

# Chapter 5577

Although Charlie coveted Maria's Lightning Strike Wood in his heart, he was really embarrassed to ask for it for a while.

After all, this thing has been treasured by Maria for more than three hundred years, so it must have an extraordinary meaning to her.

However, Charlie knew that there was no need for him to be too anxious.

In the current situation, even if Maria gave him the lightning strike wood, he would not be able to refine it at all.

So, he looked at her and asked a question that he was very curious about, "Miss Lin, I really want to know, how did you come here for more than three hundred years? "Proficient in spiritual energy, there is no match for Victoria at all, so I have been running for my life for more than three hundred years."

Maria said, "But the first two hundred years were fine. It's not so easy for Victoria to catch me."

Speaking of this, Maria tilted her head, recalling, and narrated, "After finishing father's funeral affairs, because of my young age and lack of ability,"

"I could only live in southern Yunnan's several remote places for decades,"

"Because my face was too young, in order not to be suspected, I usually lived in one place for five or eight years, and would change to another place;"

"It was also during that period during that time, I fell in love with Pu'er tea," "During that time, I traveled to many places, and took this opportunity to learn and experiment with Pu'er tea-making methods,"

"And then I lived by the Tianshi Lake in southern Yunnan for several years and taught local tea farmers how to make Puer tea better;"

"After years of fleeing, I had accumulated some money and learned a lot of experience in life and escape,"

"And stayed by the Tianshi Lake for a few years, and it was time to go, so I left South Yunnan..."

"Leaving the south of Yunnan, I didn't dare to go to the mainland, so I went all the way south to Jiaozhi,"

"And from Jiaozhi all the way to Nanyang lived in several counties in Nanyang, and finally lived in Penang for a while,"

"Later, I went to Brunei, went to Indonesia, and then took a boat from Indonesia to India,"

"And from India to the Ottoman Empire through the Middle East;"

"After that, the industrial revolution began in Europe, and I was very amazed at that time. With their rapid development in science and technology and academics,"

"I began to travel to various European countries and used different identities to study in many universities in Europe

; But it didn't take long before the British invaded China. They began to use the power of the whole country to colonize and sell opium all over the world,"

"And provoked the first Opium War in China. I hated it, so I left England and went to North America by boat;"

"It's just that I didn't adapt to the environment in North America at that time." "There was no order in North America at that time. New people didn't know the way of harmony."

"Everywhere they went, there was blood and chaos, so I went to Japan on a merchant ship after the Civil War began;"

"In the stage of rapid cultural impact and rapid integration, I wanted to see where Japan's national situation would develop,"

"So I stayed in Japan for a while. Seeing the rapid development of Europe after the Industrial Revolution,"

"And the rapid transformation of Japan after the Meiji Restoration, I really wanted to go back to China and do my part for China."

"So I went to Hong Kong from Japan, and I did my best to join Xinghua Club;" Charlie was so shocked that he couldn't speak.

He thought that Maria might have been living in an inaccessible place for so many years of fleeing to avoid being hunted down,

But he didn't expect that she has been walking on the cusp of the whole world. Even in the process of escaping, she herself wanted to do her part,

Which is highly consistent with her father.

At this time, Maria continued, "I just arrived in Hong Kong and through some previous relationships,"

"They got in touch with the Xinghua Society, but when I was about to meet them,"

"They were ambushed by the dead men from the Warriors Den, and they narrowly escaped death."

Just escaped from the tiger's mouth;"

Charlie asked her, "Someone leaked the secret at that time?"

“Yes.” Maria nodded, and said with emotion, “I didn’t know at the time that Victoria’s people had already begun to infiltrate.”

Said, Maria sighed and said again, “After that narrow escape, I realized that Victoria had already begun to infiltrate and deploy from Asia to all over the world, so I went to South America;”

“On the eve of the First World War, I heard that Xuantong had abdicated, I was so excited that I could not close my eyes for three days, so I ventured back to China;” “After living in Eastcliff for a while, I traveled to the north for a while, until Japan launched the 9.18 Incident in the Northeast;”

After September 18, I felt that the situation in the north had changed suddenly, so I returned to Eastcliff again;”

“After the July 7 Incident in 1937, the Japanese invaded China in an all-round way. There were still some children who needed to be taken care of during the war,” “And I couldn’t take them to escape the war in the country, so I had to take them to the United States and didn’t leave until after the end of World War II;”

Charlie asked in surprise, “You have been running away all the time. How can there be some children to take care of?”

Maria said seriously, “I fled and traveled around, and it was really hard for one person, sometimes accidentally broke my leg, and there was no one who could give me a sip of water,”

“So later, I began to adopt some abandoned babies and displaced orphans one after another, then I would keep them by my side to raise them, teach them to read and study;”

“I would take them to and fro together, and those with bad character I would leave some money for them and find suitable people to entrust them before leaving the place;”

“As for those who stayed by my side because I thought they have no problem with the character,”

“I will choose to tell them the secret of my immortality at the right time.”

“After all, I had raised them from childhood to adulthood. Even if I didn’t tell them, they would be suspicious because my appearance never changed;”

“I traveled around the world these years, and I had earned a lot of wealth by various opportunities and accumulated a lot of property around the world,”

“So these children who passed the test, when they grew up, then I would give them some wealth and opportunities,”

“And even hand over some business to them, and over time, it could be regarded as blooming everywhere;”

Charlie asked in amazement, “Are they all your adopted sons and daughters?” “It doesn’t count.” Maria shook her head and said, “I didn’t want to be too sad when they die,”

“So I had never forgotten to establish a clear sense of boundary with them.” Charlie was surprised and couldn’t help asking her, “At that time in Northern Europe, you were accompanied by an old man.”

“You called him Grandpa in front of me, but he was actually an orphan raised by you, right?”

Maria smiled slightly. “The old man you are talking about is Mr. Zhang. He is the last abandoned baby adopted by me in Eastcliff after the July 7 Incident and before leaving for the United States.”

# Chapter 558

After a pause, Maria continued, "In fact, most of these children, after the age of 20, they would set up their own businesses with the help from me."

"Some assets are said to be entrusted to them to take care of them, but in fact, it is equivalent to a gift from me. I don't know how much wealth is given away; "

"Only a very small number of children like Mr. Zhang, who have a deep relationship with me and were willing to stay with me, would always be taken by me."

"After all, I am a girl and have no means of self-defense. , when fleeing around, you also need someone to take care of you;"

"In addition to Mr. Zhang, there is also an American girl born in 1942 who has been following me. But she died of cancer a few years ago."

"The owner of this house was adopted by me before the July 7th Incident, when he was still a baby, and I later took him to the United States,"

"Where he graduated from Yale University, I let him go to Southeast Asia to take over some of my businesses there."

"Over the years, he has managed well and has become the richest man in the area; Another one was also adopted by me before the July 7th Incident,"

"And had been studying in the United States before, and came back to build the motherland in 1963,"

"And developed very well in the following years."

Speaking of this, Maria paused slightly, and said, "After arriving in the United States, I also adopted several orphans in the United States."

"However, after the end of World War II, technology became more and more advanced, and the strength of the Qing Dynasty became stronger."

"I became more cautious, and moved to some island countries in the South Pacific and Indian Ocean."

"For decades, I didn't dare to continue to adopt. A few years ago, I went to Northern Europe again, and finally met you in Northern Europe..."

Charlie listened to Maria's narration silently, and his heart was already filled with turmoil.

Maria understated the experience of more than three hundred years but in this understatement,

I don't know how many thousands of miles of journeys and hardships are included, and don't know how many times of great changes in the world are included.

Thinking about her past three hundred years, it must have been extremely bumpy and full of tribulations.

After Maria finished speaking, seeing Charlie remained silent for a long time, she smiled and asked,

"Master, you know that I have lived for so long, are you envious?"

Charlie looked at her, shook his head slightly, and said from the bottom of his heart "I'm not envious, I even feel a little distressed..."

"Distressed?" Maria was taken aback, and subconsciously asked, "Does the youngmaster feel sorry for me?"

"Yes..." Charlie looked at her and nodded slightly.

Maria's eyes became hot; she quickly turned her face away, and said with a forced smile,

"What's so distressing about me, if the story of me is told to outsiders, I don't know how many people will envy them to death..."

Having said that, but even though she looked up at the ceiling, tears still flowed down her cheeks uncontrollably.

Maria wiped away her tears in a hurry, with tears in her eyes, but she smiled and asked Charlie,

"By the way, why do you feel sorry for me?"

Charlie said with emotion, "Although I have not lived forever when I think that I may live to be two hundred years old,"

"I was already terrified, and now I heard you say that you, a little girl, have lived alone in this changing world for nearly four hundred years,"

"And it was the most turbulent four hundred years in human society. How much pain and suffering, it really hurts to think about it..."

At this moment, Maria looked at Charlie and just wanted to cry in front of him. For more than three hundred years, she has never been happy with her longevity. On the contrary, she has long been tired of this kind of hiding.

In the past three hundred years, she had thought of ending her life countless times. But when she thought of her father trading his own life for her own longevity, she had no choice but to give up the idea of suicide.

After all, she knew in her heart that before her father died, his greatest wish was to keep her alive.

He hoped that his precious daughter would live a long life, even a hundred years was not enough, five hundred years would be the best.

But his own life was fixed at the age of forty-one.

Because of this, Maria gritted her teeth and persevered on the verge of collapse countless times.

However, her heart has already been tortured and devastated by longevity. Charlie really felt sorry for the little girl in front of him, even though she was really almost four hundred years old.

At this time, Maria sighed, and with red eyes choked up, "I thank you, young master, for your love..."

After finishing speaking, Maria said again, "I have investigated the past of the young master, and I know that you and Warriors Den have a deep hatred." "Starting today, I am willing to do my best to help you kill Victoria, and by then,"

"I will be able to end the three hundred years of fugitive life and live a normal life..." Charlie nodded lightly and said firmly "Don't worry, Ms. Lin, they have repeatedly tried to kill my grandparents and the whole family."

"I will definitely let Victoria pay for this!"

After saying that, Charlie said a little dejectedly, "It's just that this Victoria's strength is sure to come true."

"Very powerful, among other things, when Jermo blew himself up, he scolded her for being cruel,"

"Thinking that the powerful energy he blew up was all the means left by her, In this alone, I am far beyond my reach,"

"Not to mention that she has lived more than three hundred years longer than me, and has much more experience than me in all aspects. I am not sure whether I can beat her..."

Maria comforted, "Young Master, don't be depressed. Although Victoria has lived more than three hundred years longer than Young Master, she definitely doesn't have such a chance as yours."

"Entering the sea, looking at it this way, the young master must be someone far ahead, which Victoria will not be able to catch up with

"If he lives for another thousand years; "

Charlie sighed, "Then I don't know how many years later..."

Maria looked at Charlie, and said solemnly, "No matter how many years it takes, I believe that you will be able to kill the enemy with one hand,"

"And the only wish is to be able to kill the enemy in this lifetime. See that day comesas long as I am alive!"

Charlie raised his right hand with some difficulty, looked at the ring on his finger, And said with a self-deprecating smile, "If Victoria doesn't get this ring, then she only has a hundred years to live."

"If I can't kill her, she will die of old age..."

Maria laughed and said, "My lord, there is no need for too much pressure."

"It is not unacceptable for Victoria to die of old age. After all, whoever lives the longest is the real winner."

Charlie shook his head, and said with a bright gaze, "No way!"

"If Victoria is allowed to die of old age naturally, it would be too cheap for her! I must kill her with my own hands!"

As he spoke, he suddenly remembered something, and blurted out, "By the way, when Jermo blew himself up just now,"

"I saw a woman hiding nearby. The woman had been hiding before, but at the last moment her aura was exposed."

"A monk, maybe another earl of the Warriors Den, and she was ten feet away from the center of the explosion, so she might still be alive!"

## Chapter 5579

“A woman?”

Hearing Charlie’s words, Maria exclaimed, “My lord, do you still remember whatthat woman looks like?”

Maria nodded lightly, “That should be Jeremiah, one of the Four Earls of the Warriors Den!”

Charlie asked in surprise, “Do you know the Four Earls?

“I know something.”

Maria said, “Although Victoria is the only one who has survived until today in theWarriors Den,”

“There are still some descendants of my father’s tribe inside. Because of the specialpoison Victoria prepared,”

“They can only serve her for generations, but they also know that I am still alive.” “They have been trying their best to inform me, so I have some understanding of the internal situation of the Warriors Den...”

“Although the the four earls have the highest status in Warriors Den, except forVictoria, but in name, in fact,”

“The financial resources, manpower, and material resources of the Warriors Den areall in the hands of the five military commanders’ mansions,”

“And the five army commanders’ mansions, without exception, are all from the Wu family, that is, the descendants of Victoria’s original family...”

“Victoria is powerful, can live forever, and has an extremely ruthless style of acting,” “So over the years, she has accumulated a considerable amount of wealth, which is basically managed by the Wu family. Victoria is loyal;”

As she spoke, Maria continued, “As for the four Earls of the Warriors Den, they areJermo, Jarvis, Jeremiah, and Javren.”

“Among them, Jermo is the strongest, and Jeremiah is the most powerful.”

“It was the only woman, probably the one the young master saw before Jermo blewhimself up!”

“Jarvis had already been killed by the young master’s subordinates before,”

“And Jermo was forced to blow himself up to death by the young master today.”

"If Jeremiah was also seriously injured, out of the four counts of the Warriors Denyou kill three!"

Charlie said, "I don't know if Jeremiah is still alive. If she is dead, it's okay. If she is still alive, maybe she will find an opportunity to inform Victoria!"

After all, Charlie struggled to get up but felt that his body was still unable to use the strength.

Maria hurriedly pressed his shoulders, and said, "Don't worry, young master, Jermo's self-explosion is so powerful, Jeremiah still alive?"

"It's all unknown, besides, even if she is lucky enough to survive, she must be seriously injured,"

"The situation may not be much better than the young master, I believe that there will be no chance to report to Victoria in a while."

Charlie said solemnly, "We still can't take it lightly, no matter whether she is dead or alive, we must find her as soon as possible!"

After that, he looked at Maria and said, "Miss Lin, please lend me your mobile phone."

...

At this moment.

A valley a few kilometers away from Wanliu Villa.

Orvel, Issac, Duncan, and the He family including Ruoli have searched the entire valley.

Everyone searched for so long, but still couldn't find Charlie's whereabouts.

Their hearts became more and more anxious, and they even had a bad premonition deep in their hearts.

After all, the power of the explosion was indeed too great, and the figure in the center was obviously the remains of the human body after the explosion.

With such a strong explosion, it would be difficult to survive if there were other people around.

Although they all knew that Charlie was very powerful, but in the face of such a powerful explosion, no one was sure whether Charlie could survive the explosion. Contrary to the increasingly desperate and heavy feelings of others, Duncan felt more and more hopeful after repeated searches to no avail.

At this time, Ruoli had already broken down a bit, she suddenly sat on the ground and cried loudly, which suddenly attracted the attention of others.

Everyone hurried forward to appease Ruoli. Although Orvel was also in a heavy mood, he was the first to say,

"Miss Su, don't worry so much, maybe Master Wade is a lucky man with a natural face!"

"Yes, Miss Su." Although Issac's eyes were red, he still tried to comfort, "As long as there is no clear evidence that the young master is in danger, it proves that there is still hope for everything."

Ruoli knew that they were all in a state of worry. It was just to comfort her, in fact, everyone couldn't find Charlie's whereabouts, and they were all very confused and very sad, but she became the first person who couldn't hold back their emotions. Duncan stepped forward at this time, and said to everyone with a determined face, "Everyone, don't be too pessimistic for the time being. From the current point of view, I think Mr. Wade has a very high chance of surviving!"

"What?!"

Duncan calmly analyzed, "First of all, you have to think clearly about one thing." "We shouldn't be pessimistic because we can't find Mr. Wade's whereabouts. On the contrary, we should be sad because we can't find him."

Speaking of this, Duncan said again, "Think about it, everyone, the explosion just now was so powerful, if we found Mr. Wade's whereabouts here, even if he is still alive,"

"I am afraid he will only have one breath left."

"Just because we couldn't find Mr. Wade's whereabouts, nor could we find Mr. Wade's body, so this proves that the possibility of Mr. Wade's narrow escape is very high!"

Orvel blurted out, "Inspector Li, in the explosion center, there are Master Wade's things, those things prove that Master Wade was probably at the center of the explosion when the explosion happened."

"And we have searched such a large area, but we haven't found any clues from Master Wade,"

"Isn't this a contradiction? Could it be that Master Wade was able to hide in a safe place at the moment of the explosion?"

"If so, why didn't he contact us?"

Duncan said seriously, "Orvel, you have been following Mr. Wade for a long time." "It's time, you should be very clear about Mr. Wade's Multi-methods are simply beyond our comprehension;"

"It seems that I don't understand why I was shot so many times and my body was beaten into a hornet's nest, but Mr. Wade can still save me;" "

So, we must not use common sense to look at what happened today."

"Do you think that Mr. Wade may have been at the center of the explosion when it exploded,"

"So is it more or less ominous for him? Then why don't you change your thinking," "What if Master Wade has some means to resist the explosion, and put himself in a safe place at the moment of the explosion?"

Orvel said with eyes, "Inspector Li, I don't want to confront you, nor do I want to argue with you."

"My life was given by Master Wade. If God can make Master Wade safe, let I, Orvel,died suddenly on the spot, and I have nothing to say."

Speaking of this, Orvel choked up and said, "I just... I just don't know what's goingon in my heart, and I'm afraid that something might happen to Master Wade..." Everyone nodded understandingly. In fact, everyone was in the same mood. But they were all afraid that something would happen to him.

At this moment, Orvel's cell phone rang suddenly.

He was startled by the ringtone, and blurted out, "Isn't the signal blocked?" Issac on the side said, "The helicopter in charge of shielding has gone back justnow.

If it is shielded for a long time, the nearby residents will definitely find a way to complain, and it will cause even more trouble."

Oh..." Orvel nodded, glanced at the calling number, and didn't recognize it, so he directly hung up the phone, wiped away his tears, and said, "Let's keep looking!" As soon as he finished speaking, the phone rang again.

Orvel was already irritable, and even more, disturbed by the phone call, so heimmediately pressed the answer button, and blurted out,

"You are sick, haven't taken your medicine?"

From the other end of the phone, Charlie's voice came, "Orvel, why are you soangry?"

## Chapter 5580

The moment he heard Charlie's voice, Orvel was in a daze for a moment.

He didn't come back to his senses immediately, but just looked up at the skyblankly, and murmured,

"Is it a day... I couldn't be dreaming, right? Is God really so clever?"

Charlie asked on the other end of the phone "Orvel, what are you mutteringabout?!"

Asked by Charlie, Orvel came back to his senses, and asked in horror, "Wade...Master Wade?! Is it really you?! Or I am hallucinating?!"

As soon as Orvel said this, everyone around exploded!

Everyone was questioning him, asking if it was really Charlie who called him. And Charlie asked Orvel again, "Can't you even hear my voice?"

Only then did Orvel confirm that the person talking to him on the other end of the phone was really Charlie?

For a moment, Orvel burst into tears of joy, and he cried and asked, "Master Wade, where are you?! We have been searching in the valley for almost an hour, but we have not found your whereabouts. We are almost panicked to death..." "

Charlie asked him, "You guys? Who are you with?"

Charlie asked again, "Is there no one else?"

"No." Orvel hurriedly said, "Others know too much and it's uncontrollable, so we didn't notify too many people."

"Okay." Charlie admired Said "Orvel, you did a good job."

Orvel didn't care about being proud, and quickly asked, "Master Wade, where are you?"

Charlie coughed twice, "Ahem... I won't be able to explain this to you for a while. ,but don't worry, I'm fine for the time being."

Orvel wiped his tears and said happily, "That's good, that's good! It doesn't matter if I die, as long as Master Wade is fine!"

Charlie was confused and was about to talk when he heard Duncan's voice on the other end of the phone, "Mr. Wade, are you okay?"

Charlie smiled and said, "Thank you, Inspector Li, for your concern. I'm fine for now, yes. Now, how is my grandma doing?"

Duncan hurriedly said, "Don't worry, they are all in the villa in the middle of the mountain. They are safe at present, but they are all worried about you."

"Okay." Charlie breathed a sigh of relief, and said, "Inspector Li Go back later and help me stabilize their emotions."

"Tell him that I am fine, let them rest at the villa, and I will visit when it is convenient."

Duncan promised to come down and said, "Okay, Mr. Wade, I will convey it for you."

Speaking, Duncan asked again, "By the way, Mr. Wade, where are you now? Is there anything we can help you with?"

Charlie ordered, "Inspector Li, turn on the speaker of your mobile phone. I need your help with something."

Duncan quickly turned on the loudspeaker, and said respectfully, "Master Wade, please speak, everyone is listening!"

"If you hear the sound of helicopters nearby, ask them to stay in the villa and not go out; in addition, ask Ruoli to take He's family back to the hot spring hotel first." "And don't tell others what happened today; and Mr. Chen, you and Orvel should watch together. Tighten the perimeter of the villa, and don't let anyone get close." Issac said without hesitation, "Okay, young master, I'll arrange it now."

Charlie hung up the phone, returned the phone to Maria, and asked, "What did I do just now?" Tell them to fly a helicopter to pick me up, but you have to say no, I can hardly walk now, how can we get to the Champs Elysees Villa?"

Maria smiled and said, "If you ask them to pick you up, my lord, how should you explain to them? Suddenly appearing in the boudoir of a young girl dozens of kilometers away in the middle of the night? And..."

As she said that, Maria said a little shyly, "Besides, the young master hasn't put on any clothes yet."

"If it gets out, then I don't care, but how can the young master explain it to the respected wife?"

"Besides, Mr. Zhang and the others live below, and a plane comes flying at night." "A few men came over to the boudoir, and take away another naked man, what do they think of me?"

Charlie nodded, and said helplessly, "You are right, but how do we get there now?"

Maria Said, "My lord, wait for me for a while, and then I will make arrangements." After Maria finished speaking, she immediately stood up and went downstairs to change into a simple T-shirt and jeans.

She made a phone call, and twenty minutes later, a two-seater light helicopter quickly flew over the courtyard, and then slowly landed in the courtyard.

After the pilot got off the helicopter, he immediately left through the courtyard gate without looking back.

After he left, Maria came to the courtyard, took off a brand new airport maintenance uniform from the co-pilot of the helicopter, and then returned to the second floor with the uniform.

At this time, Charlie had already sat up by himself, covering his waist with a quilt. Thanks to the enhanced version of the three-quarters of the Pill, although Charlie's aura is completely clean,

At least his physical condition has improved to a certain extent, and he is not asweak as when he first arrived here.

Seeing that he had already sat up, Maria put the uniform in her hand besideCharlie, and said softly,

“The helicopter has arrived, young master, change your clothes first, and I willaccompany you to the Champs Elysees Hot Spring Hotel later.”

He nodded and said awkwardly, “Miss Lin, please avoid me for a while...”

Maria blushed and asked, “Can you wear it yourself? Do you need help from myside?”

Charlie waved his hand quickly, “No, no, I can do it myself. It’s just that the timemay be a little longer.”

Maria said, “I will turn around, the young master changed his clothes and called me, and I help the young master to go downstairs.”

Charlie shook his head and said, “I can go downstairs by myself...”

Maria said firmly, “Young master is still very weak. It’s fine to dress by yourself. Letme help you when we go downstairs.”

Charlie saw that she insisted, so he didn’t say anymore and spent a lot of effort toput the maintenance clothes on.

After changing his clothes, Maria helped him down the stairs.

When he came to the yard, Charlie found that there was no one else in the yardexcept a light helicopter,

And there was no pilot on the helicopter, so he asked in confusion, “Miss Lin, whatare we going to do next?”

Maria said indifferently, “I am here and no one else needs to see you.”Charlie asked in surprise, “Can you fly a helicopter?”

Maria nodded naturally, and said with a smile, “Yes, I’ve lived for a long time, and Iknow something Naturally more than others.”

Charlie was a little surprised that Maria could fly a helicopter at first, but now thathe thought about it,

He felt that her words were indeed reasonable, anyone who can live for more than300 years can also master many kinds of helicopters.

If Maria told him that she could fly a jetliner one day, he shouldn’t be surprised. Immediately afterward, Maria helped Charlie board the helicopter, and she also satin the cab on the other side.

On the helicopter, Charlie wore a noise-canceling communication headset andasked Maria, “Miss Lin, where did you find this helicopter?”

Maria said, "I asked Mr. Qiu to arrange it, but don't worry, my lord, I only asked him to get a helicopter."

"He doesn't know exactly what to do, the pilot was taken away from Zijin Villa immediately after the helicopter was delivered,

"The whereabouts of the young master will naturally not be revealed."

Maria asked Charlie again, "By the way, young master, Has everything been arranged at the Li Villa? As long as no one is near the villa, no one will see it." Charlie nodded and said, "It's all arranged, I have to ask Miss Lin to accompany me personally."

Maria smiled and said, "Young Master, you are being polite."

After all, she skillfully started the helicopter and easily flew the helicopter into the night sky.

# Chapter 5581

When Charlie and Maria flew towards the Champs Elysees together, Duncan, Issac, Orvel, and others who were relieved also stopped searching and returned to the Champs Elysees first.

Duncan knew that An's family was worried about Charlie's safety, So he ran back to the villa as soon as he got off the plane.

At this time, the An family stood in the living room with sad faces, hoping that Duncan would bring back good news.

After all, to the An family, Charlie is of great significance, And it has affected the An family for twenty years.

What's more, Charlie's other identity is the benefactor who once saved the An family.

For the current An family, the existence of Charlie has surpassed everything else. Seeing Duncan walking in quickly, the An family stood up collectively in an instant, Looking at him expectantly, the old lady had already subconsciously walked towards him, and murmured,

"Duncan, did you find Charlie? Do you know his whereabouts?!"

Duncan said with a smile, "Auntie, I have found Mr. Wade's whereabouts."

"He is fine, and he said to let you rest assured that he will come to meet you when he finishes his work."

The old man and his wife breathed a sigh of relief instantly, and couldn't help shedding two lines of tears because of the excitement. The rest of the An family also cheered excitedly at this moment,

And even Nicolas, who was not very good at expressing emotions, couldn't help laughing and crying.

Charlie's safety is their greatest wish at this moment. At this time, the old lady couldn't help but ask again, "Why doesn't Charlie come here now? Is he injured?"

It is clear that Mr. Wade was not there when we arrived at the scene of the incident."

"We searched for a long time but could not find Mr. Wade's whereabouts."

"Finally, Mr. Wade called Mr. Hong, and we found out that his life was not in danger."

Only then did the old lady feel relieved,

"Since it was Charlie who called, it proves that his life is not in danger..."

As she spoke, she choked up and said, "We are the ones who are sorry for Charlie and his parents."

"Charlie clearly hates us and saved us twice."

"I can understand that he doesn't want to see us for the time being."

Duncan hurriedly said, "Auntie, Mr. Wade is actually very concerned about you."

"He said he hated you just now, but he was just distracting the murderer." The old man Nicolas sighed, "Charlie should hate us. What I did was wrong."

Duncan said seriously, "Uncle An, Mr. Wade may indeed have a grudge against you,"

"But when you were critically ill, it was Mr. Wade who asked Ms. Gu to deliver you a life-saving elixir,"

"Which proves that he as a grandson, even if he complains about you in his heart," "He still cares about you. Complaints belong to complaints, but there is no hatred." "In his eyes, you are still his relatives."

The old man exclaimed, "What you said is true?!"

"The elixir that Sara gave me was given by Charlie?!"

Duncan said seriously, "Let me tell you, Uncle, as long as this kind of really effective elixir appears,"

"It must be Mr. Wade. No matter who sent this pill to you, it must have come from Mr. Wade."

Hearing this, the old man became excited, "You are right...you are right!"

"It seems that in Charlie's heart, there should still be a grandfather like me..." The rest of the An family couldn't help showing relieved smiles.

Only Marshal had a strange expression.

Tecé on the side saw the clue, and asked curiously, "Brother, what's the matter with you?"

Marshal laughed twice, "I just figured it out, it was Charlie who co-authored and kicked me out at the Pill auction." ..."

The old man smiled and said, "You deserve to be kicked out."

"Charlie had already said that pills could only be taken on the spot and can't be taken away."

"You want to challenge his rules. Isn't it justified to drive you out?" Marshal said dejectedly, "Dad, who was I challenging Charlie's rules for?" Marcus on the side patted Marshal on the shoulder and said with a smile, "Okay brother, although you were kicked out of the auction by Charlie,"

"Our family still has to thank you for being kicked out. If it weren't for you,"

"I'm afraid our An family won't come into Charlie's sight so early,"

"It's a good thing; the whole family is in your favor!"

Marshal sighed, and said sincerely, "Hey, it doesn't matter if you are kicked out by the nephew."

"I just didn't expect that my nephew is so capable and our savior,"

"So I feel a little embarrassed when I think about my words and deeds at the auction."

At this time, the roar of a helicopter came from outside the villa.

The old lady suddenly became excited, and asked Duncan, "Is Charlie here?" Duncan hurriedly said, "Auntie, Mr. Hong just said that for our safety, tight security will be imposed here tonight,"

"And he specifically told us not to go out casually tonight."

"Maybe it's patrol or something, you don't need to worry about it,"

"Just rest well tonight, maybe Mr. Wade will come to see you tomorrow." When everyone heard this, they didn't have any doubts,

After all, the helicopters took off and landed frequently tonight. It's already a little bit Get used to the situation for them.

At this moment, after about ten minutes of flying,

Charlie and Maria had arrived directly above Charlie's half-mountain villa.

Holding the joystick in her hand, Maria deftly landed the helicopter in the courtyard of the villa.

As soon as the helicopter came to a complete stop,

She jumped off and ran to the other side to help Charlie, who was handicapped. Charlie walked into the villa with her support and took Maria directly to the basement of the villa.

In the airtight basement, Charlie checked the mobile phone he left here, and he was relieved when he found that no one was looking for him. The time to do it tonight is in the middle of the night.

Under normal circumstances, no one would look for him during this time. What's more, before he left home, he also paved the way for Claire, who was faraway in the United States,

As well as the mother-in-law and old man at home,

Saying that the client asked him to go to another place to see Feng Shui temporarily,

So that if something happened, he couldn't go back at night, and the two will not be suspicious.

## Chapter 582

What Charlie was most worried about was whether his mother-in-law would sneak into his and Claire's room to find valuables.

If she found the letter he left for Claire, wouldn't it be a blast?

But now they are not looking for him, which proves that she has indeed settled down a lot recently.

Afterward, Charlie put down his mobile phone, and took out a remodeling pill and two Cultivation pills from the box where he stored the pills.

He was still seriously injured, and the Rejuvenation Pill was not very effective for him.

The best and fastest way to recover is to take the Reshaping Pill. And the spiritual energy in his body has also been exhausted, and only the Cultivation Pill can quickly replenish it.

Therefore, these three elixirs can basically restore his body to its original state. However, he was not in a hurry to take the medicine immediately.

Instead, he took out an enhanced version of the blood-scattering and heart-saving pill from his own pill,

Handed it to Maria, and said, "Miss Lin, you keep this pill."

"If you are in danger or seriously injured, this pill can save your life;" Maria hurriedly took a step back, waved her hand, and said,

"My lord, I can't accept this great gift..."

Charlie asked her, "Didn't you just accept it when you were in the dormitory?" Maria subconsciously said, "That's different..."

Charlie asked back, "Why is it different? You can accept it when you call me Charlie,"

"But you can't accept it when you call me Young Master Wade?"

Maria said awkwardly, "I... I. That's not what I mean... I just think that this elixir is too expensive..."

"The reason why I accepted the elixirs before was because I was afraid that if the young master was in danger one day,"

"The elixir that I keep could still be used as a gift."

"Prepare for emergencies, now that the young master is safe and sound,"

"It is not appropriate for me to accept the pills from the young master..." Charlie said without a doubt, "Then you'd better adjust the way you look at the problem as soon as possible,"

"And tell your heart. There's nothing wrong with that."

With that said, Charlie stuffed the pill directly into her hand,

And then without waiting for her reaction, took out another Rejuvenation Pill, Stuffed it into her hand again, and said, "This is the Rejuvenation Pill, if ordinary people eat it,"

"It can cure all kinds of diseases. If people who are not sick eat it,"

"They can prolong their life by 20 years. Its effect is stronger than this other Pill."

"If you take it, although it does not have the effect of prolonging life,"

"All injuries can be cured by the medicine."

"If the Blood Scattering Heart Pill doesn't work anymore, just take it!"

Maria looked at the two pills in her hand, she didn't know what to do for a while, And said a little helplessly, "My lord... this... this is too precious..." "

Charlie ignored her, stuffed another reshaping pill into her hand, and said,

"This pill is even more powerful. It is a remodeling pill. Even if a person's body is beaten into the mud,"

"As long as the brain is still alive If he is not dead, this elixir can reshape his body," "I hope you will never need it, but you still have to accept it, because it is my heart." Maria did not expect that Charlie even gave her such a heaven-defying pill,

And she didn't know what to do for a while.

At this time, Charlie took out another Cultivation Pill, hesitated for a moment, Then stuffed it into her hand, and said very seriously,

"This is Cultivation Pill, which replenishes spiritual energy."

"I guess you don't need it, but to show that I Thank you for your life-saving grace, you should accept it together!"

Maria couldn't laugh or cry, "Young master...you said that I will not be able to use it,"

"So giving it to me is a waste..."

Charlie said solemnly, "No! Don't waste it. You have to know, you saved my life, this is my whole heart!"

After a pause, Charlie said again, "You have lived for three or four hundred years,"

"And you have eaten and seen everything, and you must have money and things." "There is no shortage, and what I can give you as a token of my affection is this elixir;"

"I accepted the ring you gave me when I was in Northern Europe,"

"So today I will give you these four elixirs. You have to take everything, and you can't refuse anything!"

Maria saw Charlie's sincerity, and when Charlie gave her the pill,

She subconsciously held her hand, and she couldn't help but feel shy and at the same time moved.

So, she subconsciously said, "I will keep these medicines first, and keep them incase the young master will..."

Speaking of this, she suddenly felt that something was wrong, and quickly shook her head and said, "No, no, I said something wrong. Don't mind young master."

Charlie suddenly realized, and quickly said, "No, no, I don't mind, but you reminded me."

Then, he turned around and took a copy of each of the four pills, put it into Maria's other hand,"

"And the two of them clasped tightly. Like a drunken man telling his good brother, Charlie told Maria solemnly and earnestly, "You take this one too, just take it." "Assuming that I temporarily stored it with you, after all, I still don't know how to make your ring recognize me as the master."

"Before it recognizes me as the master, in case I have bad luck and encounter danger one day,"

"Maybe I will be sent to you by this ring to bother you again,"

"These pills are with you, and I can prepare myself for emergencies..."

Maria's pretty face turned red again when she thought of the process when Charlie was sent to the hot spring pool by the ring Behind her ears,

Although she was ashamed, she also knew that Charlie's worries were not groundless.

As long as he still wore that ring, if he was in danger again, he would definitely be sent to her by the ring.

Thinking of this, she nodded vigorously, and said,

"Young master, don't worry, I will definitely keep these pills well!"

As she spoke, she quickly said to Charlie, "Since you have so many panaceas,"

"You should take the medicine to heal your wounds first."

Charlie said, "It's too late to take the medicine here. During the ten minutes of the reshaping pill's release,"

"I might not be able to do anything. The one earl's life and death are uncertain now."

"If we don't find her quickly, I really can't do anything."

As he spoke, Charlie said, "In this way, I will take the elixir with me,"

"And Miss Lin will help me get on the helicopter when I get tired."

"After I get on the helicopter, I will take the medicine. I should be able to recover fast."

Maria said without thinking, "Okay, I will help you out!"
