

Chapter 5420

The Lord asked: "Then what do you think has happened?"

Jermo murmured: "Back to the Lord, the subordinates are more inclined."

"The other party has already bought all the members of the station."

"Maybe they really have a way to detoxify these people."

"They detoxified these people. These people have no worries about the future,"

"And coupled with the fact that they have been controlled by the Warriors Den for so many years,"

"They will inevitably feel rebellious. In this way, they will naturally fully cooperate with these people's actions."

"As usual; these people told them to evacuate early, and they evacuated early..."

The Lord said coldly: "Looking at the hundreds of years of history of the Warriors Den,"

"No one has ever been able to decipher this kind of poison."

"To detoxify this kind of poison, simply mastering spiritual energy is not enough."

"If you want to use spiritual energy to detoxify, you must first have a strong understanding of spiritual energy."

"Precise control, this point, even the four of you can't do it,"

"Not to mention, it is extremely difficult to obtain spiritual energy,"

"It is still reasonable to detoxify one or two people,"

"But to detoxify thousands of people, who can offer such a huge amount of spiritual energy?"

Jermo sighed: "In this way, this matter doesn't make any sense..."

The Lord also lacked self-confidence at this time and said to himself:

"If it is true as Jermo guessed, Our enemy must be our comrades,"

"And his strength is probably not inferior to mine,"

"But there is another unexplainable point since he is so strong,"

"Why bother to use close-in defense guns to deal with Jarvis?"

"This..." Uncle Jermo couldn't think of the reason, he murmured:

"Perhaps the opponent thinks that his own strength is not enough to win,

"But instead, the chance of winning with close-range artillery is better."

Lord said: "At present, the enemy has killed one of my earls and destroyed one of my dead soldiers' garrisons,"

"But I don't know anything about the enemy, so I have ordered the five armies to stop some foreign activities."

"Currently, the only ones who are still performing missions are You three,"

"From now on, and for a period of time in the future,"

"Be cautious, put safety first, and don't make things too difficult at any time."

Jermo agreed: "If Jarvis was shot by a near-anti-aircraft gun, then the three of us must not be opponents of the near-anti-aircraft gun."

"Besides, Jarvis was agile and fast, and had a strong ability to hide,"

"But even so, he still failed to escape the opponent's shooting."

"It can be seen that the opponent has more powerful means to give an early warning,"

"And our concealed means are likely to be useless in front of them,"

"Javren and Jeremiah, please be more careful..."

Javren immediately said: "Since the opponent is good at using close defense Cannons,"

"It proves that they must have a good understanding of modern weapons and modern technology."

"Those cutting-edge military technologies are still very powerful."

"It is said that spy satellites in outer space can take pictures of matchboxes on the ground."

"It is impossible to have such a powerful sense if you cultivate from death..."

After all, he said again: "My lord, since the opponent is good at using close-in defense guns,"

"Then these subordinates think that they are probably not warriors,"

"Let alone monks who master aura, and most likely well-trained soldiers!

"Soldier?" The Lord murmured: "If it is really a soldier, whose soldier is it?"

Jeremiah said: "Whose soldier, the subordinates have no idea,"

"But the subordinates feel that it can be done from start with the clues of the anti-aircraft gun."

The Lord hummed and said: "Continue."

Jeremiah continued: "I just checked the information about this weapon."

"Although this weapon is very lethal, But in fact, it is no longer an advanced weapon and equipment."

"It can only be regarded as the first generation of close-in defense guns,"

"And it has a history of decades. The parameters of the current close-in defense guns are almost several times that of it."

"Therefore, through this point, it is basically certain that the other party does not belong to a certain country with a high probability,"

"And is more likely to be a certain group or an unofficial organization, just like Warriors Den."

The Lord said lightly: "It makes sense if you have any other opinions, just say it."

Jeremiah said again: "This kind of weaponry and equipment decades ago was completely worthless in the eyes of mainstream countries,"

"And it is very likely It has already been disassembled,

But for those private armed forces and some anti-government armed forces, this thing should still be very valuable; "

"So, I speculate that this kind of thing will only be sold on the black market with a high probability."

"Now although the subordinates don't know who killed Jarvis, I think there is a high probability that the anti-aircraft guns they used were bought from the black market,"

"So the subordinates thought that as long as we started from the black market clues,"

"Tracing all the transaction clues of the same type of anti-aircraft artillery in recent years,"

"We should be able to find some clues!"

The Lord agreed and said: "Jeremiah's speculation is very reasonable. If we start from the black market of arms, we may really be able to find the other party's clues."

Speaking of this, he continued: "However, the current situation is grim,"

"And there are no masters who are proficient in aura under the Commander's Mansion of the Five Armies, so we can't let them investigate this matter for the time being."

After that, he pondered for a moment, and said, "Javren, you don't need to investigate the matter in New York anymore."

"You can set off immediately and start from the arms black market to see if you can find any clues about the transaction of near-anti-aircraft guns!"

Javren couldn't help feeling a little nervous, he opened his mouth and said,

"My lord...the other party has a scheming style of behavior."

"Maybe they have already expected that we will use the close-in defense gun as an entry point to investigate..."

The Lord said coldly: "Then you will learn from Jarvis. Lessons learned, proceed with caution,"

"No matter what, this matter must be investigated to the bottom, otherwise Warriors Den's life will hang by a thread!"
