

Chapter 5111

For these Cavalry guards, the poison in their bodies is a shackle that imprisons them for a lifetime and can never be broken.

But for Charlie, it only takes a little spiritual energy to completely remove the poison in their bodies.

Therefore, when he patted their shoulders one by one just now,

He had already used spiritual energy to remove the poison from their bodies one by one.

At this time, the seven people heard Charlie say that the poison in their bodies had been cured.

They were surprised at first, and then they closed their eyes and felt it carefully.

Sure enough, the power that had gathered in the dantian before was gone!

The poison in their body is not an ordinary highly toxic substance,

But the energy cannot be controlled by the body.

This energy is like a time bomb in their body, counting down on a cycle of seven days.

Once the seven days are up, this energy will completely destroy their meridians and internal organs.

And the so-called antidote is not able to remove the toxin,

But just taking it once can reset the countdown time of the seven days.

It is precisely because of this that they can clearly feel at this moment,

That the toxin in their bodies has completely disappeared.

This made several people look shocked for a moment.

They really couldn't figure out when the toxin that they could feel just now disappeared at this moment.

The head's mind turned relatively quickly.

He remembered that Charlie had patted him on the shoulder just now, so he asked subconsciously:

"Could it be... Could it be that you patted us just now,"

"And you helped us to cure the poison?"

Charlie nodded slightly.

The man asked in amazement: "There is no cure for this kind of poison, you... how did you do it?!"

Charlie said with a smile: "The reason why there is no cure is that the poison left in your body is not a real poison,"

"But an energy that you cannot control, since you cannot control it, you must be controlled by it."

The expressions of the seven people were both surprised and happy,

And at the same time, they were more in awe of Charlie.

Although his words were few, they revealed a hierarchical relationship.

The strength of these Cavalry guards is weaker than the energy in their bodies,

That has been controlling them, and this energy is weaker than Charlie's strength.

Therefore, for them, Charlie is the most powerful ceiling in all their cognition at this stage.

The leader stood up from the chair, took a step back,

Walked around the chair, knelt down on one knee in front of Charlie, and said respectfully:

"Thank you for saving my life, sir!"

The other six people immediately got up, backed up, and got down Kneeling, and said in unison:

"Thank you, sir, for saving our lives."

Charlie nodded slightly, and said to several people:

"Sit down and talk about your understanding of the organization,"

"And see if you can provide some valuable information."

The man immediately nodded and said: "Don't worry, for everything I know I will talk endlessly!"

Charlie looked at Duncan and said, "Inspector Li, do you have any questions?"

Duncan said without hesitation: "I have a lot of questions."

Charlie nodded: "Then you can ask."

"Okay." Duncan immediately picked up his notepad,

And he had already listed the conversations Charlie had with several people just now.

There is a question that he wants to know.

The first few questions were actually asked by Charlie when he was in Bergen.

Such as their identities, intelligence, the location of the resident, and some specific information about the resident.

These seven people naturally said everything they knew in one go.

Duncan listened carefully, and after they finished introducing the basic situation,

He asked, "What is the organizational structure in Cyprus, you knights?"

The leader explained: "There are two hundred and seventy-one Cavalry guards, divided into three banners,"

"Left, middle, and right, with ninety people in each banner,"

“And three battalions in each banner, thirty people in each battalion.”

“Each battalion is divided into three teams, each team has ten people, and there is a commander.”

“Below are the banner commanders of the three banners, the battalion commanders of the nine battalions,”

“And the captains of the twenty-seven teams. The battalion commander of the first battalion of Commander.”

He continued to introduce: “Besides, there is a Commissioner and five personal guards next to the Commissioner, but they are another He is a member of the system, and his status is much higher than ours.”

Duncan asked him: “What is the official position of the Commissioner?”

The man replied: “Commissioner is the highest commander of the entire station,”

“In charge of all the people in the station. The power of life and death.”

Duncan frowned and asked: “Commissioner, Commander, Cavalry guards,”

“These functional titles of yours seem to be very old, what is their origin?”

The man explained: “They all come from the Ming Dynasty military system of China.”

Duncan blurted out: “This organization of yours has continued from the Ming Dynasty to today, right?”

Chapter 5112

The man said: “To tell you the truth, only the dead soldiers who were manipulated and enslaved can be traced back.”

“It has a history of at least 300 years, so the time when the organization was founded is likely to be during the Ming Dynasty,”

“But I am only speculating on this, and I am not too clear about the specific situation.”

Duncan couldn't help taking a breath, and then he settled down and asked again:

“Then do you have the identity information of this Commissioner?”

“No.” The man shook his head and said: “The internal structure of the garrison is extremely strict.”

“But it is still the object of the organization's enslavement,”

“And everything is done according to orders every day, and I don't know the specific identity of Commissioner.”

Duncan pursed his lips, and asked: “If we divide according to strength,”

“Commissioner, Commissioner Which group is the most powerful, the bodyguards, the Cavalry guards, and the dead soldiers?”

The man thought for a while, and said: "We have never seen Commissioner and his personal guards attack,"

"But our strength is generally stronger than that of the dead because we stand out from the dead."

Duncan asked: "Do you Cavalry guards often perform missions?"

The man replied: "The Cavalry guards only perform emergency missions."

Then, he further introduced: "Normal missions are usually performed by dead men,"

"And we will select them in advance. The dead soldiers who performed the mission,"

"And then put them into a deep coma before they set off,"

"And then hand them over to the postman to transport them to the place where the mission was performed."

"We Cavalry guards will be in charge."

Duncan asked again: "Then please describe to me all the details of the mission you received this time."

The man thought for a while and said in a straightforward manner:

"Temporary mission was received only hours ago, the Commissioner gave the commander the pictures of eight Nordic people,"

"And the commander selected seven of us according to the physical characteristics of the eight people in the photos."

"After makeup in the copper mine, He led the team and we flew to Bergen."

Duncan suddenly felt a little tricky.

He said to Charlie: "Master Wade, the structure of this organization is strict, and the information isolation between each layer is very good."

"Even for a Cavalry guard, all the inside information he knows is limited to their station to station."

"Some deceptive business, but almost nothing else, so if you look at it this way,"

"If you want to know more in-depth information, you have to find the Commissioner."

Charlie nodded, and said: "The Commissioner may not know how much valuable information."

Duncan suddenly remembered something, and quickly asked Charlie:

"Master Wade, you just said that the poison in their bodies needs to be taken regularly to delay the onset, right?"

Charlie nodded slightly: "That's right."

Duncan asked May 47: "May 47, you dead men living near Sri Lanka also need to take medicine regularly, right?"

May 47 nodded truthfully and said: "Yes, Inspector Li."

Duncan then looked at the commander of Cavalry guards and asked him:

"How do you get the medicine you take every week?"

"There are a large number of them in the copper mine. Is it a reserve, or will someone come to deliver it every once in a while?"

The man hurriedly said: "The medicine is delivered regularly, and it is all transported by the freighter between us and Turkey,"

"And the large number of supplies we need are also delivered through the channel of the freighter."

Duncan nodded and murmured: "In other words, if there is a way to cut off the supply of antidote,"

"Then all the dead soldiers and all the Cavalry guards in the entire station will not survive seven days. Right?"

The man's back turned cold, and he said subconsciously:

"In theory, this is the case, but you can't do this!"

Duncan looked at him, and said lightly: "I just raised this possibility."

Said After that, he looked at Charlie and said seriously:

"Master Wade, if you want to get rid of this station, it is definitely a good way to cut off the supply of antidote,"

"And once the supply of antidote is successfully cut off, you can enter the In a state of encircling a point to fight for aid,"

"It is like a sniper on the battlefield, instead of killing the wounded,"

"He uses the wounded to attract rescuers from the other side,"

"And then kills all the people who come to rescue one by one."

Joseph heard this, and couldn't help but excitedly said: "Waiting for help! Inspector Li's method is great!"

After that, he quickly said to Charlie:

"Mr. Wade there is a seven-day deadline, and after those seven days, the station may disappear by itself."

May 47 said in horror, "Mr. Wade, think twice! Once this is done,"

"Thousands of dead men and their families may die without burial. This is the land of the organization!"

"Yes..." the commander Cavalry guards also said in a panic:

"Most of the dead soldiers and Cavalry guards are forced to work for the organization,"

"If their antidote supply is really broken, none of them will survive, this... this is... too cruel for them..."

After finishing speaking, he looked at Charlie and begged:

"Sir, please see that we are all forced to do nothing, please give us, our relatives and friends a way to survive..."

Charlie didn't speak, and after thinking for a while,

He opened his mouth and said: "Although the method of cutting off the antidote is useful,"

"It is really not humane. Once it succeeds, thousands of lives will cease to exist."

Speaking of this, Charlie suddenly looked at May 47 and these Cavalry guards, he asked seriously:

"If one day, you find that after you take the antidote given by the organization,"

"The poison in your body is not delayed, but suddenly completely eliminated. What would your reaction be?"

Chapter 5113

Hearing the words of Charlie, the seven cavalry guards and May 47 sitting on the other side were stunned!

They didn't know why Charlie would suddenly ask such a question,

But the expressions of these eight people were a little excited at this time.

May 47 was the first to speak, clenched his fists, and said sharply:

"Mr. Wade, if what you said is true, we dead soldiers will definitely organize to break out of the siege!"

"Even if we die, we will die under the sun!"

The person heading Cavalry Guard also subconsciously said:

"That's right, Mr. Wade... If this really happens,"

"Cavalry Guards will definitely take the opportunity to fight to the death!"

May 47 sighed: "To all the dead soldiers Generally speaking,"

"The shackles of the organization are mainly the poison in the body and their own family members."

"Once the trouble of the poison is solved, the dead soldiers will be able to use their own strength to desperately defend the safety of their relatives,"

"And have the opportunity to lead their family members to escape."

"My God, this is the biggest dream of every dead warrior for dozens of generations of ancestors,"

"And once given the chance, every dead warrior will go all out for this dream!"

May 47's words made the other Cavalry Guards agree and show empathy.

Like these dead men, they all longed for the day when they could completely break away,
From the control of this mysterious organization.

The reason why he never stood up against the organization was mainly that the poison in his body was powerless to resist.

It's not like none of their predecessors have done this before,

But whether they resist or escape, the maximum lifespan of each of them after escaping is only seven days.

Therefore, this kind of thing has no chance of success at all, over time, no one is willing to do it.

But if what Charlie said really happened, and the poison in their bodies was suddenly completely eliminated,

They would stand up and resist to the end like dead soldiers.

After seeing the attitudes of several people, Charlie nodded in satisfaction and asked,

"Does Commissioner need to take antidote regularly?"

"I've never heard of it." The leader of the Cavalry Guards said:

"Commissioner is mysterious and keeps a low profile."

"We have no way of knowing whether he will take the antidote like us."

Charlie asked again: "Then every time After the antidote is delivered,"

"How is it distributed to you and all the dead men?"

The man explained: "Every time the antidote is delivered,"

"The Commissioner will personally connect with the postman who is responsible for delivering the antidote."

"Ten pieces form a letter, wrapped in waterproof wax paper,"

"And then sealed with special wax and seals. Every time the antidote is delivered,"

"The Commissioner will personally check the packaging of each letter."

"After asking the question, give these antidotes to his bodyguards,"

"And then his bodyguards will personally distribute them to us, cavalry guards."

He continued: "When the antidotes are distributed, we according to the system , line up to receive the antidote,"

"And after receiving the antidote, we must take the antidote immediately,"

"And we must not take the antidote away quietly."

“Together with them, we distribute the antidote to the dead man and their family members.”

“The overall process is basically the same.”

“The dead man and his relatives must also complete the medication under our supervision.”

“In this way, the whole process of taking the medicine at one time is considered complete.”

Duncan on the side couldn't help asking: “I have a question to ask,”

“Since you can only live for 7 days without the antidote,”

“Why do they supervise you to take the antidote? How about going on?”

“Is there anyone who deliberately refuses to take the antidote they gave you?”

The man smiled wryly, and said: “Whether it is us or the dead, we have always thought about resisting,”

“Although it shows that we know that we have no ability to fight with them.”

“The whole organization fights, but there are still some flukes, so in the past,”

“Many dead soldiers deliberately did not take the antidote,”

“Left the antidote for many people to one person, and then tried to help that person escape from the station.”

“Hoping to exchange help from the outside world by asking for help and exposing the inside story of the entire organization,”

“But all failed without exception, but because of this kind of thing happening,”

“The organization's requirement is that someone must supervise when taking the medicine.”

Hearing this, Charlie said, “That is to say, the antidote given to you has a special anti-counterfeiting method,”

“But only one person, Commissioner, will know the specific method of anti-counterfeiting,”

“So after the antidote is delivered, he will be responsible for the anti-counterfeiting.””

“He comes to connect and verify the authenticity, and after confirming that there is no problem,”

“They will be issued to the Cavalry Guards first, followed by the dead and their families.”

“Yes.” The man nodded and said: “The whole process is actually very strict.”

Chapter 5114

Charlie asked again: “In your impression, what are the anti-counterfeiting features of the antidote?”

“Every letter of medicine is opened in front of us and handed out to us,”

“But the wax used to seal the wax paper is reheated every time.”

"The pattern on it no longer exists, so I don't know what the sealant looks like on the original medicine seal."

Charlie nodded lightly, and said: "In this way, they want to steal the sky and change the day without showing anything."

"And then cheated the Commissioner, it should be impossible."

"If I find a link in the middle to change the medicine, it will inevitably destroy the original anti-counterfeiting mark to a certain extent,"

"And wait for the Commissioner to get the medicine. He will realize something is wrong immediately."

"Yes." The man agreed: "We don't know how many anti-counterfeit marks will be on the medicine seal,"

"It may be more than just wax seals, as long as there is a slight negligence, they will know."

"Hearing this, Duncan couldn't help saying with regret:

"If you can really detoxify the body of these more than a thousand dead soldiers and more than two hundred Cavalry Guards,"

"Even if you don't take them for your own use, once they escape,"

"It will be enough for this organization to drink a pot, thousands of people escaped,"

"And they can't be caught, and they will definitely be in chaos."

Charlie couldn't help laughing: "Actually, it doesn't matter to the organization even if all these thousand people run away."

"After all, this is just one of their many dead soldiers' camps."

"Even if they are all uprooted, it won't hurt. If one or two people ran away,"

"In order to keep the station, they would definitely pursue it desperately,"

"So as not to leak the secret, but once the entire station ran away,"

"The station would be of no value to them. It's fine to just give up the station, for them, it's no trouble."

Charlie said again: "It's like the United States has so many military bases around the world,"

"If any of them are taken over by others, For the United States, apart from making the White House tense,"

"Angry, and painful, it will not bring any real harm to the overall national strength."

Duncan was slightly startled, then nodded and said:

"Master Wade is right, The power of this organization is beyond imagination, and the escape of a mere resident may not be a big deal."

Charlie smiled playfully, and said casually: "Since there is no way to hide it from Commissioner,"

“Then just turn him into one of our own. , In this way, we can truly realize deception!”

The leader Cavalry Guards asked puzzledly: “Mr. Wade, how do you plan to realize this idea?”

“The Commissioner is the chief official of the border organization in the organization.”

“Even has the power of life and death, how can such a person become one of your own?”

Charlie smiled and said lightly: “You don’t have to worry about this, as long as I see him, I can make him obey me.”

Using spiritual energy to brainwash a person is Charlie’s tried and tested method.

If he can brainwash the Commissioner of Cyprus, let him become his own puppet,

And then take advantage of the opportunity to detoxify the body of all the dead soldiers and Cavalry Guards,

Then he can let these dead soldiers and Cavalry Guards join his command,

And at the same time Let them continue to stay in Cyprus,

And become a puppet Commissioner, and continue to act as normal for the organization.

In this way, not only can they disintegrate one of their stations,

But they can even place an eye under their noses.

Once the organization has a mission to Cyprus, they can know it immediately.

Thinking of this, Charlie asked them: “If the dead warriors and the Cavalry Guards are really eager to break the shackles as you said,”

“I can give them this chance at that time, but the premise is that they must swear allegiance to me and join us. Cataclysmic Front,”

“If they agree, they will stay in the station after detoxification and prepare for the complete destruction of the organization, do you think they will agree?”

May 47 said without hesitation: “Don’t worry, Mr. Wade, I believe that among all the dead No one will refuse!”

The leader of the Cavalry Guards said with some concern: “Mr. Wade, to tell you the truth,”

“In the team of Cavalry Guards, there are already some people who have the idea of continuing to climb up.”

“Their hearts, are very close to the organization, and only want to make contributions to the organization so that they can go to a higher level.”

“If these people are not eliminated, I am afraid that bad things will happen in the future.”

Charlie nodded and said calmly: “These are good Solve it, when the time comes, you only need to do a little trick to get these people to show up.”

He then asked, "When will they deliver the medicine next time?"

"Four days later." The leader of the guards said: "Under normal circumstances, we will take the next round of antidote five days later."

"The medicine will usually arrive the night before taking the medicine."

"The next day they just concentrate on taking the medicine."

Charlie asked: "The medicine, like other supplies, is shipped from Turkey, right?"

"That's right." The other party nodded and said:

"Other living supplies will also arrive in Cyprus along with the transport ship. "

"Okay." Charlie smiled slightly: "I will go there alone in four days."

Then, he looked at Joseph again, and said: "Joseph, you should prepare in the next few days."

"Lead people to wait for my news on the high seas, and once I solve the problem, you will lead people to the land and take over

the copper mine with me."

Joseph said without hesitation: "Okay, Mr. Wade, your subordinates will definitely do their best. go!"

Charlie nodded and said: "I need a few days to prepare the antidote for thousands of people."

"After four days, I will fly directly to Beirut."

"Joseph will prepare a small boat for me in advance. I will be alone to cross the sea to meet them!"

Chapter 5115

Hearing that Charlie wanted to act on his own, Joseph quickly said:

"Mr. Wade It's risky, why don't you let your subordinates choose a few elite soldiers and go with you!"

Charlie waved his hand and said seriously:

"The success rate of this kind of thing is the greatest only when one person acts,"

"And even if it fails, one person can do it alone."

"If I can escape completely, once there are more people, the chance of being exposed will be greatly increased."

"Not only must I ensure that this matter is as successful as possible,"

"But I must also ensure that if this matter fails, no clues will be left as much as possible. ..."

Duncan also agreed at this time and said: "I support Young Master Wade's point of view."

"Based on my experience as a police officer for so many years,"

“Most of the major cases that have not been solved in the true sense are cases involving a single suspect.”

“As long as the person’s professionalism is high enough and his strength is strong enough,”

“He will be able to accomplish his goal in a leisurely manner without leaving any valuable clues for the police.”

“The chances of usable clues will increase exponentially.”

Speaking of this, Duncan said again: “To use an appropriate analogy,”

“The murderers behind the double-digit serial murders of the victims are almost without exception a one person.”

Hearing this, Joseph could only nod his head and said,

“If that’s the case, then the subordinates should make preparations in Beirut.”

“Whenever Mr. Wade needs the Cataclysmic Front and the subordinates must furbish it as soon as possible!”

Charlie nodded, and said with a smile: “I really have something that you need to prepare in Beirut in advance.”

Then, Charlie said seriously: “Joseph, on the day of the operation,”

“You should bring May 47 and these seven Cavalry Guards and wait for me on the high seas.”

“Once I succeed, you take them all to the copper mine.”

“If you want to make those Cavalry Guards and dead soldiers surrender completely,”

“You need a few of them to show up and speak.”

Joseph said without hesitation: “Alright Mr. Wade, I will arrange a cruise ship in advance,”

“And will be waiting for your news on the high seas.”

Charlie nodded, looked at May 47 and the other seven Cavalry Guards, and said,

“When the time comes, I will have to work hard for you all.”

“If this matter can be successful, I need you to manage this for me together.”

All eight agreed without thinking.

Charlie’s bold and radical plan made them all very excited.

If the disappearance of the poison in their bodies broke the shackles that the organization had shrouded them for many years,

Then following Charlie to take down the entire resident is the first step to launch a counterattack against the organization.

Afterward, he asked the people:

"Everyone, can you describe to me what the antidote this organization usually takes for you?"

May 47 took the lead and said, "We take round pills with a diameter of About one centimeter,"

"The color is dark brown, and the surface has a certain luster."

Several other Cavalry Guards also nodded, and the leader said: "We take the same."

Charlie frowned, took out a blood-scattering heart-saving pill came,

And asked, "Does it look similar to this?"

May 47 nodded: "Basically, it is very similar, but the color of your pill seems to be better."

Charlie said thoughtfully:

"It seems that the antidote they give you is also made using traditional medical techniques."

Chapter 5116

Duncan thought of something at the moment and said:

"By the way, I have a question, You just said that the antidote will be taken after five days,"

"But the antidote will be sent to your station after four days."

"Don't the managers of the organization worry that if something goes wrong during the transportation,"

"The antidote will not be delivered in time? Will it not kill everyone?"

The leader of the Cavalry Guards shook his head and said,

"This is just a daily transportation process. Under normal circumstances,"

"The antidote is delivered one day in advance. As long as there is no accident,"

"It will not affect the time of taking the medicine. , It doesn't matter if there is an accident,"

"Commissioner has enough reserves for more than two months,"

"But these reserves will only be used in emergencies."

As he said that, he continued: "A few years ago, for some unknown reason,"

"The antidote did not come for three consecutive weeks."

"Those three weeks were solved by relying on the reserves of Commissioner,"

"But in the fourth week, the follow-up antidote was delivered."

Duncan hurriedly asked: "Do you know why there was no antidote for three weeks?"

The man replied: "It's not clear."

Duncan asked again: "For these three weeks, was the material transportation between you and Turkey terminated?"

"No." The man said: "The material transportation between us and Turkey is very stable,"

"And the freighter basically goes once a week."

Duncan nodded lightly, He opened his mouth and said:

"Since the connection with Turkey is normal, your antidote should not be processed in Turkey."

"Turkey should also be a transit. The problem is the line from the previous station to Turkey."

"It should be the one." The man said helplessly:

"We only know a little bit about many things, and don't understand the deep situation."

Duncan looked at Charlie and said seriously: "Master Wade,"

"If your plan can be successfully achieved this time, then I suggest that you must find an opportunity to follow the vine and take down the copper smelter in Turkey."

"The hierarchy of this organization is too strict,"

"And the information blockade is also very strict."

"Judging from this trend, I speculate that the resident Commissioner may not know too much,"

"And if they go up a level, they should be the copper smelter in Turkey, and the copper smelter must know more."

Charlie clicked nodded and said in agreement: "Inspector Li's analysis is very reasonable."

"The copper smelter should be the highest-level existence in this organization that we know so far."

Duncan said again: "Besides, the clue of the antidote is also Very important,"

"May 47 was stationed near Sri Lanka, and these Cavalry Guards stationed in Cyprus,"

"But the antidote they took were all of the same specifications,"

"Which was most likely processed by a processing factory,"

"And the antidote was processed here After batch processing in the factory,"

"It will be distributed from here to the world."

"If this is the case, then the distribution path of the antidote is an important clue to connect the entire organization!"

Duncan's words made Charlie's eyes light up.

The biggest impression this organization gave him was the clear division of internal levels.

And the extreme blocking of clues and information.

Moreover, many of the stations basically operate independently,
And are very secretive in themselves. Even if the stations are exposed,
They will not reveal accurate clues about the organization.
However, as Duncan said, if the antidote is produced intensively by this organization,
Then as long as he follows the clues of the antidote upward,
He will be able to find the specific location where the antidote was produced by the organization.
In addition, the antidote is of great significance to the organization.
Once the production site of the antidote is found, it is not far from finding the core of the organization.
Originally, Charlie's attitude towards this mysterious organization was to keep restraint as much as possible,
And only make precise sniper attacks on the global dispatch of its six aircraft.
However, after learning about the situation of the other party's residence in Cyprus,
He suddenly discovered that the management model of the dead man's residence seemed to be unbreakable,

Chapter 5117

But it actually left him a breakthrough point.
As long as he can quietly control the Commissioner of Cyprus,
And then detoxify all the dead soldiers and Cavalry Guards in Cyprus from the toxins that occur regularly in the body,
He can directly destroy the mysterious organization without bloodshed or even alarming this mysterious organization.
The entire slain garrison is in the bag.
Moreover, the whole thing is very feasible.
First of all, it is not difficult for him to make an antidote.
If he wants to remove the severe poison in these people, he only needs a small amount of spiritual energy to achieve it.
A batch of quick-acting pills can ensure that these dead men can break free from the shackles of the poison immediately after taking the medicine.
Secondly, it is not difficult to infiltrate the iron barrel-like copper mine,
Because this iron barrel has a gap, and that is the freighter that shuttles between it and Turkey.
As Cavalry Guards said, in order to ensure that they will not be seen by the outside world,

They have been ensuring the stable output of copper mines,
And they have also set up a copper smelter in Turkey to digest the copper ore at fixed points.
Copper mines have stable output and fixed sales channels.
Whether it is goods or funds, the direction and route of flow are very clear.
As a result, no abnormalities can be seen from the outside world.
In fact, if it is only to ensure the normal output of copper mines,
It is not necessary for the organization to establish a copper smelter in Turkey alone.
After all, the copper ore produced by the mine itself does not contain any clues,
And no matter who it is sold to, it has no effect in theory.
But the fundamental purpose of this organization supporting a copper smelter in Turkey.
This is to ensure that the material needs within the copper mine can be fully met.
Since the number of people in this copper mine is only a few hundred people,
But the number of people living inside it is as high as several thousand.
If the living materials needed by thousands of people are directly purchased from Cyprus,
It will be so huge The quantitative discrepancy will inevitably arouse local suspicion.
This is doomed, they must have a safe channel to carry out the silent supply of materials inside the mine.
At this time, the copper smelter in Turkey played a huge role.
On the surface, they used shipping to transport the copper ore produced by the mine to Turkey.
But in fact, the most important thing is that the ships that came to transport copper ore quietly carried a large number of living materials to Cyprus,
First quietly transported all the supplies to the inside of the copper mine,
And then pretended to produce copper from the copper mine. The ore is shipped back to Turkey.
It just made use of the shipping channel for copper mine transportation,
And at the same time, quietly replenished the interior of the copper mine.
It seems that the copper smelter imports the ore produced by the copper mine and generates income for the copper mine,
But in fact, the core role of the copper smelter is just a deceptive supporting facility of the mine.
One has to say that this way of building the plank road in the open and keeping the warehouse in the dark is indeed very ingenious.

For Charlie, as long as he can seize the opportunity and touch the cargo ship delivering supplies to Cyprus,

He can infiltrate all the way until he meets the Commissioner face to face.

And once he was given such an opportunity, he would be confident enough to control that Commissioner.

However, Charlie also has two plans.

If all goes well, the entire garrison will naturally be taken down without bloodshed.

But it doesn't matter if he can't control that Commissioner,

He can kill him quietly, and then distribute the antidote to all the dead soldiers and Cavalry Guards,

And don't care about the rest, let these dead warriors and Cavalry Guards play freely,

Chapter 5118

And when thousands of people suddenly escape from control,

It is definitely enough for this organization to drink a pot.

Moreover, Charlie acts alone for both plans,

So he was absolutely sure that he would not leave any clues,

And no matter whether he succeeded or failed,

He would not let that mysterious organization find him by following the clues.

Afterward, Charlie, Joseph, and Duncan worked out a more detailed action plan.

After the plan was formulated, Charlie planned to leave for the United States and use the remaining few days to prepare well.

However, before leaving, he specially asked Joseph to take him to meet brother Abren who specializes in communications.

At present, Cataclysmic Front has prepared an independent two-story building for Abren,

Which is specially used for his research.

Although Abren arrived in Syria only a few days ago,

His overall state has undergone earth-shaking changes.

Not only does his spirit, complexion, and mood look much better, but he also seems to be much younger.

Seeing Charlie, Abren was very pleasantly surprised, and said excitedly:

"Mr. Wade, why did you come to Syria?"

“Are you used to the place?”

Abren said with a satisfied face: “Since I came here,”

“I feel refreshed every day, but the only regret is that the work still needs to wait for the equipment to be in place,”

“So I can’t start it directly for a while.”

Saying that he said again: “I made a list of equipment and Mr. Joseph has arranged for the purchase without any discount.”

“What I want are basically the world’s top civil communication-related equipment.”

“After arriving in Syria one after another, I plan to first build an encrypted communication system that can cover the entire base,”

“And in the process, design an encryption algorithm, which can be synchronized after the satellite goes into space.”

Charlie asked curiously: “Brother, when will our own satellite be able to go to the sky?”

Abren explained: “Recently, the people under Cataclysmic Front are sent to several world companies, Through a shell company registered in the offshore area.

Well-known communication companies order communication satellites,

But the current satellites are not ready-made and need to be scheduled.

After the satellites are off the production line, we will first ship them to Syria.”

“I will make some modifications to the satellites and then deliver them to a commercial launch company to launch them,”

“But the research and development of the algorithm and the transformation of the satellite require a lot of work,”

“And it may take a year or two at the earliest.”

Charlie asked him: “Brother, It must be difficult for you to complete the work alone,”

“So why not recruit more people to help you do things,”

“If you can build a satellite communication team, the efficiency will definitely be greatly improved.”

Abren said helplessly: “I have thought about this too, But it is not easy to achieve.”

“I contacted some old colleagues and old subordinates.”

“When they heard that they were going to work in Syria, they were a little reluctant.”

“Moreover, the workplace is inside the base.”

“I am also worried that outsiders will come in and cause the risk of leaks.”

Charlie nodded and said: "We don't lack money, what we lack is time,"

"So in my opinion, it is better to do this."

"We first establish or simply acquire a communication company with a sufficient foundation in the United States,"

"And then let this team In the United States, do research and development according to your requirements,"

"And you will coordinate as a whole. In addition, we can use companies in the United States as reserves."

"During the operation of this team, if we find trustworthy talents, we can gradually absorb them into Syria."

Speaking of this, Charlie paused slightly, and then said:

"In addition, brother, you don't have to worry about these people not wanting to come to Syria,"

"As long as you can give enough money, you will definitely be able to impress them!"

Chapter 5119

"Acquisition of a company?"

Abren was taken aback by Charlie's words and said:

"Mr. Wade, if you want to acquire a communication company with sufficient foundation,"

"The cost is at least one billion US dollars, the investment will be too high,"

"I am afraid it will be difficult to achieve profitability..."

Charlie shook his head and said: "Profit is not the most important thing,"

"How to solve our urgent needs now? That's the most important thing."

Then, Charlie said again: "Our biggest pain point right now is time urgency,"

"Not to mention a year or a month, even a day or an hour,"

"We must try our best to fight for it, time is far more important than money."

Charlie paused for a moment, and continued: "If you want to develop faster than ordinary people,"

"You must change the thinking mode that only solves the immediate needs."

"If there is no one, or you cannot recruit people,"

"If you still stay In terms of how to solve the problem of recruiting people,"

"It is basically difficult to achieve great things;"

"The prerequisite for doing great things is that the structure must be large enough."

“When those big companies face the same problem,”

“They will not think about how to build a new team, and then to develop a product,”

“The first solution they will think of is to directly buy suitable products on the market.”

Then, Charlie said: “Elon Musk will not waste precious time to build a Twitter,”

“It is the most economical for him to directly buy Twitter.”

“In fact, it is the same for us. If we need to recruit employees one by one,”

“There are too many variables in it. Even if you expect to solve the problem in two years,”

“Once there is a change in personnel, this time will become indefinitely.”

“First of all, the recruitment cycle will definitely be longer than expected.”

“The original plan is to recruit enough manpower in three months.”

“It may actually take at least half a year or even longer;”

“Secondly, the stability of personnel is insufficient.”

“The team recruited in a few months will take at least a few months to cultivate,”

“But once the newcomers who have been trained with painstaking efforts suddenly want to leave,”

“The time of these months may be wasted, Even recruiting and training,”

“Half a year of hard work wasted, and we have no other choice but to start the process all over again.”

“Also, the stability of employees is not enough.”

“The premise of stability is that they have enough.”

“Even if we have the ability to deal with their work, we need to invest in unknown trial and error costs.”

“If we choose the wrong person, everything will have to be started all over again.”

“In this way, even in three years, we may not be able to achieve what we want.”

“Besides, it is always important to do things in one go.”

“If you stumble and stumble at the beginning, the loss of energy and confidence will be beyond imagination.”

“It will be difficult to become bigger and stronger.”

Speaking of this, Charlie looked at Abren and said earnestly:

“Brother, although you are high-spirited now, if you really encounter various difficulties in the early personnel stage,”

“After one or two years, you yourself will not have the strength you have now.”

Abren After pondering for a moment nodded lightly and sighed:

“You are right, the energy and confidence are getting less and less,”

“Until the end of the consumption, the whole person is slumped. In the past, I resigned from my first job. I still don’t think it’s a big deal, after all,”

“I have real talents and learning, and it’s definitely not difficult to find a job,”

“But I didn’t expect that I bumped into the wall again and again,”

“And in the end, all my fighting spirit was wiped out...”

Chapter 5120

Speaking of this, Abren suddenly froze on the spot and murmured:

“That’s how it was, from an arrogant communication expert to a sailor who was willing to go to Mexico to work as a coolie...”

Charlie slightly With a smile, asked,

“Brother, which company did you have the job with the highest salary?”

Abren hurriedly said, “It’s an old American communication company.”

Charlie asked again: “how much is the current market value of that company?”

Abren thought for a while, and said: “A few years ago, the company was very prosperous.”

“When the market value was the highest, it exceeded tens of billions of dollars.”

“However, as the bubble continued to burst and the performance continued to decline.”

“When I was fired, the market value should only be more than one billion.”

Charlie nodded and asked him: “How is the foundation of this company?”

Abren said: “The foundation of software and hardware technology is very good,”

“But the reason why it has gone downhill these years is mainly that the market direction has not been found.”

“Yes, the person in charge misjudged the development direction of the communication market,”

“And then gradually killed his own to-C end business,”

“And then turned to rely on his old capital to provide hardware equipment and technical support for other communication companies.”

Charlie said pleasantly: “That’s just right for us. If its business is doing well and its market value is high,”

“It will be difficult for us to take it down, and after we take it down,”

“The to-C business will also involve us a lot. experience,”

“But now that it specializes in hardware equipment and technical support,”

“Isn’t it just suitable to serve us? After all, we are not pursuing a new communication company in the world,”

“We just hope to establish our own communication network as soon as possible.”

Abren nodded and said: “If it is combined with our situation, it is indeed very suitable.”

“We can use many technologies of this company directly,”

“And almost all the rest of this company are scientific researchers.”

“Although the market is a mess, But research and development capabilities should not be underestimated.”

Charlie said without hesitation: “That’s it! Brother, pack up and come back to the United States with me immediately!”

Abren said in surprise: “Back to the United States? Mr. Wade,”

“It’s been a few days, and nothing has been sorted out...”

Charlie said: “It is more important to buy your old company as soon as possible.”

“After you arrive in the United States, you can go directly to the company’s boss and talk about acquisitions.”

“Didn’t you say that its market value is probably in the early billion dollars?”

“As long as he is willing to sell, I can pay up to two billion dollars.”

“As for how much can be negotiated, it depends on your ability, brother.”

Abren was dumbfounded, and blurted out: “Mr. Wade...do you really want to buy that company?”

“Yes.” Charlie nodded firmly, and said: “Buy it, and let it design the satellite for us.”

“Since it has ready-made technology, it should be able to design the satellite in a few months, right?”

“And then It will take a few months to produce, and it will be launched in the first half of next year.”

Abren said excitedly: “It doesn’t take so long!”

“That company itself is developing communication satellites for many large companies,”

“And both technology and supply chain is important. It is complete.”

“If we can successfully acquire them,”

“We only need to make some customized adjustments on the original basis before they can be put into use.”

“Within three months at the earliest, we can develop our own according to our needs. Communication satellite.”

As he spoke, Abren said again: "If we reserve a launch quota with a commercial launch company now,"

"Our own satellite will be in orbit as soon as this autumn or winter!

Charlie heard this without hesitation and said: "Good! Great!"

"Brother, you are going back to the United States with me this time,"

"You must overcome all difficulties and take this company down!"
