

Super Rich Dad Chapter 854-856

Chapter 854

What had happened to the Shen family had not only alarmed the North Mansion, but had also caused a host of bigwigs such as Chen Jingdao to look sideways.

After all, with such a big event happening in two days, how could it be concealed from these local snakes?

But Chen Jingdao was quite happy about this matter, as far as he was concerned this was someone helping him to take revenge. He was also happy to accept some of the Shen family's properties in the Northern Province with ease.

Some of Chen Jingdao's followers also joined in to share the cake, some of whom were specially arranged by Sally.

As the Shen family was already finished in the North, Sally should have a share of the property left behind with the intention of using it for waste.

Master Lin was a bit surprised to see that Sally had just started to make a move. The Shen family had inexplicably disappeared.

But after some careful consideration and the silent Lin Yan, Elder Lin finally gave up the idea of finding out the truth.

There are times. There are times when the so-called truth doesn't really matter, there is only one thing that really matters to them, and that is sufficient profit.

The fall of the Shen family was a big event for the North House, it meant the end of an era in the North House, a feast for the gentry.

Not only the crowd led by Chen Jingdao, but even including Elder Lin and others had joined in the feast.

At this time, while Chen Jingdao was enjoying the fruits of his victory, the atmosphere in Chu Jiang Shen Tianyang's office was gradually becoming gloomy.

Chen Shilong was standing in front of Shen Tianyang with a guilty look on his face, next to him stood two people besides Shen Wennian, namely Zhao Tianzhong.

Shen Tianyang looked at the two people standing in front of him and smiled coldly. A whole three level three martial artists had gone to the Northern Province, only to return with only one, and they had brought back a waste!

That's right, Shen Wennian who had lost the Northern Province Shen Family was a waste to Shen Tianyang!

If it wasn't for his power in the Northern Province, Shen Tianyang wouldn't have taken out so much money to help Shen Wennian for nothing, but now it's a good thing.

Not only did Shen Wennian fall, but the money he had spent was also wasted, and he also lost a third level martial artist under him!

That was a third level, not some cabbage, and he had already lost a Sanniang before that. This blow to Shen Tianyang had simply hurt his bones a bit!

Shen Wennian stood in front of Shen Tianyang with his head bowed, knowing very well what he meant to Shen Tianyang and what the consequences would be if he lost the Northern Province Shen family.

After a long time of silence between the two sides, Shen Tianyang looked at Chen Shilong and said in a cold voice: 'A whole three men went to the North Mansion, and this is how you came back? Where are the heads I wanted?'

Chen Shilong lowered his head at these words, and a trace of indignation flashed across Zhao Tianzhong's face!

The intelligence only said that the target's strength should be around the third level, but it didn't say that the target was with the thirteen sections, and that there were a whole fifty beast guards!

What was Section 13. That was the number one organisation in the interior!

Not to mention the three of them, it was already very good to come back alive even if there were three more. They had escaped the rapid response department of Section 13 because they had run fast, otherwise they would all be squatting in Sally's dungeon at this moment!

Shen Wennian looked at Shen Tianyang with a shocked look and a bitter smile flashed across his face.

This was clearly pointing at the bald head and scolding the bald man, so Shen Wennian walked out and sat down and said, 'This time it was my fault. I didn't expect them to dare to bring people to my door!'

Looking at Shen Wennian's face with a look of emotion, Shen Tianyang snorted and asked, 'Where is your incompetent son, why didn't he come with you?'

Hearing these words, Shen Wennian's hand trembled slightly.

The tunnel under his study was connected to some of the air-raid passages of the Northern Mansion back then. Each of these passageways led to the outside, but the inside was so intricate that he was likely to get lost in it, not to mention Shen Qing Shu!

Thinking of this, Shen Wennian spoke somewhat sadly, 'If I'm lucky, he should have come out by now, if I'm unlucky, I'm afraid I'll have to make another trip back to the Northern Mansion soon.'

Hearing this, Chen Shilong looked at Shen Wennian in surprise and said angrily, 'Are you crazy. If I had known you were thinking this way why would I have saved you, I might as well have saved my brother!'

After Shen Tianyang's eyes swept Chen Shilong with a grim look. Chen Shilong hastily lowered his head and shut his mouth, as if he had never opened his mouth to speak.

Zhao Tianzhong was indignant despite his face. But he did not dare to show the slightest sign of it in front of Shen Tianyang!

‘In that case, do you need my side to help you prepare something. After all, we are both branches of the Shen family, I will still help with this small favor.’

After saying this, Shen Tianyang leisurely looked towards Shen Wennian and lit a cigarette for himself, the faint aroma of tobacco instantly filled the entire room.

Shen Wennian looked at Shen Tianyang through the somewhat misty smoke: ‘Give me ten people, I will definitely find my son, from now on I am willing to sign a contract with you and help you do something!’

Looking at the body like that after hearing his words, a look of disdain flashed across his face, Shen Wennian knew he was in trouble!

So he hurriedly wrapped himself, then opened a bottle of wine and placed it in front of Shen Wennian in a regular manner.

‘No matter what he is my son, I have to get him back even if I don’t want anything, otherwise I would be failing in my duty as a father!’

Shen Tianyang picked up the wine on the table and smiled, ‘Quite good, but what guarantee do you use that you won’t definitely meet something bad when you go, now that your squad no longer has a foreman.’

Hearing this, Shen Wennian looked at Shen Tianyang with a strange expression, and the two of them had understood part of each other’s thoughts while exchanging eyes!

Then, after a moment of silence, Shen Tianyang took a cold look at Chen Shilong and said, ‘Last time, you couldn’t even handle the smallest thing you were given, so if you are given a big thing this time, do you have confidence that you can accomplish it?’

As soon as Shen Tianyang’s words fell, before Chen Shilong could answer, Zhao Tianzhong suddenly stood out, with hatred on his face, he looked at Shen Tianyang and said, ‘As long as I am allowed to go back again, no matter how difficult the task is, I will take it!’

Chen Shilong smiled and looked back at Zhao Tianzhong with some concern, he knew that Zhao Tianzhong and Jin Shengwu had grown up almost together since childhood, and their relationship had long since surpassed that of real brothers.

However, he still did not expect that Zhao Tianzhong would act so persistently in all matters that involved Jin Shengwu!

Thinking of this, Chen Shilong reached out and patted his face before speaking, ‘Fine, fine, you can forget about your face, you can skip the meal, but the money has to be paid, otherwise we can’t do it!’

Ever since Shen Tianyang started leading the Overseas Shen Family Hands-on Association, he had never been short of money.

At this moment, after watching Shen Tianyang leave, Shen Tianlong gave Zhao Tianzhong a vicious stare!

Chapter 855

‘Are you crazy, you don’t even know what the situation is in the Northern Province right now, how dare you foolishly take on this mission!’

After saying this, Chen Shilong looked at Zhao Tianzhong angrily: ‘I know you are very close to Jin Shengwu. But now that he has become a prisoner, are you going to go over there alone and get him back?’

Zhao Tianzhong gave Chen Shilong a grim look before turning his head and saying in a low voice, ‘So what, he’s my brother. I can’t possibly leave him behind!’

‘But have you ever thought that going over there yourself would be for nothing, do I have to teach you such a simple truth?’

‘So you’re going to let me just watch and not care. Just like when we left, you would rather save an outsider than your own brother?’

Hearing these words, Chen Shilong looked at Zhao Tianzhong and fell silent.

He had chosen to save Shen Wennian in the first place because on the one hand, he was Shen Tianyang’s collaborator, and on the other hand, because the other party was also a branch of the Shen clan, which they could not necessarily afford to offend.

Now it seemed that all these considerations of his own had turned into an excuse to get his brother killed.

After laughing bitterly twice, Chen Shilong gave himself a fierce slap and laughed, ‘Yes, you are right, I am a coward, I couldn’t save my own brother. Are you satisfied?’

As soon as the words left his mouth Chen Shilong slammed the door and left, while Zhao Tianzhong looked at Chen Shilong’s back and hesitated for a moment, but in the end he did not say anything.

Shen Tianyang sat on his chair and looked at Chen Shilong’s back, a dark light flashed in his eyes, then he said softly, ‘Zhao Tianzhong, are you sure you want to follow Elder Shen to go back to the Northern Mansion?’

Zhao Tianzhong turned his head to look at Shen Tianyang and Shen Wennian, and after a moment of silence, he nodded and said, ‘I am willing!’

Seeing this, Shen Wennian was overjoyed, with such a level 3 martial artist by his side, the chance of saving his son would be a little higher!

Thinking of this Shen Wennian gratefully looked at Zhao Tianzhong and smiled, 'Brother Zhao, don't worry, as long as you come back with me from the Northern Province. I, Shen, will not let you down!'

Zhao Tianzhong gave a sorrowful glance at Shen Wennian before snickering, 'Perhaps you don't understand the situation, I'm not going with you to the Northern Province to help you find your son, but to find my brother!'

With that, Zhao Tianzhong also slammed the door and left, not giving Shen Wennian the slightest bit of face between his words.

Shen Tianyang looked at Zhao Tianzhong's back and shrugged his shoulders, treating such people with straight brains, he didn't even bother to punish the other side.

He didn't bother to get angry with himself as such people usually didn't live long anyway.

Shen Tianyang then looked at Shen Wennian and smiled and said, 'There's something I forgot to mention, ask. Jiang Hao is a person you should still remember, right?'

Shen Wennian's face became slightly gloomy before he nodded and said, 'I still remember, a lot of things happened to my Shen family in the North before. I've been unable to find a clue, and now it looks like this guy is responsible for it!'

After saying this, Shen Wennian looked at Shen Tianyang with a bit of complaint and said, 'It was said that we had to eliminate the root of the grass back then, but I never thought that such a scourge was still left behind.'

Shen Tianyang was playing with a string of beads in his hand. Although he had initially regretted leaving such a scourge behind, he had later thought it through.

If it wasn't for Jiang Hao's existence, he wouldn't even have known that the Shangdian had such an effect.

From the information he had at the beginning when Jiang Hao was in Chu Jiang, at that time Jiang Hao was only about a second level martial artist. After just a year, Jiang Hao already possessed the strength of a third level martial artist!

'Perhaps you don't know that the Shang Dian of the Shen Clan is in this brat's possession, the reason I want you to find him is that I hope to use the power of the Shang Dian to go to the next level!'

Shen Wennian looked at him and smiled sorrowfully, who didn't know who was in each other's pocket.

It was only because they were trying to save face, so neither side could afford to toss anything around for a while.

After a moment of silence, Shen Wennian suddenly spoke up, 'In that case, why can't you go to the North Mansion to catch him yourself. With your strength, catching him should be as easy as a snap.'

It was not without basis that Shen Wennian said this. Years ago Shen Tianyang had already reached the threshold of the fourth rank.

Unlike Jiang Hao, Shen Tianyang's strength had been built up by himself step by step. There had never been any external help!

Because of this, even though Shen Wennian had been in a high position for many years. But in front of Shen Tianyang, his aura was suppressed to death.

After hearing Shen Wennian's words, Shen Tianyang smiled and said, 'You don't know anything about this, the people of Section 13 have been secretly protecting that kid, so I don't know what kind of devious plans they are playing.'

This bit of information was still learned by Shen Tianyang who had dropped big money on some people from Section 13 in Chujiang, which also explained from the side that it was inevitable that Jiang Hao escaped with his life at 30 Mile Shop!

After the two of them briefly communicated the details, Shen Wennian retired to rest, after all, twenty beast guards were not that easy to deal with, and he had also suffered a lot of internal injuries.

And Shen Tianyang waited until after she left, his face was gloomy as he picked up the phone and called a person.

On the phone, Shen Tianyang asked a question, 'Why did no one tell himself about the matter of the Northern Mansion having fifty beast guards!'

The other party was silent for a long time after hearing this question before slowly speaking, 'The Chu Jiang branch has been disbanded for investigation, and all our news channels have been blocked, Mr. Shen, forgive me.'

Hearing these words, Shen Tianyang then came back to his senses, it turned out that it was the people from Section 13 who had already started to intervene on Chu Jiang's side.

After hanging up the phone, Shen Tianyang laughed coldly, if he was so easy to deal with, I'm afraid he would have died a few years ago!

While Shen Tianyang started to prepare for a counter-attack, Sally returned to her villa and sat in her office with a gloomy face.

In just two days' time, Sally had lost twenty-one beast guards, and Sanniang's second-in-command had also escaped while they were at Shen's house!

That equated to twenty-one of their beast guards in exchange for two Level 3s, one of whom was now seriously injured and unconscious!

Just thinking about it, Sally felt as if she was a little out of breath, that was a whole twenty-one beast guards!

Ning Kun stood in front of Sally with his head bowed, not daring to speak, he hadn't expected such a big change when the plan started, that the Shen family would suddenly arrive with three level three martial artists!

If Jiang Hao hadn't been there, they would have been lucky if they had survived, not to mention keeping each other alive!

After the two stood silent with each other for a long time, Sally took a deep breath and sighed, 'Tell me, how do you plan to wrap up this matter?'

A bitter smile appeared at the corner of Ning Kun's mouth, the responsibility of twenty-one beast guards was not something he could afford to take on?

After slightly shaking his head Ning Kun spoke in a hoarse voice, 'To be honest, I'm also a little unsure of what to do about this matter right now.'

Chapter 856

'News has come from Chujiang, the headquarters has broken up the Chujiang branch and reorganised it, I will most likely go to Chujiang next, and the matter here will be left to Old Black.'

After saying these words. Sally quietly looked at Ning Kun in silence for a moment, then spoke, 'Do you have any plans next?'

Sally said this as if there was a trace of sadness hidden between her eyebrows, everyone knew that Chujiang was now Shen Tianyang's place.

If she went there at this time, even if she thought with her toes, she would know that nothing good would come out of it. But the headquarters had picked her to go over there.

Ning Kun suddenly looked up at Sally and froze for a moment before hurriedly saying, 'What about the people in charge of Chu Jiang, does the entire Chu Jiang branch have to be rebuilt?'

Sally shook her head lightly. This was not something she needed to think about.

If she were to think about it, it was likely that someone at the headquarters was trying to test her abilities on purpose so that they could decide when to let her take over.

Thinking of this Sally let out a deep sigh and said back, 'You should talk about yourself, do you have any plans after I leave, do you want to stay and help Old Black out?'

Ning Kun took a deep breath, his mind struggling fiercely inside.

Staying might not be without its advantages, Old Black and he were through one semester of cadets, and they could trust each other in terms of relationship, so there would be no mutual suspicion.

But there was also a downside, and that was not being able to show the revenge in his chest at first. That's even more important than some things!

But if he didn't stay, with Sally going to Chu Jiang and the Northern House being handed over to Old Black, he would just be a fish to go home to even if he returned inside Section 3, and wouldn't necessarily be reused.

Thinking of this, Ning Kun rubbed his brow with some headache and said, 'Is there any room for manoeuvre in this matter, I really don't know how to choose.'

Sally looked at Ning Kun's torn look and frowned, what she was tired of was a big man hesitating to do something, not decisive at all!

If you want to eat comfortably then you can stay in the North House, Old Black will not shortchange you. But if you really want to do something, then go to the east of the river.'

Sally had made the plan to go to the east of the river a long time ago, partly to investigate the intentions of the Shen family in the east of the river.

If Shen Tianyang hadn't come back, Sally wouldn't have had to go this far, but Shen Tianyang had not only come back, but had even sent people to try to get in touch with the He Dong Shen family several times.

After all, if they can stand in a place like Hedong for so long without falling, they must have their own abilities.

And everyone knows that. The Hedong Shen family had a weapon in their hands, a weapon that they had heard was extremely frightening!

This was all the more reason for Sally to be on the lookout for the Shens of Hedong. That was why she wanted Ning Kun to pick up the burden of this matter.

It was all right to let Old Black keep it, but if she wanted to count on him to open the bracket, she would be thankful if Old Black didn't lose all of his old money!

Ning Kun looked at the look on Sally's face and was slightly silent for a moment, it's not that he didn't want to go to Hedong. But the Shen family was already so strong in the North.

If they went to the East of the river, wouldn't the opponents they would have to face be even more terrifying and amazing?

He was a man who liked to use his head, but that definitely didn't mean he would do it, and besides, he could hardly guarantee his own safety away from the Beast Guard. Not to mention going to deal with the He Dong Shen Family!

Thinking of this, Ning Kun hurriedly shook his head and said, 'No, no, no, if I were to go to Hedong, I'd rather face the mess here in the northern province alone, or go back to headquarters with you and just muddle through!'

Sally looked at Ning Kun and rolled her eyes, there was someone else who was hesitating just now, but she didn't expect that her words would scare the other party.

After taking a deep breath, Sally looked at Ning Kun helplessly and said, 'The matter in the east of the river is very important to us as a whole, if the Shen family in the east of the river joins hands with Shen Tianyang. Not to mention Chu Jiang, we won't be safe anywhere inland!'

‘But if I have to face the Shenyang family in Hedong. I’m not the first one to be safe!’

As soon as the words left his mouth, a voice suddenly came from the doorway: ‘Who says you’re going to face the Hedong Shen family alone? The people Sally picked last time have already rushed to the He Dong Shen family.’

Ning Kun and Sally turned their heads to look at the door when they heard the voice, but they saw that Jiang Hao was walking in wearing a casual home outfit. Then he sat down on the sofa with a big grin and picked up the apple on the table and nibbled on it.

‘Some of us have gone to Hedong? When did that happen, why didn’t I know?’

Ning Kun looked at Jiang Hao and questioned, and then turned his head to look at Sally, because according to reason, Sally would have consulted with him on such a matter, but he hadn’t received any news beforehand!

Sally also looked at Jiang Hao with some surprise and said, ‘When did this happen, why don’t I remember anything?’

Jiang Hao sat on the sofa and looked at the dumbfounded two people and shrugged back, ‘It was some time ago, the people you introduced me to have gone to Hedong through Master Xue’s channels.’

The truth was that it wasn’t that easy to get to Hedong, only someone like Master Xue, who was a businessman, could get people in and out of Hedong at will in the entire Northern Province!

Sally looked blankly at Jiang Hao for a moment in contemplation before she remembered the people she had introduced Jiang Hao to last time who were preparing to go to the East of the river to lurk around.

So she smiled and said, ‘I almost forgot if you hadn’t mentioned it, what about those people now, does Old Black have any news about them?’

Ning Kun pondered for a moment and then remembered what had happened that time, so he hurriedly said, ‘Right, if they go to the east of the river, they can establish a contact point in advance, and then we just need to rush there, right?’

Sally smiled and nodded before saying, ‘Don’t worry, you’ll just be collecting samples of the flora and fauna of the area, I think it’s a unique island that only appears once every hundred years!’

That’s one thing, and the other is that Hedong has a lot of people trying to all find endorsements on it because of its unique geography.

This has become a feature of Hedong, as if it were the reason why the Shen clan would have split a branch here back then!

Even if all the people of the 36 branches of the Shen clan had died out, they would have been assured of their successors!

But the people of the Shen clan never imagined that the first people to be destroyed would be them!

And that the people who had taken the butcher’s knife to them would be their former family members!

Just thinking about this Sally couldn't help but shake her head slightly and sighed, 'Alright, we'll go together if the situation allows, and try to avoid wasting our strength!'
