

Chapter: 1560

Jin Chengen's expression stiffened, and then his face became gloomy.

"That trash, is it really that good?"

I even let a soft rice eater to compare him?

Bai Yi is blind!

I became the chairman of the board in his early thirties, and the total annual profit of the companies under his hands can reach one billion!

It can be called a dragon and a phoenix among the people!

But Bai Yi, actually think that a soft meal is better than him?

This is a kind of humiliation to him!

Snapped!

However, the answer to him was a heavy slap in the face.

Jin Chengen received a slap on the cheek, his expression was completely stunned, as if he couldn't believe that Bai Yi would actually hit him.

At this time, Bai Yi's pretty face was cold, and his eyes were full of anger:

"Did I warn you not to insult my husband?"

His expression became even more shocked, Bai Yi hit him for that trash?

"Bitch, you dare to beat Chengen, I think you are looking for death!"

Liu Biqin was so furious, she came forward and planned to slap Bai Yi.

Her own male god was beaten in front of her, how could she ignore it?

Huh!

Bai Yi looked at Liu Biqin abruptly, her eyes full of icy coldness.

Do not know why!

Being stared at with such cold eyes, Liu Biqin's raised hand didn't have the courage to wave it down.

It's like if you dare to fight, you will cause a catastrophe!

Seeing this, Bai Yi suddenly sneered and said condescendingly:

"If you dare to touch one of my hairs, my husband will make you hard to die, do you believe it?"

now!

Bai Yi knows that he doesn't need to be afraid anymore!

Her husband is her biggest backer!

The audience is quiet and silent!

Everyone was shocked by Bai Yi's powerful atmosphere, and they were all dumbfounded for a while.

At this time, everyone felt that Bai Yi was very uncomfortable at this time.

Ho!

In the next instant, Bai Yi sneered, then turned and left.

"Bai Yi, don't go!"

Jin Chengen quickly grabbed Bai Yi's hand and pleaded:

"Since you don't like it, I won't be rude anymore. Let's sit down and talk about cooperation, can we?"

Bai Yi no longer believed in the other side's nonsense, and was about to refuse at this time.

just!

Liu Biqin was the first to say with jealousy:

"Cheng En, what are you keeping her for? Since this woman thinks it's good to be a trash, let her go!"

"Perhaps she just likes to raise a little white face?"

At this time, Liu Biqin also reacted, with a deep contempt on her face:

"Returning your husband made me want to die, just a soft meal, how good is it? You fool you!"

And this time!

Bai Yi directly threw away Jin Chengen's hand and said coldly:

"Please be respectful!"

But where could Jin Chengen give up so easily, a touch of resentment appeared in his eyes.

"Bai Yi, if you just leave like this, the people of my country will be completely finished!"

He started playing the emotional card again.

But Bai Yi wanted to refuse.

just!

At this moment, a playful voice rang:

"Yeah, the show has just begun, how can you leave at this time?"

Then, a man appeared in the court!

For a moment, the audience was silent, and everyone looked at each other with surprise and doubt.

"Lin Fan!"

Bai Yi never thought that Lin Fan would actually appear here.

Immediately, her expression became a little flustered, she was afraid that Lin Fan would think that she had betrayed him, and came quietly to make a deal with Jin Chengen.

At the moment when he saw Lin Fan, Liu Biqin immediately realized who it was, and then said with a sinister expression:

"Boy, you are Bai Yi's rubbish husband, you don't even know that your wife stole people behind your back, it's really pitiful!"

Just listen to this!

Bai Yi's expression changed wildly, and he roared angrily:

"Liu Biqin, don't spit people!"

Then, she looked at Lin Fan in horror and shook her head:

"Lin Fan, I don't have one! I really don't have one! You believe me!"

The nervous look seemed as if he was afraid that Lin Fan would misunderstand and then didn't want her.

Lin Fan smiled and stroked her hair, saying:

"Fool, I heard all of your conversation just now, you were very aggressive just now!"

Bai Yi immediately blushed, and said embarrassedly:

"Am I too smug?"

"How come? As my woman, she should be so domineering!"

Lin Fan smiled, then looked at Liu Biqin:

"Just now, you insulted my wife?"
