

## Chapter: 901

The three of them were walking on a quiet path by the lake. The wind blowing from the lake had a fresh taste, and the occasional unknown bird calls were so crisp and sweet.

There are pedestrians around from time to time, and in this quiet place, they also secretly enjoy half a day of leisure.

Along the way, Bai Su would introduce something, tell some stories he heard, and sometimes make fun of them occasionally, but the two sisters just agreed and smiled, as if they were a little bit cautious and not so comfortable. .

Several people walked around the lake for a long time, and they were a little tired. Bai Su proposed to rest in the pavilion next to him for a while.

The two sisters followed him.

At this time, there were three or four people sitting in the pavilion. They saw Bai Su and several people coming, especially when they noticed the two Long Ling. The eyes of several guys were straight.

Although being looked at like this made Long Ling very uncomfortable, they still sat down beside the pavilion.

I thought that I could leave after a short rest, but I didn't expect one of the three or four people to come over, with long hair draped over his shoulders, with an evil look.

He seemed to completely ignore Bai Su and went straight to the two sisters.

"Little sister, come out to play, are you interested in being with your brother!"

Before Long Ling and the others could speak, Bai Su coldly said to the long-haired man, "Get away!"

At this time, the long-haired man put his gaze on Bai Su, pointed at Bai Su fiercely, and said to him, "Boy, let me stay away if you know him."

Bai Su didn't talk too much nonsense. He directly raised his hand and grabbed his finger. When he broke it back, the man screamed in pain.

The long-haired man covered his injured finger with his other hand, and shouted at Bai Su: "I am going to kill you."

Several people who were probably with him, kept looking at this side, and saw Bai Su doing their hands,

and rushed over immediately.

One of them asked the injured long-haired man: "What's the situation?"

"This kid broke my finger and fucked him." The long-haired man shouted.

The two of Long Ling watched this sudden situation in horror, and Bai Su had already stood in front of them and protected them behind.

The three opponents raised their fists together and moved towards Bai Su, but Bai Su's figure was agile. Those few people couldn't touch Bai Su's body at all. Without three or two punches, they were easily put down by Bai Su. land.

Only the man with the fingers in his hand was left, and he said with a panic: "You fucking wait with Lao Tzu, Lao Tzu calls for someone to go."

After speaking, the few people who were lying on the ground slowly getting up, turned around and ran away by themselves.

Several of his companions also left the pavilion with them.

Bai Su turned around to look at the two sisters at this time, and asked with concern: "You haven't been frightened, are you?"

Both Long Ling shook their heads. Although they had driven away a few people, Long Ling was still worried about what the long-haired man had just said, and asked carefully, "Will they come here?"

Bai Su smiled and said, "That kind of bastard is originally a scum, that is, he can say some cruel things, so I don't need to take it seriously.

Seeing that Bai Su looked completely indifferent, Long Ling and the two were also a little relieved.

The three of them sat in the unmanned pavilion and took a rest for a while. Seeing that the time was almost the same, Long Ling suggested to go back.

Although Bai Su wanted to stay a little longer, he did not veto Long Ling's words.

The three rushed back, but didn't expect that they would actually run into a few people who had just ran away at the intersection.

The long-haired man also deliberately wrapped his injured finger. Behind him, he followed a dozen people, who seemed to be the one he had found to deal with Bai Su.

"Boy, you fucking run again." The long-haired man said arrogantly.

Bai Su once again protected the two sisters behind him, handed a key to Long Ling's hand, and said in a low voice: "Wait a moment if the fight really starts, you will run into the car, I'm afraid they will grab you and threaten you. I."

Long Ling nodded.

At this time, the group of guys had rushed over, and seven or eight of them had tools in their hands.

Bai Su shouted: "Run!"

The two of Long Ling hurriedly ran towards the position of the car, but apart from the seven or eight who were sorry for Bai Su, several others had been staring at the sisters of Long Ling.

Seeing Sister Longling running away, she immediately chased after her.

Although the two of them were already trying very hard to escape, they couldn't match the physical strength of a few bastards after all. One guy reached out and grabbed Feng Qi's hair.

Feng Qi screamed, and could only turn around and struggle. Long Ling watched Feng Qi being caught, and stopped to help her.

But the two who came up immediately grabbed Long Ling's arm. Their strength was so great that no matter how Long Ling struggled, they couldn't get rid of it.

The sound of the two struggling and shouting finally attracted Bai Su's eyes.

"Let them go!" he shouted at the group of people.

But naturally those guys wouldn't do this. The long-haired man even yelled, "Stop for Lao Tzu. If you dare to do it again, Lao Tzu will scratch this little girl's face."

The knife in his hand had reached Fengqi, and when he entered Fengqi, he shouted again.

Bai Su looked at them fiercely, but still helplessly stopped his movements.

Then someone went up and punched Bai Su's face, wiped his lips, and made Bai Su spit out a mouthful of blood.

"Damn, isn't your kid very good at fighting?"

Then came another punch, which hit Bai Su's stomach.

Bai Su bent down weakly.

Long Ling shouted at them: "Don't hit him again."

The long-haired man standing next to her smiled and said, "Why, Xiao Niangpi feels distressed. Now that he feels distressed, my elder brother stops fighting. Now I can be friends with my elder brother."

Long Ling stared at him, and the guy didn't care, he just smiled and touched Long Ling's face. Long Ling wanted to avoid him, but was caught by someone, where could she hide.

The slightly squishy hands touched her face, causing her to frown in pain.

But the long-haired man seemed to be happy to see Long Ling's pained expression.

There were a few pedestrians around and looked over here, and the guy beside the long-haired man said, "Those people may want to call the police. Let's take them away."

The long-haired man looked around, and it was really not good to stay here anymore, and shouted, "Tie up that man for me and take them along."

As a result, Bai Su and Long Ling were taken to a long van, tied up, sealed their mouths, and couldn't do anything.

Back in the Qian's villa, in the basement where Chen Feng was, stood in front of him, a thin man.

## **Chapter: 902**

This man is wearing a black leather jacket, with a neat haircut, and a neat beard on his lips, which makes people feel that he is more mature.

Chen Feng suddenly opened his eyes and saw the guy in front of him.

But this guy didn't do anything to him with the previous people, and Chen Feng asked curiously, "Who are you?"

The man whispered, "I'm here to save you. You can call me Baixing."

Naturally, Chen Feng had never heard of this name, but he didn't care, he just asked, "How are you going to save me?"

Bai Xing said: "Just take you out like this."

Chen Feng curiously asked, "Is there no one to stop you, but I killed the grandson of this family, they won't let me leave easily."

Bai Xing nodded and said, "I know. But they won't stop you from going out with me."

Chen Feng just looked at him, as if asking him to verify if what he said was true.

Bai Xing didn't speak any more, took out a key from his pocket, walked to Chen Feng's side, and untied all the shackles on his hands and feet one by one.

Chen Feng was very weak now. Without the support of the shackles, he fell directly to the ground.

"Believe me now?" Bai Xing looked down at Chen Feng and said.

Then he squatted next to Chen Feng, took another pill from his pocket, and said to him, "This medicine can stimulate the potential in your body, allowing you to move for at least two hours."

He put the pill in front of Chen Feng, and Chen Feng said, "Should he not be that simple?"

"As for those side effects, are they necessary for you? As long as they are not dead, they are better than they are now." Bai Xing said naturally.

Chen Feng seemed to be persuaded by him and ate the pills in front of him in one bite.

Sure enough, strength began to emerge on the body, and the body began to become hot and dry, but it was like the glimmer of the dying person.

After a while, Chen Feng could finally stand up, and he coldly said to Bai Xing beside him: "You are not afraid that I will kill you now."

Bai Xing didn't have any fear: "Do you think it is necessary? Even if you kill me now, you can't get out."

As they were talking, two people ran over from the door of the dungeon. They seemed to belong to the Qian family.

One of the guys shouted at Bai Xing, "Young Master Bai, why are you doing this? Although the boss promised you, he never said that you would take this person away."

Bai Xing replied indifferently: "Even if I want to deal with that guy, that is the Bai family's own business. It is not your turn to tell me. Get out of me."

After speaking, he walked ahead first, and Chen Feng followed.

When passing by the two of them, they did not move, and even wanted to say something, after being glanced at by Bai Xing, they held back.

When he reached the top, the rickety old man was already waiting here. He saw Bai Xing and asked, "You want to deal with your brother, I can help you, but this person, you must stay."

Bai Xing looked at him disdainfully and said, "Old man Qian, you think I don't know what you are thinking. That guy wants those two women, but I just can't make him wish. And if you want to deal with him, Then give me a good job. I won't lose any points for what you deserve."

Then he ignored it and walked directly outside the door.

Chen Feng also glanced at the old man, and Chen Feng left like this in the eyes of the other party's extremely angry.

There was already a car waiting for them outside the door. Bai Xing let Chen Feng get in the car, but he didn't know where he was driving. Bai Xing remained silent all the time, and Chen Feng did not ask.

When he finally came to an abandoned factory, Bai Xing slowly said, "The two women who followed you are inside. You are now able to bring them out, but the guy with the surname Bai, you can't move. ."

Although Chen Feng didn't quite understand what he meant, he knew that the two women he was talking about were Long Ling.

So weirdly asked: "Why are they here?"

"You don't have to worry about it, just bring them out. Remember, don't touch Bai Su."

The guys in the factory are a group of little guys. After coming up, Chen Feng grabbed a guy and asked, "Where are the two women?"

The man showed Chen Feng the way in horror, but Chen Feng still knocked him unconscious.

And he went all the way in, no one could stop him.

When Long Ling saw Chen Feng standing in front of the door, they were also very surprised.

Chen Feng rushed to unlock Long Ling's seal, and Xiao Nan exclaimed, "Chen Feng, how could it be you."

As Chen Feng untied Feng Qi, he replied, "Someone saved me."

"But how do you know we are here?"

"That person told me too."

With that said, he had already untied all the ropes bound on the two of them.

Feng Qi hugged Chen Feng with excitement, and couldn't help crying.

Chen Feng stroked her back and comforted: "Okay, stop crying, haven't I come back?"

But Feng Qi held him tighter instead.

"Let's go, there is not much time left." Due to physical reasons, Chen Feng did not dare to stay here more.

But Long Ling stopped him and said, "We have to save Bai Su, and he has also been arrested."

Chen Feng shook his head and said, "He doesn't need to save it. He directed and performed all of this."

Long Ling looked at Chen Feng in surprise, and said, "How is this possible? I saw him being beaten and injured with my own eyes."

Chen Feng said: "That must be fake too, let's go, time is running out."

But Long Ling hesitated. She really didn't seem to want to believe that all of this was fake.

After thinking for a long time, he said, "I think we still have to save him. Even if it may be false, it may be true. He was caught for our sake."

Feng Qi seemed to agree with Long Ling's statement.

She also looked at Chen Feng expectantly. Chen Feng could feel that her body was really getting closer and closer to the limit, but Sister Long Ling asked so, and he could only nod helplessly: "Okay, then."

The three of them went to the place where Bai Su was detained together, but before entering the door, they heard a voice coming from inside.

"Young Master Bai, I think it's almost time. Why don't you go out."

And another voice that sounded more refined said: "Don't worry, when they feel desperate, especially in the situation of starvation and poverty, my presence is more likely to arouse the sense of worship in their hearts."

But he might never think that when he said this, the two people who originally needed him to save were standing outside the door and hearing them clearly.

### **Chapter: 903**

Feng Qi originally wanted to rush in and scold him fiercely, but was stopped by Long Ling: "How he was originally has nothing to do with us, we have done what we should do, this is enough, let's go."

Feng Qi still glanced angrily, but left with Long Ling.

Chen Feng followed behind them, but his body felt more and more exhausted. The kind of damage to his original body, coupled with pushing out all the potential of his body, made him afraid that he would faint directly when the time was up.

And sure enough, after they walked out of here, before they even came outside, Chen Feng suddenly fell down.

This caught Xiao Nan and both of them off guard. They rushed over to check it out, but no matter how they shouted, Chen Feng had already passed out.

Just when Sister Long Ling was at a loss, they walked into two men in black suits from outside, and they seemed to be doing something to Chen Feng.

Long Ling hurriedly stopped in front of them and shouted to the two men: "What do you want to do?"

But these two guys ignored Long Ling at all, just walked over to carry Chen Feng on his back, and then walked outside.

Long Ling was going to stop again, and one of the guys said, "We are here to save him. If he is not rescued in his current situation, he might die here immediately."

Long Ling had just seen Chen Feng's physical condition once, and it was indeed the same as these two guys said. Chen Feng's body was very poor, and he had even stepped on the edge of death with one foot.

But these two strange guys, she thought about it, and had to follow them.

When he came outside, Bai Xing was already waiting there, and seeing Long Ling following along, he took a medicine box from the car and threw it in front of Long Ling.

"His current situation, if you can't save him, then he has only a dead end."

Long Ling still looked incomprehensible, but she knew that Chen Feng's condition was in danger now, so she could only put aside all the doubts and rescue Chen Feng first.

Long Ling shouted to Feng Qi: "Put the needle on him."

Feng Qi walked up to them anxiously, looked at Chen Feng lying on the ground, and couldn't stop crying.

Long Ling stopped drinking and said, "Hurry up, now is not the time for you to feel sad."

Feng Qi immediately opened the medicine box and took out the acupuncture bag from the inside. At this time, Long Ling had already stripped away Chen Feng's clothes.

The shocking scars on Chen Feng's body immediately caused people to sigh, Feng Qi yelled in fear, and Long Ling also took a breath from his body to calm his emotions.

"Don't be distracted." She also comforted Feng Qi.

Enduring the discomfort he had seen, Feng Qi took out a golden needle from his bag and inserted it into Chen Feng's Tianquan acupoint.

Long Ling on the side withdrew the needle at the same time, piercing it more quickly than Feng Qi.

The two exchanged so quickly, a set of acupuncture and moxibustion was completely sprinkled on Chen Feng's body, which was more troublesome than treating Mr. Qian that day.

After about a hundred needles were inserted, Bai Su walked out from the door with someone.

The first thing he saw was Chen Feng who was treating there, and the second thing he saw was the white star who stood aside and stared at him.

He will be surprised and say: "It will actually be you."

And Bai Xing replied plainly, "Didn't you think of it? My stupid brother."

Bai Su glanced at the Long Ling sisters who were already sweating profusely, and continued to say to Bai Xing: "You are so bad and I am a good thing. Do you think I dare not do it to you? Now the family knows that I will be The next generation of the Patriarch of the Bai family, and you can only be a sideline. If I deal with you, absolutely no one dares to stop him."

Bai Xing snorted coldly: "The trash in the family, you can believe what they say, it is really ridiculous. I just took out a mine, and the group of people knelt down to me humming. . Patriarch, you have to have the strength to get it."

Bai Su seemed to know the temperament of those guys, but he didn't expect that Bai Xing would dare to take out a mineral to buy those guys.

Although he knew that he had lost face, he also knew that he had indeed lost, and that staying here was just being treated as a joke, so he directly took the person next to him and left here.

And the two Long Ling who applied the acupuncture have also reached a very critical moment. The speed in their hands is even faster than that of the next. This is nothing to Long Ling, but Feng Qi has long been oozing out. The big beads of sweat dripped from his cheeks drop by drop, and the clothes on his body were all wet with sweat.

Long Ling said: "Close the needle."

Feng Qi stopped the movement in his hand and began to take back some of the silver needles in Chen Feng's body.

This does not mean that it is over, but that it has just begun.

After Feng Qi refired and disinfected the golden needles, Long Ling took it again and guided the aura in Chen Feng's body.

After narrowing the needle repeatedly and applying the needle, more than half of the time passed, and even afterwards, Long Ling began to feel a little unable to support it.

Feng Qi hurriedly said, "Sister, let me do the rest."

Long Ling also knew that this set of acupuncture methods could not be found by her alone, so he nodded and exchanged their jobs with Feng Qi.

Even the few people who were waiting on the side felt nervous, but Chen Feng's faint breath was always maintained, and it was never cut off.

The sky was getting dark gradually, and Bai Xing asked them to turn on the headlights of the car to illuminate them. He didn't know how long it lasted. Feng Qi couldn't hold it anymore and he fainted directly on the ground.

Long Ling completed two things alone, which was also a great challenge for her.

However, when Chen Feng's breath finally returned to the normal circle, Long Ling no longer had to work hard anymore, and he fainted at the same time with a golden needle in his hand.

Looking at the three people who fainted on the ground, Bai Xing said to the person beside him, "Bring them to the car."

And this time I woke up, I didn't know where they would be.

This time Chen Feng woke up. He was not in a dark dungeon, but lying on a clean bed with a beautiful woman sitting beside him.

An elegant face with melon seeds, black and beautiful hair, bright red lips, and bright and radiant eyes.

The fleshy skin can be broken by blows, and the perfect line outlines a woman's sexy side. It seems to be the right size, but when Chen Feng saw her, he got an angry look.

"Did you just stare at people so unreasonably when you first met someone?"

The voice was crisp, like the screaming of a yellow oriole, but Chen Feng didn't even react to what she said, just opened her mouth, a little dazed.

#### **Chapter: 904**

The woman stood up angrily, as if about to leave.

Chen Feng hurriedly shouted, "Wait!"

The sexy girl didn't mean to stop, she left the room directly, and even slammed the door violently, making a bang.

Chen Feng shook his head, wondering why he was so unsure.

After reconciling his mind, he looked at the condition of his body again, but was surprised to find that most of the injuries on his body had healed. Apart from the injuries outside of the skin, he was still a bit shocking, but his body was in good spirits.

It's boring to lie down, and since the woman left, no one else has come in.

He was also worried about the two sisters Long Ling, enduring the pain from the wound that could not be touched easily, and got up from the bed with difficulty.

Opening the door that the woman had just slammed on was angrily, walked outside and inspected it in a circle, but it seemed that Chen Feng was the only one here.

He was hungry, but he couldn't find any place to eat.

Shouting loudly here, there was no response. He wondered if he had come to a different space. There was no one here except the woman.

There was no way, he was going to go outside, walked to the big iron gate in the yard, and looked towards the end of the road that stretched over. There was actually no one nearby.

Chen Feng was really scared. Could it be that there is really no one's world here?

In the sky, a plane roared and flew overhead, which finally gave Chen Feng a lot of peace of mind. He was still on earth.

Sitting under a pergola by the hillside, a large old locust tree twisted its branches, just covering a space.

There were tables and chairs placed there for people to rest under the tree, and Chen Feng walked over and sat down.

The stone bench is very cold, and the smooth surface will make you feel like you want to slide out.

Looking at the distant scenery, it seemed a bit desolate. He still didn't leave the desert, maybe just on the edge of him.

After sitting for a while, I don't know how long, and finally a black car drove from outside. Chen Feng didn't move, and he didn't have the urge to find someone as eagerly as he was just now.

This is just a place to rest on vacation, so it's normal to not see people, but I don't know what the white star means when he put himself here, but doesn't care about him at all.

The car parked in the yard, and then two people walked down from above. Chen Feng glanced at the man and recognized the strong man with Bai Xing.

But that woman didn't know him, nor was it the sexy woman Chen Feng saw.

When they got out of the car, the strong man saw Chen Feng sitting there, he walked straight over, and the woman smiled at Chen Feng and walked into the house.

"What are you doing sitting here?" the strong man asked.

"Just do it casually," Chen Feng replied.

Since Chen Feng didn't want to talk, the brawny man didn't take it seriously, and continued: "Young Master Bai asked you to stay here, and he will look for you again when you recover from your injury."

Chen Feng asked, "Which Young Master Bai, I know two."

The brawny man has no idea of joking with Chen Feng: "The one you know."

Chen Feng was very indifferent to the strong man's anger. He just continued to ask: "You asked me to heal my wounds here. What do you want me to do for you?"

The strong man took out a pack of cigarettes from his pocket and handed it to Chen Feng kindly. Chen Feng shook his head, and he also took one out of it and lit it.

He said: "I don't care about this kind of thing. I just know that Young Master Bai said so. And you are a very powerful person. If you are willing to leave, Young Master Bai will not stop you. But he saved your life. , He hopes you can remember."

Chen Feng smiled and said, "Do you still want to use this kind of thing to blackmail me for the rest of my life."

The brawny man said: "Young Master Bai didn't mean that. He just meant that if it is really dangerous, you can give him a hand."

Chen Feng was a little surprised: "He will want to let me pull him, which is somewhat incredible."

The strong man said again, "Shao Chen, you shouldn't mind if I call you that way."

Chen Feng smiled and said: "It seems that no one has called me like this for a long time, as if even I have forgotten myself. So it seems that you have investigated my identity?"

The strong man nodded: "Shao Bai said, if he goes to Yanjing, he must visit Shao Chen, but he has never had a chance."

Chen Feng remembered the Chang family sisters and asked, "What about the two sisters? How are they?"

The brawny man was a little confused, and seemed reluctant to say clearly.

"What's the matter? Did something happen?" Chen Feng asked anxiously.

The brawny man said: "Major Bai told them all about you, but even though they tried their best to save your life, after knowing that you are a very rich person, they left alone and told you not to go find them."

Chen Feng didn't expect that the sisters would be so repulsive to come into contact with a world completely different from them, but he could only smile bitterly, he couldn't always pretend to be a very ordinary person with him.

"I see." Chen Feng replied somewhat lonely.

The strong man told Chen Feng some things about here. The woman who came with him will take care of Chen Feng here. If there is any need, she can tell the girl that she will do everything she can, and it can't be solved. You can find him.

Chen Feng just agreed perfunctorily.

After introducing all this, the strong man was about to leave. Chen Feng suddenly remembered the beautiful woman he saw when he woke up, and asked the strong man, "Who is that beautiful woman here?"

However, the strong man looked at Chen Feng suspiciously and asked, "What woman?"

"It's the beautiful woman with long black hair. When I woke up, she happened to be in my room." Chen Feng introduced.

But the strong man still shook his head. He said, "Before I brought Xiaoye up, there was no one here."

Originally, only Xiaoye was taking care of you. I took her to buy some essential items, and this place was empty.”

Chen Feng thought for a moment in amazement, could it be that when he just woke up, he had an illusion, but that was too real, such a beautiful woman, he really hadn't seen it for a long time.

The strong man still wanted to ask clearly, Chen Feng waved his hand at him, and did not continue to talk to him.

The brawny man had no choice but to stop asking, he repeatedly asked Chen Feng to notify him of anything, and finally drove away.

Chen Feng watched him leave, and then returned to the house. Although it is not a big place, it is not a big problem to live with more than a dozen people, not to mention that there are only two of him and Xiaoye now.

### **Chapter: 905**

And now he also needs to get to know the woman who will take care of him in the future.

In the kitchen, Chen Feng found Xiaoye, she was squatting there preparing the ingredients for dinner.

She didn't seem to notice Chen Feng coming in, so when Chen Feng called her, she was a little surprised.

“You are Xiaoye!” Chen Feng shouted.

Xiaoye returned to his senses, looking at Chen Feng, and slowly patted his own heart that was speeding up.

“Well, you can call me Xiaoye, but Shao Bai didn't tell me how to call you.” Xiaoye said.

Chen Feng said kindly: “Just call me Chen Feng.”

Xiaoye seems a little unacceptable: “This is not so good, you are such a rich person, I just call your name, you don't think I disrespect you, I seem to hear that guy said to call you Chen Shao, or else I also call you Shao Chen.”

Chen Feng looked at Xiaoye helplessly, but looking at Xiaoye's expression, it seemed that she couldn't calmly call him Chen Feng.

I had to say: “Then what you want, call it whatever you want.”

Xiaoye just smiled and said, “Young Master Chen, I will definitely do it well. Young Master Bai gave me a lot of money. You can ask me to do anything.”

Xiaoye looks pretty, but lacks dressing, and it looks like a little girl next door.

Chen Feng suddenly asked a little bit nastily, "What if it was something you would resist?"

Xiaoye was stunned for a moment, and she didn't seem to think of how she would resist: "Young Master Chen, don't worry, I can do anything. I promised Young Master Bai."

Chen Feng didn't know if this little girl was really innocent or pretending, but it was all meaningless.

Just said: "Then you work hard, if you do well, I will give you an additional sum of money."

When she heard that she could add more money, Xiaoye said excitedly: "Really, Shao Chen, I will definitely work hard."

Chen Feng had no interest in the little girl and was about to leave, but when he remembered about that very beautiful woman, he turned around and asked, "Xiaoye, haven't you seen anyone else here?"

Xiaoye looked at me strangely and said, "No! Shao Chen, what do you mean, is there anything else here?"

Suddenly Xiaoye seemed to be frightened, and looked at Chen Feng very scared: "Young Master Chen, don't scare me, I am most afraid of this kind of thing, like such a desolate place, will there be any ghosts!"

Chen Feng was amused by Xiaoye's appearance, and he didn't expect this little girl to be so innocent.

Hastily persuaded: "No, there is no such thing. I just make sure that it is really the only two of us."

When he left, Chen Feng always felt that the woman he saw definitely did not look like a fake, and even the sound of closing the door he heard was so clear.

Since these two guys said that there was no one, Chen Feng had to look for it by himself.

But after looking through it all over here, Chen Feng still didn't find any signs of that woman, as if all that was really just a fantasy of him.

No way, Chen Feng had no choice but to give up.

I stayed here for two days and just wandered around every day. Every time she talked to Xiaoye, she was not too relaxed.

However, she still knew that this girl was the daughter of a family at the foot of the mountain. When Bai Xing liked her, she gave her a high price to take care of Chen Feng.

The little girl didn't think there was any problem, so she followed directly.

Thanks to meeting Chen Feng, otherwise, if a man and a woman are alone in such a place, nothing else would happen.

But in the end Chen Feng found out that Xiaoye was really innocent, and she hadn't heard any of those slightly obscure moles, and if she really said some pornography, Chen Feng would also think it's too obscene and not suitable. Talk to such a little girl.

By the third day, the man went up the mountain again.

But this time, his face seemed a little unsightly.

Chen Feng asked, "What's wrong with you? You look sad."

The man was unwilling to speak, but after thinking about it, he said, "Shao Chen, someone from the Bai family knows that Shao Bai is in contact with you."

Chen Feng was stunned, but he didn't think there was any problem.

He asked curiously, "Could it be that the Bai family has any opinion on me?"

The man explained: "Someone came to the Bai family, as if they wanted to join the Bai family to deal with you. Someone in the family agreed, but some others opposed it, so now they are arguing very hard."

Chen Feng still has some doubts: "Someone wants to deal with me, but also to unite with the Bai family. I don't seem to have any assets in this desert, right?"

The man said: "They are planning your business in Yanjing."

Chen Feng looked at him suspiciously and said, "Are you sure?"

The man couldn't say clearly: "I don't know what I know, but I just notified Shao Chen, hoping that Shao Chen can be prepared."

Chen Feng had no choice but to assume that he was here to remind him.

After thinking about it, Chen Feng simply called back to Yanjing.

"Hey, break the army, it's me."

Shi Pojun didn't expect Chen Summit to call him, so he asked with concern: "Where are you now, Shao Chen, why you haven't had any information for so long? We are all anxious here."

Chen Feng couldn't explain what happened to him clearly, but just said perfunctorily: "It's okay, I just come out and go around. I will go back after a while. Don't worry."

But Shi Pojun was still a little worried, and Chen Feng took a long time of relief before finally letting him not come to the side where he was going to chase.

After that, Chen Feng asked, "Nothing happened to Yanjing, right?"

Shi Pojun said: "Everything is normal, but there are some minor incidents in the transfer of personnel under the group, and there is no problem."

After hearing this, Chen Feng was a little relieved, but he still reminded: "Maybe some families in the desert are going to enter Yanjing. Beware. Although we have a solid foundation in Yanjing, we still have to be careful about turning windows in the gutter. ."

Shi Pojun agreed again and again.

After hanging up the phone, Chen Feng was completely relieved. As for what the man said about the Bai family's dealing with him, he didn't care about it.

In fact, what he cared more about was the dream-like thing he did.

After living for a week, Bai Xing finally reached the mountain.

It was the same as when I first saw him, his thick moustache made people want to try to touch it, but his face just looked haggard.

Sitting under the big tree, Chen Feng handed Bai Xing a glass of water. He asked, "I will remember the last time. If you have anything you want me to help out, just say it."

## **Chapter: 906**

Bai Xing took the water I handed over, but only held it in his hand.

He lowered his head, as if he had encountered something particularly annoying. Chen Feng sat next to him and asked, "How come you have such an expression. Do you just show me your face when you come to me? Is it?"

Hearing what I said, Bai Xing reduced his attitude slightly. He said, "There are indeed some annoying things, but I think that I haven't come to see you for a long time. I think it's better to come over and ask about your condition."

Chen Feng smiled and said, "When you come to care about me like this, why do you feel that you are forced, not from your sincerity at all."

Bai Xing also smiled reluctantly: "If you really think so, it's better to come, so as not to make you misunderstand what I mean, but make you resent me."

Chen Feng took a sip of water and said, "Just tell me what the hell are you doing. I know you must have something to ask me when I look at you."

And Chen Feng's words have already spoken for this purpose. Bai Xing didn't have any hesitation. He also took a sip of water and said, "I do want to ask you for something, but it's hard to tell because of face."

Chen Feng looked at Bai Xing very seriously: "I said, you saved my life. If there is any problem, I will definitely pay this favor."

Being watched, Bai Xing finally stopped hesitating: "I think you also know that something happened in our Bai family recently. I thought I could easily solve this problem, but..."

Some tangled expressions appeared on Bai Xing's face, as if he was very unwilling to fail.

Although Chen Feng knew, he didn't know exactly what happened, so he just asked, "How do you need me to help you?"

Bai Xing thought for a while and said, "Young Master Chen, as long as you help me deal with one person."

Chen Feng wondered: "A person? Who?"

"A well-known businessman, he recently came to the desert to start a project, and our Bai family participated in this project, but for some reason, Bai Su contacted him. If the project is successful, the Bai family At least you can go up to one level again."

Chen Feng thought for a while, and smiled: "You want to stop Bai Su and his business, and then make him incapable of competing with you for the position of the Patriarch of the Bai family, right?"

Bai Xing nodded frankly.

"Then who is this businessman, can actually make your Bai family rise to the next level directly because of a project? I think he must be an incredible businessman, right?" Chen Feng asked curiously.

Bai Xing nodded and said, "Executive Director of Pop League, Southco."

Chen Feng was also surprised: "It was the old man. I didn't expect him to invest in the desert. I remember that the last time he invested was 20 years ago, he built the world's largest micro-end production device on the southeast coast. ."

Bai Xing also sighed: "That guy is indeed a genius investor. Every investment seems to have accurately hit the hottest industry in the next ten years, so that he can firmly hold the most profitable profit and property in his hands. ."

Chen Feng looked at Bai Xing's complete lack of fighting spirit, and comforted him: "Since you have found me, then I will definitely help you, and it just so happens that I have some friendship with Southco."

Bai Xing looked at Chen Feng in surprise: "You know him? I was expecting you to help me block him out of the desert, but as long as he is out of the northwest, I won't care where he is. But if you know him, then, Shao Chen, can you help me connect this line?"

Although Bai Xing requested such a request, Chen Feng could not directly agree to it. Instead, he said conservatively, "I can't tell you clearly. Although I know the old guy, will he give me this face? I just said. I don't know."

Bai Xing didn't think there was anything at all, and said excitedly: "As long as Shao Chen can help me meet Mr. Southco, I still have the confidence to let him directly cooperate with me."

Chen Feng didn't know how he had such self-confidence, but after thinking about it, he agreed, "Okay, I'll help you contact that old guy. As for the rest, I can only help you, but it's mainly up to you." "

But then Bai Xing was still very happy.

He came over with a sad face, but when he left, he was full of joy.

And because Chen Feng didn't have Southco's direct number, he still asked Shi Pojun to send the number over.

After Chen Feng called, it took a while for someone to connect.

"Are you?" Southco asked, probably because of an unfamiliar number.

Chen Feng replied: "It's me, Chen Feng."

"Chen Feng, why did you guy call me suddenly. Did you think of asking me to borrow money? I tell you, it's impossible."

Chen Feng frowned. He didn't know why this guy would say that. He quickly denied: "How could I ask you to borrow money? Do you have more money than mine? If you don't have money, remember to call me. , I will give you a sum of money to continue investing."

Southco laughed and said, "Haha, you are still that humorous, but I recently came across a big project,

the application of rare earths, how about it, are you interested. If you also invest in it, I will tell you that it is definitely possible. Make a lot of money.”

Chen Feng thought for a while and refused: “I won’t rob you. I think you are definitely not short of funds. If you wait for when it will go public, I can consider it.”

Southco lamented: “That’s really a pity. The money was originally made by everyone. It seems that you must have some other place to make money.”

Chen Feng didn’t continue arguing with him on this issue, and directly asked about Bai Xing.

“Is your latest project in the desert?”

Southco was surprised: “Chen Feng, how did you know? Are you watching me? If you want to join in, I’m naturally happy, but you can’t monitor me either...”

When Chen Feng heard of what kind of reverie ability, he immediately interrupted him and said, “I didn’t monitor you. I happened to be in the desert, so I knew it. Where are you now?”

When Southco heard this, he said with guilt: “Excuse me, Chen Feng, I misunderstood you, are you in the desert? I have to go there recently. When the desert comes, how can I find you? Sample?”

Chen Feng hasn’t said yet, but Southco has proposed it himself, which just prevents Chen Feng from speaking.

“Yes, but I want to bring someone, and he also said he wants to see you.”

“That’s okay.”

## **Chapter: 907**

After contacting Southco, Chen Feng called Bai Xing directly, and Bai Xing thanked Chen Feng on the phone. What he said was even a little numb, and Chen Feng was unwilling to listen. Before he finished speaking, he hung up on him.

Back in the room, Xiaoye had already prepared the meal.

“What did you do? It looks pretty good.” Chen Feng said, looking at the dishes on the table.

Xiaoye walked out holding a large plate, which seemed to be made of bone soup.

“This is our specialty here. The fairy scattered flowers. It tastes very delicious. Shao Chen, you have to taste it, so you can make sure you eat it as if you are eating it.”

Chen Feng smiled and said, “If it doesn’t taste good, I will deduct your wages.”

Xiaoye screamed, "Ah! Chen Shao, how can you be like this. If you deliberately say that it is not delicious, then I am not..."

Chen Feng looked at her as if he was about to cry. He knew that Xiaoye had taken his joke seriously, and he was also comforted: "Don't worry, I still haven't finished talking. If it is delicious, I will naturally give it. If you raise your salary, you won't even lose such confidence. If it is true, it seems that there is nothing good about it."

Saying this, Xiaoye immediately smiled and said, "Young Master Chen, don't worry, I must be confident, but I don't want you to raise my salary. You just need to praise me."

Don't raise your salary, Chen Feng asked curiously: "Why, isn't it good for me to increase your money?"

Xiaoye shook his head and said, "You gave me a salary increase last time, and this is what I should do, and it should be delicious. I can't ask for more money because of this."

Chen Feng smiled and took a bite of the minced meat on top of his chopsticks. He only felt that the mouth was tender and the teeth and cheeks remained. It was indeed a rare delicacy.

He smiled and said, "It's really delicious, it's better than what's cooked in a restaurant."

Xiaoye was also happy: "Thank you, Shao Chen for your praise. I will work harder in the future. I will eat better, and Shao Chen will definitely like it."

Seeing this little girl smiling happily, Chen Feng is easily brought up by her smile and feels happy too.

A bowl of rice was eaten very quickly, Xiaoye packed the dishes, and Chen Feng was sleeping under the tree. It seemed that the day was so leisurely.

The day Southco came to the desert was also very fast. After the appointment was made on that day, Bai Xing deliberately drove to the mountain and Chen Feng.

Looking at the Porsche 911, Chen Feng asked, "Where did you get this old antique? Targa or turbo?"

Bai Xing smiled and said: "The Targa series like this kind of old cars. They really feel it only when they look at it. So I finally bought one from a car collector, so I have been driving it until now."

Chen Feng doesn't have any hobbies in luxury cars. As long as he has four wheels and can travel, that's enough.

They went to the largest hotel in Lan City with Bai Xing. Knowing that Southco was coming, Bai Xing had already booked the most luxurious private room in the hotel.

Originally, Chen Feng didn't want to be so wasteful, just the three of them, and at most one or two more at Southco, it would still be a waste to put it in such a big private room.

But Bai Xing insisted: "It's all his own family's property, and it really can't be said to be a waste."

As soon as this was the case, Chen Feng didn't insist on it anymore.

But it is the largest hotel in Lansing. Almost all luxury cars are parked in the parking lot. Even Audi and Cadillac seem to be rare, and Mercedes-Benz S-Class is only common here.

Followed Bai Xing up, the elevator went straight to the place, there seemed to be only one room on this floor, just to avoid being disturbed.

Three or four young girls with slender figures, dressed in bright red cheongsam, holding the lady's bun, walked in front of them with a smile.

"I will really enjoy it. Even the waiter who serves the dishes looks for such a beautiful one." Chen Feng smiled at Bai Xing.

Bai Xing said, "These are the most beautiful in the restaurant. I asked them to change their schedules to today. With the beautiful women here, the meal will be more delicious."

Chen Feng smiled and did not speak.

After a while, Southco came.

The old man was still the same, with gray curly hair, a typical Western European face, without a beard, and he looked very gentleman, but he seemed to be a little older.

Seeing Southco coming over, Chen Feng also stood up and greeted him.

"Hey, my old friend." Southco hugged Chen Feng enthusiastically.

Although he still didn't like this kind of warm etiquette, Chen Feng did not refuse, and he saw that Southco was not here alone, beside him was a Chinese woman who also wore a plain blue cheongsam.

When Southco was released, Chen Feng said, "I didn't expect you to come to China for investment. In the past few years, the competition has been too fierce, and all those assets have poured in. It is much harder to make money."

Southco nodded and said, "It is true, but I still found a very good project. I believe he can earn me the wealth I want."

Chen Feng smiled and said, "Then I wish you every success."

Then Southco took the cheongsam beauty and walked in front of Bai Xing.

Chen Feng introduced: "This is Bai Xing, the second son of the Bai family who wants to work with you on the rare earth project."

Upon hearing Chen Feng's introduction, Southco took a curious look at Bai Xing's face.

"Do you know that Bai Su?"

Bai Xing replied, "That's his brother. I am his brother."

Southco smiled: "That blames me for seeing you look so alike. You Chinese people seem to be all the same, sometimes it's very difficult to distinguish."

Chen Feng also smiled and said, "Actually, you foreigners really don't really tell the difference. I always think you are all fat, or just like you."

Southco also smiled, but he didn't introduce the woman next to him.

Chen Feng couldn't help but asked curiously: "Southco, you are really not interesting enough. You don't even introduce such a beauty to us."

Southco naturally wasn't reluctant to introduce her, otherwise he wouldn't be able to bring this woman out.

Hearing Chen Feng's words, Southco immediately looked at Chen Feng with a serious face, and said, "I tell you, Chen Feng, you can don't play Leona's idea, you must not move her."

Chen Feng smiled and looked at this woman named Leona. He stretched out his right hand and said politely, "It's nice to meet you."

Leona also extended her hand generously and shook Chen Feng: "It's nice to meet you."

"Chen Feng, did you hear what I said. I tell you, you can't make Leona's idea.

### **Chapter: 908**

Naturally, Chen Feng just ignored this sentence and asked Southco: "You haven't introduced it to us yet, so worried, don't bring it out!"

Southco was still angrily: "This is my niece, she just wanted to come to China to see it this time. So I brought her here, but I promised my brother to take her back intact. of."

Chen Feng was surprised: "Your niece, Asian?"

Southco disagreed and said, "What's wrong, her mother is Chinese, so she thinks she is a mixed race."

Only then did Chen Feng look at Leona carefully. Although the skin color and appearance are no different from those of Huaxia, if you look closely, you can still see that her eyes are blue like gems.

Chen Feng smiled at Leona again.

Southco was still on guard against Chen Feng and kept staring at Chen Feng.

Chen Feng didn't really keep his sight on Leona, he came here today because of Bai Xing's business.

When the dishes were served, the four beautiful girls walked up with the trays in turn, each step being very standard, as if they were models on the runway, showing their respective figures vividly and exquisitely.

However, that's just a small adjustment before talking about business.

After eating for a while and drinking some wine, I said to Southco, "Actually, I brought Bai Xing here this time. It's not just a simple meal. You also know what your project is that the Bai family is doing. And he is also from the Bai family."

Chen Feng didn't explain it thoroughly, but he almost understood it very well.

Bai Xing also put down his chopsticks and looked at Southco.

"I don't quite understand what the struggle will be between you, but the Chinese people from Bai Su and I have cooperated very well, and I don't have any ideas to change this state."

Southco was also very direct, which was tantamount to rejecting Bai Xing.

But Bai Xing tried to say: "I know Mr. Southco's love for her brother, he is also a very capable person, but this time the project is far from being as simple as Mr. Southco thought."

Southco looked at Bai Xing curiously: "What do you mean?"

Bai Xing said: "Since Mr. Southco invested in the project, it must be the same as the micro-end project investment in the Southeast. They are all aimed at pointing to the world's leading or even the first position, but if it is only reserved for the younger brother, Then the most he can do is to a level that is very good in China, but it is far from being able to reach the world level."

Southco said: "You mean you can, but I don't think this kind of thing can be done only by faith. Everything has his own trajectory, just like I can't confirm my investment this time. He will be able to succeed, even somewhere, he will fail. Do you know what I mean?"

Chen Feng smiled and said, "You are humble. You have invested so many times. That time you didn't make enough preparations before you started. Just looking at your own history, there really are no examples of failure."

Southco said to Chen Feng: "It's just that I tried all failures when I was young, so now I will be very cautious, but I still can't confirm that I will succeed. Chen Feng, you must know this. ."

Chen Feng smiled, he naturally knew that this world would not be 100% successful.

And Bai Xing said: "Mr. Southco, I know what you mean, but compared to my younger brother, I have a fuller advantage. And if there is no bold vision for something, I just see what is in front of you, or care about it for a while. If he succeeds or fails, then there is not much he can take to get out. I think this is my answer."

Southco became more curious about the white star's appearance.

He said: "Now I think I can listen to your thoughts. If you can really impress me, I am willing to replace my agent in China."

Chen Feng left and got up and went to the bathroom. He originally handed over everything to Bai Xing. Whether he succeeded or failed was to see Bai Xing. On the contrary, Chen Feng's own existence would make Southco think that he was forcing him. It made Southco feel bad about Chen Feng, but he still felt a little uncomfortable.

Therefore, Chen Feng also took the initiative to leave.

Unexpectedly, just coming out of the bathroom, a woman also came out of the lady's bathroom next door.

It would actually be Leona, and Chen Feng smiled at her: "You are really a beautiful lady. Your beauty is like a gift from heaven. People want to touch them but dare not carry any dirty thoughts. , Only dare to approach with a sacred attitude."

Leona didn't seem to expect Chen Shengeng to say such a thing, but she still didn't seem to have any waves. It should be this kind of praise that she has listened to a lot.

"Thank you, Mr. Chen Feng." Leona's Mandarin is very standard, and she can't tell that she is really a person living abroad.

Chen Feng admired: "Your Mandarin is really good."

Leona smiled: "My mother always calls me Mandarin again, so I can speak it since I was very young. It's as fluent as my English."

Chen Feng said: "Then I don't know what Miss Leona wants to see when she comes to China, and I don't know if I have the honor to accompany Miss to see."

But just after speaking, Leona slowly approached Chen Feng.

Her jewel-like pupils blinked and smiled charmingly: "Is Mr. Chen Feng dating me?"

"If so?" Chen Feng was attracted by her expression.

"If it's Mr. Chen Feng, I think I'll agree." Leona got closer, her pretty face was only a short distance away from Chen Feng.

So close, Chen Feng could smell Leona's perfume.

"Quiet Violet."

Leona said in a slightly amazed tone: "I didn't expect that Mr. Chen Feng could even smell this. Isn't Mr. Chen Feng familiar with women's perfumes?"

Chen Feng smiled and said, "Don't you like it? I really like your taste."

Never mention any woman in front of a woman, this is a rule, how could Chen Feng offend it.

Leona let out a sigh of relief on Chen Feng's face, and Qian smiled and said, "I don't like it or not. It's not so simple to confirm. This is my room number. I think Mr. Chen Feng would be more willing to be with me. Talk about perfume."

Chen Feng took the note from her hand, it is naturally impossible to write it now.

Seeing Leona leaving, the figure under the cheongsam was weak and boneless, slender and enchanting, every step seemed to involve Chen Feng's heart.

She was not as clear as she seemed on the surface, but she seemed to be a demon inside.

## **Chapter: 909**

When Chen Feng returned to his seat, the matter between Bai Xing and Southco seemed to have been discussed, and the expression looking at Southco seemed very satisfied.

Just waiting for Chen Feng to take his seat, Southco shouted to Chen Feng: "Chen Feng, your friend is really a great friend. I have decided that when I go back, I will act as my agent. Replace it."

Chen Feng didn't expect him to be so direct, but naturally he still wanted to congratulate him: "Then you still have the ability to know people. If you disagree, there is still nothing you can do."

Southco shook his head and said, "That's not it. You need to thank you for this. If it weren't for you, I wouldn't be able to find such a great agent."

Chen Feng smiled.

Raise the wine glass, it is recommended that a few people do one.

And he also looked at Leona deliberately, she seemed to be restrained a lot on the table, but secretly blinked at Chen Feng, without any other actions.

The matter was negotiated, but the scene did not end, but for the next thing, Chen Feng did not need to be with him all the time. He left with the excuse that he still had business, and let Bai Xing take Southco to Lans Take a turn inside.

Bai Xing was naturally familiar with these things. When Chen Feng left, he still thanked Chen Feng very politely.

Chen Feng smiled and said: "I have said that you saved my life, and I will definitely return this favor to you, but this time, I can't offset my life-saving grace. If you still have problems, You can still come to me regardless."

But Bai Xing shook his head and said, "Shao Chen, don't really care about saving you. If it's not the Chang family sisters, you can't do anything with me. The ones who really save you are the two sisters."

Speaking of them, Chen Feng had no intention of continuing.

Just saying goodbye to Southco, he left.

And Chen Feng's next thing is naturally to go to the place written on that piece of paper.

Sure enough, after just waiting in the lobby of that hotel for a while, Leona also walked in.

When she saw Chen Feng, Leona smiled.

"How do you know that I will be back at this time? If I wait until late, then you have to wait forever."

Chen Feng also smiled and said: "Women and women's intuition, and I also have my own intuition, and my intuition has always been very accurate."

Leona touched Chen Feng's forehead with a finger, gently pressed it towards Chen Feng, and smiled: "Then I want to know how accurate your instincts can be. Guess what I'm wearing What color underwear. If you guess it right, there will be a reward."

Chen Feng didn't answer at all, and directly kissed the red lips that were close at hand. There is no reason not to not eat this kind of delicious food that was delivered to his mouth on his own initiative.

With a sweet and greasy fragrance, the red lips are soft, especially intoxicating in the mouth.

Leona was just a little flustered when she was suddenly attacked, but she immediately calmed down, and the main one kissed Chen Feng.

Between the lips and teeth, a slippery body fluid was born, each mouthful of each other's breath, just kissing each other, Leona's eyes were already enchanting, as if sinking into it.

Fortunately, she still kept the meaning of Qingming, and pushed Chen Feng away.

He whispered, "Bad guys, just here thinking about eating others, are there so many people?"

Chen Feng said with some unsatisfied smiles: "But you don't feel very comfortable, and you can't bear to let go."

"Sure enough, Uncle Southco was right, you are a complete villain."

After speaking, Leona turned and left, and walked towards the elevator of the hotel.

Chen Feng smiled and chased after him.

"What are you doing?" Seeing Chen Feng chasing around, Leona asked suspiciously.

"I haven't talked about perfume yet. Why would I be willing to leave? I think the perfume smell on Miss Leona must be stronger. I just want to smell it more."

"Who promised you. Indecent guy." This is the elevator door has opened, Leona is about to walk in.

But Chen Feng suddenly shouted, "Be careful."

He flew over and hugged Leona, then threw himself aside.

A tall man who was standing in the elevator actually held a dagger and stabbed towards the place where Leona was just now.

When she hit the ground, Leona felt her knee hurt, but she also knew that if it weren't for Chen Feng, she might have died.

Rubbing his knees, looking at the spot.

It was a man with a baseball cap and a mask covering his face. Although he could not see his face, he

was probably in his 20s or 30s.

Chen Feng has also stood up.

He looked into the elevator, where a corpse had actually fallen.

Chen Feng stared at him and didn't immediately knock off the dagger in his hand. People on the side also noticed the blood left in the elevator, and a woman screamed loudly.

Suddenly someone shouted: "It's murdered!"

The scene became chaotic in an instant. Some people were escaping in a panic. Some curious ones wanted to come over and take a look. The security guards in the hotel quickly surrounded them.

"Put down the knife in your hand," one of the security guards shouted.

The guy swung his knife directly at the shouting security guard, as if he wanted to frighten him, but Chen Feng also kicked his wrist when he was distracted.

The guy had a pain in his wrist, and there was no way to hold the dagger in his hand, and he fell to the ground with a cry.

Seeing that the guy had no weapons in his hands, several security guards swarmed and stopped the other party.

Chen Feng just glanced, then returned to Leona's side.

Help her up, Leona's knee injury made it more difficult to walk in high heels.

Even supporting her is very difficult.

Chen Feng had just pressed the elevator on the other side. When the elevator came down, he hugged Leona and led her into the elevator.

The chaotic security guards are still controlling the murderer, and Chen Feng has slowly taken Leona up.

In the elevator room, only Leona and Chen Feng were left.

It seems that in such a confined small space, any woman seems to be shy, even Leona is no exception.

It's just maybe because she was injured now, lying in Chen Feng's arms, and feeling the warmth from Chen Feng's body even closer.

That kind of feeling is naturally not comparable to an ordinary confined space.

“Are you okay?” Chen Feng asked seeing Leona’s blushing face.

Leona was still quite bold and said, “Maybe you need to do a full-body check on me before I know if I’m okay.

### **Chapter: 910**

But some things are not what they imagined. Maybe if there weren’t just what happened, Chen Feng would really have a peach blossom romance, but now I know Leona must have been frightened, and Chen Feng can’t do anything. Out of that kind of thing.

When Leona was sent to her own room, Leona smiled and said, “Do you want to stay?”

However, Chen Feng had no idea of teasing, and said seriously: “Don’t make trouble, you are now trying to use this kind of thinking to cover up what has just happened. But what you need now is not fierce indulgence, and It’s a rest of peace of mind.”

Leona seemed to be seen through her mind, helplessly like a white rabbit.

Chen Feng gently put her on the bed and stroked the corner of the cheongsam, and her slender snow-white thighs were exposed in front of Chen Feng.

I really wanted to touch the smooth and elastic skin, but Chen Feng still stopped the thoughts in his mind, but saw Leona’s injured knee.

Some skin was rubbed there, and there was some bleeding. Chen Feng found the hemostatic medicine in the cabinet of the hotel room, so he took it and prepared to apply Leona.

Leona worried: “Will this leave a scar?”

Chen Feng smiled and said, “No, this kind of scratch will disappear soon, and there will be no scars at all.”

When Chen Feng said so, Leona felt relieved.

After dealing with the wound, Chen Feng also stood up and prepared to say goodbye. He did not intend to linger with a woman in this situation.

“You take a good rest. This kind of thing will pass until your mood stabilizes. If you haven’t forgotten me in two days, I will come to talk to you about perfume.” Looking at lying on the bed, I was very tired. Leona, Chen Feng said.

Leona just looked at Chen Feng bitterly, as if she felt that Chen Feng had done something unreasonable to her.

Chen Feng did not dare to stay longer. If he continued to stay, he was really afraid that he would not have that good concentration and would really eat Leona.

After closing the door for Leona, Chen Feng left here.

When passing downstairs, he saw that someone had come and caught the murderer. It seemed that someone was still looking for him. Maybe he wanted to find him to understand the situation at the time, but Chen Feng was afraid of trouble, so he sneaked away. NS.

I want to come to tomorrow's news conference and talk about anonymous heroes.

But these have nothing to do with Chen Feng.

Because there was no car to go back, Chen Feng called Bai Xing, and soon the brawny man who had sent Chen Feng up the mountain came over in a car.

"Shao Chen, why are you alone? Why don't you go to play with Shao Bai and the others."

Chen Feng shook his head, "I don't like the excitement, and I feel bored. You should send me back."

The man had nothing to say, and drove Chen Feng back to the villa on the mountain.

Unexpectedly, Xiaoye was still waiting at this time. Seeing Chen Feng's return, she immediately ran up happily.

"Why are you still awake? You will be so sleepy from nine o'clock, do you have to sleep?" Chen Feng looked at Xiaoye and asked.

Xiaoye looked a little sleepy, but when she saw Chen Feng, she still smiled and said, "Young Master Chen, you haven't come back yet. I dare not go to bed alone. I'm afraid you will use my place when you come back."

Chen Feng smiled and nodded on Xiaoye's forehead, and said, "You just sleep alone and feel scared. If I don't come back, are you still up?"

Xiaoye smiled happily, as if Chen Feng had been told by Chen Feng's thoughts in his heart.

Chen Feng said again: "Okay, go to bed, I don't have anything to use you, I can do those things myself."

But Xiaoye insisted: "I'm here to take care of Chen Shao. How can I let Chen Shao do it by myself, and you are still injured. Just talk to Xiaoye about what you want to do."

Chen Feng knew that this girl was stubborn, but it was difficult to convince, so he pretended to be angry

and said, "If you don't go to bed anymore, I will deduct your salary. This month's salary is all deducted."

Sure enough, Xiaoye felt wronged immediately when he heard that the salary he cared most was going to be deducted.

"Well, you go to sleep, I was joking with you, you won't even listen to me, right?" Chen Feng could only comfort him again.

Xiaoye also knew what Chen Feng meant, so she turned around a little bored and walked to her room.

In fact, Xiaoye was really not needed. After washing, Chen Feng also lay on the bed and fell asleep deeply.

By the early morning of the next day, Bai Xing went up the mountain.

Chen Feng was awakened by him.

Xiaoye was preparing breakfast, Chen Feng looked at Bai Xing resentfully, and Bai Xing was also a little guilty.

But his happiness cannot be hidden.

"Let's talk, what's the matter again." Chen Feng said irritably.

Bai Xing said excitedly: "Southco has replaced Bai Su, and now the person in charge of Southco's desert project is me, and everyone in the Bai family respects me very much. I dare not refute it. You..."

Without waiting for Bai Xing to finish, Chen Feng interrupted: "You came here because of this, then you should go back. I don't want to hear you share the joy here. I have no interest in such joy."

Bai Xing stopped his words with some embarrassment.

Chen Feng said again: "Then you are not leaving now, what are you going to do. Wait for me to invite you to dinner?"

Bai Xing also knows that Chen Feng is now in anger and dare not argue with him. He just waved his hand quickly: "Naturally not, but I don't know how to thank Chen Shao, so I wondered if Chen Shao had a meal, it must be yesterday. In the hotel, there are still those four little girls."

He said, still with some lewd smiles.

Chen Feng kicked him angrily and said, "Go, go, don't think of me like you, I'm not that kind of person."

In the end, Bai Xing had to leave here alone.

Thinking that this matter would end like this, Chen Feng wondered if he would find a time to meet Leona, and forgot to keep the contact information of the woman, and now he can't even make a phone call.

But when he was thinking about it.

On the third day that Bai Xing left, Bai Su actually came to the door.

This is something that Chen Feng never thought of.

He came by himself, there was no one in the car, not even a bodyguard, and he didn't seem to be afraid of what Chen Summit would do to him.

Chen Feng sat there. He walked up to Chen Feng and said respectfully, "Shao Chen."

Chen Feng didn't go to see him, so naturally he didn't have a good impression of him.

And Bai Su still respectfully said: "Shao Chen, the previous thing was that I didn't know Taishan, and I offended Shao Chen. I hope that Shao Chen can forget about the villain.
