.”

“After we discovered the intrusion, we immediately disconnected the internal LAN interface, and that disconnection procedure was not used, and we directly changed to the most basic manual way.”

“But that’s not a long-term solution!”

Ji Feng frowned, “If you guys usually work, you also need to use computers, how can you do it without networking?”

Letting the people of the network company not use computers was like letting a student not use a pen or a soldier not hold a gun, how could they still work?

Wang Xin laughed bitterly, “That’s why I’m calling you to discuss it with you. Who knows when this hacker will invade next, neither Yang Yu nor I can stop the other party, and all our information is stored in the server, which also has the trigger program for the 3d TV set as well as the self-protection program, if these things are stolen by the other party, then the consequences are really unimaginable!”

Ji Feng's expression also became quite grave: "You're right! The most important thing is that it is still uncertain whether the other party has only set its eyes on Tengfei Network or directly on our Tengfei Group, which is a formidable enemy!"

Wang Xin pursed her lips and asked, "Boss, what do you think should be done?"

She knew that Ji Feng's computer skills were very high, probably not even below her and Yang Yu, and besides, Ji Feng was the boss, so Wang Xin called Ji Feng, hoping to listen to Ji Feng's opinion.

In fact, Wang Xin's heart is a little embarrassed, she is a computer expert, and there is also a master Yang Yu in the company, in addition, the technical staff in the Tengfei network which technical level is not low.

However, these people are unable to deal with a hacker who came out of nowhere, and are even forced not to dare to connect to the Internet.

If you don't even dare to connect to the internet, what kind of internet company should you be?

Ji Feng pondered for a moment and said, "Go check out the corrupted data first, don't be in a hurry, there is always a solution to things."

"Yang Yu is taking care of it, we'll just go over there." Wang Xin nodded.

"What about you two, are you going to wait here or follow along?" Ji Feng looked at Wu Peng and Xiao Yu.

Ji Xiaoyu said, "I'm going to check it out, I haven't seen a hacker invasion yet."

Wu Peng was just about to speak when Ji Xiaoyu slapped him on the arm, "Right, aren't you also in it, go over and take a look too, maybe you can help!"

Wu Peng instantly smiled nervously.

Ji Feng smiled faintly and said; "Let's go together then."

Although the network company had been invaded and had encountered a strong enemy, however, seeing Xiao Yu and Wu Peng getting along so well, and the fact that Wu Peng obviously had little temper in front of Xiao Yu, Ji Feng was still happy to see this scene.

The four of them arrived at Yang Yu's office, Yang Yu just nodded at Ji Feng, as for Wu Peng and Xiao Yu, he just glanced at them, and then his gaze shifted back to the computer screen in front of him.

The company's main business is to provide a wide range of products and services to the market.

"Yang Yu, pull up those sets of data, the boss wants to see the other side's invasion path." Wang Xin said.

"The data has been corrupted, it's being repaired."

Yang Yu said, pulling up an interface, "The other party's invasion was almost untraceable, except for a few sets of data that were corrupted at the end when they were forced to exit because of my blocking, but we checked carefully afterwards and roughly discovered the other party's invasion path."

Here he added, "The other party is a master!"

"Little girl, what's the point of sticking your head out so far, you can't read!" Before anyone else could react, Xiao Yu looked at the computer screen curiously, Ji Feng was so angry and amused that he pushed her away.

Xiao Yu smiled cheekily and said, "Third brother, you've encountered a problem, haven't you!"

Ji Feng swept his eyes twice and nodded his head and smiled bitterly, "Indeed, I've encountered a problem."

He could see the other party's invasion path, but he deduced in his mind that if he were the invader instead, he wouldn't be able to do such a masterful job!

This made Ji Feng's heart a little heavy, this intruder, was also a little too powerful!

He didn't dare to say anything else, but he knew Yang Yu and Wang Xin's skills, they were definitely first-class experts, and it naturally didn't need to be said how powerful the program they had set up was.

However, the other party had come in silently and almost succeeded, this kind of technology, to say top of the line is not even enough to describe it!

"When did such an expert appear?!" Ji Feng frowned as he secretly pondered, "And it's also focused on the Tengfei network, was it an unintentional choice of target, or was it simply aimed at the Tengfei Group?"

Just as Ji Feng was pondering, Wang Xin and Yang Yu were also discussing in a low voice.

Wang Xin said, "From the time I started studying computers until now, I've only seen this kind of brilliant tactics once, and counting now, it's only twice."

Yang Yu said, "I have not seen it once!"

Ji Feng's heart suddenly moved when he heard this and immediately asked, "Wang Xin, you've seen this kind of technique before?"

Wang Xin shook his head and said, "Not really, this kind of brilliant technique, you can't see any technique at all, I have seen this kind of brilliant technique without any traces before."

Ji Feng immediately asked, "When?"

Seeing Ji Feng's reaction Wang Xin couldn't help but be stunned and said, "It was when we first met, I remember telling you about it before"

Ji Feng steeply frowned, he immediately knew which incident Wang Xin was talking about!

The reason he was able to get to know Wang Xin was actually because Wang Xin was hired to take part in an operation, and later, according to Wang Xin, she was actually going to intercept a program online at that time, and Ji Feng also noticed this matter, only that nothing came of it later, so it was left alone.

Now that Wang Xin mentioned this matter, Ji Feng suddenly remembered.

There were some vague outlines in Ji Feng's mind, as if he had caught something, but when he thought about it carefully, he couldn't catch anything.

At this time, Wu Peng's voice suddenly rang out, "This technique is indeed very clever, it would be better to set up an early warning mechanism, otherwise it would be difficult to block it."

Campus Master Chapter 3119

At this time, Wu Peng's voice suddenly rang out, "This tactic is indeed very clever, it would be best to set up an early warning mechanism, otherwise it would be difficult to block it."

Yang Yu nodded and said, "That's what I mean too, disconnecting the internal network from the internet for a long time is obviously unrealistic, unless the company doesn't open up. Therefore, it is imperative to establish an early warning mechanism. However, the other party's methods are simply too sophisticated, and I'm worried that an ordinary early warning mechanism won't work at all, let alone prevent the other party."

Wang Xin glanced at Wu Peng with slight surprise, obviously not expecting that Wu Peng was also proficient in computers, however, for what he said Wang Xin did agree, "I discussed with Yang Yu earlier, the two of us didn't come up with any good ideas either, after discussing it, we found that this was the only feasible solution."

Ji Feng nodded, agreeing with this solution as well.

In fact, even if we put aside the lesson of being hacked this time, even in normal times, an early warning mechanism should be established.

Only, the defensive measures that Wang Xin and Yang Yu had established before were obviously not working.

"An ordinary early warning mechanism is definitely useless."

Yang Yu said, "The other party can come in almost silently. Throughout this invasion, the only thing that is abnormal is these sets of data, and this was damaged when I blocked the other party after I discovered them. I'm afraid that if I hadn't noticed it, the anomalous data would have been repaired soon after the invasion, and none of us would have found any traces of the invasion."

Wang Xin continued, "So after discussing with Yang Yu, I think it is necessary to establish an early warning mechanism within the database."

Ji Feng nodded and said, "This solution is feasible. However, have you considered the possibility that even if there is an early warning mechanism, but if the other party moves too fast, even if the early warning mechanism is triggered, you will need reaction time if you want to stop it, and this time, is it enough to stop the other party?"

"It would be best to create a fake database and set up an early warning mechanism directly in the fake database."

Wu Peng interjected, "If one doesn't work, set up several more fake databases, just like how you need to use a broiler when invading, although this is a lot more tedious engineering, but it can definitely work,

and can also set aside enough reaction time, even if our side moves fast enough, we might even be able to trace the other side's traces! "

"That's a good idea!"

Yang Yu said, "That's what I'm planning too!"

Wang Xin, however, said, "What about if we build a real database?"

Several people were stunned.

Wang Xin explained, "Since the other side's methods are that sophisticated, building a fake database may not be able to fool the other side, so build the real one, add a few more servers, build a few more databases, and don't use all the fake data automatically derived from it, but also add some real data to it!"

Ji Feng couldn't help but brighten up when he heard that, "True and false, good idea!"

Wang Xin, however, was not happy and laughed bitterly, "Even if our solution is good, it is only a passive defense. And there's another problem that can't be solved, if the other side really invades over, how can we track each other! Otherwise, even with more fake databases, there will be a day when they are breached, and at that time, we will really be at our wit's end!"

Ji Feng pondered for a moment and said, "For the time being, if there is no good solution, we can only take one step and see what happens, and then we can slowly think of a solution later."

Wang Xin nodded, "That's the only way to go. Then this plan is set?"

Ji Feng nodded his head and said, "Settled!"

After a pause, he added, "Wang Xin, I'll be staying on island number one for a long time, I'm afraid I won't be able to take care of this side, if there's any situation, you can completely make up your own mind, I trust you."

"The problem is, I don't trust myself!"

Wang Xin nodded before shaking her head and smiling bitterly, "Boss, you trust me so much, I feel under a lot of pressure."

Originally, she was still very confident in her skills, although she was not a hacker, but, as far as her skills were concerned, she was confident that she would not lose too much to others.

But today's incident had dealt her a considerable blow, and it was through this incident that she realized that there were actually such terrifying experts in the world.

Ji Feng laughed: "Don't be stressed, big deal, it's okay for the network company to shut down, as long as the information is not stolen."

Wang Xin could only nod with a bitter smile, not knowing what to say.

A network company, if it was forced to close down, then she, the chief executive who was in charge of technology, was really incompetent enough.

Ji Feng was not depressed about this, technology is something, there will always be someone who is more brilliant than you. What really confused him was what Wang Xin had said before.

“Wang Xin, come out with me for a moment.” Ji Feng called Wang Xin out alone, “Let’s talk in your office.”

“Okay.”

Wang Xin nodded and led Ji Feng to his office, “Boss, are there any other orders?”

Ji Feng shook his head and said, “There are no instructions. I just want to talk to you about the interception program you mentioned, just now you said that this technique is similar to the one you saw last time when you were hired to intercept a program?”

Wang Xin froze for a moment, not expecting that Ji Feng wanted to talk to her about this matter instead of the imperative matter of the database being invaded, she thought back for a moment, shook her head and said, “Actually, there is not much similarity between these two times, because whether it was the last time when the program was intercepted or this time when it was invaded, I was actually not directly involved because I did not even didn’t even see it.”

For Wang Xin, she could actually only be considered to have experienced both incidents, but they were only experiences.

The first time she was hired to intercept the program, Wang Xin was unsuccessful. This time when she was invaded, she didn’t even have the chance to stop the other side, and Yang Yu only stopped it immediately after he found out, but the other side left with a single blow, not even bothering with them.

“I have to say that the similarity between the two is that both of them are extremely skilled, but of course, this premise is that when that program was intercepted the first time, that program was manipulated by someone as a premise.” Wang Xin said.

“That’s what I mean, purely on the technical level only, these two are very similar, right?” Ji Feng asked.

“Well, if we talk about technology alone, the technology shown in these two times are top-notch, and can even be said to be superb.” Wang Xin nodded her head and said with a serious expression.

After Ji Feng’s reminder, Wang Xin realised that this kind of expert turned out to be not just one person, it turned out that she had encountered it at a very early stage.

Ji Feng suddenly asked, “Then do you think that there is a possibility that these two incidents actually came from the same place?”

Wang Xin was stunned: “Boss, do you mean?”

Ji Feng slowly shook his head, “That’s all I’m saying. I’m not involved in either of these two things, so I’m just thinking that way in my head, while you should be considered involved in both things, do you think that there is any connection between the two?”

Ji Feng’s words caused Wang Xin to be stunned and hesitantly said, “This is something I haven’t really thought about in that direction. Boss, in fact, frankly speaking, the last time I was hired to

intercept a program, up to now I still haven't figured out what exactly that program is and who the person manipulating that program is."

Ji Feng suddenly asked, "Then do you think that someone must have been manipulating that program in the first place?"

Wang Xin was stunned, "Of course! A program that no one was manipulating, then it was probably a virus, but at that time I didn't find any half trace of a virus"

She suddenly stopped here, realizing that Ji Feng's words were not without possibility.

A program that no one is controlling is not necessarily a virus, it could also be some other program that runs automatically!

But

Wang Xin's expression was suddenly quite heavy. If Ji Feng's speculation was true, that it was a program that no one had manipulated, wouldn't that mean that the intelligence of this program had been so strong and powerful that she hadn't even been able to follow the shadows at that time, let alone intercept it.

Seeing the change in Wang Xin's expression, Ji Feng said in a deep voice, "It seems that you also think that it is possible, right?"

"But"

Wang Xin opened her mouth for a while before saying, "But if that's true, then this program is too powerful! Is there such a program?"

Ji Feng nodded with great certainty, "There is!"

Of course there was!

Because in his mind, there was an artificial intelligence from the Gamma Galaxy!

This was also what made Ji Feng associate that program with him the fastest.

In fact, since Wang Xin had said it last time, although Ji Feng didn't put too much thought into it, he still remembered it. And what he experienced afterwards was a big shock to Ji Feng.

Because, he found too many traces of technology from the Gamma Galaxy other than him appearing on Earth!

The most typical example was the laser gun made by Dynasty!

And the transformers!

Even though the dynasty-made laser gun was only a defective product, it was years ahead of Earth's technology! And, this remnant, as well as being infinitely closer to the full version of the laser gun!

And then there's the Transformer, which, according to the intellect, is a technology that once existed in the Gamma Galaxy, and, a technology that was strictly banned by every country in the Gamma Galaxy for the transformation of the human body!

To replace the bones of the human body with alloys, muscles and various tissues, even internal organs, with artificial organs, not to mention the consequences of such transformation, the technology contained in it is shocking beyond imagination!

However, this had come to life in front of Ji Feng!

At that time, Ji Feng even wondered for a time if there was only one intelligent brain on Earth, and if the dynasty also had one!

But at that time, this thought only flashed through his mind, he did not think about it in depth, because the probability of such a coincidence was too small and too small, and the intelligent brain had also analyzed that on Earth, it was almost impossible for another intelligent brain to still exist!

But now

Campus Master Chapter 3120

The server of Tengfei Network Company was attacked, and the brilliant technical methods displayed by the other party in this attack surprisingly left Wang Xin and Yang Yu helpless.

And Wang Xin's unintentional remark was something that made Ji Feng's mind think of something.

He had originally firmly believed that there could not be a second intelligent brain in this world, but now, this thought of his was somewhat shaken!

Because, facts were more convincing than deductive analysis.

Even if the previous analysis of the Wise Brain was as rigorous as it was, even if the Gamma Galaxy and Earth were as far away as they were, Ji Feng had to wonder if a second Wise Brain still existed on Earth!

If we disregarded other factors and just analyzed from what we had found so far, this possibility existed!

"Could it be that there really is another intelligent brain in the dynasty?!" Ji Feng's heart was filled with shock, but the more he analyzed it, the more he felt that this possibility was not small.

The high level of technology of the dynasty was leading in the world, perhaps not yet revealed in large equipment, but, in some small equipment, especially human transformation, that really surpassed the most advanced level in the world.

Transforming people!

This is a focus that cannot be avoided by any means!

Even in the most technologically advanced country, Rice, such transformers can only be found in science fiction movies and novels.

Dynasty, on the other hand, with the power of just one organisation, surprisingly has so many modified humans. It seems that for Dynasty, transforming the human body is already an extremely mature technology, which obviously took many years of development to develop.

And years ago, when it came to the research of the human body, even in Rice, technology was definitely not described as advanced!

“Boss! Boss!”

Wang Xin’s voice brought Ji Feng’s thoughts back to reality.

He couldn’t help but shake his head, but his mind was filled with shock, “Wang Xin, for the network company side of things, proceed according to the plan we just agreed on, in addition, not only the network company, but the entire network of the Tengfei Group, you all have to be in charge of it up.”

Wang Xin froze for a moment, “Boss, we only have the management authority of the network company, the authority of the headquarters and other branches, we don’t have any ah. Moreover, we are severely understaffed, even if we wanted to manage it, we wouldn’t be too busy

“You guys don’t need to worry about the authority aspect, I will arrange it!”

Ji Feng said, “As for the manpower do you have any good suggestions in this regard? Whether it’s recruiting some more people or transferring people from the headquarters of the Tengfei Group, as long as you think it’s helpful, I’ll fully cooperate with you on my side!”

Wang Xin thought about it and said, “I think we should use both methods, we need a lot of technical experts now, if we recruit people from outside, it will take time to get to know them and we won’t be able to make it in time. opportunity, so that we can know who is a master and who is in vain.”

“That’s a good idea you have!”

Ji Feng nodded his head and agreed very quickly, “I will greet the headquarters side and let them fully cooperate with you, as for the recruitment, you need to take charge of it, it doesn’t matter if the salary is higher, even if it makes the company’s profits lower, or even lose money in a short period of time, it doesn’t matter, the most urgent thing now is to cope with this difficult time first. ”

Wang Xin nodded and hesitated for a moment before saying, “Boss, I actually know that your skills are quite good, why don’t you give it a try? Maybe, you’ll be able to stop that intruder.”

Ji Feng shook his head and said, “I don’t have that much time. Besides, judging from the other party’s methods, I don’t have that ability to stop them either!”

In the training space of the intelligent brain, Ji Feng had received training in computers and should be able to be called an expert. Yet he knew very well that his own skills were definitely not considered top-notch as far as he was concerned, but that intruder was top-notch, and he was no match for that person.

There was one thing that Ji Feng knew very well, the right person should be in the right position, if he couldn’t, he wouldn’t meddle.

It would be fine if it was a wise brain instead.

This idea flashed in his mind and Ji Feng decided that he would have to talk to the wise brain later, but for now, arranging the work of the network company first was the main thing.

After agreeing with Wang Xin, Ji Feng deliberated slightly for a moment and said, “How about this, I’ll try to stay in Jiangzhou for a few more days, and when your side has stabilised, I’ll leave again.”

Wang Xin said, "That's best."

The matter of the network company made Ji Feng's heart a little complicated. On the way back, Ji Feng sat in the car without talking much, and all that was on his mind was the speculation that had shocked him.

Ji Feng even had some impatience to ask the intelligent brain how likely this was, but, now was not the time, he could only analyse it silently by himself.

"Third brother, where are you going?" Ji Xiaoyu asked.

"Let's go to my house."

Ji Feng returned to his senses, "I'll be in Jiangzhou for a few more days, it's more convenient to stay at home."

Ji Xiaoyu nodded, hit the steering wheel and drove towards Science Avenue.

Although he had moved to Island No. 1 a long time ago, the basic facilities were still available at his home in Jiangzhou, and since Ji Feng would still come back occasionally, he still kept a car here, although it was the big red Volvo that Xiao Yuxuan had before, but Ji Feng wasn't picky about the colour, as long as it was convenient to travel, it was enough.

"Wu Peng, just now at the network company, I saw that you seemed to have something to say?" Ji Feng suddenly asked.

Earlier at the network company, Wu Peng didn't say much and basically listened on the side. However, Ji Feng could tell that Wu Peng seemed to have something else to say, but he just wanted to say it again.

Wu Peng said with some embarrassment, "Not really, I just had a little idea, but then I thought it wasn't very mature, so I didn't say anything."

Ji Feng asked, "What idea, tell us."

Wu Peng hesitated for a moment.

Ji Feng smiled, "What, is there anything else that is not good to say?"

"No, no."

Wu Peng waved his hands repeatedly, "I just think that too much passive defence, even if the defence is tight, there will always be lapses. The data mining I'm doing now, I actually still collect some data online some times, and I have a few friends who work alone on their own, and we often talk about these issues together."

Ji Feng listened quietly, he felt that Wu Peng had some ideas.

"In fact, even if we set up a fake database, it's only a matter of time before the other side breaks through." Wu Peng said, "According to the current practice, it would be possible to discover the other party before they enter the real database. But then, the other party would be confused, and the employees inside the network company would be equally troublesome."

Seeing that Ji Feng was listening carefully, Wu Peng's guts grew, "If it were me, if I really targeted the network company, then I definitely wouldn't just attack once. The second time, the third time, it will always be discovered that the database is fake, it's only a matter of time. And at that time, in case the other party is no longer so sneaky, but directly adopts a brutal attack, then the technical staff of the network company, will they still be able to stop the other party?"

Ji Feng's brow furrowed, and after a moment asked, "What about your thoughts?"

Wu Peng said, "I haven't thought about it yet. What I thought before was to simply use the real database as bait to pester the other party, so that it could be tracked. However, the other party is so technologically advanced"

"We may not be able to track it, right?" Ji Feng picked up the conversation.

"Mm."

Wu Peng nodded his head in embarrassment.

Ji Feng said, "There's nothing bad to say about it, it's all true. Other than that, do you have any other ideas?"

Wu Peng shook his head, "No more. Just now I just felt that the idea was immature, so that's why I didn't say anything."

"It's not that your idea is immature, but that the other party's tactics are too high." Ji Feng shook his head. I'm afraid this was the so-called one power down!

No matter how many ideas they had, no matter how hard they thought about it, the high technology of the other party, on this one, they simply stepped over.

Whether it's building a fake database or establishing an early warning mechanism, these are actually just aids. If you want to play with the other side, the most fundamental thing is actually technology!

Otherwise, anything else is just a fancy fist and leg, which is not useful.

This is like those transformed people, whether they are transformed with steel and iron bones or infinite strength, in front of Ji Feng, they will be beaten down by his bio-current in just one glance, no gimmicks are useful.

And now, Tengfei Network was the one desperately digging for gimmicks, and that brilliant hacker was the one with absolute strength.

One power down!

This holds true everywhere.

But this problem was also the most difficult to solve. It was one thing to know the key to the problem, it was another to be able to solve it.

Ji Feng sighed lightly in his heart, from the time he got the intelligent brain, he had actually been having a smooth ride. Although there had been minor twists and turns in the middle, there hadn't really been many major setbacks.

It was because of his technology from the Gamma Galaxy, his superb physical skills, and a very deep background and a group of friends.

But now, a sense of helplessness rose up in Ji Feng.

Even if he had more things, but people could not find each other on the internet, they were simply no match for each other in terms of internet technology, so how else could he play?

For the first time, Ji Feng realized that he was actually not omnipotent, there were still many areas that he lacked.

Network technology, this is one of them!

And to solve this problem, I'm afraid, we still need the intelligent brain to step in!

Ji Feng felt that this problem would eventually fall on the brain. So as soon as he got home, he dropped a sentence: "Xiao Yu, Wu Peng, you two make yourselves comfortable, I'll go upstairs, if you have something to do, go ahead and don't bother me if you don't have anything to do!"
