

Super Rich Dad Chapter 831-833

Chapter 831

After Sally said this, she laughed lightly and then spoke: 'Forget it, you don't need to care about this matter, I think Jiang Hao he will come to ask me himself. When the time comes, I naturally know how to deal with him.'

After saying this, Sally was silent for a moment and then said: 'Didn't you guys go to the Lin family, did Master Lin say something to you?'

Old Black nodded and then said in a deep voice: 'Master Lin does not look particularly stupid, although he did not say anything on the surface. But the heart seems to have a mirror that can shine brightly in the heart.'

There are very few people who can get such an evaluation from Old Black. And in this place in the North Mansion, but only Elder Lin alone has received such an evaluation from Old Black.

When Sally first came to the North House when the old black said, the North House can be messed with anyone, Wei Diao Shen family and the Lin family people can not provoke as much as possible not to provoke.

Because one of them in the mall above the relationship is very powerful, just a word of the matter may be able to make a company on the verge of bankruptcy and collapse.

And the other one with them also only need a word of the matter, they do not think about doing something in the North, all the requirements will be beaten back to the house.

This is also why Sally came to the North House that year will put themselves out of the way, only so she can quietly see more clearly these people, like a tiger before preying.

They usually look carefully at their prey first, to make sure they will not get hurt or not hurt too badly will rush up. Then swallow the other side hard!

Thinking about the situation on Jiang Hao's side, Sally sighed lightly in her heart, and she didn't know how to explain to Jiang Hao to make him understand that the Shen family was already in the past tense, and there was no need to continue to indulge in the toughness of the past.

If you can't protect yourself properly, not to mention the Shen family back then, he may now face extinction at any time!

This is also her Sally in the North House to protect Jiang Hao, or else change a place, as long as Shen Tianyang's men find out the specific location, Jiang Hao can get only one end. That is death!

After closing her eyes and contemplating for a moment, Sally took out her cell phone and gave Jiang Hao a call, ringing several times but Jiang Hao did not answer, it seems that the other party has now begun to somewhat distrust himself.

This makes Sally's heart feel a little angry, but in the face of Jiang Hao she has no way to accuse anything, after all, strictly speaking, Jiang Hao is not considered her subordinates.

At this moment, Jiang Hao is walking aimlessly on the street, he does not know where to go. Or at this moment he is also full of uncertainty inside.

Although Sally is good to him, but Sally herself also has some ulterior motives. This is not enough, the thirteen sections behind Sally is even more so.

And Lin Yan, is all about the family, as long as it is for the family. Lin Yan can even risk his life, which is not the result Jiang Hao wants to see.

If it was the original Lin Yan, Jiang Hao did not mind taking her away, and then live a life of small wealth. After all, such a life looks good.

But Lin Yan in the end still chose the family, which made Jiang Hao a little disappointed at the same time also seems to see Lin Yan, her feet tied to a chain, connected to a heavy iron ball.

And Xue Yu Ning is let Jiang Hao do not know how to say, so many feelings in the past in the moment of her amnesia all turned into nothing, so far Xue Yu Ning did not remember the original point.

Thinking about how far he had come until now, there was not even a woman around who could be trusted, Jiang Hao could not help but feel a little bleak inside.

Then squatted on the side of the road. Then took out a cigarette and gave himself a quiet smoke.

Old black did not catch up to prove that he has contacted Sally, perhaps Sally's intention to let himself quiet.

Thinking of this. Jiang Hao could not help but let out a light laugh, Sally at least know to let themselves quiet. Then talk to yourself.

After taking out the phone and looking at it, looking at a missed call on the phone. Jiang Hao was silent for a long time and finally couldn't resist dialing it.

The phone rang just one time Sally was rushed to pick up the phone, but both of them were holding the phone in silence, no one wanted to speak first.

I don't know why, Sally held the phone for the first time to Jiang Hao a trace of guilt, she didn't know how to explain some things.

And Jiang Hao, at this moment, Jiang Hao has said that these things are not on the mind, he already knows the intention of Sally's heart, or guessed.

Sally just want to use himself and then contact with the Heidong Shen family, when the time to come out of their own hands from the Heidong Shen family to get the weapon.

That year in the hands of the Shen family, can make people alarming things.

‘Jiang Hao, I don’t know what you’re thinking, but can you listen to me for a moment?’

‘I didn’t think anything, I just slightly don’t know how to face you, don’t worry, it’s really okay.’

Hearing these words, sitting in the office of Sally face became a little excited: ‘What do you mean, do not know how to face me? Did I Sally do something wrong to you?’

Perhaps because just that speculative idea in, so Jiang Hao to Sally finally up a trace of defensive mentality.

‘I don’t know, but I hope you can try not to do so in the future, you know what I’m talking about, right?’

After a few moments of silence, Jiang Hao gently shook his head a little annoyed and restlessly spoke: ‘Do not talk about this matter, talk about the next arrangements, the Lin family side I have practiced, next want to go to see Chen Jingdao?’

Sally saw that Jiang Hao was not willing to talk about this aspect, so she had to nod slightly and said in a deep voice: ‘Okay, if you have time, go to Chen Jingdao’s place, I think he should be waiting for you to go there now.’

Jiang Hao smiled a little strange, so he asked directly: ‘No, why would Chen Jingdao wait for me to go over, is it because now everyone in the North House knows that I am working for you?’

Sally snorted after hearing this and said, ‘Otherwise what do you think, if not then why should they give you face, do you think a doctor’s identity can really reach so many people?’

Speaking of this, Sally continued to speak after a period of silence: ‘But you must not rush when you go, I want to see how much Chen Jingdao will offer to crush the Shen family.’

Jiang Hao can’t help but roll his eyes at Sally, he now can see through the woman’s true colors!

Pitted a hand not to say, but also use each other to deal with their opponents, and after the matter even think how to dig a hand from each other’s body!

Chapter 832

Jiang Hao has not seen some ruthless people, but such as Sally this use of people, he really saw the first time.

After taking two deep breaths, Jiang Hao nodded his head. Then he spoke into the phone and said, ‘In that case, I’ll go to Chen Jingdao’s Xincheng Group now and have a look, so I’ll talk to them while there’s still time.’

Sally nodded reassuringly, then hung up the phone, at this time there was suddenly an extra person in the room.

Looking at the huge figure should be paid fatty. He changed his face a Maitreya smile look somewhat grim and spoke: ‘Why, that boy is not aware of something?’

Sally looked at the fat man's eyes flashed a trace of disgust: 'I've said many times. I do not need anyone to interfere in my own affairs, if you think you can control me, you can try towards me!'

Fatty Fu's body is like a ghost-like wandering to Sally's front, but Sally seems not to look, the hand pen will be flung out, like a flying knife nailed on Fatty Fu's shoulder.

'Uncle Fu, you think I'm really the little girl five years ago has been growing up, you're already a little old, know what I mean?'

Feeling the liquid that kept seeping out of his shoulder, Fatty Fu gritted his teeth and looked at Sally and said in a deep voice: 'Do you know what consequences you will have if you do this. Do you know what you will face!'

After saying this, he looked at Sally's disdainful look, gritted his teeth and used his hand to pull out the pen inserted in his shoulder with a handful of blood flowers.

'I tell you, Sally, you do not get a little too complacent, now you have not yet taken over the thirteen sections, to call my bluff, at least you have to wait until you take over to have that qualification, right?'

Sally listened to snicker and looked at the pay fatty do not know what things remembered: 'You know, you now look like a clown, can not do anything about things can only open the mouth to curse.'

Speaking of which. Sally stretched out her hand with a wry smile on her face clapped her hands and said: 'The spirit is very encouraging, but unfortunately, such actions do not make any sense, you think you can win just by virtue of spit and slurs?'

The words just fell, Sally's hand is another pen sprinting away, but this time it was dodged by Fatty Fu.

Since Sally said these words when the fat man felt a feeling of unease in his heart, I do not know why, obviously Sally is still just a twenty-year-old girl.

But she seems to have some kind of aura on her body so that they feel some fear. So much so that even though Sally has done so, he still does not dare to fight back!

'Uncle Fu. Listen to my advice, just about, don't forget that you are still my men, at least in name. So listen to me.'

Fatty Fu looked at Sally, covering the wound that was seeping blood: 'What will happen if I don't listen, the fish pond in the backyard won't be the last place I'll be able to use my residual energy, right?'

Sally played with the pen in her hand, not even looking at Fatty Fu and laughed: 'How is it possible, Uncle Fu you are too down on me. How could I treat you like this?'

As soon as the words were finished, Sally's eyes were cold as she looked at Fatty Fu and continued, 'I will throw you into the machine and crush you a little bit, make you into dog food, so that it is as if you have not come into this world, do you believe?'

Just looking at Sally's eyes Fatty Fu knew that the woman in front of him already had the most important virtue of a king.

Domineering and independent, this is a king must have the quality, if any of the less then the end can only be reduced to the hands of others.

After retreating in silence. Fatty Fu has been thinking, Jiang Hao in the end from where to detect that things are not right. They had been well hidden.

The only place that could be revealed had been filled by Fatty Fu, and it made no sense that Jiang Hao would suspect the truth of the matter. Even the pressure should not be suspected to Sally's body.

Thinking about it, Fatty Fu while frowning. While covering the wound to himself lit a cigarette.

The burst of stinging pain instead allowed him to think better, in the end, who made Jiang Hao think of these things.

Just as Fatty Fu was wondering, Sally sat in the somewhat chilly office and took two deep breaths.

Every regional head has a figure like Fatty Fu beside him, they are independent of the thirteen sections and are mainly responsible for monitoring themselves.

If you really count today, Sally knows that she did a little too much, but if not, what if the other side gets the news from themselves to directly target Jiang Hao?

Although she did not do things, but the news about Jiang Hao is these people from the thirteen sections inside the take, so that the Shen family in Hedong hold in their hands if they took away, is not also to blame on their own head?

To Jiang Hao, Sally can not say exactly what kind of feelings inside herself, she only knows that she does not want to see Jiang Hao suffer even a little harm!

Thinking about the look in Fatty Fu's eyes when he was facing himself, and what he said, at this moment, Sally has already moved to kill Fatty Fu.

Then took out the phone and called the old black and said in a deep voice: 'Old black, where are you now?'

'If I were to say that I am now squatting on the side of the road eating five dollars to buy baked sweet potatoes, I do not know whether you believe it or not.'

Sally couldn't help but smile a little when she heard that, she hadn't eaten anything like that for a long time either.

But soon Sally came back to her senses, then gently shook her head and spoke: 'I know you and Ning Kun are very close, can you two do me a favor?'

Old Black while eating baked sweet potatoes, while a little surprised to speak: 'Old President, there is something you command, why do you need to use words like help.'

Sally nodded slightly and then said in a deep voice: 'I don't want to see Fatty Fu anymore, you know what I mean?'

The other end of the phone was silent for a long time before Old Black's voice came back, and he returned with some confusion: 'This, is this what's happening?'

'You don't have to care about this, you don't have to think about it, I just want to know if you can do it.'

Since the day Old Black chose to follow Sally was doomed, Sally's interests are his interests, this matter Sally simply do not need to ask Old Black.

'Can, but pay the fat strength some trouble, I will let Ning Kun with me a piece, but the headquarters side for the pay the fat after the disappearance of the trace, the old chief please bother more.'

Sally nodded in satisfaction after hearing this: 'Don't worry, as long as you can do a good job on this matter, everything that follows has nothing to do with you anymore, just leave everything to me.'

Chapter 833

I don't know when it started, Sally gradually like to sit alone on the balcony in the warm sun.

Maybe it's because she's been exposed to things a little too dark for a while. Many people compete for fame and fortune, not knowing that they will eventually become someone else's pawn.

The North House Shen family Shen Wennian father and son from the beginning should not have struck out against the Lin family. But considering what happened after the death of Chen Minggang, they will become what they are now is entirely to blame.

Or should I say that this is all a consequence of Jiang Hao inadvertently throwing things up, and Shen Qing Shu has not been positive to explain the death of Chen Minggang, more so Chen Jingdao feel that their guesses from the beginning is not wrong!

And pay the fat man. Thinking about him Sally face became a little complicated, no he. Because Fatty Fu is with her the longest time people.

The internal discipline of the thirteen sections is very strict, every helmsman outside will have a pawn by the side, these pawns collectively belong to another department outside the thirteen sections.

They make such a move because they are worried that sooner or later the people outside will forget who they are and what kind of responsibility they are shouldering.

But I don't know the more this happens, the easier it is to get people to turn against you, not to mention that Sally is the one who will inherit the thirteen sections in the future.

In fact, from the very beginning, Sally is still very trustworthy against fatty, because his appearance seems all very accidental, and there is nothing wrong.

But since Fatty Fu went to the east of the river. Sally in the East of the river some of the hands to privately investigate the whereabouts of Fatty Fu, which learned that his back is not exactly that simple.

Thinking about it, Sally sat on the balcony and sighed faintly.

There are many things that everyone is unable to help themselves, they have to bear the consequences of doing something wrong, no matter how intolerant she is in her heart, want to give Fatty Fu a decent end.

But what to do still have to do, otherwise in the future when others go to do that kind of thing, she will no longer be good to start.

She is going to inherit the thirteen sections in the future, can not because of a moment of intolerance and mess up their future. She still understands the truth that mercy does not control the army.

Thinking about what Old Black asked himself, Sally's eyes became a little confused.

Right now Jiang Hao also began to doubt the truth about his concern for the Heidong Shen family, if we can not end the matter of the Shen family in the North as early as possible, continue to delay so.

Perhaps Jiang Hao will think of things not as simple as now!

Sally shook her head slightly after getting up and took out her cell phone and made a call, the caller was an old hand that she had arranged in Hedong.

Long ago knew that Sally is to inherit the thirteen sections in the future, all parts of the rudder for Sally also very give face.

Despite knowing exactly what this person is, no one has complained to the headquarters of Section 13, which proves from the side that Sally has already started to develop her own power.

‘What is the He Dong Shen family like now. When will the detailed information be passed over?’

The person on the other end of the phone was silent for a moment and then hurriedly spoke: ‘So far the results of the investigation have just been carried out, the information that can be obtained is basically some of the bright side. Not much value, are you sure you want it now?’

Sally nodded and returned: ‘sure, you will pass the information to me as soon as possible, the northern side of things should soon be settled. When the time comes, I want to give this information to the person who came to meet you to see.’

The other side was silent for a long time before agreeing, and then Sally's phone showed that she had received an email.

She hung up the phone and looked at the email and a smile appeared on her face, then transferred the email to the computer and printed it out, leaving it for Jiang Hao and Ning Kun and other people who are going to Hedong to prepare.

Just after Sally side got some information about the Shen family in Hedong. Jiang Hao was sitting in Chen Jingdao's office at this time.

The nearly 100-storey high building indicates that Chen Jingdao still has great strength in the North Mansion!

He is not like other families in the North, as long as a little money will be hiding, or will be buried in anonymity, to avoid attracting trouble.

Chen Jingdao's style is to show others all that he has, so that when others want to do something they better think about whether they have the ability to do something unwise!

This also makes Chen Jingdao carry a beautiful name at the same time, shoulders also bear a lot of people's reputation. Many people from this point think Chen Jingdao is really a little too arrogant!

At this moment, Chen Jingdao was sitting in his office, and his nephew was quietly looking at the computer. It was as if he did not see the presence of Jiang Hao and the others.

After Jiang Hao and Old Black looked at each other, Old Black took the lead and took off the sunglasses on his face. Then he looked at Chen Jing and said, 'Mr. Chen, about the cooperation between our family president and you. I have sent it to you by email before, I don't know if you have read it.'

Chen Jingdao smiled and poured a cup of tea for Jiang Hao and Old Black before he raised his head and smiled, 'I've read the cooperation matter, it's perfect, and your boss didn't treat me poorly, which makes me very satisfied.'

Old Black followed Chen Jingdao and smiled, his serious face suddenly smiled, not knowing why it always gave a carnival feeling.

'Then you see when it is convenient to sign the contract, we will soon be able to inject capital for you, on the other hand we will also find a way to cut off the chain of funds from the Shen family from Chu Jiang.'

Jiang Hao heard these words some unexpected glance at the old black, to know cut off the other side of the capital chain is not so simple, this involves many aspects of the matter.

If everything is really as simple as Old Black said, then Jiang Hao would have trampled down the North House Shen family, and things would not have developed to such a point now!

Chen Jingdao at this time in his heart and Jiang Hao hold almost the same idea, but he did not doubt whether Sally has the ability to cut off the other party's capital chain, but in doubt the other party's intention to do so.

The upper echelons of the mail said that the North House is Sally's back garden, she will not allow anyone to interfere, not even Shen Tianyang!

And Chen Jingdao had dealt with Shen Tianyang before, he was a domineering and ruthless person!

In fact, since he began to target the Shen family in the North, he already had plans in mind, if things can not be done, would rather give all his company's property to Sally.

Also ask her to take action, and then turn the North House Shen family into a piece of history!

But happiness comes so quickly, not yet fallen to that point, Sally has begun to strike, and not only her!

This makes Chen Jingdao delighted at the same time, can't help but rise a trace of puzzling thoughts to Sally.

The North House Shen family has been rampant for so many years, beaten to death he would not believe that just because the other party has a connection with Shen Tianyang, so Sally will strike such a reason!
