

# Super Rich Dad Chapter 807-808

## Chapter 807

Looking at Sally's cold face, Jiang Hao took a deep breath, then looked at Sally and spoke, 'I want to ask, if the headquarters side does not say, how will you treat me.'

Sally, who looked a little distracted, froze slightly after hearing this, then looked at Jiang Hao with some strange eyes.

'I don't know, in fact I'm not even sure what I would do, you know, this matter is not something I'm good at considering.'

Here Sally laughed bitterly, then gathered the papers on the desktop, then looked at Jiang Hao and said, 'Did you hear something from Old Black?'

Jiang Hao shook his head with a bitter smile: 'No, I just look at you suddenly have such a strange feeling, I do not know if it is my illusion, you seem to be a little different from before.'

Sally was silent for a long time before nodding: 'Well, maybe it's a little different, after all, some things are not just talk, you say?'

For Sally's words, Jiang Hao certainly understood in his heart that many things can not be done just by talking about it.

After a light laugh, Jiang Hao sat down and quietly looked at Sally for a moment of silence, then spoke: 'In that case you should not tell me, what do you intend to do?'

'The Lin family's West Spring residence will soon be out, this time for the Lin family to restore a large amount of money, I intend to do things, you may be a moment simply difficult to believe.'

Jiang Hao looked at Sally in surprise and saw a hint of confidence pass over her face.

Then he spoke in surprise: 'Don't tell me that you plan to strike at the Shen family together with the Lin family and Chen Jingdao, knowing that Shen Tianyang's people are right over here!'

Sally glanced lightly at Jiang Hao, did not seem to take his surprise to heart, in fact perhaps Sally was thinking more at this time.

'What are you afraid of, the North House is originally my place, the cooperation agreement between Shen Tianyang and Shen Wennian this time has already been sent to me, if Shen Tianyang succeeded in helping Shen Wennian.'

Speaking here, Sally paused, then looked at Jiang Hao and said in a deep voice: 'Then Shen Tianyang will be able to extend his wrist to the North Mansion, do you think I can still not make a move in such a situation?'

After taking two deep breaths, Sally returned to her desk and sat down, then opened her computer and gestured for Jiang Hao to come over and look.

‘This is the situation that my men secretly investigated about the Shen family funds, you can obviously see that the Shen family funds are slowly gathering, if we don’t take advantage of the situation to defeat them, Shen Tianyang can still pull up the Shen family in the north.’

Jiang Hao looked at the data on the computer fell into silence, then slightly nodded some doubts looked at Sally said: ‘But so Lin Yan will cooperate with you, and the Lin family will not cooperate with you?’

Sally shrugged, in fact, about this point is exactly where Sally is least worried, because if Shen Wennian held out, the Shen family is no longer by him to speak.

So when the final madness, he may not take the initiative to declare war on the Lin family, when the time comes, what difference does it make whether they make a move or not?

Just a very simple truth does not need Sally how to enlighten, the people of the Lin family, including the old man Lin also naturally understand this truth.

Thinking of this, Sally lightly smiled and looked at Jiang Hao and said: ‘I think, about this you should not need to consider, you should now consider only one problem, waiting.’

Jiang Hao looked at Sally silent, and then nodded slightly before saying in a deep voice: ‘My side is no problem, a little worried about whether Ning Kun will think too much.’

Ning Kun will not think too much naturally have old black to deal with, he and Ning Kun is strictly speaking counted as a class of people, they will be better communication between a little.

Sally at this time to make such a choice is also under a lot of pressure, the consequences of a little carelessness is not something she can afford.

And realistically speaking, the North House she can use the funds absolutely no Shen Tianyang hands to grasp more, so we must unite the Lin family in order to defeat the North House Shen family in one fell swoop.

When the time comes, then with Ning Kun’s side of the plan, all of Shen Tianyang’s men will remain in the North Mansion, so that Shen Tianyang can not put his hand in for the time being.

‘You know, the North Mansion is in fact the first place that I really mean, here I will never allow anyone to try to come in!’

Jiang Hao looked at a cold light flashing in Sally’s eyes and couldn’t help but be a little secretly surprised in his heart.

At this point, Sally looked a little bit sharp, not at all reminiscent of her being a girl.

Jiang Hao was slightly silent for a moment, then looked at Sally with some bitterness and spoke: 'I hope that when your headquarters is dealing with my problem, you can also be so firm.'

Hearing these words, Sally froze and looked at Jiang Hao in silence, then did not know what came to her mind, her face gradually became a little red.

'You, what are you talking about you! Don't worry, the family will not how to you, at best, just let you go.'

Although saying so Sally herself is not quite convinced, but she also has absolute certainty that the headquarters will not do anything to Jiang Hao.

Right now, although it seems that Jiang Hao is just one person, and does not have any outside help or friends, but the Shen clan family left behind a lot of branches when they were running rampant.

Who can ensure that no one embraces the Shen clan, now they can fight with Shen Tianyang, but can not face the second Shen Tianyang.

And back then, there were more than thirty people as powerful as Shen Tianyang under the Shen clan family, and they didn't want to offend such a big trouble just because of Jiang Hao.

These things Sally did not say to Jiang Hao, so Jiang Hao also did not put on the heart, the eyes looking at the folder in hand.

Jiang Hao was silent for a while and then suddenly opened his mouth and said, 'The Shen family in the North, it has something to do with what happened to my family back then, right?'

Sally nodded in silence, she originally did not want to tell Jiang Hao this news, because what happened in Chu Jiang had made Sally realize a problem.

Jiang Hao was not a person who could be easily fooled, once he knew about this, perhaps the situation would go in an uncontrollable direction.

This is not what Sally would like to see, not even a situation that any person in power would like to see.

It's like someone is gambling with you on cards, and it turns out that when you know the other side is betting against you, you just turn the table and stop playing!

Because Jiang Hao is a person, he himself does not have so many worries, right now he can call himself a lone wolf.

No friends, no ties, he can even immediately revert to his real name if he needs to, then reveal the slightest trace and Shen Tianyang's people will chase him over like sharks smelling blood in the deep sea.

This way no one would be harmed, as if this time cooperating with Ning Kun's plan.

On Sally's side, she explained to Jiang Hao the reason why she did not make a move on the people sent by Shen Tianyang for the time being.

The other side of the old black with Ning Kun in a small room inside, two men are silent smoking cigarettes, who did not take the lead to speak.

The old black eyes firm look at Ning Kun, about Chu Jiang side of their internal traitor thing, the first is Ning Kun first found.

It is also for this reason that Ning Kun has always wanted to go to Chu Jiang.

If they can't catch this person out, no matter what they do, it's as if there is a knife against their waist.

Thinking of this, Ning Kun looked at Old Black with some confusion, hoping he could give himself an explanation.

Old Black looked at Ning Kun's eyes and smiled bitterly, he naturally knew what Ning Kun was thinking in his heart, so Old Black extinguished the cigarette in his hand.

A light cough roared and said: 'About the internal affairs of the Chujiang side, this you do not need to bother, the internal third section of the people are already dealing with, their means you are clear.'

Ning Kun listened and nodded, then spoke back: 'The people of the third section are naturally a little more professional than I am, but the old boss has always been concerned only about the plans here, which makes me a little uncomfortable.'

Old Black laughed lightly at Ning Kun's words, after all, Ning Kun is not an old man who has followed Sally from the beginning, so naturally he is not clear about some of the things here.

Every lion or tiger has its own jungle plain, where they are the absolute king!

Sally has always been in the northern province since she started taking over things inside the section, so how could she allow Shen Tianyang to bring attention to this side?

It so happened that Jiang Hao also happened to be in the North Mansion, and the most helpless thing was that Sally had a crush on Jiang Hao.

Under all kinds of reasons, so cause Sally at this time also only care about things in the North House, and for Chu Jiang.

Strictly speaking, she actually did not put in mind, because for her, Chu Jiang is not her responsible place.

Even if something goes wrong, there are people who are responsible for it, so she doesn't need to think about that side of things.

Thinking of this, old black lightly laughed twice and said: 'You are now also in the North after all, so it is better to collect your mind not to bother with things over there.'

Ning Kun looked at the old black also had to smile bitterly and nodded, and this side Sally also threw an olive branch to him, he himself also willingly accepted.

So at this moment, whether he wants to or not, he himself must cooperate with Sally, otherwise there is no need for him to continue to stay here.

After the two were silent for a while, Old Black looked at the time, and then smiled at Ning Kun and said, 'The boss should have finished talking with Jiang Hao, I'll go to the office.'

Ning Kun nodded and said: 'Okay, you go, I'll wait here for Jiang Hao to come out and talk to him then.'

Said Ning Kun watched the old black leave, and then smoking a cigarette quietly pondered down.

As Old Black said, every tiger or lion has its own domain, and in this domain they are the absolute king.

The North House Shen family may have always thought that their connections are very well managed, but I do not know that in the North House, many people are in Sally's hands.

As long as she is willing, the North House Shen family is just a slightly stronger sheep, there seems to be no way to target Sally.

The old black walked into the office after Jiang Hao and Sally had really finished talking, he stood quietly at the door.

Sally looked up at the old black, as if no one else spoke: 'Ning Kun side you have finished talking?'

Old Black nodded and said: 'Well, for your plan, he expressed willingness to cooperate, in addition to the Chu Jiang side of the matter has been conveyed to the people of the three sections, they accepted the matter is beginning to investigate.'

Sally pondered for a moment and then nodded and said coldly: 'If the people of Section 3 can't even handle this small matter, then there is no need to exist, I simply find the people of Section 4 to do the target.'

Deep breath, Sally with a little gambling ingredients laughed: 'To really really can not, simply reorganize the Chujiang Division forget, anyway, it is not a big deal, and not without backup.'

Old Black understands this, but also knows the practicality of this approach, but things are not considered so, some things are not reorganization can solve the problem.

If the newcomer is replaced, since Shen Tianyang can break through once, he naturally has the ability to break through a second time, then do continue to reorganize?

Always in this way will not only cause pressure on the entire section of the various departments, but also let Chu Jiang gradually lose control.

Because of Shen Tianyang in Chu Jiang, now there has been slowly losing control, if you do so, is undoubtedly the Chu Jiang hand over.

Thinking of this old black after a moment of silence spoke: 'Ning Kun has always wanted to go to Chu Jiang, you see this time after the matter, is not to let him go out to swim a circle?'

Jiang Hao heard two people talking about Chu Jiang, although it sounded like it was about their internal, but Jiang Hao still could not help but speak up: 'Can your side receive the news from Chu Jiang?'

Old Black looked at Jiang Hao hesitated for a moment, and then slightly glanced at Sally's eyes, after seeing the other party acquiesce.

This is to speak: 'can be able to, but Chujiang side slightly changed, so the authenticity of the news to be verified.'

Jiang Hao listened and then hurriedly asked: 'Then can you help me check my side of the classmates and friends, I believe you must know, OK?'

After a long period of silence, Khao didn't even consider, and walked directly to the bookshelf behind Sally's desk.

Then checked out a folder and opened: 'This is the information about your friends in Chu Jiang, unfortunately, we can not find out their news now.'

Sally looked at Jiang Hao with some concern, the news of some people on the file was not that good.

And considering Shen Tianyang's methods, those friends of Jiang Hao may have 'disappeared' at this moment.

'After the war in the slanting sun valley, one girl disappeared, and another girl was secretly transferred to my northern residence, which I also found out later.'

After saying this, Sally slyly looked at Jiang Hao some tasty said: 'I really did not see, you also have a relationship with the Xue family's Miss Xue, I said why you want to haunt Shen Qing Shu's engagement party.'

Jiang Hao was concentrating on the folder in his hand, suddenly heard Sally say so, forehead can not help but seep a bean of cold sweat!

There is a saying that it is better to offend the villain than to offend the woman.

Generous nature of the woman is not without, but very little, as if it is a cherished animal.

Most of the women are the same as Lin Yan, small-minded with a needle's point, Jiang Hao is enough to eat this aspect of the suffering.
