

Chapter 3712

“Elder Shenlong, the scale of hundreds of masters, it seems that the visitors are not good.” Zhu Yanshuo said.

Due to the special geographical location and the support of the Holy Master behind this city, so many masters have gathered now.

The other party has this number of masters to attack the city, obviously, it shows a problem, the identity of the other party is definitely not a generalist.

You must know that the cost of a master is actually very high, not to mention his monthly salary and salary, but the living expenses corresponding to his position are actually a lot of money.

If it is an ordinary person, how can they afford such a large amount of expenses for a master?

But around the city, except for the demon cloud ghost city that has been annihilated, there is no huge force existing.

This is really surprising.

“I ordered the people at the east gate to resist me. In addition, the people from the other three gates rushed to support me. Tell them,

give me at least half an hour, this is a death order.” Ming Yu shouted coldly.

Zhu Yanshuo nodded and looked at one of the commanders in a cold voice: “Commander Wang, raising troops for thousands of days, spend a moment, how I treat you on weekdays, you should know better than anyone else.”

“Right now, it is the most difficult in the whole bureau. The key point, I put all my hopes on you, can you guarantee to complete the task?”

The commander Wang who was called immediately knelt down on one knee and said: “The last general does not dare to say rhetoric, but the last It can be guaranteed that as long as the last general still has a breath, he will never allow anyone to break in through the east gate.”

“Okay, Commander Wang, you really did not misunderstand me.” Zhu Yanshuo said with great joy.

Commander Wang got up and was about to execute the order. Almost at this moment, Ming Yu suddenly made a noise and said softly: “Commander Wang, tell

everyone at the city gate, including you, as long as you complete the task, I promise. All of you are promoted to one level.”

No matter how good the chicken soup is, it is not as powerful as a chicken farm.

This thing is correct, and can maximize the stimulation.

When Commander Wang heard this kind of reward, there was obviously a glint in his eyes.

An official promotion may not be a big deal for ordinary soldiers.

But for someone like Commander Wang, it was a huge surprise.

You must know that in terms of his position, another level of promotion is almost equivalent to being lower than the city lord Zhu Yanshuo. Those commanders who worked with him will be his subordinates in the future.

This level can really crush a lot of people.

How long has he struggled, and he knows that this level is far away from him, but now, this opportunity has appeared in front of him so easily, how can he be

unhappy ?

How, without getting excited?

Not to mention him, even the commanders beside Zhu Yanshuo were full of envy, so they could not wait to ask him to follow him on the spot.

“The last commander understands that the last commander will definitely complete the mission.” After leaving a grateful and confident look in his eyes, Commander Wang waved his hand, and with a few cronies, together with the soldiers who reported the letter, quickly walked towards the east gate.

Looking at the back of the few people leaving, Ming Yu murmured: “I hope he can really complete this arduous task.”

Judging from the opponent’s offensive, the number of people at Dongchengmen is actually very difficult, but, because With a solid city defense, Ming Yu will think that there is no chance.

Although she is unwilling to wait for any so-called opportunity in this situation, this is the best way at the moment.

Who could have predicted that such an inexplicable “Cheng Yaojin” would suddenly .

“The city defense is strong, and for George Han to escape, during this period of time, not only did I increase the number of people on the city defense, but I also strengthened many of the city defenses. The problem is not a big problem. Please rest assured, Elder Shenlong.” Zhu Yanshuo said.

Hearing this, Ming Yu’s worried face finally had a hint of joy: “City Lord Zhu, no wonder the old man praised you for being smart. You did a good job.”

Hearing the praise of the Lord, Zhu Yanshuo immediately Yi Xi said, “Thank you Elder Shenlong for exaggerating, and Zhu Mou is even more grateful to the Holy Master for his name, which is really an honor.”

“With your special city defense, even if the commander Wang and the others are rice buckets, I believe it will take half an hour. They can stick to it.” Ming Yu smiled.

Zhu Yanshuo was about to speak when suddenly, at this moment, outside the city lord’s mansion, bursts of fire burst into the sky...

Chapter 3713

Although the fire is not as big as George Han's side, but relatively speaking, the situation is still not light.

It was obvious that several battles were already taking place outside the city lord's mansion at this time.

"What's the situation?" Ming Yu frowned fiercely.

It's only been less than a second since I fell in love, and this is about to happen.

"Could it be that those people came in?" Zhu Yanshuo said speechlessly.

Does it move so quickly?

But no matter how fast it is, it won't be so scary.

This is simply impossible.

"Go check it now, what's going on." Zhu Yanshuo ordered coldly.

A commander led the order, and immediately set off with a few cronies.

However, at this moment, a family member covered in blood ran over in a panic.

"Report to the city lord, outside... something happened outside."

"What happened outside

, please tell me quickly." The commander stopped and asked anxiously.

"Suddenly, a few waves of teams attacked the city lord's mansion in the dark. Most of our defenders are gathered here, and the few left are taken away by the commander of Wang Cai, and the front door is empty now, we are all ordinary servants. , in the face of the opponent's sudden attack, he was completely powerless to fight back." Jia Ding said miserably.

They only resisted for less than ten seconds, and more than a dozen lives were taken by the enemy.

He was a clever man, and he was the first to run towards this side in advance, but he still managed to escape.

"Isn't that the troop outside the city?" The commander frowned and said, "According to what Jiading said, Commander Wang just left not long ago. Under normal circumstances, he was just able to meet people from outside the city."

Zhu Yanshuo nodded, looking at Xiang Jiading said, "Who are the people who attacked the city lord's mansion?"

"Reporting to the city lord, the night was too dark, they came

too fast, and they killed too much, so I couldn't see their appearance at all. However, they murdered like numb, The methods are extremely vicious, and at first glance, it looks like someone who licks blood at the tip of the knife all the year round." Jiading said.

“Damn, another group of elites?” Zhu Yanshuo was going crazy: “Why the **** do so many people suddenly appear?”

Ming Yu didn’t speak, and her mood was equally bad, but she still warned Be calm yourself.

Especially at this time.

At this moment, the commander suddenly thought of something and was about to speak.

But with a loud bang behind him, the gate of the City Lord’s Mansion was opened, and a team of hundreds of people divided into six or seven groups and rushed in.

As the famous Jia Ding said, this group of people is extremely ferocious. Even if they don’t have any weapons at all, they can still punch one punch and kick one after another.

“Don’t think about it, we are all thugs in Devil’s Cloud Ghost City.” The leader snorted coldly , arrogantly.

Almost all of them are tall and sturdy, but the person in the lead is petite and exquisite, and even through her black clothes, she can clearly see the beauty of her figure.

“Magic Cloud Ghost City?” Zhu Yanshuo was stunned for a moment, then suddenly remembered that the city should have received a lot of people from Devil Cloud Ghost City, but for the sake of safety, they all confiscated their weapons before entering the city.

He really did not expect that without the weapons, these guys would dare to rebel? !

“You gangsters, I, Zhu Yanshuo, pity you all and give you a place to live, but at this moment you are taking revenge and attacking the City Lord’s Mansion?” Zhu Yanshuo said coldly, “The Devil Cloud Ghost City has been destroyed, and Ghost Zun is already dead. , are you still planning to restore the country?”

“The surnamed Zhu, don’t make your own words so nice, absorbing Demon Cloud Ghost City, it’s just that you want to incorporate our people, expand your

city, and domesticate us thugs for you to increase. That’s all, will you be so kind? Or, do you think we are all fools?” The leader sneered.

And as soon as she finished speaking, the generals behind her laughed in disdain, and some even spit on the ground, showing their disdain.

Zhu Yanshuo’s face turned cold, embarrassed, and said angrily: “You **** , you have sharp teeth and sharp mouths. Tell me, who is your last name?”

“My name is something that a rubbish like you can know?” When she fell, she looked back at George Han over there, and suddenly shouted: “George Han, Hongluan led the brothers from Devil Cloud Ghost City to help you.”

“I said earlier, we will follow you. “

Brothers, why are we here today, tell him.” As soon as

the words fell, everyone didn't say anything, just smiled at each other, and the next second, a group of people told George Han with practical actions...
