

Noble Husband At the Door Chapter 353

"Lawyers?".

Hearing this, Harvey was puzzled. Why did he have to handle legal representatives for no reason?

" Brother Liam, I do not quite comprehend what you mean." Harvey was puzzled.

" Given that I'm mosting likely to break the contract, I make sure you're going to file a claim against Weakriver Realty, aren't you? Because we're going to submit a claim, naturally we'll make use of legal representatives.

They're the lawful group of Weakriver real estate. In the following couple of years, if you're disappointed with us, just tell them. They'll be able to represent me," Liam claimed.

To break the agreement!

These words stunned Harvey on the spot!

He thought it was a good idea for Liam to introduce close friends to him, yet he really did not expect it to be such a bolt from the blue.

The Sue family members might undoubtedly could file a claim against Weakriver Real Estate for damaging the agreement, yet with the background of Weakriver Property, it was not an issue for the lawsuit to be delayed for eight or 10 years, which was a fatal blow for the Sue household.

Currently the task in the west of the city was the only one Sue household can benefit from in the future. Without this collaboration, the Sue family members would have no chance to transform the tables.

" Sibling Liam, why did it occur so suddenly? Did I do something that disturb you?" Harvey said in a panic.

At this time, the faces of all the family members of the Sue family also changed considerably. They had already presumed that Yvonne's resignation might cause an

influence, they did not expect that it would come so quickly. Liam came straight with attorneys, suggesting that he was really identified!

" You won't drop splits until you see your coffin. I've currently given you 2 possibilities. This moment, you're dating death," Liam stated coldly.

The meaning of these words was extremely apparent. The reason Weakriver Real Estate had actually terminated teamwork was that it had something to do with Yvonne.

Harvey couldn't figure out why Liam obtained the news so quickly, due to the fact that just he and Yara understood about it.

Could it be that ... it was Yvonne who informed Liam? It was she that intended to damage the Sue family!

" Brother Liam, this matter ...".

By the method, I desire to remind you that no one in Cloud City will certainly comply with the Sue household. Liam stated and also left the meeting area.

Harvey bowed on the ground, his eyes dull. Just now, he was complacent, now his heart was dead.

Weakriver Property and also financial institutions were enough to reduce the Sue family members, to entirely bankrupt the Sue family, and there was no chance for them to stage a comeback.

It had not been long considering that he took over the setting of chairman. Was it mosting likely to end up being a bubble so quickly?

" Harvey, consider what you have actually done. Have you neglected what Grandmother stated before?".

" She stated a very long time ago that you can not move Yvonne's position. You're still so careless. Currently, we're all killed by you.".

" With the history of Weakriver Real Estate, exactly how can the Sue household struggle? That else in Cloud City will accept us?".

" One billion yuan. You can not get a penny back from the initial financial investment. I'll see just how you can pay back the financing."

The family members of the Sue Household reprimanded Harvey madly.

They didn't care what Harvey would certainly do, but once it influenced their own interests, they could not accept it.

Now, Liam had cut off his relationship with the Sue family members and kicked the Sue family into the void. No matter just how capable they were, they would certainly not be able to get out of the abyss.

When Harvey heard these words, his expression progressively ended up being chilly. He stood, gritted his teeth and also stated, "Is this my fault?"

If Yvonne hadn't whispered in Liam's ear, Liam would not have known about this. It must be her. It's her who wishes to injure me and the Sue household."

Yara had always been on Harvey's side. Whatever, she can not help Yvonne.

After hearing Harvey's words, Yara stated, "I really did not expect this bitch to be so terrible. Not only did she resign herself, yet she additionally wished to get everybody entailed. Harvey, we can not allow Yvonne go."

" Damn you, you bitch, play this method on me. Because she does not desire me to live, allow's not live." Harvey walked out of the meeting room madly.

He drove downstairs as well as went straight to Cloudridge Hillside Suite.

Harvey's certificate plate had actually not been registered, so he was not certified to enter the villa area, as well as was dropped in the security guard at the door.

He was upset, he did not lose his mind. These security guards were from the Tian family members. Since they had offended Weakriver Real Estate, he can not remain to annoy the Incredible family members.

In desperation, Harvey might only squat at the gate of the villa.

Yvonne did not go to the business today. Samuel had something to do today; he declined due to the fact that Yvonne was not in a great state.

Yvonne didn't know about the business of the Sue family, however she had actually transformed her mind now.

Even if it really did not happen this time, Harvey would still locate a method to make points difficult for her in the future. It was better to remove her relationship with the business as soon as possible.
