

Chapter: 1313

When the voices of Zheng Honglian and others broke into the eardrums of everyone in the Zhang family, the audience fell into a dead silence.

For a moment!

Everyone's eyes seemed to be split apart!

Are they crazy, or are the four masters crazy?

Those are the four great masters, the hegemon who rules Jiangnan, the ruler with the most expensive property, and the wall that can never be crossed!

And now the four overlord-level figures are actually kneeling before Lin Fan's rubbish like a dog?

This scene is too shocking!

As if to crush their hearts completely!

Looking at the respectful and respectful appearance of the four great masters, everyone present felt cold in their backs and their throats seemed to be severely pinched.

At this time, Lin Fan didn't need to speak, just that high-profile posture was enough to crush the ridicule present.

He is like a king!

And they are only worthy of surrender!

"This... this is impossible!"

Zhang Lei looked at this scene with a pale face, dripping cold sweat that instantly wetted his back.

He was completely shocked and stupid!

This guy obviously stole the collection of the four masters, but instead of being angry, the four masters bowed down to it?

Is it all because of Bai Yi?

Zhang Lei trembled uncontrollably and violently

. It's not right, it's not right!

Na Bai Yi is just a nominal Jiangnan Communist, and the outside world has madly rumored that she was sleeping with a man to get to her current position.

And it is not her that the four masters really awe at all, but the mysterious existence standing behind her!

In that case, how could they give Bai Yi face?

What exactly is going on?

And this time!

Old lady Zhang was also pale, with unbelievable horror in her eyes:

"Lin Fan, he didn't lie, he didn't lie! These gifts are really from the four masters!"

She was the most worried and feared thing. It really happened!

At this moment, the atmosphere completely solidified.

Everyone didn't even dare to breathe, at this time they didn't even have the courage to look at Lin Fan directly.

For them, this scene is almost like a dream.

Even Zheng Honglian and others have to kneel down!

What kind of existence they insulted just now?

disturbed!

fear!

At this moment, lingering in everyone's heart, making them all shudder!

Horrified!

At this time, Zhang Wenxiang was also stubborn, and asked tremblingly:

"Four masters, this... is it true that you gave these gifts to the Zhang family?"

Boom!

At this moment, everyone's scalp was numb, and their bodies became tight instantly, looking at the four masters extremely nervously.

As if looking forward to them, waiting for their reply!

just!

Zheng Honglian said with a cold face:

"No!"

No?

Everyone was taken aback first, and then sneered one after another.

It really isn't!

They just said, this waste, how can the four masters surrender their favorite collections and donate them to the Zhang family?

But what Zheng Honglian said next made everyone present completely desperate!

I saw Zheng Honglian's face gloomy and looked at Zhang Wenxiang with extremely contempt:

"What kind of thing is your Zhang family worthy of the four of me as gifts?"

"We gave these gifts to Mr. Lin!"

Give them to Lin Fan?

At this moment, everyone present couldn't believe their ears.

In Zheng Honglian's eyes, isn't the Zhang family's status better than a waste son-in-law?

how can that be!

Hearing this, everyone even felt that Zheng Honglian was crazy!

however!

At this time, Ye Shihao also sneered:

"Hehe, a declining wealthy man really regards himself as an onion? You don't take a piss to take pictures of your own virtues!"

"If it weren't for Mr. Lin, you think it depends on your chapter. Home, are you qualified to let us give gifts?"

"A group of blind-eyed guys offended Mr. Lin. Do you still want to establish a foothold in Jiangnan? It's just a dream!" For a moment!

Everyone in the Zhang family felt that the shame was extreme!

They were actually beaten by a trash son-in-law?

This is simply a shame!

The four big masters simply blinded their dogs. Even if their Zhang family has fallen, they are still skinny and bigger than horses.

What qualifications does Lin Fan have to compare with them?

At this time, Mrs. Zhang's face was also a bit displeased.

What did she hear?

If you offend Lin Fan, you can't get a foothold in Jiangnan?

Based on this waste, can their life and death be determined?

Are you kidding me?

Mrs. Zhang's face suddenly sank, with a deep disdain on her face, just treating the four masters' words as a joke!

Immediately, he sneered and said:

"Really? Then I want to see how this rubbish prevents my Zhang family from entering Jiangnan!"
