

TODAY, I GIVE UP TRYING

Chapter: 1764

puff!

The blood splattered away!

A broken arm, followed by landing!

Ouch!!!

Lin Zongrui suddenly let out an extremely scream, holding his broken arm, rolling all over the floor constantly, desperate for life.

Lin Fan, plan to kill him!

This damn wild species, he actually intends to kill him!

madman!

Isn't he afraid of revenge from the temple?

Seeing Lin Zongrui's tragic situation, Mei Yingxue also trembled all over, and then even exploded her scalp.

At this time, she seemed to have realized her fate!

"Lin Fan, don't kill me, give me a chance! I will help you deal with the Lin Family, in fact, like you, I hate the Lin Family!"

"You are not going to kill Lin Zhanxi and Lin Hongtu, I can help you!"

Lin Zongrui's expression was horrified, and he begged Lin Fan.

Now his idea is very simple, that is to live.

But Lin Fan grinned:

"Do you want to live?"

Lin Zongrui nodded vigorously:

"Yes, yes, I want to live, as long as you let me live, you can let me do anything."

"Actually, I also have a liking for the Lin family. I just want to take their property as my own. The two of us can join forces. What do you think?"

Lin Fan nodded and said:

"I will give you an hour to use all your strength, all means, and all possible means to escape from the palm of my hand!"

"As long as you can escape, I will let you go, how?"

what!

When Lin Zongrui and Mei Yingxue heard this, they both wondered if they had auditory hallucinations. Is this guy serious?

Isn't this letting them go for nothing?

In an hour, with their abilities enough to escape from the ends of the world, it would be difficult for Lin Fan to catch them anymore.

Especially Lin Zongrui. Only this hour is enough time for him to arrange more power from the temple to support. Lin Fan has a brain problem?

At the moment, Lin Zongrui was not sure:

"You... are you serious?"

He obviously didn't think Lin Fan was so generous, or so stupid.

But Lin Fan glanced at the phone directly:

"Countdown, start!"

Lin Zongrui suddenly tightened, and then shouted at Mei Yingxue:

"Bitch, are you deaf? Why don't you come and help me? If I have a long life, don't think about it!"

Hearing this, Mei Yingxue took a deep look at Lin Fan. She thought that Lin Zongrui was already arrogant enough, but now it seems that Lin Fan is more stupid than him.

Mei Yingxue hurriedly supported Lin Zongrui, and then left the bar as if fleeing, and drove out directly.

"Back to the Lin family, as long as you arrive at the Lin family, even if this guy has three heads and six arms, it can't help me!"

Lin Zongrui said with a vicious expression:

"I want that idiot to pay for what he did!"

With that said, Lin Zongrui took out his mobile phone and started calling!

But Mei Yingxue sneered while driving. How could Lin Fan not know that Lin Zongrui would escape back to the Lin family, but Lin Fan still let Lin Zongrui leave, which meant that Lin Fan didn't care at all.

If this is the case, then Lin Zongrui's return to Lin's house would be a dead end.

But Mei Yingxue deliberately didn't pick it up, because she really needed Lin Zongrui, an idiot, to target her, so that he could attract Lin Fan's firepower, and then she would have a chance to escape.

Mei Yingxue had already planned it. After sending Lin Zongrui back to Lin's house, she immediately contacted Snake Head and escaped abroad by herself. Lin Fan must not be caught.

And this time!

Lin Fan was in the bar, slowly tasting the wine, waiting for an hour to pass.

Behind him, there are still blood prison mad gods and other strongest existences in the blood prison, and a killing air is constantly emerging from his body.

Even Zhang Jianjun felt terrified with this momentum!

He was almost paralyzed by fright at this time, and he didn't even dream of thinking that Lin Fan, besides being a Chinese forest seat, was actually the King of the Blood Prison.

He is just like a mist, after uncovering layer by layer, it makes people scared and extremely disturbed.

An hour later, Lin Fan threw the wine glass in his hand to the ground:

"leave!"
