

Chapter 468

Jenny was a bit helpless, sitting there for a moment thinking and not losing a smile.

It wasn't like she'd never seen fawning before, but offering so obviously strong... it was....

Raising a hand to her forehead, she rubbed her forehead and didn't say anything else.

A short time later, Xie Xiangling brought out another soup.

"Little sister-in-law, this is a soup that I specially prepared for you, it's good for tonifying blood, it's good for solidifying blood, it's perfect for pregnant women."

Jenny Jing looked at the cup of soup placed in front of him, which was red and white with a mixture of colours and aromas, indeed very tempting.

She smiled at Xie Xiangling, "Thank you, it's been hard work."

"It's not hard, it's all I'm supposed to do."

Xie Xiangling looked familiar, Jenny hooked her lips and didn't say anything.

Turning his head, he beckoned the maid beside him, "Go to the gym and see if Young Master has finished practicing, and when he's done, call him over for dinner."

"Yes."

The maid left in a hurry, unexpectedly hearing a scream before she reached the door.

"Young Master."

Everyone turned their heads and saw Biden Lu, dressed in a casual outfit, appear at the entrance of the restaurant.

The villa's gym came with its own bathroom, and all that was visible was that he had changed into another set of white casual clothes, not unlike the ones he had worn on his way out in the morning.

There was also a hint of moisture underneath the short, sharp hair, and it looked like she had just taken a shower.

Jenny smiled, "You're back, hurry over and taste it, Xiangling has worked hard for half a day."

Biden Lu's gaze was aloof, but he didn't say anything as he swept a glance at the food from the dining table.

With only a faint nod, nature walked over to her and pulled a chair over to sit down.

Xie Xiangling saw the situation, and for some reason, turned back to the kitchen.

And then came out with another cup of soup in hand, full of smiles, "Cousin, this is the seafood soup I specially prepared for you, it has sea cucumber and cordyceps stewed in it, because little sister-in-law can't eat it, I put it aside, you should try it."

Jenny's eyelids jumped and lifted his eyes to look at to.

But Xie Xiangling seemed to be oblivious to her gaze, her pair of bright eyes only staring straight at Biden Lu.

She scoffed faintly.

In the meantime, Biden Lu said in a deep voice, "I don't like the taste of seafood, withdraw it!"

After saying that, without looking at the cup of soup, he instead had a cup of water poured over.

The smile on Xie Xiangling's face froze for a moment, and then, she turned her helpless gaze to Jenny Jing.

Slightly deflated, aggrieved, "Little sister-in-law, is there something I didn't do well enough? Is your cousin mad at me? I remember he used to love seafood ah."

Biden Lu does love seafood, and this Xie Xiangling is also a good fit.

She smiled slightly, but in the end, for the sake of Biden Lu's deceased mother and the old lady, she didn't embarrass her too much.

"Since it's all done, you can taste it!"

Biden Lu looked at her in surprise.

"You want me to drink?"

"Well? What's going on?"

"...then I'll drink."

Jenny: "....."

Xie Xiangling: "....."

The air is filled with a dog food smell is how fat four?

The smile on Xie Xiangling's face was almost too stiff to hang, but it was a good thing that Biden Lu listened to Jenny Jing and let him drink, so he actually took a few sips from his spoon.

Only then did Xie Xiangling find some comfort in her heart, the soup was good for men.

It's a great tonic. She's been gone for three hours!

Jenny saw that she had been standing and said, "Quickly stop standing, sit down and eat together."

Only then did Xie Xiangling nicely sit down across from her.

The atmosphere at the table wasn't much better, but with Jenny Jing's clever handling of the situation, it didn't get too stale.

At least from the looks of it, it was quite harmonious.

She just had a sneaking feeling that today's dishes seemed to be quite complementary.

Well, every dish had a great tonic in it, even the green vegetables had some scallops in them.

However, she didn't think much of it, only assuming that it was specially prepared for her by Xie Xiangling, after all, they did have a solidifying effect on pregnant women who were about to give birth.

She has always been physically active, walking at least five kilometres a day, even now that she is physically challenged, every day.

So even if you eat some supplements, you don't have to worry about the fetus being too big later on.

The meal was about to pass peacefully in such a calm and peaceful atmosphere.

Just then, Xie Xiangling suddenly screamed.

"Cousin, aren't you not allowed to eat chili? I prepared this dish especially for my little sister-in-law, you'd better not eat it, you'll be allergic to chili!"

Only Biden Lu raised his chopsticks and was about to clip a plate of spicy vegetables placed in front of Jenny Jing.

That dish is what Jenny ordered the maids to serve every meal, her taste has changed a bit this month, every meal must be a cold spicy dishes, occasionally eat a bite to feel comfortable.

Because this rule has been going on for more than a month, Jenny went abroad some time ago and even had to take this in a foreign hospital.

Now that she was back, the family naturally wouldn't forget, so even though Xie Xiangling had prepared lunch today, the maids still served up the spicy dishes as usual.

And yet, it was not expected that such a problem would occur.

Only Xie Xiangling frowned and moved the plate of spicy vegetables to the corner end of the table next to him, and placed a plate of steamed eel in front of him.

Then he smiled at him in satisfaction before saying, "Cousin, don't you like fish? This one's for you."

Jenny was slightly stunned, watching the spicy vegetables in front of her being removed, and was momentarily angry.

Is Biden Lu allergic to chili peppers? How did she not know?

It's been a long time in the house and it's always been whatever she eats, and he's eaten it many times, and I haven't seen him unable to eat or allergic or anything.

She turned to Biden Lu and asked playfully, "Are you allergic to chili peppers?"

In the meantime, Biden Lu slightly knitted his brows and said in a deep voice, "It happened many years ago, and then it was slowly desensitized and then it stopped being allergic."

"Oh? That just seems to be okay."

Only then did Xie Xiangling feel a hint of embarrassment in hindsight.

She barely smiled, "It's best since it's fine, I'm sorry ah, little sister-in-law, I didn't mean to be shocked, it's just because I used to know my cousin's body too well, so I thought he was still allergic to chili peppers, you mustn't mind."

Jenny's gaze cooled slightly.

Still, she didn't say anything, but the smile on her lips was slightly mocking.

"No, it's because you care about him too, I'm happy someone cares about him, so why would I mind?"

That said, the tone was a bit cooler, and in the end not as warm as before.

Biden Lu was obviously keenly aware of it, and his eyebrows, imperceptibly, knitted.

Xie Xiangling smiled stiffly, she was a smart and interesting one, Jenny Jing didn't tear her face off on the spot, she naturally couldn't say anything else herself.

The other side had already handed over the steps, so she naturally went down them.

Chapter 469

The atmosphere at the table was somewhat silent, Jenny had been quietly burying his head in his food, his face expressionless.

After a moment, she put the cutlery down and said quietly, "I'm full, so enjoy your food."

Afterwards, he got up and was ready to leave.

But the hand was suddenly pulled, and Biden Lu also put down the chopsticks and said, "Together."

Jenny raised an eyebrow.

Xie Xiangling sat across from them, having been too busy and attentive to take care of them before, to take a couple of bites herself.

Now both hosts had left the table, causing her to take her bowl and continue to eat or not.

Jenny Jing smiled, "Miss Xie, I'm sorry, seeing as you've been busy for most of the day, you don't have time to eat, it's just that I'm pregnant and easily tired, so I'll let your cousin accompany me up to rest first, you wouldn't mind being here alone, would you?"

Xie Xiangling forced a smile, "Don't mind."

"That's good."

Jenny turned around and left, Biden Lu helped her and went back upstairs to the bedroom.

As soon as he entered the bedroom, Jenny said unabashedly, "I don't like her."

Biden Lu smiled and helped her sit down on the bed, saying softly, "I don't like it either."

Jenny looked up at him and frowned.

"This cousin of yours has a lot of heart, and I really don't want to entertain her for the sake of the old lady and your mother."

Biden Lu chanted.

"Shall I go down and get rid of her?"

Jenny: "....."

She was silent for two seconds, waving her hand in boredom.

"Forget it! Hitting the dog and returning the master's face, although the old lady may not say anything, but let people spread back to her old home, will always let people say that the old lady and we are bullying, and maybe even have to say a few words about people leaving the tea, and then it will not be good."

Biden Lu laughed lowly twice, crouched down in front of her and took off her shoes for her.

Holding her against the bed and kissing her forehead again, Fang said, "It's just for today or so, but if you run into her coming over again, just have someone tell you there's no one home, and she won't come back after she touches the wall a few times."

Jenny nodded and closed his eyes.

"I'm a little tired and I want to get some sleep."

"Well, you sleep, and I'll stay here with you."

"Well."

Jenny quickly fell asleep, and Biden Lu held her hand until she was asleep, which then put her hand under the blanket and got up to leave.

Instead of going downstairs, he went to the study.

Picked through the shelves and finally chose a Western history book.

As soon as I stepped out of the study door, I was unexpectedly greeted by the sight of a curling figure coming this way.

In the meantime, he couldn't help it.

"Cousin, is little sister-in-law asleep?"

With little expression on his face, he looked across at Xie Xiangling, who was holding a cup of something that she didn't know if it was soup or tea.

I thought she would have left on her own after dinner, but she was still there.

He said quietly, "Sleeping, something wrong?"

"It's fine, it's just that I saw that you didn't eat much at lunch, and just now I made a special pear and goji berry soup, it has the effect of moistening the lungs and nourishing Qi, it's perfect as afternoon tea..."

Before she could finish her words, Biden Lu interrupted her in a faint voice.

"No, I'm not interested in sweets."

Afterwards, she said, crossing her to go outside.

However, Xie Xiangling suddenly took two quick steps and stopped him.

"Cousin!"

Biden Lu knitted his brows.

"Anything else?"

"I... I..."

Under the man's powerful presence, she fidgeted, unable to speak, her face flushed red.

It took a moment before he said, "Cousin, I think you ate a lot of great tonics for lunch, the weather is turning cold and you're prone to fire, so it's better to drink this bowl of soup."

Biden Lu's gaze swept over the bowl of soup she was holding in her hand, and a cold light flashed across her eyes.

"Why do you make so much tonic stuff when you know it's cold? Now you're delivering soup? Are you idle?"

But anyone who knows Biden Lu knows that he is a person who sometimes speaks straightforwardly and is not too good at beating about the bush.

But I didn't expect it to be so unobtrusive.

The words were blunt and cold and embarrassing.

This was the first time Xie Xiangling had been told to her face like this, and her face was suddenly a bit unhangable.

"Cousin, I'm sorry, I didn't mean to do that, I just wanted to do better, I..."

She was panicked, short and humble, like a bunny that had done something wrong.

Although Xie Xiangling was not top-notch pretty, she was considered to be a middle-ranking posture among the group of young girls.

In particular, that weak willow's gentle temperament is the image that many men like in their hearts.

Such a scene, but any other man would only be unable to harshly criticize her.

Instead, comfort her, lest she be too self-conscious to watch.

However, the man in front of her only gave her a cold glance, and then said nothing more, crossing her and walking out of the room.

"There's no need to come over if you're fine in the future, your little sister-in-law is in good health, so you don't need to bother taking care of her."

Xie Xiangling's body shook fiercely.

Seeing that the man was about to leave, her eyes were hard, she gritted her teeth and suddenly put down the bowl of soup in her hand, then without warning, rushed over and reached out from behind and hugged his waist.

"Cousin!"

Almost the next second, a tremendous force slammed her away.

Yet where would she give up? I cried and begged and stalked on.

"Cousin! I'm begging you, help me! You're all I have to go to now, and if you don't help me, I'm going to die cousin, I'm begging you."

Biden Lu couldn't stand it any longer and shouted angrily, "Let go!"

"No! I won't let go until you promise me, cousin, my little sister-in-law is three months pregnant, you're so young, isn't it hard to hold it in? Let me help you, okay? I can do it..."

The revealing and shameless words made Biden Lu almost not believe his own ears.

Huge rage burst out of his chest and he flung her away with a livid face.

Turning to look gloomily at the woman who had fallen to the floor, he gritted his teeth, "Is that why you ran over here?"

Xie Xiangling didn't answer, just cried, the dress she was wearing under a few pushes and shoves, the v-neckline wide open, exposing half of her snow white skin.

Biden Lu only felt the veins on his forehead popping, and the undisguised disgust and disgust in his eyes.

Yelling in anger, "Aunt Liu!"

Aunt Liu is busy in the backyard at this time, and did not hear this side of the commotion, Biden Lu see no one should, but took a big step ready to personally go downstairs to find.

The woman on the floor, however, suddenly climbed up and held him from behind again.

"Don't go!Cousin, I like you. Do you know how much I like you?I used to think I was too lowly for you, but it wasn't until you got married that I realized you didn't care about that.

That woman you have now is not even as good as me, she can marry you and be your woman, why can't I?Cousin, I beg you, please leave me here!I will be obedient and good, and will be more pleasing to you than my little sister-in-law."

Chapter 470

Biden Lu was so angry that his face was as black as the bottom of a pot, and was about to push her away again when a woman's surprised voice came from the bedroom door.

"What are you guys doing?"

.....

Five minutes later, in the living room on the ground floor.

Jenny sat on the sofa, Biden Lu sat next to her with a livid face, while opposite was Xie Xiangling standing with a miserable face.

Auntie Liu also rushed over from the backyard, at first not knowing what had happened, but then hearing from the family's maid, her face was suddenly incomparably ugly.

The maid respectfully served the tea, and Jenny Jing lifted the cup and took a sip, before saying slowly, "Go ahead! What's going on?"

She was taking a nap, but she was so sleepy that she vaguely heard voices making noise outside.

She was already a very light sleeper after all she'd been through and was pregnant, and even more so when she made a noise, so she crawled out to see.

I didn't expect to see such a scene.

Thinking about the image she had just seen, her eyes playfully turned around on the two of them and laughed lightly, "I didn't think ah, taking a nap in my own home and getting up halfway through to catch a rape, do you guys think I'm too good-tempered, or do you really think I'm just air?"

Biden Lu's mouth couldn't help but smack twice, looking at her in aggravation.

"I didn't."

Jenny waved his hand, indicating that he didn't need to speak.

"Miss Xie, you came to my house as a guest, I didn't give you a bit of a hard time, even though some of your actions made me feel even more uncomfortable, but I put up with it for the old lady's sake, do you really think that I'm easy to bully and can be taken advantage of at your whim?"

Xie Xiangling's face went white for a moment, and only half-heartedly did she whisper, "I'm sorry, little sister-in-law, I didn't mean it."

"Not on purpose what?"

Jenny Jing's cold gaze swept over her, there was no warmth in his eyes.

"Is it not intentionally cooking a table full of great aphrodisiac food, or is it intentionally seducing my man right under my nose?"

Xie Xiangling: "....."

The last three words of Jenny's sentence just now succeeded in pleasing someone, and he hooked his lips, and his face, which was as gloomy as a storm just now, eased up a lot.

"Honey, don't be angry, be careful, our baby is still in your belly."

He reached over her shoulder and smoothed her back twice.

But unexpectedly, Jenny glared at him.

Biden Lu: "....."

What did he do wrong?

Jenny Jing was not in the mood to argue with him at this moment, he only said in a cold voice, "Miss Xie, I don't want your explanations either, and anyway, when it comes to the past, the total number of reasons is just that much."

"The sea of women who have been rushing to seduce our family Biden over the years, I can't manage even if I have to manage them one by one, and in light of the fact that you are at least a cousin, I won't spread the news about today's incident."

"At any rate, I'll show you some mercy, but since things have come to such a pass, there's no way for relatives to do anything, so in the future, you'd better not board our Lu family's door, go back where you came from!"

After Jenny said that, he called Aunt Liu and ordered her to see the guests off.

When Xie Xiangling saw this, her face, which was already pale, swished all white.

"No, I'm not leaving! Sister-in-law, I was wrong. Please forgive me! I'll never do it again, I was just having a momentary lapse of consciousness, I didn't mean to do it."

Jenny swept a cold glance at her.

"Not on purpose? Heh. I think you've obviously been planning this for a long time!"

She now finally understood why this little cousin, whom she hadn't even met a few times before, was so eager to come and see her.

Where's this looking at her? He's obviously looking at Lu Jing-Shen!

It also made a table of great tonic dishes, ostensibly to replenish her body, but in reality it wasn't made for her, but for Biden Lu.

And trying to take advantage of her pregnancy.

Oh...mind games are shameless enough to this extent.

Jenny Jing didn't want to say the dirty words that were held in his heart, so he only said coldly, "We are all smart people, what are you planning in your heart, you don't say, I don't ask, each is clear, you have to vice that I have to pick out the words and say them clearly, that won't do you any good at all, are you sure you want to continue to talk?"

Xie Xiangling didn't really understand until this moment that the woman in front of her, who wasn't even as old as herself but had married her cousin, was really not an easy master to fool.

She bit her lip and whispered, "We are cousins after all, and I was merely confused, so why are you being so aggressive?"

"Heh!" Jenny was directly pissed off.

"You know you're cousins and you're rushing into it? Even if you're not related by blood, a tree needs its skin and a man needs his face! Don't you understand any of that?"

Jenny Jing had left no room for words, and Xie Xiangling only felt extremely embarrassed.

She bit her lip and wanted to say more, but Jenny had already impatiently called Aunt Liu, "Send the guests."

Aunt Liu stepped forward and said in a deep voice, "Miss Xie, please."

Xie Xiangling stood without moving.

Auntie Liu frowned, considering whether to call two servants to forcibly put someone out, and then she suddenly poofed and knelt down.

Everyone was shocked by her sudden movement.

Jenny stood up in shock, and Biden Lu was busy getting up to help her, afraid that she would fall over if she got excited, and her face completely sank.

Although Xie Xiangling was wrong and her mind wasn't right, but they were equals after all, she couldn't afford this great gift.

Jenny Jing's face turned pale and said in a stern voice, "What do you mean?"

Xie Xiangling, however, looked up at her with tear-filled eyes, as if she was desperately trying to grasp the last straw.

"Little sister-in-law, I beg of you, help me!! I'm really desperate!! If I just walk out of here today, my body will be in the morgue tomorrow."

"Little sister-in-law, I admit that I was unkind in what happened today, but please, for the sake of us being cousins at any rate, help me!"

"But if I had any way out, I wouldn't have come up with such a scheme and come to humiliate myself!"

Jenny frowned.

As slow as she was, she noticed something was wrong now.

Turning his head and Biden Lu looked at each other, both saw some surprise in each other's eyes.

She said in a deep voice, "Get up first, I can't listen to you properly if you're kneeling like this. If you have something to say, get up and say it!"

Only then did Xie Xiangling stand up with the maid's assistance.

Jenny Jing rubbed his eyebrows a bit tiredly, "Go ahead! What's going on?"

Only then did Xie Xiangling cried, "I didn't want to bother you guys, but I'm really desperate, so I can't think of anything else to do but ask my cousin for help."

Jenny Jing's brow bones jumped at the news, and a pair of cold eyes looked at her.
