

Chapter 5504

Charlie even plans to develop a healthcare real estate project in Aurous Hill,

So that those top rich people will spend a certain amount of time every year in Aurous Hill to settle here for health care.

But Warnia didn't know that Charlie had planned to suspend the Rejuvenation Pill auction before.

However, for Charlie, the suspension of the Rejuvenation Pill auction was only a temporary low-key due to the potential threat of Warriors Den.

Afterward, the Rejuvenation Auction can also be held in a low-key manner through an internal invitation mechanism,

And once the hidden danger of Warriors Den is eradicated,

Charlie will definitely continue to make the Rejuvenation Auction bigger and stronger.

Therefore, in the future, Aurous Hill will definitely be able to achieve rapid development through Rejuvenation Pill.

An family enters the market at this time and increased investment in Aurous Hill,

And they will definitely get rich with returns in the future.

At this moment, Warnia couldn't help but admire the An family's vision and their foresight.

Eight billion U.S. dollars seems like a lot,

And it seems that they have really given her a great favor,

But the real beneficiary behind this incident, or the biggest beneficiary, is actually An family itself.

At this time, Marshal said to Warnia again, "Miss Song, if you are interested, we should further strengthen our cooperation."

Warnia asked curiously, "What does Mr. An mean by strengthening cooperation?"

Marshal said, "The two of us can jointly invest to establish a real estate company specializing in healthcare projects,"

"Acquire more land in the suburbs of Aurous Hill, and gradually build some high-end health care projects."

"Once the reputation of Rejuvenation spreads far and wide, the popularity of Aurous Hill will also rise with the tide."

"At that time, even if many people know that they are not destined for Rejuvenation Pill,"

"They will definitely equate Aurous Hill with health preservation."

"Pulling it will definitely make the ordinary rich and middle-class flock to Aurous Hill."

"Moreover, I have also heard about Aurous Hill's JX Pharmaceutical."

"Although this company does not have many types of samples,"

"All of them are explosive products with excellent medicinal effects."

"Aurous Hill has this pharmaceutical company, and it will be used in medical and health care in the future."

"The popularity in the field will definitely help a lot."

Warnia didn't expect Marshal to pay attention to JX Pharmaceutical,

And she couldn't help being a little surprised.

She asked Marshal, "Mr. An also knows about JX Pharmaceutical?"

"At the beginning, they gave the FDA a batch of drugs for clinical trials."

"It is said that because of their excellent efficacy,"

"They have been used as strategic reserves by the White House."

As he spoke, Marshal looked at Warnia, and said meaningfully,

"Miss Song telling you the truth. You said, I personally even speculate that this pharmaceutical company must have something to do with benefactor,"

"Maybe its formula belongs to the benefactor."

Warnia was even more surprised at this moment, she didn't want to reveal more about Charlie,

So she opened her mouth and said, "The situation of JX Pharmaceutical really is not very clear."

Although Warnia tried her best to control her facial expressions and try not to be seen by Marshal when she said this,

Marshal still saw some clues on her face. He accurately captured Warnia's expression in the process,

The subtle unnaturalness, so he concluded in his heart that JX Pharmaceutical must have something to do with the benefactor.

After getting the answer he wanted, Marshal did not continue to expand on the issue of JX Pharmaceutical, but he said with a smile,

“Miss Song, with the popularity of An’s family, if An’s family came forward to do this, most of this matter will be completed.”

“If the Song Group joins hands again, it will definitely be able to take the lead in Aurous Hill’s health care field.”

“Not only will the future profits be considerable, but other benefits are also going to be numerous.”

Speaking, Marshal said again, “Healthcare projects have already been very developed in Europe and the United States,”

“But China has just started not long ago. Although there is a large market space, it has not been taken seriously at present.”

“Many companies that make quick money, they don’t really like to operate such long-term projects with high investment, heavy responsibility, and long cycle.”

“These are not attractive to companies that are used to making quick money.”

“If we can manage this business well, making money is one aspect.”

“In addition, it is easy to enhance social recognition, and it is also of great help to the social impact of the enterprise, which can be said to serve multiple purposes.”

Warnia agrees with Marshal’s judgment very much.

As the auctioneer of the Rejuvenation Pill Auction,

She is very aware of how much the top rich people desire for the Rejuvenation Pill.

As long as the Rejuvenation Pill Auction continues,

Marshal's forecast and verdict will be gradually confirmed.

Once Aurous Hill really takes the top spot in the global healthcare industry worldwide, the commercial interests behind it will be huge.

This will inevitably form a huge outlet, and the capital that can stand on this outlet, will get huge benefits.

At this moment, Marshal said again, "By the way, An family's capital reserve is very abundant."

"We can reserve as much land resources as possible from the very beginning."

"In the future, when Aurous Hill can really become a first-tier city by relying on health care,"

"The land value of these reserves can be doubled."

"As for the cooperation between us, as long as Ms. Song is willing to join hands with An family,"

"An family can take out 10 shares of this project to the Song Group. A gift from An family."

"If Ms. Song still wants to take a larger proportion,"

"The part exceeding 10 can be subscribed normally, and the An family can sell up to 49 shares to the Song Group!"
