

# Noble Husband At the Door Chapter 348

Yvonne's words agitated Harvey. Nonetheless, he had prepared to utilize this issue to make points hard for Yvonne, which was why he had such a terrible response.

He angrily claimed to Yvonne, "Yvonne, you have actually been in charge of the task in the west of the city. Are you certified to say such words currently for your current identity?"

"Harvey, do you want me to surrender, or do you want to terminate me?" Yvonne asked comfortably. She had currently expected that Harvey would certainly discover a method to take care of her, so she was not surprised in any way.

When this concern was brought up, Harvey gnashed his teeth even more. If she didn't count on the cooperation with Weakriver Real Estate, exactly how could she have such a setting in the business?

"Yvonne, do not be complacent. Weakriver Real Estate can't constantly value you. When they recognize that you mishandle, they'll normally make you get shed," Harvey stated.

"You can attempt, try to get Liam to replace me, do you dare?" Yvonne said.

Harvey was so upset that he nearly spewed blood. If he had the nerve to try, he had already tried it, so why would he talk a lot rubbish with Yvonne?

According to the previous two experiences, Liam's attitude was very figured out, so Harvey did not dare to act crazily.

"Yvonne, wait and see. When the day comes for you to be sorry for, even if you stoop to me, it will be ineffective," Harvey claimed.

Yvonne figured out the information in her hand, checked out Harvey any which way, as well as stated, "There's absolutely nothing else. Please head out as well as don't disturb my job."

Harvey turned away madly as well as slammed the door.

Yvonne sighed. There was no point in competing with Harvey for success or defeat, yet what was positioned before her currently was the issue of the enrollers.

Although Harvey was suspicious of making things hard for her, Harvey's words were reasonable. She elevated the cost for the enroller so quickly. If something similar to this took place again in the future, would she be able to elevate the rate again and again?

In the mid-day, Yvonne left the company and also hurried to the teahouse where she had actually accepted satisfy the sponsors.

When she showed up, there was nobody in the booked space. Yvonne understood that they were putting on airs intentionally, so she purchased a cup of tea as well as waited silently.

It was not till greater than 2 hours later on that the enrollers got here, as well as they collaborated. Certainly, they had made a consultation with each other.

" Miss Sue, I'm sorry I'm late."

" There has actually been a great deal of collaboration lately. Lots of business intend to authorize a contract with us. It's really a bit too busy."

" The market price of the job is improving and better. Our producers can finally make a profit with us."

As quickly as they entered the personal space, they boasted happily.

Some of them were big-bellied, with assistants around them. They were all tall charms with long legs, as well as the attitude of these assistants was egotistic.

" Miss Sue, I'm not worried to tell you the truth. If the Sue family members can not increase the cost for us, our firms will terminate the participation at the same time. If we damage the contract and you intend to combat with us, we are not scared. I have spoken with an attorney.

It's not a trouble to hold the suit for three or five years. I don't recognize if the Sue family can afford it?" Kang Ling, the largest employer of them, had a strong right to speak, so his words primarily represented the mindset of other business.

" Mr. Kang, the Sue family has cooperated with you for a lot of years, and you know that we need to invest a lot in the project in the west of the city in the beginning. Don't you have any respect for us?" Yvonne stated.

Kang Ling drank his head in contempt and also claimed, "In this current world, who would be prepared to be nice to you? Money is the most essential thing. If you have cash, it's simple to do points.

I heard Sue household has actually just obtained one billion yuan, as well as it's not also much to raise the rate for us. If Miss Sue can't also please us with such a little demand, what is the need for cooperation?"

" I have the exact same perspective. Today, I'm not here to discuss it with you, yet to provide you a clear response."
