

Chapter 653

“These two people, one of them transferred the table that originally belonged to us to someone else!”

“The one who will not only grab our table, but also my wife!”

finished.

Lin Fan glanced at He Sheng with deep meaning, and asked indifferently:

“You said, what should I do!”

Boom!

A simple sentence, but it fell in the ears of He Sheng, Fatty and the lady at the front desk, and it was like a thunderstorm, making them almost scared to pee.

“Damn...”

He Sheng didn't understand what really happened until then. His face was scared as pale as paper.

The fat man and the lady at the front desk had a tingling scalp.

That's it!

This is revenge.

Thinking of this, the lady at the front desk softened her legs and feet, and fell to the ground with a thud.

Remorse, boundless remorse swept through her heart.

If she knew the identities of Lin Fan and Bai Yi, even if she was killed, she would not dare to transfer the table to the fat man.

“Come here!”

At this moment, He Sheng's roar resounded loudly.

His face was gloomy and almost dripping with water, and in his eyes, there was a fierceness that he wanted to choose and eat.

Hoop!

When these words fell, a group of burly and powerful security guards stepped out.

“Give me discounts on the hands and feet of this fat man! Throw me out of the prosperous age, and be pulled into the permanent blacklist!”

He Sheng turned to look at the front desk lady:

“And this dog sees a low-level thing, expelled me from the sea of clouds, immortal, not allowed to step in!”

Wah...

He Sheng’s words fell, and immediately made the fat man and the receptionist almost scared to pee.

When the two asked for mercy.

I saw a group of security personnel rushing up.

“No... don’t fight...” The fat man screamed in horror, and he was crushed to the ground just as he uttered.

Especially, as a security officer, he swung down the baseball bat in his hand.

With two sticks in succession, the fat man’s calf was like rotten wood, and it snapped in an instant. The screams of screams resounded endlessly in the lobby, making everyone horrified.

“My legs...ahhhhhhhhhhhhh!” The fat man was trembling with pain.

But this is not over yet.

The security officer firmly held the baseball bat in his hand, and then slammed down the fat man’s arm again.

There were two cracking sounds again, and the fat man's hands snapped.

All limbs are gone!

This scene is cruel and crazy.

Fatty no longer had the arrogance and madness he had before. He was like a dead dog, bowing to the ground, screaming and shaking.

Despair and regret.

If you do it again, I am afraid that he is unwilling to provoke the devil Lin Fan.

But at this moment, no matter how much regret and despair, it is already too late.

He and the front desk lady were framed by a group of tough security guards, and then as if dragging two dead dogs, they came to the door of the hotel and threw them to the outside.
