

Chapter 3780

But just when George Han was about to leave, suddenly, a flame suddenly slammed.

George Han simply responded in a timely manner, and when he quickly hid in the room, the flame just happened to pass by.

Looking back, a figure was already standing in front of George Han.

It is the queen ant.

“Bold dog thief, privately entered the forbidden area of my city of fire, you really deserve to die.” The queen ant shouted angrily.

George Han smiled slightly, but did not refute: “Han came here and was entrusted by others. If he offends a lot, please calm down the anger of the queen.”

“I treated you kindly, but you avenged your revenge and trespassed into the forbidden area of my city. Are humans so shameless?” she said coldly.

“I can’t talk about being kind, right?” George Han smiled: “The ant queen is just pretending to be superficial, and then coaxing us to leave quickly.”

“It’s just that you never

thought that we were not fooled.”

” You!” The queen was angry, took a breath, and looked at George Han: “How did you find this place?”

“Didn’t the queen bring me here?” George Han asked.

“You’re following me?” She frowned and shook her head: “It’s impossible, you’re obviously at the altar, if you come out privately, it’s impossible for my subordinates to not know.

” It’s just a trick.” George Han smiled.

“You’re really cunning.”

“You can’t talk about cunning, you can only say that if you’re not smart, wouldn’t you be playing around with you?”

“When did you realize I was lying to you?” she asked.

“From what you said, if I don’t believe it, I can ask any citizen in the city at will.” George Han said.

She was immediately puzzled: “What’s the problem with this?”

“No problem, but the intuition you gave

me is that you are too confident, and sometimes too much confidence will always make people feel that something is wrong. The city of fire is so large. Big, there are naturally many people, so how can you ensure that every commoner will deny that there is any swampy land here?”

“Where there are people, there are rivers and lakes, and where there are rivers and lakes, there are naturally all kinds of rumors.”

“In case, in the city Are there any similar rumors?” George Han finished his words and smiled lightly: “But the ant queen can let me ask questions at will. This shows that the ant queen should be very confident in all city residents.

” In other words, why are you so confident? There can only be one explanation, that is, the people in the city have already been silenced by you, am I right?”

Hearing this, the ant queen was stunned for a moment, and her eyes also changed. Constantly shrinking.

She really didn’t expect that George Han

guessed the real truth behind this, and guessed it by a casual remark that she didn’t care about at all.

No matter how you look at it, there seems to be no big problem, but it can still be interpreted by George Han.

Based on this alone, she could not admire George Han’s high IQ and meticulous observation.

She suddenly smiled: “You can read so many problems just by relying on one sentence without any problems. It seems that it is not impossible for you to follow me silently.”

“The matter of the central statue is also Did you come up with it?”

George Han nodded: “It’s just a trick to trick you on purpose.”

“Although I attacked the central statue, it was very weak, so on the surface it looked like my target was there, but in fact, if you think about it, you can

guess that my real purpose is not there. So, at that time you I would suspect that I was using the tactic of turning the tiger away from the mountain. Naturally, I would be very worried about the place where the things were actually put, and I always wanted to come and see.”

“In addition, after you come to the altar to confirm that we are still inside, you can go with peace of mind. When you look at your things, you have previous worries, what will you do?” The

ant gritted his teeth: “You are really a complete machine, and you have to be admired. However, sometimes these behaviors do not It doesn’t mean it’s a good thing.”

“Oh?” George Han asked in confusion.

She sneered: “Because this may bring you death.”

“Originally, you can leave here safely, but once you enter the forbidden area, there is only one ending. There is death. Only the dead will keep secrets.

” Falling, she laughed grimly...

Chapter 3781

George Han smiled helplessly: “It seems that we have to fight?”

“Okay.”

“In the end, I am Han . Someone is a foreigner, it is wrong to trespass your place, I will let you make three moves, which will be regarded as an apology.” After the

words were finished, George Han stood proudly with his hands behind his back, his face full of confidence.

“Human, do you really think that being taller is enough to win? Have you ever heard a sentence, a little ant can kill an elephant.” After the

words were finished, her body turned into a fire, and she rushed towards George Han. come over.

George Han shook his head helplessly, and easily avoided it.

As soon as she missed the shot, she had no intention of stopping, and three thousand North and South Korea attacked during the reversal.

“Using the same move twice is not a good choice.” George Han chuckled lightly, planning to dodge sideways again.

But almost as soon as she approached again, this time,

a pair of wings suddenly grew behind her, which not only stopped her sprinting directly, but also changed her travel route by the way. Thousands come.

George Han never thought that her attack could change the path so suddenly, even if the reaction was quicker, it was obviously half a beat slower.

Hearing a snap, the spear in the Queen’s hand pierced directly through George Han’s chest coat.

If it weren’t for the protection of the inextinguishable profound armor, I’m afraid a big hole would be stabbed on the spot.

Looking at the broken clothes on his chest, George Han was a little surprised, but in a blink of an eye he shook his head helplessly.

“How is it?” The queen stopped, looked at George Han, turned the spear in her hand, and was a little proud: “Do you want to continue to make moves?”

“The elephant was killed by the ant, and in the eyes of the elephant, it was you. You look down on ants like this.”

George Han smiled bitterly: “You do have some skills, and

if you despise you, you will definitely pay a huge price. But unfortunately, you met me, and I am not a child like an elephant.”

“You continue, and I’ll give you two more moves.” When the

words fell, George Han stood behind his back again and waited indifferently.

"I don't know if you are an elephant or not. I only know that you are more arrogant than an elephant. You will die." As soon as

the voice fell, the ant queen quickly attacked George Han again.

George Han smiled coldly. Facing her attack, he no longer had the slightest carelessness. With the power of yin and yang on his body, he walked together with Taixu on his feet, ready for all kinds of attacks from the opponent at any time.

Brush brush!

In just a few seconds, the queen ant has already made three moves in a row.

Because of its flexible body, petite stature, and the very ferocious attack of the body, even George Han, who had been prepared for these three moves, managed to avoid it, but he still suffered a three-legged attack, and the loss was already determined.

"

How , are you still arrogant?" The queen ant laughed coldly.

George Han shook his head helplessly: "Although you did gain something, for me, it's still nothing more than that. So, you're not my opponent, let's stop here."

Hearing this, the ant queen even got angry. Laughed: "I really don't know where you got such confidence, and it's because you humans are like this, and you will only be full of big talk."

"You asked me five moves, except for the first move, your other four moves are equal. There are different degrees of hanging lottery, what qualifications do you have to be arrogant in front of me?"

"Besides, don't say that you haven't escaped my attack, even if you escaped all of them just now, what can you do? You know, as an Ant-Man family, the most powerful thing is not just attack, but defense!

" This is the talent that Ant-Man's body bestows on us, and it is also the meaning of our armor's existence." As the words fell, red

anger began to appear on her body.

And along with this anger, there is also a layer of dark black armor on her body.

Without contact, George Han can be sure just by the naked eye, this armor is definitely not ordinary, its hardness and defense are definitely top-level existence.

"I know, I understand, and even completely agree. But the problem is, even if this is the case, you are still not my opponent." George Han said sincerely.

Hearing George Han's words, the queen ant was obviously taken aback, but after a while, she laughed angrily: "You, you are really shameless."

"If you really don't believe it, then try. However, I must remind you that from now on, I will fight back." George Han sneered.

"I want to see how you fight back."

She roared angrily, and in the next second, she was holding a spear and wearing armor, and anger struck...
