

The Charismatic Charlie Wade Chapter 4063

When Bernard Arnault heard this, he was so excited that he was about to cry.

He had already been put down by two immortals a long time ago, and he never dreamed that he would have another chance!

What he is most looking forward to now is Jian giving up.

Once Jian gave up, the Huichun Dan would be his own!

Or Jian can't afford so much money, this time pill is also his own.

Moreover, I don't need to pay more than 200 billion, or more than 100 billion.

I only need to pay the highest price I have bid before, 72 billion!

Thinking of this, he suddenly didn't feel that the auction organizer was very pitiful. On the contrary, he felt that the organizer was simply exuding the brilliance of humanity everywhere.

Jian also collapsed at this time.

The 210 billion quotation just now was called out step by step under the pressure of dhillon's competition.

How could he have pushed the price to such a high level if dhillon hadn't stabbed the knife horizontally?
!

So, if it can be remade, it is naturally the best solution for him.

However, he didn't expect that the organizer would put so much importance on rules and fairness!

If they are unwilling to pay 210 billion, then they would rather sell it to Bernard Arnault for 72 billion, rather than remake it and let themselves buy it for 100 billion!

This is really not caring about money at all!

The audience at the scene was also amazed and admired by the principle and fairness of the organizer!

They know very well that what the organizer rejected just now was the \$370 billion reported by dhillon!

And if Jian also gave up the bid, then they would choose to sell this rejuvenation pill to Bernard Erno.

And the price quoted by Bernard Arnault was only a mere 72 billion!

370 billion, and 72 billion...

In the middle, there is a total difference of 300 billion US dollars!

However, for Jian, he felt that this time Pill should be bought at a price of 100 billion, not 210 billion.

The nature of a businessman made Jian feel extremely uncomfortable.

“The quotation of 210 billion US dollars just now is the limit of the limit for me. I can only pay 200 billion of it quickly, and I have to find other ways for the remaining 10 billion...”

“Although it is not difficult to collect these tens of billions, after all, it is to drain all the cash, and there will be many negative impacts like dominoes...”

“It would be great if we could bid again, how could that Bernard Arnault be my opponent?”

“He made a bid of 72 billion just now, and I can even end the battle at 90 billion...”

“Furthermore, taking out 90 billion is completely irrelevant to me and the entire Fei family!”

So, he argued with reason: “Miss Moore, this rule is a bit unfair? If I give up the price of 210 billion US dollars, why can 016 take over at the price of 72 billion US dollars? Among them the price difference is too much, and it is also a huge loss for your organizers!”

Having said that, he continued: “I personally think that the best and fairest solution is for both parties to bid again!”

Jasmine Moore said indifferently: “Sorry 035, rules are rules! If we were all for money, we just sold this rejuvenation pill to 099 for 370 billion US dollars, in that case, even if you wanted 2,000 there is no chance of 10 billion transactions, you should thank our rules and fairness for giving you this opportunity, instead of distorting our rules and seeking the best interests for yourself.”
