

Chapter: 1112

Shocked.

This scene shocked the surrounding White Tigers, as well as the thousands of White Tiger sergeants.

Until the thump resounded, the last warlord was blown away, and the whole field was silent.

The all-around war commander, covered in blood, was extremely miserable.

Defeated all the warriors in one minute?

All the eyes of the White Tiger Army stared out.

They couldn't imagine that the dwarf of this island country was so terrifying.

More than them.

At this moment, Bai Hu's complexion was even more gloomy, almost dripping with water.

He also didn't expect Sasaki Ichiro to be so powerful.

Because even if it was him, he would not be able to hit all a dozen warlords in one minute.

"Your trash has been defeated, are you ready to die?"

Sasaki Ichiro came up with a sword, with a contemptuous smile on his face, strolling in the courtyard, as if strolling in his back garden.

Seeing him walking, Bai Hu suddenly became tight, but he knew he couldn't retreat!

Because he represents the face of China!

"I am a great country of China, how can you let you go wild? I, Baihu, will never retreat!"

Baihu roared and fisted out!

"Hua Xia? I come and go freely! Who dares to stop me? Who can stop me?"

Sasaki Ichiro smiled contemptuously, and slashed outright.

puff!

Blood bursts!

Bai Hu was instantly defeated and fell heavily to the ground.

And the sound of his landing, like a heavy hammer, hit the white tiger army's heart heavily.

The face of everyone is full of pain!

One move, and only one move, completely defeated the glory of their White Tiger Legion.

Unconcealable disappointment and shame appeared on their faces.

Today, they are humiliated by Sasaki Ichiro.

And Huaxia was humiliated because of them!

Thinking of this, the White Tiger Army present was heartbroken and distraught!

They are the sinners who humiliated China!

A legion can't stop a Ronin, this is simply a big joke.

Now that even Baihu has lost, who else can turn the tide and save China's face?

Soldiers cry in shame!

"Hahaha, the Chinese strong are really a bunch of trash, even one of my tricks is unstoppable, and I am worthy of claiming to be a great country?"

Sasaki Ichiro laughed wildly, seeing the shame and sadness of those soldiers, his heart emerged A desire to conquer.

These wastes should be desperate in front of him!

"Don't be proud, although I lose to you, but if my teacher Longhu and God of War takes action, I will kill you with just a few fingers!" Bai Hu roared in grief and grief at this time.

Because it was his failure that caused the loss of Huaxia's face.

"Dragon Tiger God of War? When I kill you, I will meet him."

Sasaki Ichiro smiled contemptuously: "Now, you can die!" He said, with a slash!

This scene changed the expressions of everyone in the audience.

"Tiger General!!!" "General!!!"

.....The miserable dozens of war generals around, as well as the thousands of White Tiger sergeants, are about to split.

They didn't expect that Sasaki Ichiro dared to kill people in public, and still wanted to kill the commander of the White Tiger Army. This was crazy.

It's just that they wanted to rescue, but they couldn't make it.

I could only watch, Sasaki Ichiro's butcher knife slashed towards the head of the white tiger.

And Bai Hu silently closed his eyes, and a deep bitterness and loneliness appeared in the corner of his mouth.

He is not afraid of death.

But he was afraid of shame.

And now, he will die with shame, which is more than simply kill him, leaving him uncomfortable

"Master, the disciples incompetent, unable to stop this maniac, you can be sure to stop him, to revive the prestige of Chinese ah!"

Then , Bai Hu quietly closed his eyes, waiting for death to come.

just!

What surprised him was that after waiting for a long time, Bai Hu still couldn't feel the slightest pain, and immediately opened his eyes in confusion.

Immediately, he saw a tall figure standing in front of him.

He actually blocked Sasaki Ichiro's sword with two fingers!

This person turned out to be... Lin Fan!

Quiet!

There was a dead silence in the audience!

The White Tiger Army, who had been deeply in despair and grief, suddenly stared at the man who had been humiliated by them in every possible way.

Two fingers, blocking Sasaki Ichiro?

how can that be!

At this time, stormy seas were suddenly set off in their hearts!

"You!"

And Ichiro Sasaki, who was also Petrochemical on the spot, looked at Lin Fan in disbelief as if he had seen a ghost.

At this time, Lin Fan's face was gloomy and terrible:

"I am a great country in China, how can you allow you, the little ronin who walked out of the bullet land to be humiliated?"
