

Chapter 3330

The person lying in the bag is not Xia Wei.

Instead, she was a strange-looking, even rather ugly woman.

His face was black with red birthmarks covering half of it, and his temples were thick like a man. Even George Han, who didn't discriminate against his appearance, could not help but feel disgusted when he saw this face.

Seeing George Han's frowning, Young Master Ruyu said anxiously, "What's wrong, Brother Han?"

"No." George Han shook his head and looked up at Young Master Ruyu: "My friend doesn't look like this."

"Did we save the wrong person?" Young Master Ruyu said in a hurry.

"f****, could it be that they knew we wanted to save people, so they dropped the bag ahead of time?" Zhu San said urgently.

George Han shook his head: "It's impossible."

If the bag was dropped, why should it be so heavily guarded? What's more, George Han had already .

Since the blood of the phoenix has achieved its purpose, it means that people are definitely not wrong.

As for why Xia Wei did this, George Han was also at a loss for a while.

"Could it be..." George Han furrowed his brows fiercely, and the nameless anger in his heart suddenly rose.

Xia Wei and that Zhu Yan'er exchanged faces! !

This can explain why Zhu Yan'er looks like Xia Wei, but Xia Wei looks like this now.

This should be Zhu Yan'er's original face, right? !

Thinking of this, George Han suddenly wanted to understand a lot of things.

City Lord Zhu has a younger sister, but no one knows about it. In fact, it may not be what he said at all. What kind of younger sister is too stunning and does not want to be too high-profile.

The real reason is that Zhu Yan'er's appearance is ugly and even scares others, so for many years, she has been deliberately hiding the existence of this sister.

Until the appearance of Xia Wei and others, Zhu Chengzhu exchanged the faces of the two and gave Zhu Yaner a peerless appearance, so he was confident to announce the existence of his sister, which is why many people in the city were confused by this sudden sister. s reason.

As for recruiting relatives by martial arts, it is easy to understand. After all, they are very clear about how to get their appearance. When they are guilty of being a thief, they naturally wish to find someone

to marry after they change their appearance. From then on, they will end up with a happy ending, a leisurely world.

Not to mention that changing Xia Wei's face is so bad, even an ordinary girl is really unacceptable to George Han.

She is a human life, isn't it someone else's? Is it fair for others to forcibly exchange one's own happiness and happiness with others

?

The ugliness you feel has affected your own life. Of course, you can choose to change it yourself, but you should not impose this pain on others.

Moreover, for George Han, a person's appearance is of course important, but more important is the person's heart.

Seeing George Han like this, the smart Ruyu Young Master also quickly reflected, a burst of energy shot in the air on Xia Wei's body, after a brief inspection, he looked at George Han and said, "Although she has physical She was injured, but it has been several days and it is not fatal. However, she has a lot of **** in her body. Come to think of it, those medicines fed her, on the one hand, for her body to function normally, on the other hand, it keeps her in a coma. "

George Han nodded, and then helped Xia Wei to sit up, and Zhen Neng also penetrated directly from behind to heal her injury.

Ning Ru

Yu, Zhu San, Qing Ji and others also stepped aside knowingly, either observing or guarding him.

About ten minutes later, Mo Beitian brought people back. Seeing that George Han was busy, after a few words with Qing Ji, he nodded and waited.

"Pfft!"

After a while, Xia Wei opened her eyes slightly when a mouthful of black blood spurted out of her mouth.

"Wake up, wake up, she wakes up." Zhu San shouted excitedly, and everyone hurried around.

When she opened her eyes and saw these strangers, Xia Wei was obviously startled, but when she turned her head and followed Ruyu's eyes to look behind her and saw George Han sitting there, she was very emotional and thumped with a plop. Into George Han's arms.

George Han forcibly took back his breath, supported Xia Wei, and asked anxiously, "Xia Wei, what happened?"

Chapter 3331

"Brother George Han, is that you? Is it really you?" Xia Wei looked at George Han for a while. After adjusting her emotions, Xia Wei said aggrievedly: "By the way, why am I here?"

“We rescued you.” George Han looked at her nervously: “Don’t worry, it’s all right now.”

“I... Xia Wei touched her temple with some discomfort: “My head hurts so much, Brother George Han.”
Young Master

Ruyu looked at George Han and said softly, “She has been poured so much ***, she just woke up, I’m afraid it won’t be so easy to adapt.”

George Han nodded, looked at Xia Wei, and said, “It doesn’t matter if you can’t remember it, rest and rest.”

Xia Wei shook her head stubbornly, enduring the pain and discomfort to recall carefully: “That day...”

After separating from George Han, the pangolin took Xia Wei, the

old man and Xiao Chunhua to break through the encirclement according to the method set by George Han.

“But I don’t know why, although we succeeded in breaking out of the siege, a small group of forces have been chasing us all the time. In order to protect our safety, Big Brother Pangolin fought with them while walking through, so I was seriously injured. Xiaochunhua and I and the seniors There were also a lot of injuries.” “Not long after that, we finally got rid of the pursuers

and waited for you while resting in the mountains outside Devil Cloud Ghost City.”

Also because of my age, it became more and more uncomfortable after being injured. In the end, both of them fell into a coma. We were at a loss, but fortunately, a team of soldiers found us and rescued us.”

Master Ruyu said softly, “It should be There is a battle between Luocheng and Devil’s Cloud Ghost Town

Well, outside Devil Cloud Ghost City, there are quite a few soldiers who should be in the city often wandering and monitoring. I think this girl and her friends should have been discovered by these reconnaissance teams. George Han nodded ,

looked at Xia Wei, and waited for her to continue.

“Later, we were taken to a big city, and the city owner was very kind. Not only did he arrange rooms for the four of us, but he also asked Many doctors made a special trip to treat us. “

However, for some reason, in the following days, I began to feel that my body became uncomfortable, and I was extremely sleepy, and finally... I was in sleep for almost a long time in the end. “

Every time I wake up, I find that I’m trapped in a dark space, like a coffin, and I can’t get out at all. “

I...I thought I would never see you again.

After listening to Xia Wei’s description, George Han generally understood. This Zhu Yanshuo seems to be gentle and reasonable, but in fact, he has a human face and a beast’s heart. He must have no intention of saving Xia Wei and others. Sister, I have a bad mind.

However, this is the only good thing among the bad. At least one thing can be proved from this. Zhu Yanshuo is here for Xia Wei, so there will be no big problems on the pangolin side. Dangerous, the Heavenly Book of the Eight Desolations should also be temporarily safe.

Once the Heavenly Book is safe, the big stone in George Han's heart will fall. It's

good that Amelia Su and Han Nian are safe.

"Then do you know where the pangolins are now? After George Han finished speaking, he hurriedly added: "I mean, before you fell into a coma, was the last time you saw them in the City Lord's Mansion?"

Xia Wei

thought for a while and nodded: "Yes, we have always lived in the mansion of the City Lord's Mansion . "

George Han nodded, this is easy to handle.

"Brother Han, what are your plans?" "Young Master Ruyu asked softly.

George Han thought for a while, but did not answer.

Young Master Ruyu hurriedly got up, chased after him and said, "Should we kill it again?"

Mo Beitian and Qing Ji hurriedly stopped him, saying, "It's absolutely impossible, the masters in the city are like clouds, and there are thousands of elites. It's like throwing into a snare."

"We were able to get out of trouble just now, but it was entirely because we suddenly rebelled on the defensive front that they couldn't deal with it. It would be different if they waited for them to decide."

"This matter needs to be considered in the long run."

Zhu San was about to speak, but suddenly saw George Han showing a cold and incomparable smile...
