

Chapter 5141

Hearing Charlie's words, these twelve people then dispelled their doubts, while still having some vague excitement.

Originally, the antidote was to be taken once every seven days,

But now it was about to be extended to fifteen days,

To them, this was definitely a good thing to celebrate.

When Charlie saw that the twelve people had already jumped up and down,

He took out the twelve antidotes and handed them to them one by one, saying indifferently,

"In five minutes, you will meet me in the next office one by one in the order in which the pills are given out."

After saying that, he added: "By the way, Lord attaches great importance to this new antidote,"

"So if you have any different feelings from the previous antidote during the trial,"

"You must give me detailed feedback, and if there are any significant discoveries,"

“I will definitely claim credit for you to Lord!”

All of them nodded respectfully, then looked at each other,

Picked up the antidote together and put it into their mouths.

Charlie did not stay where he was but came out of the meeting room directly while closing the door behind him.

In a few dozen seconds, these Cavalry guards would realize that this antidote,

Would completely eliminate the severe poison in their bodies.

At that time, whether they chose to conceal it or choose to inform on,

It would depend on each of their inner inclination towards the Warriors Den.

Just as Charlie returned to the office next door, the twelve people in the conference room,

Immediately noticed that something was wrong.

One of them was the first to open his eyes and exclaimed in a low voice:

“Gentlemen, why do I feel that the severe poison in my body has disappeared? Could it be my illusion?!”

Another person immediately said, “Mine has also disappeared,”

“..... is indeed gone, it should not be an illusion!”

“Me too!” Another person said excitedly, “Gentlemen, could it be that this new antidote has some kind of bug?”

“It must be!” A man with short hair sitting in the middle said with unconcealed excitement,

“No matter what kind of bug he has, now that this antidote has lifted the severe poison from our bodies,”

“Does this mean that we no longer have to be forced to listen to the organization’s control?”

The man sitting next to him hurriedly asked, “You’re not thinking of betraying the organization, are you?”

“If the organization catches us, I’m afraid we’ll be worse than dead!”

The short-haired man who spoke earlier immediately retorted,

“What are you afraid of? As long as we don’t talk nonsense and tell the envoy,”

“That there is nothing unusual about the antidote, he will definitely give the antidote to others as well!”

After a pause, the man added: “Don’t forget, we have more than two hundred Cavalry guards,”

“Hundreds more family members in the family area, plus thousands of dead soldiers below the copper mine!”

“If the severe poison in everyone’s body can be completely lifted,”

“Neither the commissioner nor the guards around him can be a match for so many of us,”

“And even if we add that special envoy to the mix, it can’t be stronger than us!”

“At that time, we can completely control them and then occupy the entire copper mine!”

Immediately, one of them asked, “What is the significance of occupying the entire copper mine for us?”

“Once the organization knows that this place is out of control,”

“They will definitely send people to besiege us!”

“What’s the fear of a siege? The short-haired man gazed like a torch and said in a cold voice:

“Don’t forget that they used to control us by the antidote and the severe poison in our bodies!”

“Do you guys think I didn’t want to resist them for so many years?”

“I am willing to give my life to resist them, only that they simply don’t give us the chance to duel head-on,”

“And as soon as they stop the supply of the antidote,”

“In seven days at most, all of us will definitely die!”
