

Super Rich Dad Chapter 601-603

Chapter 601

Dean Jiao turned his head to look at Dr. Ren behind him, smiled and shook his head before taking Jiang Han away.

After Nurse Xiaoli checked in for Jiang Hao, Dean Jiao looked at the papers in his hand and nodded!

‘Now you’re one of us in the hospital, and Dr. Ren’s position is a joke. I’ll make separate arrangements for you.’

Jiang Hao naturally knew that it was just a joke, so naturally he didn’t take it to heart.

He had seen too many people like Dr. Ren who tended to be influential.

‘It’s alright, if you can. I’d like to take a break today.’

Dean Jiao nodded at his words and said, ‘That’s of course, if there are any problems feel free to find me.’

Jiang Hao smiled and nodded after hearing this. Then he left.

Just as he walked out of the dean’s office, he bumped into Dr Xu who was waiting outside the door.

He looked at Jiang Hao with a gloomy expression and said, ‘Flying needles have been lost for so many years, how do you know how to do that?’

Jiang Hao snorted, ‘Do I need to tell you how?’

After saying this, Jiang Hao turned around and left.

Dr. Ren suddenly appeared behind Dr. Xu and said, ‘This kid, he’s a bit of a prick, isn’t he?’

Dr Xu turned his head and looked at him, ‘It’s alright, there’s still a long time ahead, I’ll have plenty of chances to take care of him slowly!’

After saying that, he walked into the dean’s office, ‘Dean, this is the list of doctors who need to attend training this quarter, please take a look at it.’

Dean Jiao picked up the list and nodded: ‘Well, this quarter is well organized. You’ve gone to a lot of trouble!’

Dr Xu smiled and shook his head, ‘Also, regarding this new colleague, what are you planning to arrange?’

‘Didn’t Xiao Chen from the second department leave, so let him be the attending physician of the second department.’

‘What?! That kid has just arrived and he’s the attending physician? Wouldn’t that be a bit too much!’

Hearing this, Dean Jiao put away the pen in his hand and looked at Doctor Xu.

‘Are you questioning my decision?’

Dean Jiao looked at Dr. Xu’s defeated expression and shook his head, ‘We’ve all seen what he’s capable of just now, he’ll be able to handle a mere second department.’

After saying this, Dean Jiao laughed lightly and said, ‘What’s more, the second department is only a miscellaneous department, so if there’s something that can’t be handled, it will be transferred to a specialist.’

Doctor Xu looked at the dean and fell slightly silent. He could only express his acquiescence to Jiang Hao’s being the attending doctor right after he arrived.

In the past, the reason he could be proud of himself in front of the dean was because he couldn’t find anyone better than himself in the whole hospital!

Now that Jiang Hao had arrived, he had directly threatened his position! This was something that must not be tolerated!

He could already imagine that as long as Jiang Hao stayed here for one more day, he would suffer one more day of suppression from the director!

Such is the art of leadership, balance!

After the two looked at each other, Dean Jiao asked softly, ‘I wasn’t paying attention downstairs just now, did that patient’s family come over?’

Doctor Xu nodded after hearing this, ‘Already came over. He has just paid the medical fee.’

‘That’s good, about that patient. It’s better to leave the follow-up treatment to Xiao Shen.’

Dr. Xu was silent for a while before leaving without even a greeting!

Dean Jiao looked at his back and let out a light laugh: ‘In the past, spoiling you was no choice, try it in the future?’

In this way, Jiang Hao managed to blend into the Chinese Hospital. And started his career as a doctor!

The next morning, Jiang Hao started to work in the emergency room of the second department.

There was basically nothing to do in the emergency room on the first day of work, and most of the people who came in occasionally were just suffering from colds and flu.

Jiang Hao was also happy to be free, doing things when he had something to do. If nothing happened, he would rest.

But all of a sudden, the hospital didn’t know what was going on, and many people were rushing to the operating theatre on the first floor.

It was hard to see Dr. Xu, and Jiang Hao couldn't help but ask, 'What's wrong with you guys?'

Dr. Xu glanced at Jiang Hao and laughed lightly, 'What's it to do with you, keep a good watch on your emergency room!'

As soon as he finished speaking, Dr. Xu went upstairs, ignoring Jiang Hao!

The nurse Xiao Li who was following behind him saw this and couldn't help but come up and nod at Jiang Hao.

'Just now Miss Lin brought her sister over, and it seems that her sister has a strange illness. So everyone went up to see it.'

Jiang Hao smiled slightly: 'Missy the Lin family? Who is it, is it very powerful?'

Xiao Li looked at Jiang Hao's dumbfounded expression. With a snort she laughed out loud.

'Of course it's powerful, otherwise why would so many people want to befriend her!'

After saying this Xiao Li shook her head 'Forget it. You're not from here, you probably wouldn't understand if I told you.'

She then hurriedly followed suit. She wasn't immune either!

Jiang Hao looked at them for a moment and then turned his head to look and saw that Dr. Ren had also rushed over behind him.

He hurriedly caught up and spoke, 'Old Ren ah, hey hey hey, help me look at the emergency room, I'll go upstairs to observe and observe.'

'Ah?! Forget it, I'm not going to see the emergency room!'

The incident in the emergency room that day had caused Dr. Ren to become psychologically scarred, so now when he heard that he was going to the emergency room, he naturally pushed back a lot!

Jiang Hao looked at him and did not rush, coughing lightly before saying, 'Ahem, I'm not feeling well here either!'

After saying this, he looked at Dr. Ren and said, 'Why don't I talk to the dean and go sit at your place?'

Poor old Ren was really in tears now, looking at Jiang Hao as if he had seen his nemesis!

'Alright, alright, how long do I have to watch you for?'

Jiang Hao looked upstairs: 'With so many people going over, it shouldn't take much time to solve it, it won't take long.'

Old Ren nodded his head and had to hold his nose and admit it, then looked at Jiang Hao's back and called out, 'Go and come back quickly!'

Jiang Hao went upstairs in his white coat with his hands in his pockets.

However, he saw the dean and a group of other people standing outside a ward, looking in from time to time and wondering what they were talking about.

Jiang Hao easily walked over and then looked at the dean and the others and said with a light smile, 'Hello everyone, why didn't anyone inform me when there was so much activity here!'

Jiang Hao was now a treasure in Dean Jiao's hands, who dared not spoil and coax him!

When they heard this, everyone laughed and waved their hands, 'Why not, you're here now!'

Dean Jiao looked at Jiang Hao and smiled, and his original somewhat sad expression eased off.

'It's good that you're here, let's discuss the patient's situation together!'

After saying this, Dean Jiao took out the information in his hand and continued, 'The patient's body has some strange cold, he doesn't dare to confirm the exact location, and he can't find a specific cause.'

After saying this, he passed down the information on the patient list in his hand.

When it was Jiang Hao's turn, he looked at the symptoms on the list and frowned slightly.

How was this so like the symptoms of the Yin Vein?!

After this thought surfaced in his mind, Jiang Hao looked at the dean and asked, 'Has the family come yet?'

Chapter 602

After hearing this, Dean Jiao and the others unconsciously glanced inside the ward, finally it was an old man next to him who stood out and looked at Jiang Hao and said, 'I advise you to try not to disturb the patient's family, she's a bit troublesome!'

Jiang Hao couldn't help but cry and laugh when he heard this, if that patient really had a Yin pulse. If that patient had a Yin pulse, she would die if she was not treated properly!

If you don't even ask about the condition, then what else is there to see!

Jiang Hao just shook his head and said, 'I'm not afraid, Chinese medicine is about seeing, hearing, asking and cutting. This disease can't be seen!'

As soon as the words left his mouth, Dr. Xu's voice rang out behind him, 'Who said that. Why don't I believe that?'

The sorrowful tone caused many people present to be startled, and Dean Jiao looked at Dr. Xu and frowned!

After saying this, Doctor Xu snatched the case sheet in Jiang Hao's hand, then opened it up and read it.

'Born with a cold body, pale face, low blood sugar, and with symptoms of anaemia?'

Jiang Hao stood at the side and smiled, 'Everything else is fine, but this natural coldness is a bit of a problem.'

After saying this, he looked at Dr. Xu and shook his head, 'Dr. Xu, I still have to remind you this time. Think more about everything, and don't think that experience will get you through for life.'

When many doctors heard this, they looked at Jiang Hao in surprise and whispered!

'Who is this young man? A newcomer and he's so crazy? He dares to go against Dr Xu!'

'I don't know, but he's really crazy, that tone just now didn't sound like a reminder, it sounded like a reminder!'

'What does a mere young man know? What does a young man know? Just because he's learned a few tricks, he wants to dance with Dr Xu!'

'He doesn't know what he's doing. Forget it, don't pay attention to such a clown!'

Dean Jiao couldn't bear to listen to these words, in front of others!

And Jiang Hao was the one he had left behind, so he was being talked to like that. He felt that his face was getting a bit embarrassed!

'Shut up! Cough, Old Xu, this time this patient's identity is a bit troublesome, it's from the Lin family.'

What he meant by this was that he also hoped that this time Dr Xu would try to take it more seriously and not be like last time.

When Jiang Hao heard this, he pulled out his ears with his little finger and said, 'Why don't you let me go take a look?'

He had purely good intentions, and he was also thinking of the little girl.

He had just had a look through the glass window. The girl was thirteen or fourteen years old, if she really had a Yin pulse.

If she didn't get the right treatment before she was sixteen. Then it would be up to God's will!

And Jiang Hao did feel a little reluctant to trust Dr Xu, worried that he might make the same mistake as before when the time came!

Thinking of this, Jiang Hao took a deep look at Dr. Xu!

But he didn't know that it was such a look from him that deeply stung Dr. Xu!

So he turned his head to look at Jiang Hao and angrily rebuked, 'What are you! Don't think that just because you know how to fly needles and walk away from Qi that you are great! Let me tell you. You still have a long way to go on the road of medicine!'

After saying this, he coughed lightly and looked at Dean Jiao and said, 'I need to check the pulse of this patient before we can talk about it, let's go in!'

Dean Jiao looked at him, then nodded and pushed the door in.

'Ahem. Hello Miss Lin, let me introduce you, this is Dr. Xu, the first class doctor of our hospital.'

Sitting in front of the hospital bed, a woman with delicate makeup and looking about twenty years old frowned.

'Is this your hospital's Dr. Xu? Well, I've heard of you over here in North Province, you're quite famous.'

Hearing this, Doctor Xu glanced at Jiang Hao with a smug look on his face. Only then did he say, 'No, no, it's just a false name!'

The woman shook her head and said, 'Under the reputation. There is no such thing as an empty scholar.'

After saying this, she got up and blandly extended her hand, 'I am Lin Yan of the Lin family.'

Then she pointed to the little girl sleeping on the hospital bed and said, 'This is my sister Lin Beibei.'

Doctor Xu shook her hand. He then frowned and said, 'If I'm right, you have more or less a bit of your sister's problems, right?'

Lin Yan didn't hide anything from this. She directly nodded and said, 'That's right, but it's not as serious as my sister's.'

After saying this, Lin Yan looked at Lin Beibei with melancholy eyes and said, 'My sister is really suffering too much.'

Dean Jiao coughed lightly, 'Ahem, let's almost start, Dr. Xu.'

Dr Xu nodded and sat down next to Lin Bei Bei's bed and placed his hand on her wrist and began to take her pulse.

Just as he began to take her pulse, Dr. Xu's face scrunched up: 'How could this happen?'

Lin Yan looked at Dr. Xu in disbelief and asked, 'What, is there something wrong?'

'This pulse, why is it so weak, it's simply...'

He stopped here, then turned his head to look at Dean Jiao.

Only then did he speak to Lin Yan, ‘Ahem, please let us confer!’

After saying this, Dr. Xu got up and dragged the dean out, and the others followed in a hurry!

Lin Yan was dumbfounded as she watched the others leave, just now she was so confident that there was no problem, but in the blink of an eye she was running away!

‘What a bunch of trash! You’re all trash! Why can’t you do just this little thing!’

Jiang Hao watched them leave with a slight hesitation, but stayed behind to carefully look at Lin Bebe in large numbers.

Lin Yan looked at Jiang Hao and faintly stared: ‘Why aren’t you going out?’

Jiang Hao heard this and shrugged his shoulders and laughed: ‘There are too many people outside, I’m afraid I can’t stand.’

The atmosphere was originally quite serious, and his words instantly made Lin Yan couldn’t help but feel a little uncomfortable.

Along with this, the resentment in her heart was also alleviated: ‘Why is it like this...’

Jiang Hao smiled and shook his head, ‘There are some things that human beings can’t influence, but some can, you don’t need to feel so sorry for yourself.’

Lin Yan looked at Lin Beibei, who was lying in a coma on the hospital bed, and said, ‘So, do you think that Beibei can be saved?’

Jiang Hao looked at Lin Beibei, and he could feel it without even taking her pulse.

There was an extremely strong cold Qi in Lin Beibei’s body, and it was already not easy to survive until now.

It wouldn’t be easy to save her, either.

But to say it wasn’t saved, that wasn’t necessarily true!

It seemed that there was something recorded in the Shangdian about the Yin Vein, but I just didn’t read it carefully myself.

‘There should be a way to eradicate it, but I’m not really sure, because this kind of disease is just too rare.’

Lin Yan turned her head to look at Jiang Hao in surprise at these words, ‘What you just said means, a root cure?’

Jiang Hao nodded slightly: ‘In fact, this kind of disease could have been cured at the root long ago if it was well-tuned at the very beginning.’

Jiang Hao hadn't even thought about curing the symptoms but not the root cause, because a cure for the symptoms but not the root cause wouldn't have been recorded by Shangdian at all!

Even Jiang Hao would only think in the direction of curing the root cause!

But he didn't know how much of a shock this had given Lin Yan!

Lin Beibei's illness was not a matter of three or two days, and it was not the first time the Lin family had brought her to seek medical help.

No one had ever said it could be cured, only that medicine could be prescribed to suppress it!

But this time her condition was getting worse and worse, even suppressing it was not enough!

This was why she brought Bebe to the Chinese hospital to try it out, as there was no longer any way out of Western medicine.

But Lin Yan didn't expect that a young doctor like Jiang Hao would tell her that she could cure the disease when no one else was sure.

Thinking of this she couldn't help but shake her head and said, 'Forget it, blame me, I thought a miracle could really happen!'

Chapter 603

Jiang Hao was deaf to Lin Yan's words, he was subconsciously looking up Shangdian's treatment for the Yin Vein!

Outside the ward, President Jiao looked at Dr. Xu and asked, 'What's wrong, why did you suddenly come out?'

Dr. Xu rubbed his hands together repeatedly, 'No, that little girl is simply a Yin Vein. The Yin Vein is an extinct vein!'

Hearing this, the people around couldn't help but fall silent!

Dean Jiao looked towards the ward and let out a long sigh, 'Is it really the Yin Vein? Alas, it's destiny.'

The few doctors next to him were also silent when they heard about the Yin Vein. There was nothing they could do in the face of such a terminal vein!

Besides, the other party was a member of the Lin family, so if anything slightly happened. They couldn't afford to take the blame!

Dean Jiao looked at Doctor Xu after a long time of silence and asked, 'Is there a prescription that can suppress it?'

Hearing this, Dr Xu very rarely lit a cigarette and then took a long drag.

‘I’ve heard my master say something about the Yin Vein before, in fact, it doesn’t necessarily mean that there is no solution!’

A few doctors and Dean Jiao heard this and looked at Dr. Xu and said, ‘What solution?’

Dr. Xu shook his head and said, ‘We need to use the Life Renewing Needle with the Over Mountain Fire to cure it, but both of them have been lost!’

Hearing these words, a wave of helplessness washed over the faces of the crowd.

Especially Dean Jiao, who looked at Doctor Xu and hastily asked, ‘Think about it, see if there’s anything that can cure the symptoms, just don’t let anyone have problems with us!’

After all, the Lin family had a certain amount of power in the Northern Province. If he didn’t have no choice, he really didn’t want to cross paths with the Lin family!

Doctor Xu shook his head and said, ‘There’s no way out, this little girl is already very sick, now it’s hard to cure the symptoms, not to mention the root cause!’

Just then, someone suddenly noticed that they seemed to be missing someone when they came out!

‘Hey? That’s not right, where’s Dr. Shen?’

Dean Jiao was also stunned at his words, yes! Where is Xiao Shen!

Hearing this he hurriedly opened the door and walked in, seeing that Jiang Hao had been staring at Lin Beibei as if he was thinking about something.

So he couldn’t help but ask in a small voice, ‘Xiao Shen? Xiao Shen? How is it?’

Jiang Hao, who had just come back to his senses, heard a voice in his ear and turned his head to be taken aback!

‘Ouch! I go. Dean, why are you leaning so close, you scared me to death!’

Lin Yan’s entire body looked lost in thought, not even caring about what was going on over here.

After looking at Lin Yan, Dean Jiao spoke with some embarrassment, ‘Let’s go, let’s talk outside, let’s talk outside.’

After pulling Jiang Hao out of the ward, everyone unconsciously looked towards him.

Especially Dr Xu, because he had seen Jiang Hao use his flying needle technique!

He just couldn’t believe it. Could Jiang Hao still have three more stunts?!

‘Dean, why did you call him here. Is it hard to say that he can still be saved!’

After saying this, Doctor Xu rolled his eyes at Jiang Hao!

‘Look at his age, can he know how to pass a mountain fire and renew a life needle?!’

The crowd originally didn’t have much hope in their eyes when they looked at Jiang Hao, and at this moment, they heard Doctor Xu’s words. Now they didn’t even bother to look at him!

President Jiao, however, did not listen to Dr. Xu’s words at all and continued to look at Jiang Hao, ‘Well, do you have any ideas?’

Jiang Hao frowned and glanced at Dr. Xu, then mused, ‘It’s not enough just to know how to renew life needles and pass the mountain fire. We need a little medicinal herbs to assist us!’

After saying this, Jiang Hao ignored the strange glances cast around him.

He continued, ‘The fire is too strong, if there are no medicinal herbs to assist her, the little girl won’t be able to withstand it!’

Doctor Xu’s heart was shocked after hearing this, could this kid really know these two tricks?

After Dean Jiao took a long breath, his face finally eased up!

‘It doesn’t matter, as long as you have a solution, I’ll get you any herbs!’

As the director of the No. 1 Chinese Medicine Hospital in the city centre. He still had this bit of courage!

Jiang Hao nodded slightly and then said in a deep voice: ‘Two pieces of Thirty Years’ Longman, one wormwood. Astragalus is two coins, Angelica is one coin, etc.’

As Jiang Hao spoke out the prescription. Dean Jiao hurriedly said, ‘The prescription has a seventy year old human body, don’t be afraid to use the medicine!’

Jiang Hao shook his head, ‘No need. She’s just a little girl after all, although her body is heavy with evil cold, it’s not suitable for such strong medicine!’

Doctor Xu looked at Jiang Hao with dumbfounded eyes, ‘You, you really have a solution?!’

Jiang Hao turned his head to look at Doctor Xu and said in a cold voice, ‘Just because you don’t have a solution, does that mean I don’t have a solution?’

After saying this he snorted and then said to Dean Jiao, ‘Decoct the medicine and send it over, I’ll feed it to her and then I can start.’

Dean Jiao nodded hastily, then spoke with some embarrassment, 'Ahem, that, can we be allowed to observe for a moment?'

The doctors around him obviously had the same idea and said sincerely with a change of attitude from earlier, 'Xiao Shen won't be hiding something from us old men, will he?'

'Xiao Shen, let us observe! It's not good for young people to be too petty!'

'Right, or are you also unsure and just trying?'

Hearing this, Doctor Xu couldn't help but speak up in a hurry, 'The other party is a descendant of our Northern Province Lin family, if anything happens, be careful you won't be able to walk out of this gate!'

Jiang Hao snorted, shook his head and said helplessly, 'Alright, I'll show you my methods!'

After saying this he turned around and pushed open the door to the room and walked in, then looked deeply at Lin Yan.

'I have a way to cure your sister, but you have to take a moment to recuse yourself.'

Lin Yan's face was marked with tears as she woodenly turned her head to look at Jiang Hao.

When she understood what Jiang Hao had said, a glow gradually emerged in her eyes.

'You just said that you can save my sister?'

Jiang Hao nodded: 'Well, you'll have to recuse yourself for a while and let you know when I'm well.'

Lin Yan looked at Jiang Hao incredulously: 'Are you sure you're not joking with me?'

Jiang Hao couldn't help but roll his eyes, 'Heal or not! Why are you still being stubborn with me, you woman!'

Seeing his annoyed look, Lin Yan hurriedly got up: 'No, no, no, it's not like that, I'm just a bit, not quite sure I can believe it.'

'I'll be back here! You said you could cure it, right?'

Just after asking these words, Dean Jiao walked in with the crowd: 'Don't worry Miss Lin, you'll be fine if you wait for a while.'

After saying this Dean Jiao gave a wink, and a nurse took the initiative to come forward.

'Miss Lin, come with me.' He then led Lin Yan away.

After Lin Yan had left, Jiang Hao looked at Lin Bei Bei lying on the hospital bed in silence.

Doctor Xu stood at the side and looked at Jiang Hao and sneered, 'Now we're the only ones here, I'd like to see how you can save her!'

Dean Jiao could not stand it anymore and glared at Dr. Xu and said directly, 'Shut up!'

As soon as he finished speaking, Dean Jiao turned to Jiang Hao and said, 'Xiao Shen, are we starting now?'

Jiang Hao nodded upon hearing this, then took out his needle bag and spread it out on the bedside table.
