soldiers behind them, after hearing Ye Shijun's anger and urging, came to their senses and were afraid, and rushed forward on the spot.

But the four masters in front were collectively stunned, not moving forward half a point, but subconsciously going back.

Suddenly, the well-trained and mighty brigade not only did not charge with rage, but instead came directly to the scene of a crash in an extremely embarrassing manner.

Not to mention Ye Shijun, even Zhu Yanshuo, who was watching from the bottom, was ashamed.

"City Lord Zhu's elite soldiers and the masters of the Fuye family are really strong, hehe, as soon as they came up, they showed us different ways of attacking. Qing Ji is very talented, and I want to ask City Lord Zhu to give some advice. What is this? The tactics and formations are quite strange." Qing Ji had long been fed up with the complacency and all kinds of sarcasm from this group of people, and now that the situation is changing, she will naturally not miss such a good opportunity.

Hearing Qing Ji's ridicule, Zhu Yanshuo was furious, but he was speechless at this time, so he could only give Qing Ji a vicious glance to declare his anger.

Zhu Yanshuo waved his hand slightly, and a subordinate came over, Zhu Yanshuo whispered: "Go up and see, what the hell is the mother doing?"

"Yes." .

In mid-air, in the face of Ye Shijun's rage, none of the four masters paid much attention to George Han. with their gluttony.

Evil gluttonous!

also

The young people behind Xu had never heard of this name, but for the four old fritters who had been in the Demon Race all the year round, this name not only knew it, but it was familiar.

That is the top existence among the ancient beasts.

That is the existence of the ceiling of the beast world.

There are too many legends about it.

It's just that it has disappeared for an unknown time, and has been gradually forgotten in the river of the years.

But forgetting and non-existence are two concepts, the latter is nothingness, and the former just disappears for too long.

Therefore, once it appears, what will be triggered will be to pick up the memory again, and it will be the reawakening of the fear hidden in the heart.

“Go back to me, motherfucker.” The old immortal Fengji coldly shouted at the many soldiers who were crowding up behind him

“Then his mother is a glutton of evil, an ancient beast, are you courting death?” Venerable Bigfoot also roared.

A group of soldiers were scolded and looked at each other in dismay. While turning around to regain their stability, they looked at the monster in the distance with some puzzlement.

Naturally, they didn’t know each other, but simply looking at the performance of the four masters made them feel that the monster didn’t seem to be easy to mess with.

“If you are all part of the Demon Clan, then Evil Taotie is one of the spokespersons of the Demon Clan. So, do you bastards understand?” The Black Mountain Demon Girl shouted coldly.

This time, a group of soldiers immediately understood what they meant, no one dared to take a step forward, but retreated little by little towards the rear.

They don’t understand the concept of gluttonous gluttony, but they are very clear about the concept of the devil’s spokesperson. What kind of thing can

represent a race or a group of wicked people, it must be the wicked among the wicked.

“What the hell are you doing? Evil gluttonous food? What his mother’s evil gluttonous food, he said, you will believe it?” Ye Shijun drank in a hurry.

Almost at the same time, the subordinate who was urged by Zhu Yanshuo to come up to inquire about the situation also arrived at the scene, looking at the four masters and the soldiers who were afraid, he couldn’t help but be dissatisfied: “What are you all doing? City Lord Zhu is quite dissatisfied with this. I was specially ordered to come up to supervise, why don’t you hurry up?”

After speaking, he looked at Ye Shijun and said, “Special envoy Ye calms down, the subordinates will let them attack immediately.” The

four masters naturally knew that he was a close associate of Zhu Yanshuo and did not dare to arbitrarily To reprimand, I had to walk in front of him in a few steps, and then I whispered something in his ear, and then, this guy suddenly froze, and the next second...

next second, he frowned, looked at the four masters, and asked, “Really?” The four nodded in unison .

The next second, the man laughed, and then clasped his fists at Ye Shijun: “If you have something to do, go back and report to City Lord Zhu.” As soon as

the voice fell, the guy turned around and flew towards the ground without turning his head. .

Originally thought that Zhu Yanshuo had sent a supervising army to make these scumbags hurry up, but it turned out that his mother's intention was to let Ye Shijun smash his head.

In front of his face, his motherfucker ran away!

Outrageous or outrageous? !

Ye Shijun wanted to be angry, but everyone ran away, so how could he be angry? !

Moreover, following his run, the group of four masters at this time also retreated even further.

The looks on the faces of the group of people, if Ye Shijun was not here, I am afraid they would have run away on the spot.

On the ground, when the current supervisor came down, Zhu Yanshuo was slightly dissatisfied and puzzled. After all, the upper part was still in a stagnant stage, and he was unmoved. Seeing the panicked appearance of the supervisor, he was immediately dissatisfied: "The upper part has not moved, Why did you come down?"

"City...City Lord, this...this can't move."

"Why can't you move?" Zhu Yanshuo drank in dissatisfaction.

"The city owner knows, Han... What is the monster beside George Han?" That subordinate was also very aggrieved.

This is definitely not because we are too cowardly, but because the enemy is too fierce.

"Speak!" Zhu Yanshuo shouted coldly.

The subordinate nodded, and was

about to stand up to Zhu Yanshuo's side and whisper softly, but at this time Zhu

Yanshuo didn't have any thoughts about him being like this.

"You have to make me angry?"

"My subordinates don't dare." The subordinate gritted his teeth and wanted to consider the crowd's feelings for you, but since you want to do this, then you can't blame me, and coughed softly, said: "That monster is not simple, that...that is the ancient vicious... the gluttonous beast of evil!

"

The old elders are even more ashen.

Even though Zhu Yanshuo was young, as a city lord, he was very knowledgeable, and naturally he knew such evil things. The arrogant anger that had

been arrogant gone, only his face was full of shock.

“Could I have made a mistake? How could an ancient beast like the gluttonous glutton reappear in the world? Moreover, what’s even more ridiculous is how could it be willing to be controlled by others? Maybe it’s just a fake, right? Scare us.”

“That’s right, even gods won’t yield to such things, let alone a mere person?”

Some people didn’t believe it.

Zhu Yanshuo looked strange, raised his head in a murmur and looked at George Han in the sky, for a while he didn’t know what to think.

And almost at this moment, an old man walked out slowly and shook his head: “No, maybe... it’s true.”

“A person who even owns something like the Pangu axe, if he only owns an ancient If a beast is a god’s pet, although it is a bit unthinkable, it is

not a fantasy.”

As soon as the words fell, those questioning voices were completely silent for a while, and they always just found some reasons for their fears or worries. Once their reasons did not exist, it was equivalent to destroying their last hope.

Zhu Yanshuo’s teeth were almost crushed. He didn’t understand why George Han was so amazing. He also regretted what he did that day, but when he thought of his sister, he still made up his mind.

“Don’t say it’s a gluttonous glutton, even if the demon ancestor shows up, I will still kill it!” “Sound the horn of death, if there are those who do not obey, they will be killed without mercy

!”

Zhu Yanshuo looked coldly at George Han in midair: “I don’t care who you are, you will die here today!”

Woo!

The trumpet sounded...
