

Super Rich Dad Chapter 621-623

Chapter 621

After hearing this, Old Master Xue glanced at his old grandmother with some unease, then frowned and spoke, 'Can't we do it without a craniotomy?'

Hearing this, that doctor hesitated slightly and nodded, 'It's not impossible if we don't do it, I'll give her an injection to stabilise her first. What do you think?'

Old Master Xue nodded, indicating that it was fine for him to make himself comfortable.

And at this moment, Dean Jiao, who was standing beside Jiang Hao, whispered disdainfully, 'An injection? That's not right, one moment we're going to have open heart surgery and the next we're going to have an injection.'

Jiang Hao listened and spoke with a flat expression and asked, 'What. Is there a problem?'

Dean Jiao rolled his eyes, then leaned over and whispered in Jiang Hao's ear, 'You don't understand this, do you? If there's a blood clot inside your brain, it's useless to give you any injection!'

After saying this Dean Jiao paused slightly and then continued to speak, 'And I don't know why, I always feel that this person is a bit strange.'

Jiang Hao actually had the same thought in his mind as Dean Jiao, and just as he was about to say something.

But out of the corner of his eye, Jiang Hao noticed something alarming, that doctor seemed to be mixing some strange things into the injection solution!

After noticing this Jiang Hao hurriedly spoke, 'Wait, stop!'

Hearing this, the young doctor's hand, which was about to give the unconscious Xue Yu Ning an injection, couldn't help but speed up!

As long as the needle was stuck, as long as the needle was stuck it would be six million!

Jiang Hao, who had noticed that something was wrong, waited to react before the young doctor's hand was already fiercely holding the needle and stabbing down!

Jiang Hao was too late to rush over. He picked up the cup on the table and threw it at him, smashing it over his head!

After watching him fall, Jiang Hao rushed up and grabbed him by the neck and said angrily, 'Are you looking for f*cking death!'

And although Dean Jiao was also shocked by Jiang Hao's action, he quickly reacted and then went after him to grab the syringe.

‘Shen, this tube of medicine isn’t right! There are too many impurities in it, it’s not a medical grade injection at all!’

After hearing this, Jiang Hao turned his head to look at the young doctor, ‘What do you want, say!’

The old grandmother couldn’t help but clench her hand a few times as she watched Jiang Hao’s movements.

After a slight hesitation. She hurriedly stood up, ‘Stop it, you two! This is the doctor I invited back, what do you mean by that!’

After saying this, the old grandmother frowned angrily and shouted, ‘Someone come, my Xue family is not a place where you can just spill your guts!’

The security guards who were patrolling outside the door rushed in as soon as they heard the old grandmother’s voice!

A group of people looked intently at Jiang Hao and Dean Jiao and were about to make a move.

Xue Chongli suddenly stepped forward and spoke, ‘Stop it! Old Jiao, what the hell is going on here!’

President Jiao didn’t care much at this point, so he took the syringe in his hand and shouted, ‘This son of a b*tch is trying to harm people. If you don’t believe me, just take this tube of medicine to the lab and you’ll know!’

Jiang Hao grabbed the man’s neck with one hand and said angrily, ‘You son of a b*tch. Who ordered you to do this! Who is it!’

As he said this Jiang Hao was shocked and angry in his heart, he was worried that this was Shen Tianyang’s revenge for himself!

Ever since he had left Thirty Mile Bay, every day while searching for Xue Yu Ning.

In his heart, he was also worried that those lapdogs of Shen Tianyang would be the first to find Xue Yuning. And then use her to take revenge on himself!

The young doctor, blood pouring from his head, looked at Jiang Hao and laughed rampantly twice!

‘That’s right, I admit that I wanted to harm her, but there’s nothing you can do to me!’

After saying this. He struggled a bit looking at Jiang Hao and laughed: ‘Medical malpractice, at most I’ll be sentenced to three years, what can you do to me, kill me if you can!’

Hearing this, Jiang Hao looked at him sorrowfully, ‘Don’t worry, I won’t kill you, I’ll torture you a little.’

Saying that, his hand slammed hard and struck him with a punch!

The guy who had just been very tough. He was so hardened by this punch that he was in tears!

In that instant, apart from the intense pain. He even smelt the smell of death!

Jiang Hao couldn't help but sneer at the wretched look on his face, 'This is just the beginning, we'll have plenty of time to play on!'

It was the first time Dean Jiao had seen such a Jiang Hao. Hardly daring to speak by his actions!

Xue Chongli was the same, he had never expected to invite two doctors. Both doctors were so ruthless!

Only Old Master Xue looked at the man with a slight frown, not the least bit intimidated by Jiang Hao's actions.

'Young man, you'd better be honest, there are quite a few people who have come to my Xue family and not gotten out, do you want to be the second one?'

Hearing these words, the young doctor looked at Old Grandmother Xue in horror, with some suspicion in his eyes!

And the old grandmother was a little anxious, looking at the man for a time hard at not knowing what to do!

When the young doctor sensed that the old grandmother couldn't help him at all, he looked at Jiang Hao's fist that swung over again.

He hurriedly shouted, 'I said! I said it!'

Jiang Hao's fist stopped at the tip of his nose: 'That's right, who sent you here, tell me!'

'No, no one sent me.'

As he said this, his tone couldn't help but drop, and his eyes dodged and glanced at his old grandmother from time to time.

After noticing this, Jiang Hao faintly froze, and he looked at the old grandmother who was standing at the side with some incredulity.

'Speak up, or I'll make you never leave this gate for the rest of your life today!'

Hearing these words, the young doctor shouted as if he had given up, 'No one sent me, it was that old woman who told me to do this, saying that she would give me six million after the job was done!'

After saying this, he broke down and cried, 'But that stinking woman didn't even say that there would be another doctor coming today!'

When Jiang Hao heard this, he put him down with an involuntary weakness in his hands, then turned his head to look at his old grandmother.

Xue Chongli also looked at his old grandmother in shock, and for a moment was hard pressed to know what to say.

Old Master Xue sat in his chair with his cane in his hand, his head bowed without even looking at his grandmother.

‘Hello, you are very good, Yu Ning is your own granddaughter after all, she is your own granddaughter! How can you put up with it so much!’

Seeing that things were falling apart, the old grandmother gritted her teeth and stared viciously at Jiang Hao, ‘Genetic granddaughter? I don’t recognize her! She’s just a wild child that was found outside!’

‘You think I don’t know that all the men in your Xue family are like that! You think I don’t know that all the men in your Xue family are like that!’

Old Master Xue snapped his head up and looked at his grandmother, ‘Have I ever wronged you in any way? Why would you treat Yu Ning like that?’

The old grandmother slammed the cup of tea in her hand in front of Old Master Xue: ‘Do you think you can afford to do this to me?’

Looking at the teacup that had fallen at his feet, Old Master Xue got up and slapped his grandmother across the face, ‘How dare you!’

‘Someone! Take old grandmother to her room, bring three meals a day to her room, and don’t let her out!’

Chapter 622

The old grandmother looked at the security guards who came forward to help her, but were actually escorting her and said, ‘What do you want? You want to rebel! Let go of me!’

Xue Chongli stood behind Old Grandmother Xue and hurriedly reached out to help the old grandmother, who was a little dizzy from anger.

‘Are you alright, Master Tai!’

The Old Master reached out and waved his hand. He indicated to Xue Chongli to help him sit down before he looked at Jiang Hao and spoke, ‘Doctor Shen, it’s better for you to start.’

Jiang Hao nodded slightly after hearing this, then grabbed Xue Yuning’s hand. In his heart, he couldn’t help but feel a lot of emotions.

How long ago was the last time he had held her hand like this, Jiang Hao could no longer somewhat remember.

He just looked at the peaceful look on Xue Yuning’s face. With a sour nose, he almost shed a tear.

Xue Yuning had already suffered a lot when she was in Chu Jiang, so why would she still be treated like this when she could not easily return to the Xue family!

After shaking his head slightly, Jiang Hao dispelled all the headaches within his mind and took his pulse at ease.

Dean Jiao stood next to Jiang Hao and did not dare to disturb him, and after a moment of contemplation, he brought out all the things Jiang Hao had brought with him.

Of course, the main thing was the needle bag he had found for Jiang Hao, which contained thirty golden needles he had specially selected!

Because he knew that Jiang Hao made good use of acupuncture needles, so Dean Jiao based on this characteristic. Because he knew that Jiang Hao was good at acupuncture and moxibustion, Dean Jiao bought this set of needles especially for Jiang Hao.

Generally speaking, most doctors use stainless steel needles for acupuncture, and rarely use silver needles.

The reason for this is not only the high cost of the needles, but also the softness of the needles.

The main reason is that gold needles are soft and not for ordinary people to use, and a slight bend will basically ruin the needle.

It was not only President Jiao who knew this, but also the old man of the Xue family knew a little about acupuncture.

So when he saw Dean Jiao open the needle box, he saw that there were 30 to 40 gold needles placed inside in a regular manner.

He could not help but be slightly dismayed and said, 'This. Although this Dr. Shen has a reputation in the Northern Province, but he is so young, can he really use these golden needles?'

Dean Jiao was a little surprised to hear this and glanced at Old Master Xue: 'I didn't expect that Old Master Xue also knew that gold needles were not something that ordinary people could use.'

After saying this Dean Jiao was about to speak, but he saw Jiang Hao put down Xue Yuning's wrist.

Frowning, he spoke, 'There's some trouble, the patient not only has a blood clot in her brain, but also her meridians are disordered, just sorting out these meridians will take quite a bit of time.'

Hearing this, Xue Chongli spoke with some hesitation, 'If we want Yu Ning to wake up. About how much time will it take?'

Jiang Hao shook his head and spoke, 'I do have a way to heal her in the shortest possible time, but you all need to take a back seat.'

Hearing these words. A hint of suspicion flashed in Elder Xue's eyes as he looked at Jiang Hao.

After all, something like that had just happened, making him a little less than at ease with Jiang Hao as well.

So after a slight silence, Old Master Xue spoke, 'It's fine for them to go out, I'll stay here. Is that okay?'

Jiang Hao looked into Old Master Xue's eyes and smiled after sensing the other party's suspicion of him.

'You can also stay here if you insist, but yet you need to keep it a secret for me.'

After hearing these words, Old Master Xue nodded his head. Then looking at Xue Chongli, he spoke, 'You all retreat and wait at the door, I will call you when it is ready.'

After Xue Chongli nodded, he stiffly pulled Dean Jiao and walked out.

In fact, the reason why Dean Jiao was reluctant to leave was that he wanted to see what other masterpieces Jiang Hao had.

You know that back then he hadn't even asked anyone to hold back when he was using the Life Renewing Needle with the Over the Mountain Fire, but today he was asking someone to hold back!

But under Xue Chongli's tug, Dean Jiao could only leave even though he had a thousand reluctances in his heart.

After Jiang Hao and Elder Xue were left alone in the room, Jiang Hao looked at him and nodded slightly.

He then took out three golden needles and stuck them in each of Xue Yuning's three vital veins!

To cure Xue Yuning was not an easy task at all. First, her lifeblood had to be suppressed before forcibly correcting the meridians in her body.

This is the only way to do so in the shortest possible time. Cure her without damaging her vital energy as much as possible!

And Old Master Xue frowned as he looked at the place where Jiang Hao had placed the needles, and had the intention to say something.

But then he looked at Jiang Hao's serious expression. At least the other party's actions didn't look like he wanted to harm her.

The other party's actions did not look like he wanted to harm her. It also caused a trace of doubt in the Old Master's mind.

More than that, it was a hint of more trust in Jiang Hao.

After sticking needles in Xue Yuning's lifeblood, Jiang Hao took a deep breath, then grabbed Xue Yuning's hand and sat motionlessly with his eyes closed.

Old Master Xue looked at Jiang Hao like a log, as if he had stopped breathing and just sat there.

But what he didn't know was that Jiang Hao was slowly transferring his own true qi into Xue Yuning's body to help her heal the internal injuries in her body!

Damage to the body was one thing, but if one had lost one's vital energy, the best way was to use the true qi therapy taught by Shangdian.

Using true qi to repair the lost qi in the body, and then using it to travel around the body to correct the meridians.

Time slowly passed and the injuries in Xue Yu Ning's body gradually got better, but what bothered Jiang Hao a little was.

The injuries in Xue Yuning's body were far more serious than what he had diagnosed, and even the amount of True Qi in his body had increased.

When he finally corrected the meridians in Xue Yu Ning's body, Jiang Hao nodded in satisfaction as he looked at his opponent's slightly reddened complexion.

Then he took a deep breath and placed his hand over Xue Yuning's head.

Using his true qi, he drove the flow of blood in Xue Yu Ning's brain, moving the blood clots one by one.

All the treatments were very difficult for Jiang Hao, but for Old Master Xue.

All he saw was Jiang Hao first shamelessly touching Xue Yu Ning's little hand, then putting it down and starting to touch her head again.

If it wasn't for the fact that he was so serious, he would almost have wanted to call someone out to kick this denizen out!

But as Jiang Hao's treatment ended, he took out a large golden needle and plunged it into Xue Yuning's Tianchi point!

Xue Yuning finally opened her eyes from her sleep and looked straight at Old Master Xue.

The sight of the pupils, which had no light at all, first loosened for a while, then slowly narrowed in focus before finally flashing back!

Old Master Xue excitedly walked over and looked at Xue Yuning and said, 'Sun, granddaughter, you're awake?'

Xue Yuning frowned, seemingly incomparably unfamiliar with everything around her, and became even more a little nervous as she looked at Jiang Hao and then at Old Master Xue: 'You, who are you? And who am I, and why am I here?'

Chapter 623

Xue Yuning's words really stunned everyone present, especially Jiang Hao, who was simply a little dumbfounded.

She didn't recognize herself? How was this possible?

Looking at Xue Yuning's reaction. Old Master Xue couldn't help but lock eyes with Jiang Hao: 'Why did it turn out like this?'

Jiang Hao was also dumbfounded and hurriedly leaned over the bed to look at Xue Yuning and spoke, 'Do you really not know who you are?'

Xue Yu Ning ducked back in some fear, 'Who the hell are you guys and why am I here!'

As she said this, a layer of mist had surfaced in her watery eyes.

Jiang Hao's movements looked even more excited than Elder Xue's. Stretching out his hands to hold Xue Yu Ning's shoulders, he spoke, 'It can't be! It can't be like this, how could you forget?'

Old Master Xue slammed his cane in his hand on Jiang Hao's hand, 'You brat let go of your paw! Say. Why did my granddaughter turn out like this!'

Outside the room, the crowd who had been waiting for four or five hours heard the noise coming from inside and Dean Jiao was the first to rush in.

Then he saw that Old Master Xue was beating Jiang Hao, and as he did so, he cursed angrily, 'You quack! Why has my good granddaughter become like this!'

Seeing this situation, Dean Jiao rushed forward and hugged Old Master Xue and said, 'Misunderstanding! Misunderstanding! There must be some kind of misunderstanding here!'

Xue Chongli also rushed in, and said angrily, 'Old Jiao, let go of the old man!'

Only when he reached the bed, he was surprised to find that Xue Yu Nings had actually woken up.

At this moment, Xue Yu Ning was blinking and blinking, shrinking in the corner of the bed to look at the noisy crowd.

After Old Master Xue saw that Xue Chongli had entered. Pointing at the somewhat disoriented Jiang Hao, he said excitedly, 'You tell him to tell me why Yu Ning has become like this!'

Xue Chongli snatched the old man from Dean Jiao's hands, then helped him sit down on a chair to rest.

Only then did he look at Jiang Hao and frowned and spoke, 'Doctor Shen, what's going on here?'

Jiang Hao was not in the mood to care about Xue Chongli at the moment, his eyes were confused as he looked at Xue Yuning and kept muttering, 'Why is this happening, why is this happening?'

President Jiao frowned and then looked at Old Master Xue and asked, 'Wait, what exactly happened here, didn't our Dr. Shen wake him up?'

Hearing these words, Xue Chongli also looked at his own old dowager with some confusion.

Old Master Xue took a deep breath before pointing at Jiang Hao and said, 'The person came back to life. But she has lost her memory, she doesn't even know who she is!'

After hearing this Dean Jiao was surprised, then turned his head to look at Xue Yu Ning who was cowering in the corner.

'Ahem, little sister, do you know if you know how old you are?'

Xue Yu Ning shrank back with some trepidation, then timidly looked at Dean Jiao and opened, 'I, I don't know ah.'

Dean Jiao frowned, 'Uncle remind you, your name is Xue Yuning do you remember?'

She shrank into her bed. Squeezing the blanket tightly in her hands, she looked at Dean Jiao and spoke, 'Xue Yu Ning? Xue Yu Ning, yes. I'm Xue Yu Ning!'

Then she continued, 'But why am I here, and who are you guys!'

Hearing this, Dean Jiao looked stunned, then helplessly waved his hand before looking at Old Master Xue and said, 'Can we talk in another room?'

Hearing these words, Old Master Xue nodded slightly. Gathering up the anger in his heart he got up and walked to the next door.

After Dean Jiao dragged Jiang Hao to the next room, the old dowager then looked at Dean Jiao and spoke, 'Why did that child Yu Ning turn out to be like this?'

Dean Jiao said slowly after a long period of silence, 'Before answering this question, I would like to ask how long has the patient been in a coma?'

Old Master Xue shook his head and sighed, 'This child has been in a coma for more than half a year. During that time, I have also looked for some doctors to see her, but none of them were sure of waking her up.'

Hearing this, Dean Jiao nodded slightly, and after combining it with what he had said before.

He looked at Old Master Xue and spoke, 'I suspect that the reason why the patient has lost her memory is related to the blood clot in her brain before, which has been pressing on the memory nerves for too long.'

Old Master Xue frowned before taking a deep breath and said, 'Then can you see if there is any other way to bring back her memory?'

He grabbed his head and looked over to the next room, listening to Xue Yu Ning's questioning voice coming from the next room.

He could not help but say somewhat helplessly, 'She is in this state now. I can't even believe she's my granddaughter!'

Hearing this, Dean Jiao shook his head helplessly, 'This thing of memory nerves, not to mention now. Even in another hundred years no one will be able to relate to it ah.'

When Jiang Hao sat on the side and heard this, he hurriedly looked at Old Master Xue and said urgently, 'Let me try one more time. Let me try one more time, please!'

Old Master Xue glanced at Jiang Hao helplessly. Shaking his head, he said back, 'I know you can't accept failure, and neither can I. Young man, forget it.'

He only thought that Jiang Hao was so agitated because he couldn't accept such a failure as a doctor who had become famous as a teenager.

It hadn't occurred to him at all that he could possibly know his own granddaughter.

After a slight silence, Old Master Xue looked to Dean Jiao and loosened his eyebrows, 'Forget it, this isn't bad, at least she's forgotten about all the hardships she's suffered before.'

Hearing these words, Dean Jiao nodded in satisfaction, and his heart followed with a sigh of relief that he had finally snubbed her.

However, Jiang Hao, who was sitting at the side, looked slightly stunned, and the words that Old Madam Xue had just said kept echoing in his mind.

'It's a good thing that she forgot about the beard, so she won't remember all the suffering she's suffered.'

In silence, Jiang Hao couldn't help but think of the deep feeling of powerlessness in his heart when Shen Tianyang had used Yu Ning to threaten him before.

He thought of how Yu Ning had almost died after lying in bed in a coma for nearly half a year for his sake.

Especially when he thought that in this family, her grandmother even tried to kill her!

Jiang Hao gritted his teeth and made up his mind, 'Dean, I'm a bit tired, let's go.'

Dean Jiao was slightly stunned, not reacting for a moment when he heard Jiang Hao's words.

On the other hand, Old Master Xue nodded helplessly and spoke, 'It's best if you can think about it, I'll ask Xue Chongli to bring you the consultation fee.'

Jiang Hao turned his back on Old Master Xue and shook his head and spoke, 'No need, you remember to drink soup with pearl powder from time to time, this will effectively control your heart palpitations.'

After saying this, Jiang Hao walked out of the doorway and looked at Xue Chongli and smiled, 'Brother Xue, if you have time, come and find me for a while, I will give you the medicine.'

Xue Chongli looked at Jiang Hao's face although he was smiling very brightly, but his intuition told him that the current Jiang Hao was as fragile as if he could fall down at the slightest touch.
