

Chapter: 926

After this person saw Lin Fan, he was taken aback for a moment. Obviously, he didn't expect Lin Fan to stand outside the courtyard, and it looked like he was waiting for him.

"Mr. Lin!" The man hurried forward and bowed to Lin Fan.

"Are you from Lord Tiger?" Lin Fan glanced at this person lightly:

"Let's talk, what's the matter!"

Hearing this.

The man did not dare nonsense, straight and quickly said:

"! Mr. Lin, who we just found out, there are four Land Rover went to the White House, the license plate belongs to the southern city, is likely to be south of the White House" and

"And, from There were a total of twelve people in the car, and the aura on each of them was extremely terrifying!"

"Master Tiger asked me to remind you, all be careful!"

Jiang Nan Bai's family?

When Lin Fan heard these four words, a hint of disdain appeared in the corner of his mouth.

"It seems that Jiangnan Bai's family still can't help but send someone to die!"

"If what is expected is good, tell Lord Tiger, they should be white angels!"

White angel!

These four words fell in the ears of this man, and his complexion suddenly changed. He had naturally heard of this terrible organization, especially knowing that this organization had killed countless people and had never failed.

And now, if twelve white angels came, they were almost an invincible terrorist force sweeping Jiang City.

Thought of this.

The man's complexion was instantly pale.

However, at this moment.

"Come out!"

Huh?

Hearing Lin Fan's voice, the black man was taken aback.

There are only two people here, he and Lin Fan. He doesn't understand at all, who is Mr. Lin going to let out?

But, just when the man was shocked.

Swish!

He only felt two gusts of wind, suddenly blowing, and then the black-clothed man was surprised to find that two more old men appeared beside him.

Especially after seeing the faces of these two old men.

boom!

The man in black was almost scared to pee.

Because these two people are the strongest duo in Jiangnan Ming-Helan Mountain and Leng Aotian.

"Farewell to Mr. Lin!!!" The two great masters had just appeared, and they all bowed to Lin Fan, with an extremely respectful expression.

Looking at the two of them, Lin Fan seemed to have guessed what they were coming from, and he couldn't help but smiled and said,

"You also got the news?"

"Yes!" The two great masters nodded together, and then said solemnly:

" According to the information we have received, this time the Jiangnan Bai family sent the White Three Group. The captain is named Bai San. He is a top master, and there are eleven veteran master masters under his team!"

"These people, I have participated in 36 assassination and massacre missions before and after, and no one missed!" I have to say!

Leng Aotian and Helanshan, as the two most powerful people in Jiangnan Ming, have an extremely sharp intelligence network in their hands.

When the White Angel had just entered Jiang City, the two of them had already had a clear picture of each other's situation.

Hearing this, Lin Fan smiled slightly, but didn't care.

As if in his eyes.

A top master, with a group of master masters, and twelve ant bugs, there is not the slightest difference.
