

Chapter: 1671

Hear the words!

Xu Yourong smiled contemptuously and said contemptuously:

“Don’t take yourself too importantly, how do you know that she will be sad? It’s too late if she is happy!”

“Furthermore, I won’t bother you! After divorcing you, I will introduce her to a man who is thousands of times better than you! I have been studying abroad for so many years, and I have known many outstanding men. I don’t know how many good men have a family. Xueba, company president, group director, which one is better?”

“As long as you get to know these excellent men, she will know more about how incompetent you are.”

Lin Fan scratched his head, it seemed that Xu Yourong was really hostile to him.

It seems that the combination of him and Bai Yi is a big mistake!

Then, Lin Fan sighed and said:

“But, Bai Yi is pregnant with my child now!”

what!

Xu Yourong suddenly slapped up from the table angrily, a pair of eyes seemed to come out of his eye sockets.

Extreme anger!

She, a highly educated PhD, even wanted to swear at this time.

How could Bai Yi be so stupid to give birth to such a man?

This is a tarnish to oneself!

If it were her, she wouldn’t even have sex with Lin Fan, because that would be disgusting!

Facing such a man, even if the other person is breathing, she feels disgusted!

Bai Yi, must have been deceived by this despicable villain!

It must be so!

As long as Bai Yi is pregnant with his child, he will not look at the Buddha’s face from the monk’s face in the future, and there is no way to divorce Lin Fan, and this guy can also tie Bai Yi’s long-term meal ticket.

At the moment, she recovered her calm, sat down slowly, and said with a cold face:

“What about being pregnant? Now that medicine is so advanced, isn’t it impossible to fight?”

Ok?

Lin Fan frowned, and Xu Yourong stared at Xu Yourong with fierce eyes.

If Xu Yourong’s original intention was not for Bai Yi’s good, then Lin Fan would have already slapped him.

She actually wanted to kill her own child?

In the face of Lin Fan’s eyes, Xu Yourong scolded in anger:

“What is the look in your eyes? Am I wrong? Today’s Bai Yi, but the president of New Bai’s, her pharmaceutical company is already well-known in the world, she can be the first to develop a vaccine that can save the world, that is enough to explain her How good it is,”

“Look at you again, what do you have?”

When Lin Fan heard this, he suddenly laughed.

Xu Yourong doesn’t know that everything Bai Yi has now is because of him!

However, without waiting for Lin Fan to speak, the woman’s mouth resembled a machine gun, and it suddenly burst again.

“I was not in the country before and didn’t know about your marriage, but now that I have returned, it is impossible for Bai Yi to make mistakes again and again!”

“You must get a divorce! And you must agree, otherwise, don’t blame me for being cruel and making you one or two accidents and making you disappear from this world!”

This last sentence has clearly revealed the murderous intent!

It also made Lin Fan completely irritated!

“Done?”

Lin Fan stared at Xu Yourong with a faint smile, the meaning in his eyes became stronger.

“That’s it!”

Xu Yourong still looked high above him, and he didn’t even put Lin Fan in his eyes.

anger?

What about anger?

The husband got angry and grabbed the ground with his head!

What else can this waste do to her?

“First, Bai Yi is my wife. If she wants to divorce me, I agree to her decision unconditionally, so it is not your turn to be an outsider to tell me!”

“Second, I gave everything Bai Yi now has! Including Xinbai’s and the new vaccine!”

“Third, what do you say I have, what I have, is something you can’t even imagine!”

“At last!”

Lin Fan leaned forward slightly, like a vicious jackal, staring at Xu Yourong:

“If you let me hear again, if you let Bai Yi abort the baby, I will hit you all over the floor!”

“Even if you are a beauty!”
