

The Charismatic Charlie Wade Chapter 3601

At this moment.

Charlie and Helena have already arrived at the ward of the queen on the top of the castle.

The guard at the gate originally wanted to stop, but after asking Olivia for instructions, he immediately let it go.

When he came to the ward, Charlie sent the medical staff out and glanced at the old man on the bed. This was an old woman who was going to die. She had been tortured by long-term illnesses, and she could no longer see the aura and majesty of a queen.

Helena on the side looked at Charlie expectantly and asked him: "MR. Wade, can you heal my grandma and wake her up?"

Charlie said lightly: "As long as she still has a breath, I will definitely be able to heal it."

With that said, Charlie walked to the hospital bed, put his hand on the veins of the old man, and a trace of aura slipped in quietly.

After a while, Charlie gradually frowned, and said: "Old lady, I guess you should be the loneliest person in the world now, right?"

As soon as Charlie said this, he felt the old lady's fingers trembling slightly.

Helena asked puzzledly: "Charlie...what do you mean by this?"

Charlie shook his head and sighed: "Your grandma's consciousness is still sober, if I guessed correctly, she should be able to hear us now."

"What?" Helena exclaimed: "Grandma, can she hear us? Then why does she stay in a coma?"

Charlie said seriously: "It's her body that is unconscious, not her consciousness, it's just that she can't control her body."

After speaking, Charlie deliberately said with a very regretful tone: "Why do I say that your grandma is the loneliest person in the world, because no one knows that her consciousness is still sober, no one knows that she just lost her body control....."

"She is now trapped in her body forever. If she can regain control of her body, she can be truly awake, otherwise, she can only live in a closed brain forever. Cannot communicate with anyone until the body declares death."

"This kind of thing is not alarmist. A considerable number of vegetative people are not brain-dead. On the contrary, their brains have no problem at all, but they have lost control of their bodies. Such people are the loneliest people in the world. Everything is clear, but unable to express, unable to move, can only lie here like a living dead..."

"Some people are lucky and have a chance to wake up after being in a coma for a few years or more than a decade, but some people may not be able to wake up after decades of lying in a hospital bed until their bodies die..."

When Charlie said this, she saw the empress with her eyes closed, two lines of tears flowed from the corners of her eyes, but she still couldn't control herself to open her eyes.

Helena was already in tears at this time, and choked up: "MR. Wade, please save my grandma... Don't let her suffer such inhuman torture anymore..."

Charlie sighed and said: "Save her, naturally it can be saved...but..."

When Charlie said this, he felt that the old lady was desperately trying to shake her fingers.

It's a pity that her mind is very strong but her strength is very weak. Although she tried her best, the amplitude of the shaking of her fingers was only a few millimeters.

Seeing this, Charlie thought to himself: "This old lady really has a strong desire to survive. If that's the case, you might as well stimulate her again."

At this time, Helena's Charlie stopped talking, and hurriedly asked him: "MR. Wade, since you have a way, please save my grandma anyway. I will repay you as a cow and a horse in my life. Kindness..."

Charlie said: "I do have an ancient Chinese medicine that can cure your grandma, but this medicine is too precious, even a little bit is invaluable. To be honest, for an old man of this age, use this This medicine is really not cost-effective."

Helena was a little stunned for a moment. She didn't understand that Charlie had obviously promised to save her grandmother and help herself become a queen, why now she seemed to regret it again.

But at this time, Charlie suddenly turned to look at the unconscious queen on the bed, and said: "Old lady, I do have a way to make you sober again, and I also have a way to make you live for two, three or even five years. Ten years, but you have to promise me a few conditions. I wonder if you agree?"

The Charismatic Charlie Wade Chapter 3602

When he said this, Charlie could feel that the old lady's idea of trying to control her fingers became stronger.

So Charlie continued: "In this way, I will let you temporarily regain control of your fingers, and then I will make my conditions clear to you one by one. If you can accept it, you will raise a finger, but you cannot accept it. You just lift up two fingers."

With that, Charlie put a trace of spiritual energy into the empress's body, allowing it to temporarily control his fingers.

Then Charlie said: "You can now try to control your right index finger and middle finger."

As soon as the voice fell, the queen's two fingers moved up and down a few times.

Helena looked stunned and exclaimed: "Grandma can really hear what we are saying?"

Charlie nodded and said, "So I said she must be lonely."

With that said, Charlie looked at the queen and asked: "My first condition is that after you wake up, you must immediately announce your abdication, pass the position of the queen to Helena, and try your best to help Helena sit on the position of the queen. , If you agree, I can guarantee you at least another five years. Can you accept it?"

The queen's right index finger immediately raised it high.

According to Charlie's previous agreement, the queen raised a finger and agreed to this condition.

Charlie nodded in satisfaction and said: "Okay, my second condition is that you must expel your son Richard and granddaughter Olivia from the royal family. Punishment, you have to accept and cooperate unconditionally, can you accept it?"

As soon as Charlie's voice fell, the queen raised her right index finger again!

Before, Olivia had been in this ward, letting go of harsh words to Helena, and even admitted that the Queen's current terrible situation was related to her, but Olivia didn't know that the Queen actually heard everything clearly. .

Therefore, the empress was extremely disappointed in her now, and even hated her.

Hearing Charlie's request, naturally there was no hesitation.

Seeing this, Helena said hurriedly: "MR. Wade! Grandma has agreed to your terms. Can you save her now?"

Charlie nodded calmly, took out a rejuvenating pill from his pocket, and then divided it into two.

Afterwards, Charlie handed half of them to Helena, and said: "Take this half of the medicine, and all your illnesses will be cured."

Helena looked at the half rejuvenation pill with an unbelievable expression!

No number of top Western doctors can treat her disease.

Even the most powerful modern medicine in the world cannot cure her chronic illness.

However, Charlie said that this half a pill can cure her illness, and her instinct couldn't believe it.

However, she was full of confidence in Charlie's strength.

Therefore, she immediately took the pill and said gratefully: "MR. Wade, thank you for your life-saving grace!"

After speaking, he put the pill directly into his mouth.

The Rejuvenation Pill melted, and immediately, Helena felt that she was surrounded by an indescribable warm current, and the experience was extremely wonderful.

At this time, Charlie divided the remaining rejuvenating pills into two again and put one of them into the queen's mouth.

The medicinal effect quickly takes effect in the queen's dying body, like a dry tree growing out of young leaves, rejuvenating!

Soon, the empress felt that her control over her body was gradually restored, and she subconsciously tried to open her eyes. This was a move she tried countless times but failed countless times in a coma for so many days.

And this time, as soon as the mind arrived, the eyes opened smoothly!

Immediately afterwards, a strong dazzling light poured in from the cracks in the eyes, which made the empress, who had been living in the dark like years, burst into tears in a moment...

The Charismatic Charlie Wade Chapter 3603

The empress, who regained her control of her body, tried to open her eyes several times, but failed due to the stimulation of the strong light.

Seeing this, Helena hurried forward and asked concerned: "Grandma, how are you feeling?"

The queen said with difficulty: "Helena...I...I'm fine...but...but the eyes can't adjust to the strong light temporarily..."

Helena suddenly choked with excitement: "Grandma, wait a minute, I'll turn off the headlights!"

After speaking, he got up immediately and turned off all the headlights in the ward, leaving only the lighter with softer light.

The empress finally opened her eyes, and then, her eyesight gradually recovered and Helena's face was clearly seen.

At this moment, the queen couldn't help sobbing: "Helena... It's not good for grandma these years... If grandma had known that Olivia was such a vicious person, I would never give her the right to inherit the throne!"

Helena exclaimed: "Grandma, do you know everything?"

The empress nodded painfully: "I heard what you and Olivia said in the ward before..."

After that, she looked at Helena distressedly and choked up: "Helena, you have been wronged for so many years!"

The queen's experience with Helena over the years is naturally well aware.

But in the years before she became seriously ill, she had been very dissatisfied with Helena's concealment of her physical condition, so she was very prejudiced.

Therefore, she pinned the future of the entire royal family on Olivia.

Even knowing that Helena has been wronged by the royal family in recent years, she also chose to close one eye.

But how could she think that now, it is Olivia who is most valued to cheat herself, and the one who brings people back to rescue her is Helena, who was abolished by herself as the heir.

Upon hearing the Queen's words, Helena burst into tears and choked up: "Grandma, it's okay for me to be wronged, but Olivia not only controlled you, but also kidnapped mother, using my mother as a threat to force me to marry. To the Russian oligarch Aman Ramovich... I still don't know where she hid my mother..."

The queen gritted her teeth and said sternly: "Don't worry, I will definitely seek justice for you and your mother!"

After speaking, she looked at Charlie who was standing not far away, and said gratefully: "This is MR. Wade! Thank you for saving me..."

Charlie said indifferently: "I took care of your granddaughter Helena's face and saved you, so you must remember what you promised me before and don't break your promise."

The queen said without hesitation: "MR. Wade, rest assured, tomorrow I will abdicate to All Northern Europe and give up the position of queen to Helena! At that time, I will personally host Helena's coronation ceremony!"

After a pause, the queen gritted her teeth and said: "As for Olivia, I will definitely let her receive the punishment she deserves!"

Charlie nodded, shook the remaining quarter of the rejuvenating pill in his hand, and said lightly: "The medicine I just gave you can extend your life for another two or three years. If you take it again The life of this part of the medicine in my hand can be extended for two to three years, and the life can be increased by three to five years. If you can keep the promise, after those two years, find me, and I will also put this part of the medicine. Give it to you."

When the queen heard this, she was overjoyed and blurted out: "MR. Wade, don't worry, I will keep my promise!"

Charlie took out a complete rejuvenation pill from his pocket and said with a smile: "As for this complete pill, if you take it, it will increase your lifespan for at least 20 years. If you have been very cooperative, At that time, I can also consider sending you some more. In this case, let you live to be 110 years old, there is no problem at all."

"One hundred and ten years old?!" The queen murmured and repeated, she couldn't believe that this ordinary pill had such a powerful effect.

However, when she thought of her own personal experience just now, she threw all her doubts out of the sky.

At this moment, she thought to herself: "This pill is really amazing! I just took a quarter of the pill and I woke up completely. If I can take the whole pill, the effect will be even more amazing!"

The Charismatic Charlie Wade Chapter 3604

Thinking of this, she said respectfully: "MR. Wade can rest assured, from today on, I will do my best to assist Helena and fully cooperate with MR. Wade's request!"

Only those who survived the dead know how precious life is.

For the elderly Queen of Northern Europe, that was exactly the case.

She has already experienced the feeling of dying, the long darkness and loneliness, so for her now, being alive is more important than anything else.

Money, power, and dignity are all worthless in the face of healthy survival.

What about the position of queen? Didn't you just fall into a coma and dying several times under the identity of the empress?

Now she would rather not have the title of the queen, or even any royal title, as long as it can make her healthy and longevity, even if she is the most ordinary little old lady, she is 10,000 willing.

Therefore, she now has the most important life goal next, which is to strive to get more magical pills from Charlie's hands!

"How can I live for another two or three years!"

"Whatever you say, you have to live another twenty or thirty years!"

A few minutes later, the queen gradually recovered her control over her body, and at the same time she felt that her physical condition had indeed improved a lot from before she fell ill this time.

She simply adjusted to a few minutes before she was able to sit up on her own, and even tried to complete the action of standing on the ground.

At this moment, the empress was very excited in her heart, and at the same time, the momentum of her whole person gradually recovered a lot.

Just because she experienced the miraculous effect of the Rejuvenation Pill, the empress had regarded Charlie as a god in her heart. In order to satisfy him, the empress hurriedly asked respectfully: "MR. Wade, what instructions do you have regarding the punishment of Olivia's family? "

Charlie said indifferently: "I want you to use the energy of the royal family to expel Olivia from the royal family, and at the same time let them be tried by law, it is best to set a life imprisonment without parole!"

When Charlie first heard about life imprisonment, the empress still felt a little unbearable. After all, no member of the royal family had been sentenced for so many years, let alone life imprisonment.

However, when she thought that Olivia would actually mutilate herself step by step, even trying to control her own life and death, her heart became more and more angry, and she said in a bad tone: "Helena, you go to the head of the Royal Guard Call here, it's time to settle accounts with Olivia!"

Charlie smiled slightly and said, "Don't bother, Olivia should take the initiative to find it soon."

Helena looked at the time and found that Charlie had just given Olivia half an hour to think about it. Twenty minutes have passed now.

So she asked: "MR. Wade, if Olivia agrees to your request, will you treat her lightly?"

Charlie waved his hand: "Don't worry, she can't agree to my request. I believe she is more willing to kill me than if she honestly gave me five billion euros."

The Charismatic Charlie Wade Chapter 3605

Charlie became an orphan at the age of eight. He has been in the society for so many years and has experienced the cruelty and gloom of society.

He knows very well that in the real world, the four words "money first" have always been the eternal truth for many people.

Therefore, when he offered William and Olivia a price of 5 billion euros, he never thought that these people could agree.

The reason for leaving them half an hour to consider is to force them to kill.

And he deliberately chose to save the queen at this time, in order to drive William and Olivia to a dead end.

If they decide to accept their terms and honestly come up with a willingness to bet and lose, then they will be a little bit sympathetic to them in the face of five billion euros.

But if they decide to kill themselves, then in front of the queen, they will definitely go out and kill the queen together.

In that case, they personally pushed themselves into the abyss of immortality,

The queen didn't know the specific situation, and when she heard Charlie's words, she asked in shock: "MR. Wade, why did Olivia act on you? What the hell is going on?"

Charlie was about to speak, and suddenly heard the sound of dense footsteps coming from far and near quickly, a smile was wiped on his face, and he said lightly: "They are already here, it is better to let Olivia tell you the reason. Bar."

At this time, Helena and the Queen did not hear footsteps, and both of them had a little puzzled expression.

After a while, the sound of footsteps became louder and louder, and when the grandfather and grandson heard it, both their faces were shocked.

At this time, the door of the ward was suddenly kicked open, and then a dozen people in black rushed in aggressively!

But when they came in and saw the empress who was standing on the ground and could not see the sickness at all, they were all dumbfounded.

At this time, Olivia rushed into the room, and as soon as she opened her mouth, she said coldly: "Tie up the one with the surname Wade!"

As soon as the voice fell, I suddenly saw the empress standing with Charlie, as if she had been struck by lightning, she subconsciously blurted out, "...grandma?!"

Following Richard and George William and his son, they also saw the ruddy-faced queen who was as healthy as the elderly, and were shocked to speak.

A few seconds later, Richard came back to his senses and subconsciously said: "Mom...you...how did you wake up?!"

The queen asked coldly: "What? I woke up, are you surprised? Or do you not want me to wake up at all?"

Richard hurriedly explained: "Mom...how do you think so...I am your son, you are in a coma these days, I always look forward to you to wake up sooner..."

Olivia also reacted. Although she was extremely annoyed at the Queen's awakening, she still pretended to be excited and said, "Grandma! You don't know how much dad and I worry about you during this time... I'm afraid you won't wake up again..."

The queen's eyes were as sharp as a knife, staring at Olivia's eyes, and her voice said coldly: "Olivia, stop acting. For so many days, do you think I'm really in a coma? In fact, everything that happened around me I all know that I remember every word everyone said by my side!"

Olivia's face turned pale instantly!

She really did not expect that when the old lady was unconscious, she would have been conscious all the time!

In this way, every word I said to Helena before was clearly heard by her...

Thinking of this, Olivia hurriedly explained: "Grandma, listen to my explanation. Many things are actually misunderstandings. Some of the things I said to Helena were actually deliberately scaring her and trying to force her to exchange benefits for the royal family. That's it, it's not a fact..."

The queen said contemptuously: "Olivia, I have been deceived by you once, and I almost lost my life in your hands, do you think that what you are saying now, do I still believe it?"

Olivia was suddenly nervous.

She really didn't expect that the old lady would wake up at this juncture, and she didn't know what to do for a while.

The Charismatic Charlie Wade Chapter 3606

At this time, Charlie looked at her with a smile on his face and asked: "Olivia, how are you thinking about what I just said? I am really limited in patience. If you don't give me a solution, Then don't blame me for being rude to you."

Olivia didn't expect that he had brought people to surround Charlie. He dared to talk to himself like this at this time, so he gritted his teeth and looked at Charlie and said coldly: "The surname is wade! You repeatedly, Repeatedly provoking me, do you really think I am muddled? I tell you, this is Northern Europe, not China! Believe it or not, I can let these people kill you at any time!"

Charlie smiled, not angry, but raised his eyebrows and asked: "Looking at your arrogant appearance, you should be planning to run the bill?"

"Deal?!" Olivia sneered: "Charlie! Don't forget that this is my site. In my site, everything is up to me. I say that between me and you, and between William and you. In the meantime, there is no debt at all. Would you dare to say nothing in front of me?"

Charlie smiled and said: "There is nothing I dare not do yet. Today I will leave the words here. If your two really decide to fall back on the bill, I will definitely make you worse off."

Olivia said with murderous intent in his eyes: "Charlie! You Huaxia often say that the Raptors are not the river. Since you have been wild and presumptuous in front of me again and again, don't blame me for being rude to you!"

After that, she immediately yelled at the black-clothed people around her: "Get me the surname wade, and throw him directly through the window to kill him!"

As soon as Olivia's voice fell, a group of people in black rushed towards Charlie.

Charlie smiled at this moment, and didn't pay attention to these people in black at all.

And the empress beside him was furious at this moment, and blurted out angrily: "Presumptuous! MR. Wade is my savior, how dare you be rude to him!"

Although these men in black are all Olivia's subordinates, they have always played for the royal family and respected the empress. At this time, hearing the empress's reprimand, all of them immediately stopped and dared not move forward.

Seeing this, Olivia gritted his teeth and roared: "Don't bother with this old woman! She is no longer the Queen of Northern Europe! I am the new Queen of Northern Europe! Do you want to bear the charge of disobedience?"

These people in black didn't know what to do for a while.

Although they had been obedient to Olivia, they did not dare to directly disobey the Queen's orders.

When William saw this, he shouted from the side: "What are you still doing? Don't forget who your master is! As long as you can kill the surname wade, I can give you one million euros each, no! Two million euros per person!"

William's words tilted the balance in the hearts of these people in black.

Two million euros will definitely allow them to achieve financial freedom. No one will give up such a good opportunity to make a fortune!

As a result, a crowd of people in black immediately pressed towards Charlie.

The empress did not expect that her order would have no effect on the black-clothed men, so she shouted angrily: "Olivia! If you insist on hurting MR. Wade, I will not forgive you! At that time, I will let you accept the sanctions of the law!"

Olivia was startled slightly, and then his expression immediately became extremely hideous, and said coldly: "I only wanted to kill Charlie, but now it seems that you are forcing me to kill this old thing as well!"

After that, she sneered and said murderously: "Okay! Anyway, you old thing should have been dead! Don't go on the road with this surname wade tonight!"

The Charismatic Charlie Wade Chapter 3607

For Olivia, there is only one way to go to the dark now.

Otherwise, not only Charlie will have to pay billions of compensation here, but the Queen will also be in prison for treason!

Now she just wants to kill Charlie and the Queen!

As long as the two of them are resolved, not only can money be saved, but the position of the queen can be inherited smoothly by herself!

The empress did not expect that her granddaughter would openly kill herself in front of so many people, and suddenly shouted in anger: "Olivia! You are so brave, how dare you kill the monarch! Do you know the killing? Is the crime of the Queen the heaviest crime?!"

Olivia no longer fears the identity of the queen, and said coldly: "What crime of killing the Queen, as long as you kill you, I am the Queen!"

Helena blurted out: "Olivia! As your sister, I advise you to hurry up before you make a big mistake! Strive for grandma and MR. Wade's leniency, otherwise, your life will be over!"

Olivia seemed to hear Tianda's joke, and said contemptuously: "Helena, you don't really think that with the two of them, you can come back today?"

Helena said coldly: "Aren't you afraid of the Royal Guard?"

Olivia smiled sinisterly: "So you still imagined that the Royal Guard could come to rescue you? I tell you Helena, all the soldiers of the Royal Guard were transferred to the first floor by me, and this ward did it before. Soundproofing, no matter what happens here, they will not be able to hear it!"

Although Olivia has a group of dead men of her own, she can't control the entire royal family.

Especially the Royal Guard guarding the palace.

The Royal Guards are loyal to the Queen, and at the same time they are more loyal to the laws of Northern Europe. They are soldiers trained by the country and specially arranged to guard the palace.

Therefore, even if Olivia has great abilities, it is impossible to buy them all.

However, as long as you can solve the problem in this ward, you don't have to worry about the Royal Guard.

So, Olivia said to Helena while holding the winning ticket: "My dear sister, I have already arranged your fate for you! Don't worry, our sisters will play a game. I can't let you just say anything. So in vain! After all, Aman Ramovich has always been obsessed with your body! After I get rid of the two of them, I will spare your life, pack you and give it to him, and let him imprison you in St. Petersburg, Be his plaything for the rest of his life! When he gets tired of playing with you, let him kill you again!"

As he said, Olivia sneered: "Oh, yes, the one surnamed wade just hit Aman Ramovich. I believe he must be suffocated. When he brings you back to St. Petersburg, he will definitely be there for you. I vent my body well!"

Helena was shocked by Olivia's viciousness and could not speak, and Olivia at this time had already lost patience, and shouted at the group of people in black: "What are you doing in a daze? Hurry up! Kill that surname wade first!"

The queen said angrily: "I am the Queen of Northern Europe! I want to see who dares to move me!"

The man in black was hesitating, and William immediately shouted from behind: "Who can kill this old immortal, I will give him an extra 20 million euros! Who can kill Charlie, I will give him 100 million!"

Originally, these people in black were still a little afraid of the identity of the empress, but when they heard this, they all thought about money except money!

Immediately afterwards, a man in black roared, took out a dagger and rushed towards Charlie.

Charlie at this time, in his eyes, is 100 million euros in cash!

As long as Charlie is killed, the money will be enough for him and his family to live their lives in prosperity!

Others suddenly woke up at this moment, many people went straight to Charlie, and a few chose to attack the queen directly because they were relatively close to the queen!

The queen didn't expect that these people would really dare to do something to herself, and she was frightened for a while and didn't know what to do.

At this time, Helena by her side immediately pulled her behind her.

The Charismatic Charlie Wade Chapter 3608

The empress never dreamed that her eldest granddaughter, who had been sick all the time, could stand in front of her at a critical moment, and her expression could not show the slightest panic. She was moved in her heart, and she also admired Helena's undaunted aura.

But she didn't know that the reason Helena was not afraid of danger was entirely because she knew Charlie's strength!

The king of the Four Great Wars in the Wanlong Palace, under Charlie's hands, couldn't even survive a round!

Abbas led the core members of the Wanlong Palace, kneeling in front of Charlie and begging for forgiveness!

With Charlie's unparalleled strength, how could these men in black hurt him!

But Olivia, William and others didn't know Charlie's skills.

At this time, they had become red eyes, and they only felt that they would just do nothing today and kill both Charlie and the Queen!

When the time comes, he will pour the dirty water of the adultery with Helena on Charlie, and then temporarily put the queen's body in the freezer. After a few days, he will declare that the queen is a natural death. There will never be any doubt from the outside world.

As for Helena, the eyewitness, after she became Aman Ramovich's plaything, she would never have a chance to see the sun again in her life, so Olivia didn't worry at all that she would leak out what happened today.

Just when Olivia saw Charlie being surrounded by men in black, thinking that he was already winning, a dark figure flew out of the crowd suddenly!

The man in black who rushed towards Charlie with the dagger first, had already been interrupted by Charlie's hands at this time, and threw him directly out of the crowd!

Immediately afterwards, the abnormal frequency is born!

One after another, people in black wailed and flew out from the center of the crowd. Everyone was interrupted without exception!

After only ten seconds, all the people in black fell to the ground in pain, and their hands were broken like William. It was terrible!

But Charlie still stood arrogantly on the spot at this time, and even his clothes had never been wrinkled.

The combined strength of these men in black is no match for a four-star warrior.

Therefore, in front of Charlie, they were no different from a group of chickens.

Olivia, William and others were shocked to see this situation!

None of them thought that Charlie's strength would be so powerful!

More than a dozen well-trained men in black were completely vulnerable in front of him!

William recovered for the first time. He turned around and wanted to run out. But before he ran out, he felt that his collar was caught. Before he looked back, he was thrown out and hit the wall heavily. , Rolled to the ground.

At this moment, Charlie had closed the door to the ward, looked at Olivia and the others, and smiled calmly: "Olivia, do you think I have a turnaround now?"

Olivia looked at Charlie's playful look, pale in fright, and asked in a trembling voice: "Who are you...how are you...how can you have such a powerful strength?!"

Charlie sneered and asked: "Didn't I introduce myself to you at the airport? Why, you forgot my name so quickly?"

Olivia said with trepidation: "No...I didn't forget..."

Charlie snorted coldly: "Say, what's my name?"

Olivia was extremely frightened, and said in a panic: "cha... Charlie..."

Charlie asked again: "Who is Charlie?"

Olivia blurted out subconsciously: "You... your name is Charlie..."

Charlie stared at her and said coldly: "Speak louder, I can't hear you clearly! Who is Charlie?"

Olivia was full of heart, but she could only bite the bullet, raise her voice a few points, and said loudly with fear on her face: "You...your name is Charlie!"

The Charismatic Charlie Wade Chapter 3609

At this time, Olivia was shocked.

At the moment when she faced Charlie and called out Charlie's name herself, she felt that her whole person had completely collapsed.

Under Charlie's coercion, her legs softened subconsciously, and she knelt down in front of Charlie, choked up and said: "MR. Wade...I was wrong...I was wrong because of the money, please You spare me and give me a chance to make up for it!"

Olivia's father Richard, also realizing that the general situation is over, hurriedly knelt on the ground, begging: "MR. Wade, Olivia is young, and he is easily impulsive in doing things. Don't be familiar with her..."

William's father George also hurried forward at this time, and said with a pleading expression: "MR. Wade, we are willing to accept the five billion euros you said before! Our Rothschild family is willing to give four billion euros! Just ask! You can raise your hands high!"

Charlie smiled, looked at Richard, and asked him: "They give out 4 billion, so you will come out the remaining 1 billion?"

"I...I..." Richard was suddenly nervous and didn't know what to do.

A few minutes ago, he was able to gather one billion euros through gritted teeth. That's because Olivia was basically equal to the uncrowned queen of Northern Europe before. Only waiting for the death of the current queen to be crowned smoothly, so basically. Control the financial power of the entire royal family.

But now, the queen has woken up. In this case, neither Richard nor Olivia have the right to mobilize royal funds anymore, so at this time, let Richard take one billion euros out. Foolishly talk about dreams.

After thinking about it, Richard could only bite the bullet and said: "MR. Wade... our own assets, cash and various real estate together, it is about 500 million euros. If you don't mind, I'm willing to put all the assets together. I will give it to you as compensation!"

Charlie snorted and said, "Then this is only 4.5 billion, not enough."

After speaking, he looked at George and asked with a smile: "George, would you like to pay more?"

George almost collapsed, and said bitterly: "MR. Wade... 4 billion euros is already our limit... We don't have so much cash at all. We have to wait until the stock market opens tomorrow to collect 4 billion euros. Only by selling off a large number of stocks in hand will it be possible to make up enough..."

Charlie shook his head and said indifferently: "Your two families are a community of interests, both of you will be prosperous, and you will lose everything. If the money is enough, I can spare you a way of life, otherwise, I will treat you as kingslayers tonight. Killing on the spot, tomorrow will be directly announced by the queen, saying that you united to rebel tonight and were killed by the Royal Guard! Then the photos of your deaths here will be released to the public, by then, people all over the world will think You deserve it!"

When George heard this, his heart trembled violently!

He didn't expect Charlie to kill himself!

Moreover, he also believed that Charlie did have this strength and could kill all of them at any time.

More importantly, even if Charlie really killed them, according to the reasons Charlie said just now, the world would never doubt it.

After all, they did bring people into the queen's ward today. If Charlie really killed them and then claimed to the public that they were killed on the spot because of King Killing, it would logically fit in perfectly.

Even if the Rothschilds knew about it, they wouldn't doubt it.

In that case, Charlie killed them without taking any risks...

Thinking of this, George looked at the queen, crying and begging: "Your Majesty, you are the prince of a country and you want to uphold the country's legal system. Even if you send us to court, you can't let Charlie kill us..."

When the queen heard this, she blurted out without hesitation: "My life was saved by MR. Wade. From now on, I will follow MR. Wade's instructions. If MR. Wade wants to release you, I will send you out of the palace immediately; but If MR. Wade wants to kill you, I will immediately follow MR. Wade's words and announce your crime of murdering the king and treason!"

The queen knew very well in her heart that how long she could live in the future depended on Charlie, so at this time, she naturally had to obey Charlie.

When George heard this, his body was wet with cold sweat!

He really did not expect that the empress would have such an attitude!

If this is the case, then myself and my son are likely to die here today...

Thinking of this, he hurriedly pleaded: "MR. Wade, don't worry, I will find a way for the remaining 500 million euros and I will make up for you as soon as possible..."

The Charismatic Charlie Wade Chapter 3610

Charlie nodded: "If you have this attitude, then we can continue to talk."

George breathed a sigh of relief and hurriedly asked, "MR. Wade, if 4.5 billion euros are given to you on time, can you let me and William leave?"

Charlie smiled and said: "Then you may be thinking too much. What I can promise you is that if 4.5 billion euros are taken out, I will spare you and William not to die, but we have an old saying in China that death can be avoided. Living sins are hard to forgive, so what kind of punishment you will receive next, everything is under my control."

After speaking, Charlie said again: "Oh yes, and your wife, she will be in the same situation as you next."

George said in a panic: "MR. Wade... 4.5 billion euros were given to you, can't you let us be free?"

Charlie nodded and said calmly: "If you continue to entangle this issue, the 4.5 billion euros may become 9 billion!"

George closed his mouth when he heard this.

Even if there were 10,000 unwillingness and anger in his heart, he did not dare to raise it in front of Charlie at this time.

When Olivia heard that both George and William had a chance to survive, her future was still uncertain, so she cautiously asked: "Ye...MR. Wade... I wonder if you can let me and My father has a way of life..."

Charlie looked at her and said coldly: "I can give you a chance to survive and let your father honestly take out 500 million euros. At the same time, you must also send Helena's mother back intact. Do two things well, and I can spare you from dying!"

Olivia hurriedly said: "Helena's mother was imprisoned in a nearby farm. I arranged for a few people to stare at her there, and someone could send her over at any time!"

When Helena heard this, she blurted out: "Olivia, are you embarrassing my mother?"

Olivia hurriedly said: "I didn't embarrass her much except for someone to lock her up..."

Helena breathed a sigh of relief, and subconsciously wanted to ask Olivia to send the person back, but when she thought that Charlie was by her side, she didn't say anything, because she knew that Charlie would definitely help her mother safe. bring back.

Charlie didn't let her down either, and immediately said to Olivia: "You will inform your subordinates now and let them send people back immediately!"

"Okay..." Olivia hurriedly took out her cell phone, made a call in the hands-free mode, and said: "Send Helena's mother back to the palace, immediately, immediately!"

The other party immediately said: "Your Royal Highness, don't worry, we will be there in twenty minutes!"

Olivia hung up the phone, looked at Charlie eagerly, and said nervously, "MR. Wade, they will be sent back in a while..."

Charlie nodded in satisfaction, and said lightly: "Well, let me give you an account. You can arrange for someone to call the money. When the money arrives, we will continue to talk."

George's eyes flashed a little, and he hurriedly said: "MR. Wade, don't worry, you give me your account number. I will arrange for someone to pay 2.5 billion euros in the first place. The remaining 2 billion will be available when the stock market opens tomorrow morning. past!"

When he said this, George thought in his heart that if Charlie wanted to control himself, then the whereabouts of the money was the key to his family's search for his whereabouts.

If Rothschild's core family could notice this, it would be easy to find Charlie's head through the direction of this huge sum of money.

However, he did not expect that Charlie called Stephen Thompson and said: "Thompson, let Abbas give me a collection account, preferably an account that can quickly launder the money! They Wanlong Palace After so many years in the gray area, this skill should still be there!"

George never dreamed that Charlie actually planned to let Wanlongdian collect the money!

Ten Thousand Dragons Hall are desperadoes, and they are all over the war-torn areas, even the core family of Rothschilds, it is impossible to treat them like this.

After all, the richest people are most afraid of desperadoes.

Rothschild's core family, even if they knew that their family was missing, and half of the family's funds were in the pockets of the Wanlong Palace, it was absolutely impossible to find trouble in the Wanlong Palace to help themselves.

The Charismatic Charlie Wade Chapter 3611

Thinking of this, George was devastated.

It seems that today, Charlie will really be pinched to death.

However, what shocked him was still to come.

On the phone, Stephen Thompson said: "Master, do you want me to call Abbas, it would be more convenient for you to ask him directly, I am afraid that there will be gaps in the message between me."

Charlie said with a calm expression and a casual tone: "Well, then you can call him."

When everyone around heard Charlie's tone, there was a question in their minds, didn't the Wade family just be eaten half by the Wanlong Palace? Even if Wanlong Palace were to rely on the Wade family to make money in the future, it was impossible to allow Charlie to be so casual with them, right?

Just when they were puzzled, Charlie smiled slightly and directly turned on the speaker of the phone.

At this time, Abbas answered the phone and said respectfully: "MR. Wade, what do you want?"

As soon as this sentence came out, everyone on the scene was struck by lightning!

No one expected that the famous Abbas, the lord of the Wanlong Palace, would be so respectful to Charlie.

George exclaimed in his heart: "This... Is this the Wanlong Temple annexing the Wade Family, or the Wade Family annexing the Wanlong Temple? Why is Abbas so respectful and polite to Charlie?"

Olivier was also blinded, and thought to himself: "Didn't Abbas have a deep hatred with the Wade Family? Even if the Wade Family lost half of his assets to him, he shouldn't be so low to the Wade Family, right?"

When everyone was very surprised, Charlie said indifferently: "I have a fund that I need to find a reliable channel to launder. The money belongs to Rothschild's third-tier family, and the demand is for money from their accounts. It's on the account of your Wanlong Temple, and your Wanlong Temple will clean it and take it out to me. Can you do it?"

Abbas said respectfully and almost without thinking: "MR. Wade, you can rest assured that we are very good at this kind of thing. We have opened a large number of safe accounts in Switzerland and many offshore countries and regions. These accounts are theoretically without being monitored by any country or individual, as long as the money is put into these accounts, whether it is US dollars, Euros, Japanese Yen, or Renminbi, we can distribute the money to dozens of countries around the world within tens of seconds. In the tens of thousands of bank accounts, the money can be made to flow into our US dollar account after a round of the world within a minute, and it will definitely be traceable!"

After hearing this, Charlie said with satisfaction: "That's great, you ask your people to send me these accounts immediately, and I will let people transfer money to them one after another."

"Okay MR. Wade!" Abbas asked again: "By the way, MR. Wade, what is the approximate scale of the funds you want to wash?"

Charlie said casually: "Five billion euros."

Hearing this, Abbas was stunned.

Although he is also a person worth more than ten billion U.S. dollars, he was shocked when he heard that Charlie had a sum of 5 billion euros in cash to be credited.

You must know that Charlie set off from China to Northern Europe, and it hasn't been 24 hours. In such a short period of time, 5 billion euros in cash can be credited to the account, which is even more incredible than robbery.

But Abbas didn't know that Charlie had snatched this money.

Seeing that he hadn't spoken, Charlie asked, "What's wrong, is it difficult for you to have 5 billion euros?"

"No difficulty!" Abbas said without hesitation: "MR. Wade, don't worry, I will wash out this money for you. Just tell me what currency you want."

Charlie smiled and said, "Of course it is in U.S. dollars! I want to use this money to buy a boat!"

Abbas hurriedly said: "No problem, MR. Wade, don't forget to give me a collection account, then all the money will be converted into U.S. dollars and remitted to this account."

Charlie said with a smile: "Don't give this money to me. I will ask the Ito family for a collection account later. After you launder the money, call the Ito family directly. My ocean shipping company is The Ito family and Zara banks operate together. The money is given to the Ito family, and the Ito family can directly transfer the money to the Shipping Group account in the form of capital injection."

Abbas hurriedly said: "No problem! You ask the Ito family for an account, and I will take care of the rest!"

Charlie gave a hum, and then hung up the phone.

The Charismatic Charlie Wade Chapter 3612

At this time, George and William, father and son, and Richard and Olivia, father and daughter, were already on the spot as if struck by lightning.

Hearing the conversation between Charlie and Abbas, they all understood a shocking secret: Wanlong Palace must have already submitted to Charlie now, and Abbas must now be Charlie's subordinate! Otherwise, Abbas would never be so respectful to Charlie!

Thinking of this, a few people were extremely frightened!

They realized now that Charlie had always been pretending to be a pig and eating a tiger!

When he came, everyone thought that Wade Family had been bitten by the Wanlong Palace for half their lives and the scenery was no longer there.

But who would have thought that the truth of the matter should be such a super reversal!

Not only did the Wade family not lose any property, on the contrary, Charlie also took the entire Wanlong Temple in his bag!

For the Wade Family, this is just as powerful as a tiger!

William can't wait to slap himself to death at this moment.

If it's not good to provoke, you must go to provoke Charlie!

With Charlie's current strength, even with ten selves or one hundred selves, it is impossible to be his opponent...

Even his own family is just a small rubbish in front of the Wade family!

At this moment, Charlie ignored the horror of the group and called Ito Nanako again.

On the other end of the phone, Nanako Ito said excitedly and respectfully: "Charlie, are you in Northern Europe now? Why did you call me suddenly?"

Charlie smiled and said, "Nanako, I have a fund that I want to inject into Shipping. You have to give me a bank account of the Ito family. I will call you the money, and then you can inject money into Yisu Shipping for me."

Nanako said without hesitation: "No problem, Charlie wait a moment, I will send you the account information."

"Okay." Charlie said, "I still have to call Miss banks and talk to her later."

"good!"

At this time, everyone in front of them was even more shocked and speechless.

Who would have thought that even the famous Ito family in Japan would treat Charlie respectfully and obediently!

At this time, Charlie called Zara banks again.

Zara banks answered the phone and said respectfully: " Mr. wade, do you have any instructions for me at this time?"

Charlie said, "Zara , Yisu Shipping, I want to inject capital to expand the scale. This company is a partnership between the two of us, so I would like to ask if you are willing to continue to inject capital."

Zara banks said without hesitation: "If you let me inject capital, then I will inject capital!"

The Charismatic Charlie Wade Chapter 3613

Right now, Lord Banks is still kneeling on Yeling Mountain, so for the time being, he has not formally handed the position of Banks Family Patriarch to Zara banks.

However, this matter was already firmly established, so Zara banks heard that Charlie was going to inject capital into Yisu Shipping, and immediately decided to jointly inject capital with him.

When Zara banks agreed, Charlie said: "In this way, I will inject 5.1 billion euros into Yisu Shipping through the Ito family. It just so happens that my shareholding ratio is also 51%. As for your side, I will inject 4.9 billion euros. In this way, our shareholding ratio does not need to be adjusted."

"No problem!" Zara banks agreed without hesitation, and said respectfully: "Yes, if YS Shipping invests another 10 billion euros in capital, it will definitely become the world's top shipping company!"

Charlie snorted and said, "When the money arrives, you must spend it on the blade. You can talk to Ziva Hank to see how the money will be used at that time."

"Okay!" Zara banks said hurriedly, "Tomorrow, after signing the relevant documents with my grandpa, I will immediately rush back to Aurous Hill to meet with Ziva Hank."

"Yeah." Charlie said lightly: "After you formally inherit the Banks Family, you must pull out the thorns one by one inside the Banks Family, especially your uncles and aunts, as well as their children, you suddenly take the position. They must be very dissatisfied, and they must accept it in the shortest possible time. If anyone dares to sing against you, kick them out of the Banks Family as soon as possible!"

Zara banks respectfully said: "Don't worry, benefactor, zara understands!"

Charlie said: "Let's do this first, wait for me to go back and talk about specific things in person."

Charlie hung up Zara banks's phone, and the people around him had already admired them.

From Charlie's conversation, they could also hear that this Zara banks would soon inherit the Banks Family and become the Patriarch of the Banks Family.

And her attitude towards Charlie was so respectful.

This shows that Charlie's current strength is already terrifying!

William and Olivia are only now realizing what kind of character they have provoked.

Charlie may have no foundation in the West, but in the East, with his strength and connections, I am afraid that he has few opponents!

At this moment, Charlie looked at the panicked people, turned around and said to the queen: "Notify the Royal Guard. First control the two families and not allow them to contact the outside world. At the same time, you personally announce that they are both The family has been arrested for attempting to kill the king and treason, and tomorrow's wedding will be cancelled."

The queen said without hesitation: "Okay MR. Wade, I will do it!"

Helena hurriedly said: "Then I will inform the Royal Guard!"

At this time, William's father George asked nervously: "MR. Wade...I can arrange for someone to start the transfer. Tomorrow morning, I will transfer 4.5 billion euros. Please be magnanimous and forgive us... "

Charlie said calmly: "I said, I can forgive you from dying, but you cannot be free. After your family transfers the money tomorrow, you will leave for Syria. I have friends who have some influence there, and they will definitely take good care of you. ."

When George heard this, he almost collapsed, crying bitterly and said: "MR. Wade, I would rather serve my sentence in a prison in Northern Europe than go to places like Syria! Please raise your hand!"

Charlie said coldly: "I am giving you a single-choice question, and there is only one option. If you say nonsense anymore, I will break your leg before sending it over!"

George didn't dare to speak any more, but his heart was completely broken, and he was sobbing while wiping his tears.

Richard asked in a panic: "... MR. Wade... can we stay in Northern Europe because we are also members of the royal family anyway..."

"Impossible." Charlie said calmly: "Helena will inherit the ruling in two days. Before that, you will be deprived of your royal status and then exiled overseas. In this life, you will not be allowed to return to Northern Europe!"

As soon as Olivia heard that Helena was going to inherit the rule, she was hated and angry, so she hurriedly said to the queen: "Grandma, you can't give the throne to Helena to inherit anything! She has serious problems.

The Charismatic Charlie Wade Chapter 3614

Heart disease! I am afraid that she will die within a few years! And she has no children, and the throne will probably be inherited by a nephew in the collateral line!"

The queen said coldly: "MR. Wade can even save me, not to mention Helena? With MR. Wade, Helena will live a hundred years! In the future, her descendants will inherit the throne!"

After all, the queen snorted coldly: "Olivia, you still care about yourself! MR. Wade said just now, you will be deprived of your royal status and exiled overseas! As for where you are exiled, it depends on how MR. Wade sent off.

Olivia looked at Charlie and pleaded: "MR. Wade... I have no other requirements, I just want to stay in Northern Europe... Please be merciful..."

Charlie smiled and said, "I did intend to let you stay in Northern Europe. I sentenced you to life imprisonment without parole and let you spend the rest of your life in jail. I heard that you have very high welfare in Northern Europe. Living in jail is similar to staying in a hotel. , You won't be too painful if you want to..."

Speaking of this, Charlie turned around and said coldly: "But you are really a little self-conscious, and even I want to kill, so now I have to make appropriate adjustments to your arrangements."

Olivia choked and said, "MR. Wade... In Northern Europe, life imprisonment is already the most severe punishment... There was an anti-social gunman who killed dozens of people alone, but he was sentenced to life imprisonment... ..Isn't it enough for MR. Wade to be sentenced to life imprisonment?"

Charlie smiled slightly: "Compared to life imprisonment, I am more inclined to let you leave Northern Europe."

After speaking, Charlie said again: "By the way, there is a word called labor reform, I wonder if you have heard of it?"

Olivia shook her head in horror.

She hadn't heard of the four words of reform through labor, but faintly felt very bad.

Charlie laughed at this time: "Your Nordic welfare is too high, and the high is a bit illogical. Why can a criminal not only eat and drink well in prison, but also don't need to create any value. This is not a waste of taxpayers' money." Is it? Therefore, it is the most reasonable and fairest way to let sinners like you create value with your labor, and then use the value you create to satisfy your food and drink Lhasa."

After speaking, Charlie thought for a while, and said: "By the way, the old owner of the Huaxia Banks Family is going to the local owner of Madagascar. I will ask him to buy a few hundred acres of sugar cane land and then a few hundred acres of cotton land. , You, your parents, and these people who worked for you, let's go to Madagascar to chop sugar cane and pick cotton together!"

"Cut the sugarcane?!" Olivia felt dizzy when she heard this, almost fainting on the spot.

And her father Richard was about to collapse, crying and said: "MR. Wade...cutting sugar cane, picking cotton, this is the work done by black slaves...you can't torture us like this..."

"Bullshit!" Charlie asked coldly: "Your God also said that all beings are equal, aren't black slaves human? Isn't your ancestor Viking pirates doing the inhumane black slave trade? It's paying off the debt for our ancestors!"

The Charismatic Charlie Wade Chapter 3615

In Charlie's view, Madagascar is an excellent country for labor reform.

First of all, the local economy is extremely underdeveloped and the conditions are extremely poor, so it has a very good disciplinary significance for Olivia and others;

Secondly, the more economically underdeveloped places, the more human labor is needed, and most of the labor is farm work. Sugarcane and cotton are all native products of Africa and require a lot of manpower to pick. The workload is large enough for this. Help people experience the joy of labor;

At that time, let Zara banks get Lord Banks large estate in Madagascar, buy more land to grow sugarcane cotton, and all the farming work is left to this group of people.

Olivia was about to collapse at this time.

She was very angry at first, and she always felt that she was going to be the queen soon, so she was extremely proud.

But she never dreamed that Charlie would send him to Madagascar, where he would chop sugarcane and pick cotton!

This is something that the poor people do only locally in Africa. Let her, a princess, do it. How can she accept it...

So she broke down and cried, and pleaded bitterly: "MR. Wade, I really don't want to go to Madagascar... Please sell me to Aman Ramovich, he will definitely be willing to pay you a sum of money, why? It's much more cost-effective than sending me to Madagascar..."

Olivia was originally a 10,000 upstart who didn't look down on Aman Ramovic, but now Aman Ramovic has become a sweet pastry in her eyes.

She thought to herself: "Aman Ramovich has always wanted to marry a woman of royal background. Since he is willing to marry Helena, he must be willing to marry me... He is even

willing to pay hundreds of millions of euros for Helena, so he must be willing too. For me to pay the same price, in that case, I can go to Russia to be a wife..."

Just when Olivia felt that Charlie would definitely agree to this proposal, Charlie sneered and asked her: "I remember you seem to look down on that Aman Ramovich, why are you rushing to marry? He?"

Olivia hurriedly explained: "I also want to create more income for you, MR. Wade... If you want, you can make hundreds of millions of euros from Aman Ramovic!"

Charlie smiled and said: "I think you are thinking too much, how could I let you follow Aman Ramovic to Russia to enjoy the happiness? Since I said that I want you to reform through labor, then I must arrange you until you need you most. At the moment, I think there is no place where you need you more than Madagascar!"

Olivia cried bitterly and pleaded: "MR. Wade...I am a weak woman, even if she goes to Madagascar, she won't be able to play any role. You might as well let me earn a lot of money for you. Please..."

Charlie turned a deaf ear to her plea, and he had made up his mind to prevent Olivia and the group from leaving Madagascar for the rest of their lives.

At this time, Helena swarmed with dozens of Royal Guards.

Knowing that someone was going to kill the queen, these royal guards were highly nervous one by one, rushing up all the way with guns and live ammunition.

Seeing that the Queen had awakened at this time, the head of the Royal Guard said with surprise: "Your Majesty, you...you are awake!"

The empress nodded slightly and said: "Bruno, control all these people and guard them strictly. Never let anyone go!"

The white male called Bruno immediately said loudly: "Your Majesty, don't worry, I will not let any of them escape!"

"Okay." The queen nodded with a tired look and waved her hand: "Okay, take all these people down! Detain them in the underground wine cellar!"

"Yes!"

The Royal Guards, armed with guns and live ammunition, immediately arrested the William family and Olivia family, as well as the people in black who had been abandoned by Charlie.

Even William and Olivia's mother, who had returned to the room to rest, were arrested by the Royal Guard and sent to the underground wine cellar together.

Soon, Olivia's men sent Helena's mother back.

They brought Helena's mother into the palace and were immediately arrested by the Royal Guard.

Seeing her mother who was much thinner, Helena ran over excitedly, embracing her and she was in pain.

The Charismatic Charlie Wade Chapter 3616

Seeing this, the queen sighed and asked Charlie respectfully: "MR. Wade, do these people who have just been arrested do the same with Olivia?"

"Yes." Charlie nodded, and said lightly: "First shut in the wine cellar, and in a few days, with their master, set off for Madagascar."

After speaking, Charlie urged the queen again: "Before they set off for Madagascar, they must seize the opportunity to get rid of Olivia's other undetained men from Olivia and her men. This way, In order to ensure the safety of the royal family in the future."

The queen respectfully said: "Thank you, MR. Wade, for reminding me that I will let the Royal Guard check it out every step of the way!"

"Yeah." Charlie nodded, looked at the time again, and said: "It's too early. You'd better announce to the outside world as soon as possible. On the one hand, you can make the crimes of Olivia and others public. , On the other hand, we must also announce that Helena will be re-designated as the heir to the throne, and at the same time, the time of your abdication should be announced.

The queen said without hesitation: "MR. Wade, don't worry, I will record a video later and officially announce it through the Nordic news media and various platforms on the Internet!"

Speaking of this, the queen said: "By the way, MR. Wade, the crowning of the new emperor, according to Nordic regulations, must be held by the archbishop in the church. Due to the complicated process of the ceremony, it takes at least two or three days to prepare, so the most I'm afraid it will take three days to abdicate soon..."

Charlie nodded, and said lightly: "Then fix it in three days!"

After half an hour.

When the people of Northern Europe were ready to fall asleep, all the mainstream media in Northern Europe temporarily interrupted an important piece of news.

The news broadcast was the video recorded by the Queen in the palace just now.

The empress in the video has improved her complexion and condition a lot, and she has also changed into her exclusive costume.

At the beginning of the video, the queen personally told about the causes and consequences of her murder by Olivia and the William family, including Olivia and the William family tonight, trying to kill the queen, only Charlie Omit it.

When the video played here, all the people in front of the TV and mobile phone screens were extremely angry.

Because they didn't expect that Princess Olivia, the original heir to the throne, who looked dignified and majestic, would be so rebellious!

Immediately afterwards, the queen publicly announced in the video that she would permanently abolish Olivia's identity as the heir to the throne and expel her family from the royal family.

In addition, the queen also solemnly announced that the heir to the throne of the Nordic Kingdom has now changed from Olivia to the eldest princess Helena.

At the same time, the queen also announced that she will officially abdicate in three days. At that time, her abdication ceremony and the coronation ceremony of the new emperor Helena will be held in the largest church in the Nordic capital!

Since then, all the dust has settled in the Nordic Kingdom!

The Charismatic Charlie Wade Chapter 3617

When the queen officially announced that she would pass the throne to Helena, Charlie had already thought of returning.

His purpose in coming to Northern Europe this time is to support Helena on the throne. Now this purpose has been successfully achieved. In addition to this, he will receive an extra 5 billion euros in cash, which can be said to be far beyond original expectations.

Therefore, he felt that he had no need to continue to stay in Northern Europe at this moment, so he might as well return to China overnight.

However, at this time, Helena was with her mother in the infirmary, because when the mother and daughter met, Helena's mother was a little too emotional, and she cried several times until she lost control of her emotions, and the royal doctor immediately took her. Taken to the medical room for a detailed examination.

After examination, the doctor confirmed the physical condition of Helena's mother. In addition to malnutrition, there was also a severe neurasthenia.

According to doctors, the main cause of neurasthenia is the panic and fear these days.

Helena's mother had always been worried about Helena's situation, but after she was imprisoned by Olivia, she also worried that she would never have the opportunity to meet her daughter in the future, so she was mentally tortured.

After Charlie decided to leave, he said to the Queen: "Since the matter has been resolved, I will not stay in Northern Europe. I also ask the Queen to take care of the two families of William and Olivia. I will arrange someone to come to Northern Europe tomorrow. Pick them up."

The queen hurriedly said: "MR. Wade, it's already late at night. You might as well take a rest in the palace first. It's not too late to leave tomorrow."

Charlie waved his hand and said, "I can take a short rest on the way back. I won't stay here to waste time. Huaxia still has a lot of things waiting for me to deal with."

The queen said with regret: "MR. Wade, in fact, I want to keep you in the palace for a few more days and participate in Helena's coronation ceremony. I believe she will definitely look forward to your being able to witness her ascend to the throne... "

Charlie smiled slightly and said: "I am an outsider not participating in the coronation ceremony of your royal family. Moreover, as an Asian face, if I appear at the coronation ceremony of the royal family in Northern Europe, it will lead to speculation. I hope in the future. If we can cooperate more with the royal family in business, if the Nordic people find out the clues in advance, there will be many negative comments by then, will it not be a waste of trouble."

Seeing Charlie's decision, the queen said respectfully: "Since MR. Wade has already decided, then I can't force it. I will arrange the royal motorcade to escort MR. Wade to the airport."

Charlie nodded and said, "Then I will trouble you."

The queen hurriedly greeted the person in charge of the Royal Guard, and said: "Hurry up and get the team ready, and also notify Princess Helena, saying that MR. Wade is leaving, let her see him off soon."

Charlie didn't want to disturb Helena's reunion with her mother, but he was leaving after all. It would be unkind if he didn't say hello in person, so he didn't say much.

Soon, Helena walked in with a pale woman. When she saw Charlie, she said anxiously: "MR. Wade... why are you leaving so soon? You just landed. It's only a few hours in Northern Europe, so let's at least take a break before leaving..."

Charlie smiled slightly and said, "You've seen everything about Yeling Mountain with your own eyes, and there are many things waiting for me to finish."

When Helena thought of Yeling Mountain at this moment, not only was kneeling in the Wanlong Hall nearly a hundred soldiers and the immediate relatives of the Wade Family, but even those branches of the Wade Family might have rushed back. If you want to come these things, Charlie must go back to take charge. The big picture.

Thinking of this, even though she was reluctant to give up, she could only say softly: "MR. Wade has a lot of affairs, so Helena won't keep him..."

After all, she hurriedly held the woman next to her and said to Charlie: "MR. Wade, my mother is very grateful to you. I heard that you are leaving, so I have to come and thank you in person..."

The Charismatic Charlie Wade Chapter 3618

At this time, the woman next to Helena bowed to Charlie respectfully, and said gratefully: "MR. Wade, thank you for your life-saving grace to me and Helena and his daughter... and thank you too. You gave Helena a chance to inherit the master..."

Although Helena's throne was given by the empress, in the eyes of Helena and her daughter, the throne was actually given by Charlie.

If it weren't for Charlie, even if the queen was not on the verge of death, she would not be able to hand over the throne to Helena.

When the queen heard this, although she felt a little dissatisfied, she was also very clear at this moment that she was about to surrender all power. From now on, her goal in life is not to pursue the consolidation of imperial power or the majesty of the queen, but Real pursuits live a few more years.

Therefore, she quickly put her dissatisfaction behind her mind, and only Charlie's magical oriental secret medicine was in her mind.

Charlie had no courtesy at this time. Although he hadn't said it, he really needed to remember in Helena's heart that he gave Helena the throne.

Therefore, Charlie said to Helena's mother: "Ms. Iliad is welcome to help Helena inherit the ruling. It is my promise to Helena, and I have to fulfill it with all my strength."

Helena said at this time: "MR. Wade, do you have time to attend the coronation ceremony three days later?"

Charlie smiled and said: "I have already told the queen about this. I don't want to be too high-profile, so I will not attend your coronation ceremony."

With that said, Charlie took out the quarter of the rejuvenation pill and handed it to Helena in front of the queen, and said with a smile: "This part of the rejuvenation pill is my gift to you. Congratulations in advance. Inherit the master."

Seeing Charlie's one-quarter rejuvenation pill, the queen's eyeballs had sunk in and couldn't be pulled out.

She has just personally experienced the magic of this pill, so she can't wait to take another part to further improve her physical condition.

However, she didn't expect that Charlie would give this medicine to Helena.

However, she could not help feeling a little excited, because if this medicine was in Charlie's hands, if Charlie didn't nod her head, she would not be able to get 10,000 pills, but if this medicine was in Helena's hands, it might be possible to get it by herself. Naturally, there is a lot more .

Helena was also a little puzzled at this time. She thought to herself: "Why did MR. Wade give me this quarter-a-pill? Right now I have almost no foundation in the royal family, besides my mother, there is someone who can be trusted. There are no people. If this medicine is given to me, I'm afraid I won't be able to hold it at all... What should I do if my grandma gets crooked..."

Just when Helena was at a loss, Charlie said with a smile: "Ms. Iliad's physical condition is indeed very poor. I think she should be less than fifty years old, her hair is half white, and her mental state is It is also much worse than people of the same age. If you rely on slow recovery, I am afraid that it will be difficult to recover for a year or a half."

"And you, you will be officially crowned the queen in three days. At the coronation ceremony, if your mother's state is too bad, it will also arouse suspicion from the outside world."

"So, this part of the rejuvenation pills, let your mother use it for body conditioning!"

The Charismatic Charlie Wade Chapter 3619

The empress who had already started to fight for this revival pill, heard Charlie's words, her whole body was shocked in an instant, and a strong sense of disappointment surged in her heart.

She didn't expect that even though Charlie gave Helena Rejuvenation Pill, he directly appointed her to give the Rejuvenation Pill to her mother.

In this case, I am afraid that there is no fate between myself and this part of the rejuvenation pills.

Charlie naturally saw the empress's emotional change in his eyes.

The reason why he made a fake shot was to see if the queen coveted this part of the rejuvenation pills, and if so, remind the queen by the way.

He wanted to let the queen know that the rejuvenation pill would only be taken out for the sake of Helena's face

Therefore, if she wants to continue to get the Rejuvenation Pill, she must honestly transfer the power, and must not be smart enough to leave behind.

Otherwise, if the old lady changes her mind temporarily, or after Helena becomes the throne, she is still unwilling to release her power and take Helena completely empty, even if Helena becomes a queen, she is just a puppet.

I took a hard time and helped Helena to the throne in order to let Helena control the real power of the royal family and use the influence of the royal family to help her expand her business in Europe.

If Helena is emptied by the current queen, then even in this position, she will not be able to play any substantial role.

In addition to using this part of the Rejuvenation Pill to remind the current queen, Charlie also wanted to make Helena more grateful to herself.

He not only cured her disease, but also saved her mother. He even helped her clear the obstacles and inherit the position of queen. In addition, he even took out precious rejuvenation pills to help her mother regulate her body. .

So much kindness is placed here, I believe Helena will keep it in her heart in the future.

And Charlie did not guess Helena's heart wrong, at this moment, her gratitude to Charlie could no longer be described in words.

There was only one thing in her mind at this time, and that was to do her best to repay Charlie's kindness to her.

She didn't hesitate to make her feel bad.

Helena, who was extremely touched, stared at Charlie with a pair of blue eyes unblinking, and said in a choked voice: "MR. Wade...you are so kind to me as a mountain. In this life, Helena will always Respect you!"

Charlie nodded slightly and smiled indifferently: "Give the medicine to your mother."

"Okay!" Helena wiped away her tears and immediately put the quarter of a rejuvenating pill into her mother's hands. , Said excitedly: "Mom, you are about to take this medicine. This medicine is a magical medicine brought by MR. Wade. Grandma's deep coma is based on it to wake up!"

Helena's mother said in disbelief and blurted out asked her: "? it really that magical medicine"

Helena nodded, extremely excited, said: "!! I have seen, this drug really amazing to know you quickly eat"

Queen of heart at the moment all Bleeding.

She even prayed deep in her heart, praying that Helena's mother would not eat this part of the rejuvenating pill, so that after Charlie left, she could find a way to get this part of the pill.

But at this moment, Helena's mother took the rejuvenating pill and put the pill in her mouth without hesitation!

At this moment, the empress immediately became extremely disappointed.

As for Helena's mother, a huge change visible to the naked eye immediately took place at this time!

The first is her complexion, which quickly changed from the original paleness and weakness to a full-spirited, ruddy luster.

The second is that half of her white hair turned into shiny brown hair again at a speed visible to the naked eye.

What's even more incredible is that even some of the wrinkles on the corners of her eyes and face quickly faded in a short time, and even a large part of the wrinkles disappeared directly!

The Charismatic Charlie Wade Chapter 3620

The queen was stunned to see it!

She really did not expect that Charlie's Rejuvenation Pill could not only save lives, but could even bring a person back to youth!

Seeing Helena's mother seemed to be more than a dozen years younger, she was extremely envious.

In fact, a quarter of a rejuvenation pill is far from such a powerful effect, but Helena's mother has indeed had a very difficult time recently, so the whole person has some signs of rapid aging, and she is less than five in her forties. A ten-year-old person looks as if he is almost sixty years old.

And this quarter of a rejuvenation pill made her a few years younger on this basis after returning to the state that her actual age should have, so it seemed to be a teenager directly younger.

Although Helena's mother did not have a mirror, she immediately felt the tremendous changes in her body. She said with great joy: "This...this medicine is really amazing...I feel that the body has not only gained After a complete recovery, it is even better than the state it was a few years ago..."

Helena also witnessed the tremendous changes in her mother with her own eyes . She was moved to tears and cried, "Mom... You have suffered these years..."

Helena's mother chuckled and said: "Don't talk about it, isn't it all suffering now?"

Helena turned from a side table with a century of history, He took off an extremely exquisite mirror, ran back and held it in front of her mother, and said excitedly: "Mom, look at it! You are not only recovered from your body, but you are also much younger!"

Helena's mother looked awkward. I looked at myself in the mirror with confidence, and then I couldn't help but shed two lines of tears.

Since the death of her husband, she has been worrying about her daughter's body every day. At the same time, she has to face various exclusions from the royal family. The psychological pressure is extremely high, so she has no energy to dress up or protect like other ladies. Because of her own skin condition, she is aging at a speed visible to the naked eye almost every day.

In the past two years, she didn't even dare to look in the mirror, because every day she felt that she in the mirror was getting older again, and she already had the face of an old woman.

But she didn't expect that in such a short period of time, she looked like she was in her early forties. Her hair, skin, and the complexion of her whole person had all been greatly improved, as if sitting on time. The machine, quickly returned to the general a few years ago!

For a woman, looks and temperament are so important, so she subconsciously looked at Charlie, her legs kneeled on the ground involuntarily, and gratefully said: "MR. Wade, thank you for giving me a new life...! Thank you. ! "

Charlie lightly:" you're too serious, but just little things, not so exaggerated. "

Helena's mother, choking back tears and said:" you may not know it all for a woman, meaning just how important To some extent, this makes me more grateful than saving my life..."

The empress on the side was envious, and at the same time, thinking of Charlie's previous promise to herself, she thought to herself. "Charlie said that he will give me a part of the rejuvenating pills in two years, but this part of the rejuvenating pills has been eaten by Helena's mother. I don't know if Charlie has any extra rejuvenating pills in his hands... If it doesn't go anymore, wouldn't my wish be frustrated?"

Thinking of this, she mustered up the courage and asked Charlie respectfully: "MR. Wade...you said before that I will go in two years' time. ? you look, I do not know when you do that there is rejuvenation Dan "

Charlie eyebrow smile, he pulled out a dark immortality from his pocket, casually laughed:"! Well, you see, "

Queen of the look, The whole person was dumbfounded!

I saw that there were nearly ten pills in Charlie's hand!

However, she didn't know that half of it was Rejuvenation Pill and half was Peiyuan Pill.

To someone like her, these medicines didn't seem to be much different.

Therefore, she directly regarded these pills as rejuvenating pills.

Seeing that Charlie had so many Rejuvenation Pills, she was naturally excited, and if she could, she could not wait to rush to grab one from Charlie's hand and eat it.

But she also knew that she didn't have this kind of strength at all, even if the entire imperial family was counted, she was just a drop in the bucket in front of Charlie.

Therefore, whether you can get this Rejuvenation Pill depends entirely on Charlie's mood.

Thinking of this, she didn't care to be euphemistic, and said directly and respectfully: "MR. Wade, please rest assured, I will definitely go all out to help Helena take power!"

The Charismatic Charlie Wade Chapter 3621

Seeing that the empress had even left behind even basic euphemisms now, Charlie knew that she had been completely grasped by the rejuvenation pills.

With the previous near-death experience, Rejuvenation Pill will definitely become her only pursuit for the rest of her life.

Therefore, Charlie doesn't have to worry anymore, she will think carefully about Helena.

When the throne is handed over in three days, she will definitely help Helena to take power as she said.

Therefore, Charlie said to the queen and Helena: "If the Rothschild family comes to your dignitaries, or if they ask you to mediate terms, you must not easily inform them of the whereabouts of the William family and contact me in time."

The queen immediately stated: "MR. Wade can rest assured, if the Rothschild family finds it, I will directly use public opinion to suppress them. The people in their family intend to murder me. The evidence is solid. Once exposed, the impact on the Rothschild family will be affirmed. Very big!"

After speaking, she said again: "In fact, the core family of Rothschild values the reputation of the family very much.

In the early years, they did a lot of evil in the financial market. In several wars, they have been making a fortune. As for their poor reputation in European and American countries, since World War II, the core family of Rothschild has been actively restoring the reputation of the family.

The third step family like William committed such a big thing, the core family is definitely not. Will protect them."

"Okay." Charlie nodded, and said with a playful smile: "I'm not afraid of them coming, but I'm afraid they won't find it."

After speaking, Charlie said: "If they are willing to find someone, then they will disclose some information through other channels to let them know that the William's family may be in Syria. In this way, if they can still go to Syria to find someone. Even better, Rothschild has nothing to do in such a place outside the law. If you go there, there is almost no chance of winning besides giving away the head."

Although the Rothschild family is very strong, it is in the Western and peaceful world after all. When they arrived in Syria, the Rothschilds simply couldn't make any waves.

After all, in places like the Middle East, even the US military has nothing to do, let alone a Rothschild.

Hunter (Hamid)'s base is now solid, and even the Ten Thousand Dragon Palace cannot be defeated, and Rothschild has no chance.

This is also the fundamental reason why he wants to send the William family to Syria, with Hunter (Hamid) guarding, absolutely no problem.

When the queen heard Charlie's words, she was shocked.

"I originally thought that Charlie might also be worried that the Rothschild family would come over..."

"But now, how do I feel that things seem to be completely opposite to what I imagined?"

"Charlie looks like he is expecting the Rothschild family to find him, and even gives me the feeling that the William family is like a bait he throws to Syria to lure the Rothschild family..."

Thinking of this, the empress was also very surprised. She really didn't understand why Charlie wanted to attack the Rothschild family?

Before the queen could understand, Charlie said: "The time is almost up, I should go."

After that, he looked at Helena and said lightly: "Helena, I wish you in advance to inherit the ruling and become the new queen of the Nordic Kingdom, and I hope you can carry forward the Nordic royal family."

Helena nodded gratefully and said, "Thank you, MR. Wade..."

After speaking, she hurriedly said: "MR. Wade, if you don't dislike it, please let me take you to the airport!"

After speaking, she looked at Charlie expectantly, for fear that Charlie would refuse.

Because she knew very well in her heart that once Charlie left today, it would not be so easy to see him in the future.

Because, three days later, she will inherit the Datong. By then, she will be the queen of the Nordic Kingdom and the highest leader in name in Northern Europe. At that time, wherever she goes, she represents the royal family, and she hardly owns any private individuals anymore. space.

In the country, we must visit everywhere for condolences and increase the support and support of the people to the royal family;

In foreign countries, empresses basically make state visits to a country at the diplomatic level.

The Charismatic Charlie Wade Chapter 3622

Even if you just want to visit and visit Charlie in Huaxia, it is absolutely impossible, because as a queen, as long as she decides to leave the country, the Nordic government will definitely inform the destination country, and the corresponding bodyguards, assistants, and housekeepers must also be Will accompany.

At that time, if Charlie didn't see her, she might not have the chance to see Charlie in her life.

Therefore, Charlie's journey to the airport may be the last time he and himself get along.

Seeing that Helena had said so, Charlie was naturally not easy to refuse, so he smiled and said, "I'm serious, if you want to, you can run with me hard."

Helena breathed a sigh of relief, and said excitedly like a girl: "Thank you, MR. Wade!"

The queen saw Helena's performance in her eyes, and she already understood Helena's thoughts in her heart, and thought to herself: "Helena should have been moved by this Charlie... and even if she just wants to send her off, she will have to be humbled. I beg...Look at her like this, she should like Charlie very much..."

Thinking of this, the queen couldn't help feeling a little regretful in her heart.

This is because she knew very well in her heart that Helena's feelings for Charlie were destined to have no results.

In fact, out of the desire for Rejuvenation Pill, she hoped that Helena and Charlie could get together.

In this way, Charlie is his grandson-in-law, and with this level of relationship, the chance of getting a rejuvenation pill is naturally greater.

However, she is also very clear about Helena's future life trajectory.

After she inherits the throne in the future, her future destiny is already doomed.

Because according to Nordic traditions and the wishes of the people, her future partner can only be members of royal families in other European countries or members of top European families.

Moreover, the ancestry of the other party must be an out-and-out white, and must not be of other ethnicities.

This is not to mention racial discrimination. The main reason is that every country has its own nationalism and wants to maintain the pure blood of its own country.

After all, after her inheritance, her children will be the future Nordic princes. If her children are Eurasian, it means that the royal family will have half the blood.

Therefore, the people cannot accept it anyway.

Just like Japan, which also has the emperor, it is impossible to allow the emperor to marry a European woman and give birth to a Japanese-European child as the prince.

Therefore, the Queen knew very well in her heart that Helena and Charlie were absolutely impossible in the future.

In fact, in Helena's heart, he was also clear about these conditions.

Although the time she was in contact with Charlie was very warm, the impact Charlie brought to her was too great.

Charlie didn't just save her and her mother's life simply, but more importantly, he let Helena see how powerful a man can be.

Therefore, she is like the girl in a martial arts novel, the first time she saw the heroine of the world, only a few moments, she was captured by the unmatched aura of the other party.

If possible, she was even willing to give up the position of empress for Charlie.

After all, my mother is safe now, she can not be the queen at all, and she can even leave the royal family and move to China to live in China.

However, she also knew that Charlie had already had a family in Aurous Hill, and there were many confidantes. In Charlie's heart, she was probably just an insignificant passer-by. Even if

she was willing to give up the throne for him, he might not be willing to give up the throne for him. Stay by yourself...

The Charismatic Charlie Wade Chapter 3623

The fleet of the Nordic royal family galloped on the highway late at night.

The Concorde airliner is ready to take off, and it can take off as soon as Charlie arrives at the airport.

At this time, it is one o'clock in the morning in Northern European time, and seven o'clock in the morning in Eastcliff time.

If it goes well, Charlie will arrive in Eastcliff at noon, and after landing, he will go to Yeling Mountain as soon as possible to deal with the Wade Family collateral members who fled.

In the car, Helena was sitting beside Charlie.

At this time, Helena was entangled with several people deep in her heart. She sometimes looked at Charlie, sometimes at the Nordic night outside the window, sometimes her lips were lightly pressed, and sometimes she couldn't help biting her lower lip with her white teeth.

After hesitating again and again, she finally spoke softly: "MR. Wade, in fact, Northern Europe is too small compared to China, the population is not even more than one-third of the city of Eastcliff..."

Charlie smiled and said, "Small is a little too small, but it will soon become your king. You are still very young. You will have at least fifty years of reign in the future. Fifty years, you can do too much. There are more, it's still worth looking forward to."

Helena gave a wry smile, and said seriously: "MR. Wade, to tell you, in fact... Actually, I have no interest in the throne..."

After that, she looked at Charlie and said with red eyes: "MR. Wade, in fact, my greatest hope is not to inherit the throne, but to give my mother a stable life. You exiled Olivia overseas, mother's Safety is already guaranteed, and it doesn't matter to me whether I can be a queen..."

Charlie asked her slightly in surprise, "I will inherit the Datong in three days. Why do you suddenly retreat at this time?"

Helena pursed her mouth and paused awkwardly for a long time. Then she bit her head and said: "MR. Wade, I think I may not be up to the role of the queen. To be a queen, there are too many sacrifices and compromises. There are too many, and... ..And I'm not Olivia's kind of person who can be cruel..."

Charlie thought Helena was simply nervous, so he comforted her: "Being a queen is naturally not so easy, but it is not as difficult as you think. After all, for Northern Europe, your symbolic meaning is far greater than actual rule, and it is not so. You need to make more decisions. Even if you do not do so well, it will not affect the actual development of Northern Europe. So you only need to keep the people's love for you, and the queen has passed."

Helena whispered: "Actually... Actually I think... Since grandma is obedient to you now, you can let her be the queen for a few more years. In this case, I can also have more preparation time..."

Charlie looked at her and said, "Helena, if you want to truly have your own life, right now is an opportunity you must seize. You can't adapt to it temporarily, but it's just a transition. If you can't even deal with this transition, then when you encounter another enemy like Olivia in the future, how should you deal with it?"

Helena was speechless for a moment.

The reason why she retreated at this time was because the team was getting closer and closer to the airport, and the separation between her and Charlie was getting closer and closer.

The more this happened, the more clearly she could be sure that she didn't want to say goodbye to Charlie.

She didn't want the intersection of life and Charlie to end here.

It's like two intersecting straight lines, except that there has been an intersection at the only intersection, and then they ran away and went farther and farther.

She wants the straight line of her destiny to change direction at the intersection point where she meets Charlie. It is best to start from this point and wind the straight line of Charlie tightly so that Charlie's future life will be Have one's own company.

However, this kind of remark kept stuck in her throat, and she wanted to say it several times, but she forced it back again.

It's not that she didn't dare to confess to Charlie, but she was afraid of being rejected by Charlie.

If we keep this suspense, there is at least a glimmer of hope to look forward to in the future.

Charlie didn't know the real reason for her withdrawal.

He looked at Helena and said with feelings: "Actually, I was the same as you now more than a year ago. I was at the lowest point in my life. At that time, the Wade Family suddenly came to me and asked Give me a group with a market value of hundreds of billions and at the same time give me 10 billion in cash. At that time, I also flinched..."

Helena nodded softly and said softly: "I heard Jon Wade talk about it. He gets angry every time he mentions this..."

The Charismatic Charlie Wade Chapter 3624

"Yes..." Charlie smiled lightly: "He must be very angry, otherwise he wouldn't be hostile to me."

Helena looked at Charlie and asked, "MR. Wade, how did you convince yourself to accept these gifts from the Wade Family?"

Charlie laughed at himself: "I was penniless at the time. The savior was waiting for money to cure the illness. My wife has been humiliated by others in the family. Even if I have the ambition of a poor boy, reality does not allow me to refuse."

After speaking, Charlie sighed and said with emotion: "I thought, even if it's not for myself, even if it's for savior and wife, I will accept the gift from the Wade Family. Therefore, I took over the group. , And used the Wade Family's 10 billion cash to pay the medical expenses to the life-saver, and then step by step to today, and I can have it today, thanks to the original gift of the Wade Family."

Helena said seriously: "MR. Wade, the Wade Family only gave you a group and 10 billion in cash, but your current strength is far beyond the ability of this asset. So I think, whether you have the Wade Family or not, You can succeed with this gift!"

"It's not necessarily." Charlie shook his head and said solemnly: "Helena, destiny is sometimes very magical and subtle. Although I can't see how destiny exists, then I I feel that the fate of everyone in this world is inextricably linked, and it is the so-called one that moves the whole body..."

After speaking, Charlie said again: "Have you ever thought about it, your usual trivial decision might change yourself or other people's lives subtly?"

Helena said blankly: "MR. Wade, I don't know much about fate and fate..."

Charlie said calmly: "If you see a person crossing the road and being hit and killed by a taxi, you can try to push the life trajectory of the person who was hit to death and the driver who caused the accident forward for ten seconds or ten minutes. Ten hours, or ten days."

Helena asked puzzledly: "MR. Wade, what does it mean to push the trajectory of life forward?"

Charlie said calmly: "That's what they were doing before the incident."

After a pause, Charlie said again: "It is possible that ten seconds before the accident, you passed by the roadside. The driver was attracted by your beauty, so he was distracted and caused the accident."

"It's also possible that ten minutes ago, you took a taxi with another person, and the driver chose to park in front of you because he saw you look more beautiful, and after you got in the car, let him drive the car to the place where the incident occurred. Nearby, so he had that car accident."

"It's also possible that ten hours ago, you uploaded a video of yours on the short video platform. This pedestrian's friend saw it and forwarded the video to him. After watching it, he thought you were very beautiful, so he thought I have been thinking about you, even when crossing the road, I was still thinking about your short video, which caused him to be distracted and killed by a car."

Speaking of this, Charlie shrugged and said: "This is the fate I said, but the actual situation may be far more complicated than what I said. Maybe I can afford to buy a BMW for my wife. If I didn't buy that car, my father-in-law would not take that car. If he didn't take that car, neither would he. Let me be his driver, let me drive him to see an expensive antique vase..."

Speaking of this, Charlie shook his head and smiled, naturally omitting the incident of getting the "Nine Profound Heavenly Scriptures" by chance in Jiqingtang, and continued: "Without these, you and me would never have any intersection in this life, moreover. It is impossible to sit in the same car at this moment."

In his opinion, fate is so magical.

Everything affects each other in the dark, and no one knows how one of their decisions will affect their own future.

Helena naturally did not understand the relationship behind Charlie's words.

She said blankly: "MR. Wade, I don't understand why you want to associate your destiny with a BMW car or even an antique vase..."

Charlie smiled slightly: "You just need to know that if we didn't have the BMW car, if we didn't have the antique vase, we wouldn't know each other in this life."

Helena was confused, but looked at Charlie a little embarrassed, and plucked up the courage to ask him: "MR. Wade, the three analogies you just made, each of them seems to have caused the car accident because of my appearance... ...Do you really think I am beautiful?"

Charlie didn't think much, and said casually: "It's very beautiful, no matter from the aesthetics of Westerners or the aesthetics of Easterners, you should be considered very beautiful."

Helena turned to her side and stared at Charlie closely, her big eyes wafting in the night, she mustered up the courage to ask him softly: "MR. Wade... if you really think I'm beautiful, then you... ...Willing...kiss me?"

The Charismatic Charlie Wade Chapter 3625

Charlie was surprised by Helena's question.

He didn't understand why he was sincerely talking about fate with Helena, but Helena suddenly made such an absurd request.

He subconsciously asked: "This...the topics we talked about don't seem to be next to each other, right?"

Helena blinked slyly, then suddenly leaned forward, and kissed her red lips tightly on Charlie's mouth.

Immediately afterwards, Helena bit her lower lip with her teeth and said shamelessly: "If Charlie didn't have that BMW car and that antique vase, we would never know each other, and I would not be saved by you, and I would not be here. Falling in love with you in such a short time, let alone the previous kiss, and my first kiss will not be taken away by you, so you are right, MR. Wade, destiny is really miraculous, I understand!"

Charlie was speechless at once.

Unexpectedly, Helena would use the logic of fate she said to get herself in.

He didn't dare to miss the sweetness of the lips, shook his head helplessly, and said, "Although your behavior is not appropriate, you have to admit that your basic logic is correct."

Helena avoided his eyes, smiled shyly, and said: "It seems I want to thank BMW. If it weren't for it, I might never have the chance to meet my sweetheart in my life."

Charlie said helplessly: "I'm already married."

Helena nodded: "I know, so what?"

Charlie sighed and said, "So you don't need to put any feelings in me. We have only met for two or three days. You are most likely to appreciate my help, but you may not really like it."

"No." Helena said firmly: "I know myself, I know I really like it, and it's by no means being dazzled by gratitude."

Charlie smiled indifferently: "How can feelings be cultivated in a day or two? Maybe after a few days you come back to your senses and realize that you are just impulsive."

"No!" Helena denied again: "People you don't like will never be liked for the rest of your life, and people you like, sometimes you only need to look back once. You use "Romeo and Juliet" to tease Olivia. , But you should know that "Romeo and Juliet" was also in love at first sight. The two went from meeting, falling in love, getting married, to Romeo's escape and Juliet's suspended animation. The last two died in love. It took only five days."

After that, she looked at Charlie and blushed and said: "If we are the same as "Romeo and Juliet", then we have known each other for three days and we should be married now."

Charlie coughed awkwardly and said: "That is drama after all, not reality."

Helena stubbornly said: "The drama can be regarded as a classic for hundreds of years, it proves that it comes from life and is higher than life. Otherwise, how can people regard it as a classic?"

After speaking, Helena said again: "There is also the modern classic movie "Titanic"! The ship departed from England on April 10 and hit an iceberg on April 14. But it was just five days, Jack I met Rose and fell in love again. If we were the same as them, we should have had the first intimate contact in the car by now!"

Charlie didn't expect that Helena would suddenly become a little aggressive in order to refute his words.

He could only reluctantly switch the topic away: "Look, "Romeo and Juliet" is five days in total, and "Titanic" is also five days. This should be a convention of Western playwrights and should not be true."

Helena looked at Charlie and said seriously: "I don't know if these two stories are true, but I know that the story of how I fell in love with you in just a few days is true."

The Charismatic Charlie Wade Chapter 3626

With that, Helena asked Charlie again: "MR. Wade, yesterday in Yeling Mountain, with so many confidantes of yours, you have to go to Yeling Mountain to help you regardless of the danger of your life. Did they love you after a long time? Did you fall in love with you? Isn't anyone like me who fell in love with you in just a few days?"

Charlie was speechless.

Among his confidantes, apart from Stefanie Sun (Gu Qiuyi) who had known each other since childhood, the other, Jasmine (Song Wanting), who had known him the longest, was actually only more than a year old.

The time to get to know Ito Nanako, Zara banks (Su Zhiyu), and Xion (su roli) is actually shorter.

Seeing Charlie's silence, Helena said emotionally: "MR. Wade, the reason why I retreat is not really afraid of being a queen. I'm just afraid that after becoming a queen, I won't have the opportunity to meet you again... Instead of this, I would rather Instead of being the queen, I'd rather take my mother to live in China, so that I can at least be closer to you!"

Charlie put away his previous Tai Chi attitude, looked at Helena, and said seriously: "A person has many lofty goals in his life, and feelings are only one of them at best. You should put more energy on how to revitalize the Nordic royal family. Just like my biggest goal now is to no longer spend my little life with my wife, but to inherit my father's legacy and carry forward the wade family."

After speaking, Charlie asked her: "If I'm not wrong, when your father is alive, you should hope you can inherit Datong, right?"

As soon as Charlie said this, Helena broke her defenses mentally, and tears suddenly rolled down.

She thought of her ill-fated father.

In order to allow himself to inherit the rule and achieve the highest goal of a member of the royal family, he did not hesitate to hide his congenital diseases for twenty years.

In his opinion, even if he can be a queen for one day, his life is fulfilled.

But now, he is only three days away from the perfection in his mind.

Thinking of this, she finally understood that Charlie in front of her had long no longer put her children's love in the first place.

Ashamed and disappointed were caught in it, making Helena burst into tears.

She looked at Charlie, crying, and nodded and said: "MR. Wade, I understand... Don't worry, I will definitely inherit my father's will and carry forward the royal family..."

Charlie nodded and said, "Helena, you just said that I have so many confidantes, but fundamentally speaking, each of them is different from me, but you and me are the same. "

After speaking, Charlie said with a serious expression: "We have all been pampered in a big family, but then we have suffered a lot of hardships that ordinary people have not eaten; we have all been blessed by our parents, and at the same time watched them hate. In the end; and now, we all carry the banner left by our father, ready to rush to the position that father failed to rush before..."

When Charlie said this, he paused slightly, looked at Helena, and said seriously: "The only difference between the two of us is that I am ready to charge. As the saying goes, although there are tens of millions of people, I will go! No matter you Who and how many people stand in front of me, Charlie, when I carry the banner left by my father, will never take a step back! And you, seem to be still cowering before the battle, whether you should The charge hesitated!"

Helena saw the reluctance in Charlie's eyes, and the same hot flame ignited in her heart.

She wiped away her tears and said loudly to Charlie: "MR. Wade, I have already decided! I want to carry my father's banner like you! Like you said, although there are tens of thousands of people, I will go!"

Charlie nodded with a smile on his face, stretched out his hand to Helena, smiled and said: "Helena, now we are comrades!"

Helena subconsciously stretched out her hand and shook Charlie, then blushed and asked:
"Comrade, what do I like about you?"

The Charismatic Charlie Wade Chapter 3627

“Like what I do?”

Charlie was taken aback for a moment, and said casually: “I will put things aside for now, and it won’t be too late for you to sit down on the throne.”

Helena couldn’t help asking: “Mr. charlie, is it directly related to the throne?”

Charlie nodded and said lightly: “Of course it matters. I don’t like the weak. Even the confidantes you mentioned just now, they are mostly the heads of the big families. Everyone has certain control. Resources and connections, there is still a lot of cooperation between each other.

Helena heard this and immediately understood Charlie’s meaning in her heart, and thought to herself: “Mr. charlie is so strong and has just become the head of the Wade Family. If I don’t sit firmly on the throne, I’m afraid I won’t even have the qualifications to become his friend. ...”

Thinking of this, Helena immediately said unswervingly: “Mr. charlie can rest assured, I will surely take the position of the queen and let the strength of the royal family continue to improve!”

Charlie doesn’t care about the strength of the other party when he makes friends, and even many friends rely on him for help.

The reason for saying this to Helena is that, on the one hand, I want to deal with Helena’s confession first, and on the other hand, I also hope that Helena can go all out to revitalize the Nordic royal family.

As for the love of these children, there is no need to worry too much, at least, there is no need to worry about it now.

So Charlie nodded with satisfaction, and said: "There are ten countries in Europe that have royal families. Except for the British royal family, the presence of others is not strong, especially in regions outside Europe. If you can compare the Nordic The royal family is well known as the British royal family. That influence alone can bring many unexpected benefits to the Northern European royal family."

Helena sighed: "The royal families of other countries are really incomparable with Great Britain. The Queen of Great Britain has been in the digit for ten years and has a strong reputation around the world. Moreover, before Great Britain was strong, she was known as the empire of the sun never set. Before their prince's wedding, they made headlines all over the world. In contrast, the Nordic royal family is far behind."

Charlie smiled and said: "Great Britain is indeed strong, but the royal family has been negative in recent years, and the popularity of the people has also been declining. Trying hard not to say that it can replace them, at least becoming the famous royal family second only to Great Britain, there must be no problem. "

Helena nodded slightly, and said seriously: "I will try my best."

Charlie said again: "After I go back, I will try my best to promote cooperation between the Wade Family and the Nordic countries in various fields, especially the basic livelihood areas that some people are more concerned about. This can also be regarded as your Nordic royal family helping Nordic countries to attract investment. ."

Helena hurriedly asked: "Mr. charlie, if the royal family cooperates with the Wade Family, will we have a chance to meet again?"

Charlie said lightly: "Of course."

Helena said with some worry: "I'm afraid that after I become the throne, I'm afraid I can't go to China casually."

Charlie nodded slightly: "When the time comes, we will wait for the cooperation to proceed smoothly. If time permits, I may come over too."

Although Charlie did not explicitly promise to come, Helena nodded with joy, and said excitedly: "That would be great!"

After speaking, she couldn't help sighing: "Suddenly I feel so happy! In recent years, I haven't had such a happy feeling for a long time..."

Three days later, Helena will become the Iliad Queen of Northern Europe. At that time, she will no longer be able to travel to China in her personal capacity, let alone find Charlie. The only possibility is that Charlie will come to Northern Europe to see her.

At that time, Charlie could still visit the palace as a royal guest like this time.

However, Helena originally thought that Charlie would not come to Northern Europe again. Now that Charlie said that she might come, she was already very satisfied.

At this time, the convoy quickly drove into the airport and came to the hangar where the Concorde was parked.

The Charismatic Charlie Wade Chapter 3628

When the convoy stopped by the plane, Charlie said to Helena: "Okay, just send it here, I'm leaving."

Helena said with a look of dismay: "Mr. charlie, I will see you off when I get off the bus."

Charlie shook his head and said seriously: "You don't need to get out of the car. After all, this is a public place. You will soon ascend to the throne and become the queen. If you are seen by others here at this time, it is not easy to explain after all."

Helena hesitated for a moment, then nodded, her voice a bit choked and exhorted: "Mr. charlie, then take care!"

Charlie smiled slightly and said, "The same is true for you. You have my phone number. If you need help, please call me directly."

Helena said with red eyes, "I see, Mr. charlie, thank you!"

"You are polite." Charlie smiled and nodded, pushed the car door, and strode onto the Concorde.

After boarding the plane, he sat down on the spacious sofa seat in the cabin. Through the porthole, he could see Helena still sitting in the car, looking up at herself.

At this time, Helena's eyes were already full of tears, and she almost couldn't help crying several times.

But when she found that Charlie was also looking at her, she still resisted the urge to cry, quietly wiped away the tears, smiled and waved at Charlie.

Charlie also nodded at him slightly, showing some sympathy for Helena in his heart.

If it weren't for being born in an emperor's house, Helena might not have experienced the tribulations and pains before.

However, Charlie was also very clear in his heart that if you want to wear a crown, you must bear the weight of the truth. Therefore, he can only wish Helena in his heart that he can seize this golden opportunity of a lifetime and become an outstanding queen.

At this time, the flight attendant of the Wade Family crew came to Charlie and said respectfully: "Master, it is ready to take off. Do you think we will launch it now?"

Charlie nodded and said, "Push it out."

"Good young master." The flight attendant bowed respectfully, then turned back to the cockpit and informed the two pilots of Charlie's decision.

Immediately afterwards, the aircraft engine started to start.

At this time, the tractor dragged the front wheels of the aircraft and slowly pulled the aircraft out of the hangar.

Helena's line of sight followed the plane until it exited the hangar and left her line of sight, heading towards the runway.

At this time, Helena's tears finally came to her eyes.

Charlie left, leaving the throne of Northern Europe to her.

But in her heart, she wanted to abandon the Nordic throne for Charlie.

It's a pity that abandoning the throne and getting Charlie is not an equal sign.

Thinking of this, she asked the driver to drive the car out of the hangar, and then drove the car to the end of the runway along the internal road at the edge of the airport.

At this time, Charlie's Concord technology soared from the end of the runway and flew towards the east.

Charlie on the plane did not know that Helena was watching her plane at the end of the runway below.

He was about to take a short break when he received a call from Ito Nanako and said, "Charlie-kun, three billion euros have already been sent to our account."

Charlie asked her, "Do you know who is calling?"

Nanako Ito said: "The funds are transferred from many overseas accounts, at least tens of thousands."

"I understand." Charlie said with a smile: "It is estimated that there will be 2 billion euros in the account tomorrow. At that time, I will deposit 100 million euros in US dollars into your account and invest in Yisu Shipping together!"

The Charismatic Charlie Wade Chapter 3629

When Charlie returned to China in the night of Northern Europe, the members of the Wade Family's collateral branch, who had fallen and scattered before, were carrying a nervous heart, returning to Eastcliff one after another to face the rising sun. Lingshan, ready to take the sin from Wanlong Temple.

Because Wanlongdian announced that they had obtained the roster of the Wade Family Ancestor Ceremony Ceremony and required everyone on the roster to come back, these collateral members could only return to Eastcliff in a desperate manner.

When they ran away overnight, they didn't feel that there was any problem with leaving Eastcliff overnight.

Because in their view, he was just a member of the Wade Family's collateral family, and should not be implicated by the hatred between Wanlongdian and Wade Family.

However, in Charlie's eyes, each of these collateral members depended on the Wade Family's resources to survive and develop, and some even followed the Wade Family's meat for decades.

At this critical moment, not only did this group of people lack the slightest sympathy, but even the basic lip and teeth were indifferent, and they were inferior to strangers.

Since they are ruthless and righteous first, don't blame yourself for being cruel and cruel.

At this time, one of these Wade Family collateral members counted as one, and they were all extremely decadent, like a concubine. They still didn't know what was waiting for them next.

After all, the reputation of the Wanlong Temple is so widespread that no one dares to offend such a top mercenary organization.

The sky of Eastcliff was just overwhelming, and many members of the Wade Family's collateral line had already rushed back to the foot of Yeling Mountain.

However, under Yeling Mountain at this time, there were no people from the Wanlong Temple sitting here, because all the soldiers of the Wanlong Temple were still kneeling on Yeling Mountain and confessing in front of Wade's grave.

At this moment, under Yeling Mountain, were Stephen Thompson and his old comrades, Bruce's former tribe.

Many members of the Wade Family branch arrived at Yeling Mountain. When they saw Stephen Thompson, someone immediately asked, "Stephen, where are the people from Wanlong Palace? Are we going to go up there?"

Stephen Thompson looked disgusted and said in a cold tone: "The Lord Abbas of the Ten Thousand Dragons Palace has already ordered that after you come, you will all kneel at the foot of the mountain and wait!"

The man hurriedly asked, "Stephen, what does it mean that Wanlong Temple wants us back?"

Stephen Thompson said blankly, "I don't know about this. The Lord Pandian meant that you should kneel first, and you will know what you are going to do when he comes."

Another person was very depressed and said, "Stephen Thompson, why did the Wanlong Temple want us to come back? Bruce, who had hatred with them back then, has nothing to do with us. We have no hatred with them. They why didn't even let us go? Is it just because our last name is Wade?"

Stephen Thompson said disdainfully: "Tianxiao Wade, are you thinking about getting rid of the Wade Family? Last month, when you ran to ask the master to give you some new business, you kept saying that you want to follow the master for a lifetime, I've been sharing the worries and solving problems for the master for a lifetime, so how come you say that it has nothing to do with the Wade Family at this time?"

The representative of the Wade Family's sideline named Tianxiao Wade said very dissatisfied: "Stephen Thompson, you are a slave of the Wade Family, what pretend to be with me here? I know, don't you just want to mock me for betraying the Wade Family? Did I betray the Wade Family, what about you? You are standing at the foot of Yeling Mountain, telling us on behalf of the Wanlong Palace, what? You also betrayed the Wade Family and become a slave to the Wanlong Palace?"

Stephen Thompson sneered and said, "Whose slave I am has nothing to do with you, but the most important thing now is that you have to listen to what I say now. If within three seconds, you don't get down on your knees honestly. , Then I will have someone interrupt your dog legs!"

The Charismatic Charlie Wade Chapter 3630

Tianxiao wade scolded angrily: "Grass! Stephen Thompson, what the hell are you pretending to be? You are the most unscrupulous in it. Bruce treated you as kindly as a mountain back then, but you did well, but now you turn your head. Longdian became a dog, and Bruce is now buried on Yeling Mountain. Are you afraid that he knows?"

Stephen Thompson immediately shouted angrily: "Come here, give me a hand!"

As soon as the words fell, the old members of Bruce rushed forward, grabbed Tianxiao wade, and bowed left and right to his face.

Tianxiao wade was furious and scolded: "You...you minions, dare to hit me?"

Stephen Thompson said coldly: "Three seconds is up, give me his leg scraped!"

When many Wade Family members heard this, their expressions suddenly darkened. No one thought that Stephen Thompson would have such courage.

At this time, Stephen Thompson's men had already put Tianxiao wade down on the ground. One of them took a golf club and swung it suddenly. The metal on the head of the club hit Tianxiao wade's right leg directly. On his knees, his knees were smashed to pieces in an instant!

Tianxiao wade wailed in pain, and rolled on the ground in pain, and gritted his teeth and cursed: "Stephen Thompson! I... I must kill you!"

Stephen Thompson said coldly: "From now on, if you say one more sentence, I will let someone smash your other knee!"

As soon as Stephen Thompson said this, Tianxiao wade immediately resisted the intense pain and anger, and held his mouth shut.

The others were also full of horror at this time, and they were basically sure in their hearts that Stephen Thompson must have taken refuge in the Wanlong Temple completely,

otherwise, how could he have the courage to directly put Tianxiao wade, a member of the Wade Family's side, on the legs? Interrupt!

At this moment, Stephen Thompson looked at everyone and warned in a cold voice: "You all listen to me! Everyone must kneel down honestly right away! Otherwise, the end will be the same as Tianxiao wade!"

When the others saw this, they could only kneel to the ground one after another.

And everyone's heart is even more worried, everyone wants to know what the Wanlong Palace is going to do to them.

Immediately afterwards, more and more Wade Family collaterals came in. After they came, they were asked to kneel on the ground just like the other Wade Family collaterals.

By nine o'clock in the morning, more than 700 members of the Wade Family's collateral family had all arrived at Yeling Mountain.

At this time, at the foot of Yeling Mountain, the scene of more than 700 people kneeling together is particularly spectacular.

What they didn't know was that Yeling Mountain was also knelt down.

Since yesterday, Abbas has been kneeling here sincerely, without any distraction.

Seeing that the time to bow down for 24 hours, he did not get up immediately, but asked Stephen Thompson's men next to him: "Mr. , please ask Stephen, Mr. charlie has new instructions for us."

Stephen Thompson's subordinates immediately contacted Stephen Thompson and said to Abbas: "Master hasn't arrived in China, so there are currently no new instructions."

"Okay." Abbas nodded lightly, stood up slowly, and said: "All the soldiers in the Wanlong Palace take orders!"

All the subordinates of Wanlong Palace immediately said respectfully: "Subordinates are here!"

Abbas said firmly with a face: "Everyone, take the list of the ancestor worship ceremony, and immediately follow me down the mountain! According to Mr. Charlie's instructions, the group of people who kneel down on the mountain must willingly give half of the property to the Wanlong Palace! But you have to keep it in mind and don't disclose any information about Mr. Charlie, do you understand?"

Everyone in the Wanlong Palace shouted: "Understand!"

Abbas nodded in satisfaction, and said sharply: "Okay! Down the mountain!"

The Charismatic Charlie Wade Chapter 3631

When Abbas led the soldiers of the Wanlong Temple to stride down from Yeling Mountain, the members of the Wade Family side branch who knelt on the ground were already frightened and frightened.

They didn't know anything about what happened on Yeling Mountain yesterday. They only knew that the Wade Family had bowed their heads to the Wanlong Temple, and they had also given out half of the family property as compensation.

And now, Wanlong Temple has pointed the gun at them.

In their view, the Wanlong Palace is about to start with their property.

At this time, Abbas's expressionless Yi Ma took the lead, followed by nearly a hundred core soldiers of Wanlong Palace.

Every step Abbas approached, the hearts of the members of the Wade Family's collateral branch became more panic and nervous.

Until Abbas stood in front of these people, many people were already shaking with fright.

Abbas looked around at these people for a week, and then asked in a cold voice, "Do you know why you are coming back?"

The crowd bowed their heads nervously, no one dared to answer.

Seeing this, Abbas said again: "The most disgusting thing in my life is the unfaithful and unfilial people! You are all of the Wade Family's blood relatives, but the Wade Family is in trouble. Hold your head and scurry around for a while, are you worthy of the help and support the Wade Family has given you over the years?"

When the Wade Family members heard this, they all looked puzzled.

They really couldn't understand why Abbas was here, asking them why they had betrayed the Wade Family.

Many people secretly thought that the reason why they betrayed the Wade Family was because they didn't want to and did not dare to be an enemy of Abbas. With such a simple truth, wouldn't he understand that Abbas? "

At this moment, Tianxiao, who was interrupted with one leg, said flatly: "The Master of the Pantheon! We are not unfaithful, but we know the reputation of the Pantheon and your Master of Pantheon, and we respect it very much in our hearts. , But who would have thought that the Wade Family would be against you, so we can only choose to stay away..."

Abbas sneered and said, "You are the first one I have ever met to be able to say so arrogantly."

Tianxiao hurriedly said: "Master! I am also afraid of the majesty of you and Wanlongdian, so I don't want to have anything to do with the Wade Family in this matter..."

He said, "Furthermore, Bruce did hurt your parents back then. It is only natural for you to seek justice from the Wade Family in this matter. If we stand with the Wade Family, wouldn't it be with you, Are you an enemy of justice?"

Abbas looked at him and asked with a smile: "According to what you mean, I have to thank you instead."

Tianxiao hurriedly shook his head and said: " Master, you are serious, as long as you don't blame me, I will be very grateful..."

Other members of the Wade Family's collateral family also expressed their agreement. Some people said, "Yes, the master of the Wade Family. It is the Wade Family's own family who has enemies with you. It really has nothing to do with our collaterals. Please treat us. Raise your hands high, don't involve us too..."

Others hurriedly echoed: "Wantian Master! We are just Wade, and have nothing to do with your parents' death. Now you have let the Wade Family succumb, which is regarded as a big vengeance, why bother with us little people? "

Abbas listened to the pleadings of these Wade Family members, and said with a cold expression: "In my eyes, you and the Wade Family are on the same genealogical tree. Naturally, you are a family. Since you are a family, you must be a family member. The Wade Family members are responsible for their mistakes."

As he said, Abbas said coldly: "Don't say I didn't give you a chance. As long as you, like the Wade Family, obediently take out half of your assets, I will not pursue this matter anymore! Otherwise, I will let him The whole family paid a terrible price!"

As soon as Abbas said this, there was a wailing sound on the scene.

Taking out half of the family property, this is even more ruthless !

The skin is only a thin layer, but Abbas is going to split them in half from the middle!

The Charismatic Charlie Wade Chapter 3632

A group of people kept begging, and Tianxiao choked up and said, "Master Wandian, we are just a sideline of the Wade Family. You can't treat us like the Wade Family's family! As far as I know, the Wade Family's family is also However, with half the assets, how can you use the same conditions to ask us..."

Tianxiao's words immediately resonated with others.

They realized that they were ordered to return to Yeling Mountain by the Ten Thousand Dragons Hall today. They were afraid that there would be nothing good, but they did not expect that the Ten Thousand Dragons Hall would have such a big appetite!

Asking them to take out half of their assets is more terrifying to them than killing them.

These collateral families, all of them have developed in their respective fields for decades, and finally managed to save today's wealth, suddenly they have to take out half of them, and no one can accept it.

Seeing the complaints underneath, Abbas immediately said in a cold voice: "I will not talk nonsense with you. I have also seen the genealogy of the Wade Family. Except for the more than 700 people who came to the ancestor worship ceremony this time, every one of you The other descendants of the family are also very clearly recorded in the genealogy. If any family does not cooperate honestly, then don't blame my Wanlongdian for being cruel!"

As soon as these collateral branches of the Wade Family heard this, they fell into deep despair.

They are very clear about the strength of the Wanlong Palace. This kind of top mercenary group with tens of thousands of people, if you really want to engage them, it is simply a piece of cake.

If they don't cooperate obediently, they might die one day.

Moreover, even the Wade Family, whose strength far surpassed them, were obedient, how could they have the confidence to fight to the end?

After all, these collateral families all add up, and the strength is not as good as the Wade Family, and there is a huge difference from the Wanlong Palace.

When Abbas saw that these people were all scared and pale, he knew that they were basically afraid to refuse, so he said aloud: "Next, my subordinates will be in accordance with the roster, and each of you will be specifically connected, if you I don't want to be an enemy of my Wanlong Temple, hurry up to contact my family, and quickly gather the family funds. Later, according to the requirements, half of the assets will be transferred to my Wanlong Temple's overseas account!"

"Cooperate obediently, Wanlongdian and him will be in peace in the future, and those who refuse to obey will be the mortal enemy of Wanlongdian from now on!"

When everyone heard this, they were desperate, but they had basically made a decision to compromise with the Wanlong Temple.

If the money is gone, you can make more money, but if your life is gone, you will have nothing.

Moreover, Wade's family tree is in Abbas's hands. If Abbas is willing, he can completely cut off any branch of them.

Tianxiao pleaded desperately at this time: "The Lord Wandian... the little family business he is under, is saved by a penny, every penny is hard-earned money, please raise your hands high, at least Don't take away so much..."

Abbas nodded, and said coldly: "Since every penny of yours is hard-earned money, of course I can also take no penny."

When Tianxiao heard this, he was so excited that he wanted to thank him, he saw Abbas turned around at this time and told the soldiers beside him: "Find out all the information about this person and his family, no matter what method you use. , Within one year, I want their family to be completely extinct!"

The Charismatic Charlie Wade Chapter 3633

Abbas's sudden harsh words made Tianxiao tremble in shock.

He didn't expect that Abbas would be so cruel that he didn't say a word, he wanted to make his family completely irresistible.

Moreover, he also had no doubt about Abbas's attitude. After all, this person was the lord of the Wanlong Palace. In the presence of so many tribes and the Wade Family, he was definitely not just talking.

What's more, all of his identity information and family member information are all recorded in detail on the Wade Family tree, and he can't run away.

Thinking of this, he suddenly said with horror: "Master, I am willing to cooperate! Give up half of the property! Please be merciful..."

Abbas snorted coldly, and asked: "Why? I am afraid now? Didn't you just say that the assets of your family are all your hard-earned money? I thought you were really stubborn and you wanted to die. Come to defend the family property!"

Tianxiao choked and said: "I was confused just now. Don't worry about it. In fact, money is something outside of your body. No matter how confused you are, this truth is clear..."

Abbas said blankly: "Now that you want to understand, then I will give you another chance. If you actively cooperate and take good care of it, Wanlongdian will no longer pursue it. From now on, the well water will not offend the river, but if you dare to play cautiously with me, watch out for me to turn my face at any time!"

Tianxiao's whole body suddenly shuddered, and quickly said: "Don't worry about the Master..."

Abbas ignored him, but said to everyone: "If you want to be safe, just transfer half of your family's assets to Wanlongdian's overseas accounts. As long as you spend money to eliminate the disaster, I Wanlongdian will also abide by its promise and will not pursue it any more."

At this time, everyone expressed their opinions one after another, expressing their willingness to accept the request of the Wanlong Palace.

As soon as Abbas's conversation turned, he said in a stern tone: "But you don't want to fool me Wanlong Temple! After the payment is collected, we will also arrange professional financial auditors to evaluate each of you's family assets. If it is discovered that someone paid less than half of his assets, he must compensate for the difference three times at that time!"

As soon as these words came out, the faces of every branch of the Wade Family were filled with sorrow.

They originally thought that they could completely conceal the actual situation of their own assets.

However, if according to Abbas's statement, even if one billion is given, after Wanlongdian's auditors have assessed their true asset size and found out that they have given three billion less, they will be required to pay three times the amount. Compensation, in that case, the compensation alone might cost 10 billion!

At this time, Tianxiao said tremblingly: "The master of the pantheon...The net assets of the family are about 8 billion yuan, but the total amount of cash stocks that can be transferred is probably only about 2 billion yuan. How should this situation be handled? Woolen cloth?"

Abbas said coldly: "If this is the case, first convert all the stocks into cash, and then transfer all the 2 billion cash to the designated account of Wanlongdian. After you go back, immediately sell some of the others. Assets, pay the remaining 2 billion in place!"

Tianxiao choked and said: "Master, let's not tell you that, many of our industries are long-term investments. Some projects have been invested for many years and invested a lot of money before they finally start to see returns. If it is sold at this time, it will be no different. Yu slaughtered chickens and got eggs, and the loss to us was very heavy..."

Tianxiao's words resonated with other members of the Wade Family's collateral line.

They are already willing to take out half of their assets at this time, but if it is this way of killing chickens to get eggs, the loss to them will be greater than taking out half of their assets.

The Charismatic Charlie Wade Chapter 3634

Abbas couldn't make up his mind at this time. If he was only to complete the task given by Charlie, then he didn't care about the three seven twenty one. If everyone should sell it, they would sell it. What about killing chickens and getting eggs? Killing chickens to retrieve eggs also has to hand over half of the retrieved eggs.

However, he still doesn't know what Charlie's attitude towards these people is, so he can't figure out the yardstick, so he said: "You should first explain the situation of your own assets. If the cash is less than half, pay the cash first. , For the remaining part, we will give you a solution later."

Everyone had no choice but to agree.

As a result, the soldiers of the Wanlong Palace began to register these branches of the Wade Family in batches, first asking each person's specific assets and cash situation, and after the registration was completed, they were required to pay all the cash first.

When this part of the funds began to flow into the Wanlongdian account, the Concorde airliner Charlie took finally landed at Eastcliff Airport.

As soon as he landed, Stephen Thompson took him to Yeling Mountain.

On the way, Stephen Thompson gave a brief report on abbas's situation to Charlie, and at the same time reported Abbas's inaccuracy to Charlie, and asked, "Master, when I came, Abbas asked Charlie. Let me ask you, what should I do with those people whose cash is less than half of the family's assets and most of their assets are in real estate and fixed assets?"

Charlie said indifferently: "You have a good attitude towards those who admit mistakes and punish them. Of course, you can't push too hard. You can collect some of the cash first. As for the remaining part, let them pay in installments."

Speaking of this, Charlie paused slightly, and then said: "According to normal terms, the installment must pay interest. However, even if it is the Wade Family, I will give them a bit of face, and the installment will not be They are charged interest, but like banks, a certain percentage of handling fees will be charged."

"For example, if the other party owes us one billion, it can be paid in 12 installments a year, or 36 installments in three years, and 60 installments in five years. Six million."

Stephen Thompson was stunned and exclaimed: "Master, if you use this ratio, the handling fee for the first phase is 6 per thousand, and the total handling fee for the 60 phases is 36%! One billion principals, The handling fee is three hundred and sixty million yuan, is it too high..."

Charlie smiled and said, "Doesn't the bank credit card installments always pay six thousandths per instalment? I also confiscated the overcharge, but just look at the bank."

Stephen Thompson hurriedly said, "Master, I said so, but the interest...oh no, the handling fee ratio is actually very high...I'm afraid they won't be able to sustain such a high handling fee..."

Charlie looked like a profiteer, and said seriously: "It doesn't matter if you can't hold it. I can give them another choice. The money owed will be converted into the corresponding equity of their company according to a certain preferential strength, such as his corporate value. Five billion, but still owe us one billion. Normally, this one billion converted into equity is 20%, but because they owe us, I don't charge him the installment fee, so I have to receive a cash discount. Therefore, we have to give us a 20% discount on the total valuation. In this case, if a company with 5 billion yuan is discounted by 20%, even if it is 4 billion, the 1 billion debt converted into equity is 25%!"

The Charismatic Charlie Wade Chapter 3635

For these perfidious Wade Family collaterals, Charlie had already thought out a full set of solutions for them, and the reason why he rushed back from Northern Europe non-stop is to solve all these collateral branches in one step.

After hearing Charlie's series of plans, Stephen Thompson felt shocked, but also felt particularly relieved.

Although he is not the Wade Family, seeing that the Wade Family's collaterals, who usually rely on the Wade Family's help, escaped overnight at the moment of the Wade Family's life and death. He was also extremely angry. Charlie wanted to teach them a lesson, and Stephen Thompson did the same. Agree with both hands.

However, Stephen Thompson didn't expect that Charlie would be so ruthless. According to this posture, he really wanted to cut down the fortune of the Wade Family's side lines in half.

Seeing Stephen Thompson's complicated expression at this time, Charlie asked him, "Stephen Thompson, do you think I'm being too cruel to them?"

Stephen Thompson thought for a moment, and then said: "Back to the young master, if you only talk about the intensity of the punishment, it is indeed a bit cruel. After all, it is half the property, and it is difficult for anyone to accept..."

Speaking of this, Stephen Thompson paused slightly, and then said: "However, I feel that you should do this, Master. Almost a large part of their assets are accumulated by the Wade Family, since they have been perfidious at critical moments. It is reasonable for the Wade Family to take back part of their assets. Taking this part of their assets is also an excellent supplement to the Wade Family."

Charlie smiled indifferently and said seriously: "Stephen Thompson, in fact, I punish them this time, not really for the little assets in their hands, I mainly think that the loyalty of these people to the Wade Family is too low. It's so low that it's outrageous, so we must take this opportunity to make a serious effort to rectify it."

Speaking of this, Charlie said with a serious expression: "This time, I have to let them understand that they must have enough sense of loyalty like those ancient clan kings to

carry the bowl of rice from the Wade Family! Who dares to play with me? Picking up the bowl to eat, putting down the chopsticks and scolding his mother, I will make him pay a painful price!"

Stephen Thompson nodded in agreement, and sighed: "The master is just too conniving to these collateral branches. He always feels that they are loyal to the Wade Family on weekdays, so he did not share the benefits for them, but in the final analysis, that They are all illusions in the peaceful and prosperous times. When something really happened, they immediately recognized their nature, and they really need to be restrained."

Charlie said indifferently: "They are equivalent to the vassals raised by the ancient emperors in various fiefs. If you want to be a qualified vassal, you must have the basic consciousness of eating the king and dividing the worries of the king, and also master A well-measured measure must not threaten the sovereign's dominance, let alone retreat when the monarch needs it, so the Wade Family's collaterals must really set the rules."

After speaking, Charlie said again: "Each of them is in the same situation. Cash can only account for up to 20% of all assets. There are even some branches whose cash reserves are less than 10% of total assets. Even if all the cash is handed in. It's still a long way from the 50% I asked for, so this time I will let Wanlongdian go out first and force them to sign an installment agreement, and then use this agreement to deeply bind them."

"However, I will not force them to death. As long as they hand over cash assets and sign an installment agreement according to my requirements, the Wade Family can still give them some resources and let them continue to make money with the Wade Family."

"At that time, they are trying hard to make money with the Wade Family. In essence, they are trying to pay off my debts. They are making them bleed while giving them blood transfusions, and then taking back the blood transfusions. This cycle keeps them in the loop. While inseparable from us, we will never be able to become stronger. Only in this way can we fundamentally hold them in the palm of the hand."

Hearing this, Stephen Thompson sighed with admiration: "Master, your trick is indeed very high! In this way, these collateral branches will no longer be prodigal sons who only reach out to the family, forcing them to force. They, let them start to make some contributions to the family!"

The Charismatic Charlie Wade Chapter 3636

"That's right." Charlie sneered: "This time, to put it bluntly, I want to take advantage of the opportunity to defeat the power of these vassal princes. In this way, their lives will be very sad in the future, but our good days are just started!"

Just when Charlie was about to arrive at Yeling Mountain, all of Abbas's men had already taken more than 200 billion yuan in cash from the hands of more than 700 branches of the Wade Family.

However, this is only one-fifth of all the net assets of the Wade Family's collateral branch.

According to statistics, the assets of all branches of the Wade Family add up to almost one trillion yuan.

As a result, almost all branches of the Wade Family have already given out all their cash, but they still owe at least 30% of Wanlongdian's personal assets.

Just when these people didn't know what to do with the remaining part, Abbas had received Charlie's instructions and said, "I think you still have a big vacancy in cash. Next, you plan to How to pay for the rest?"

Everyone was suddenly silent.

No one dared to say anything to him, because everyone knew that there was only one way left, and that was to sell assets to raise money to save lives.

Selling assets is easy to say, but it is actually the least cost-effective method.

This is because, as long as all assets are sold, they have to lower their value and make a big discount to be able to sell them quickly.

It may take a month for a property with a market value of 10 million to sell for 10 million, but if you want to realize it in one day, you must at least reduce the price to 900, or even 8 million.

Assets will be discounted, but debts will not, so, in this way, their losses will be far more than 50% of the original!

Moreover, selling assets is even more terrible, it will seriously damage their original income structure.

Take Tianxiao as an example. He has a well-known building materials company in China. Most of the building materials he produces are directly supplied to wade's real estate projects and production bases across the country.

With the help and support of the Wade Family, this company now has annual sales of more than 10 billion yuan and net profit of more than one billion yuan. It can be said that it is a hen that can only lay golden eggs.

However, if he is forced to sell, not only will the price of the asset sale be greatly reduced, but Tianxiao himself will also completely lose this source of revenue, which is tantamount to killing chickens and getting eggs.

The situation of other people is not bad, no one can come up with so much cash to compensate Wanlongdian, and no one wants to sell their core assets at a low price.

Abbas collected the performance of these people, knowing in his heart that what they fear most is to force them to sell their assets to collect enough compensation, so he said: "Don't say I won't leave you a way out. Now, what you owe All funds can be paid in installments over a period of one to five years."

Everyone was relieved when they heard that they could be paid in installments.

Being able to pay in installments means that they don't need to sell their assets, they can use their assets to make money and pay off their debts slowly, so that it won't hurt their muscles and bones.

But no one thought that Abbas immediately said: "However, the installment payment is not free! For each installment, you must pay six thousandths of the total amount as the service fee for the installment payment!"

The Charismatic Charlie Wade Chapter 3637

The words of Abbas suddenly caused a commotion among the more than 700 members of the Wade Family's collateral line!

Although these collateral members of the Wade Family are not the top entrepreneurs, they are still much smarter than young people who have no brains to use credit card installments.

Those mindless young people think that it is a very cost-effective thing to pay by installments, but they don't know that the bank has already thoroughly eaten their mentality.

The interest rate for each instalment repayment is six thousandths. It seems that ten thousand yuan is divided into twelve instalments. It only needs to pay sixty yuan more a month, but twelve instalments a year is 720 yuan!

Relative to the principal of 10,000 yuan, the annual interest rate for one year instalment is 7.2%!

This is just a rough calculation method. You should know that 10,000 yuan is not repaid once a year, but monthly in twelve instalments. The principal of each period is decreasing, but the interest rate is fixed at one time. Calculated with a principal of 10,000 yuan, if this is calculated, the actual interest rate even exceeds 13%!

This interest rate is a huge profit in the financial market.

Each of these Wade Family members has a very good relationship with the bank and the capital. If they really want to take a loan, they can easily get a large loan with an actual annualized interest rate of less than 5%, so just listen. With this staging plan given by Abbas, he couldn't help but yelled at him for being black-hearted.

Therefore, someone said: "The Master of the Pantheon...After all my cash is given out, there is still 2 billion. Please allow me one day. Only one day will be able to use the mortgage to make this 2 billion. To your account!"

Others also echoed: "Yes, Master , as long as we give us one day, we can get a mortgage loan! Please allow me a little more time!"

Abbas said coldly: "Grace is impossible. Each of you must make up all the arrears within an hour, otherwise you must sign an installment agreement!"

These Wade Family collateral members suddenly frowned.

At this moment, Tianxiao blurted out: "Master , I am willing to install it in installments!"

Everyone did not expect that Tianxiao would be the first to give in, and was about to despise it. He only heard Tianxiao continue to say: "I would like to divide all arrears into two installments. Within two months, I will make up all the money. superior."

When the others heard this, they immediately slapped their thighs.

They were just shocked by the six-thousandth installment fee, but they forgot that they can choose the least number of installments.

If you divide it into two installments, you only need to pay two six-thousandths, which adds up to 1.2%.

In this way, it is naturally much more comfortable.

As a result, a group of people began to actively express their views.

Abbas couldn't help frowning, and guessed the intentions of these people in his heart. They must first want to install as few installments as possible, and then seize the time to raise funds to fill in this installment hole.

In this way, we can get rid of the high interest rate trap of installment payments.

However, Abbas didn't know exactly how to stipulate it at this time, and Charlie didn't tell himself what to do with the specific number of installments on the road of installment payment.

Just when he didn't know how to define it, he only heard a familiar voice loudly: "Master, I suggest you still give a fixed installment ratio. All those who can't pay in cash and choose installments must choose at least six. Ten installments, no cap!"

Everyone immediately followed the prestige, and saw that Charlie had already strode over, accompanied by Stephen Thompson.

These collateral members of the Wade Family recognized Charlie, and someone suddenly yelled: " Charlie! What the hell do you mean? Do you unite others to cheat your family?"

"Grass! I didn't expect that, as bruce's son, you would become someone else's running dog!"

"Charlie! Are you the damn Wade Family! Even your own family are pitted, what the hell are you!"

The Charismatic Charlie Wade Chapter 3638

It's no wonder that the Wade Family collateral members are not angry.

Originally, they wanted to solve the problem in two or three installments. In that case, the interest would not be much.

But as soon as Charlie spoke, he suggested that Abbas should start for the 60th period, which is simply killing people.

The interest rate for the first period is six thousandths, and for the sixty period, that is 36%!

Calculated according to the method of reducing the principal amount, the actual interest rate exceeds 100% after the conversion of these sixty periods!

Therefore, they naturally would not have any good attitudes towards Charlie.

At this time, all the Wade Family members regarded Charlie as a traitor to the Wade Family. In addition, they had been kneeling here since early in the morning, and Charlie, the grandson and grandson of the Wade Family, was swaying. He came over, and he blatantly wanted to cut meat from them, so they naturally didn't have any good attitudes.

Seeing that this group of people dared to scold Charlie, Abbas immediately became angry and called to the soldiers of Wanlong Palace.

Charlie shook his head at him at this time, and said lightly: "Master doesn't need to pay attention to the foul language of these villains, but first let them sign the sixty phase installment agreement."

Abbas knew that Charlie wanted to perform a paragraph, so he nodded in cooperation and said: "You are right, since this is the case, then I will order someone to prepare the contract!"

Charlie hurriedly said: "The master doesn't have to be so troublesome. Now that the electronic contract has the same legal effect as a paper contract as long as it is signed in compliance with the regulations. I happen to know a barrister who came back from the United States. When a contract template comes out, you only need to fill in the information

of Party A and Party B and perform an electronic signature to take effect. It saves time and effort, and it is also green!"

When the members of the Wade Family's collateral branch heard this, all of them were furious.

Tianxiao couldn't help cursing: "Charlie! You...you beast! Specializing in helping outsiders pit your own people, you are simply lost in conscience and inferior to animals!"

Charlie sneered: "Who is your own? Are you worthy?"

Tianxiao gritted his teeth and said: "We are all descendants of the Wade Family! Who are we not?"

The other members of the Wade Family's collateral family were also filled with righteous indignation. Some people scolded Charlie for being so shameless, and others scolded Charlie for recognizing the thief as his father.

Charlie didn't care about these insults at all, and asked indifferently: "You keep saying that I betrayed your own people. Since you are your own people, why did you run the night before?"

With a word, Charlie asked more than 700 people who were there to stand blankly, not knowing how to respond.

Charlie went on to ask, "Since you are your own, why is the Wade Family in trouble? You all ignore the ancestor worship ceremony, the Wade Family's sympathy, or even if someone wants to take wade's grave away. More than 700 people a night. I ran away clean? My f*cking just let out more than 700 pigs in Eastcliff City, and it's impossible for them all to run out of Eastcliff before one night!"

"On the other hand, you shameless people, one by one ran faster than dogs! All of them ran out of Eastcliff overnight. Among them, there were the fastest runners, and they even left China by plane overnight!"

"I ask you, when you ran away overnight, why didn't you think we were your own?????"

The Charismatic Charlie Wade Chapter 3639

Charlie's rhetorical question made Tianxiao speechless.

The other people who were still filled with righteous indignation just now fainted in an instant.

In fact, they knew very well in their hearts that when they fled Eastcliff overnight, they did not care about their kinship and didn't want to be involved by the Wade Family at all.

So at this time Charlie pitted them in front of Abbas, and they could only smash their teeth and swallow in their stomachs.

However, at this time, they all hated Charlie mad in their hearts.

Seeing the expressions of this group of comrades, it seemed that they were about to eat themselves, Charlie didn't feel awkward at all.

Many people even secretly calculated from the bottom of their hearts that after this incident passed, they must find a way to teach Charlie a lesson!

Abbas said at this time: "I think the 60 installment installment is a very good choice. In this way, you people will not have too much financial pressure!"

As he said, he waved his hand without hesitation and blurted out: "If this is the case, then you will all sign the sixty installment contracts, and all the contracts will be signed electronically, which is convenient and fast! That's it, let's hurry up and land.!"

The Wade Family collateral members present suddenly wailed.

With sixty installments, the actual interest rate is close to 100%. As a result, what is actually handed over to Wanlongdian will not be 50% of the assets, but at least 70%!

The only advantage is that most of these are paid in installments. Although the interest is high, the time given is relatively generous, which is equivalent to making money while paying the bills.

In this way, in the next 5 years, they will basically be helping Wanlong Temple to make money, and there is absolutely no hope of turning over in a short period of time.

Tianxiao looked at Abbas and couldn't help but lamented: "Master, why bother let us sign another contract? Even if there is no contract, we dare not rely on Wanlongdian's account!"

Tianxiao's remarks were actually asking about Abbas's heart.

He was also puzzled. Since Charlie wanted Wanlongdian to do such an unobtrusive thing, he could just hand it all over to Wanlongdian. The Wanlongdian would ask for the account. This group of people absolutely Don't dare not give it.

But the strange thing is that Charlie asked Wanlongdian to do this kind of intimidation and temptation, but he still had to let them sign an agreement, which made Abbas somewhat puzzled.

Charlie also saw Abbas's puzzlement, so he opened his mouth and said: "Master , in the future, their debts will have to be repaid continuously for five years. During these five years, various changes are prone to occur."

After speaking, Charlie said again: "If there is no contract, all of this must be collected by Wanlongdian personally. With the contract, besides the personal collection by Wanlongdian, the collection can also be collected through legal means, so that you can use both hands. Caught together."

Afterwards, Charlie looked at the branch members of the Wade Family, and said, "I am worried that they will be unable to continue to pay the installment due to poor management in the next few years, and they will break the can. There is nothing to do in the Wanlong Palace."

"In addition, I am also worried that they will quietly transfer their assets and run away. If they really run away, the Wanlong Palace will be very difficult to solve them for a while."

"However, if there is a contract, as long as they have any trouble, I can protect the rights and interests of Wanlongdian through legal channels. Then I can directly submit the contract to the court to apply for freezing all their assets and let them lose money. I can't take the money!"

“Not only that, at that time, I can also apply to the court for enforcement. At that time, all their assets will be directly seized for auction, and then the money will be returned to the Wanlong Temple.”

The Charismatic Charlie Wade Chapter 3640

"As the saying goes, there is no danger. In this way, you can basically ensure that there is nothing wrong."

The members of the Wade Family's collateral family looked pale. They didn't expect that Charlie would calculate them like this, and his requirements hardly gave the Wade Family's collateral members any way to survive.

Once they sign this agreement, it is tantamount to signing a harsh contract of selling, and there is no hope of turning over in the future!

Only then did Abbas understand that Charlie thought about the problem more comprehensively than he did, so he didn't hesitate to say: "No problem, just do what you said."

Charlie said again: "Since it is to sign a contract, there must be a legal receiver. In this case, Wanlongdian is not suitable for getting ahead, so the best way is to use a domestic company as the receiver. , Let them directly transfer the money to the account of this domestic company."

After speaking, Charlie seemed to think of something, and then said: "By the way, I just have an Emgrand Group in Aurous Hill. If the owner of Wanlongdian doesn't dislike it, I can completely treat the Emgrand Group as the main body of the collection and let them pay all the money. To the Emgrand Group account."

Abbas immediately understood what Charlie meant.

So, he nodded smoothly, and said: "If this is the case, use your Emgrand group as the payee. The money is first transferred to the Emgrand Group account and then paid to Wanlongdian through other methods."

Charlie said immediately: "Of course!"

After speaking, Charlie said again: "Since the Emgrand Group is used as the payee, there must be a debt contract between the Emgrand Group and these Wade Family collateral

families. This is why I suggest you let them sign. The reason for the electronic agreement is to ensure the legitimacy of all of this, so that in the future, when it comes to court, you can have enough confidence!”

These collateral members of the Wade Family wanted to strip Charlie alive, because this guy not only handed Abbas a knife to slaughter his relatives, but also told him where to get the knife the fastest, most accurate, and most ruthless.

For a while, everyone regarded Charlie as an incomprehensible enemy, and they kept wondering how to retaliate against Charlie in the future and make him pay a painful price.

At this time, Charlie called Matilda’s son Paul directly.

On the phone, Charlie told Paul about the requirements of the contract in detail, but he did not mention more details, nor did he even mention the Wade Family and Wanlongdian. He just asked Paul to hurry up and produce a copy according to his own needs. Electronic contract.

Paul himself has worked as a lawyer for many years. He basically has a very rigorous template for any contract. After knowing all the needs of Charlie, he directly carried out a contract template of his own installment payment to a certain extent. Modified, and then sent the contract to Charlie.

After Charlie got the contract, he probably read it again and found that there were no problems or bugs in it, so he handed the contract to Abbas.

After Abbas got the contract, he immediately began to ask all the branches of the Wade Family to sign the agreement.

How dare these Wade Family collaterals refuse, so they completed the electronic signatures one after another, and the first party in the agreement was Charlie’s Emgrand Group.

Charlie’s Emgrand Group suddenly owned more than 300 billion yuan in debt, which exceeded the market value of the entire Emgrand Group.

According to the content of the contract, the 300 billion yuan is divided into five years and 60 instalments. Every month in the next five years, the Wade Family collateral members will pay Charlie a principal of 5 billion yuan, and ten An installment fee of RMB 800 million.

And this money, they will repay it for five years!

The Charismatic Charlie Wade Chapter 3641

Just when Charlie settled all the installment agreements for the Wade Family's collateral branches, the William Rothschild family also smashed the pot and paid the remaining funds in place.

In just a tribute to the ancestors, Charlie has increased 5 billion euros in cash, 200 billion yuan in cash, and debts with a principal of more than 300 billion yuan and five-year interest rates of more than 200 billion yuan.

Charlie finally understood why many emperors in history especially liked to exploit various vassal lords, and even often ransack the various vassal vassals, mainly because these vassal vassals were mobile treasuries, which were so fat.

If they are loyal to the monarch, then everything is easy to say, but if they don't even have the basic idea of loyalty to the monarch, what are they waiting for if they don't copy their home?

If they don't copy their homes and reduce their strength now, they might have the idea of playing the throne when they do.

Abbas accompanied Charlie for a long time. Seeing that the dust had settled, he came to Charlie and asked in a low voice in his ear: "Mr. charlie, when are you going to tell them the truth?"

Charlie casually said: "No hurry, things are not over yet, you will ask them all to start at the foot of Yeling Mountain, three steps and one bow to climb Yeling Mountain for me, I am waiting for them on Yeling Mountain. "

Abbas hurriedly said: "Mr. charlie, climb up from here in three steps with one bow. It is estimated that it will take at least half a day. I'm afraid it will be dark when they climb up. Or you should go back and rest first. I will wait for them to finish. I'll pick you up again."

Charlie shook his head and said indifferently: "No, I'm waiting for them on the mountain. During the time they climbed up, I happened to accompany my parents. After they climbed up, I will reveal the mystery. "

After speaking, Charlie said again: "Baojun, don't stay in Yeling Mountain, first go find a good cemetery for your parents, let the two enter the soil as soon as possible, and leave some people here."

Abbas bowed down in Yeling Mountain all night last night. Although he was convinced and willing, because his parents' coffin was also on Yeling Mountain, he still felt very guilty for his parents.

Originally thinking about getting his parents into the soil as soon as possible, but Charlie did not speak, he did not dare to speak.

Now that Charlie took the initiative to say it, he was naturally extremely grateful.

So he was moved and said: "Thank you, Mr. Charlie, then I will go down the mountain to take care of my parents' funeral. If you have any needs, please tell the soldiers of the Wanlong Temple at any time or call me directly. I will do my best. Come here quickly!"

Charlie smiled slightly and said: "No, you can go and work on you. This time you took your parents' coffin out and disturbed the peace of the two elders. It was really too sloppy. You should go back to the soil for safety, so you should do it well. It's also a make up."

Abbas nodded in shame.

Why didn't he know his sloppy and unfilial piety, he regretted it countless times in his heart, and now he just wanted to do his best to make up for it, so when he heard what Charlie said, he was even more ashamed, and said quickly: "Mr. Charlie, you are right. Yes, the subordinates must take care of it."

Charlie nodded slightly, and said: "You don't need to worry about things here. Tell the Wade Family people later and talk about the things on Yeling Mountain. Everything is left to me, and then you You can go now."

Abbas hurriedly said, "Subordinates do so!"

While Charlie was whispering with Abbas, the collateral members of the 700-odd number of the Wade Family had been quietly looking at the two with anxiety.

What they were thinking at this time was that Charlie must be breaking the army to slander, and they didn't know what evil he was holding back.

In their eyes, Charlie was already as abominable as the traitor back then.

The Charismatic Charlie Wade Chapter 3642

At this time, Abbas came in front of everyone and said loudly: "You will listen to me. Charlie will have the full power to decide everything here. You must listen to his instructions, and you must not be disobedient! Otherwise, I will never spare him!"

As soon as Abbas said this, the Wade Family group almost collapsed on the spot.

Originally, they thought that Charlie was just surrendering to Wanlong Palace and becoming a running dog of Wanlong Palace, but they didn't expect that Abbas would take him so much.

Just when they were dumbfounded, Charlie walked to Abbas and said, "You sons of the Wade Family, at the critical moment, you will ignore the safety of your family and the ancestors buried in the ancestral grave. If you don't let you pay enough. I am afraid that the ancestors and ancestors in the spirit of heaven would not agree, so from now on, I want each of you to bow your head in three steps and kneel and climb Yeling Mountain! Personally go to the ancestors buried on the mountain. repent!"

As soon as Charlie's words were spoken, more than seven hundred members of the Wade Family clan wailed!

They have already taken out almost all of the cash and signed an installment agreement called a deed of sale. It can be said that they have lost most of their net worth.

But even so, they haven't been able to pass this hurdle, and now Charlie even asked them to worship Yeling Mountain in three steps, isn't he trying to torture them to death?

Although Yeling Mountain has been thoroughly developed by the Wade Family, there are flat concrete roads from the foot of the mountain to the mausoleum on the mountain, but it is three to five kilometers away from the mountain all the way up.

If you pray for three steps and one prayer, it means you have to knock one head at least two meters or less than three meters, so you will have to knock at least a thousand heads before you can go up.

The three-step-one worship process is inherently cumbersome, and the movements are a bit quicker, and it can be completed two or three times in one minute. If you count it this way, you don't want to go up in less than five or six hours.

If Abbas made this request, they would not dare to let go of a fart.

But these words came out of Charlie's mouth, and all the members of the Wade Family's collateral line were suddenly furious.

Someone yelled directly: "Charlie! You f*cking don't deceive people too much! You don't pee to see what you are! In front of the Master, what is the difference between you and a traitor!"

There are also people who have a lot of bad thoughts, deliberately wanting to cause a conflict between Charlie and Abbas, so they accused: "Charlie! Your father, Bruce, was the chief culprit who killed the parents of Master! Even if Master raised one hundred thousand Dogs, it's not your turn to bark here!"

Some people even blurt out brazenly: "Yes! Master ! You can't listen to the slander of this scumbag! Wade Family is your murderer's enemy! He actually let us kneel and worship in front of you. The ancestors of the Wade Family, his heart is shameful!"

Listening to the words of the group of people in front of him, Abbas was shocked in his heart, and at the same time he could not help but secretly thought: "I used to vaguely feel that Mr. Charlie seemed to be a bit too cruel to these people, but now I understand that this group of people It is totally worthy of the sin! If I were to be replaced by me, seeing their face, I really have the heart to kill them!"

Thinking of this, Abbas was extremely angry, and immediately shouted coldly: "Laughter! As I said just now, Mr. Charlie decides everything here! You dare to rebel openly, what is it?"

Everyone in the Wade Family shuddered in shock.

Abbas instructed several soldiers around him: "Take out all those who insulted Mr. Charlie just now, and one person slapped a hundred! No! Five hundred!"

The Charismatic Charlie Wade Chapter 3643

Abbas is the most important person for affection, which is also the key to the fact that Wanlong Palace has been able to operate so far and has achieved a lot of success.

He was originally grateful to Charlie for Charlie to be able to sympathize with his parents' need to go to the soil for safety, but then, seeing the shameless face of Wade Family side members, his heart was already extremely angry.

It was also because of his anger that made him inadvertently blurt out the three words "Mr. charlie", and even said it twice.

At this moment, these members of the Wade Family's collateral line, smacked out an extraordinary taste.

If it is said that the Wade Family completely gave up resistance and surrendered to Wanlong Temple, Abbas harvested Charlie as a running dog, then there is nothing hard to understand.

However, Abbas suddenly referred to Charlie as Mr. charlie, which seemed to be wrong.

However, before they were too surprised, many soldiers from the Wanlong Palace rushed into the crowd, dragging out the few brazen guys just now.

Immediately afterwards, the sound of slapped firecrackers resounded throughout the valley one after another.

All the soldiers in the Wanlongdian are martial arts masters, and their arm strength is almost as good as or even higher than that of an adult tiger.

If a slap is not held, I am afraid that the opponent may die.

Although Charlie was very dissatisfied with this group of collateral members of the Wade Family, he had not thought about taking their lives.

So he stopped and said: "Okay, there is no need to fight."

Charlie just faintly said these six words, and the soldiers of the Wanlong Palace immediately stopped their movements.

This scene made this group of Wade Family collateral members extremely surprised.

If it was said that Abbas respectfully called out the three words "Mr. charlie" to Charlie just now, which made them a little confused, then the performance of these soldiers in the Wanlong Palace actually obedient to Charlie's words is enough to make them big. Stumbled.

Almost every member of the Wade Family's collateral family asked himself a question that hits the soul deeply: Abbas and the Wanlong Palace soldiers, why do they respect Charlie so much?

Was it because the Wade Family gave up half of their assets to Wanlong Palace?

This seems unrealistic.

I have never heard of an aggressor who, after a successful aggression, shows respect to the victim.

Generally speaking, any aggressor has no bottom line or credibility.

They will first ask the victim for the first step. If the victim does what they are doing, they can't give up. They can only make the second and third requirements even worse, until all the value of the victim is drained. .

Even if he had a high reputation in the Wanlong Palace, he would do what he said after the Wade Family had given out half of his assets, and he would no longer embarrass the Wade Family, but he would definitely not rise to the point where he respected the Wade Family so much.

Therefore, they all want to know what hidden secrets are hidden behind this?

At this time, Charlie looked at these dumbfounded Wade Family members, cleared his throat, and said, "I originally wanted to let you know the truth after you kneel all the way to the top of the mountain. When I became suspicious, I didn't pretend it at all, and it was a showdown."

More than 700 members of the Wade Family's collateral line, one by one, stared at Charlie intently, waiting for his next words.

However, before Charlie could speak, the Abbas on the side knelt on one knee with a look of shame, and said incomparably: "The subordinate was impulsive and didn't manage his own mouth. Please Mr. charlie to punish him! "

"F*ck!"

"what's the situation?!"

"Abbas actually kneeled for Charlie?!"

The Charismatic Charlie Wade Chapter 3644

"Did he claim to be a subordinate just now?! What do you mean?! Has the Wanlong Palace returned to Charlie?!"

The Wade Family below exploded the pot at once.

No one of them thought that things would develop in this direction.

This is simply the most unexpected development direction for them.

It feels like you drop a slab from a 100-meter-high building. You thought it might hit people, cars, small animals, or flowers, but you dare to think about it. Not only did the slab brick fail to fall, but instead it directly subverted gravity and flew upwards, flying all the way out of the atmosphere?

This group of side members of the Wade Family feels like this at this time.

Shocked is not enough to describe their mentality. They have begun to feel that this world is extremely absurd, so absurd that it is full of magical colors.

Everyone was afraid that Abbas would flee in a hurry. Who the hell would have thought that Abbas would become Charlie's subordinate?

At this time, Charlie waved his hand to Abbas indifferently, and said indifferently: "It's okay, there is always a showdown, it's nothing more than a little later."

After speaking, Charlie looked at these more than 700 side members of the Wade Family and asked coldly: "Do you think that the Wade Family will inevitably fail in front of the Wanlong Palace?"

There are more than 700 people below, no one dares to respond.

Charlie asked again: "Do you think that the Wade Family is in danger this time, so you can't wait to get rid of the Wade Family?"

More than 700 people looked flustered, and still no one dared to speak.

Charlie asked again: "Do you think that your own wings have long been hardened? Even if the Wade Family is completely finished this time, it will not affect your future?"

Among the more than 700 people, many have already started to wipe the cold sweat from their foreheads in a hurry.

Charlie sneered at this moment, his expression was full of contempt, and he sternly said: "You guys with short-sighted and short-sighted people, have you ever thought that I, Charlie, can not only save the Wade Family from distress, but can even save the Wanlong Palace. Income subordinate?!"

Everyone was stunned by Charlie's noise.

Only then did they realize what they had missed.

If you don't run and stick to Yeling Mountain with the Wade Family, then each of them will be a hero.

But none of them favored the Wade Family, and none of them cared about the family relationship and the kindness of the Wade Family, one by one.

Now, it's time for Charlieqiu to settle the accounts!

When Charlie saw this group of people showing horror, but he didn't dare to speak half a word, and said with contempt: "Now, I am the head of the Wade Family, and your fellow clan also made me realize what is the difference between people's hearts. Belly! When the Wade Family helped you and supported you, it was all about raising tigers!"

Everyone heard that Charlie was already the Patriarch of the Wade Family, and everyone was shocked to speak.

Many people have already begun to scold themselves for being a complete idiot in their hearts.

I thought I had avoided a terrible catastrophe, but I didn't expect that the one who avoided it was a splendid wealth!

Charlie continued to say at this time: "As the saying goes, there is not enough and conspiracy! I should use the hands of others to kill you all with a sharp knife to cut the messy rubbish like you at a critical moment! And I was naive! It's a woman's benevolence to take care of her family's affection and want to keep you alive, and to keep your family a ray of life!"

Abbas immediately clasped his fists and said: "Mr. Charlie! As long as you say a word, Abbas guarantees that none of these more than 700 people will ever get out of Yeling Mountain alive! And for this charge, Wanlong Palace also I wish to do everything for you!"

The Charismatic Charlie Wade Chapter 3645

When Charlie talked about his wife's benevolence, the members of the Wade Family collateral group felt that Charlie was so shameless to the extreme.

However, when Abbas cooperated with Charlie to sing and reconcile in this way, they were all frightened and almost collapsed to the ground.

The words of Abbas made them understand a basic truth, that is: If Charlie is cruel to kill them, Abbas will definitely do it.

Moreover, for a mercenary organization rooted overseas, such as Wanlongdian, they have no legal concept at all. If they go to war-torn areas, no one can do anything to them.

As a result, the group of people didn't know who started their heads first, and they knelt on the ground one after another, begging.

"Charlie...we are inferior to pigs and dogs. Please give us another chance. From now on, we will be loyal to the Wade Family. Even if the sky falls, we will not run away..."

"Charlie...how do you set off with us, we are all willing to confess our sins and punished, just ask you to see that everyone is the same clan after all, leave us a dog, and in the future we can also make atonement for the Wade Family!"

"Yeah, Charlie... After all, everyone is of the same race. They were born from the same root. Why are we too anxious! Even if we make a lot of mistakes, we are just timid, greedy and fearful of death, and never hurt Wade Family's heart. I also beg you to spare us this time."

Seeing the tears of the crowd, Charlie said with a grim expression: "Since they are all of the same race, it is not impossible to spare your lives, but you must first go from here three steps and one bow to climb Yeling Mountain to me. After the ancestors of the Wade Family have repented, I will consider whether to open up to you!"

After speaking, Charlie said again: "Listen to me. The first 50% will not be punished for the time being, but the second 50% will be on my knees for 24 hours after going up!"

As soon as these words came out, a member of the Wade Family collateral group blurted out excitedly: "I'm crawling! I'll be crawling!"

After finishing speaking, he immediately smashed his head in the direction of Yeling Mountain, then stood up, took three strides, thumped and knelt on the ground, and smashed another one.

Seeing this, others rushed to say:

"I'm knocking too!"

"I'm coming too!"

For a while, everyone went crazy, bowing all the way towards Yeling Mountain with three steps and one bow.

Charlie asked the soldiers of the Wanlong Palace to stare at these people to prevent them from sneaking and r*ping, so he ignored these people and stepped on Yeling Mountain alone.

On Yeling Mountain at this time, the Wade Family gang were still kneeling honestly.

Seeing Charlie come back, all eyes were filled with fear and awe.

Mr. Wade is asleep again. Where have you been? At this time, I was also on the mountain, seeing Charlie coming, hurriedly greeted him, and asked him: "Charlie, things are going well in Northern Europe? I have seen the news that the Queen of Northern Europe has officially announced the abolition of that Orly. Via's succession to the throne, he also announced that he would pass the throne to Helena in three days."

Charlie nodded and said faintly: "The Nordic side has been settled. After Helena takes the throne, the Wade Family will formally develop business cooperation with the Nordic royal family. At that time, I will send a business team to talk to Helena."

Elder Wade said with admiration: "Charlie, in such a short period of time, you can change the throne of Northern Europe and change the structure of the entire Northern European royal family. I am afraid that only you in the world can do it!"

The Charismatic Charlie Wade Chapter 3646

Charlie didn't take the old man's flattery seriously, but said indifferently: "The Nordic royal family will be the bridgehead for the Wade Family to enter Europe in the future. Therefore, relevant cooperation must be promoted quickly and implemented quickly. There must be no difference, and for this trip to Northern Europe, we can't all be teamed up by professional managers. We still have to have our Wade Family's direct line members to show their attention, so we have to choose a suitable person in the past."

Elder Wade nodded again and again: "That's natural! Charlie, do you think you will go there in person or I will go there for you?"

Charlie thought for a while, and said, "Helena is a young girl after all. I'm afraid there will be a generation gap when communicating with you."

Cynthia Wade, who was kneeling in the crowd, hurriedly volunteered and said: "Charlie! Or let me go! Helena and I are also familiar, besides, didn't you let me kneel here for three days? I'll be done in two days. It's a child!"

Charlie looked at Cynthia Wade with a flattering expression and frowned slightly.

He naturally knew Cynthia Wade's intentions. It was nothing more than to seize the time to please himself, and to seize the time to have a place in the Wade Family where he was the master.

However, he really couldn't have a good impression of Cynthia Wade.

Although she did pretty well this time, Charlie didn't plan to give her a chance so early.

At this moment, he saw the sister-in-law Aaliyah next to the old man Wade, and he said, "Sister-in-law, why don't you lead the team with your hard work? You and Helena should also know each other."

"Me?" Aaliyah said with no bottom: "Charlie, I have spent most of the years as a husband and a child, and rarely participate in commercial activities. For such a big thing, I am afraid I will be delayed..."

Charlie said seriously: "I let you go, just to show my sincerity on behalf of the Wade Family. The specific cooperation details will be completed by our professional manager team at that time, and there must be their professional manager team on the royal family's side. We are connecting here. Although Helena is the Queen of Northern Europe, the real business may only be a decision and the details are not involved. So when the time comes, you will be responsible for communicating with Helena, and the rest will be handed over to the professional managers of both parties. It's enough to be done in a team."

When Aaliyah heard this, she finally relaxed, nodded and said, "Okay! Then I will take the manager team to visit."

Charlie smiled slightly and said, "Then I will work hard."

Cynthia Wade looked lost at this time. He originally thought that he was the most suitable person. After all, even if he was married for many years, he had not been idle for many years. He had been participating in various business activities almost all the time. It was experienced, but Charlie didn't expect that Charlie would give this opportunity to his younger sister, who has little business experience.

Jon Wade, who was kneeling beside Cynthia Wade, had an even more ugly expression.

In his heart at the moment, he was so depressed to die: "Damn! Helena was originally my fiancée! Now she is going to be the Queen of the Nordic countries soon! If my marriage contract with her is still there, wouldn't it be a Nordic kingdom now? Duke? Damn...I knew Charlie had such a great ability, so I had to kneel and lick him when I snatched his head. How could I sneer at him as soon as I got up... Damn blind my dog's eyes!"

Jon Wade's father, Corran Wade, was even more depressed, and he thought to himself: "I almost married the Nordic Queen as a daughter-in-law, but now my daughter-in-law ran away, I have to stay here for three years. Isn't it?"

The Charismatic Charlie Wade Chapter 3647

The regretful Wade Family are far more than Corran and Jon Wade.

Every member of the Wade Family kneeling here already regretted it in his heart at this time.

If they had known that Charlie had such a great ability, they would not offend him when they died, let alone buy Jon quietly and plot to surrender to Abbas.

They are like those traitors after the victory of the War of Resistance against Japan. In addition to regret, one by one is more self-contained and incomprehensible.

At this moment, behind the Wade Family, two people were still kneeling.

These two people are Lord Banks from the Banks Family and Zayne and his son.

Originally, when the Wanlong Temple was kneeling for a whole day and night, they had already arrived at the time, but Lord Banks had to hold Zayne to continue kneeling, and had to kneel until Charlie came.

At this time, when the two heard that Charlie had actually sent Helena to the throne of the Empress of Northern Europe, they were shocked in their hearts.

Charlie glanced at the two of them, and asked, "Lord Banks, Zayne, why are you two still here?"

Lord Banks hurriedly said: "Back to Master Wade...You haven't come, how dare we leave casually..."

Charlie smiled and said casually: "Okay, you two don't need to perform here anymore. Go back and prepare quickly, and go on your own."

With that said, Charlie thought of Olivia, and said: "By the way, Lord Banks, I will find a batch of long-term workers for your manor in Madagascar in the future. Among them, there is a family of three of Princess Olivia from the Nordic royal family. At that time, they were

regarded as black slaves in the past, and things like planting cotton and cutting sugar cane were left to them to do.”

Lord Banks couldn't help shivering, and he thought to himself: "This Olivia is not only the princess of the Nordic royal family, but also the heir to the previous throne. Her father is also the prince of the Nordic royal family. He will take all of them to my manor in the future. To be a long-term worker? Charlie is a bit too disregarded of the dignity of the Nordic royal family..."

Although he thought so in his heart, Lord Banks still promised it again and again, and said gratefully: "Thanks to your hard work, Master Wade, I have to think about everything..."

Charlie said indifferently: "You go to Madagascar, you must manage it well for me. In the future, I may still have someone to send to you."

Lord Banks panicked and couldn't help but ask himself: "My f*cking trip to Madagascar this time, did I go to the local lord or to be the warden for Charlie..."

In a panic, he still said without hesitation: "Master Wade can rest assured that I will manage the Madagascar industry well. Before I leave, I will communicate with Zara banks again and make sure the details."

Charlie casually said: "Hurry up, I still have a lot of people waiting for arrangements in Northern Europe."

Lord Banks said quickly and respectfully: "Okay Master Wade! I must hurry up!"

Charlie nodded slightly, and said: "Okay, from now on, the rest of Yeling Mountain is the Wade Family's business, you can go."

Having said that, he greeted several Wanlongdian soldiers and said: "You guys escorted them to find Zara banks at Shangri-La, and let them do all the things they promised to do."

Several members of the Wanlong Temple immediately handed over and said, "Okay, Mr. wade, the subordinates must follow suit!"

Seeing that Lord Banks and Zayne were taken away, Charlie looked at the Wade Family who was kneeling in front of him, and then turned around and said to Lord Wade: "I will stay in

front of my parents' spirits for a while, and wait for the group of people down the mountain to kowtow all the way up. , Let them kneel here first."

Lord Wade said without hesitation: "No problem, Charlie, go, teach me here."

Charlie nodded, and walked through several rows of tombstones, walked to the tomb of his parents, and knelt down slowly.

Staring at the photos of his parents, Charlie was filled with emotion. He couldn't help but whispered: "Dad, my son is now the Patriarch of the Wade Family. If Grandpa passed you the position of Patriarch to you earlier, I would like to come to you and mom. Nor will he leave his hometown to go to Aurous Hill, let alone cause a murderous calamity..."

The Charismatic Charlie Wade Chapter 3648

"Parents, please rest assured that your son will find the murderer who killed you two back then and avenge you two!"

Speaking of this, Charlie looked at the portrait of his father's handsome face, and choked up: "Dad...I know that you always wanted to carry the Wade Family forward and let the Wade Family stand on top of the world. Now, your son has decided to carry you. The banner of that year will one day make the Wade Family the top family in the world!"

After speaking, Charlie looked at the portrait of his mother again, and said with shame: "Mom... they all persuaded me to see my grandpa and grandma. I believe you definitely want me to see them too, but my grandpa and grandma are really strange. There is an intersection, and now you are no longer there. I really don't know how to face their elders, so this matter may not be realized for the time being. Please forgive me..."

Afterwards, Charlie leaned down and knocked three heads in front of his parents' tombstone.

Immediately afterwards, he said: "Dad and mom, my son will accompany you today. I may return to Aurous Hill tomorrow. At the moment, my son is not ready to open his identity and shouldn't stay in Eastcliff for a long time. I will often take time to visit you..."

Having said that, Charlie said again: "When the son officially discloses his identity to the world in the future, the son will bring your two daughter-in-laws with him, and let you two see the other half of your son, and let you two. More at ease."

At this point, Charlie felt melancholy, and tears slipped silently.

For the next few hours, Charlie didn't speak any more, but silently knelt in front of his parents' spirits without saying a word.

The Wade Family can only see his back from below. No one knows that this man who has just taken the Wanlong Palace and completely changed the pattern of the Nordic royal family has already burst into tears in front of his parents' grave.

A few hours later, most of the Wade Family's collateral members knelt down all the way to the archway on the mountain.

Seeing a group of Wade Family prostitutes also kneeling here, all of them were a little dumbfounded.

Before they could figure out why the Wade Family's direct line members also knelt down, they were scolded by the soldiers of the Wanlong Temple and knelt down one after another.

As more and more people came up, the Yelingshan archway was almost full of people kneeling down.

At this time, the sky is getting late, and the golden sunset spreads over the entire Yeling Mountain, making these white marble tombstones on Yeling Mountain look particularly eye-catching.

The setting sun on the horizon reflected Charlie's back, and everyone watched intently, waiting for his next instructions.

However, this figure knelt there, motionless for several hours, like a sculpture.

When the fiery cloud was shining in the sky, Charlie slowly got up, turned around, and saw that the Wade Family knelt down and slowly walked down from the mausoleum.

The core members of the Wade Family and the collateral members all looked at him, and most of them were very nervous, except for Lord Wade and Aaliyah's expressions with full expectation.

Charlie stood in front of everyone, looked around for a week, and said in a cold voice: "From today onwards, the Wade Family's ancestor worship ceremony will be changed from once every twelve years to once a year! The form can be simplified, but everyone must be clear again. Come to Yeling Mountain to worship the ancestors personally on the day of the festival, and no one can be absent!"

"In addition, all members of the Wade Family's collateral family will come to Eastcliff every three months to hold a debriefing meeting to report in detail to the main family on the business situation in the past three months, and no one is allowed to be absent! Listen! do you understand?!"

In Charlie's view, these collateral feudal kings of the Wade Family only come to worship once every twelve years. This frequency is really too low. It is precisely because of this that they can't talk about loyalty to the Wade Family at all. The family has no actual control over them.

However, from now on, all of this must be completely changed.

Asking them to worship their ancestors every year and report their duties every three months is to strengthen the master's control of the Wade Family.

If you compare the Wade Family to a feudal dynasty, what Charlie has to do now is to strengthen the centralization of power, weaken the decentralization, and hold this group of vassals scattered all over the place firmly in his hands!

The Charismatic Charlie Wade Chapter 3649

No one thought that Charlie would change the ancestor worship ceremony once every 12 years to once a year.

You know, although the ancestor worship ceremony is of extraordinary significance, it is also a matter of labor and wealth.

Therefore, an older member of the collateral branch in the crowd said, "Charlie...The ancestor worship ceremony is once every twelve years. It is a rule set by the ancestors. You have to change it to once a year. Is it frequent? I personally think that it may not be a good thing for us to disturb the peace of our ancestors so frequently! If our ancestors are unhappy, then this is a great disrespect for our ancestors!"

Charlie looked at him and said in a cold voice, "Because it used to be once every twelve years, you guys with the surname wade have long forgotten your ancestors out of the clouds! Others said they would come to dig your ancestor's grave. All of you escaped from Eastcliff overnight! Do you respect your ancestors so much?!"

The old man suddenly turned red and closed his mouth quickly.

Seeing that he was not speaking, Charlie questioned: "Why are you not speaking anymore? Wasn't he quite capable of speaking just now?"

After all, Charlie pointed to Bruce's grave behind him and asked him coldly: "Come, in front of the old ancestor, you explain to the old ancestor, how on earth do you respect the old ancestor?"

The old man said in shame: "I...I was wrong..."

Charlie said coldly: "Don't tell me! Come out and tell your ancestors personally!"

The old man could only walk out of the crowd, facing the graves of more than one hundred wade family ancestors, and said with shame: "The wade family ancestors are here, and the descendant is wrong! Hope the ancestors forgive me!"

Charlie snorted coldly, ignored the old man, and continued to face the more than seven hundred Wade Family branches in front of him, and sternly said: "Don't think you are Wade Family side branches, my master family's Patriarch makes demands of you. , Is bullying you!"

Having said that, he pointed to Corran wade, Myles, Jon, Brenden and others who were kneeling on one side, and said coldly: "Open your eyes to me and take a good look at the kneelings beside you! They are all one by one. Members of the Wade Family! Here are my uncle, my uncle, my aunt, and my cousins. They made mistakes and they still have to kneel here for three days and three nights!"

As soon as these words came out, Corran wade and the other members of the Wade Family's family bowed their heads in shame, and the more than 700 collateral branch members were all dumbfounded!

They realized that Charlie's iron and blood was not only aimed at outsiders like them.

He is more cruel to his family than to them!

Charlie continued to say something amazing at this time: "And I might as well tell you that most of them, from now on, will stay in Yeling Mountain for the next three years to honor their ancestors!"

"In the next three years, even if there is a knife in the sky, they will not be allowed to leave half a step!"

"Even if someone is seriously ill and wants to live in the ICU, I will build the ICU for him to Yeling Mountain!"

When these members of the Wade Family collateral family heard this, the whole person had begun to feel a little panic. Just now, I thought Charlie would be cruel to let his family kneel here for three days and three nights.

At this time, Charlie looked at them coldly, and continued: "So you will listen to me one by one. From now on, if any of you dare to betray the Wade Family or cause the Wade Family to suffer losses, then you have one Counting one, the end must be worse than them!"

Seeing this, no one dared to raise any objections to the ancestor worship ceremony.

The reason why Charlie wants the ancestor worship ceremony once a year is to continuously strengthen their loyalty to the Wade Family through a faster frequency, and at the same time let them understand the master-slave relationship between the Wade Family and them, so that they will have the idea of loyalty to the emperor. , And then strengthened the Wade Family's control over them.

The Charismatic Charlie Wade Chapter 3650

At this time, a young man said: "I understand that the ancestor worship ceremony takes place once a year, but why do we have to come to Eastcliff to report on our duties every three months?"

Charlie asked him back: "You take the resources of the Wade Family and earn the money of the Wade Family. I ask you to report on your work every three months. Do you have any comments?"

The young man hurriedly said, "Our family has moved overseas a long time ago. Over the years, we have gradually shifted the focus of business. At present, the business we operate overseas has nothing to do with the Wade Family."

Charlie nodded and asked him: "What is your name?"

The young man replied: "My name is Patrick wade."

Charlie nodded slightly and said, "Okay, let me ask you, what business is your family currently operating overseas?"

Patrick wade hurriedly said: "We produce and sell Chinese-style furniture throughout Europe, mainly for Chinese customers, and our production place is Romania."

Charlie frowned and asked, "Why do you want to produce Chinese-style furniture in Romania?"

Patrick wade replied: "The main reason is that Romania's timber production is very high, and their labor costs are relatively cheap."

Charlie asked again: "Then how many workers do you have in Romania? What is the annual output value?"

Patrick wade thought for a while and said: "We have approximately 10,000 employees in Romania, with an annual output value of approximately 2 billion euros and a net profit of approximately 20%."

Charlie nodded and said, "In this way, you have a net profit of 400 million euros a year for this business alone."

"Yes." Patrick Wade said: "A few years ago our production base was still in China. I suggested that my family move the production base to Romania."

Charlie asked him: "The production base is in China, why do you suggest moving to Romania?"

Patrick Wade explained with some pride: "Originally, we produced in China and sold in Europe. Although the logistics cost was much higher, because the domestic labor was relatively cheap, the overall profit rate was even higher than it is now. I have a hunch that the EU will continue to increase tariffs and other taxes on foreign products in the future. In that case, our products will lose all advantages in the European market, and profit margins will also fall sharply. And I really did not guess wrong. From three years since the beginning of the past, the EU has been increasing tariffs on imported furniture, and so far it has increased by at least 40%!"

Charlie nodded and said, "After you move your company to Romania, you can avoid this European tariff policy?"

"Yes!" Patrick Wade explained: "While we moved our production base to Romania, we also re-registered a company in Romania, which is equivalent to turning our products into Romanian products, and because Romania also joined the European Union, the entire European market has given great preferential policies to Romanian products. As a result, we have actually enjoyed this preferential treatment."

"Tax costs are lower, our prices can be lowered, so that we have more sales, so the overall profit margin is also very impressive, in contrast, other people who have been producing Chinese-style furniture, every company that sells to Europe has suffered heavy losses."

Charlie smiled and said, "It seems that you are quite good at business."

Patrick Wade said confidently: "Of course, I completed my bachelor's degree at Yale University when I was 20, and I completed my MBA in two years. I have been involved in the management of a family business since I was 18. A genius in business, but definitely better than most entrepreneurs on paper."

Charlie nodded slightly and smiled, and said: "In this case, you don't have to go back this time. Stay in China and help me out. By the way, I will also check if you really have two brushes!"

The Charismatic Charlie Wade Chapter 3651

As soon as Charlie said these words, Patrick Wade trembled in shock.

The reason why he said this to Charlie was originally to let Charlie understand that his family's current business does not depend on the Wade Family, nor does it need any resources and assistance from the Wade Family. In three months, I came to China to make a report to him.

But Patrick Wade never expected that after saying so much, Charlie would directly let himself stay in China to help him.

He suddenly regretted that he couldn't wait to pump dozens of his big mouths!

Immediately, he hurriedly said with a mournful face: "Mr. wade...Don't take what I just said seriously, because they are all my blows..."

Charlie asked indifferently, "Oh? Really?"

Patrick Wade quickly nodded his head like mashed garlic.

At this time, a middle-aged man next to Patrick Wade said with a nervous expression: "Charlie...I am Patrick Wade's father, Will Wade, and your father is a cousin. My son is born to brag. It's just a idiot who says "one bottle doesn't sound, half bottle slams." I don't know how many times I have scolded him so that he should not brag outside, but this kid just doesn't listen..."

As he said, he quickly said with a smile: "You are now the Patriarch of the Wade Family, so don't be familiar with such bragging little brats..."

Charlie nodded lightly, muttering to himself: "Oh... after talking for a long time, it turned out to be blowing..."

Will Wade slapped Patrick Wade's head and shouted angrily: "You bastard, don't hurry up and apologize to the owner of the house!"

Patrick Wade was slapped and couldn't see the slightest grievance. On the contrary, he said with an uneasy expression: "Mr. Wade...I was wrong. I shouldn't brag in front of you... and please... don't tell me. General knowledge....."

Charlie waved his hand, and said casually: "Oh, people are not arrogant and vain, who doesn't like to brag when they are young? I will definitely not take this trivial matter to my heart."

Patrick Wade breathed a sigh of relief and quickly said with thanks to Dade: "Thank you, Mr. Ye for magnanimity! Thank you, Mr. Wade for magnanimity!!!"

Charlie nodded, then looked at Will Wade and asked: "I have a question I want to ask."

Will Wade hurriedly said humbly: "Patriarch, if you have any questions, don't hesitate to ask. We can't talk about asking for advice. We are just a little trouble, how can you be worthy of saying that..."

Charlie smiled and said, "That's right, I want to know whether the things Patrick Wade said just now are true or false? Did he completely make up a series of things for me that never happened before? , Or impose on himself something that has really happened but has nothing to do with him?"

Will Wade squatted a little, and said falteringly: "This...this...it can't be said that it never happened..."

Seeing his inexplicable expression, Charlie asked straight to the point: "I just want to know, did the unexplored prophet move the company from China to Romania 5 years ago, did it really happen?"

"Yes, yes!" Will Wade hurriedly nodded and admitted.

He knew very well that things could not be concealed at all. Charlie could know the development path of all his family's industries as long as he did a little investigation. There was no way to hide it at all.

Charlie asked again at this time: "Then I want to know, if it wasn't Patrick Wade who made the decision five years ago, who on earth was it?"

Will Wade suddenly became more nervous, squatting and saying: "Yes...yes..."

"What is it?" Charlie frowned, and asked coldly: "Is it so difficult to say a person's name?"

Seeing Charlie's dissatisfaction, Will Wade hurriedly bit the bullet and said: "It's me...it's me...it's the decision I made..."

Patrick Wade looked at his father at this time, with a look of worry and fear on his face, as well as full of guilt.

Charlie looked at Will Wade and asked seriously: "Is it really you?"

Will Wade nodded repeatedly, gritted his teeth and said: "Really...really it's me..."

The Charismatic Charlie Wade Chapter 3652

"That's all right." Charlie said: "Since it is you, then you can stay. The family is now a waste of time. It is the critical moment for the need to employ people, and the children of the family will basically be in the next three years. I'm keeping filial piety in Yeling Mountain, so it's just when you need your collateral branches to contribute more to the family."

When Patrick Wade heard this, he immediately protested: "Mr. Wade! Although everyone has the surname Wade, we have long been independent, and our family also has our own affairs. How can we treat our own affairs at this time? Throw it aside and come to serve the family? Besides, we are just a little trouble, unlike our own family, if we delay our own affairs, wouldn't it be more difficult in the future?"

As he said, he hurriedly looked at everyone around him, and fanned the flames: "Do you guys tell me if there is any truth to what I just said? My family was originally a large family with assets of more than one trillion yuan. The Dragon Palace is under his command, and his strength is much stronger than the sum of our collaterals. How can we grab the manpower of our collaterals again?"

Other people are also somewhat dissatisfied.

Patrick Wade's words really grasped the core point of inciting them.

The core point of this is that the Wade Family's family is rich and wealthy. It extorted so much money from everyone and forced everyone to sign an installment agreement. Not to mention, now they want to directly grab people from other families. This is really unreasonable.

But although they were dissatisfied, Charlie did not force them to get out of their lives after all, so at this time, none of them dared to help, everyone bowed their heads and said nothing.

Patrick Wade was anxious, and blurted out: "Everyone is saying something! It's okay to make some comments, right?"

No one responded.

Charlie looked at Patrick Wade at this time, and said with a smile: "You are young and you have a lot of thoughts, and you really have skills."

Speaking of this, Charlie turned around and said: "But you have overlooked a very important thing. Skills are not even a fart in the face of absolute power."

Patrick Wade was panicked when Charlie saw through his mind.

Charlie continued at this time: "I don't care if your family's current business is related to the Wade Family. I just want to know, where did your family's initial funds come from? Did the Wade Family give it?"

The father and son did not dare to answer for a time.

Lord Wade said at this time: "Charlie, the will family, they were in the furniture business when they were split out during the Republic of China. When they were split out, the Wade Family gave 200,000 Xian Dayang, which accounted for 30% of their business. Shares, and the Wade Family introduced a lot of business to them."

"Later after the establishment of New China, Hong Yang's father took the opportunity to play a trick. He took the initiative to donate the original private enterprise to the local commune on the grounds that he was not good enough and wanted to change the impression of the local people. Only one tenth was actually donated, but when he reported to the Wade Family, he only said that it was all donated."

"Later he was silent for two years and started anew and opened the factory again, but because of the change of name, the 30% of the shares in the family were naturally uncountable. These families all know it, but they didn't go into it."

Charlie sneered when he heard this, and said, "Have you heard? You collateral branch, the pit family has a long history. If I really turn over the old accounts, none of you can withstand verification. "

Will Wade, Patrick Wade, father and son, were extremely nervous, bowed their heads and dared not speak.

Charlie looked at Patrick Wade at this time, and said coldly: "Let you stay with your family to share your worries and contribute to your family. A good opportunity to fight for preferential treatment for yourself!"

"If you are honest and dedicated to your family for two years, your family's monthly installment fee of six thousandths may be discounted in half;"

"If you perform very well, it is possible for me to give you a full wave of my hand!"

"But if you still dare to be cautious with your family up to now, you will be incorrigible and hopeless!"

"If this is the case, let your family also come to Yeling Mountain to keep their filial piety for three years!"

The Charismatic Charlie Wade Chapter 3653

From the moment Charlie decided to carry his father's banner, he hadn't prepared to be polite to any surname wade.

Because he knew very well in his heart that although these people were all family members, they were even more enemies.

Being a prince is easy, but being an emperor is too difficult.

Once you become an emperor and want to be a successful emperor at the same time, you must abandon the fetters between family relationships.

From the moment of enthronement, there are no more fathers and sons, no mothers and sons, no grandchildren, no more brothers and sisters.

Yes, it's just the king and the minister!

One person is king!

Ten thousand people are ministers!

Therefore, Charlie would naturally not be polite to this group of side members of the Wade Family.

In the final analysis, just one sentence.

What is yours is mine, what is mine is still mine!

Seeing that Patrick Wade was a young man with a clear mind and unique vision, he moved his mind to leave him in the Wade Family.

In the future, if you want to cooperate with Helena and use the Nordic royal family to open the door of the European market, you will inevitably need a person who knows Europe well to be your own think tank.

It just so happens that Patrick Wade's family has developed in Europe for many years and even moved the company to Europe. He must have a good understanding of European policies.

That being the case, I'm sorry, this person, I want Charlie.

However, right now his father Will Wade came out and topped the bag. Although Charlie could see through it, it was not easy to pierce it directly. So he said to Will Wade: "You were separated from the Wade Family one by one. The resources of the Wade Family have only become today. As a result, not only are you not grateful, but you have left the master family and the ancestors of the Wade Family behind. Now letting you stay in the master family and work hard is also a good opportunity for you to redeem your sins. , You have to hold it well! Otherwise, I will not be polite. When the time comes, my wife and children, as well as your family's original property, will be implicated. Don't blame me for not reminding me in advance."

Will Wade knew that he was wrong, and quickly nodded and said: "What the Patriarch said...we must take good care of..."

After he finished speaking, he said with a little bottomlessness: "Patriarch, it's just that I have limited abilities. If something is not done in place in the future, or it doesn't suit your wishes, don't blame it..."

At this time, Will Wade had already thought very clearly. It would be a good thing if he could stay in Wade's house, because his son Patrick Wade had inexperienced, but his business control and management capabilities were indeed far above him.

In the past few years, his own industry has been continuously reformed and upgraded. Whether it is moving positions, changing faces, or upgrading production technology, it is almost always Patrick Wade pushing behind him. Therefore, he stayed and replaced him to preside over the overall situation. There is no loss.

Patrick Wade also realized at this time that he was really talking too much just now.

It's okay to play with Charlie. In the end, his father will be left in the country by Charlie...

At this moment, he wanted to take the initiative to explain clearly, let his father go back and stay by himself, so as not to prevent his father from being punished for himself.

But when I think of it, my family's business is now at a critical stage of ascending, and although I have not formally taken over as chairman, he has actually fully assumed the responsibilities of chairman functionally. It can be said that the entire family business is fully Take control by yourself.

He resisted the frank thought again.

I could only look at my father with tears, and said seriously: "Dad, there is me at home, don't worry..."

Will Wade also nodded again and again, and exhorted: "I will stay at the master's house to serve the master's house, then you will take over the chairman's seat..."

Speaking of this, Will Wade sighed, and said with emotion: "It's just that you are so young and inexperienced, so rushing to catch the ducks on the shelves, I am really worried that you are not doing well..."

The Charismatic Charlie Wade Chapter 3654

Patrick Wade hurriedly followed his father's words and said, "Dad... don't worry, I will do my best. I dare not say that I will lead the group by leaps and bounds. At least I will try my best to protect the family business and wait for you to return to control the overall situation..."

Will Wade sighed, "Hey! It is my duty to serve the master, so there is no other way besides forcing you to grow quickly!"

Charlie couldn't help frowning, and thought to himself: "You two are still playing with me here? It's pretty good."

Thinking of this, he cleared his throat and said to Will Wade: "It is indeed too risky to hand over the huge family business to a little boy. Although the master needs your efforts, it must not be for you to give up your own family. The original property, in this way, seems to be too selfish as the owner of my family."

When Will Wade and Patrick Wade father and son heard this, they were overjoyed, thinking that Charlie was going to change his mind.

Will Wade didn't dare to show it, and planned to perform another wave of stability, so he hurriedly said: "Patriarch, at this time, even if we let us give up our family and protect everyone, we can understand..."

Charlie waved his hand and said: "This is still not suitable."

As he said, his eyes suddenly lit up and he blurted out: "I have a good way!"

Will Wade asked hurriedly, "Patriarch, what can you do?"

Charlie pointed to Corran, who was kneeling on the ground among the crowd, and said: "My uncle Corran is the son of Wade's parents. He has outstanding ability. It is better to let him run your family business for you. You stay in the country with your son. Working for the master, with my uncle, maybe two or three years later, your family business will become a Fortune 500 in the world. Are you not in the furniture business? Give my uncle three years to definitely let your market value surpass Sweden IKEA."

Corran was a little embarrassed to hear it.

"Do I have such great ability? Damn, I almost believe it myself..."

However, when he thought of leaving Yeling Mountain or even leaving the country without having to stay under Yeling Mountain for three years, Corran was very excited and immediately said: "charlie, thank you for your trust in me! I will do my best!"

Charlie nodded in satisfaction, then looked at Patrick Wade, and said seriously: "Patrick Wade, your father is old and has not been in the country for many years. I am worried that he will not be able to adapt to the environment, so you simply leave to take care of his diet and daily life. "

In a word, Patrick Wade's expression instantly solidified...

He didn't expect that his father finally took him out of it, and Charlie went around and put him in again.

Just when he was extremely depressed and didn't know how to answer, Charlie said again: "As for your family business, you can safely and boldly give it to my uncle. He will definitely help you run it well."

"Think about it, as long as you have worked for the boss for a few years, you will be able to reap a Fortune 500 company after you return. Isn't this the same as the one for nothing?"

Will Wade and Patrick Wade both had their hearts to die.

Will Wade cursed inwardly: "If Corran really has such great ability, why don't you reuse him and assign him to us? This kind of scam should really be responsible for our family's business, and it will take us less than three years. Bankruptcy..."

Patrick Wade was also extremely depressed, thinking: "Although Dad is not a top entrepreneur, at least he has done it for so many years. He is very experienced and very stable. Even if he doesn't like reform and innovation, at least It can also maintain the current scale of the family business... But if Corran is replaced, he still has to completely ruin our family?"

Thinking of this, Patrick Wade said quickly: "Patriarch...our kind of small business, how can we bother the great god of uncle ! Let him take care of our small factory, it is simply anti-aircraft guns to fight mosquitoes, it is too wasteful..."

Charlie waved his hand indifferently, and said openly: "It's okay, no waste at all, our family has this condition!"

The Charismatic Charlie Wade Chapter 3655

Patrick Wade was about to collapse.

He finally understood that Charlie was the master of acting.

I'm not even a fart when I and my father are in front of him.

Originally, I and my dad wanted to play a role, so that they could switch themselves out and go back to continue running the family business.

Unexpectedly, Charlie's words in a few words not only put him back, but also gave their family a big Buddha that can't be offended.

Will Wade was also extremely depressed, he had no idea how to end it at the moment.

Even if he takes the initiative to let his son stay, the chances are very slim.

Because once that happened, it was tantamount to admitting that Charlie had been lied to just now.

In front of the Wade Family, they are the people who wear sin. As a result, they are still thinking carefully with Charlie at this time. If Charlie grabs the handle and blames it, then there is really no chance.

Corran was almost agitated at this time.

Seeing Patrick Wade still wanting to refuse, he hurriedly said: "charlie, you don't need to ask them for advice on this matter. I think they also owe us . I'm sorry to trouble me again. People are always easy to talk, and the trouble is a little trouble, but I work hard and have no complaints!"

Jon Wade went crazy with envy, and quickly pleaded: "Charlie, my father is not in good health, can I also take care of my father's diet and daily life?"

Charlie ignored him, turned to look at Will Wade and Patrick Wade, and asked with a smile: "How about it, my Patriarch does things better, right? My dear uncles will all send you to help. What is this going to be like? Selfless spirit?"

Lord Banks listened to the side, and couldn't help but stretch out his hand to wipe his face, saying that Charlie was really hurt, and he couldn't hold on to the face of his former Patriarch.

He knows what his eldest son is like, he knows better than anyone else.

As far as Corran's level was, it was a drag in Wade's family.

If Wade is a speeding train, then Corran is one of the carriages that can neither carry passengers nor pull goods.

This cargo followed the Wade Family train, except for increasing the fuel consumption of this train and reducing the speed of this train, there was no positive effect at all.

Normally in the Wade Family, professional managers and multiple think tanks around the world are responsible for the operation of serious matters. He only needs to sign a symbol in the decision letter, and then take the highest salary and dividends of the entire Wade Family.

The furniture company in Patrick Wade's family has a profit of only a few hundred million euros a year. Under normal circumstances, Corran would have to spend so much on dried flowers in a year.

Moreover, Corran spends money very cleverly to establish a name.

If he is going to study abroad, he must first buy the best villa in the local area as his residence. According to his words, he is not used to any hotel and prefers to live at home, so buying a house is the best choice.

Moreover, he will use the purchase of a house itself as an investment as an excuse.

What's more nonsense is that he would move out of McDonald's to open stores everywhere, buy houses and land everywhere, and finally make a lot of blood to endorse himself.

However, if a normal person buys a house, it is indeed an investment, but if he buys a house, Corran is completely paying IQ tax.

A villa of 50 million, with a decoration of 20 million, can be moved in with a bag and sold for 100 million. He also thinks it is very cost-effective.

Moreover, the purchased villas need to purchase various items, including all kinds of daily necessities, cars, yachts, and even helicopters.

In addition, it also requires a lot of manpower and material resources to maintain it to ensure that you can live at any time at any time, and there are servants to provide services at any time.

So this one billion yuan of villas, buying a car, buying a yacht, buying a helicopter, may cost tens of millions.

The Charismatic Charlie Wade Chapter 3656

Then the depreciation cost of these things is astonishingly high. Depreciation of 10 million a year is easy, and the maintenance cost of the entire villa and various equipment is also tens of millions, plus the salary of the personnel, which is absolutely astronomical.

In other words, if a villa is left there and left untouched, 20 million will be thrown in a year.

If he goes there twice a year, the expenses will have to increase a lot.

After five years of calculation, the original value of 70 million villas may indeed rise, to 100 million, or even a little over 100 million.

However, the maintenance costs and depreciation costs that have been invested in these five years are at least more than one billion yuan.

When I bought it for 100 million, it cost more than 100 million. In the end, it could only be sold for a little over 100 million. Can this be regarded as a fart investment?

Before, it was because the Wade Family had money, so he spent hundreds of millions or even more than a billion yuan a year through various means, which was nothing in the Wade Family, so the old man didn't bother to pursue it.

But now if he were to be in charge of the Patrick Wade family's business, it would be equivalent to arranging a pig to be the boss of a group of ants. Can the pig be the boss first? This group of ants is exhausted. A little grain, even if you don't eat a bite, you may not be able to feed him enough.

Will Wade had also heard about Corran's level for a long time. At this moment, he was afraid that Corran would really go to his home and exhaust all the fortunes he had accumulated for so many years, so he didn't care about Charlie's guilt, so he knelt on the ground and confessed repeatedly: "Patriarch, I was wrong... I confess to you... My son Patrick Wade has been making decisions in our family for several years! I lied to you just now because I still have selfish intentions and want my son to go back and preside over the overall situation. ...I now know that I was wrong...Please punish..."

Patrick Wade also paled with fright, and blurted out: "Patriarch... please let my father go back to run the family business. I will stay in the country and give my best to my master!"

Charlie's expression instantly became cold and cold, and he sternly reprimanded: "You are so bold! Fleeing overnight, and now instead of repenting, you are still lying here! It seems that you collateral branches are in your heart. I really don't take the master's house seriously!"

When Will Wade heard this, he shuddered in shock, and quickly pleaded: "Patriarch...I was just a momentary confusion, and didn't take the master's family seriously... After all, our collateral branches can have today. From the master's house..."

Charlie snorted coldly, looked at everyone, and said loudly: "The previous peaceful and prosperous age covered up too many problems in the Wade Family, and also covered too much dirt in the Wade Family! If it weren't for this catastrophe, I would have thought that the Wade Family was Really prosperous and prosperous! It seems that it is all just a hypocritical appearance!"

Having said that, Charlie cleared his throat and continued: "From now on, these problems must be completely resolved! No matter whether your business is still related to the Wade Family, everyone must put the interests of the master family first!"

"If you perform well, your original business with the Wade Family can continue, and the new industry of the Wade Family will give you some room to participate in the future. My purpose is nothing more than eight words. I will support you and support you. I!"

"But if you still go your own way, then I will not only cut off all business between the master and you, but also count all the assistance and support the master has given you over the years, and claim compensation based on interest calculated in a profitable way. , If I refuse to accept the account, I have a way to clean up you!"

"Which of you has objections, you can raise them now!"

When everyone heard this, their expressions suddenly stunned, and they hurriedly stated that they would behave well in the future.

Seeing that no one had any objections, Charlie continued: "Well, since you are all willing to choose to perform well, then there is a tricky thing right now that requires you to work together to share your worries for the master."

Everyone looked at Charlie intently, wondering what the tricky thing Charlie said was.

Charlie said indifferently at this time: "The subordinates of the Wade Family are the same as you. When they saw the Wanlong Palace killing the door, they ran away long ago. In the future, there will be no subordinates available in the main family. Therefore, before the end of this month, each of your family members must select two younger generations from the immediate family to work for the master's house! First fill in the gaps in the subordinates!"

The Charismatic Charlie Wade Chapter 3657

In Charlie's eyes, these collateral families are themselves second-class citizens relative to the main family.

Coupled with the black history of ungratefulness, it is even more impossible for me to treat them as adults in the future.

Letting them each have two younger generations to come to wade's family to serve as a servant is to let them know that their own mission is to serve the master.

More than 700 collateral members of the Wade Family heard this, although their hearts were full of complaints, but with the lessons learned from the wade family, no one dared to say a word at this time.

Seeing that everyone didn't dare to object, Charlie said, "Since you all have no objection, then this matter is settled."

After all, he took the roster of this ancestor worship ceremony and said: "There are information on each of the collateral branches of the Wade Family, as well as the list of representatives who came to Eastcliff to participate in the ancestor worship ceremony. Within a week, All families must submit the materials of selected young generations. As for the selection criteria, my requirements are very high. You will listen to me."

Everyone looked at Charlie with bated breath, wondering how harsh he would ask.

Charlie cleared his throat and said coldly: "First, it must be an immediate family member of the Wade Family. Don't even think about bringing an outsider or relative to me to fool me. Those who come must have the surname wade, and they must be Grandchildren and grandchildren of each of you!"

How dare everyone speak, they can only nod their heads in response.

Charlie said again: "Second, you must have a college degree or above;"

"Third, the age range is between 22 and 35 years old. Those over 35 years old are not allowed! And it is not allowed to send all female dependents. In each family, at least one male should be guaranteed."

Some people's expressions changed slightly.

At first they heard that they would send someone to the master's house, and what they thought was that they would be able to take pictures of the two girls. Children and grandchildren are sent over to the present.

But as soon as Charlie said these words, all of them were very uncomfortable.

It's okay to say that some families have many males, but those with few males are depressed.

There are only two or three young grandchildren who meet the qualifications and age requirements. They are either continuing to study for a master's or doctoral degree, or have received experience in the post. At this time, they are transferred to the Wade Family as a subordinate, regardless of whether it is based on actual conditions. From the psychological point of view, it is difficult for them to accept.

At this time, Charlie continued: "Fourth, all those who come to serve at the host's house will take turns every two years. After the two-year period expires, you can leave the host's house and return to your own home, but you must send the next group of people three months in advance. Send it here and transfer work with the previous group of people at the same time to ensure that all positions can be seamlessly connected, otherwise you will be the only one to ask if you are on a business trip."

When everyone heard this, their expressions were much more bitter than bitter gourd.

In their view, Charlie's requirements for them were already extremely harsh.

Moreover, behind this, there is a faint feeling of ancient protons.

It's like every vassal prince must send a son to the capital to be a hostage.

When they think of this level, it becomes even harder for them to accept it.

However, there is no way to accept it.

What Charlie is playing with them now is the power politics of diplomacy.

Not only economic sanctions, but also military threats and attacks, and even control of their internal affairs.

Needless to say, economic sanctions, there are only a few families that can basically no longer rely on the Wade Family like wade's family, and most of the businesses of other families rely on the Wade Family's support.

Moreover, this group of people has all their cash sucked up by the Wanlong Temple, and they have signed a five-year installment agreement, and the economic lifeline is already in Charlie's hands.

The Charismatic Charlie Wade Chapter 3658

Not to mention the level of force, Wanlong Palace is Charlie's best fist right now, wherever he refers to it, this alone is enough for this group of collateral members to be extremely jealous.

As for the control of internal affairs, it depends entirely on Charlie's mind. Whoever is disobedient, Charlie can completely abolish the disobedient Patriarch, and then support an obedient person from within.

These collateral members also saw Charlie's intentions clearly, but they did not have the strength to fight Charlie at all, so they could only be forced to agree.

Seeing that everyone had no objections, Charlie said: "Since you all have no objections, then proceed as I said. Within a week, report the list and information to Ms. Cynthia Wade for review, follow-up staff reports, work docking, and Ms. Cynthia Wade is responsible for the docking."

When Cynthia Wade heard Charlie mention his name, he immediately said excitedly: "charlie, don't worry, Auntie must do the things you explained!"

Charlie nodded in satisfaction, and said coldly: "All of you will listen to me. This matter is subject to Ms. Cynthia Wade's decision. Ms. Cynthia Wade will report to me directly. If any of you are not cooperative or negative In response, I will not spare him lightly!"

Everyone's expressions shrank, and although their hearts were extremely painful, they could only express their willingness to cooperate actively.

But Cynthia Wade was already very excited at this time.

Originally, when she saw Charlie's cold face, she felt all over her body hairy, but now she felt so cute when she looked at it.

This is also because Charlie did treat her a little bit preferentially in the past two days.

She was exempted from the matter of keeping filial piety before, and she only had to kneel on Yeling Mountain for three days before leaving.

And now, entrusting such an important job to her, it immediately made her feel that she was reused by Charlie.

At the same time, she also sighed in her heart: "It seems that the bitterness I had suffered in Aurous Hill before was not for nothing..."

In fact, what Cynthia Wade didn't know was that it was not that Charlie intended to reuse her, but that Charlie knew her mentality well.

Charlie knew that his aunt wanted to gain a foothold in Wade's family and was always looking for opportunities to perform.

Moreover, she has a quick temper, a big temper, and a very high posture. She may not have any skills and abilities to do serious things, but she must be asked to be a supervisor, to torture people, and to be a bit of an egg. Things, then she is definitely the most suitable candidate.

The temper of her old princess, once it broke out, most people couldn't stand it at all.

Therefore, leave this to Cynthia Wade to be responsible, and the follow-up will definitely be enough for this group of collateral families to drink a pot, and those juniors who are sent to work, don't want to sneak and play in the future.

Charlie opened his mouth again at this time: "By the way, in order to prevent the person you submitted, Ms. Cynthia Wade can't look down on it, so you simply submit all the member materials that meet my requirements above to her, and she will take care of it. Choose the best."

As soon as Charlie said these words, the heads of these collateral families wanted to cry without tears.

Originally, they thought that they only needed to choose people according to Charlie's requirements. There was basically no pressure on the males in the family, so they could just choose a less popular one and send it over.

Just like horse racing, at this time, you can send inferior horses to fight, and it doesn't matter if you lose.

However, now Charlie asks them to submit everyone to Cynthia Wade for screening, which is troublesome, because Cynthia Wade will definitely choose the best selection among them. In that case, it is very likely that the selected successor will be the original successor of his family. People, how can they stand this situation?

However, although these people are difficult to accept, there are still some people who are already excited and intolerable. These people are basically the younger generations who are not ranked first in their respective families, but once the first person is selected to serve in the main house, then they will be more. A chance for a few minutes to come.

Charlie naturally saw the faces of these people who were happy and sad, but he didn't bother to pay attention to it, and told the soldiers of the Wanlong Temple: "You must drive down the first half of this group of people, and let them go back to their homes and find their mothers; as for the half that comes up later, let them kneel in front of the ancestors of the Wade Family until this time tomorrow before letting them go!"

The Charismatic Charlie Wade Chapter 3659

Except for Will Wade and Patrick Wade's father and son who didn't dare to move, the remaining half of the collateral members were driven off Yeling Mountain by the soldiers of the Wanlong Palace.

The remaining half can only kneel here honestly for 24 hours.

Will Wade and Patrick Wade's father and son were originally the half who went up the mountain first. Seeing that Charlie was willing to let the person who went up the mountain first left, Patrick Wade hurriedly asked him: "Patriarch...I wonder if you can raise your hand and let my dad go back?"

Charlie said coldly: "Yes, you and your dad will kneel here for three days. After three days, your dad can leave. You can report to Doris Young at Aurous Hill."

When Patrick Wade heard this, he was overjoyed and quickly said gratefully: "Thank you, Patriarch...Thank you..."

Will Wade also breathed a sigh of relief, thanking Dade and said, "Thank you Patriarch for magnanimity..."

Kneeling on the ground, Corran was anxious when he saw this, and asked quickly: "Charlie...then...what about me? Didn't you say that... let me take care of their family's property? I'm all ready. "

Charlie said indifferently: "Didn't you change your mind again? You don't need to go anymore. You should stay here and keep filial piety to the ancestors."

Corran was suddenly desperate. He thought he had a chance to escape from the sea of suffering, but he didn't expect to be happy.

Jon Wade on the side collapsed even more. He was still dreaming, hoping that his father would take over the Patrick Wade family's business, so that he might follow his father to leave Yeling Mountain, but he didn't expect it would be Huang Liang Yimeng in the end.

Therefore, before Corran could say anything, Jon Wade reconciled and said, "Charlie...you can't let this Will Wade go back for anything. He is inherently rebellious. If you let him go back, it would not be the same as letting the tiger go back to the mountain. Already? I have to keep him and his son in order to be safe!"

When Will Wade and Patrick Wade and his son heard this, they all wanted to come up and beat Jon Wade to death.

I've seen something bad, never seen such a bad one.

Charlie finally forgave the scene the father and son played just now. He didn't expect Jon Wade to say such a thing at this time. This is not a damn thing, this is a damn murder!

Patrick Wade angrily rebuked: "Jon Wade! Our family has never offended you, and you are too vicious!"

Jon Wade didn't care about this, he only knew that only if Charlie left Will Wade, his father could be free.

Only after his father is free can he leave Yeling Mountain.

So, he pointed to Patrick Wade and said excitedly to Charlie: "Charlie, good brother, listen to your brother's advice. You must be careful about this father and son wolf ambition. You can't let any of them go, otherwise it will become a big disaster in the future. what!"

Patrick Wade was trembling with anger, if it weren't for Charlie's presence, he would really rush to beat him.

Charlie smiled and said at this time: "Jon Wade, don't you just want to leave Yeling Mountain? If you think, you just say, there is no need to use me as a gunman, am I as stupid as you think?"

Jon Wade's expression was immediately extremely embarrassed, and he didn't know how to respond for a while.

When Patrick Wade heard this, he looked at Charlie gratefully and blurted out: "Thank you for seeing the master!"

Charlie waved his hand, looked at Jon Wade again, and asked, "Jon Wade, tell me the truth, do you want to leave Yeling Mountain?"

Jon Wade was startled and waved his hand quickly: "No...I don't want to..."

Charlie smiled and said: "Look at you, you are not honest at all. This is what I don't like about you. There is no truth in that mouth all day long."

The Charismatic Charlie Wade Chapter 3660

With that, Charlie said solemnly: "If you want to leave, just say it straight. As long as you say it straight, I will give you a chance. It just happens that I have something at hand that needs someone to do. If you say it straight, I will Leave this to you."

Jon Wade's eyes suddenly lit up, and he couldn't hide his excitement and said, "I said I said... I'm telling the truth... I really don't want to stay in Yeling Mountain... Charlie... Please give me a chance! No matter what you ask me to do, I am willing, as long as you don't let me go to Madagascar to chop sugarcane..."

Charlie nodded and said with a smile: "How could I let you go to Madagascar? What do you say is the surname Wade, I can't let the Wade Family work for the Banks family."

Charlie said with a slight smile: "I want you to go to Northern Europe this time."

When Jon Wade heard the word Nordic, he not only breathed a sigh of relief, but also excitedly said: "Go to Nordic?! I will go! What do you want me to do in Nordic, despite the instructions, I will do my best!"

At this time, Jon Wade was already extremely excited, and couldn't help but ecstatically secretly said: "Charlie wants me to go to Northern Europe. He must want me to represent the Wade Family to strengthen cooperation with the Northern European royal family! What's more, what does Helena say? Once my fiancée, I will soon become the Queen of Northern Europe. If I can regain Helena's heart and marry Helena, then I will become the bond between the Wade Family and the Northern European royal family! Then I will too! Being able to make a duke! Not only can I benefit from it, but the Wade Family can benefit a lot! It seems that Charlie really has a good game!"

Thinking of this, Jon Wade already thought that Charlie would be regarded as a reborn parent, and said quickly flatteringly: "Charlie...oh no! Patriarch! Don't worry! After I arrive in Northern Europe, I will do my best to win back Helena's heart! I will never disappoint you and the Wade Family's hopes of me."

Charlie was stunned, and couldn't help but smile: "Then you may be thinking too much. I sent you to Northern Europe, but I am not asking you to pursue Helena. Besides, she is about to become the queen of the throne. You think with your toes. I want to know that she can't look down on you."

"Ah?" Jon Wade's heart was cold, and he asked, "Then why are you letting me go to Northern Europe? Is it to cooperate with the Northern European royal family as the representative of the Wade Family? But you didn't hand this errand to the second aunt before.?"

Charlie smiled and said: "Of course it is not for you to be the representative of the Wade Family. The main reason is that there are still three people over there who need to be dealt with as soon as possible, so you go to Northern Europe with the soldiers of the Wanlongdian and send those three people to Syria. "

"Ah? Go to Syria?!" When Jon Wade heard this, his whole body almost collapsed, and he blurted out: "Then I would rather stay in Yeling Mountain than go to places like Syria..."

Although the conditions in Yeling Mountain are a bit difficult, they are at least safe.

And can stay with dad and other relatives.

In places like Syria, conditions are 10,000 times more difficult than Yeling Mountain, and there are wars everywhere. Who wants to go there for a while? It's better to be honest and filial to the ancestors in Yeling Mountain.

However, Charlie did not give him a chance to give feedback.

He asked coldly: "Jon Wade, do you think I am discussing with you?!"

Seeing Charlie's anger, Jon Wade cried and pleaded: "Charlie...oh no... Patriarch... I... I really don't know if you let me go to Syria... My father is just my son. If I die, Syria, my dad is dead..."

Charlie said lightly: "Don't worry, there are soldiers from the Wanlong Palace, you can't die, let alone I have a relationship over there, and I will definitely guarantee your safety."

After speaking, Charlie warned again: "But you better stop talking nonsense, otherwise, I might let you stay in Syria for a lifetime!"

Seeing this, Jon Wade nodded quickly and said, "I'm going! I'm going! I'll go whenever you say to go!"

Charlie ignored him, and instead said to a five-star warlord in the Wanlong Temple: "Now you choose four of your subordinates, and take Jon Wade to take the Concorde airliner to Northern Europe, and then send the three people I mentioned to Kazakhstan. There Mead."

The five-star general said respectfully: "Subordinates understand!"

The Charismatic Charlie Wade Chapter 3661

When Charlie finished everything, it was getting late at this time.

On the brightly lit Yeling Mountain, hundreds of people were kneeling densely.

Charlie turned around and looked at the tomb of his parents not far away, staring for a long time, before sighing softly, and said to Lord Wade: "Grandpa, since everything is almost done, I will return to Aurous Hill tomorrow."

Lord Wade said hurriedly: "Charlie, you are now the head of the Wade Family. I don't advise you to stay in Eastcliff to settle down. Several managers of the Wade Family introduced it to you, and they will still be responsible to you in the future."

Charlie said: "The Wade Family has a lot of business. It is not realistic to ask these managers to prepare all the information immediately, and even if they are ready, it will definitely be unclear for a while. You ask them to be ready for the match from tomorrow. Information and materials, I will come again in a few days."

Lord Wade thinks what Charlie said is reasonable, not to mention the Wade Family's big industry, even for a company with tens of millions of assets, all kinds of operating data can not be prepared within a day or two.

So, he nodded and said: "Okay, then I will tell them to start preparing later, then you will come to Eastcliff to meet them again."

Charlie replied and said: "I will go to Shangri-La in a while to meet the Banks family again, and return to Aurous Hill tomorrow morning."

Lord Wade did not continue to stay, so he said: "Charlie, if you go back this time, please leave the private plane that Yanzhong sent you to Eastcliff. From now on, the Wade Concorde will be your special plane. The speed of the plane is faster, and it is more convenient wherever you go."

Charlie waved his hand and said calmly: "No, Eastcliff is not far from Aurous Hill, and it takes only two hours for an ordinary plane. Yes. Although the Concorde is fast, it takes the

distance to fly, including take-off and landing. It takes an hour, but it's actually not much faster. What's more, there is only one Concorde in the country. If it flies to a small place like Aurous Hill, it's a bit too eye-catching, so let's put it in Eastcliff for the time being. Bar."

Hearing this, lord wade nodded lightly, and said, "Grandpa will sit in Eastcliff for you temporarily. If you have any matters and requirements, please tell me at any time!"

"Okay." Charlie withdrew his gaze from his parents' mausoleum, closed his eyes for a moment, and said: "Okay, butler prepares the car, let's go down the mountain."

Stephen Thompson reverently said, "Master, wait a minute, I'm going to prepare now."

Before leaving Yeling Mountain, Charlie instructed the remaining Wanlong Temple soldiers: "In the next few days, you will be strictly guarded against Yeling Mountain. Except for the Wade Family, no one else will be allowed to go

One of the five-star generals immediately said respectfully: "MR. Wade, don't worry, his subordinates should take precautions and never let anyone go up the mountain!"

Charlie nodded and said, "Also, keep an eye on these Wade Family members who are kneeling on Yeling Mountain and confessing, and make sure they kneel enough for the time I asked for."

"Subordinates understand!"

Charlie nodded with satisfaction, and said: "Turn around to tell you the lord, after he buried his parents, leave a group of soldiers to guard at Yeling Mountain and wade's. The rest will be taken to the Shangri-La in Aurous Hill. The hotel finds Isaac Cameron. Isaac Cameron will arrange everything. I will be waiting for him in Aurous Hill."

"Okay MR. Wade, your subordinates will definitely tell the Lord your words verbatim..."

...

After a few minutes.

Sitting in the Rolls Royce driven by Stephen Thompson, Charlie galloped all the way towards the Shangri-La Hotel in Eastcliff.

At this time, at Shangri-La, Lord Banks and Zayne were each signing relevant legal documents.

What Lord Banks wants to sign is to transfer all the control rights, decision rights and beneficiary rights of the Banks group to Zara banks.

And Zayne signed the divorce agreement with Deana, and officially dissolved the marriage relationship with Deana.

The Charismatic Charlie Wade Chapter 3662

When Charlie arrived at Shangri-La, the father and son had just signed all the relevant documents.

Several professional lawyers are doing the final check at this time to make sure that there are no loopholes in everything.

Zayne was a little lost at this time. After all, he had loved Deana for so many years, and now he has really completely ended the relationship between husband and wife, which made him feel particularly sad.

Although Deana couldn't see any happiness, she could see that she was relieved.

Before Deana, there always seemed to be a touch of sadness between her eyebrows, which sometimes made people feel that she might be a little sick.

However, the former state of sickness has been wiped out, and replaced by an unprecedented sense of ease.

As for Lord Banks, while regretting to surrender the throne of banks Family Patriarch, he couldn't help but always remind Zara banks: "Zara ...Don't forget, help me buy more land in Madagascar... The larger the area, the better, and it is best to dig a moat directly around it to isolate it directly from the locals."

As he said, he muttered again: "Oh, yes, let the servants, servants and bodyguards of the entire manor, it is better to let me take them from the country. Their local economic development level is too poor, and the locals are sure. It also fails to meet my requirements."

Lord Banks, who has lost the opportunity to provide for the elderly in the Maldives, now only wants to ensure his safety and living conditions in Madagascar as much as possible. He knows that the local area is poor and there are many diseases, so he doesn't want to have any direct contact with the locals.

Zara banks naturally has no opinion.

Although she was dissatisfied with her grandpa, in the end, blood was thicker than water.

Moreover, grandpa left this time, fearing that it would be difficult to come back later, he naturally wanted to ensure his living conditions in Madagascar.

So she nodded and said: "Grandpa, don't worry, don't you want to take Butler over? The other servants in the family have served you for so many years. You must be the most comfortable with it. Let them go with you, I will give them a satisfactory salary and at the same time give them a settlement allowance."

As he said, Zara banks said again: "As for the manor that you just said, the bigger the better. As long as the benefactor allows me, I will try my best to do it for you, but the amount of work is a bit too large. It will take at least two or three years for all to be completed, and you may have to be aggrieved there before it is completed."

Lord Banks hurriedly said: "Knowing fish, grandpa has already thought about it a little bit. It is definitely unrealistic to build all from scratch. We can go to the local area and buy the best manor house they can buy locally. , And then extend and expand around this manor house, so that there is no delay, what do you think?"

Zara banks hesitated for a moment, and said: "I don't have any opinion personally, but I still have to ask Charlie for advice. If he is okay, I am fine."

Lord Banks hurried around, slapped his thigh, and blurted out: "Oh! Charlie just asked me to go to Madagascar, but he won't let me come back. He won't bother about other things, so you can arrange for someone to go there and do it for me as soon as possible. In a place like Madagascar, it is estimated that it would not even cost 100 million US dollars to build a few hundred hectares of manor."

Zara banks still insisted: "Then I have to say hello to charlie, and I can't make a decision directly."

Charlie walked into the room at this time and said faintly: "Miss banks, everything should be done according to Father banks's requirements. After all, Madagascar will be his second homeland in the future, and the material conditions must not be too bad."

Speaking of this, Charlie said again: "What's more, I might send some labor to him regularly in the future. The bigger the place, the more convenient it is."

The Charismatic Charlie Wade Chapter 3663

The appearance of Charlie brightened Zara banks's eyes suddenly.

She looked at Charlie in surprise, and blurted out: "charlie, you are here..."

Charlie nodded, and Lord Banks beside him said excitedly: "Mr. wade...Thank you for your generosity..."

Charlie waved his hand faintly.

He is not magnanimous to Lord Banks, but Lord Banks has honestly handed over the position of banks Family Patriarch, and will no longer pose any threat to him from now on, and after Zara banks inherits the Banks Family, his new and old hatreds with the Banks Family are also Will write off a sum, so he does not need to continue to embarrass Lord Banks in this matter.

So, he opened his mouth and said to Lord Banks: "After Mr. banks arrives in Madagascar, what you do there, in principle, I will not interfere in any way. As long as you don't fix any moths, I will not disturb your life there. ."

Lord Banks immediately bowed as if he received an amnesty, "Thank you Mr. wade! Thank you Mr. wade!"

Charlie looked at Zara banks and said, "Ms. banks, you should take the time to select the people who will go to Madagascar with the old man in the past two days. At the same time, send two real estate agents to Madagascar to meet the requirements of the old man. I bought the manor, the people are selected, the place is bought, and the old man can go over here."

Zara banks said without hesitation: "Good benefactor, I will start to do these two things tonight."

Charlie nodded lightly, and then said to Lord Banks: "Master, if you go to such a far place alone, it must be more painful to have no relatives around. Your second son James was still held by me in Aurous Hill, waiting for you. After you are ready, take your second son with

you. I ask him to be the same as you. Without my permission, he cannot leave Madagascar, let alone return to China.”

When Lord Banks heard that Charlie wanted to let James go with him, his mood improved a lot.

Just as Charlie said, going to Madagascar alone without any relatives other than the subordinates is definitely painful. If the second son can go with him, it will be a good thing for him and for himself.

So he said with great gratitude: “Thank you Mr. Wade for a large number of people, I thank you for Zayne!”

Charlie nodded, and said to Zayne: “The Elms family is still waiting for you. Tonight, you will live in a room with Father Elms. Tomorrow morning, you will drive back to Aurous Hill with them.”

Previously, when the Elms family escorted Zayne and Chen to China secretly, they drove all the way. Because of his special status, Xion chose to drive to Eastcliff overnight with his mother Kairi, so they will also drive back this time. Charlie planned to let Zayne follow them.

Zayne had no resistance to the Elms family. On the contrary, he was really relieved when he knew that he would be under the surveillance of the Elms family in the future, so there was no dissatisfaction at this time. He honestly said, “Okay. Mr. Wade, I see.”

Charlie turned and asked Don Albert to greet him, so that Don Albert would take Zayne to Father Elms’s room.

Later, he said to Lord Banks: “Master, you have a good attitude today. If so, then I will give you more freedom. You can go back to the Banks Family tonight. A family meeting will be held tomorrow to make Miss Banks the Banks Family. Regarding the Patriarch’s matter, we formally make an announcement to the outside world. You can move freely in Eastcliff during the period before you set off, but you cannot leave Eastcliff or play missing. Do you understand?”

When Lord Banks heard Charlie say that he was able to go home and rest for two days, he was immediately grateful, and choked up: “Mr. Wade, thank you for opening up my old bone... Banks is grateful...”

Lord Banks was oppressed by Charlie's tough aura for two days, and knelt on Yeling Mountain for another night. He didn't know how many times he had collapsed. Now Charlie was a little more relaxed with him, and he couldn't help but begin to be grateful.

Charlie waved his hand and said to him: "Okay, you don't need to say if you are grateful, just keep it in your heart, you can hurry and go back, it just happens that these two days will also gather the hands of the people who will go to Madagascar with you in the future."

"Good, good..." Lord Banks nodded as if pounding garlic, and blurted out: "Then go back first! Mr. Wade, if you have any instructions, please let Zara convey to me directly, and I will do it!"

The Charismatic Charlie Wade Chapter 3664

Charlie nodded and said to Stephen Thompson: "Stephen Thompson, you can drive it."

Stephen Thompson immediately respectfully said: "Good young master."

After that, he made a gesture of request to Lord Banks: "Master banks, please."

Lord Banks thanked him for his gratitude and followed Stephen Thompson out of the hotel room.

In the room, only Deana and Zara banks mother and daughter were left at this time.

Charlie was about to talk to Zara banks about increasing the capital of Yisu Shipping. By the way, he also talked about the idea of Yisu Shipping's development in Europe, but Deana said at this time: "Charlie, will you return to Aurous Hill tomorrow morning? ?"

Charlie nodded: "Yes, Aunt Deana, I'll be back early in the morning."

Deana asked with some embarrassment: "Can Auntie go back with your plane?"

At this time, Deana has made Aurous Hill the first choice for her future life. The small courtyard where Charlie's parents lived has been renovated by her. For her, living there is the best choice. Home.

Charlie knew Deana's feelings for his father, his love and love and hatred, and admiration, so he did not hesitate to say: "No problem, you can stay in the hotel with Zara tonight, tomorrow I will send you to the airport early in the morning."

Deana smiled slightly and said, "I won't live here anymore. I plan to go home and see my parents. I will go to the airport by myself tomorrow morning."

Zara banks asked hurriedly: "Mom, are you going to Grandpa's house? Then I will go too."

Deana smiled and said, "Don't go with me, isn't your grandpa going to hold a family meeting tomorrow? You will definitely attend as the new Patriarch at that time. Charlie will work hard to send you back to banks's house first."

After finishing speaking, she looked at Charlie again and begged: "Charlie, I will work hard for you to give a gift to Zara in a while."

Charlie nodded and said, "No problem, Aunt Deana, I still have something to discuss with Miss banks. After the talk, I will send her back to banks's house safely. Don't worry."

deana checked his head and smiled: "That's good, then I'll leave Zara to you."

Charlie said: "Then see you at the airport at 8 o'clock tomorrow morning."

Deana smiled and said, "Okay, see you at the airport."

Seeing her mother left, Zara banks seemed a little embarrassed.

When there are many people, she is not uncomfortable in front of Charlie, but now, when she and Charlie are alone in the same room, she only feels that her heart rate is accelerating, and the sound of her heart beating can even be heard directly. Clearly Chu.

Yesterday, when Charlie was on Yeling Mountain, he was able to conquer the entire Wanlong Temple alone, and Zara banks could see clearly from the side.

Originally, she had already fallen in love with Charlie deeply, but she did not expect that after yesterday, the love for Charlie in her heart had deepened into her bones, and her heart was filled with almost all of him.

Being alone with Charlie at this time naturally made his heart beat faster and unable to extricate himself.

So, she looked at Charlie shamelessly, and asked softly: "My dear...you...what else do you want me to do?"

Charlie said in a hurry, "Oh, it's Ys Shipping's business. After your capital injection is completed, I plan to expand the fleet and invest in several ports in Europe. It happens that Helena is about to take the throne soon, and she will take the throne. After that, we will be

her first project to attract investment in Northern Europe, starting directly from Northern Europe and radiating to the whole of Europe. What do you think?"

Zara banks blushed, pursed her mouth, looked at Charlie's angular face, and said shyly: "I...I listen to your kindness..."

The Charismatic Charlie Wade Chapter 3665

Charlie didn't realize that Zara banks's whole person was completely occupied by the love and shyness in his heart.

At this time, she did not have the mental state to discuss business cooperation with Charlie, because even if Charlie asked her to hand over the entire Banks Family, she would not hesitate to agree.

Therefore, at this time, where she has her own opinions, it is naturally Charlie what she wants.

Charlie didn't know this, so he smiled helplessly: "You have to make it clear that we two are in partnership for business. We have to get ideas together. We can't listen to me because I am not a professional in management. I don't know anything, I can only put forward ideas, and then you and ziva hank discuss the feasibility and implementation methods."

Zara banks said embarrassedly: "It doesn't matter...I believe in the ability of charlie, as long as charlie decides the direction, it will never go wrong..."

Charlie got a big head and said, "Don't you have any comments to express? After all, you have 49% of the shares in this company. Can't I just say what I say?"

Zara banks didn't hesitate to take the words: "Um...whatever the benefactor said..."

Charlie was speechless for a while, and said helplessly: "Otherwise, you go back and think about it first. If you really don't have any opinions, then you can touch ziva again to see what she means. If everyone doesn't have any opinions, then let's Proceed like this."

Zara banks nodded, her big eyes shining brightly and said: "I listen to my benefactor..."

Charlie had nothing to say, and smiled: "Okay, that's the initial decision. I will send you back to the Banks Family first. In these two days, you will first clarify the various businesses of the Banks Family to ensure a smooth handover with your grandfather. Let's talk about Ys Shipping's business after you finish this time."

Zara banks was overjoyed and said quickly: "Then I will go to Aurous Hill in a few days!"

"Okay." Charlie didn't think much, and said: "Then we'll see you in Aurous Hill then."

Zara banks nodded and asked Charlie curiously: "Benevolence, you have now taken over the Wade Family and become the head of the Wade Family. Are you not going to return to Eastcliff for development?"

Charlie said calmly: "I don't have this plan yet."

Zara banks was a little disappointed in his expression, but he quickly recovered as before, and said with a smile: "In fact, it's pretty good in Aurous Hill, not far from Eastcliff, but very close to Zhonghai, in two super big cities. In the middle, and there is direct high-speed rail, even if you live and work in Aurous Hill, it will not affect your business promotion."

After that, Zara banks couldn't help but sigh with emotion: "My mother wants to settle in Aurous Hill in the future. I think I will live in Aurous Hill half of the time in the future, so I will spend a lot of time with her."

When Zara banks said this, he secretly aimed at Charlie with some guilty conscience.

In fact, her real thoughts are not all about staying with her mother.

More, I want to be closer to Charlie.

Otherwise, she has been in Eastcliff for a long time and Charlie has been in Aurous Hill for a long time, and the two will not have much chance to meet. With her infatuation for Charlie, she will definitely go crazy.

Therefore, for her to spend half of her time in Aurous Hill under the pretext of being with her mother, it is the best solution right now.

Charlie heard that she wanted to accompany her mother more, so naturally he didn't have the slightest doubt. He just sighed and said, "Eastcliff said that it is not far away, and said that it is not close. It doesn't feel much to commute once in a while, but if every If you have to go back and forth once or twice a week, it may be really exhausting."

Zara banks smiled and said: "It's okay. After I officially become the Banks Family owner, it is reasonable to allocate a private jet to myself. At that time, every Thursday night, I will bring

my computer and materials after I finish my work. Take a helicopter from the roof of the banks Group and fly to the airport, fly to Aurous Hill, take a two-hour break on the plane, or take care of official duties, and you will soon arrive in Aurous Hill. There will be no traffic jams to Aurous Hill at night, and you can drive for more than half an hour. Go to mom."

The Charismatic Charlie Wade Chapter 3666

After that, Zara banks seriously calculated: "In this way, I can stay in Aurous Hill from Thursday night until early Monday morning. If you work harder and get up early on Monday, if you go out more than five o'clock, you will be able to stay at more than six o'clock. After taking off and rushing back to Eastcliff, after landing at 8 o'clock, I took a helicopter and went directly to the banks Group without delay to work at 9 o'clock."

Charlie couldn't help being speechless after hearing this, and sighed: "Your schedule is a bit too full."

"It doesn't matter." Zara banks said firmly: "I have very good physical fitness right now. This is a trivial matter."

After she finished speaking, she looked at Charlie blankly, with a pleading tone, and said softly: "My dear, besides my mother, I have only one friend in Aurous Hill. If I want to play with you at that time, you You can't refuse me."

Charlie nodded, agreed casually, and smiled: "As long as time permits, there must be no problem."

"That's good!"

After getting the answer he most wanted, Zara banks finally breathed a sigh of relief.

Charlie checked the time and said, "It's getting late, I'll take you back to banks's house first."

Zara banks hurriedly asked, "Does Grace go back to wade's house at night?"

"No." Charlie said lightly: "I look back at my uncle's house and feel more at ease there."

Zara banks thought of Stefanie Sun and the marriage contract between Charlie and Stefanie Sun, and suddenly nodded.

Charlie asked Isaac Cameron to prepare a car for himself, and then drove by himself, carrying Zara banks to the Banks Family villa.

On the way, Zara banks quietly looked at Charlie's profile, trying to say something several times, and finally put up with it again.

It wasn't until Charlie drove the car to the door of banks's villa to stop, Zara banks said: "My father...the matter between my parents, thank you, if it weren't for you, my dad would definitely not Will promise to divorce my mother..."

Charlie asked her: "Do you want your parents to divorce?"

"Yeah." Zara banks nodded and said: "The two of them are not so happy. This kind of marriage that exists only in name, it is better to end as soon as possible instead of lingering."

As she said, she couldn't help sighing: My dad must have been particularly frustrated for so many years. My wife has the same bed with him and has always been in love with another person. I am afraid it will be hard to accept being any man..."

Charlie nodded in embarrassment. If judged from a completely objective point of view, he would also feel that the marriage between Zara banks's parents was due to her mother's fault.

But the man her mother loved was her father, so Charlie didn't know how to evaluate it.

At this time, Zara banks looked at Charlie, and saw Charlie also turned her face away. The moment her eyes were facing each other, she hurriedly turned her head, looked at the front of the car, and whispered: "Actually, my mother spent such a New Year. It's not easy. After all, the other half beside her is not the one she really loves. Even if she is not unwilling, she will inevitably be disappointed..."

After that, she plucked up the courage to look at Charlie, and said seriously: "In fact, I didn't quite understand what my mother did before, and in my heart I felt that she had let down my father. Even if the two of them spoke before they got married, I did I don't think mom should be so stingy with dad in love..."

At this point, Zara banks lowered her eyelids lightly and said quietly, "But since I met you, I have understood my mother more and more... She must have fallen in love with me just like me now. A man who couldn't ask for it..."

Charlie coughed twice: "Ahem...Is it a bit sloppy to say this now..."

Zara banks shook his head, looked at Charlie, and said seriously: "This is indeed the case, but I will not be the same as my mother. If I were her, I would rather not marry for the rest of my life, nor would I marry. A man I don't love."

After she finished speaking, she stared at Charlie, the small cheeks on both sides of her cheeks bulged slightly, and said solemnly: "Charlie! If I become an older leftover woman in the future, or even die alone, don't doubt, it must be because of you!"

The Charismatic Charlie Wade Chapter 3667

After Zara banks said this, before Charlie could make any response, he hurriedly pushed the car door and grabbed the door.

The words just now have exhausted all her courage.

So she did not dare to stay with Charlie because she was afraid that she would not be able to control it. She held Charlie and wept bitterly. While questioning why he got married so early, she also asked why he had to show up so late at the same time. In my own life.

Therefore, she left Charlie as if fleeing, without saying goodbye, and rushed into the Banks Family villa without looking back.

Looking at her slender figure, Charlie felt a little uncomfortable in his heart.

The more he saw the unhappiness of deana's life, the less Charlie wanted Zara banks to rush to her mistakes.

Fate shouldn't play tricks on the mother and daughter so much that they are all caught in a vicious circle that is almost exactly the same.

However, things like fate are sometimes just jokes.

He not only gave the mother and daughter a similar life trajectory, but even made them fall in love with a father and son.

Seeing that Zara banks's back disappeared, Charlie sighed in melancholy.

He didn't know how to deal with Zara banks's feelings for him.

But Charlie really didn't want Zara banks to choose a person to die alone like she just said.

Although it is still too early to say this, the girl Zara banks's slender body contains strong determination and energy.

Now that she said so, it is very likely that she will do so.

However, Charlie has no way to change her decision right now, so he can only comfort herself, after all, Zara banks is still very young, and might change his mind with the increase of life experience in the future.

At the same time, Zara banks didn't think so.

She firmly determined one thing in her heart, and that was: Even if she lived to be a hundred years old, she would never meet any better man than Charlie and more attractive to her.

This man appeared in his life at the age of his first love, and his appearance is the peak. In this life, no one can surpass it.

...

Sun's house at this time is brightly lit.

Orrin Sun knew that Charlie had returned from Northern Europe, and that he would definitely come to his home after he had dealt with the affairs on Yeling Mountain.

Therefore, he had prepared a table for a sumptuous dinner early, and then ordered all the dishes to be placed in the high-end warming drawer, waiting for Charlie's return.

When Charlie drove back to sun's house, it was already more than ten o'clock in the evening.

When Stefanie Sun heard a car driving into the yard, she ran out of the house with excitement, followed by Orrin Sun and Angie.

Charlie heard that when he got out of the car, she was hugged by Stefanie Sun. She said excitedly: "Charlie, you are finally back!"

Orrin Sun also smiled; "Charlie, things on Yeling Mountain should be almost handled, right?"

Charlie nodded and said respectfully: "Uncle Orrin (Sun), the handling of several things is not bad."

Orrin Sun smiled and said: "Needless to say, the Wade Family, I don't have to go to Yeling Mountain to guess that the collateral branches must be cleaned up by you. The Banks Family's affairs have long been secured. The Nordic affairs, news It has already been reported on the previous page that the Nordic Queen suddenly went from critically ill to recover, which caused a huge heated debate in Western countries. I knew it must be yours! Only you have this kind of resurrection ability!"

Charlie smiled and said, "It's just a little bit of Rejuvenation Pill."

Orrin Sun laughed and said, "I know how amazing your rejuvenation pills are. The more people who have died once, the more they are afraid of death, and the more they can understand the preciousness of life. What assets and rights are in front of life. , Status, and titles are all imaginary."

With that said, Orrin Sun asked hurriedly: "How did you deal with Charlie over the Wanlong Palace?"

Charlie said: "I let Abbas go to bury his parents first, and when he finishes his housework, he will go to Aurous Hill to find me."

The Charismatic Charlie Wade Chapter 3668

"Okay!" Orrin Sun nodded and sighed: "The Wanlong Temple is a sharp sword. Chener, if you can bring this sword into your command, it will definitely be the icing on the cake in the future!"

After speaking, Orrin Sun reminded earnestly: "But Charlie, how to make good use of Wanlong Palace is a big problem. After all, their status is special, and there are tens of thousands of people under their command. If they are handled carelessly, they are likely to be given to you. You have caused unnecessary trouble, so Chener, do you have any specific plans for the next step?"

Charlie replied: "Most of the mercenaries in the Wanlong Palace are overseas. I don't plan to let them come to China in the future, so my plan is to let them have a stable and reliable place overseas. Don't It's like before, running through all kinds of war-torn places."

After speaking, Charlie said again: "It is best to choose a base for them, let them take root, and also change their business strategy. They used to be pure mercenaries. You can help whoever you give. In doing things, there is no concept of right and wrong, so I have done good things, and have done bad things."

"In the future, I will set a tone for them, a tone that at least cannot be against any sovereign country in the world, that is to say, they can only accept legal employment from a sovereign country in the future, and at the same time, they must not be an enemy of any sovereign country. In other words, if a country hires them to attack another country, such a thing is absolutely unacceptable, unless a country hires them to surrender illegal armed forces, so that they can also have a good relationship with the mainstream world. ."

Orrin Sun nodded very seriously and said, "Yes! Although this is a world where the weak can eat the strong, the basic logic still follows the principles of law. If you cooperate with sovereign countries, you can stand up to the principles of law."

After speaking, Orrin Sun said again: "But Charlie, I think you'd better transform the Wanlong Palace more thoroughly."

Charlie asked hurriedly, "Uncle Orrin (Sun), do you have any good suggestions?"

Just as Orrin Sun was about to speak, Angie on the side couldn't help but said, "Oh, don't you two just chat in the yard. The meals are already prepared, so let's go in and talk while eating!"

Stefanie Sun still hugged Charlie's arm tightly at this time, and said softly: "Yeah, Dad! I'm already hungry. I'm just waiting for Charlie to come back to eat together."

"Right, right, right!" Orrin Sun smiled: "Charlie, let's go in and talk while eating!"

Immediately, the four people moved to the villa dining room and sat at the dining table.

As soon as Charlie sat down, he couldn't wait to ask Orrin Sun: "Uncle Orrin (Sun), do you have any good ideas and suggestions about Wanlong Palace?"

Orrin Sun said earnestly: "I think if it's just a Ten Thousand Dragons Palace, then he will naturally be a mercenary set, because that set is the most profitable and the most capable of growth."

After speaking, Orrin Sun turned his head and said seriously: "But Charlie, you have to know that your low-key and dormancy are only temporary. Since you want to develop the Wade Family, one day you will personally walk from behind the scenes to the stage. Go!"

"When that day comes, everyone in the world will focus on you. There must be a large group of people eager to unearth your so-called black history, especially your enemies. They will never let go of anything. An opportunity to frame and attack you in front of the world!"

"If the Wanlong Temple was still a mercenary organization at that time, and you, as the true owner of the Wanlong Temple, you would have to bear all the blood debts in the Wanlong Temple. Once others knew about this relationship, you would definitely be Rejected by mainstream society."

"And once you are rejected by mainstream society, it will affect not only your own reputation, but also the reputation of the Wade Family."

"Therefore, my suggestion is that you must make the Wanlong Temple complete bleaching and transformation as soon as possible, and make sure that the Wanlong Temple is reasonable and legal all over the world!"

"Otherwise, if you accept the Wanlong Temple today, it is tantamount to burying yourself a thunder!"

The Charismatic Charlie Wade Chapter 3669

Orrin Sun's words made Charlie instantly alert.

The identity and situation of the Wanlong Temple are indeed special. In the mainstream world, mercenary organizations like this will always be given a gray tone. If the people are asked to choose a label between good and bad, then every servant In the eyes of the masses, the Bing Organization is undoubtedly bad.

Right now, the outside world did not know about the fact that he had incorporated the Wanlong Temple, but it could not be a secret forever, and there would be a day when it would be known to others.

At that time, people's aversion to mercenary organizations will also be imposed on him.

So Charlie hurriedly asked Orrin Sun: "Uncle Orrin (Sun), do you have any good suggestions about Wanlong Palace?"

Orrin Sun smiled slightly and said seriously: "I have an idea, which may not be good or mature, and if I really want to land, I must make certain sacrifices. Whether it is feasible or not depends on your choice. If you don't dislike it, Then I will probably talk to you."

Charlie nodded and said humbly: "Your life experience and personal abilities are much stronger than mine, and I believe your approach must be much better than I could think of!"

Orrin Sun smiled and said, "You don't need to shoot flattery. I will probably talk about my thoughts with you."

As he said, Orrin Sun sat up straight and said seriously: "In my opinion, the greatest value of Wanlong Palace lies in his combat effectiveness. If combat effectiveness is used in the field of mercenaries, the benefits will naturally be higher, but it also faces what I just said. The problem is that the social response and public reputation are poor. In this case, you may wish to change Wanlongdian's future business strategy so that it can still make money from its own combat power. Cooperation, from the perspective of sufficient justice and sufficient legal principles. On the other hand, I think we can explore the field of international security. International security has developed rapidly over the years, and the reputation in the eyes of the people is very positive!"

"International security?" Charlie asked hurriedly, "Uncle Orrin (Sun), what are the main areas of international security?"

Orrin Sun smiled and said: "You must now vigorously develop ocean shipping, ocean shipping is one of the main areas of international security!"

"Piracy is rampant in Somalia and other regions. Although many countries have escort fleets, after all, the demand for international logistics is too great, and it is impossible for every ship to be guaranteed in place, so international security is very popular in this field;"

"Commercial ships that generally pass through the areas of piracy activities will employ several international security personnel. These international security personnel are responsible for protecting the ships to safely pass through the areas of piracy activities. They can also fight back when they encounter pirates on board. Gradually evolved into a rigid demand industry;"

"Ten Thousand Dragons is strong and strong. If you mobilize thousands of people to specialize in this field, you will definitely have no problem in your own strength. And now that you have YS Shipping, you can still meet your related needs to a large extent in the future."

Speaking of this, Orrin Sun said again: "I will tell you one more point. Now the countries with the highest global economic development are actively cooperating with third world countries, especially in infrastructure construction;"

"There are already many companies that undertake infrastructure construction in some backward areas in Asia, Africa and Latin America, and there will be more and more in the future!"

"Their roads, railways, telecommunications, transmission grids and even water conservancy construction basically rely on overseas companies, and their own countries have poor economic development and poor public security. It is difficult to ensure the safety of the employees of these overseas companies in the local area. "

"At this time, international security personnel are also needed for effective protection, not only to ensure the safety of overseas employees, but also to ensure the progress of local projects. The people on both sides have a very good impression of this kind of international security. In our words, it is the masses. Solid foundation!"

The Charismatic Charlie Wade Chapter 3670

"There are so many third-world countries and so many infrastructure projects in the world, and the demand for international security is definitely huge. If this project is carried out, it can at least solve the transformation of thousands or even tens of thousands of Wanlong Palace soldiers. As a result, within a few years, the Wanlong Palace will be completely transformed."

"If in the past few years, Wanlongdian can accumulate a large number of successful cases, such as successfully repelling pirates, successfully repelling thugs and even illegal armed forces, repeatedly defending and saving the lives and property safety of the people and foreign-related enterprises, then Wanlong The reputation of the temple will definitely become an international security company with a strong mass base and public reputation!"

At this point, Orrin Sun paused slightly, smiled mysteriously, and continued: "If you still need Wanlongdian to do something ugly for you, you must remove these people from Wanlongdian in advance. , It will not have any negative impact on you or on the Wanlong Temple. If someone catches the clues and asks them, and directly kills them without admitting it, without real evidence, who can do anything to you?"

Charlie was already a little emotional when he heard this.

At the same time, he was also aware of the huge gap between himself and the established entrepreneurs like Orrin Sun.

Orrin Sun's overall view, detail control, and awareness of danger in times of peace are all accumulated and cultivated through years of practical experience, and they are also lacking in young people like himself.

The series of solutions he said can completely solve the problem of Wanlong Temple's own attributes.

As long as it is managed properly, Wanlongdian will be able to successfully transition from a gray mercenary organization to a white attribute, and even an international security company that is highly praised by the outside world.

This is a thorough whitewashing!

Thinking of this, Charlie said gratefully: "Uncle Orrin (Sun), your suggestion is great. After Abbas arrives, I will tell him your plan and let him follow the steps you said to move forward quickly. Strive to complete the transformation in a short time!"

Orrin Sun smiled and said, "I'm just some personal talk, as long as it is useful to you!"

Charlie sighed: "It's so useful! Thank you Uncle Orrin (Sun)!"

Orrin Sun smiled and said, "Why are you so polite with me? If you can use my old bone in the future, just speak up."

Charlie nodded and sighed: "I was worried about the tens of thousands of soldiers in the Wanlong Palace. There are still more than 10,000 soldiers in the Wanlong Palace in the Middle East. People are released, but after release, how to settle so many people is also a very difficult problem."

"But your suggestion just now is really great. I can first divide the soldiers of the Wanlong Temple into three parts. One part will continue to be mercenaries, but it must be reasonable and legal, and the other part will be used for international security for ocean transportation. Let them cooperate first. After Yisu Shipping becomes well-known, many peers will naturally come to the door, and the remaining part will be dedicated to the specific security of the Third World project."

Orrin Sun laughed and said: "I have many friends who have undertaken infrastructure projects in many third world countries. I think they must be in need of security personnel. I will call and ask one by one tomorrow to see if their demand is high. "

After speaking, Orrin Sun said again: "By the way, if you do this kind of security work, you have to ask Abbas to find a way to solve the problem of the local legal gun license. As a foreigner, you must never hold a gun without a license. Most countries and regions are very sensitive to guns. If they are not handled properly, the white ones will turn into black ones!"

The Charismatic Charlie Wade Chapter 3671

Hearing Orrin Sun's reminder, Charlie immediately nodded and said, "Uncle Orrin (Sun), don't worry, since you have decided to transform, everything must be reasonable and legal. I will make this clear to Abbas!"

After speaking, Charlie said again: "Moreover, based on my current understanding of the Bandung store, most of their soldiers are martial artists. Even if they don't have thermal weapons, their combat effectiveness will never be inferior. There is definitely no problem dealing with ordinary armed personnel. of."

Orrin Sun smiled slightly and said: "That would be great. As long as it is reasonable and legal, this matter will definitely be able to go on for a long time. If it can be thoroughly cleaned up, it will also be a great thing for Wanlong Palace! "

Charlie nodded, picked up the wine glass, and respectfully said: "Come on, Uncle Orrin (Sun), I toast you! Thank you for designing a bright road for Wanlong Palace!"

"Where!" Orrin Sun took up the wine glass and said seriously: "Uncle just hopes that when you lead the Wade Family and stand on top of the world in the future, unlike those rich and powerful, with countless black history, this There are very few top rich men of the year who can guarantee their innocence in history!"

As he said, he sighed: "Don't say anything else, just say that in our country, some people rely on selling fakes and sell them to become the richest man in the face; some rely on piracy and plagiarism to make money; some rely on rogue software. Industry tycoons and others have become billionaires by embezzling public assets. Those who rely on their wives and father-in-law to engage in speculation and even empty white wolves are even more numerous!"

Charlie laughed at himself and said, "Uncle Orrin (Sun), if that's the case, my history may not be truly glorious. The second child of the family is still locked in Aurous Hill."

"That's different." Orrin Sun blurted out: "I've heard you talk about the Kobayashi family. If they hadn't coveted your pill, naturally they wouldn't have caused a big disaster. Since they were the first to make a mistake, you did it. All of this is also justified! So you don't have to have any psychological burden!"

Charlie smiled awkwardly, and said: "I went to Northern Europe this time and knocked 4.5 billion euros from a collateral branch of the Rothschild family."

The sun family's three people were dumbfounded. The 4.5 billion euros, even in the sun family's eyes, was a huge sum of money. Charlie was able to knock out so much money from the Rothschild family. It was incredible.

Orrin Sun asked nervously, "charlie, why did you come into contact with the Rothschild family so early? This is not a good thing for you. Although the Wade Family is very strong now, it is more powerful than the Rothschild family. For the Elder family, it's still a thousand miles away..."

Charlie hurriedly said: "It's just a collateral branch family, and what I did was relatively simple, and I won't leave any clues. As for the money that was washed into the hands of the Ito family through Wanlongdian's overseas channels, I Didn't get involved."

Having said that, Charlie explained the whole conflict between himself and William's family in the Nordic Palace and explained to the three people.

However, Charlie didn't say so clearly about controlling the croupier with his aura. He just said that he was proficient in some hypnotism.

After listening to Stefanie Sun, she exclaimed and said excitedly: " Charlie did this thing so much! What about William Rothschild wanting to pit my Charlie's money, it's just looking for death! Deserves it! He was sent to Syria to experience life!"

Orrin Sun also heaved a sigh of relief and nodded: "Since the incident was inside the palace and everyone else is under control, there is basically nothing to worry about."

Angie on the side asked hurriedly: "By the way, charlie, that Aman Ramovic, there is no risk, right?"

Charlie shook his head and said, "He is not there for the gambling game and the subsequent events, and he has no idea what happened."

Angie relaxed and nodded: "That's good."

Both Charlie and Orrin Sun were very happy for this meal.

The two of them drank at the dinner table until midnight, only to end the wine party unfinishedly at the request of Angie and Stefanie Sun.

Stefanie Sun sent Charlie to the guest room, because knowing that Charlie would return to Aurous Hill early in the morning, she insisted on driving him in person tomorrow morning.

Charlie readily agreed.

Charlie didn't sleep much this night.

The Charismatic Charlie Wade Chapter 3672

All he was thinking about was the future of himself and the Wade Family.

In addition to the Wade Family's current industry, he also looks forward to his own Yisu Shipping and Jiu Xuan Pharmaceutical.

If these two industries can become bigger and stronger, either one will have the opportunity to create trillions of wealth.

Needless to say, the vast majority of logistics in the world rely on shipping, and the space for future development will only increase.

As for Jiu Xuan Pharmaceutical, Charlie has a large number of excellent prescriptions, and a random one from the "Jiu Xuan Tian Jing" can also become a global best-selling medicine.

What's more valuable is that other pharmaceutical companies, such as Pfizer, Novartis, Merck & Co., etc., cost billions of dollars to develop a drug at random, and it takes several years, and the success rate is not high. Therefore, most of their sales income has to be used to cover research and development costs, but Charlie does not have to spend a penny on research and development.

The rest was the Wanlong Palace that he had just received.

As soon as possible to let this group of people succeed in whitewashing has become his top priority now.

Orrin Sun's words gave him a lot of inspiration.

An armed organization like the Wanlongdian, whether it will continue to be a mercenary in the future, or allocate a part of its energy for international security, it must have a relatively loose and free core base.

And this base not only has to meet the daily life and training of the members of the Wanlong Temple, but also is used to store the important equipment and materials of the Wanlong Temple.

However, in most countries and regions, it is impossible to allow tens of thousands of armed personnel to be stationed in their own countries, so how to choose a location has become a very difficult problem.

The Ten Thousand Dragon Palace was to seek a stable base, so it was willing to serve Syria regardless of remuneration, and then suffered heavy losses in the hands of Hunter (Hamid) and Charlie.

Charlie thought of this, suddenly his eyes lit up.

Syria is indeed a good choice, and it can even be said to be the best choice at the moment.

Not only because the local situation is turbulent, but also because there is a Hunter (Hamid) there. The Wanlong Palace and Hunter (Hamid) can also complement each other to some extent.

As for the official side, it should not be too difficult to promote.

After all, if Wanlongdian cooperates with the government, it can bring many benefits to the government.

On the one hand, the Wanlong Palace has strong combat effectiveness and can help officials maintain stability;

On the other hand, it can also help officials train soldiers.

Even, you can pay the government a large amount of land rent.

The Wanlong Palace is not short of money anyway.

Moreover, Syria's geographical location is also good.

It itself is on the east coast of the Mediterranean Sea, just a few hundred kilometers from the Suez Canal, the throat of shipping.

Passing through the Suez Canal and then through the Red Sea is the Gulf of Aden where pirates are rampant.

The Suez Canal is the only route for shipping from Asia to Western Europe. Therefore, if shipping security is to be carried out in the future, the main battlefield will be around the Gulf of Aden.

If the Wanlong Temple is to build a headquarters base in Syria, the straight-line distance from the Gulf of Aden can be shortened to more than two thousand kilometers. Although it sounds a bit far, the distance is already close for the tens of thousands of kilometers of air routes.

If we can rely on this headquarters base to establish a forward position around the Gulf of Aden, then it will be more convenient to escort the merchant ships through this forward position.

Therefore, Charlie thinks that the most important thing at the moment is how to promote the cooperation between Wanlongdian and Syria!

The Charismatic Charlie Wade Chapter 3673

Early the next morning, Charlie bid farewell to Orrin Sun and Angie, and Stefanie Sun drove him to the airport.

The Eastcliff Road in the early morning was very smooth, but Stefanie Sun deliberately drove the car slowly, even if one car after another passed.

The main reason why he drove so slowly was that Stefanie Sun was really reluctant to leave Charlie.

Charlie also guessed her thoughts, so he didn't urge.

While driving the car absently, Stefanie Sun said to Charlie: "By the way, Charlie, will you come to Eastcliff in a while?"

Charlie thought for a while and replied: "I will meet with them after the professional manager team at the Wade family is ready to report, but I'm not sure if I will come to Eastcliff again, or maybe let them go to Aurous Hill. Report to me."

Stefanie Sun said quietly: "I may be very busy in April. There are still several concerts in China to advance. Then from next month, I will start the overseas tour of concerts. I may not be in China for a long time..."

Charlie asked her: "How many tours are there?"

Stefanie Sun said: "There are currently 15 games, but they are still increasing."

Charlie asked puzzledly: "Why is it still increasing?"

Stefanie Sun stuck her tongue out and said helplessly: "The number of overseas fans is still a lot, because it is the final farewell concert. Many fans are requesting to increase the host city jointly. The agency discussed with me and said everything depends on what I mean. It's hard to refuse so many fans' requests, so I added a few more tours in Europe and America."

After speaking, Stefanie Sun said again: "By the way, there is also one in Northern Europe. It's coming to June."

Charlie smiled and said: "Then I have to let Helena go and cheer for you!"

Stefanie Sun hurriedly said: "No need, no, people will immediately ascend the throne and become the queen, it is not appropriate to go to the concert."

"What's wrong with this." Charlie said with a smile: "Don't the prince of Britain often take his wife and children to the football game? Helena is young and succeeds. If the queen's shelf is raised so early, it will not be conducive to consolidating. The best way for the mass base at the bottom is to go deep among the people and strive for positive exposure as much as possible, so that when she is in her 50s and 60s, she can become a queen that the people love and support."

Stefanie Sun couldn't help but smile: "Charlie, I heard you say that, how do you feel that you are not asking Helena to cheer me, but Helena to rub my heat..."

After that, Stefanie Sun hurriedly explained: "I'm making a joke, don't take it seriously, I'm not the kind of caregiver."

Charlie smiled and said: "It was just like the prince of Britain. Although it is also loved by most people, it is far less popular than football and stars. He went to the football game to win these fanatical fans. To put it bluntly, it's just too hot."

Stefanie Sun nodded and asked him: "Charlie, that Helena, shouldn't you like you very much?"

Charlie asked in surprise: "Why do you say that?"

Stefanie Sun said seriously: "You saved her life, you saved her mother, and even helped her regain the throne, which is equivalent to fishing her from the Mariana Trench and sending her to Mount Everest, as long as she is a normal woman. , I'm afraid I will fall in love with you..."

Charlie said awkwardly: "That is her freedom..."

Stefanie Sun glanced at him, faintly said: "This time the wade Family's ancestor worship ceremony, your confidantes have come a lot..."

Charlie said vaguely: "They are all friends... ordinary friends..."

Stefanie Sun had a ghostly expression that I believe in you, and pouted: "I declare in advance that I am not jealous. If anyone wants to be your woman in the future, he will turn out to be a jealous jar. Sooner or later, he will die of sourness."

Charlie felt ashamed, and quickly turned away from the subject and asked her: "By the way, when will you go overseas?"

The Charismatic Charlie Wade Chapter 3674

Seeing him change the subject, Stefanie Sun did not continue to be aggressive, so she followed his words and said: "Starting from the beginning of next month, I will go to Canada first. Vancouver, Montreal, Toronto and Ottawa will each have one, and then go south from Canada to the United States. One stop is New York, and then from the east coast to the west, Chicago, Houston, and then to Los Angeles and San Francisco on the west coast. It may take a month or so to tour North America, and then go to Europe after the end."

After speaking, Stefanie Sun looked at Charlie with a grieved expression: "Charlie, once I start an overseas tour, I may not see you for two or three months..."

Charlie comforted: "Isn't it important for you to work? Besides, it's another farewell concert. After you finish this concert tour, you will be able to stay steadfast in Eastcliff."

Stefanie Sun nodded and said, "After I officially leave the entertainment circle, I have to go to the sun Group to take over."

After that, she looked at Charlie and said with a grin: "Charlie, I have already thought about it. After I take over, I will invest in a few projects in Aurous Hill first, and then run to Aurous Hill in two or three days. Will you welcome me?"

Charlie smiled and said: "Okay, as long as you are willing, I am definitely welcome!"

Stefanie Sun hurriedly said: "Then let's just say that. When that happens, you should not despise me just because I am old, let alone avoid seeing me."

"Okay..." Charlie had to agree.

Satisfied, Stefanie Sun drove the car all the way to the airport hangar. The private plane that Orrin Sun gave to Charlie stopped here, and the Concorde airliner next door had taken off again for Northern Europe.

This time back to Aurous Hill, in addition to Deana going back with Charlie's plane, Don Albert and Isaac Cameron also ran over to take the plane back.

When Charlie arrived at the airport, they had already arrived for a long time. Deana stood beside the boarding car with a small suitcase, while Don Albert and Isaac Cameron stood at the door of the hangar and smoked quietly.

A staff member kindly reminded: "Two, fireworks are strictly prohibited in the hangar..."

Don Albert waved his hand disdainfully: "Aren't those two big engines on the plane just rely on ignition? It's all right, what can be the problem with our two broken cigarette butts?"

The staff member said embarrassingly: "Sir, this is not a nature..."

Don Albert smacked his lips and said, "Tsk...I said, why do you have a tendon? Just turn your face and treat it as if you haven't seen it?"

Isaac Cameron stuffed the cigarette butt into the mineral water bottle that he had half-drunked, patted Don Albert on the shoulder, and said: "Okay, don't make things difficult for others, pinch the cigarette."

Although Don Albert was a little unhappy, he didn't say anything, and threw the cigarette butt in.

At this time, Charlie drove to the door of the hangar. When they saw Charlie coming, they hurriedly stood up straight and waited respectfully.

As soon as the car listened steadily, Don Albert hurriedly stepped forward, opened the door of the co-pilot, and respectfully said to Charlie: "Master, you are here!"

Charlie frowned and said, "Don Albert, didn't you call me Master Wade? How did you change the name?"

Don Albert said hurriedly: "Master, you are now the Patriarch of the Wade Family, or the new owner of the Wanlong Palace. Looking at the world, who can compete with you? With your present noble status, how can I call you again? Where's Master Wade..."

Charlie waved his hand: "Don't, you should call me Master Wade. I still prefer this name to 'Patriarch of the Wade Family' and 'Young Master Wade'."

Don Albert was still a little bit embarrassed. He always felt that Charlie was neglected, but Isaac Cameron was much smarter than Don Albert. He respectfully said: "Master Wade, the

plane is ready and ready to take off at any time, and Ms. deana is here too. I just asked She got on the plane and rested. She didn't want to say anything. She insisted on waiting for you to get on the plane."

Charlie nodded, pointed at Isaac Cameron and said to Don Albert: "Did you see, isaac has been on the road more than you."

Don Albert smiled awkwardly: "Master Wade is right. How can I be a big boss than Mr. isaac? Mr. isaac's brain spins faster than an airplane engine!"

The Charismatic Charlie Wade Chapter 3675

Seeing Don Albert teasing Isaac Cameron, Charlie couldn't help but smiled. Thinking of Orrin Sun's suggestion on Wanlong Temple, he felt and said: "Don Albert, you have to take some time to do more self-improvement. What will happen in the future? , I think you don't care about it by yourself. Give all of the four kings to your subordinates and let them take full responsibility."

Don Albert agreed without hesitation, and said, "Master wade, I will do what you say. I'll have a meeting with them when I go back, and leave those things to them."

After that, Don Albert asked a little embarrassedly: "By the way, Master wade...I handed over everything, what shall I do in the future?"

The reason why Charlie kept Don Albert by his side was because of Don Albert's loyalty to him.

Even if you don't know what you are going to do next, and what you can do, you must first agree to your request. This is far more sincere than ordinary people.

For the same thing, if you change to another person, the other person is likely to ask yourself what you want to do next, then weigh the benefits and losses, and finally make a decision.

But Don Albert is really obedient.

Do what you want to do, as for the other things, do it first.

Therefore, Charlie said to Don Albert earnestly: "Next, I plan to let the Wade Family increase some investment in Aurous Hill and build Aurous Hill into Wade Family's second base camp. By then, many big projects will be launched in Aurous Hill one after another. I will find an errand for you to make sure you earn more than before, and you earn cleaner!"

Hearing this, Don Albertyi said with great gratitude: "Master wade...Thank you for your support! Don Albert is grateful!"

Charlie waved his hand and exhorted: "Don't always hang on your lips if you are grateful, just do things well."

"Yes! Master wade!"

Charlie looked at Isaac Cameron again, and when Isaac Cameron heard that he had made a promise to Don Albert, there was no bit of discomfort or jealousy on his face. He also recognized Isaac Cameron's disposition a little more in his heart.

Therefore, he said to Isaac Cameron: "Old isaac, in the future, the business of the Wade Family in Aurous Hill will basically be entrusted to you, and you must also expand your team so that it will fall to Aurous Hill in the future. Investment may have to be calculated in hundreds of billions. For such a large plate, you must be able to control it."

Isaac Cameron nodded very calmly and said, "Master wade can rest assured that I will definitely expand the team's size and improve the team's level as soon as possible."

Charlie nodded lightly, and then said to Stefanie Sun: "Stefanie , you can send me here, go back and tell Uncle and Aunt for me, next time I come to Eastcliff, I will visit them at home."

Stefanie Sun said with a look of dismay: " Charlie, or you should board the plane first, and I will wait for your plane to take off before leaving."

Charlie smiled and said: "Maybe we will meet again in a few days. Don't make it like a goodbye to life and death. I will be relieved to see you driving away with my own eyes."

Stefanie Sun nodded gently: "Well, Charlie, I wish you a good journey, and tell me when you get there."

"Okay." Charlie smiled slightly: "Go back quickly."

Stefanie Sun reluctantly left.

If it weren't for Don Albert and Isaac Cameron here, she would have to ask Charlie for a while, and hug him before letting him go back.

Charlie watched Stefanie Sun drove out of the hangar. Then he turned around and came to the boarding step ladder. Deana stood on the spot with the trolley in both hands. He looked

at Charlie with a smile, and said with a smile: "Take me back to Aurous Hill. Are you troublesome?"

Charlie hurriedly said, "How come Aunt , come, I will help you carry your luggage."

With that said, Charlie had already taken the suitcase from her, and then made a gesture of inviting Deana, and said respectfully: "Aunt , please ask first."

The Charismatic Charlie Wade Chapter 3676

Deana still wanted to refuse, but seeing Charlie's sincere attitude and not being polite, he said softly, "Thank you!"

Immediately, he got on the plane first.

Charlie followed closely with the suitcase, Don Albert and Isaac Cameron followed behind and boarded the plane.

Returning to Aurous Hill this time, there were only these four passengers on the plane. The crew member closed the cabin door after asking Charlie whether to take off immediately and getting a positive answer.

Charlie invited Deana to sit on the sofa in the meeting area of the business jet, while Don Albert and Isaac Cameron sat on the side seats.

As the plane rolled out slowly, Charlie said to Deana, "Auntie , these two next to me are my friends. The older one is called Don Albert, and the younger one is called Isaac Cameron. Strong connections and relationships. If you need help in Aurous Hill, you can contact them directly. Of course, you can also contact me directly, just don't let my wife know."

Don Albert hurriedly said, "Ms deana, please speak up if you have any needs in Aurous Hill from now on!"

Isaac Cameron also hurriedly said: "Ms deana, I am Isaac Cameron. Please do not hesitate to order anything in Aurous Hill in the future."

Deana nodded gratefully and said, "Thank you!"

After that, she looked at Charlie curiously and asked: "You are going back this time, do you plan to confess your identity to Claire?"

Because of the renovation of Charlie's parents' old house, Deana became Claire's client. She knew that Claire had no idea about Charlie's true identity.

When Deana asked his wife Claire, Charlie said embarrassingly: "I haven't thought of where to start. After all, she doesn't know anything about these things. If she really wants to confess her identity, I am afraid it will not last three days. Sanye couldn't explain it clearly."

In fact, what Charlie thought of was something Claire had said unintentionally.

At that time, she jokingly said that if she really is the eldest young master of some top family, then she will divorce herself as soon as possible.

Charlie knew Claire's character. Although she was joking, she would usually do it. Regardless of her soft temper, she was very stubborn in her bones.

Charlie has been married to her for four years and still knows her character very well.

Besides, confessing these things with Claire now will only add to my troubles. He has just taken over the Wade Family, and there are still many things to be sorted out slowly. The Wanlong Palace is still in urgent need of transformation. It's on fire.

Deana smiled slightly, and said: "Sometimes, the lie is procrastinated and accumulates bigger and bigger. If you told Claire the first time, she should not be too difficult to accept it."

Charlie nodded and said with emotion: "Before the Wade Family came to me, I didn't confess my life experience to anyone. After the Wade Family came to me, I felt that the death of my parents had not yet come to light, and I still don't know how much it was hiding. It's dangerous, so I kept hiding it from her."

Speaking of this, Charlie said again: "Actually I don't know now, who actually killed my parents in the past. I don't know if I can find the murderer in my life, let alone if I am theirs. Opponent, so if I can keep Claire from letting her know, I think it will be easier."

Listening to Charlie mentioning her parents, Deana's expression was a little dim. She was silent for a long time before she said: "Charlie, you must do your best to avenge your parents! If there is anything I can do, tell me and I will do it. I can!"

The Charismatic Charlie Wade Chapter 3677

It only takes less than two hours to fly from Eastcliff to Aurous Hill.

When the plane landed in Aurous Hill, it was only ten o'clock in the morning.

Knowing that Claire was definitely not at home, Charlie did not intend to go home immediately. Instead, he asked Isaac Cameron's men to send Deana back to the old house where Charlie's parents lived, and then went with Isaac Cameron and Don Albert. To Shangri-La.

Today's Shangri-La seems to be a lot more deserted than before, which is in great contrast to the busy scene of Shangri-La.

Charlie came to Isaac Cameron's office and sat down and asked Isaac Cameron: "By the way, Old Isaac, why is Platinum Air today not as lively as before? I have been here so many times, and today is the most deserted one."

Isaac Cameron said helplessly: "I heard the people under my hand talk about it yesterday, not just today, but in fact, the business of Shangri-La has dropped significantly in the past few days. Many companies in Aurous Hill have signed hospitality agreements with us before. Our hotel is regarded as their regular business hospitality hotel, but before the Wanlong Temple released a message to kill Yeling Mountain, since then, they have all terminated their cooperation."

After speaking, Isaac Cameron said again: "After you conquered the Wanlong Palace, you claimed that the Wade Family compromised with the Wanlong Palace. The news that the Wade Family was conquered by the Wanlong Palace was rumored in the market for these two days, so the business of the Shangri-La was also sharp. A lot less."

After a pause, Isaac Cameron explained: "In fact, more than half of the business of our five-star hotels is based on corporate cooperation. Some travel agencies that have cooperation agreements are on the one hand, and those companies that have business entertainment and conference needs are also the same. On the one hand, as far as the individual guests go out to stay in five-star hotels, there are actually not that many. These companies have now drawn a clear line from Shangri-La, and the source of customers has suddenly been slashed by more than half, which naturally appears to be very deserted."

Charlie heard this and couldn't help laughing: "These companies are really real... even if such a small cooperation has to break the contract, the contract spirit of this group of people is really too lacking."

Isaac Cameron nodded and said, "Master Wade, you don't know anything..."

Charlie interrupted him as soon as he stretched out his hand and said earnestly: "Old Isaac, when you call me Master Wade, I always play very well, just like Don Albert called me young master, or you should call me young master. I've known you for so long and you've been calling me that way, and I'm used to it."

Isaac Cameron chuckled and said, "To be honest, Master, I am indeed a little awkward when I call you Master Wade..."

After that, I quickly returned to the topic and said seriously: "Master, you don't know anything. Before, many local companies in Aurous Hill wanted to get close to me, so they signed a hospitality agreement with us."

"But in fact, our hotel's consumption level is still very high, and many companies can barely get it by gritting their teeth."

"For example, for a company, if you use the Express Business Hotel as a hospitality, it will cost more than 200,000 yuan a year, but if you replace it with our five-star hotel, it will cost at least 600,000 to 700,000 yuan a year. For them, the pressure is still quite large."

"Now that they feel that the Wade Family is declining, they definitely don't think it is necessary to spend so much extra money to please me."

Charlie nodded and said lightly: "In this case, it's better to remove half of the hotel's guest rooms from the sales end."

After speaking, Charlie said again: "From now on, all the administrative buildings of Shangri-La will stop selling, leaving the whole building behind. I have other uses."

"Okay." Isaac Cameron nodded without hesitation and said: "Then I will notify the management in a moment and immediately remove these rooms from all channels."

Charlie said, "When Abbas arrives, let the people of Wanlong Palace live in first, and also leave a suite for Xion, and then vacate 20 rooms for me as business hospitality. Let the professional managers of the Wade Family come to Aurous Hill to report to me on a regular basis."

The Charismatic Charlie Wade Chapter 3678

"Good young master." Isaac Cameron hurriedly said: "I will immediately coordinate and replace all the staff in the administration building with my cronies, and at the same time strengthen security management to prevent outsiders from entering."

"Yeah." Charlie nodded, and said again: "After Abbas arrives, I will ask him to transfer a five-star warrior from Wanlong Palace, and then transfer 30 well-trained subordinates. It is time for them to form a flexible security team in Aurous Hill, commanded by you, and the group of people under your hands are loyal enough, and their combat effectiveness is still weaker. With their supplement, the overall strength will be qualitatively improved. "

Isaac Cameron respectfully said: "Good young master! I will also take this opportunity to let the people of Wanlong Palace help us cultivate more talents!"

At this time, there was a knock on the door and the voice of a young woman: "Mr isaac, President Quinton of the Quinton family and Mr. White of the White family want to see you."

Isaac Cameron was a little surprised and said, "Why did Mr. Quinton and Mr. White find them at this time?"

After speaking, he looked at Charlie and asked, "Master, do you want to see them?"

"Of course." Charlie nodded and said: "Everyone has come here, so how can you avoid it."

Isaac Cameron hurriedly said to the female secretary at the door: "Bring people here."

"Good President isaac."

After a while, the female secretary went and returned, together with her were Mr. Quinton and Mr. White.

As soon as the two entered the door, they were surprised to see Charlie and Don Albert both sitting on the sofa.

Mr. Quinton asked hurriedly, "Master Wade, why are you here too?"

Charlie smiled and said: "I didn't hear that something happened to Mr. isaac's old boss, so when he comes back, I will come and have a look."

Mr. Quinton and Mr. White suddenly realized.

In fact, they both serve the same purpose.

I have heard that something has happened to the Wade Family, and Isaac Cameron is not in Aurous Hill.

Just now, Mr. Quinton heard from his own news channel that Isaac Cameron had returned to Shangri-La, so he hurriedly called Mr. White to come and have a look.

When the two first entered Shangri-La, they both saw that the hotel's business was much bleaker than before, and knew the general situation well, so Mr. White said: "Mr. isaac, we are here this time, in fact, we just want to talk to us. Shangri-La strengthens cooperation."

After talking, Mr. White said again: "I have developed two real estates in the suburbs. They were sold well. They sold half of them in less than a month. So I thought about holding an appreciation meeting for the owners. For banquets, shows, sweepstakes, etc., you will have to keep the largest banquet hall in Shangri-La for me then!"

Mr. Quinton also smiled and said: "Our Quinton family's good fortune this year is that the supply of medicinal materials has set a record. In the past, we rushed to collect medicines from the origins of various medicinal materials across the country. This year I plan to directly establish one in Aurous Hill. The medicinal material exchange meeting, let this group of medicinal material suppliers come to Aurous Hill with samples and prices for on-site exchanges. If it is suitable, we will sign on the spot. If it is not appropriate, I will reimburse them for the round trip fee. In this regard, I have to trouble Mr. isaac to help arrange!"

Seeing the attitude of the two of them, Charlie felt a little more admiration in his heart.

At this time, the others avoided Shangri-La, but the two of them rushed to deliver the business, and it was clear that the two of them indeed regarded Isaac Cameron as friends.

So Charlie smiled slightly and said: "Mr. isaac, since everyone is so praising your scene, then I will join in! Leave your banquet hall here for me for two days, and I want to hold an auction. !"

Isaac Cameron asked hurriedly, "Master Wade...what are you going to auction?"

Charlie smiled and said: "I turned around to say hello to Jasmine, and asked them to take out a part of the collection from Song Jiaji Qingtang to support the scene. As for myself..."

When Charlie said this, he laughed self-deprecatingly, and said: "I don't have any valuables on my body. I am afraid that I can only use the Rejuvenation Pill. At most, I will refine a few amulets at will and see who Be willing to be the bully!"

The Charismatic Charlie Wade Chapter 3679

When I heard that Charlie was going to shoot Rejuvenation Pill, everyone present took a breath of surprise.

Isaac Cameron subconsciously said: "Master Wade, the last time you took the rejuvenation pill at the moore's house, the transaction price reached a high of 2 billion. And that time, you did it improvisationally. I know, that's why it was sold by Travis Lane at a price of 2 billion..."

After speaking, Isaac Cameron said again: "If we hold a serious auction this time, do a good job of publicity in advance, and attract all the top wealthy people, it will be five billion, which is not a problem!"

Mr. Quinton on the side also said, "Yeah, Master Wade! Your Rejuvenation Pill has long been famous in the wealthy circles in the South. Travis Lane came to obey that Rejuvenation Pill, and he was nearly twenty years younger, more than fifty years old. The year-old man looks like he is in his thirties! People also say that he has been tossing between men and women during this period. Just being a female celebrity, he has been involved in seven or eight... I know how many rich people dream of Jasmine to rejuvenate! If this news spreads, it is estimated that all the rich people across the country will come to Aurous Hill!"

Charlie said indifferently: "What I want is this effect. Many people feel that Aurous Hill can't make it to the table. Then I will let these top wealthy people rush to Aurous Hill! Many people are now thinking about drawing a clear line from the wade family. Then I will let them bite the bullet and enter Shangri-La to participate in this auction!"

After speaking, Charlie said again: "This auction has three core lots. The finale is a rejuvenation pill, followed by a rejuvenation pill divided into four parts, each of which will be auctioned separately, and then three amulets. For the rest, let Jasmine choose some Jiqingtang's collections to come in and hold a scene."

When Mr. White heard this, he said with regret: "Oh... the last time I auctioned at the moore's house, I didn't have the strength to compete with President . In this auction, I think it is impossible for me to shoot the rejuvenation by smashing the pot and selling the iron. Dan..."

As he said, he hurriedly asked Charlie again: "Master Wade, what are the effects of the amulet you refined? If it is appropriate, you will have to go to the auction when you have a good foundation!"

Charlie smiled and said: "The amulet is nothing more than exorcising evil and avoiding calamities. If you change the Feng Shui fortune, it is definitely impossible to live longer and prolong life like Huichun Pill."

Mr. White slapped his thigh: "It can drive away evil spirits and avoid disasters, but also change the Feng Shui fortune. Buy one and wear it every day, maybe the business will be more and more prosperous! I will definitely find a way to take one back!"

Charlie waved his hand: "The auction is just to make money from outsiders. You don't need to participate. The amulet is simple. I will make a few more. I will give you one by one at that time. As for the rejuvenation pill, you don't have to. It costs sky-high prices to shoot, and if the time is right, I will give you some."

Mr. Quinton and Mr. White were very grateful when they heard this.

Both of them were fortunate enough to have received the Dispersing Blood and Heart-Saving Pill given by Charlie, and the effect had already benefited them endlessly, and the two of them were even more looking forward to the Rejuvenation Pill.

However, they also know their actual situation. The two families in Aurous Hill are barely reaching the level of a tens of billions of families, and most of the funds are placed in various real estate and companies. They really want to buy billions of cash. Rejuvenation pills, they simply don't have this strength.

Although Charlie didn't say that he would definitely give it to them if he died, but since Charlie had this statement, it proved that there was a great opportunity.

The Charismatic Charlie Wade Chapter 3680

So they are also very clear that in the future they only need to perform well in front of Charlie and do their best to do things for Charlie, then Charlie will definitely not treat them badly.

At this time, Isaac Cameron quickly asked: "Master, when do you want to start this auction?"

Charlie asked him: "How long does the preliminary publicity preparations take?"

Isaac Cameron said: "Large auction houses like Christie's and Sotheby's generally prepare a large-scale auction, which takes at least half a year. They usually have two large-scale auctions a year. In this half a year, there will be at least four months. All kinds of lots are being prepared, just like a talent show. Several rounds of screening are required to select the lots that will eventually appear at the auction."

After a pause, Isaac Cameron said again: "In addition, when all the lots have been confirmed, it will take at least two months to prepare, because it takes a long time for them to lay the groundwork for a little publicity and print the auction brochure. , To all customers, key customers should take the customer representatives to introduce them face-to-face, let the other party know what good things will be in this auction, and what kind of collection value these things have."

Charlie waved his hand: "It's been too long for half a year. This time we will speed up the pace. It is now early April, and the auction will be scheduled for late April. This time we will use word-of-mouth communication to promote it only among the elites of the upper class."

After speaking, Charlie said again: "In this auction, the maximum number of people participating in the auction will only be given two hundred places, and one more will not be released!"

"In addition, don't ask for any telephone bidding. Anyone who wants to participate in this auction must come to Aurous Hill! They must sit in the banquet hall of the Shangri-La Hotel and bid for me!"

"Moreover, no matter who finally photographed this rejuvenation pill, he must take it in public on the spot and never take it away!"

Everyone was even more shocked when they heard this, and Mr. Quinton asked inexplicably: "Master Wade, why must he be taken in public and not allowed to take it away? This doesn't seem to be very humane..."

Charlie smiled and said: "Of course this kind of thing can't be humanized. It's hard for ordinary people to buy a cheap Moutai, let alone my rejuvenation pill?"

After speaking, Charlie said again: "You must take it in public to ensure that any rich person who wants to rejuvenate must come in person. Even if the queen of Europe wants it, she must go to Aurous Hill to participate in the auction in person! In addition, it can also ensure the effect of Rejuvenation Pill, which was witnessed by the 199 other people!"

Charlie paused slightly, raised his eyebrows and asked: "Think about it. Then there will be a rich man who will take the first quarter of a rejuvenation pill. Once he takes it on the spot, there will be 199 people left, right. What kind of enthusiasm will the following three rejuvenation pills and a whole rejuvenation pills fall into?"

Hearing Charlie's explanation, everyone else seemed to have seen the crazy fight at the auction.

After all, for those poor super-rich people with only money left, the rejuvenation pills that can return to youth, extend their lives, and dispel illnesses are definitely the most crazy thing in the world.

At that time, the price of Rejuvenating Pill will easily be pushed to the cloud!

Isaac Cameron was very excited and blurted out: "Master Wade, as long as this auction is successfully held, then after the auction, the reputation of Rejuvenation Pill will be famous all over the world!"

Charlie nodded and said with a smile: "What I want is to make it famous all over the world! As long as this auction meets my expectations, this auction will continue to be held in the future! In the future, I may offer one or two each year. Several or even three or four rejuvenating pills will be used for auction. At that time, I will make this little Aurous Hill a holy place for the world's richest people to flock to and worship!"

The Charismatic Charlie Wade Chapter 3681

For the rich, the appeal of Rejuvenation Pill is definitely more than any other item in this world.

However, Charlie had never regarded Pill as a commodity for so long before.

The only time the Rejuvenation Pill was auctioned was because ppl was too forceful at Jasmine's birthday party, and Charlie took out a Rejuvenation Pill and slapped him in the face.

As for the other rejuvenation pills, Charlie basically gave it to relatives and friends around him as a favor.

However, the current Charlie's mentality has changed from before.

Before, he was not eager to make money, and he never thought about how much money he would make, and what height he would make.

However, now he has become the head of the Wade Family and has vowed to carry forward the Wade Family. Therefore, now he must consider how to convert all his resources into interests and influence as much as possible.

He happened to have rooted in Aurous Hill for many years, and now he also hopes that Aurous Hill can take on the burden of Wade Family's second center, so borrowing the Pill and the auction will not only make a lot of money, but also increase Aurous Hill's influence, which is definitely two birds with one stone.

At this time, Isaac Cameron asked Charlie respectfully: "Master Wade, how should the two hundred spots be released at the auction?"

Charlie smiled and said: "Find a technical team to develop an official APP software, then let them sign up on our official APP."

Isaac Cameron asked again: "Then if there are too many people signing up, how should we select? First come first served or?"

Charlie waved his hand: "How can such a fair and just rule of first come first serve appear in our APP? We open the door to do business, of course, everything is money-oriented!"

Isaac Cameron was confused: "Master Wade, what do you mean..."

Charlie smiled and said: "Our APP, in theory, anyone can download, but if I want to sign up, I have two requirements:"

"First, we must accept our capital verification. Only those with actual assets greater than 10 billion are eligible to participate;"

As soon as this was said, everyone's expressions were extremely shocked.

The admission ticket is 10 billion? ! This threshold is too high! Even for the top high-end clubs in China, the threshold for entry is only about one billion yuan.

Before they could recover from their shock, Charlie said again: "Secondly, on this basis, we will use the actual amount of capital verification from high to low to select two hundred places that can finally participate in the auction!"

After speaking, Charlie explained: "In other words, our rankings are in no particular order, first come, last come, which is a simple and rude measure of everyone's strength. Whoever has the most money will be ranked first, whoever has no money, or whoever is not rich enough to rank in the top two hundred, then I'm sorry, I don't welcome him here."

Everyone was silly, and Isaac Cameron subconsciously said: "Master Wade... more than ten billion rich people, even the whole country can't find two hundred..."

Charlie smiled and said: "Who said that it is only limited to China? I will find some people from overseas to help promote the promotion, I believe the rich overseas will also flock to it."

When saying this, Charlie thought of two suitable candidates.

One is the old Fengshui master Orion Exeor. He is highly regarded in the American Chinese world. This group of Chinese Americans, including Mai, dream of understanding how Orion Exeor became twenty years younger. Once the auction went off, Orion Exeor made it clear that he had eaten this rejuvenation pill before he was rejuvenated. Then the rich man in North America might fly back overnight that night.

The other is the Queen of Northern Europe who has just been rescued by herself.

She is still waiting for her follow-up rejuvenation pill. Naturally, she will be obedient to herself. Tomorrow will be Helena's enthronement ceremony. At that time, the royal family and the top rich in Europe will go to Northern Europe to participate in this enthronement ceremony, as long as the old lady. In front of this group of rich Europeans, rejuvenating pills will surely make a huge wave in the hearts of this group of nobles.

The Charismatic Charlie Wade Chapter 3682

At that time, the tiny Aurous Hill will probably become the center of attention of the world's richest people.

Speaking of this, Charlie said again: "isaac, don't many people want to draw a clear line from Shangri-La? Then you will announce to the public that all those who come to participate in the auction must live in Shangri-La to enter!"

"At that time, the house price of your Shangri-La can be directly increased by a hundred times the original price! What used to be one thousand a night will become one hundred thousand a night, and the previous one ten thousand yuan a night will become one million a night! Don't you all want to hide from Shangri-La a little bit? Let them see how the top wealthy people grab rooms at Shangri-La!"

When Isaac Cameron heard this, he said excitedly: "That's really great! Two or three days will be enough for a year's turnover..."

Charlie smiled and said: "I hope that through this auction, Aurous Hill's soft power can be greatly improved!"

"The Silicon Valley of the United States has no unique conditions. Isn't it because there are more Internet companies that have gradually become famous around the world?"

"Las Vegas was originally a desert, but after the gaming industry rose up, it became a world-famous casino in a short period of time."

"This proves that if a city wants to develop, it does not necessarily need a unique geographical location and natural resources. As long as it can choose the right field and tap the soft power in this field, it will definitely be able to develop."

Speaking of this, Charlie said arrogantly: "I dare not say that Aurous Hill can be turned into a top prosperous metropolis, but I can definitely build Aurous Hill into a longevity capital for the world's top richest people! At that time, Aurous Hill's economic development I believe it will also usher in a huge take-off!"

...

In order to promote the self-auction plan as soon as possible, Charlie called Jasmine and told her about the idea of the auction.

After listening to Jasmine, she was very excited because she knew very well that this was also a very good promotion for the Moore family.

Nowadays, there are many companies doing antique calligraphy and painting collection auctions, but not many can make an impact. The reason why Christie's and Sotheby's are globally known is that they have strong connections and influence both upstream and downstream.

The upstream, that is, the source of antique calligraphy and paintings, now a lot of good things are in the hands of individual collectors. If they want to take out part of the collection for auction, the first thing they think of is these two big auction houses, so these two big auction houses' The so-called source of goods is countless times stronger than the average auction house.

As for the downstream, those wealthy people who are willing to spend a lot of money to bid for collections from auction houses. Generally speaking, they only choose auction houses that are well-known, safe and have good things.

Therefore, big auction houses such as Christie's and Sotheby's can simultaneously meet the needs of upstream and downstream for it, so they can also form a strong business closed loop. The more people trust them, the more good things are given to them for auction. Those buyers are more willing to choose them.

Over time, it is almost impossible for other brands to compete with them.

The Song family also handles a lot of collections every year, but because it does not have a strong influence, neither the purchase price nor the selling price can reach the best condition, and in many cases it is impossible to receive it with the money. good stuff.

Charlie is willing to organize together with this auction, which will greatly enhance Moore brand influence.

Maybe after one or two auctions, Moore's influence will be on par with Christie's and Sotheby's.

Therefore, Jasmine not only agreed without hesitation, but also promised Charlie that she would definitely bring out the best collection to help Charlie support the scene of this auction!

The Charismatic Charlie Wade Chapter 3683

The inspiration from the auction made Charlie excited.

After he left Shangri-La, he did not go home, but went directly to the Emgrand Group to find Doris Young.

At this time, in his heart, there is a longer-term plan.

He wanted to take this opportunity to strengthen the Wade Family's commercial layout in Aurous Hill.

As long as the operation of this auction is smooth, Aurous Hill's attention will surely increase rapidly, and by that time, Aurous Hill's commercial value will also rise rapidly.

By that time, land prices in Aurous Hill will rise, housing prices will rise, foreign investment will rise, overall consumption power and economic development will also rise.

Therefore, if the layout is done in advance, the Wade Family will definitely be able to seize this opportunity to take off!

Therefore, he is ready to raise funds immediately, hoarding land in Aurous Hill, and at the same time making more investment in high-end service industries in Aurous Hill.

Just like Las Vegas in the United States, there are not only casinos, but also high-end hotels, nightclubs, and restaurants.

Casinos make money, and these high-end supporting industries can also make a fortune.

As for real estate, not to mention.

Charlie even felt that he could develop a top-notch villa area in Aurous Hill. The external price could be several or even ten times the market price. A set of 500 million starts, and the property fee starts 50 million a year.

Don't think you can't sell it, it's impossible to sell it!

Because Charlie only needs to take out an extra rejuvenation pill every year to hold an internal auction and only open to this group of owners, then these villas will not worry about selling at all.

All in all, as long as you go all out to promote the value of Rejuvenation Pill, it will be able to continuously promote Aurous Hill's economy and Wade Family's industry!

When he arrived at the Emgrand Group, Charlie directly took the chairman's elevator to the floor where Doris Young was.

When Doris Young's secretary saw Charlie's arrival, she hurriedly said respectfully: "Hello young master, are you looking for Deputy Doris?"

Charlie nodded, and asked her, ", Deputy Dong, here?"

"Yes." The secretary said: "But Deputy Doris is seeing the guests. Or if you go to the reception room and wait for a while, I'll tell her."

"Okay." Charlie said lightly: "Tell her not to worry, and finish her work before talking."

"Good young master."

Charlie followed the female secretary to the reception room next to Doris Young's office. As soon as she arrived at the door, the female secretary opened the door and said to Charlie: "Master, sit down for a while, I'll go and talk to Vice Doris."

"Okay." Charlie replied casually.

Just after speaking, the door of the next door opened, and Charlie suddenly heard a familiar voice from inside: "Deputy Doris, you stay, and I can go by myself."

Charlie immediately recognized this voice, it turned out to be his wife Claire.

At this time, Doris Young said with a smile: "Manager Claire doesn't need to be so polite, I will take you to the elevator."

Immediately afterwards, Charlie saw his wife Claire walking out of Doris Young's office.

Seeing Claire's profile, Charlie hurriedly stepped into the reception room, and then closed the door.

Claire only saw a figure flashing into the next room. When he looked closely, he only saw Doris Young's secretary standing at the door of the next door house price with a look of surprise, and asked in surprise: "Master... ..You...are you okay?"

Charlie didn't answer, because he was afraid that Claire would hear him even if he changed his voice on purpose.

At this time, Doris Young just came out behind Claire. When she heard her secretary mentioned the word Young Master, she hurriedly asked: what's the matter?"

The secretary hurriedly said: "Deputy Doris, the young master is here, he said he has something to do with you, but..."

Doris Young hurriedly waved to her and said: "Okay, I know, you can go to work first, I will go to see the young master after I send Ms.claire ."

Although the secretary felt that Doris Young's attitude was a bit strange, she didn't ask anything about her professionalism, and immediately said simply: "Okay, Deputy Doris, then I'll go ahead."

The Charismatic Charlie Wade Chapter 3684

After speaking, he turned and left.

Doris Young breathed a sigh of relief, adjusted his state, and said to Claire, "Mr. Claire, let's go first."

Claire asked her with some curiosity in a low voice: "Vice Dong, the young master she just mentioned should be the chairman of your Emgrand Group, right?"

Doris Young could only nod her head and said, "Yes, it's our chairman."

Claire asked again: "I used to hear people say that he seems to be the young master of the Eastcliff family?"

"Yes." Doris Young said with a smile: "But our young master is relatively low-key, and there is not much news about him from the outside world."

Claire nodded slightly. Before, she was very curious about the actual identity of the chairman of Emgrand Group. After Emgrand Group helped herself several times and even signed a cooperation agreement with herself, she sometimes even had an illusion. I always feel that the chairman of the Emgrand Group seems to have some mysterious relationship with his husband Charlie.

However, whenever she had such an idea, she quickly denied this conjecture.

After all, she knows Charlie's origin very well. She has been an orphan since she was a child, and her life experience can be said to be very pitiful. It is impossible to have any overlap with the young master of the Eastcliff family.

But she suddenly felt in her heart: "The figure I saw with a glimpse just now, its body shape, including height, seems to be very similar to my husband..."

When he was puzzled, Claire couldn't help but relieve himself: "Claire, Claire, you really think too much. Although the figure just now looks very similar to Charlie, what can it tell you? Don't chase after the wind here."

So thinking of this, she didn't continue to speculate. Instead, she said to Doris Young: "Deputy Doris, since the chairman is here, you don't need to send me off, I can just go by myself."

Doris Young smiled and said, "I'll take you to the elevator."

After speaking, he made a gesture of asking, and said, "President Claire, please."

Claire was helpless and could only step outside. When she passed the reception room, she paused for a while, and she was also full of curiosity about the chairman of the Emgrand Group inside.

After all, it has been so long, and no one outside knows who the chairman of Emgrand Group, the largest company in Aurous Hill, is.

Claire also wanted to know the true identity of the chairman, or in other words, want to see what this low-key person is like.

Seeing her stop, Doris Young hurriedly asked: "What's wrong with you, President Claire?"

Claire came back to his senses and said hurriedly, "Oh, nothing... let's go..."

Doris Young breathed a sigh of relief, and then came to the elevator together with Claire.

She didn't dare to make any difference, so when she saw Claire getting on the elevator and the elevator started to move downwards, she finally felt relieved, and she called her secretary and said, "From now on, No one is allowed to come to this level, have you heard?"

The secretary hurriedly said: "I know Deputy Doris, I will be at the elevator entrance. Don't worry."

"Good." Doris Young nodded in satisfaction, and hurriedly went to the drawing room.

At this moment, Charlie couldn't help feeling lingering in the conference room.

Just now, if Claire came out a second earlier, he would have nowhere to hide in that corridor.

If it really hits head-on, even if Doris Young and her secretary can't say anything, they can't explain it to Claire.

Obviously, I went to Eastcliff to show my customers Feng Shui. Why did I return to Aurous Hill without saying a word, and came directly to the Emgrand Group to find Doris Young?

Therefore, Charlie felt very fortunate, but fortunately she was not discovered by her!

The Charismatic Charlie Wade Chapter 3685

At this moment, Doris Young knocked on the door outside the reception room: Master, please move to my office.

Charlie opened the door and asked, Did you leave ?

Doris Young nodded and said: The young lady has gone down, don't worry.

Okay.

Charlie sighed in relief, and came to her office with Doris Young, and at the same time asked her, What's the matter with you?

Doris Young replied: It is the progress of the Dorsett Hotel project. The second phase of the project undertaken by the young lady has been completed. Our supervisor will organize the acceptance in these two days.

Charlie asked, Is it going well?

Doris Young Nodded: Madam has done a good job. The quality of the project and the progress of the construction are better than we expected. Moreover, it is the most professional and ethical Party B that the Emgrand Group has cooperated with over the years. There is no cutting corners in the construction materials. , Is definitely the industry benchmark.

Charlie said gratified: That's good.

Doris Young asked at this moment: By the way, when did you come back from Eastcliff?

Charlie said: This morning.

Doris Young nodded, and said with some shame: After hearing about the Wanlong Palace, I originally planned to go to Eastcliff as soon as possible, but then I thought about my female stream. I was afraid that it would not help me. Instead, it gave you trouble, Young

Master, so I will stay in Aurous Hill to ensure that everything in the Emgrand Group operates as usual. Please don't be surprised, Young Master.

How could it be.

Charlie smiled slightly and said seriously: You are right to do this. If there is a bit of trouble, everyone will leave their posts and run to help me. On the contrary, many things will be deadlocked. Not much to say.

Doris Young hurriedly said: That's good...I always think you must have a solution to this crisis, Master!

Charlie nodded and smiled: It's a crisis, but it's an opportunity. I have officially become the head of the Wade Family, and Wanlongdian has already loyal to me. Next is the time to let go and do a big business!

Doris Young's expression was shocked, but soon returned to normal, and said earnestly: Master, you are in charge of the Wade Family, and I believe that a new breakthrough will soon be ushered in!

Charlie said: Speaking of new breakthroughs, I just went to Shangri-La and chatted with Isaac Cameron and the others. It just happened to have some new inspiration. Then I came to you, and I have something to discuss with you.

Doris Young nodded lightly, and asked curiously: Master, what new inspiration do you have?

Charlie then told Doris Young about his thoughts about the auction in detail.

After hearing this, Doris Young blurted out with excitement: If the young master can really attract the world's richest people, then the development of Aurous Hill You must be able to enter the fast lane immediately! This is a golden opportunity for Aurous Hill, and it is the same for Emgrand Group! We must seize this first opportunity and make a layout in Aurous Hill before the auction really arrives.

Charlie agreed with him and said, I agree with you, and I came to you for this.

After

that, Charlie asked her, How much is the available funds of the Emgrand Group?

Doris Young hurriedly said: At present, our available funds are about 13 billion yuan, but we can still borrow at least 40 billion yuan from the bank at any time, and the total funds can be up to 50 billion yuan.

Charlie nodded and said: I. I am transferring 100 billion cash to you from the Wade Family. In addition, I personally inject another 50 billion and put together 200 billion in cash. Then you can use the fastest speed to buy good land in Aurous Hill, or have development prospects. Buy as many plots as possible!

The Charismatic Charlie Wade Chapter 3686

Doris Young exclaimed: Master, do you invest 200 billion in one go? Will this plate be a bit too big...

Charlie smiled slightly: Since we have to seize the opportunity, the larger the size of the funds, the better, otherwise we can't eat meat at all, and will drink two mouthfuls of soup at most.

After

that, Charlie said again: In the future, I plan to gradually build Aurous Hill into a longevity one. In addition to the Huichundan auction, I also plan to engage in several longevity communities and supporting high-end commercial services. The threshold for the longevity community must be set infinitely high, so high that almost every owner must be a famous one on the Forbes list. Only rich people with surnames are allowed. As long as they live in my urban community, I can give them a certain percentage of rejuvenation pills on a regular basis. A cup of people is enough for them.

Doris Young instantly understood what Charlie meant, and said hurriedly: "Master, I have here a detailed map of all the land to be developed in Aurous Hill. You might as well go and see which land is yours. More interested.

Good!

Doris Young immediately opened the interactive smart screen in the office, and then opened a special Aurous Hill map. On this map, there are various green areas of different sizes and rules in the Aurous Hill urban area.

Doris Young pointed to the green areas on these maps and said to Charlie: "Master, all the green plots on the map are land to be developed and sold. The urban area is relatively small and the area is relatively small, but it is newly developed. From the beginning of the district to the suburbs, the land supply situation is obviously much better.

Charlie nodded, pointing to the several plots in the urban area and said: Anything in the city center, try best to give me as much as possible. Take it down, and you must pay attention to use the bank leverage as high as possible to maximize your available funds. The

Wade Family and I will inject 150 billion cash into you. You must strive for at least three times the leverage effect. Take 450 billion in cash from the bank.

Doris Young said nervously, Master, if this is the case, then our debt will exceed 350 billion. If we count the bank loans originally developed by Group, it will already exceed 400 billion yuan...Now the real estate market has been sluggish, and the policy has repeatedly ordered that real estate speculation is not allowed. Under such circumstances, is it dangerous to achieve such a high debt ratio?

Charlie He smiled and said: First of all, we are not doing the development of ordinary conventional houses. We are also doing super-premium luxury houses. Therefore, we will not drive up the price of ordinary housing in Aurous Hill, nor will it affect the ordinary housing market in Aurous Hill.

The second point is that I will let you take the plots in the city center. In the future, we will use them as high-end commercial facilities. The Dorsett Hotel currently under construction is one of them. A top-notch clubhouse, a few more high-end grades than the brilliant clubhouse of the moore family, I wish I could not get out without spending eighteen million in one trip;

Besides, we need to build another high-end shopping mall. Top brands such as Chanel, Hermès, Louis Vuitton and even Lamborghini Ferrari will all be brought in. If I attract all the rich and powerful to Aurous Hill, I must let them find a place to spend a lot of money in Aurous Hill.

Finally, the third point, as long as the rich are attracted, our project will never lose money, and even make a lot of money !

Having said this, Charlie said confidently: What we are going to do is the real estate project with the highest premium in the world, and we will not cheat the poor or the rich in general, but only the richest in the world. A small group of people! Let them willingly buy assets in Aurous Hill at a premium of ten or even a hundred times, and be willing to be taken advantage of!

The Charismatic Charlie Wade Chapter 3687

Hearing Charlie's plan, Doris Young nodded repeatedly and said: "Master, I understand what you mean. Then I will ask someone to write a professional business plan, and even go to an internationally renowned design studio to help us. To design a blueprint, we must start from the highest direction."

"Yeah." Charlie said: "This matter is left to you. I have three requirements. The first is to be fast; the second is to be good; the third is to be full! Shopping in Dubai Do you know the center? It's the one that claims to be the largest shopping center in the world. What we want is their feeling, but it's higher-end and more refined than them."

"Understood!" Doris Young said immediately: "I will immediately proceed with this matter."

Charlie nodded in satisfaction, and said: "Other than that, it's the high-end community."

After all, Charlie zoomed in on the map and found the vicinity of the airport, and then immediately saw several pieces of land that were connected together at a position less than ten kilometers away from the airport in a straight line.

And this piece of land happened to be near the airport expressway, so he said to Doris Young: "I think this area is good. It is close to the airport and next to the expressway. Although it is in a different direction from the city, the traffic should be more convenient. After arriving by plane, you can get there quickly after getting off the plane, which is very convenient."

Doris Young hurriedly said: "These pieces of land have not been developed much yet, and the price should be relatively cheap. As for transportation, because the surrounding areas have not been developed much, the expressway has not yet set up an entrance here, but we can follow the city. Communicate with the transportation department and try to get them to build a new highway entrance for us. If it doesn't work, we can also spend money to build one. This is a small renovation on the basis of the original highway. Not much money."

Charlie nodded and asked her again, "Is there a suitable place to build a golf course around here? It's best to develop it together with the golf course and equestrian venue, and then it will be directly next to our high-end community. ."

Doris Young said earnestly: "Master, a lot of land around here is idle, and there are usually no people or companies to develop in the past. The golf course will definitely be fine."

"That's good." Charlie nodded, and said: "Then you will talk to the bank about the loan from today. I will also arrange the Wade Family to transfer money to the Emgrand Group. You should hurry up and prepare the funds first. Take down all the land you can get in one go!"

Doris Young was also extremely excited and blurted out: "Master, don't worry, I will go all out!"

Charlie smiled with satisfaction and said: "By the way, tomorrow, the day after tomorrow, a kid named Patrick Wade will come over to report to you. That kid should still have two brushes. You will take him to deal with this project when that happens. ."

"Patrick Wade?" Doris Young asked hurriedly, "Is it the Wade Family?"

"Yeah." Charlie said lightly: "A collateral guy from the Wade Family, but he is your subordinate when he comes. You don't need to show him a good face, just use him as a donkey to make him behave. The level and ability in the stomach are fully utilized!"

Although Doris Young didn't know who Patrick Wade was, she also guessed that Patrick Wade had been punished by Charlie 80% of the time, so she was arranged to come to the Emgrand Group, so she nodded and said, "Master, don't worry. Will squeeze out his value!"

Subsequently, Charlie and Doris Young carefully studied the land conditions currently to be developed in Aurous Hill. After all the land of interest was divided, Charlie left the Emgrand Group.

When Charlie came out of the Emgrand Group, the lights were already on, and there were busy, bustling, and very lively traffic.

However, the people walking by are not like Eastcliff, everyone is very busy.

In Aurous Hill, because the pressure of life is not so great and the pace of life is not so fast, it can be seen that people still have a bit of leisure and relaxation on their faces.

It's just that these people coming and going, except Charlie, no one knows that the city of Aurous Hill will soon become an object of world attention.

At that time, this economic development has been pulling the hips, and even as the provincial capital, the provincial capital city, which cannot get the first in its own province, will completely usher in a take-off!

...

Seeing that it was getting late, Charlie bought ten gold bricks of a kilogram from a nearby Huaxia Gold store.

The Charismatic Charlie Wade Chapter 3688

After buying the gold bricks, Charlie took a taxi directly from the gate of the Jindian and returned to Tomson Yipin.

The reason why he bought the gold bricks is because Charlie knows his mother-in-law Elaine, and is definitely looking forward to bringing her some gifts when he comes back.

However, Charlie really didn't have any extra time to choose gifts, so he simply bought a few gold bricks, and then directly said that they were given by the customer. Elaine was sure that his mouth was crooked when he saw it.

When the time comes, give her a piece as a gift, and let her hold it for fun.

In this way, he doesn't have to worry that Elaine will sell the gold bricks for cash.

If it were the former Elaine, he would definitely not say anything else. Tomorrow morning, he would go out and sell the gold bricks.

Moreover, before she left, she was afraid that she would also steal the remaining nine gold bricks from Claire's room and sell them together.

But now he and she are indeed much more honest, and the legs and feet are not so convenient, and it is not realistic to want to go out and sell gold bricks.

What's more, she had to prevent herself from occasionally having to check on a whim, so she could only put away the gold bricks honestly.

Giving her a very valuable, but can't be cashed out gift, just can hold her mentality.

When Charlie returned to Tomson First Grade with four gold bricks, he just entered the gate and saw his wife Claire walking out of the garage in the yard.

Claire just drove back on his front foot and parked the car. Seeing Charlie push the door into the yard, she said with joy, "husband, you are back!"

Charlie looked at her and said in a very fond tone: "I'm back, have you missed me these days?"

"Of course I do!" Claire was not at all shy, ran over happily and threw himself into Charlie's arms. He was happy but with a bit of complaint and said: "Why don't you come back and tell me in advance, I'll pick you up at the airport!"

Charlie smiled and said: "I know you must be very busy at work. I am not willing to toss you so far to pick me up. Wouldn't I be back when I took a taxi by myself!"

Claire said earnestly: "What's the hard work of picking you up, but you, all the way back by plane, have to line up for taxis, how tired!"

"Not tired." Charlie said casually: "I have such a good physical fitness, what a trivial matter."

Claire said helplessly: "You said it early, I'll make a meal at home and wait for you to come back. My mother hasn't been able to cook well for the past few days. I called and said that I didn't want to cook at night, and asked me to come back and order."

Charlie said with a smile: "Ordering is good too, order me one by the way."

Claire nodded and said, "You can go to the house and rest!"

The two came to the villa arm in arm with each other. Claire swiped the fingerprint lock. As soon as he walked in, he heard Elaine's lazy and reproachful voice: "How did you come back, Claire! Your dead ghost dad? I went fooling around with those people from the Calligraphy and Painting Association again. I have been hungry for so long, so I'm just waiting for you to go home and order food..."

At this time, Elaine lay on the sofa in the living room, and didn't even look at it, knowing that Claire must be back.

Claire said helplessly: "Mom, you are too lazy these days. You don't need to do housework. You can order a meal when you are hungry..."

Elaine said impatiently: "I'm the most annoyed ordering food, or I don't want to eat this one, I don't want to eat this one, or I want to eat this one, or another one, I'll let you order it, I Just wait and eat..."

Claire sighed and said, "Mom, Charlie is back, let him see what he wants to eat."

As soon as Claire's voice fell, he heard Elaine say in the living room: "Oh my god, my son-in-law is back?"

After speaking, I heard the sound of someone jumping on crutches.

Immediately afterwards, Elaine ran over with one-handed crutches and all the way. When she saw Charlie, she immediately smiled flatteringly: , my son-in-law is back, why don't you tell mom, mom will make good food for you!"

After speaking, she immediately said, "Good son-in-law, take a rest first. Mom will go to the kitchen to see what i can do!"

The Charismatic Charlie Wade Chapter 3689

When Claire saw his mother's positive and flattering appearance in front of Charlie, he suddenly looked helpless, and couldn't help muttering: "Mom...how come you will be energetic when Charlie comes back?"

Elaine hurriedly said: "Nonsense! I'm not here to be energetic, I'm going crazy these days, I'm holding back a lot of energy all over my body, waiting for my good son-in-law to come back and cook for him. !"

Claire sighed: "There is not even an egg in the kitchen, what are you doing for Charlie?"

"Ah? Really?" Elaine asked in surprise, "Is there no more food in the refrigerator?"

Claire rolled his eyes: "There are only two small cabbages left, and I let Dad use them in the morning."

Elaine cursed vigorously: "This Jacob, the cabbage that my lady bought, why did he eat it? It's really unreasonable!"

Claire rubbed his temples: "Mom... the cabbage is almost rotten... Dad said that if you don't eat it, it will be rotten..."

Elaine quickly turned away from the subject and said: "Forget it, let's order food, it's a surprise, you hurry up to see what is delicious, and come back more!"

After speaking, he said to Charlie with a smile on his face: "Charlie, you must be exhausted after going out for a few days, come on, hurry up and rest on the sofa!"

Claire felt the gap. Although he felt a little helpless, he was too lazy to care about with her mother, so she took out his mobile phone and opened the takeaway app to start looking for food.

Elaine hurriedly greeted Charlie to sit down on the sofa, serving tea and pouring water. Charlie asked her to stop busy a few times, but she just didn't want to, and staggered to make Charlie a cup of tea.

After handing Charlie the brewed tea, she smiled and asked, "Charlie, how about going to Eastcliff this time? Is everything going well?"

"It went well." Charlie answered casually.

Elaine asked hurriedly: "Oh, I should have made a lot of money this time!"

Charlie said casually: "This time the employer is a bit tight on funds, so he didn't give it."

"Ah?" When Elaine heard this, he immediately filled with indignation, "Who is this?! Don't find someone to work if you don't have money! He doesn't give him money if he does the job, that's too much.!"

Charlie smiled and said, "he didn't give the money, but they paid for it."

Elaine's eyes that had just dimmed suddenly lit up again, and hurriedly asked, "Good son-in-law, tell me what the employer is paying for?"

Charlie casually opened the handbag he was carrying, and first took out a gold brick from it.

Elaine saw the golden gold bricks and said in surprise: "Oh my god! The gold bricks! It says 1000, oh my god, 1000 grams!"

After that, she quickly came back to her senses and blurted out: "The price of gold seems to be around four hundred, so this piece is only four hundred thousand..."

Charlie immediately took out another piece, stacked it with the previous piece, and said, "he didn't just give it one piece."

Elaine clapped his hands happily: "Oh! There are more!"

Charlie took out another piece, and Elaine was even more excited: "Mom, three pieces!"

Immediately after...

"Oh, four ..."

"Mom, there's more? This is the fifth piece, right..."

Every time Charlie took out a piece of gold, Elaine danced with excitement, as if she had finally waited for Tang Sengrou's old fairy.

Until Charlie took out the ten gold bricks and placed them in two rows, Elaine opened his eyes wide, staring at the pile of golden gold bricks, and asked excitedly: "Good son-in-law, are there any more? "

"Nothing." Charlie said lightly: "He gave a total of ten , which is estimated to be worth about four million."

"Damn!" Elaine happily exclaimed: "If you just say the 4 million, it seems to be a middle distance, not too little, but not too much..."

The Charismatic Charlie Wade Chapter 3690

Speaking of this, her eyes formed into two slits with a smile, and she held up a gold brick, dancing and saying: "But it's really shocking to change this 4 million into gold! This golden look is too Happy!"

Charlie nodded and said: "I originally wanted to change it to cash and bring it back, but after thinking about it, there is no precious metal reserve in my home, so I might as well keep these ten gold bricks as deposits at home. , Can carry inflation."

Elaine nodded repeatedly, and said in agreement: "Yes, that's right! Now housing prices are not rising, and stocks are falling like dogs, so the price of gold is stronger!"

As he said, Elaine looked at Charlie with a little embarrassment, and smiled: "Oh my son-in-law, you see that your mother has never played with gold bricks in this life. This thing is shiny and heavy. It feels pretty good, or you Give mom a piece and let mom be okay and have fun with it?"

Claire couldn't help crying or laughing, and blurted out: "Mom, who have you ever seen a gold medalist..."

Elaine took it for granted and said: "Didn't you listen to others? Everything is available! Just this big golden brick, it's okay to hold it in your hand as a dumbbell to keep fit!"

Charlie immediately smiled and said, "Mom, you are right, just hold it and play as a dumbbell!"

When Elaine heard this, she hugged the gold bricks in her arms with great joy, and said happily, "Thank you, my good son-in-law!"

Claire hurriedly said, "Mom, this is a reward from Charlie, so why don't you just follow along..."

Elaine grumbled dissatisfiedly: "Claire, this is a gift from Charlie to his mother, it is Charlie's heart, why are you always disappointed here..."

Claire said earnestly: "I'm not disappointed, I'm afraid you will fix some demon moth..."

Charlie persuaded Claire from the side: "Once Claire is done, let her play with her if she likes it, just leave it alone."

Elaine held the gold bricks and said to Claire: "Claire, Charlie doesn't have any complaints, so stop nagging here."

After she finished speaking, she rolled her eyes, looked at Charlie, and said with a smile: "Charlie...my good son-in-law...that...mother is going to discuss something with you?"

Charlie's routines for Elaine were already familiar. Before Elaine could go down, he asked her directly: "Mom, you want to say that it is not convenient to have only one dumbbell. You have to have two and one in each hand. Is it suitable to exercise?"

Elaine slapped his thigh, and said excitedly: "My dear son-in-law, you still know me best! You said this dumbbell, isn't it all paired with each other? It's called fitness by alternating hands one by one up and down. If I only have one, maybe one arm will be thick and the other will be thin..."

Charlie nodded, and directly picked up a gold brick, stuffed it into her arms, and said cheerfully: "Come! Take it! Take both of you! It's all for you!"

Elaine was very happy, with a gold brick in one hand, happily sitting on the sofa and shaking like a tumbler.

Seeing her like this, Claire was helpless or helpless. In the end, he could only say a word to remind: "Mom! You can't secretly sell this gold brick!"

Elaine quickly agreed and said, "Oh, don't worry, I will never sell!"

Claire sighed and said to Charlie: "Husband, I suggest you go to the bank to rent a safe tomorrow and put all these gold bars in the bank. It is not safe to keep them at home after all."

Elaine became angry, and said dissatisfied: "Claire, you were here all night and insinuated about me. Is your mother so unreliable in your eyes? Charlie keeps these gold bars at home, and I can still steal them. How does it go?"

Claire hurriedly said, "Mom, I didn't mean that...I think so many gold bars are kept at home, in case it is not safe to be a thief..."

After speaking, he said: "Your two I suggest you deposit it in the bank. If you really want to exercise, I will buy you a pair of ladies dumbbells tomorrow."

"I don't!" Elaine hugged two gold bricks and muttered: "I will use them and put them under my pillow when I sleep at night!"

Charlie winked at Claire at this time and said, "Okay, Claire, do whatever mom likes, so don't worry about it!"

The Charismatic Charlie Wade Chapter 3691

That night, Elaine never left the two gold bricks that Charlie gave her.

And because the Dorsett Hotel project has entered a critical stage, Claire has been very busy these days.

When Charlie came back, he took the initiative to take her to and from work.

Early the next morning, Charlie sent Claire to the construction site of the Dorsett Hotel, and then received a call from Isaac Cameron.

On the phone, Isaac Cameron told him that Abbas had brought nearly a hundred soldiers from the Wanlong Palace to the Shangri-La Hotel.

After hearing this, Charlie asked Isaac Cameron: "Isaac, is the administration building emptied?"

Isaac Cameron hurriedly said: "Back to the young master, it was empty last night, and the original residents were compensated for double the room rate, and they were assigned to other buildings."

"That's good." Charlie said with satisfaction: "In this way, you let Abbas and them wait for me in the lecture hall of the administration building, and I will pass."

"Good master!"

The administrative building of Shangri-La itself serves large-scale business banquets and high-end business meetings. It not only has a large number of high-end rooms, but also a huge lecture hall and many conference halls.

Among them, the scale of the lecture hall is enough to support an indoor press conference of one to two thousand people.

Charlie asked Isaac Cameron to vacate the administration building, intending to use it as the headquarter base of Wanlong Palace in China in the future.

Driving to Shangri-La, Isaac Cameron was already waiting outside the lobby. Seeing Charlie came, he personally opened the car door for him and took him to the lecture hall of the administration building.

At this time, nearly a hundred soldiers in the Wanlong Palace sat neatly inside, all expressions with full perseverance.

Isaac Cameron pushed open the door of the lecture hall, Charlie stepped in, and Abbas immediately stood up reflexively.

Immediately afterwards, the remaining nearly a hundred soldiers also stood up one after another, watching Charlie who strode in awe.

When Charlie came to the front of the generals in the Wanlong Palace, Abbas took the lead to kneel on one knee and raised his fists over his head. He respectfully said: "MR. Wade, his subordinates are leading the 88 soldiers in the Wanlong Palace, come to Aurous Hill. After listening to your dispatch!"

The other soldiers in the back also knelt down on one knee and said uniformly: "Listen to MR. Wade's dispatch!"

The only two who did not kneel on one knee were the white tiger king Salmaan who had been abolished by Charlie, and the blue-eyed wolf king Chen whose consciousness was sealed by Charlie.

Charlie nodded in satisfaction, stretched out his hand to help Abbas up, and said: "Brothers don't have to pay this big gift, just get up."

As Abbas got up, everyone else also stood up.

Charlie looked at Abbas and asked him, "How is your parents' funeral affairs done?"

Abbas said to Charlie with a grateful look: "Mr.wade, thanks to your high hands, the coffin of the subordinate parents was buried again in a cemetery in Xishan, Eastcliff yesterday. Thank you for your concern!"

Charlie nodded slightly and said earnestly: "Since your parents have been buried again, don't toss them anymore in the future. In addition, remember to pay homage to their graves in Qingming every year."

Having said this, Charlie sighed and said in a rather melancholy manner: "Actually, my situation is very similar to yours. In the past nearly 20 years, I have not been able to return to my parents' grave for worship because of my identity. I have always been very ashamed and self-blame. I believe that you have personal experience of this feeling, and I hope you will try to make up for it in the future."

Abbas nodded repeatedly and said with shame: "What MR. Wade said is that his subordinates have been overseas for these years, and on the death day of Qingming and their parents, they are extremely painful and self-blaming, and they will definitely not make the same mistake again in the future."

The Charismatic Charlie Wade Chapter 3692

Charlie gave a hum and asked him: "Have the soldiers of the Wanlong Palace that I sent to Northern Europe come back?"

"Not yet." Abbas hurriedly said, "They have safely sent the three people to Hunter (Hamid), Syria, an hour ago. They should have begun their return journey now."

"Okay." Charlie said: "Since talking about Syria, I have an idea and I want to communicate with you."

Abbas said without hesitation: "MR. Wade, you don't need to ask your subordinates for advice if you have anything you want. No matter what decision you make, your subordinates will follow it 100%!"

Charlie waved his hand: "This matter is related to the future development of the Wanlong Palace, so I will not only seek your opinion, but also the opinions of other Wanlong Palace soldiers."

After speaking, Charlie said again: "What I want to talk to you is the question of which direction the Wanlong Palace should develop next."

Abbas immediately reverently said: "MR. Wade, please say, your subordinates listen carefully!"

Charlie nodded and said earnestly: "On the first day when forced him to go up to Wanlong Palace and fell the grass as a bandit, what I thought was the future. Although the Wanlong Palace is not a grass bandit, you have been mingling with war-torn countries and regions in the world for a long time. The battle is based on more money and less money, not right or wrong. After so many years, it is inevitable that there will be some help to abuse. Therefore, although the Wanlong Temple is well-known, it is not a good reputation outside."

Speaking of this, Charlie paused slightly and continued: "And now, all of your Wanlong Temple has been under my Charlie's command. So, I hope Wanlong Temple can complete the transformation as soon as possible and gradually wash it out."

Abbas said without hesitation: "MR. Wade, what you said, I had similar thoughts a long time ago, but Wanlong Palace has many soldiers and huge expenses. With my ability, I have never thought of how to lead everyone smoothly. Transformation, I don't know if you have any good ideas, MR. Wade?"

Charlie said seriously: "My current thinking is divided into three directions. The first is to abandon all crooked ways and be a reasonable and legal justice mercenary; the second is to engage in shipping security to ensure the safe passage of merchant ships in areas where pirates are rampant. ; The third one is engaged in team project security, and developed and developing countries provide overall security services for infrastructure projects in the third world."

With that, Charlie explained to everyone the directions he discussed with Orrin Sun that night.

Among them, especially the second point of shipping security.

Because Charlie intends to find a way for Wanlongdian to build a base in Syria, with Syria as the rear, to support their future escort work in the Gulf of Aden.

When he heard about the future transformation and defense of global merchant ships and the infrastructure projects of various countries in the third world, the soldiers of the Banlong Palace were also a little excited. This kind of work is not only reasonable and legal, but also has a very positive and positive effect on society. The direction of Wanlongdian's previous business was hugely different.

Abbas was also very excited. He always wanted to make the Wanlong Temple white, but he never found a direction, but after listening to Charlie's words, he felt his eyes shine.

Therefore, he hurriedly asked Charlie: "MR. Wade, Wanlongdian's reputation before is really not very good. Do you think if we transform into shipping security and project security, can customers buy it?"

Charlie smiled and said: "Yesu Shipping has received tens of billions of euros in capital injection, and will become the world's top shipping company by then. By then, I will hand all shipping security work to Wanlongdian. As long as you can take this opportunity, To gain popularity in the Gulf of Aden, customers are absolutely willing to accept your protection."

After speaking, Charlie said again: "As for the security work of the Third World infrastructure project, I have asked an elder to help wire it up. According to him, there are so many

overseas demands in this area, and I will be afraid that you will be busy at that time. But come!"

The Charismatic Charlie Wade Chapter 3693

When Charlie first mentioned the idea of the transformation of Wanlong Palace, Abbas's heart raised his hands in agreement.

However, the only worry in his heart is the profitability after transformation.

He does not seek to make money now, but there are still tens of thousands of soldiers in the Wanlong Palace to feed. This group of people spends a lot of money. If the transformed Wanlong Temple cannot achieve breakeven, it will be difficult for him to give an explanation to the soldiers in the Wanlong Palace. .

However, after listening to the future described by Charlie, he immediately had confidence in his heart.

So he asked Charlie: MR. Wade, do you have any understanding of the latter two types of international security remuneration? I want to calculate the approximate income fluctuations of Wanlongdian in the future.

Charlie said: I am not very clear about the specifics. , I'll consult now.

As

he said, he immediately took out his cell phone and called Ziva Hank first.

Ziva Hank originally had a deep understanding of international shipping, and now he has begun to manage Yisu Shipping, and he knows the details of the shipping market even more.

After the call was connected, Ziva Hank couldn't hide his excitement and asked: MR. Wade, have you returned to Aurous Hill?

Come back.

Charlie asked her: Ziva , I want to call you to consult. Now the shipping market Do you know the international security pay for the security company?

Ziva Hank explained: If it is in the Gulf of Aden, a merchant ship generally needs to be equipped with three to five international security personnel. At that time, the international security personnel were sent directly to the ship, and after the merchant ship passed the Gulf of Aden safely and smoothly, the helicopter would disembark the ship. The whole process took only a few days and the charge was generally around US\$200,000.

US\$200,000 . Charlie said in surprise: Is it so high?

Ziva she said: Yep, this is already the beginning of the offer, and now international security price higher than before, the same service, probably to \$ 300,000 look like

gains so The main reason is that the freight price of international shipping has been skyrocketing from last year to the present, and the price has risen to record times.

The freight of a standard container from our southeast coastal port in China to the Port of Los Angeles in the United States has changed from the previous one. More than one thousand U.S. dollars, soaring to nearly 20,000 U.S. dollars.

A large freighter with a capacity of more than 10,000 standard containers will cost one or two billion U.S. dollars for a full-load transportation. If the capacity is more than 20,000 containers, it will cost one time. Being able to run the cost of the ship back, the shipowner has already made a crazy profit, so he is willing to spend hundreds of thousands of dollars to ensure safety.

Charlie asked again: Then are the pirate activities on the Gulf of Aden frequent now?

Frequent.

Ziva Hank explained: The pirates over there never cease. The hotter the shipping market, the more active they are. They hijacked. A merchant ship will be detained with someone to ask the owner for a ransom. Generally, it costs at least a few million dollars to start, and sometimes it can even reach tens of millions of dollars. The owner dare not refuse to give it. a waste of time, waste of money trip transportation, is the possible loss of tens of millions or even billions of dollars in freight revenue, so now the owner of this international security very seriously, almost large merchant will spend this money.

said , Ziva Hank said again: By the way, after the merger of the Sujia Shipping Group, we have begun to ship normally, and our own ships will also purchase international security services.

Charlie asked, You are right. Do the current international security companies understand?
Where are their bases generally?

The Charismatic Charlie Wade Chapter 3694

Ziva Hank said: At the moment, there are at least 300 security companies in the global shipping market. Of course, the demand for armed escorts in the Gulf of Aden is the highest, so everyone Set up coastal bases on the coasts of the Indian Ocean and Arabian Sea. Some even buy an old ship to transform it into an offshore base capable of taking off and landing helicopters. Now most of the entire market is in the hands of the British, followed by the Americans. In terms of price, Western escort companies are more expensive than Eastern escort companies, and their market acceptance is higher.

I see.

Charlie nodded and said, Ziva , you can You send me the information of all ships at this stage.

At this time, Charlie had already made up his mind to let Wanlongdian forcefully cut into the armed escort market. Since the British can take more than half of the market, then the Chinese Naturally, too.

Now that he has made up his mind to do it, he must grasp both on the ground and at sea. On the one hand, the Abbas Army must find a way to establish bases on the coasts of Yemen, Saudi Arabia and other countries. On the other, he must prepare for sea bases. All the ship information of Yisu Shipping was given to Abbas, allowing him to choose the most suitable for transformation.

After hanging up the phone, Charlie gave feedback to Abbas what he had gotten from Ziva Hank.

After hearing this, Abbas immediately spoke: MR. Wade, we can get started almost immediately. Our soldiers, regardless of their training level, combat strength, and weaponry, are much stronger than those of ordinary international security. It can be said that it is easy to deal with this kind of work, and we have a relatively good channel relationship in the Middle East. It should be no big problem to establish one or two frontier bases with hundreds of people in Saudi Arabia, Yemen and the coast of Oman.

Charlie points to it. Head: That would be great. You immediately start preparing these forward bases. I will provide you with a freighter as a mobile base at sea. In this way, it will be officially launched soon! Starting from the merchant ship of Yisu Shipping! After a

pause, Charlie said again: As for providing armed security work in high-risk overseas areas, it should be simpler than armed escort. As long as you find an employer, you can follow the employer's needs. Send a certain number of soldiers in the past. I believe that the combat effectiveness of your Wanlong Temple is definitely okay in that kind of third world country, and there is no need for additional training, so you are divided in advance and ready to transform to become soldiers in this field. , Once you receive the project, send someone over.

Abbas said with some excitement: "MR. Wade, don't worry, his subordinates will immediately start making arrangements, and all preparations will be resolved within two weeks!"

"Good!" Charlie Satisfied, said: As for your more than 10,000 prisoners in Syria, I will find a way to mediate and let them release them. In addition, I also intend to help you seek to build a 10,000-level rear base in Syria.

When Abbas heard this, he was even more excited, and even his voice was trembling, and he asked incredulously: MR. Wade...you...you can really let them release the prisoners. Can they allow us to build a rear base?

Charlie nodded and said seriously: You need a place, they need protection and help. This kind of thing is nothing more than that both parties take what they need. As long as the conditions can be negotiated, Nothing is impossible.

The Charismatic Charlie Wade Chapter 3695

After hearing Charlie's words, Abbas couldn't help asking: "MR. Wade, how are you going to talk to them about this matter? I am worried that they no longer believe in Wanlong Palace..."

Earlier, when Charlie was negotiating with the government forces on behalf of Hunter (Hamid) in Syria, he gave the Panlong Temple a hat of intent to parasitize the interior of Syria. Therefore, the Syrian side hated the Panlong Temple, otherwise it would not. All the 15,000 soldiers in the Wanlong Palace were arrested.

Charlie didn't think this was a problem, and said calmly: "As long as you grasp the other party's psychological expectations, you can talk about it with a high probability. After all, there are no permanent enemies in this world, and everything depends on the benefits."

After speaking, Charlie said again: "Now, the situation on their side has undergone a lot of changes. Opposition armed forces like Hunter (Hamid) have their defensive power rising in a straight line, let alone them, even you. Wanlong Palace, without super heavy weapons, wanting to shoot Hunter (Hamid) down is a foolish dream."

"Furthermore, other opposition forces have now started to follow suit, imitating Hunter (Hamid)'s method, and began to dig deep holes and amass food, while strengthening internal defenses, while building permanent fortifications to store large amounts of materials and ammunition."

"So what is foreseeable in the future is that there is no way for the government to take the opposition, but the opposition is also unable to leave the strong fortress and engage in fortified battles outside, so they will definitely enter into a way of taking each other. The other side's helpless checks and balances."

Speaking of this, Charlie continued with a serious face: "In this state of mutual checks and balances, the government forces are relatively insecure. Cities and traffic throats, and these places are easy to attack and difficult to defend, so they will definitely be surrounded by insecurity for a long time. The more so, the more they need some extra security."

Abbas asked him: "MR. Wade, do you mean that Wanlongdian will provide certain security protection for the government forces in exchange for their land use rights?"

"Yes." Charlie nodded and said: "If they have this need, they can provide us with a piece of land. We will use it as a base for vigorous development and construction. At the same time, we will also sign an agreement with them if they are attacked. , We do our utmost to help them resist the enemy, this way, it is also a guarantee for them."

After speaking, Charlie said again: "The recent incident in Afghanistan shocked the world, and they must be very nervous."

There was a regime change in Afghanistan some time ago, and the opposition has officially unified the entire territory. With this lesson learned, the Syrian side must have a lot of defensive pressure.

Therefore, this situation is absolutely beneficial to them if they cooperate with Wanlong Temple.

Abbas is naturally very clear about the situation in Afghanistan, and he nodded and said: "As you said, I also think that Syria now urgently needs to improve its sense of security. If you talk to them, things about the base should be able to land."

With that said, Abbas said with great emotion: "In recent years, my subordinates have been trying to find a suitable place for Wanlong Temple to take root, but after so many years of hard work, they haven't realized this wish..."

Charlie smiled slightly and said: "Then I will try to help you solve this problem this time."

All the soldiers in the Wanlong Palace were excited.

They have been longing for a rear base for a long time. Unfortunately, due to their special nature, they have failed many times in their attempts. Most countries and regions cannot accept that they build their base on their own.

The Charismatic Charlie Wade Chapter 3696

Therefore, there are already tens of thousands of people, and they still have to spread their soldiers everywhere. If they are expelled in one place, they must immediately set off to the next place to temporarily settle down.

If they can have a fixed base, then for them, it is equivalent to having a home.

Charlie said at this time: "By the way, I think you can go to the Gulf of Aden first to determine the situation of the frontier base. At the same time, you will also discuss the specific division of the overall team with your core team. As for the Syrian side, when I finish the work at hand, I will go there in person and talk to them. You can come with me when the time comes."

Abbas immediately respectfully said: "Subordinates obey orders!"

Charlie said again: "Before you leave, choose one from the five-star warlords in the Wanlong Palace, and give him a dozen or twenty powerful subordinates, and let them stay in Aurous Hill from now on."

"Okay MR. Wade, I will arrange it before I leave!"

At this time, Charlie received a document from Ziva Hank. The document listed all the ship information and photos of Yisu Shipping. In addition, it also included the new ships ordered by Yisu Shipping and other companies. Information on second-hand ships acquired by the company.

Charlie handed the phone to Abbas, and said: "Look at the specific information of these ships, and choose one that is suitable for use as a sea base."

Abbas picked up the mobile phone with both hands. After checking it carefully, he said to Charlie: "MR. Wade, I think this is a 30,000-ton bulk carrier very suitable. The deck is flat and the area is large enough. At least it can parking six helicopters, the interior is full of large cargo warehouses, and it is relatively convenient to transform. A little modification can at least meet the accommodation problem of hundreds of people, and with a load of 30,000 tons, it can also carry sufficient fuel supplies and ammunition. It's more than enough to deal with those pirates."

Charlie smiled and said: "This is the longest and smallest cargo ship in Yisu Shipping's hands. It has been eliminated and dismantled after three years of standards. You also chose this one because you want to save me money. ?"

Abbas hurriedly said: "MR. Wade, saving money is only part of the reason. The most important thing is that we really don't need to occupy a bigger and better freighter. In fact, 30,000 tons are a bit wasted. To deal with pirates, I think the ship is smaller. It doesn't matter."

Charlie nodded and said earnestly: "This ship is not only for you to use as an offshore base. After you start to undertake security work in high-risk areas in the future, the transportation of personnel and materials can also be completed by this ship. "

After speaking, Charlie reminded: "You must be as prepared as possible. In addition to helicopters, you will be equipped with several high-performance speedboats. Although the ships used by pirates are not large, they are fast and highly maneuverable. You have to decide on some effective coping strategies."

Abbas solemnly said: "MR. Wade can rest assured that by then we will develop a complete operation mode to integrate the armed escorts, maritime bases, coastal bases and rear bases on merchant ships in the best way. A freighter escorted by the Wanlong Temple encounters any danger!"

Charlie smiled and said: "I absolutely believe in the strength of the Wanlong Palace. I am looking forward to seeing you encounter pirates several times and fought a few beautiful naval defense battles. By that time, business will continue. Come here!"

The Charismatic Charlie Wade Chapter 3697

The blueprint that Charlie painted for Wanlong Palace made Abbas particularly excited.

He hardly had any hesitation, and immediately made assignments to his opponents. Apart from leaving some elites to stay in Aurous Hill and waiting for Charlie's dispatch, he himself intends to lead others back to the Middle East immediately, intending to use his relationship first to grasp the situation. Several frontier bases are planned to be built along the coast of the Gulf of Aden.

The frontier base does not require a large area and high investment. Generally speaking, it can accommodate dozens of people for temporary rest and standby, while storing some equipment and materials, as well as parking helicopters and speedboats.

Its scale, at best, is the size of a seaside villa, and the requirements for conditions are not as high as villas, and the construction speed is very fast. If a ready-made house can be found, it can be put into use almost immediately.

Moreover, in the current armed escort market, most of its business is concentrated in the Gulf of Aden. Many overseas security companies have also established their own frontier bases and transit bases along the coast of the Gulf of Aden. There are even specialized companies providing services in the Gulf of Aden waters. Transit vessels are used to help different security companies to transfer personnel in the Gulf of Aden.

The entire armed escort industry is already very mature. Under this mature model, Wanlongdian eliminates the preparatory work to expand the market. Now, with the strong individual strength of Wanlongdian, it will definitely be able to quickly gain a foothold. .

Therefore, he said to Charlie: "Mr. wade, if you have no other requirements here, your subordinates will take people to the Middle East first, and hurry up and put the plan into effect!"

Charlie nodded and asked, "When are you going to leave?"

Abbas hurriedly said: "The sooner the better!"

Seeing that he was very aggressive, Charlie didn't do much to retain him, and said: "If you decide on a good destination, I will arrange for a business jet to apply for a flight now and send you directly."

Abbas also knows that time is money, so he said without hesitation: "Thank you Mr. Wade for your help! The subordinates plan to go to Yemen first. After all, Yemen has the longest coastline in the Gulf of Aden, and it is most suitable for building forward bases. And I also have some connections available locally."

"Okay." Charlie said immediately: "Then I will let the crew apply for a flight route and send you to Yemen."

Abbas nodded, turned around and glanced at Salmaan, who was sitting paralyzed in the chair, and Chen, who had hollow eyes. He hesitated and said to Charlie: "Mr. Wade, the subordinates are brave, and there is a merciless one. Please, I hope Mr. Wade can promise..."

Charlie asked indifferently: "You are talking about your two warlords, right?"

Among the four kings of Wanlong Palace, two died in Charlie's hands, and the other two became useless.

This is a great blow to the combat effectiveness of the Wanlong Temple.

Abbas said with shame at this time: "Mr. Wade, his subordinates know that they have committed a lot of sins and are ashamed of you. However, Salmaan and Chen have only offended you after being ordered by me. Everyone in Longdian pledged their loyalty to you, and spared the two of them, and I also pledged with my Xiangshang's head that the two of them will stand alone in the future and do their utmost to be loyal to you!"

Salmaan was paralyzed on the chair at this time, choking hardily: "Wade...Mr. Wade... your subordinates will definitely go through the fire and water for you, and will not hesitate! Please give your subordinates a chance!"

Although Chen couldn't say a word, his heart had already thrown himself into Charlie, and he only hoped to get rid of this feeling of living dead as soon as possible and prove his worth in front of Charlie.

The Charismatic Charlie Wade Chapter 3698

Charlie nodded slightly at this time, and said: "Since the Wanlong Temple has been loyal to me, I naturally can't let them both live and die."

After all, Charlie said to Chen : "Chen , come here."

Hearing Charlie's order, Chen 's body reflexively stepped forward.

Charlie looked at Chen 's eyes and said lightly: "I blocked your consciousness because you were too arrogant and domineering when you were in the Middle East. You thought that you had more than 10,000 soldiers under your command and you were invincible, so you not only ruined yourself, You will also send all of your more than 10,000 soldiers to the other side's prison. I hope you have learned the experience and lessons during this period. Otherwise, if you lead soldiers in the Wanlong Palace in the future, you will make the same mistake sooner or later!"

Although Chen could not speak, he was extremely ashamed in his heart.

At the beginning, it was because he despised Charlie that 15,000 Paoze was captured. He had always been ashamed. Now that Charlie mentioned it, he was even more ashamed, but he was completely unable to make any substantive response.

Charlie didn't say much, stretched out his hand and tapped lightly on the top of his head with his finger. The aura that had originally sealed his consciousness was taken back, and Chen instantly regained his freedom.

This was the first time Chen realized that the feeling of spontaneous breathing was so beautiful.

The consciousness's manipulation of the body returned in an instant, and it even made him unable to adapt to it.

He moved his fingers awkwardly, and then he couldn't control his tears.

He looked at Charlie, took the initiative to kneel on his knees, knocked his head on the ground, choked and said: "Mr. Wade, thank you for being able to open the net. From now on, Chen will definitely look forward to your horse's head and be loyal to you!"

Charlie nodded and said: "Now is the critical moment of the transformation of the Wanlong Palace. I hope you can assist your palace master and help the Wanlong Palace complete this strategic transformation as soon as possible."

Chen said without hesitation: "Mr. Wade, please rest assured that your subordinates will go all out!"

Charlie said calmly: "Okay, get up."

Chen got up and stood behind Abbas.

Charlie looked at Salmaan who was paralyzed at this time, stepped forward to him, and said lightly: "Salmaan, you killed my Wade family mansion with a coffin, and you repeatedly ranted that my parents would be upset. Ash, and also killed my Wade Nursing Home, logically speaking, I shouldn't forgive you, what do you think?"

Salmaan burst into tears and choked up his face: "Mr. Wade, what you said... your subordinates should be guilty of guilt... You can keep your subordinates alive now, and you are already gracious to your subordinates outside the law..."

Charlie nodded and said: "Now it is the time when the Ten Thousand Dragon Palace is employing people. Since Chen has regained his freedom, I will not punish you too much. I will spare you once and see your performance in the future."

Salmaan was extremely excited, and said gratefully: "Mr. Wade, don't worry! This subordinate's life will be yours in the future!"

Charlie gave a hum, and reminded: "But you have to remember that you made the same mistakes as Chen. You are all too confident, confident that you are no one can match, or that Wanlong Palace is no one. It is possible, but in fact, there are not many people in this world who hide dragons and crouching tigers. Even if I dare not arrogantly think that I am invincible in the world, you must learn your lesson in the future and remember not to be as arrogant as before."

Salmaan and Chen spoke almost at the same time: "Mr. Wade's kindness! Subordinates understand!"

The Charismatic Charlie Wade Chapter 3699

Seeing that salmaan really regretted it, Charlie nodded in satisfaction, took out a rejuvenation pill from his pocket, and then divided the rejuvenation pill into two, handed half of it to chen, and said: "You take this Put half a pill into salmaan's mouth, and his injury will soon heal."

Everyone including abbas was dumbfounded when they heard Charlie's words!

Previously on Yeling Mountain, Charlie used aura to repair abbas's meridians.

At that time, abbas knew in his heart that Charlie had great magical powers.

At the same time, abbas also understood that the energy system in Charlie's body was completely different from the energy system of the martial artist.

Because of this, Charlie could use that more advanced energy to repair abbas's already irreversible damaged meridians.

The other soldiers in the Wanlong Palace probably also guessed this logic, so they all thought that Charlie would treat salmaan in the same way that he treated abbas last time.

However, no one thought that Charlie would take out a pill to treat salmaan this time.

Moreover, this pill turned out to be only half a pill.

Everyone is asking themselves a question: What kind of medicine can heal a badly injured six-star warrior with only half a pill?

Although chen was also very surprised, according to Charlie's instructions, he stuffed the half of Rejuvenation Pill into salmaan's mouth.

What surprised salmaan was that although the pill was a physical substance, it melted in the mouth, and there was no trace of it.

Immediately afterwards, the power of the medicine began to spread rapidly towards his limbs.

Afterwards, salmaan's originally insensible limbs began to itch and fever, and even a faint feeling of cramps. He subconsciously wanted to straighten his legs to fight the cramps. He didn't expect that a little bit of force on his legs would cause people to stand up from the seat. !

This scene completely shocked all the soldiers of the Wanlong Palace.

No one thought that the pills Charlie took out had such a powerful effect.

salmaan was even more shocked. He moved his limbs subconsciously and found that his limbs had been fully recovered. He couldn't help but exclaimed: "I...I...I actually recovered...All my meridians have also recovered... "

abbas was shocked!

He couldn't help exclaiming in his heart: "I thought that Mr. Wade had already mastered a higher level of mysterious energy, but he didn't expect that even the pill that Mr. Wade took out would have such incredible energy. This...this It's too strong..."

salmaan was also extremely shocked at this time, recalling his indifferent and arrogant appearance in front of Charlie, his heart was even more ashamed.

At this moment, he finally realized that the gap between himself and Charlie was like the light of fireflies and the brilliance of the bright moon. Charlie could spare himself a dog's life and even heal his injuries. It is a great gift!

So, he knelt on the ground quickly and said in repentance: "Mr. Wade, you can forgive your subordinates regardless of the previous suspicion, and you can help them heal their injuries. Your subordinates are grateful. From today onwards, if your subordinates have anything to do with Mr. Wade Half-disloyal and disrespectful, I wish there is no place to die!"

Charlie nodded and said faintly: "You really should be grateful to me, because the half of the rejuvenating pill I just ate for you will be able to sell for at least several billion yuan at an auction in the near future! "

Charlie's understatement made the soldiers of the Wanlong Palace present as if they were struck by lightning!

Even abbas was scared silly.

Half a pill is worth at least several billion yuan? !

At first, he thought it was a little unlikely.

But think about the magical effect of that rejuvenating pill. What are the billions?

If in exchange, he himself was seriously injured and ruined his cultivation base, let alone billions of yuan, even billions of dollars, he would be willing to spend!

And what made him even more grateful was that Charlie was willing to give this multi-billion dollar pill to salmaan casually.
