

Chapter: 1724

This!

Lin Fan's words immediately embarrassed Old Man Li.

In the next moment, Old Man Li looked at Li Xunran pleadingly:

"Li Xunran, Grandpa didn't mean it, so please forgive Grandpa this time. Anyway, eat a meal before leaving?"

The other Li family members also looked at Li Xunran and Lin Fan pleadingly.

Obviously, they are not willing to miss this opportunity to rise to the top.

With this young man, they are sure that the Li family will be able to surpass the Lin family in the future and become China's largest wealthy family.

just!

Today's Li family has broken Li Xunran's heart, so her attitude is also very cold:

"Sorry old sir, I am not the Li family anymore, it is not appropriate to stay at Li's house!"

"From now on, Li Xunran will have nothing to do with your Li family, whether it is poverty, wealth, life, old age, sickness, or death!"

The implication is that you don't have to spend a lot of time to flatter me, because I won't forgive you!

As she said, she took Lin Fan's hand and said lightly:

"Honey, let's go!"

After speaking, he left with Lin Fan without waiting for Old Man Li to continue talking.

Puff!

Old man Li suddenly sat down on the ground, his entire face instantly grayed out!

Lin Fan said that it would make the family desperate, and he did it!

The Wang family is desperate because of the imminent destruction!

The Li family was desperate because of the lost opportunity!

"Really, the old man puts down to beg her, she is still holding the air! Dad, I think this bitch does not put you in his eyes at all, and it is good to draw a line with this bitch, she is still She is so arrogant to be the master of the house. If she is allowed to be the master of the house, she won't be able to go to heaven?"

The second aunt sneered again with a strange yin and yang. She naturally didn't want Li Xunran to stay here, because if Li Xunran stayed here, wouldn't they have a chance to be the masters?

boom!

But when Mr. Li heard this, his hair exploded in an instant.

He stood up and slapped the second aunt, knocking her to the ground severely.

"Dad, you!"

The second aunt was stunned and looked at Old Man Li with a look of horror.

"She is a bitch, I think you are a bitch!"

Old man Li jumped into thunder, and roared as if he was about to eat people:

"What happened to her? She found such an awesome man, what happened to her? She is qualified to do it, so she should do it! Because she is now the king's woman!"

"Furthermore, if it wasn't for you to provoke right and wrong, how could she have such an attitude toward me, you slut ruined my Li family's good future, and dare you to talk cold words here?"

This statement came out!

Then all the Li family members can't wait to eat the second aunt.

Even her husband was trembling all over at this moment, and he didn't dare to open his mouth to intercede for his wife.

They are going crazy!

It was all because of the provocation of the second aunt's family that they offended Li Xunran, so that they were completely separated from the Li family.

If Li Xunran was still the heir of the Li family, wouldn't he be sheltered by Lin Fan from now on?

From now on, throughout China, their Li family can walk sideways!

Especially Old Man Li!

He can't wait to kill his second daughter-in-law now. If he hasn't swept Li Xunran out of the house, he is sure that when Lin Hongtu sees him, he will have to nod and bow!

but now!

Nothing!

Even if he offended Lin Fan, I don't know how many forces will take them against them in the future. At present, there are super bosses like Zhang Jianjun and Xu Long.

This is all caused by this bitch!

"I declare that starting today, the second child's family will be expelled from Li's house!"

"The family no longer provides them with any resources to help!"

boom!

Upon hearing this, the second uncle and the second aunt were completely desperate.

As a result, wouldn't they become ordinary people who want to go out to work, live in dilapidated and cramped rental houses, and work hard for their livelihood?

How can this make them, who have always been pampered, tolerate it?

And this time!

Xu Longxiang and Zhang Jianjun also walked towards Wang Boyi and his son with grinning faces.

"We reminded your Wang Family that once you make a move, your Wang Family will definitely be removed today!"

"Now, do you believe it?"
