

## The Charismatic Charlie Wade Chapter 3854

Fei Kexin recalled the conversation he had just heard, and asked him: "I think you were blocked by Don Albert's people. Could it be that the other party didn't want to see you?"

"Yes..." Smith sighed and said, "Don Albert said, the people at Jiu Xuan Pharmaceutical don't want to meet with me."

Fei Kexin nodded and asked him: "By the way, Mr. Smith, you said you want to see a MR. Wade just now. Can you ask, who is this MR. Wade?"

Smith said: "MR. Wade is the head of operation of Jiu Xuan Pharmaceutical, and he is in charge of drug sales. Last time, he decided to give us 20 boxes of magicll pill."

Fei Kexin asked him again: "What is the name of MR. Wade you are talking about?"

Smith thought for a while, frowned and said, "I've seen him once. I didn't seem to mention his name last time. When Liam introduced him to me, he only said that he was called MR. Wade."

Fei Kexin asked again: "What does this MR. Wade look like? How old is it?"

Smith thought for a moment and said, "He is probably in his twenties, he is taller and looks good, but if you ask me to describe it in detail, I don't remember it clearly. After all, he has only seen him once."

Speaking of this, Smith remembered something, and said: "By the way, this person is very strong and very young, but chatting with him makes a strong sense of oppression."

Fei Kexin nodded, and he was basically certain that this MR. Wade was probably the Master wade he met.

Thinking of this, she asked Smith again: "Mr. Smith, are you here this time just to make pills?"

Smith didn't know what Fei Kexin meant, but thought that the CIA's affairs could not be exposed, so he nodded and said, "Yes, I'm here for the Pill, why did Miss Fei ask?"

Fei Kexin paused for a moment, and asked him with a serious expression: "Mr. Smith, have you heard of Rejuvenation Pill?"

Smith shook his head and asked in surprise, "What is Rejuvenation Pill? Is it also a medicine?"

"That's right." Fei Kexin said: "Rejuvenating pills. It is said that eating one can cure all diseases, and it can even prolong life for ten or even twenty years."

"This..." Smith said dumbfounded: "This medicine... shouldn't exist..."

Fei Kexin smiled and said calmly: "Is it true or not? I'm not sure now, but there will be an auction in Aurous Hill in a few days, and the Rejuvenation Pill will be the finale."

Smith said embarrassingly: "Miss Fei, if I remember correctly, are you a top student at Stanford University? I heard that you were admitted to Stanford at the age of 15 and got a PhD at the age of 21, right?"

Fei Kexin nodded and laughed self-deprecatingly: "Mr. Smith, you mean to say that as a graduate of Stanford, I shouldn't believe in such things that violate scientific logic, right?"

"Yeah..." Smith said seriously: "I don't believe that there are any medicines in this world that can really cure all diseases, let alone any medicine in this world that can extend people's life for ten or twenty years. If this is true I'm afraid the whole world will fall into madness."

Fei Kexin said helplessly: "To be honest, I don't really believe it, but there are many top rich people who believe in this, including my grandfather."

While speaking, Fei Kexin said again: "Unfortunately, the level of confidentiality in the auction mechanism of this Rejuvenation Pill is too high, and it is absolutely impossible to take it out of the auction venue. Therefore, even if it really has such an effect, I am afraid that the outside world will not know, and even if the outside world knows it, without real evidence, they will probably be the same as you when they hear it, and won't believe it."

Smith was silent for a moment, and said, "Miss Fei, how can I participate in this auction? Can I go and see?"

"No chance." Fei Kexin said earnestly: "The registration is closed. If Mr. Smith wants to participate, just wait for the next time!"
