

Super Rich Dad Chapter 913-914

Chapter 913

The Hedong Shen family is not the first time so desperately want to know Jiang Hao, since the Chujiang side of the news of the last bloodline of the Shen clan, the old man has been a bit sitting down.

Truth be told the reason they will always stick to the East of the river, for the mission given to them by the Shen clan in the first place.

And then the Shen clan disappeared. There was a time when even the Shendong family fell into self-doubt, thinking that what they are doing now is useless.

The good thing is that such doubts only had, but did not shake their faith. Otherwise, the later Hedong will definitely not be like this.

Although they failed to completely change Hedong, they at least managed to change Hedong in two parts.

One part is the east of the city and the south of the city. These two areas look as if they are places where ordinary people live.

The west and north of the city gradually became powerless to change because of the Qinghe Society, which is also related to their self-doubt at one time, because during that time Elder Shen nearly gave up all things.

Just want to dragon clear they do so down there is no point, later although thought of, but was the Qinghe will gradually occupied half of the mountain.

Later, unable to change the old man Shen, which was forced to recognize the existence of the Yu Qinghe, and then the entire East of the river will be divided into two parts.

In the west and north of the city, Yu Qinghe's Qinghe Society has absolute dominance, and anyone who disobeys them will only end up in one place.

And because of this, after every period of time. Yu Qinghe will launch a purge to remove all the nails in the east and south of the city.

By the way, also use this means to warn those who want to be his enemy, let them know their own bloody methods, so as to deter them.

Until later, these styles of action of Yu Qinghe were learned by Yu Shaobai, but Yu Shaobai did is more and more over the top, at first but a very small number of people.

Gradually evolved into a whole area of cleaning, which makes the two places in the west and north of the city often think about fleeing, but because of the lack of money, plus as long as they are caught back must be more unpleasant than death.

So they can only grit their teeth in that kind of place persisted, until now.

And this time Yu Qinghe's clarity seems to be somewhat intensified up. Originally, the Shen family did not intend to get involved in these matters, but the scope of this incident is too wide.

Even the east side of the city has many people have been affected to varying degrees, because of this, Shen Feng at this time had to be forced to add a lot of pressure.

Among them are from their own master, there is a part of the pressure from the city east hope that they can make Yu Shaobai stop the big brother.

What's more, Elder Shen also kept a close eye on Shen Feng, wanting to see if he could handle such a thing.

Seriously, if it's possible. Shen Feng definitely does not want to disappoint him in front of his own father.

This point, Shen Qingzhi also has the same view.

At this time to see his father's face sad frown. Shen Qingzhi walked up and looked at Shen Feng and said, 'Dad, if it's really not possible, I'll go and negotiate with the Qinghe Society on your behalf.'

Shen Sihai squatted in the doorway, his eyebrows somewhat gloomy glanced at Shen Qingzhi shook his head and said: 'Qingzhi. This matter has nothing to do with you, you'd better go in and study well.'

Shen Zhiqiu did not know when there was an extra dagger in his hand, he quietly wiped the dagger in his hand, now and then a light laugh.

'Qingzhi ah. There are some things, not now you can afford, good boy, hurry up and go inside and study well.'

Although Shen Feng is very pleased that his son can think of helping himself to share the pressure, but as his two younger brothers said, this matter is definitely not something that children should be involved in.'

Although it is said that the men of the North House should basically take over the affairs of the family as soon as they reach the age of fifteen, but Shen Feng does not want to come up with such a big scene.

After watching his son go, Shen Feng pondered for a moment and spoke: 'Sihai. What is the situation in the west and north of the city now?'

Shen Sihai while smoking a cigarette. While some disdain spoke: 'The loss of all departments are still within acceptable limits, but there are many people from other families were kidnapped by Yu Shaobai. There are even people who died, but I don't know who.'

Hearing these words. Shen Feng was a bit distressed to: 'Zhiqiu, do you have any suitable methods on hand that will allow us to talk to that madman?'

Shen Zhiqiu was silent for a moment and then shook his head and spoke: 'This matter is not as simple as it appears, if I am not wrong, the other side must have prepared a lot of backhand behind the scenes.'

Some times fighting is so simple, the other side first played a card, and then guess what card you want to play next to respond, and then prepare the same corresponding means.

Can see three steps of the ordinary people, five steps of the person for the talent, seven steps of the person for the ghost.

As for Yu Shaobai, there has been a title of ghost genius since childhood.

Shen Feng does not want to think about what the other side will use to hold himself back, but he no longer wants to continue to wait any longer.

Yu Shaobai did such a thing, do not think Jiang Hao will not endure, such a thing is simply not in his tolerance!

Soon, because of his arrogant style of action, everywhere also produced a part of people deliberately singing against him.

Coupled with the thirteen sections and other people in the secret communication, gradually, Yu Shaobai this time the clarity also became somewhat logical.

At this time Shen Feng looked at the map and the news that came through, pondered for a moment and then opened his mouth and said, 'Sihai, you take people to the junction first to prepare manpower, rush in to save people anytime and anywhere.'

Shen Sihai waited for such a long time, finally something was ordered down, so after hearing these words, they both nodded and prepared to rush out.

And Shen Feng saw Shen Zhiqiu is about to run, so a moment of silence spoke: 'I give you a task, from now on you are responsible for my personnel statistics, can not be wrongly put a, and can not wrongly accused a, okay?'

From the shooting peak of this sentence, Shen Zhiqiu has smelled a trace of unusual meaning within, why Shen Feng will but worship those people will come out from downstairs.

Thinking of this, Shen Zhiqiu look to their big brother's eyes flashed a trace of doubt, but Shen Feng but deliberately pretend to ignore the opening: 'Here is the most dangerous, because desperate they will become deranged at any time.'

Shen Zhiqiu faintly looked at the map in Shen Feng's hand for a moment of silence nodded and said: 'Rest assured, this place will be left to me, if something goes wrong here, to fight or punish big brother you are at your disposal.'

Chapter 914

The pressure that Shen Feng was carrying forced him to come forward, and in the face of such a thing he needed to minimize the loss of all the forces in the east of the city to do so, otherwise everyone would be suspicious of their Shen family.

At first Shen Zhiqiu had also thought that it would be best to use this opportunity to see if he could take advantage of the chaos to look over the people who had entered the East of the river during this time before. Check to see if they would be from the Shen clan family.

But unfortunately Shen Feng could not top the pressure from above, and Yu Shaobai's purge this time was just too serious compared to the past, so the crowd was a bit restless.

But Shen Feng did not expect that just when he was about to come forward to try to calm this matter. The people of Section 13 had already made their move.

Because Chu He reacted faster, he ripped out all of his men at the first moment of the incident. At this time to stay in the inner division of the city east has no one.

Because of the fear that with the less reported will go in and turn the whole stronghold in the information are turned out, so Chu He left the stronghold also deliberately set a fire, both to create the mob has visited the illusion of here, to avoid causing Yu Shaobai's eyes.

On the one hand, it is also to better destroy some things that can't be taken away, such as those important data materials.

Thinking of this, Chu He quietly sat in the car turned his head to look at the east of the city, a glint of hatred in his eyes.

The reason why he chose to join the thirteenth section is never want to see such things happen in front of him, but did not expect that what should happen always happened.

Thinking of this, Chu He's all can't help but clench to death, nails deeply embedded in the flesh. A strand of blood is slowly seeping out from his fist.

I do not know when, one of the men came up to Chu He's side and spoke: 'Chief, where are we going now?'

At this time wearing these people day is basically his direct line, is the kind of men almost can die for him.

At this time looking at each other, Chu He took a deep breath after shaking his head: 'Don't ask me, I don't know where I should go now, everything here is now in chaos.'

And in the Chu River difficult to get out of the siege, Jiang Hao and Ning Kun and Han San is rushing to where they are, and then shouted three times directly break the door and before the eyes is a mess.

Han San walked to the place where Chu He burned the letters and other important information before, slightly eased a breath and said: 'It looks like there should not be anything big here. Chu He seems to have left, you guys see if you can contact him.'

Before coming here again Li Miao has tried to contact Chu He, but has not been able to contact, now see such a situation, Ning Kun's heart also a burst of drums.

Jiang Hao looked around for a while, this is the first time he and Ning Kun came to Chu River, but did not expect such a thing to happen before coming here.

Thinking about it, Jiang Hao took a deep breath and shook his head: 'I do not know where Chu He is now. Otherwise, let's see if we can find someone around to take a look?'

Ning Kun listened to a moment of contemplation nodded, and then turned to look at the heavily armed Han San and said: 'Han San. You take a look around with people, if you encounter the people of the Qinghe Society you can not defeat, then shoot a signal gun, I and Jiang Hao over to support.'

Han San looked at Ning Kun with a fierce smile on his face and said, 'I've wanted to do this bunch of bastards for a long time. Never found an opportunity, today I finally found it, how could not beat them.'

After saying this, he turned around and looked at his men then frowned and said in a deep voice: 'Twenty people divided into two teams. Use this place as the starting point to search forward in a fan shape. Anyone who encounters people from the Qinghe Society will be directly executed on the spot!'

Jiang Hao looked at Han San and nodded before saying softly, 'Be as careful as you can, and contact us if anything happens.'

Han San turned his head to Jiang Hao and smiled before putting on the face protection and leading the people to rush out, while Ning Kun was looking at the scorched place in front of him in silence.

Jiang Hao looked at Ning Kun and could not help but speak: 'What should we do next, this place has become like this, Li Miao side should not be informed?'

Ning Kun pondered for a moment and then shook his head and said: 'For the time being, that's it. Li Miao side I think Han San should go to notify, we should not be nosy. Also you should be careful.'

Yu Shaobai has always wanted to get Jiang Hao, this time they just led the people to break in. Yu Shaobai must have also received the news.

If he wanted to take Jiang Hao, at this moment, I am afraid that there are already many people rushing to him.

Thinking of this. Ning Kun looked at Jiang Hao slightly pensive for a moment and then spoke: 'So, see if you can find a slightly safer place to stay for a while and see what happens.'

Jiang Hao can naturally understand Ning Kun's intention, heard him say so, just a light sigh then nodded and turned around and walked out of the ruins.

Looking at the chaos outside, Jiang Hao some helpless to light himself a cigarette, who did not expect Yu Shaobai just back on the third day will launch such a thing!

At this time, Ning Kun squatting alone inside the ruins pondering, Yu Shaobai do so will undoubtedly cause a lot of people's anger, especially the city east.

They have a long history of conflict between the two sides, and I'm afraid it won't take much time for the Heidong Shen family to join in this matter.

When Ning Kun thought of this, he could not help but feel some difficulty, if the Shenyang family prematurely knew the identity of Jiang Hao, he feared that Jiang Hao would face not only the threat of Shen Tianyang, but also the threat of the Shenyang family.

Such thoughts flashed, Ning Kun took a deep breath and lit himself a cigarette and smoked lightly.

While he was contemplating, three or four people dressed in black suddenly came over to the door and took a look at Ning Kun crouched in the ruins and called out: 'Hey! What are you, why are you here!'

Ning Kun turned his head to look at the other party and saw that the visitor's body was covered with blood everywhere, and at a glance he knew that he must be a member of the Qinghe Society who joined the purge.

So his face couldn't help but sink, and after a cold laugh he spoke, 'I'm here to collect your Yan King!'

In an instant, the three people's faces froze, and a thin line at the neck gradually became larger and larger, until crimson spurted out.

Ning Kun looked at the three people lying on the ground with some disdain and snorted, although it is said that the Qinghe Society has a great ability in the East of the river, but the people under them, it is only for show.

After slightly wiping the dagger in his hand, Ning Kun walked out with a cigarette in his mouth, the more chaotic the moment there must be someone who died in vain.

At this moment, since Chu He has been unable to find, then saving people has become Ning Kun's first option.
