

Chapter 421

Only keep kissing her tears.

She poured out all the grievances she had suffered for so many years this evening.

She is stubborn and unyielding, just doesn't want to obey anyone, what's the matter!

In the end he melted her a little bit, leaving her tired and exhausted to fall asleep in his arms. Looking at her deep sleep, the man deeply kissed her on the forehead. Then turn off the lights and go to bed.

Next day

She woke up at the same time as him.

She didn't have any clothes on her body. The nightgown she was wearing was also thrown on the ground by him, and it was dirty.

She sat up and looked at herself, all over her body, only the topaz bracelet that she wore on her wrist. That jade bracelet really matched her delicate and white skin.

She pouted and said angrily to the man reclining on the bed: "This bracelet is mine! I do whatever I want!"

The man's voice was strong in the morning: "You can also put it in your daughter's class group."

Suzi: "...what did you say?"

"The mothers of other children have all joined the group. If you don't join, you will be out of place. These days, I have taken the time to accompany you to buy jewelry. You can unscrupulously put yourself in your daughter's group.

Various pendulums. In front of Suzi, Arron got up naturally, got out of bed, and looked for clothes to wear.

She went to cover her eyes shyly.

The man pulled her hand away: "Where else has you never seen? Would you like to see it again now?"

Woman: "You shameless!"

The man sneered, picked her up from the bed, and forced her to wear a shirt of his own. She was like a deserter, and fled his bedroom back to his bedroom.

She has to go to work early this morning. She has to choose her clothes. After putting on pajamas in the bedroom, Suzi went to the cloakroom to choose clothes.

She wore conservative and earthy clothes in the first two weeks. That's because she didn't want to be eye-catching when she first arrived at the company, but now it's different. Suzi is now the main designer, and she has a secondary designer under her hand. She looks like a little leader at least in terms of her dressing taste. .

As a result, she carefully selected it early in the morning. She did not appear to be too ostentatious, but also had a certain taste. Compared with the previous week, her outfits are much better.

Even Shen, who just woke up, couldn't help but praise her when she saw her mother's outfit, "Mom, you are so beautiful today."

Suzi held Shen's only little face: "Thank you baby."

"Mom, my classmate Susan's mother's group, do you want to join?" Lilly asked again. She hoped that her mother would join so that she could video chat with the children in the future.

"Okay, mom applies to join now." Suzi said as he submitted the application, and the rest was waiting to be approved.

After this breakfast, the family of three will send the only one to the kindergarten as usual, and then send Suzi to the company to work.

On Monday, the company's employees came very early, and Suzi is not a new employee anymore. Especially in the past two weeks, Suzi was invited to dinner by Young Master Jun several times, and he also used his own efforts to treat Min Qing. Rong Ji excluded the company, so as soon as Suzi got on the elevator, several companies recognized her at the same time.

However, several of them didn't mean to say hello to her at the same time.

Suzi doesn't matter. She is a person born with few words and can stand loneliness. Even if no one talks to her all day long, she can live very freely.

After several colleagues glanced at Suzi, they started chatting again.

"You heard something, how is the woman doing now? It seems that there hasn't been any movement recently."

"Which woman?"

"It's the woman who was captured by Fourth Master Fu from the field. I haven't heard of anything recently. There was a lot of rumors a month ago that the woman would definitely be tortured to death by Fourth Master Fu. Why haven't we heard the news recently? ?"

"It seems to eat that melon."

"I heard that the woman used to be a harvester specializing in harvesting noble boys from the upper class."

Suzi: "... " Are you discussing her again?

Chapter 422

When the elevator reached Suzi's floor, she sorted out her clothes and got out of the elevator with a briefcase. As soon as she left the door, the colleagues on the higher floors immediately began to squeak.

"Hey, this, this is also a role, just came to our company to work, I heard that a lot of things have been done."

"This woman is such a bitch. Last week, when she came to work last week, she was honestly like a bunny, she has deceived everyone, but she just hooked up with Young Master Jun.

Ms. Rayna was squeezed away.

I heard that she is now the boss of their design department Linda. "

"Climb fast enough."

"Not only is she climbing fast, but the most important thing is that she also climbed up from a person who is honest and harmless. In just a few days, she has taken Master Jun down, and she has also taken a good position in the company."

"I think this woman is very similar to the woman who had married Fourth Master Fu six years ago, and now she was captured by Fourth Master Fu. The two of them are the same, eh, what was the name of that woman six years ago? ?"

"I don't know, I don't have any news. I heard that the news was blocked very tightly, unless the children of the family and the young lady knew that the melon-eaters like us, where did they know this kind of news."

These women, while discussing happily, entered their respective jobs. At this time, Suzi also came to the design department with a briefcase. As soon as she came in, she attracted several male colleagues in the design department. Of side eyes.

She is really seductive.

When wearing a soil bag, there is a pitiful and distressing sense of duty.

Now when wearing smart and feminine, it also gives people a sense of calm and grace, and a sense of seriousness in taking work seriously.

No wonder she can attract the attention of Young Master Jun.

Several male colleagues have a good impression of Suzi.

"Suzi, you are very beautiful today." Chen Liang first greeted Suzi. He didn't feel that Suzi had just come to the company to make things happen. He felt that Suzi was normal. He had been very serious during the few days when he helped Linda proofread. Later, Suzi became Linda's boss, and he deserved it.

Suzi smiled at Chen Liang: "Good morning."

Her smile is sunny and restrained.

It makes people very comfortable.

Another male colleague, Tong Yue, immediately slid over in a wheelchair with a hippy smile: "Suzi, can you pass on your experience in dealing with those accidents on the construction site, and teach me a little bit, so that I can have the conditions for processing capital from the boss? What?"

If you are willing to teach me, I invite you to drink the most expensive Blue Mountain coffee! More than two hundred in a cup! "

Suzi agreed without hesitation: "Okay."

"It's done!" Tong Yue happily snapped his fingers: "Hey hey, I can finally make an appointment to Suzi for coffee. It's better to choose a day and get off work today, OK? I invite you to have coffee and eat by the way. A Western meal, and then we watch a movie together."

"Excuse me, I teach you just a small effort. As long as you watch and learn more on the construction site, you will be able to do it. This is nothing, so you don't have to invite me and coffee, eat Western food, watch movies, etc. I have something tonight." Suzi very Politely declined.

Tong Yue: "..."

Chen Liang next to him: "Hehehe..."

Next to him, several female colleagues looked sad. I have never seen these men so generous and enthusiastic. Seeing them licking their smiley faces to compliment Suzi, it is as if Suzi is a god.

Especially Linda, seeing that Suzi was wearing such a smart and good-looking outfit today, Linda was even more angry.

She got up and came to Suzi: "Suzi, I am now your deputy designer. What work arrangements do you have for me today, please as soon as possible. Do you want me to proofread your design draft for you?"

"No." Suzi said.
