

Chapter 3678

George Han this goods, sick!

Seriously ill!

I saw him suddenly slap his head, and then snorted, as if he had just woken up from a sweet dream, with an unfinished expression on his face, but he suddenly realized it.

“Oh, but I forgot about this.” As soon as

the words fell, George Han’s hand moved violently, and then, a white light flashed.

Within the aperture of George Han on the ground, a man and a woman soon appeared.

To be precise, one male and one female.

And it’s the real version, Beauty and the Beast!

That’s right!

The beauty is really beautiful, and the beauty is beyond anything, and the beast is a real beast, and she is still wearing a hedgehog.

Xia Wei and pangolins.

Although George Han brought them along, in fact, George Han didn’t let them follow him out immediately when he came out, and the reason was very simple.

With George Han’s IQ, he would

naturally think that the other party would ambush ahead of time, which is also the fundamental reason why George Han would agree with Linlong and Evil Taotie to attack first.

Since there was an ambush, Xia Wei’s safety was naturally a priority, so George Han deliberately left the two of them at the back, hoping to pick them up when the situation was relatively stable.

Right now, for George Han, the situation is not particularly stable.

However, it is also the most appropriate time to come out.

Seeing George Han, Xia Wei and the pangolin were a little excited. When they looked back, they looked around, but they were not worried, and the pangolin was ready to act on the spot.

George Han hurriedly stopped the pangolin, and then gave Xia Wei a look: “Don’t be nervous, take it easy.” After

saying this, George Han coughed slightly, grabbed Xia Wei beside him, and suddenly his face suddenly After a

change, the changed smile was all over his face, and there was even a hint of playfulness in his eyes.

Then, he placed his big hand slightly on her fragrant shoulder, and his forehead was slightly close to Xia Wei’s face.

To prevent Buddhas, you should kiss them at any time.

Feeling that George Han was so close, Xia Wei's face suddenly turned red, her breathing was short, and her lips began to dry.

The breath of a man belonging to George Han kept hammering her heart.

She didn't know what George Han was doing. As a girl, the most basic restraint made her want to retreat, but her inner desire made her not only not want to retreat at all, but also wanted to be closer to him. Some.

Suddenly, she made a fierce attack, and she was speechless for a while: "Damn, I'm thinking about something in a mess. I... Have I become bad, how could I... oh

, I'm ashamed."

"Don't move around. , get closer to me, laugh, and talk to me." George Han said softly.

"Ah? Talk? What to say?" Xia Wei was puzzled.

"Whatever you want to say." George Han said while looking around quietly.

Xia Wei was very nervous. She really didn't know what to say. Her mind was completely blank because of her nervousness.

"That...that brother George Han..." She gritted her teeth, although she didn't know what to say, but anyway, Xia Wei didn't want to spoil the current atmosphere between the two, so she would do whatever George Han asked for. .

"Damn it!" Linlong couldn't take it anymore, he put his paws on the dragon's eyes, and didn't want to look at it any longer.

The pangolin was also stunned. When he came out and saw ambush all around him, he subconsciously wanted to go straight to hard work! But how do you

know that he is ambitious, but George Han is...

"What are you doing?" The pangolin pinched his head depressedly, this is not the time to pick up girls, right?

In fact, not only these two people are suspicious of life, but in every corner of the darkness around George Han, and in the ambush, a large group of people are completely confused, and the monk can't figure it out.

What's this?

It's okay to sleep, and it's even more bearable to snoring when you sleep, but you're directly flirting with a big beauty, this is unbearable!

In particular, under the moonlight, they can clearly see that this beautiful woman is really not ordinary, it can be described as captivating and seductive.

This can't help but watch a group of people's teeth even more itchy!

Soon, a figure quickly left his original ambush position and ran all the way towards the city lord's mansion under the cover of night...

Chapter 3679

The special envoy of Shenlong has an order. Tonight, all executives, enjoy and have fun.

Therefore, whether these executives are out of order or out of their own desires, in short, they are having an unusual joy of playing.

In the palace of the city lord, the majesty and serenity of the past were gone, and there were more wines and beauties playing.

It is rare for Ye Shijun not to sing and dance in the crowd of beautiful people, but instead, it is difficult to sit and drink quietly and watch the play quietly.

Has he turned?

of course not.

Just because Ming Yu was sitting in the center, he had ideas about Ming Yu, and naturally, he also deliberately showed his false side at this time.

Elegant

and polite!

Zhu Yanshuo also has ideas in this regard, but it is more out of his own career considerations.

After all, he is the city lord here, and there is still unresolved war, so he still has to pretend.

Ming Yu sneered indifferently on her lips, but her eyes lightly looked at the dark night outside the hall through the dancing crowd.

On the surface, she was watching them dance, but in reality, she was staring at Hei Kong, at that invisible man!

Han three thousand!

She is like this, obviously playing psychological warfare with George Han, hoping to use the liveliness here to make George Han, who chooses to lie down at this time, make some moves.

She didn't know what the hell he was doing, so the best way at the moment was to sing with him in the air. If George Han made a move, some intentions would be revealed.

"George Han, what the hell are you doing

?"

Almost as soon as the words in her heart fell, at this moment, a black figure rushed in from outside the hall, and still didn't forget to shout loudly while panting. : "Report!"

Ye Shijun got up one by one, and through the dancing crowd, he could barely see the shadow, turned around quickly, and rushed to Mingyu: "Report to the special envoy of Shenlong, he is from the outer battlefield, and he looks flustered, as if he What is the urgent matter to report?"

Ming Yu raised his hand slightly, and the music stopped for a while.

As soon as the music stopped, everyone's dancing ended instantly, the dancers and singers quickly stepped aside, and the executives also returned to their seats.

"Come in." Zhu Yanshuo called softly to the visitor.

Black Shadow nodded, hurriedly entered the seat in the hall, and then knelt down.

"What should I report? Did

George Han break through?" Zhu Yanshuo said nervously and excitedly.

"Hmph, that bastard seems to be finally unable to hold back, and he is procrastinating with us. We are singing and drinking, can he compare?" Ye Shijun snorted coldly, looked back at Ming Yu, and said:

"Look The purpose of coming to George Han should be to drag it until it is dark, and then use the night to break through."

This is indeed a good way, the night will make ambush easier, but it can also make George Han's hiding easier.

If George Han is still in the light during the day and they are in the dark, then now, they are more like George Han in half-darkness and they are in total darkness.

The situation cannot be said to be favorable to George Han, but at least it is much better than during the day.

However, such a simple and such a huge opportunity, George Han

Can think of it, how could they not think of it?

"The elder Shenlong is still wise, knowing that George Han will do this, so he has already set up an ambush in advance, hum, he George Han wants to break through at night, this is a good idea, but unfortunately, our preparations at night are just even better. Full, thousands of luminous bombs are waiting at any time, once he dares to move even a single moment, then the night will be completely lit up in an instant. "Ye Shijun got up and sneered.

As soon as the voice fell, everyone around him laughed, obviously very confident.

Only Mingyu, she always felt that George Han should not be just these two brushes.

Looking at the man in black lightly, she said, "Speak."

The man in black nodded and said a little embarrassedly, "He's picking up girls..."
