

# Super Rich Dad Chapter 681-683

Chapter 681

Shen Wennian looked at the news about the Xichunju project in his hand and frowned slightly before ordering someone to call Shen Qingshu back.

Looking at Shen Qingshu sitting calmly in front of him, he frowned and said, 'Have you gone a bit too far this time?'

The Western Spring Residence was the number one project in the Northern Province, and people at the top could know about it if they made a slight move.

Right now, such a big thing had happened. It was impossible to say that people wouldn't speculate about something.

Moreover, since the West Spring Residence was a joint project between the Shen family and the Lin family, and since the Lin family had withdrawn from the marriage in the past two days, people with an interest in the project would definitely do something about it.

Thinking of this, Shen Wennian couldn't help but flash a hint of disappointment in his eyes as he looked at Shen Qingshu: 'I still think too highly of you. I didn't expect you to do things so recklessly without regard for the consequences.'

Shen Qing Shu snickered at this, playing with a valuable jade trigger finger in his hand and said, 'Dad, don't worry. There will be no problem in this matter.'

After saying this, he looked up at Shen Wennian and said, 'I've already arranged for the people who should be dealt with, and I've also arranged for the people who should be dealt with, so don't worry.'

'Then what is your intention in doing this, we are also going to suffer losses if the Xichunju project is stopped.'

Looking at Shen Wennian's somewhat worried look, Shen Qingshu spoke with a confident face, 'The Lin family's capital chain has collapsed, I'm going to proceed with the acquisition of their shares if the West Spring Residence project is halted, when the time comes, hey hey hey.'

Hearing these words, Shen Wennian finally understood his son's intention.

He looked at Shen Qingshu with a dawning understanding and nodded, 'Good. Your intentions are good, but aren't you worried about other people giving the Lin family financial help?'

The answer to his question was just two simple words, 'Who dares?'

It was true, the Shen family's network of contacts accumulated over such a long period of time in the Northern Province was not something that could be underestimated.

If the Shen family wanted to take care of anyone, who would dare to take action at this time.

Even if the Lin family were to sell their shares in the Xichunju project at a low price, I guess no one else would dare to jump in and buy it except for his family, right?

Thinking of this Shen Qing Shu smiled sorrowfully, 'So what if their Lin family is a powerful family in the Northern Province, if they offend my Shen family, then they will have to pay the price.'

Shen Wennian looked at his son with a hint of pride on his face, 'Let go and do it, and if there is any trouble, just let me know.'

Shen Qingshu gave a faint promise and then withdrew from the study, then after a moment of slight contemplation, he took out his mobile phone and sent a text message.

The content of the text message was very simple: 'The West Spring Residence is closed for renovation.'

After editing it, Shen Qingshu sent it out without hesitation. The person who received the text message naturally knew what to do.

After sending the text message, Shen Qingshu walked out of the company with a smile on his face, and then took a leisurely trip to the Xichunju project in his car before returning home.

As he looked at the West Spring Residence, Shen Qing Shu muttered, 'Lin Yan, you will pay the price for your pride, not everyone is qualified to reject me, Shen Qing Shu.'

And just as Shen Qingshu's side set about setting up a plan against the Lin family, Lin Yan was already feeling a bit broken at this point.

After receiving Shen Qing Shu's call Lin Yan froze and looked at the phone in her hand and murmured, 'It's the Shen family, it's the Shen family that did this, this matter must be done by Shen Qing Shu!'

Hearing these words. Jiang Hao, who was sitting in front of Lin Yan, said in confusion, 'The Shen family? Which Shen family?'

'The Northern Province Shen family, the one that wanted to join with my Lin family in marriage. They must have started taking revenge because I refused the union!'

Jiang Hao frowned tightly when he heard this, 'Such a big project they stopped when they said they would, it looks like they have a lot of power in the Northern Province.'

A hint of helplessness flashed through Lin Yan's heart upon hearing these words, it was not only not small.

The many powerful families in the Northern Province put together were probably not even as powerful as one Shen family, and that was exactly why the Shen family in the Northern Province was not famous. They didn't need these false names anymore.

The reason why my grandmother wanted to join with the Shen family in the beginning was because she thought that with the Shen family's connections, it would not be a problem to keep the Lin family glorious for another hundred years!

But she never thought that things would turn out to be like this. Thinking of this, Lin Yan slumped on the table with a headache.

Jiang Hao looked at Lin Yan and said, 'Calm down first. Maybe there will be another way?'

After shaking her head on the table, Lin Yan said, 'The only hope right now is that we can get the senior management to keep Xichunju from stopping work, and then use all means to suppress the effects of this matter.'

After saying this, Lin Yan continued after a period of silence, 'And then use the fastest means to throw it out, not to make a profit but to preserve the capital.'

The reason why Lin Yan thought this way was because the Lin family's capital chain was already in jeopardy, and the slightest turbulence could break it.

The only thing that would happen to the Lin family at that time would be its collapse!

Such an outcome was something Lin Yan did not want to see no matter what, as the Lin Group was her father's only legacy.

But on the other hand, Lin Yan knew in her heart that since Shen Qing Shu had done such a thing, he would definitely not give her the chance to turn around.

Now she could only hope for the board of directors!

After a moment of contemplation Lin Yan sat up. With a firm look in her eyes, she looked at Jiang Hao and said, 'Thank you for coming out to keep me company, but I'm afraid I'll be very busy during this next period.'

Jiang Hao looked at the tear marks on Lin Yan's face and felt some pain in his heart. But still, he nodded and spoke, 'Don't worry about it, it's okay.'

Having received these words. Lin Yan looked at Jiang Hao and nodded before getting up and leaving.

After Lin Yan left, Jiang Hao sat in his seat stirring his coffee and smiling bitterly. This scene was not like what he had faced in Chu Jiang.

Lin Yan was just a girl, and although she was sitting in a somewhat special position, she was still just a girl in the end.

To have her face such great pressure right now, Jiang Hao could not help but feel a little worried about Lin Yan in his heart.

And thinking of the fear in Lin Yan's eyes when she spoke of the Northern Province Shen family, Jiang Hao couldn't help but stop the movements of his hands.

This Northern Province Shen Family, could it have something to do with the Shen Clan Family back then? Could it be one of the thirty-six families?

After pondering for a moment, he decided to write this matter down.

Shen Tianyang could not be dealt with in the short term, but that did not stop Jiang Hao from collecting some interest first.

If it was certain that this Northern Shen family was related to the murder of the Zong family, Jiang Hao didn't mind destroying them.

But if it had nothing to do with what happened to the Zong family, then he would have to find a way to test the other side to see if they were on his side.

Thinking of this, Jiang Hao looked out of the window and let out a deep sigh.

Lin Yan was now helpless, but how could he not be?

Chapter 682

Just as Jiang Hao was contemplating this Northern Shen family, Lin Yan, who had returned to the Lin Group on the other side, ordered an emergency meeting with a frosty face.

After receiving the news, people from various departments hurriedly brought the company's information for the last three months and then hurriedly ran to the conference room to quietly wait for Lin Yan's arrival.

They had basically heard about the matter of Xichunju, and had to be nervous about such a big investment project.

Especially the people from the finance department were looking at the information in their hands. One head was almost two sizes too big.

It was hard to wait until Lin Yan arrived, and many people looked at her in silence.

At this moment, Lin Yan knew clearly that she was the hope of these people, as long as she collapsed. As long as she fell, these people's rice bowls would also be ruined.

It was as if Lin Nan had said to herself when she left the office that she would not only be responsible for the Lin family after sitting in this position. There were also the families behind the tens of thousands of people in the Lin Group!

'I won't say much more, you all know clearly the problems the company is facing now, so to cut a long story short, each department will report all the data to me, the personnel department.'

Hearing this, the manager of the personnel department hurriedly stood up, 'The company's personnel are still relatively stable now, and have not been affected by this matter, but everyone is inevitably a little restless.'

After hesitating for a moment, the HR manager spoke, 'In addition, some people have privately started to poach our company's senior management.'

Lin Yan nodded as she sat in her chair and heard these words, 'The treatment will remain the same. Stabilise everyone's emotions, and in addition try to disperse the effects of this matter.'

The HR manager who received the order nodded and hurriedly retreated, Lin Yan then looked at the head of the PR department, 'Your turn.'

'Many outside media companies are now booking interviews, and it looks like someone is behind this matter.'

The manager of the personnel department was a beautiful woman, and when she said this, she frowned before speaking, 'A friend of mine privately revealed to me that someone offered 200,000 for the front page headline of their newspaper.'

Lin Yan took a deep breath, everything was really as she had predicted, Shen Qing Shu was doing his best to expand the impact of this matter.

First, he was using the power of public opinion to put the company's shares under pressure, and then he would have Xichunju shut down. Break the financial chain of the Lin Group.

After just a slight thought of the consequences of this matter, Lin Yan couldn't help but feel a little shiver in her heart!

'Sister Wrinkle, you're an old man in the company, you must know better than me how serious this matter really is, I'll mobilize two million for you!'

The personnel manager frowned after hearing this and nodded with your head, 'I don't dare to guarantee it, but I will try my best to do it, I will calm the situation down as much as I can.'

Lin Yan looked at Sister Wrinkle with a hint of disappointment flashing in her eyes, but in her heart she knew. The other party was also speaking the truth in order not to give herself false hope.

So Lin Yan nodded and said, 'That's all I can do for now, so I'm counting on you. Sister Wrinkle!'

Soon the manager of the personnel department went down with the documents, and I'm afraid that the burden on her shoulders was heavier than anyone else present!

Next, the investment department and the risk control department all submitted their reports on this matter to Lin Yan.

Looking at the data on the paper, Lin Yan laughed bitterly twice and could not help but say, 'It seems that the Shen family is trying to put our Lin family to death.'

The manager of the finance department was an old man who had followed Elder Lin. Hearing Lin Yan's words.

He stood up trembling, then bowed deeply to Lin Yan and said, 'Although the company's finance department is not much capable, it will definitely guarantee the funds during this time!'

Lin Yan looked at him and hesitated for a moment, shook her head and smiled bitterly, 'Forget it. Uncle Jin, I know in my heart what the company's funds look like, I will think of something in this regard.'

Yes, Lin Yan was very clear about the current state of her family, especially about what the company's funds were like at the moment.

A while ago, because of the serious illness of the old man Lin, various partners withdrew funds, plus the company's year-end debt liquidation and so on and so forth.

At the moment, the Lin Group is full of holes and its foundation has been greatly damaged!

The work was arranged. After dispatching everyone, Lin Yan sat in the conference room and turned to look out of the window.

The Lin family. It must not fall at her hands!

'Call the board members, I need them to do something for the company now. The company isn't raising them for nothing!'

The board members were a bunch of old fogeys who only had two things on their minds all day.

One is when the company's dividend will arrive. The second was where they should go today to talk and laugh with whoever.

But they also knew very well that if the Lin family tree fell, they wouldn't have any luck either.

So after getting the information on the Xichunju project and the report on what had happened, they were all clear about what kind of difficulties the Lin family was facing now.

Lin Yan no longer had the modesty that he had when they first met at the meeting, but was sharp enough to just say one thing.

'If the Lin family falls, who can all the uncles and uncles rely on in the future to stand firm in this Northern Province?'

A simple sentence, but one that spoke through all reality.

The people no longer had the same contempt for Lin Yan as before, and the only way now was to properly assist Lin Yan.

After making all these arrangements, Lin Yan quickly returned to her home again.

He knew very well that the Shen family would definitely take revenge on them.

He knew very well that the Shen family would retaliate against them, but he did not expect the retaliation to be so simple and straightforward, and the attitude shown by the Shen family was no longer just retaliation.

They wanted to bite the Lin family to death and then swallow them fiercely into their bellies!

Lin Yan walked to Elder Lin in silence and squatted down in front of him, then placed her face in his arms.

‘Grandpa, what should I do?’

Only in front of Elder Lin could Lin Yan drop all her defenses and show her vulnerable side.

Elder Lin opened his eyes and looked at Lin Yan heartily, ‘It’s alright, you’ve done well now, now let’s see what the Shen family’s side will do.’

Lin Yan let out a bitter smile before a line of tears flowed from her eyes, ‘It’s all my fault, grandpa, is it possible that Yan’er really was a bit willful this time?’

Although Lin Yan did not want to admit it, she did feel some regret in her heart.

She was not an ordinary family, and everything she did should be done for the sake of the family.

Although love was a beautiful thing, it had never belonged to a woman from a family like hers.

Master Lin looked at Lin Yan with heartache, not knowing what to say for a while.

The whole sky over the Lin family seemed to be covered with the gloom of the Shen family from the Northern Province, and no one knew when a thunderbolt would strike.

And at this time the old grandmother is pained to find Lin Yan angrily scolded: ‘you say you a mourning star, why not marry the man Shen family grandson?’

Chapter 683

‘What about the Shen family’s son is not good enough for you? You had to make such a fool of him, and now you’re happy? Are you satisfied?’

As she said this, her grandmother was getting angrier and angrier and saw the tea cup on the table.

She picked it up with one hand and ruthlessly slammed it behind Lin Yan: ‘I have just handed over the Lin Group to you. And you’ve done this to me?!’

‘Lin Yan, Lin Yan, you’re not too young, what do I have to say to you to make you understand!’

Hearing his old grandmother’s words behind him, Lin Yan shrank into Elder Lin’s arms without saying a word.

Master Lin looked at Lin Yan with a flash of heartache. He then raised his head to look at his grandmother and said angrily, 'Have you said enough? Get out!'

'You're telling me to get out?' Hearing these words, the old grandmother looked at Old Master Lin rather incredulously!

'If it wasn't for old lady me running the Lin family when you were sick. Do you think you would be able to have today?'

Looking at the overwhelming anger on Master Lin's face, for a moment the old grandmother was both aggrieved and sad!

'Is there any justice in this family, can this family still stay!'

Lin Yan was lying in Master Lin's arms, she couldn't take it anymore, and after she shouted she got up and turned her head to look at her old grandmother who was stunned.

Cold as ice, she spoke, 'Don't worry, I will take care of this matter and will definitely give you a satisfactory answer.'

After saying this Lin Yan turned around and left the house, as Lin Yan's car had been smashed, she could only use her grandfather's car now.

It was only after Lin Yan had left that her grandmother came back to her senses and then looked at Old Master Lin and said angrily, 'Look at this. Take a look! This is what you've spoiled!'

Master Lin looked at his grandmother in silence, not knowing where to vent his anger!

'Who's daughter would be like this? Even if she doesn't think of her family, she dares to throw shade at me! This is your good granddaughter!'

Master Lin couldn't take it anymore, so he tilted his head and took a deep breath before whispering, 'That's almost enough, I'm annoyed now, go away!'

This was the second time that Elder Lin had said the word 'get out', and the grandmother knew that Elder Lin was a man of his word.

Although she was still slightly discontented, she dared not go on crying, so she had to turn around and leave.

Only as she left the old grandmother hesitated for a moment and sneered, 'You watch, this matter is just the beginning. I'll see how you two end up then!'

After saying these words, the old grandmother turned and left.

And Master Lin looked at her back for a while and fell into silence, yes, how should this matter end?

On the other hand, Jiang Hao, who had returned to the hospital, sat silently in his chair and watched the news, which was all over the place.

The news was all over the place, and Jiang Hao knew it would be difficult for Lin Yan to do this.

At this moment, Fatty Zhou came mingling into the office again in a sick suit, then followed the news while eating an apple.

‘Tsk, tsk, tsk, tsk, tsk, tsk. The Lin family is going to lose money this time!’

A grim-faced Jiang Hao glanced at Fatty Zhou, trying to suppress the urge not to shove him into the trash.

‘If you keep bothering me. I swear I’ll throw you into the bin at the back of the hospital, you know what’s in there!’

Fatty Zhou shivered at his words, but still looked firmly at Jiang Hao and said, ‘Just promise me, or you can say what the conditions are. I’ll definitely do it for you!’

Jiang Hao snorted at his words, there were some things he couldn’t do, what could Fatty Zhou, a mere business runner, be capable of doing?

And Fatty Zhou looked at the disdainful look on Jiang Hao’s face and felt a bit insulted!

‘Don’t look down on me yet! Although I am only an errand boy. But I’ve met more big shots than I can count!’

Jiang Hao’s heart twitched at his words, and then he said with some curiosity, ‘Oh? Then have you met Shen Tianyang?’

Hearing this, Fatty Zhou rolled round to the bottom of the table and then managed to get up with an embarrassed look at Jiang Hao.

‘Fuck me! You also think too highly of old brother me, the big brother of the overseas Shen family, where do I get the qualifications to meet him!’

After saying this, Fatty Zhou sat down firmly and leaned on the table, taking a hard bite of the apple before saying, ‘If it was the head of the Shen family in the North, it would be more like it.’

Jiang Hao smiled and said, ‘The Northern Shen family? The North Province Shen family is close to the overseas Shen family?’

When Fatty Zhou saw Jiang Hao’s excited look, he laughed and surveyed the surroundings.

When he saw that there was no one around, he whispered, ‘Older brother, let me tell you something. There are some things that you can’t just say.’

With that, he also gave a wink to Jiang Hao. It was quite a bit unspeakable.

Jiang Hao rolled his eyes and leaned over the table to watch the news with boredom, secretly thinking of what he could do to help Lin Yan.

If he used the money in his own card. After all, there was no reason for him to have so much money in his capacity.

But if he didn't use the money. Where would he find the money to help Lin Yan.

Thinking about these things, Jiang Hao couldn't help but have his head in two places, just when he was annoyed.

When Dr. Ren finished his work and came over to play with Fatty Zhou, he saw Jiang Hao watching the news about the Xichunju project and gloated, 'Yo, did something happen to Dr. Shen's girlfriend's family?'

Ever since Jiang Hao and Lin Yan had gotten close, many people at the hospital had been a bit uncomfortable with Jiang Hao, mainly because they were envious and jealous.

It was the Lin family, how many people wanted to eat this bowl of soft rice, but Jiang Hao had gotten lucky!

He thought that he had been a bit jealous of Jiang Hao some time ago, but now he was looking at the news of the Lin family's accident.

Dr. Ren spoke with pleasure in his heart, 'It's a pity, I'm afraid the Lin family will have to fall this time if they're not careful!'

Jiang Hao turned back and looked at Dr. Ren: 'Do you believe that your teeth will fall on the ground later?'

As he said this, Jiang Hao clenched his fist and looked at Dr. Ren with grim eyes.

Jiang Hao was also considered to have killed his way out of Chu Jiang, so he naturally had a murderous aura about him!

Dr. Ren's body was so cold from Jiang Hao's glare that he couldn't help but take two steps backwards, and then looked at Jiang Hao in fear!

Next to him, Fatty Zhou was also shocked by Jiang Hao's instantaneous outburst of aura, and was now looking at Jiang Hao with a surprised expression.

After a while of silence, Dr. Ren left with some embarrassment.

Fatty Zhou, on the other hand, looked at the news curiously and opened his mouth to ask, 'What, Miss Lin Yan of the Lin family is your girlfriend?'

Jiang Hao looked at Fatty Zhou with some helplessness, 'I said you have no end, really can't you find your own place to play, don't come to bother me, okay.'
