

## Chapter 3886

The voice is very clear, at least at this time, it is extremely abrupt.

Everyone's attention was completely attracted at this moment, even Ming Yu and Fu Mei looked back completely.

At this time, many talents discovered that it turned out that the sound was the sword in Futian's hand falling to the ground.

Futian blushed, and was a little embarrassed for a while, after all, he dropped a sword.

And in front of this kind of person, the sword fell out, and the meaning was obvious.

If it was someone else, I am afraid that at this time, he must have picked up the sword quickly, and then hid in the crowd in dismay, for fear of other incidents.

Unfortunately, this is Futian.

Although he also thought about this approach, it is obviously not in the interest of an old fox like him.

"What are you looking at, ah? What are you looking at? Do you know why I draw my sword? I just can't stand the fact that you guys suspect my family Fumei."

"Hmph, who is Fumei? That's my Fumei. There is no one of the most outstanding women in the family."

"I watched her grow into an adult with my own eyes, and I know very well what kind of character she is."

After that, Futian picked up the sword and even angrily pointed at some people who had criticized Fumei just now.

Seeing that there was no reaction from the people around, Futian only took a few steps to walk to Fu Mei's side: "Don't worry, Mei'er, even if this patriarch sacrificed his life, he will definitely protect you."

Fu Mei sneered, this Futian turned his face faster than a book, and his own hypocrisy could almost be brought to an extreme. At this point, almost no one could surpass him.

"Hehe." Seeing that Fumei didn't react too radically, Futian knew that in any case, it seemed that he had succeeded in fighting the trick played by this old couple.

Humans are invincible when they are at their lowest.

"Elder Shenlong, although Fu Mei is the one who helps me to help my family, I have to say something to help someone. The plan to break George Han is a big plan. However, if you want to successfully implement such a big plan, it is actually a matter of fact. It is extremely difficult." "Han George Han's trip is extremely dangerous. Once George Han finds out one or two, he will definitely fall into a state of doom. This is courage."

, he has always been the only one who deceived others, and no one else can deceive him. Fumei can successfully deceive Han 3000 from millions of people. It can be like Ruiguang came into the world, and it was right at the head of my bed. This is wisdom.”

” Yes. Wisdom and courage, worthy of being a genius, I also invite Elder Shenlong to order a big reward.”

After

he finished speaking, Futian looked at the Fu family members, even some

of the Ye family members, and hoped that they would hurry up. Let’s help ask for awards.

This one can get closer to Fumei, and secondly, Fumei’s face is bright, isn’t it the same as Fuye’s two families are bright?

After seeing the Fu family and Ye family members, although their knees were slightly bent, they never knelt down, but looked at Ye Shijun.

Ye Shijun hesitated for a while, although Fumei was just a dog in his eyes, but if the dog could lick himself up at a critical moment, then of course he would be happy to enjoy it.

Thinking of this, Ye Shijun nodded.

With Ye Shijun’s nod, the senior executives of the Fuye family immediately knelt down: “I wait, I also agree with the Futian patriarch, and I hope that the special envoy of Shenlong will be rewarded.”

Ming Yu raised her eyes to look at the crowd, and then looked at Fu Mei: “Fu Mei’s move is really a second, well, this elder promises you that if the war is completed, I will reward you.”

Fu Mei

smiled lightly: “Thank you . Elder Shenlong.”

When Fuye executives heard the words, they all smiled happily.

Ming Yu raised his head slightly: “In addition, I announced that Fu Mei will officially serve as the former military division of our military vehicle to help me complete the battle.”

Hearing this, a trace of displeasure flashed on Fu Mei’s face. Not stupid, it seems to be a job, but it is actually a job, but it is more obvious that Ming Yu has not believed in himself, so he keeps himself in front of him.

However, she doesn’t need to worry about anything: “Thank you, Elder Shenlong.”

“Order the army to move quickly, I will resist the fall of the city within two hours!” Ming Yu shouted loudly.

“Yes!” The subordinate took the order.

The next moment, the entire team suddenly sounded the sound of horns, and the troops that were marching very fast, the speed increased suddenly, like a lightning strike.

The goal is to point directly to the fallen city! !

## Chapter 3887

and George Han is also leading the troops to speed up.

According to Fu Mei's words, going out from the north gate and heading southwest, you will enter a low mountain.

Among these mountains is the hiding place of George Han and others.

Here, beyond the defense circle of the opponent, it is relatively safe.

"No one is left behind."

As soon as he entered the mountain, George Han immediately turned around and looked at the large troops following him.

Mo Yang hurriedly ran up from the end of the team, looking at George Han with a somewhat uncomfortable face: "They are all following, although they are all a group of executives and they are marching in a hurry, most of them have cultivation bases. It's already very good, the problem is not big."

"Okay, let everyone hold your breath and relax until you are in the mountains." George Han said.

Mo Yang nodded, turned around and ordered to go.

George Han glanced at him, obviously, George Han could see his grievance on Mo Yang's face.

My brother, I don't understand.

This guy Mo Yang would rather die standing than run alive.

With a sigh, George Han shouted loudly and led the team to continue walking towards the mountain.

However, before taking a few steps, he suddenly stopped and looked towards the sky behind him.

Others also noticed what seemed to be wrong, followed George Han's gaze, and suddenly found that something seemed wrong in the dark sky at this time.

"Okay... such a strong magic breath!"

"There is still a strong smell of blood.

"

"Over there..." a group of

people muttered. Although it seemed that the situation over there was not clearly visible under the night, strong and strange information also rose in everyone's hearts. rise.

Amelia Su was also staring at that. Although it is impossible for her to look at the dark sky as carefully as George Han did, at least she could roughly know what was going on there.

In that dark night sky, the clouds were stained with blood, and the sky also prevented the Buddha from being thrown into the big dye vat. The strange black gas was entangled, and it looked extremely strange.

George Han's expression turned cold, and he said slightly, "Those people are here."

“Just because they came, the situation changed, is it so terrifying?” Liu Fang asked.

“Those people must be extremely demonic, and the number is huge, so the sky has changed.” Young Master Ruyu was also secretly shocked.

“It seems that the 400,000-strong army predicts that there will be more or less, and Fumei did not lie to us.”

George Han nodded: “If she did not lie to us, then according to the city defense map, the enemy army will soon be We will surround the mountain with heavy troops. While there is still some time, we will transfer to the mountain as soon as possible.”

After speaking, George Han turned around and ran towards the mountain.

As soon as he moved, the entire troop ran quickly with him, and a group of people quickly moved closer and closer to the depths of the mountain.

At this time, outside the mountain.

The black army, like the rolling black clouds, arrived from both sides densely, and stopped ten miles outside the city.

After that, the two armies spread and expanded  
, slowly surrounding the entire huge city.

Waiting for everything to be determined, in the main force in the east, more than a dozen large sedan chairs were also carried to the front of the main force.

As the curtains opened, the executives who belonged to Ye Shijun’s forces slowly walked out of the dozen or so sedan houses.

In this group of people, in addition to the executives who escaped, there are also some extremely strange people. They cover their faces, their clothes have a strange sign, and their whole body has a strange black aura. breath.

Looking around, the fallen city in front of it is standing there safely.

It seems that they are waiting for their conquest.

“Roar!” The

400,000 army suddenly drank all at once, and the weapons fell bluntly. Suddenly, the ground trembled and the sky shook...
