

Chapter 3572

There is no darkness in front of you, but a white burn.

The golden light of the silk circles around it, and from time to time it can be seen that it is like flowing water, and it is like a flowing light. It is beautiful, just like entering the fairyland.

George Han smiled slightly, and dazzled his eyes. Like the darkest place before, this place is white and almost boundless.

George Han knew clearly that through that yang eye, he had reached the yang side of the gossip.

“Any attack will be assimilated according to the nature of yin and yang, and then discharged in the opposite direction.”

“Having both offense and defense, while resolving the enemy’s offense and defense, you can always rely on this to replenish yourself and keep yourself out of a balance. state.”

“Arrogance does have the ability to be arrogant.”

George Han smiled helplessly.

When the firepower comes, it will be swallowed up with the yang eye, and then melted into the yang face of the Eight Trigrams.

Under the mutual modulation of yin and yang, after replenishing the power of yin and yang required by the gossip itself, the

excess power is discharged through the yin eye to achieve a counterattack.

If it is hydraulic and so on, vice versa.

It has to be said that such methods have almost no dead ends, and it is not bragging to say a little invincible.

“I have demonic energy. When I despise other powers and practice with demonic energy alone, and then detonate the dark energy, I can also find the dark eye of the positive side.”

“This formation is broken, it is only a matter of time. , why are you still hiding?”

George Han laughed softly.

Although it seemed that his Zhou Wu was completely empty at this time, he still kept talking to himself like a fool, but George Han didn’t care at all.

At this point in the matter, he believed that what he said could be heard.

At least someone must be able to hear it.

“Hmph, although no one has ever dared to be so arrogant in front of this deity, you do have the capital to be arrogant.”

Sure enough, after waiting for a while, a dull voice suddenly came from all around.

It was as if someone had put an iron pot in their throat when they were talking, and the voice swirled in a circle before it came out.

“It’s easy to talk, it’s still a little clever.” George Han smiled.

“You’re really not humble.”

“I’m relatively modest.” George Han shook his head: “But this thing is relative.”

“Usually I’m quite low-key in front of others, but In front of you, a low-key must become a high-key, and there is no upper limit.”

“Oh?” The voice asked suspiciously.

George Han smiled: “It’s very simple, you can think that you are the god of the sun, and I won’t seem to make a high profile person if I brag about it.”

“On the contrary, don’t brag a little, even I I do
n’t think I’m qualified to talk to you.”

Hearing George Han’s words, the voice was obviously silent for a moment, hitting people without hitting people in the face, and speaking without hurting the heart, but George Han’s words were solid and accurate. Again ruthless.

That’s right.

He has always regarded himself as the god of the sun, comparing the sky above and the sun below.

Moreover, this desire is stronger than anyone else.

Just because he is a grievance soul, he absorbs all grievances, so he is far more eager to get the recognition of the opposite side than normal people.

“You are so presumptuous.” The voice shouted angrily.

George Han didn’t feel the slightest fear of his anger at all, and even felt a little unwilling to give up, and continued to ridicule: “Isn’t what I said true? People who spend most of the year in shady places can’t see the sun, naturally After years and months, my psychology has become distorted.”

“Hey, I’m not right when I think about it. I

shouldn’t say this to you, but I should sympathize with you, and I should even pretend to act to cooperate with you.”

“After all, for People who are disabled in their hearts should be more obedient.”

The interval between sunset and moonrise is not long, just like the water monster and the earth monster said, it is not long when I want to deal with it. Nearly half of the time has been wasted, so George Han must provoke it as soon as possible in order to fight him quickly and not miss the day.

“You shameless child, shut up your stinky mouth for me.”

“Hehe, I’m only telling the truth, after all, you are still hiding in the dark, don’t dare to show up, only dare to yell at me here. “

What a bastard, are you saying I’m afraid of you?”

George Han didn’t answer, but laughed coldly, full of disdain.

“You motherfucker!” A curse, and suddenly, the entire space began to distort wildly...

Chapter 3573

Although George Han is still full of disdain, his eyes are full of perseverance and vigilance.

He knew his plan was successful, but that didn’t mean he was successful.

The resentment of the resentful soul is extremely heavy, and it is easy to ignite the fire in the other party’s heart when he provokes it. George Han can really force him to show up quickly with this trick.

But how could the sun god in a state of rage be a generalist?

George Han had to be very careful.

“Wow!”

Suddenly, at this moment, the distorted space suddenly shook.

In the next second, the whole world changed completely.

The top of the head is white, and the foot is dark.

Obviously, the breath of the white yang side is the breath of the dark side.

What he was in turned out to be a world of gossip.

Before George Han could get used to it, the strands of golden energy mixed in the whiteness had already shuttled toward the east, and then condensed

into a single body.

The golden light was dazzling, and in the blink of an eye, I realized that the thing was like the sun, standing in the east, hanging high in the sky.

Before George Han could take a second look, a crackling sound was already heard from his body.

When I looked down, I saw that the clothes on my body had started to shrivel seriously and slowly began to turn into a carbon-like shape, and the anti-Buddha was about to burn at any time.

And the palm without the protection of clothes, at this time, there is an abnormally serious burning sensation.

Before he could think about it, George Han hurriedly put the energy on his body for protection, barely holding back the burning of the “scorching sun”.

However, even so, George Han could clearly feel the unusual sultry heat.

“Young man, this can’t stand it anymore? I haven’t exerted my strength yet.” In the sky, seeing George Han’s embarrassed expression, a sneer was already heard.

“You have to be so fragile, don’t you think what you said just now is extremely ironic? Haha, I haven’t even shown up yet.”

George Han couldn’t bear it. Feel dizzy.

As expected of the strongest existence in this jungle, George Han knew that this guy really did not use his full strength, but George Han had really felt his terrifying power.

“Why, it’s too sultry to be trapped in your broken egg? I can’t speak, I’ll help you.” When the words fell, suddenly, a burst of golden light rushed towards George Han like the wind. George Han subconsciously tried to block his luck, but in the next second, his body was completely uncontrollably lifted, and flew...

Bang!

A few dozen meters away, George Han’s body slammed heavily on the ground, and the shield with him also disintegrated instantly.

“Ah!”

Before it was too late to shout about the internal injuries that had been .

The black itself gathers heat, plus the super high temperature at this time, as soon as George Han touches it, it is like touching a flint of several thousand degrees.

Not only did the clothes instantly vanish into nothingness, but also his own skin was obviously burnt to pieces, the blood instantly melted, and the tender red flesh inside was completely charred.

However, just being so natural was not enough to make George Han cry so miserably.

What really annoyed George Han the most was obviously the scorching sun above his head.

The anti-Buddha was exposed to the weight of the fire, and the skin almost fell off the moment he was exposed to the sun, so that George Han was like a monkey whose hair was burned by the fire.

Just looking at it makes my scalp tingle.

Don’t care so much, the only thing George Han can do at this time is to stand up quickly, while reducing the

area baked by the ground, prop up the energy shield to defend again.

As George Han moved, blood kept pouring out of his mouth as if he didn’t want money, and he was dumped just now. .

He even felt that his internal organs had changed positions directly in his body, and the bones of his whole body were completely turned upside down.

However, at this time, George Han had no time to deal with this. He knew that if he hadn't deployed the defense in time, it was certain that the scorching sun and the ground would kill him in less than ten seconds. "Tsk tsk

tsk, didn't you just talk to me like a dog? Why are you so embarrassed now?"

"It's just an appetizer, kid, the real fun starts now."

It happened...
