

Chapter: 1664

Yao Lao glanced at him indifferently, and said with an indifferent expression:

“What is it? I think Zhang Bu has a lot of business. In order to prevent Zhang Bu from overwork, I can only find someone to share the pressure for you!”

Share the pressure?

It sounds nice!

This is simply weakening his power!

But he didn't have a way to refuse, because the Huaxia Medical Association was created by Mr. Yao, even though he has retired.

But as long as he said a word, the Medical Association will still be in his hands.

Right now, Zhang Jianjun said with cold eyes:

“Really? Then I would like to see, who is more suitable for the post of president than me!”

The threat in his eyes is particularly strong!

Whoever dares to take the position is to offend him Zhang Jianjun!

Zhang Jianjun wants to see, who has the courage!

Huo Dongying and the others were also in an uproar, Yao Lao held this meeting today, unexpectedly want to elect another chairman?

Oh my!

Are you kidding me?

In Huaxia, who else is more qualified to be the president of the Medical Association than Zhang Jianjun?

You know, he is the leader of Huaxia Medicine Management!

Any pharmaceutical company is under his control!

With such existence, which pharmaceutical company dares to offend?

But Old Yao snorted coldly and said proudly:

“Then rest assured, my newly selected badge will definitely not let you down!”

“And only he can lead our Chinese medicine to the world and carry forward!”

what!

Everyone's expressions were horrified at once, Yao Lao regards the new president so seriously?

They couldn't believe their ears at this time!

Leading Chinese medicine to the world, even Yao Lao dare not say such a big thing, but he believes in the new president so much?

What kind of talent is that?

Now!

These big bosses were all shocked, and they looked at Yao Lao in astonishment as if they had heard a hallucination.

I became more and more curious about the mysterious new president in my heart.

Not just them!

Even the younger brothers like Huo Dongying and Liu Xi were all dumbfounded and shocked at this time!

It was the first time they heard that Yao Lao praised someone so much!

Even his disciples don't seem to have such a privilege, right?

When Zhou Botong on the side heard this, his face flushed with excitement. It turned out that he was so respectful and trusted in Master's heart.

It seems that I blamed the master before!

On the other hand, Zhang Jianjun gritted his teeth and cursed in his heart full of resentment!

It can be seen that Yao is always really determined to dismiss him. just!

Zhang Jianjun still doesn't believe that there are people in China who are more suitable to inherit the position of president. He sneered at the moment:

“Yao Lao, you are exaggerating what you said? The development of Chinese medicine does not happen overnight. It requires years of accumulation of experience, as well as a broad enough perspective and power.”

“May I ask who in the entire Huaxia, besides me, is qualified to lead Chinese medicine?”

This is extremely shameless!

But everyone knows that this is true!

If you want to develop Chinese medicine, you need not only medical skills, but also sufficient power.

For example, Zhang Jianjun, the power he holds today is enough to affect the development of China's medical industry, and only he can determine the future development direction of the medical industry.

To put it another way, if Zhang Jianjun is dismissed, and Zhang Jianjun makes some tricks or something from it, the new president will not be able to eat it for a long time!

All the big guys are sighing in their hearts at this time, Yao Lao is really getting confused as he gets older, and he doesn't even understand the stakes?

The new guild leader he found was not Zhang Jianjun's opponent at all, and he was sure that he would be gnawed to the point where there were no bones left.

However, Yao Lao's next sentence was like a shocking thunder, blasting the world!

I saw him smile slightly and said frivolously:

“It is not my intention to let him be the new president!”

“Similarly, it is also the meaning of the Lord!”
