

Super Rich Dad Chapter 497-498

Chapter 497

Once Xu Tianlin said this, Jiang Hao and Ye Yunjie were instantly alerted, and they looked at each other, obviously both somewhat unconvinced by Xu Tianlin's words.

After all, yesterday Ye Yunjie still said that the matter of withdrawing the south of the city project had only revealed the slightest hint of a rumour.

Since it was only a whisper. It was natural that the results would not come out that quickly.

The company's main business is to provide a wide range of products and services to the market. You think you can fool us with your words? Oh, you're too naive.'

Of course Ye Yunjie would not believe Xu Tianlin's words, for one thing, she heartily did not want such a thing to happen.

Secondly. After all, it was the same as establishing a new modern district in Chujiang, and both the provincial government and the bigwigs at the top of Chujiang attached great importance and support to it.

But now they are just saying that they want to withdraw it? This is too casual, isn't it?

And when those bigwigs supported it at first, but now they are coming out against it, isn't that like slapping yourself in the face?

How could those bigwigs in the temple do something like that?

So no matter which way you look at it, Xu Tianlin's words are not to be trusted, this is just resignation.

Only once Ye Yunjie finished her words, Xu Tianlin did not rush much to explain, instead he laughed mockingly. The first time I told you, the top few bigwigs had a meeting to discuss this matter, and one of my dad's best friends was among them, and it was secretly recorded.

This guy actually had a video recording? This really made Ye Yunjie's day.

Moreover, when she looked at Xu Tianlin's smug expression, it didn't seem like he was lying.

'It's hard to believe that the top really did make a decision on the City South project in private?' Ye Yunjie muttered in her heart, and could not help but feel more than a little nervous in her heart.

She thought for a moment before she spoke, 'Oh, just blow it off, do you really think you can bluff me? A video? Who knows if that video of yours is real or not!'

Ye Yunjie's words were naturally provocative, she could not tell Xu Tianlin: What. You have a video? Show it to me quickly, or something like that.

Xu Tianlin also fell for it, although he also understood that Ye Yunjie was provoking himself, but who let him originally intended to show Ye Yunjie that video of himself?

What he wanted to see the most was the expression on Ye Yunjie's face after watching the video.

I would like to see if you can still be tough with me later!

Thinking of this Xu Tianlin smiled and directly took out his mobile phone and casually found a video. He handed it to Ye Yunjie's hand.

This video was indeed secretly filmed, after all, this was a private meeting of several of Chu Jiang's leading family members, openly recorded. I am afraid that the person who recorded the video is not the one who feels that he is living too comfortably.

The video is not very long, just over ten minutes before and after.

But it was undeniable that the contents of this video really made Ye Yunjie break out in a cold sweat.

In this video, several members of Chu Jiang's family had almost counted all the problems of the South City Project. And almost unanimously, they decided to withdraw the South City Project.

After watching the whole video, Ye Yunjie's hands were already in a cold sweat.

Her face was ugly as she turned to look at Jiang Hao and handed over the matter in her hand.

Jiang Hao seemed to already know the outcome from the look on Ye Yunjie's face. But still, he watched the whole thing through.

Just after watching the video, Jiang Hao's whole person looked a little agitated.

In fact, both Ye Yunjie and Jiang Hao are incomparably clear at this moment, even though the City South project has encountered all kinds of difficulties, but no matter how difficult the predicament is, as long as the several family members of Chu Jiang are still supporting the City South project and have confidence in the City South project, then all the problems, are not problems.

But now, their greatest fear, fear has arisen.

It is clear that these people are no longer just not supporting the City South project. It has even turned into opposition to the City South project.

This is a very scary thing, to put it simply, they have gone from being the biological sons of a thousand people. In an instant, they have turned into step-sons who are full of problems.

If they are in a good mood, they might even give you a good look, but if they are in a bad mood. Then, sorry, you may be at risk of being abandoned at any time.

And the most disturbing thing is that those few family members of Chu Jiang are now in charge. They are already thinking about how to abandon this 'stepson' in private.

That's the worst possible news.

Jiang Hao and Ye Yunjie's faces were about to turn black, they finally understood why this Xu Tianlin dared to 'rob' so blatantly, wanting to take the south of the city project for 300 million yuan, it turned out that he had already gotten the news.

Indeed, Xu Tianlin's timing was too good, and the video was too powerful.

It was like a heavy punch, and after it came, Ye Yunjie and Jiang Hao lost the strength to fight back instantly.

Moreover, Ye Yunjie also knew that the video in her own hands, once it got out, would be almost like the last straw that killed the Chengnan project.

What with the billions of dollars invested on their side, they don't care about this anymore.

If the authorities want to withdraw the project, withdraw the intention of planning the new area, then even if you invest more money, it won't help.

Without policy support and assistance, even if you put in a hundred billion dollars, it will be like a stone sinking into the sea.

And more people will only be more resistant to the City South project, and more people who want to come over and get a piece of the pie will jump out

The result seems obvious once the content of the video is released, and the city's south project will really be worthless by then.

When Ye Yunjie thought of this, a bitter smile could not help but appear on her face, because she finally understood why Xu Tianlin only offered 300 million.

Because he knew that as long as the contents of this video were made public in the end, the City South project would be worth the 300 million.

He was pinching himself at the throat.

Xu Tianlin looked at Ye Yunjie and Jiang Hao, smiled and suddenly spoke, 'How about it, I'm not lying, right? Now do you guys have anything else to say?'

Xu Tianlin cunningly continued to laugh, 'And let me tell you the truth, in fact, whether or not this City South Project will be withdrawn and its value is no longer something you can influence. To put it bluntly, it's no longer up to you to decide how much the City South project is worth, it's up to us, get it?'

Chapter 498

Xu Tianlin paused, seeming to feel that he had won for sure, and his face grew wider and wider with a smile.

He simply took out a cigarette and smoked it as if no one was watching, saying disdainfully, 'How about it? Are you ready to think about it now? After all, as soon as the video is released, not to mention the 300 million, it will be given to others for nothing. After all, as soon as the video is released, not to mention the 300 million, even if it is given to others for free, there may be people who do not want it!'

Xu Tianlin's words clearly had some threatening meaning.

He looked at Jiang Hao and Ye Yunjie and watched the change in their expressions on their faces, his heart simply bursting with joy.

One had to know that just yesterday, when he had bid eight hundred million. These two people were still so dismissive, even to the extent that Ye Yunjie even dared to make a move against himself, putting a knife to his neck.

But what about now? Where was their previous hardness?

Weren't they bullying before? Didn't they treat themselves with disdain? Xu Tianlin wanted to question them both, did they still dare to treat themselves like that now?

He had said it a long time ago. He would definitely pay back all those humiliations.

As long as Ye Yunjie and Jiang Hao agreed to sell the South City Project today, he could use an even more humiliating way to make them pay back for their psychological deficit.

After all, without the City South project, Ye Yunjie and Jiang Hao would really be nothing.

And as long as they bought the City South project, it was a sign that they would never be able to turn around again.

Ye Yunjie looked at Jiang Hao with a complicated expression on her face, and it was clear that she was seeking Jiang Hao's opinion.

After all, things had come to this point and they had no choice.

The road was right here, if they sold the City South project, the billions they had invested before would be almost like a waste of money.

But if they don't sell the project, the billions they invested in the project will still be wasted.

And the most crucial thing is the 300 million debt in front of them. They simply could not afford to repay it.

The funds on hand were frozen, Shen Haoting could not be contacted for a while, and if the money was not given to these people immediately, they would turn around and sue themselves.

At that point, three hundred million instantly turned into three hundred million.

Not only did they end up with a playful south of the city project on their hands, but they would instead have another three billion in the red.

The matter is already on the table and the decision on what to choose seems to have been well and truly made.

All they could do now was not to turn the 300 million they had in front of them into another 3 billion in deficit.

Jiang Hao pondered for a moment and sighed heavily. Although he was very reluctant, he had to admit that he had really lost.

Moreover, Jiang Hao also realized soberly that he was nothing at all in the face of these godlike opponents of his.

For so long, he had been led by the nose from the beginning to the end, and was like a fool who moved clumsily and incomparably, with every movement he made. Every movement he made was slow, while the other party's movements were so slow that he couldn't even catch a shadow of them.

Jiang Hao gritted his teeth fiercely and looked towards Ye Yunjie, saying helplessly, 'Sister Ye, it's just that.'

Jiang Hao said four words tightly, then turned his head immediately afterwards and waved his hand with his back to Ye Yunjie.

It was a bit hard for Jiang Hao to say that he would sell the south of the city project, but his meaning was already understood.

Ye Yunjie also sighed lightly, she knew how difficult it was for Jiang Hao to make such a decision.

But, it was the only decision he could make now.

After all, he couldn't let billions of dollars go down the drain for nothing just because he gambled on it, right?

Ye Yunjie turned her head, looked at Xu Tianlin with a solemn face, and spoke, 'Have your company's finance come over and transfer the money, three hundred million. Immediately, right away!'

'Hahahaha' Hearing these words, Xu Tianlin finally could not contain the excitement in his heart and laughed happily.

It was as if he was high up in the sky. Looking at Ye Yunjie and Jiang Hao with contempt in his gaze, he laughed lightly, 'Yo yo yo yo, finally agreeing to sell? Haha, how about that, does your face feel particularly sore? I told you, in the end, this south of the city project, still has to fall into the hands of our Xu family, I'

Xu Tianlin was a bit overjoyed. It was as if he wanted to pour out all the words he had suppressed in his heart at once.

The actual fact is that Ye Yunjie coldly glared at him and scolded, 'You better keep your mouth shut and hurry up with the transfer so that we can be ready to transfer the south of the city project!'

Xu Tianlin snorted and grunted, disdainfully saying, 'What's the rush? If you really displease me, don't blame me for being rude. If you really upset me, don't blame me for being rude. Miss Ye, what do you think you will do if I say now that I won't buy the City South project?'

Xu Tianlin's words made Ye Yunjie somewhat unable to hold back her fire and was about to open her mouth to dislike her back directly.

'What do you want?' Xu Tianlin coldly snorted and said, 'I tell you, the initiative is in my hands now, not only can I now control the life and death of the City South project, I can also decide whether your debt is three hundred million or three hundred million, so I advise you to be peaceful, don't really piss me off, otherwise

Ye Yunjie was really subdued by these words of Xu Tianlin.

She gritted her teeth and was extremely uncomfortable in her heart. She hated this feeling of being threatened. But again, she seemed powerless to do anything about it.

But just as Xu Tianlin was about to open his mouth to continue speaking, a voice suddenly came through.

'What else can you do?'

The voice came so suddenly that it took everyone present by surprise.

Xu Tianlin hurriedly turned his head in the direction the voice came from and looked at the person who suddenly appeared in the doorway with a tight frown.

'Who are you?' Xu Tianlin skimmed his lips. He didn't put the other person in his eyes in the slightest.

The sudden appearance of this person really surprised Ye Yunjie beyond measure, and her entire body even froze the moment she got a clear look at the person who came. Only three words were muttered out of her mouth, 'Mr. Shen Shen?'

And after Ye Yunjie said those three words, Jiang Hao, who was behind her, also turned his head violently and looked at the man at the door with a face full of shock.

Jiang Hao of course clearly, in Ye Yunjie's mouth called Mr. Shen. What exactly was that person.

He looked surprised, even more surprised, to the extent that for a moment Jiang Hao didn't know what expression he would use to face that person.

Jiang Hao looked at that tall, middle-aged man in his forties with a face full of vicissitudes but with a few handsome touches, and subconsciously spat out a word from his mouth, 'Dad?'

Yes, this person who suddenly appeared was none other than Shen Haoting.

Shen Haoting wore a blue and grey custom-made suit, his figure was tall and large, a handsome face as handsome as a carving knife, written with the vicissitudes of the years, his temples were white, his gaze was firm and deep as he looked at Jiang Hao, a faint smile hung at the corner of his mouth.
