

# Chapter: 1638

A few days later, Bai Yi received the message, and the China Medical Association personally invited her to the Imperial Capital to participate in the meeting.

“Oh my God, Huaxia Medical Association, I am not dreaming, am I? This is the most famous association in China, and it was jointly created by all the well-known hospitals in China.”

And his president is China’s most famous genius doctor, Li Xunran’s master Yao Lao!

But Lin Fan frowned. At this time, the Medical Association sent an invitation to go to the imperial capital. This was a coincidence.

At the moment, Lin Fan sneered. Is this the Lin family asking you to enter the urn?

See if he dares to go to the imperial capital!

just!

The Lin Family underestimated Lin Fan. There are only things Lin Fan doesn’t want to do in this world, and there are no things he dare not do.

“Lin Fan, will you accompany me to go with you?”

Bai Yi took Lin Fan’s hand, and at such an important moment, she hoped to share with Lin Fan.

“Okay, let’s go to the imperial capital for a walk!”

Lin Fan smiled slightly. If he was allowed to walk to the imperial capital, but then returned to Jiangnan unscathed, then the Lin family probably didn’t look pretty, right?

He had even begun to look forward to how the Lin family became Huaxia’s laughing stock.

He wanted to see if the Lin family invited the monarch into the urn or played with fire\*\*!

And at the moment when Bai Yi agreed to go to the appointment!

There was ecstasy at the Lin family!

“Dad, that little beast was fooled!”

Lin Zhanxi said with a smirk, the reason why the China Medical Association invited Lin Fan was naturally because the Lin family was operating secretly.

The purpose is to let Bai Yi come to the imperial capital, and then force Lin Fan to submit!

But they didn’t expect that Lin Fan unexpectedly gave them a great surprise, and he even came to the imperial capital with him.

This is a godsend!

When they arrived in the imperial capital, that was their land, and they had a way to make Lin Fan uncomfortable to die. If Lin Fan could still leave the imperial capital alive, it would be their incompetence!

And this time!

A grim smile appeared on Lin Hongtu’s face:

“This time, in any case, he can’t let him leave the imperial capital alive!”

“This is the best opportunity for our Lin family!”

Lin Zhanfei nodded ecstatically:

“Dad, don’t worry, I have already ordered to go down, this time I will definitely let Lin Fan come and go!”

“Hahaha, that idiot! Even if it is a great master, who has a brute force, how can it be our Lin family’s opponent? He is dead!”

Father and son laughed extraordinarily treacherously!

It seems that the thorn in the eye for many years is about to be removed!

.....

And that night, Lin Fan and Bai Yi also arrived at the airport of the imperial capital one after another.

Bai Yi couldn’t hide the excitement, even her hands were shaking, because she knew exactly what it meant.

As long as it can be recognized by the Huaxia Medical Association, then her new Bai can completely gain a foothold in Huaxia, and no matter what she does in the future, it will be much more convenient.

just!

Lin Fan had a different mood from her, and he also knew what it meant to be an emperor this time.

It means that he and the Lin family are about to start a head-on confrontation!

If he wins, Lin’s face is discredited!

If he loses, both of them may be buried in the imperial capital!

So this time he came to the imperial capital, he didn’t care about it, but was fully prepared.

at this time!

Lin Fan lowered his head, glanced at the watch on his wrist, and saw that the battleship in the Time Blood Hell should have arrived at the port of the Imperial Capital?

Then, a playful smile appeared on his face, looking at this huge city, he roared in his heart:

“Imperial Capital, the place that once brought me endless shame, now I, Lin Fan, is back!”

“This time, I will return in glory!”

At 7 o’clock in the evening, they arrived at the meeting place of the Medical Association, and the couple walked out of the parking lot together.

Ok?

However, at this time, a figure preparing to walk into the venue saw them.

Then, strode over to him, frowning at the same time:

“Do you really dare to come? Aren’t you afraid of death?”
