

Chapter: 921

They found that the figure of the man who drove was severely stiff, and the color of consternation on his face instantly solidified.

A blood line, unexpectedly, slowly emerged from the top of his neck.

Tick! Tick!

A drop of blood dripped from the blood line.

Not only that, this blood line is getting bigger and bigger.

In a blink of an eye, the head of the driving man slipped slowly from the top of his neck.

Grunt!

Rolling to the ground.

The headless corpse appeared in front of Bai San and the others, and the blood on the neck spurting up, making everyone's scalp numb.

Dead...dead?

Bai San and all the other members of the White Angels couldn't believe their eyes.

Spike?

They couldn't even dream that their companion, a magnificent master master, was killed instantly by the blood wolf?

how can that be.

"Great... Great Master, you, you are also Great Master?"

Bai San was stunned.

All the other white angels were equally dumbfounded.

They had only heard before that the blood wolf was abolished in Jiangshi, but they didn't know that the blood wolf had already been promoted to become a great master.

And now...

a trace of chill instantly hit everyone's hearts, causing Baishan and the others to almost burst their scalps.

One master and apprentice, two great masters!

This is so scary that people can't imagine.

It wasn't until the headless corpse fell to the ground with a puff that Bai San and the others woke up from the shock just now.

"Why? Do you want to avenge him?" The blood wolf looked at Bai San and the others, and the corners of his mouth curled slightly, revealing a brutal arc. Mobile terminal:

He can kill one person!

Don't mind killing everyone.

Feeling the blood wolf's growing murderous intent, Bai San felt that his back was completely wet with cold sweat, and quickly bit his scalp and said:

"Blood...Mr. Blood Wolf calmed down! He has already paid for his mistakes. For the price, I... we naturally dare not avenge you!"

Bai San didn't even have the courage to look at the blood wolf at this moment.

After saying this, he quickly turned his head and waved at everyone:

"Everyone get in the car and continue to set off!"

Finished!

Bai San took the rest of the crowd, respectfully bowed to the Blood Buddha and the Blood Wolf, and only then got on the car again in a panic.

Hum!

The four Land Rover continued to move forward, but only the two masters and disciples of the Blood Buddha and a headless corpse on the ground were left.

Looking at the four Land Rover leaving.

Bloody Buddha's eyes narrowed involuntarily:

"Little wolf, these people's identities, I'm afraid it's unusual!" "Thirteen members of the Grand Master, tusk... If I didn't guess wrong, the whole Jiangnan, I'm afraid there are only four majors. Hidden giants have this kind of strength, right!"

Hearing this.

The blood wolf nodded involuntarily, and then stepped forward to check the headless corpse. Then he turned to the Blood Buddha and said:

"Master, they are the white angels under the Jiangnan Bai family!" The white angel?

Bloody Buddha's eyes narrowed slightly:

"Why did the white angel go to Jiangshi? And, Jiangnan Bai's house?"

Blood Buddha seemed to have thought of something, a trace of gloomy chill gradually emerged on his ugly face:

"Could it be related to the king?"
