

Chapter 3888

At the falling city gate, four urgent loud announcements sounded almost at the same time.

The guards of each city wall are uniform, and almost all of them have received reports from their soldiers.

“A large number of enemy troops suddenly appeared outside the city, with a large number, at least hundreds of thousands.” The

four guards were all shocked at the same time.

Climbing to the wall and looking out, one by one looked colder and his eyes widened.

It's time to fall under the city, and it is already full of countless black pressure on the enemy. Even if there is no fight, just this powerful visual shock is enough to make anyone tremble.

“Blow the whistle, and have all the soldiers close the city gate. In addition, prepare the city defense tools, and let them all make up their minds for me, put them in and fight again.”

“Yes!” The soldier took the order.

After a while, the east gate was the first to sound the enemy's golden flute, and after that, the west, south and north walls also rose one after another.

A large number of soldiers in the city

quickly replenished the city defense according to the original deployment, and they should fall into the city like an iron bucket and then put a layer of gold circle, which is extremely stable.

Seeing the changes in the city's defense, Ming Yu just smiled indifferently.

At this time, the soldiers also came to report: “Report to Elder Shenlong, the city's defense has been significantly improved. What should we do next? Please also ask Elder Shenlong to make it clear.”

Ming Yu looked at the city and shook his head: “Stop in place. Stand by, don't be in a hurry.”

“However, now that our army is coming in a hurry, the opponent's preparations are obviously not sufficient. It is a good time to attack the city. If it is delayed, I am afraid...”

At that time, the city defense is in place, and if you want to chew on this hard bone, it will not be as simple as it is now.

Ming Yu smiled: “What are you afraid of? A city with an empty heart, no matter how strong the outside is made, it will never be as hard as you see it.”

“Fu military division!”

“

Fu Mei is here.” forward.

“Where are George Han and the others now?” Ming Yu asked.

“In that low mountain group, moreover, all the executives who should fall into the city.” Fu Mei smiled and said, “When I showed him our attack map earlier, I clearly told him that there are mountains. Therefore, we cannot include the encirclement of the mountain, and the terrain in the mountain is complicated, so laying the defense line in front of the mountain is the only option.”

“They just need to enter the mountain before we deploy the defense, and basically get “

According to the time, they should have entered the mountain. However, Elder Shenlong asked to surrender, just now, Fumei has secretly called the elite of Fujia to cut off George Han after going around the mountains. Waiting for the way to go.” After speaking, Fu Mei knelt down.

It is obviously a big taboo for the military to call troops privately. Regarding this point

, Fu Mei is also ready to be punished: “The crime of Fu Mei should be killed. But Fu Mei also wants to leave George Han for the army. Making meritorious deeds and clearing up his grievances, I also hope that the envoy of Shenlong will not blame Fu’s family for this.”

“It is obviously a capital crime for the commanders to call troops without an order.” Ming Yu said coldly: “So , I won’t allow this to happen, Fumei, listen.”

Fumei was obviously startled, and hurriedly lowered her head.

“From now on, you can add another commander in front of the car to your military division position, and you can mobilize the troops of the Fuye family at any time.” Ming Yu said indifferently.

When Fumei heard the words, she was stunned for a moment, and several executives around her were obviously puzzled.

“In the battle situation, ever-changing, Fu Mei is also the person who arranges the layout. Naturally, he knows the whereabouts of George Han and others like the back of his hand and has not avoided delaying the fighter plane. This elder arranges this, do you have

any problems?” Ming Yu asked.

Everyone was stunned for a moment, but the next second they nodded again and again.

“Elder Shenlong said it is not bad, these mountains are surrounded, if Fumei privately dispatched troops, I am afraid that it will not be able to form a siege against George Han. I think it’s necessary.”

“That’s right, that’s how it should be.” Ming Yu said coldly

, “Since there is no opinion, then this matter is decided.”

The mountains are assembled, a 100,000-strong army is on the reserve, and the other 200,000 army is surrounded by me.”

“Yes!”

“George Han, last time I let you break through in front of tens of thousands of people, this time, I will be twenty thousand people. Wan Dajun, I see how you are still playing with me.” As the

words fell, with a horn sounding, half of the army, Wu Yangyang, rushed towards the mountains where George Han and others were located...

Chapter 3889

With an urgent report, he hurriedly stood up: "What is the urgent report, the enemy army has attacked so quickly?" The

soldier didn't have time to breathe, and hurriedly said: "No, the army did not advance half a step, but at least half of them suddenly moved towards Going towards the mountains over there."

"Going towards the mountains?" The commander frowned and hurriedly grabbed the map in front of him.

Soon, he found the mountains outside the city: "What are they doing here?" The soldier shook his head. If he could understand, he would not be a soldier.

"Strange, this place may be a big gap for us to break through, but this place is a mountain after all. They only need to send a team of elites to defend the mountain pass, and they can completely defend against us. Why should they send such a large number of elites?" Commander

, could this group of people be stupid?" "Is the original Shenlong special envoy a fool? I think you are like a fool." This is totally unnecessary. "Is it possible, what big fish are there?" He touched his head. But what big fish could it be? He couldn't understand: "Send someone into the mansion immediately and report the matter to the city lord and the alliance lord. Although the enemy's trip is a bit strange, at the moment of the war, no trouble should be taken lightly." "My subordinates understand." The soldier immediately rushed to the city lord's mansion. But only for a moment, the soldier came back in a hurry.

Seeing that he came back so quickly, the commander suddenly felt a little strange: "Why did you come back so soon?"

"Report to the commander, the city lord's mansion is... empty... empty, not only can't see the city lord and others, but

... ..even the guards of the city lord's mansion have almost disappeared."

"What? There is no one in the city lord's mansion?"

"This enemy army suddenly besieged the mountains. Could it be that all the people from the City Lord's Mansion went to the mountains?" the entourage next to the commander guessed.

As soon as these words came out, the commander didn't say much, because from the perspective of internal and external situations, there was almost no doubt about the authenticity of this guess.

"What are they doing there?" the commander wondered.

The entourage snorted coldly: "The ghost knows, but the so-called catastrophe is about to fly separately. Maybe, the alliance leader and the city owner also noticed that the situation was wrong, so they took the lead to leave us and run away."

"Anyway, this situation is not uncommon. It 's not that I haven't been abandoned."

Hearing Sui's remarks, the leader suddenly felt ashes.

It is already very difficult for the large army outside to press the situation, and the absence of the main heart inside

makes it even worse.

"Commander, why don't we open the door and surrender, what do we have to fight for? There's no reason to die for someone who abandoned us, right?"

"That makes sense." Someone echoed.

But at this time, someone also stood up and took a picture of the map: "Commander, don't be hasty."

"You should pay attention to this map. From a military tactical point of view, these mountains are an excellent spot to hide troops. If we regard it as a force point, once we are surrounded by death, we can send troops from here to attack the enemy's back, and we can form a situation inside and outside."

"So, the leaders of the alliance may not abandon us, it is very likely that they want to Go there to help us back against the enemy, only to be found."

"Hmph, if what you said, then I'll ask you, why didn't you tell me to wait like this?" The attendant said dissatisfied.

"The reason is also very

simple. It wasn't long before Ji Luocheng was surrendered to the leader of the alliance. The leader of the alliance couldn't tell which ones were sincere and which were fake. For the sake of confidentiality, he naturally acted secretly without notice."

Hearing this, the entourage was obviously dissatisfied: "You What do you mean by this, do you mean that I am not sincere?"

"I didn't say this, this is what you jumped out of yourself to say, but I believe that those who sincerely surrender will never go to war yet. I have already called the group to disband in advance, and secondly, I must remind you, if we were abandoned, why would the leader of the alliance give them a lot of medicinal pills to improve our cultivation, and why would they spread magic weapons to us? Is he a fool? He has invested so much, so if he says he doesn't want it, then he doesn't want it?"

The attendant wanted to say something, but at this moment, the commander slapped the table:

"Enough, follow me to the city wall!

" Hastily led people to the city wall...
