

Chapter 5401

Hearing the voice of the lord questioning, everyone's expression is awed.

Jermo spoke first and said respectfully: "Back to the Lord, I am investigating in Eastcliff.

There are no clear clues yet, but this subordinate believes that there will be gains in China."

The Lord asked coldly: "You still think that Maria is most likely to escape back to China?"

"Yes!" Jermo replied, "This subordinate thinks that she should be in China."

The Lord asked him, "Why are you so sure?"

Jermo: "This subordinate has analyzed Maria's current situation. For her, choosing a wild place with a large area and few people to hide seems like the best choice,"

"But this subordinate believes that she has already failed once in Northern Europe. So this time, she will definitely do the opposite and go to the place with the most people,"

"And as the saying goes, a hermit hides in the city, Maria is also Chinese, hiding in China is definitely the best choice for her."

Lord was silent for a moment and said: "This witch is more cunning than a fox, and I can't figure her out. Jermo, let's do it according to his intuition."

Jermo clasped his fists respectfully: "I obey!" The Lord said again: "By the way, since you have arrived in China, you should take the time to visit Aurous Hill."

"To Aurous Hill?" Jermo asked, "I don't know what orders the Lord has?"

The Lord said coldly: "Although Changying and Margaret were beheaded by you in Aurous Hill back then,"

"The whereabouts of their son has never been known."

"In addition, the relatives and friends of the husband and wife are looking for the whereabouts of the boy,"

"So I didn't let you chase after him, but for some reason recently,"

"The more I think about this incident, the more uneasy I feel."

"If you can find the whereabouts of that kid, don't report it to me, just kill him!"

Jermo's expression turned cold, and he said with shame on his face: "My lord, after killing Changying and his wife back then,"

"This subordinate immediately went to the school where the child was, wanting to kill the grass, but in the end, it was a step too late."

"When the subordinate arrived, he had already been taken first, and I asked the Lord to punish me..."

The Lord said: "I am not trying to settle accounts after autumn, but this matter really makes me uneasy, you must find him when you go this time!"

Jermo immediately said in a respectful and loud voice: "Don't worry, Lord, This subordinate must find a way to find that kid and take his head with my own hands!"

The Lord said with emotion: "If that kid is still alive, he would be almost thirty years old now!"

Jermo nodded: "If this subordinate remembers correctly, Changying and Margaret were killed by This subordinate at the beginning."

"When they were beheaded, their son should have just turned eight years old."

"Eight years old..." the Lord murmured, "Twenty years have passed, so he is now twenty-eight years old."

Jermo Respectfully: "The Lord is wise!"

The Lord said coldly: "Jermo, if he is still alive, don't let him live past thirty!"

Jermo said loudly without thinking: "Don't worry, Lord, As long as he is still alive, within two years, this subordinate will definitely kill him!"

"If he is already dead, this subordinate will also dig out his bones and present them to the Lord!"

"Okay! Jermo will record a great achievement!"

Afterward, Javren who was in New York said: "Master, This subordinate is investigating clues related to An family in New York, but the venue where the performance was performed that day has been bought by An family,"

"And now it has been completely overturned and rebuilt. At the scene, no valuable clues were found."

"If you want to know how the An family escaped from the danger that day and the whereabouts of those dead, you should probably make a fuss about An family."

The Lord said coldly: "The hidden strength of the An family, It should be much stronger than our understanding, I even suspect that there is a high probability that the An family will also be protected by a master who is proficient in spiritual energy,"

"And after the last failure, we have already alarmed the enemy, you must be careful and cautious about this line."

Javren immediately said: "Your subordinate obeys the orders!"

Seeing that Jermo and Javren have finished their reports, Jarvis said respectfully:

"My lord, This subordinate is currently investigating clues about the disappearance of Cavalry Guards in Oslo City, but there are no clues yet. Please punish me, Lord!"

The Lord said: "The dead men in New York and the disappearance of the Cavalry should be the same person or organization behind the scenes. The other party is powerful and cautious. It is not so easy to investigate clearly."

After that, the Lord said again: "I think, compared to these two defeats, the more important problem is that they seem to know our movements very well. It's a top secret among top secrets."

"I didn't even tell the four of you before the mission was carried out, but the other party was able to find out in advance and accurately snipe, proving that someone from the other party must have penetrated into our interior."

Jarvis slandered in his heart: "Actually, The next time Maria appeared in Northern Europe, instead of dispatching troops from Cyprus, the Lord might as well send any one of the four of us to go there."

"In that case, not only can Maria be captured alive, but also the mysterious force that secretly targets us will be captured. , kill two birds with one stone!"

"I don't know why you left the four of us alone and insisted on sending a group of cavalry guards to carry out such an important task!"

Thinking of this, he immediately said: "My lord, if there is news of Maria next time, the subordinates are willing to fight to the death!"

The Lord did not speak for a while, but waited for a few seconds before directly changing the topic, and said: "I think it is impossible for you to find any clues in Northern Europe. Why don't you trace the source and see where there was a leak in the link."

Jarvis was stunned for a moment, at first he didn't understand why the Lord turned a blind eye to his loyalty, but at this moment, he suddenly realized that he seemed to have made a big mistake!

He thought anxiously in his heart: "The reason why the Lord didn't let the four of us catch Maria at the beginning was probably that he didn't want us to have the opportunity to get in touch with Maria too much,"

"And he was even worried that we would get the ring that he dreamed of getting. I even took the initiative to ask him to send us, isn't this just asking for trouble?"

Fortunately, the lord just changed the topic and didn't talk to him, so he quickly said flatteringly: "The lord is wise since those people can't be found. Then the subordinate will go to investigate and find what is wrong with many of these links!"

The Lord said coldly: "You will leave for Italy tomorrow, and go to the Governor's Mansion of the Right Army to meet the Governor, In the arrest of Maria, I directly conveyed the secret order to him,"

"And he was responsible for carrying it out. I don't doubt his sincerity, but I doubt whether this subordinate will leak the news to the outside world. If you go this time, We must find out the problem."

Jarvis said without hesitation: "My lord, don't worry, I will do my best!"

At this time, Jeremiah also said: "My lord, I will land in Yakutsia in three hours. During this period of time, this subordinate will start from Yakutsk to find out the situation in the Far East and see if Maria is hiding here."

The Lord hummed, and said: "You and Jermo's main task is to find Maria to get clues, and we must communicate with each other frequently, and if there is any trouble, you must tell me as soon as possible."
