

Chapter 3509

For this funeral procession of 100 people, the speed of marching is very fast.

Even if someone in front of the team carrying two coffins, the speed of the march is no different from the general march.

And this line of people is wearing the same tactical leather boots, walking quickly on the concrete, emitting a neat and uniform footsteps sound, resounding throughout the valley.

Among the team, there is an old man, at this time, who followed the team and kept walking fast, has long been tired and panting.

But the young people around him did not give him the opportunity to stop and catch his breath, but instead, he was constantly urged to continue to walk fast.

And even someone will push him when he is about to fall in line, or roughly pull his mourning clothes on the hemp rope, hood him to go forward.

This old man is Chengfeng.

At this time, the top of Waderest Mountain.

Charlie, as well as others, have seen the ever-approaching team.

In the early morning sunlight, everyone could see the two eye-catching black coffins, so everyone knew very well in their hearts that this group must be the Cataclysmic Front.

The Wade family was immediately like a great enemy, each of them fidgeted nervously.

Charlie, however, looked at the funeral procession at the foot of the mountain from afar, the corners of his mouth wiped over a cold smile.

At this moment, his heart secretly sighs: "Joseph, you finally came! Not only am I anxiously waiting for you, your commander Walter, and your Wan family's benefactor Zynn, have also been waiting for you for many days!"

Once he thought this, Charlie said to Leon, "Housekeeper Leon, pass on my order to have the uncles at the bottom of the mountain give way to the procession, no one must disobey!"

"Yes!" Leon immediately informed the people below the mountain and told them to make sure to clear the way.

Although these people were indignant in their hearts, because it was Charlie's order, all of them could only do as they were told.

So, they moved to both sides and gave way opening the road up the mountain.

The leader, Joseph, took a big step forward, and when he passed these people, he just glanced at them and saw that they didn't block them.

So he didn't look at them anymore and stepped towards the ancestral tomb of the Wade family halfway up the mountain!

The road up the mountain is part of the foundation project of the Wade family and has spent a lot of money to build the Waderest Mountain.

The whole road is wide and flat, even the lowest chassis supercar can easily drive up.

Therefore, for this line of people walking up the mountain is like walking on smooth ground.

Seven fifty-five o'clock.

Joseph led the Cataclysmic Front soldiers, aggressively after the last bend, directly to meet the Wade family ancestral tomb of the Chinese white jade pagoda!

This group of well-trained experts of the Front, each one is full of murderous aura, marching, like a ceremonial procession, each step is neat and powerful, the closer they get, the more shocking it is.

At this moment, he saw the Wade family two or three hundred people assembled here, but no one wearing mourning, immediately angry, the eyes have been full of killing intent.

Next to him, Harmen also saw that no one from the Wade family was wearing mourning and said in exasperation, "Supreme Commander, you left the Wade family a chance to live, but it seems they don't want it!"

Joseph sneered: "It doesn't matter, since they don't want it, then today we will first pick up the bones of Changying from the grave, and then my parents will be buried in a big way! After today, we will kill all the Wade family members one by one!"

Chengfeng at this time has almost run off his legs, panting, said: "Jos Joseph Wade family this this is rather rather die than give in ah"

Joseph said disdainfully, "In that case, then all of them go to death!"

After saying that, he took the lead and stepped towards the pagoda of the ancestral tomb of the Wade family, while Charlie also stepped below the pagoda at this time.

The Wade family, except for Zhongquan and Charlie's aunt Laila, did not dare to go too far, and all others tried to back up.

However, those who rushed to Charlie's aid, one by one, stood by Charlie's side, even a few girls, without a trace of fear.

Zhiyu recognized at a glance the other camp, the old man in mourning was none other than her own grandfather Chengfeng, and immediately asked in surprise: "Grandpa, you you are"
