

Chapter: 3134

A few days ago, An Ning was not less bullied by Tang Qian, and gradually understood that what Tang Qian wanted was the feeling of showing off her power.

Now, because of her scandal with Yang Qingfeng, it can be said that she hit the muzzle of the gun. It's only her fault that she didn't expect Sister Luo to still make herself Tang Qian's assistant.

Even though he had scolded it a hundred and eighty times in his heart, An Ning still said, "I'm sorry, I'm sorry."

"What's the matter with you?" When Xiaodong came back with his clothes, he saw An Ning retreating outside with the smell of nail polish remover.

"It's okay, you go first, I'll wash." An Ning's eyes were a little red, and she had to endure this.

"You take this." Xiaodong just took out a towel from the middle, "Just go there."

In the bathroom, the smell of nail polish remover lingers for a long time. Even after washing it again and again, there is still a faint smell on the clothes. Although it is not pungent, it does not smell good.

But An Ning didn't dare to stay any longer. She hurriedly washed her hair, and then used a paper towel to dry it. She had no choice but to tie her hair up to show some sunshine.

"Mr. An, the documents you want have been obtained."

An Ning never thought that there would be someone outside the women's bathroom, so he went out in a hurry and bumped into a solid human wall. A familiar and long-lasting smell immediately took over his breath. An Ning's brain was short-circuited for a moment. Can't remember anything at all.

I just felt that the smell was very familiar, but under the impact of the nail polish remover, An Ning couldn't remember where he came into contact with this smell anyway.

"Ah, sorry, I didn't expect—"

Before An Ning finished speaking, he heard a low and pleasant male voice from overhead: "Are you alright?"

Obviously it was a concerned greeting, but because of the cold voice, Che became devoid of any emotion, An Ning shook his head: "It's okay... I..." As soon as she raised her head, she was shocked by the appearance of the man in front of her.

To say handsome guys, there is really no shortage in the entertainment industry, whether it is man-made or natural, I have seen too much in two lifetimes, but the man in front of me... can only use the words "surprised". Enough to describe his handsome and dusty.

The man's assistant handed over a document in a yellow document bag from behind: "Mr. An, this is the document sent over there, take a look."

After finishing staring at An Ning took a deep look.

"Let's go." The man didn't stop, and the peculiar smell in his breath gradually dissipated.

It was the first time in his life that he had smelled something other than perfume on a woman, but it was very special.

Here, when An Ning went back, it happened to Tang Qian's part, and Tang Qian had already started filming, and there was no way to find fault with her.

Tang Qian filmed an urban inspirational drama. This scene is a scene where the heroine was slapped by her boss because she did something wrong in the office. With Tang Qian's status in the entertainment industry, how dare an artist who plays the opposite side really slap her.

Fortunately, the director said that he could borrow the seat, and the actor on the opposite side was relieved.

But seeing An Ning's return, the bad water in Tang Qian's stomach came out instantly.

"Director, it's too fake to take this photo and it affects my reputation." Tang Qian expressed her dissatisfaction with a delicate voice.

When Tang Qian was so dedicated, how could the director disagree?

But the director thought so. When it was time for the confrontation, before he even called to start, Tang Qian gave the actress on the opposite side a look, and she was stunned. After so many times, the actress didn't dare to do anything, and the director was anxious.

"Director, she probably feels pressure to follow me on the show and can't do anything, so why don't we replace it with a substitute." Tang Qian looked understanding.

"This..." The director was in trouble. Tang Qian did have a lot of stand-ins, but now the role has just begun, and it's not heavy, so I didn't prepare stand-ins at all.
