

The Charismatic Charlie Wade Chapter 3804

As he said, he greeted one of his men next to him: "Put the lifeboat down and let them get out of here!"

Several pirates glanced at each other, and their expressions were a bit proud.

In their view, they are not only the masters of the Gulf of Aden, but they also have a halo that no one dares to provoke.

Every time they came out to rob a merchant ship, they would return if they failed, and if they succeeded, they would exchange money. Even if they were caught, the other party would honestly let them go. This kind of almost invincible aura made them more swollen.

At this time, the crane beside the ship's gunwale immediately put a suspended lifeboat on the ship's gunwale.

The team leader of the Wanlong Palace said to the six people: "Get me up quickly!"

The six people pouted and got on the boat one by one.

When the six pirates got on the ship, they were completely relieved, and their expressions when they looked at the people in the Wanlong Palace were faintly hazy and hostile, and they seemed to be very unconvinced in their hearts.

Their current idea is very simple, as long as they leave here, they will immediately drive this lifeboat, rush back to their home base, and wait for the next comeback.

As for being captured, they didn't care at all.

As a pirate in the Gulf of Aden, who has not been captured yet? It's just that every time he is captured, he will be put back intact.

The team leader of the Wanlong Temple looked at them and said lightly: "I originally wanted to rectify the Fa on the spot for you, but based on humanitarianism, I'll leave you a way out..."

When he just said this, several pirates pursed their mouths high, with a look of disdain and contempt.

Every time they were captured and then released, the other party had to say almost exactly the same thing. They hadn't taken it seriously. In their opinion, the reason why these people didn't dare to kill themselves was because they were afraid of their organization's revenge.

In other words, they are obviously scared, and they have to pretend to let them go, which makes them very despised in their hearts.

But at this moment, the team leader of the Wanlong Palace smiled weirdly, and said: "Using Huaxia's old saying, we don't know each other anymore. Before leaving, I fired my gun to see you off. It's a celebration."

"Fire a shot to celebrate?!" Several pirates looked at each other, wondering what the other party meant by firing a shot to celebrate. In the field of pirates, there seems to be no such rule.

At this moment, the team leader of the Wanlong Palace raised his assault rifle and fired more than twenty shots at the lifeboat!

The gunshots suddenly became louder, and the pirates thought that the other party was deliberately killing them, and one by one they hugged their heads on the lifeboat and cried loudly.

However, when the gunfire stopped, they slowly opened their eyes, and found out with lingering fears, it turns out that no one was shot!

When they breathed a sigh of relief, they suddenly discovered that the other side's shuttle bullet had punched dozens of light-transmitting holes in the bottom of the lifeboat, and also completely destroyed the engine at the rear of the lifeboat into scrap!

And the squad leader of the Wanlong Temple, after all the bullets burst, said earnestly to the pirates: "After you go back, you must change your mind and be a new man!"

The six pirates were still dissatisfied, but at this moment they became extremely flustered. One of them blurted out and shouted: "Damn! You son of a b*t*h! How can you shoot us off, you? His mother deliberately missed the boat and broke the engine. This is deliberately killing us!"
