

Cruel Heart Lover Novel

Chapter 1201

"What did you say?" Susie's face suddenly changed.

If it wasn't Janice's arrangement, could it really be Selena's babysitter? This is of course absolutely impossible!

So... what is the origin of this guy who appeared out of nowhere?

On the seat not far away, Su Xun saw that Roman was deflated, and he felt physically and mentally at ease. He glanced sideways and smiled and said, "Hehe, I really think that this imperial capital belongs to the Su family... There are people outside of people, and there is heaven beyond the sky. The imperial capital is the worst." What's missing is Crouching Tiger and Hidden Dragon! Don't take yourself too seriously!"

"You..." Susie was furious, but she had no time to entangle with this person, so she hurriedly cast a begging look at Roman, "Roman..."

It was already in her pocket, and she had already spoken to the reporter, implying that she was bound to get the crown, and everyone knew that Roman was going to use it as a token of love for her when she got married. , now being snatched away in full view of everyone, where will she lose face!

Therefore, she naturally hoped that Roman would not give up and snatch it back!

Naturally, Roman didn't want to show weakness and lose face at such a time, but after receiving Susie's gaze, his face became even more ugly. After all, it was 100 million, and the other party almost doubled the price. It was

impossible for him to pay more. If you continue to shoot, you will definitely not be able to spend that much money.

Susie also knew this, and whispered in Roman's ear, "Why don't I get some more?"

Roman frowned, "How could I ask you to pay, besides... this auction was signed on the spot after the hammer fell!"

What does this mean? It means that it is easy for the other party to come up with 100 million working capital. If he bids a price with such a person, it will only make the trouble worse!

Susie's nails were dug into her flesh, "Dmn it..."

Who the hell is this guy? What is the purpose?

She jumped out at this time and ruined all her plans...

Today is the first step of her big marriage with Roman, and this kind of thing happened...

On the stage, the auctioneer saw that no one answered, so he continued to speak: "No one has continued to bid, right? Then, well... 100 million once on the eighth! Twice 100 million! Three times 100 million!!!"

With a bang, the auctioneer finally dropped the hammer, and the deal was completed.

Roman didn't say a single word from the beginning to the end.

The asking price is there, and he has no room to speak.

The one with the same ugly face was that Sun Zhanpeng who was crushed twice in a row...

"Congratulations to our Mr. No. 8 for obtaining this crown! Now please invite our Mr. No. 8 to come on stage to obtain this treasure that belongs to you! Please!" the auctioneer excitedly invited.

At the same time, everyone in the audience stretched their necks and looked down.

Can we finally see who the number eight is?

This person obviously has such strong financial resources, but just now he deliberately raised the price of a small artist's auction piece by piece. He acted cunningly and could not guess it at all. It is really very curious...

In the corner, Xiaotao shook Selena's arm excitedly, "Oh my god! My god! One hundred million! One hundred million! That's too scary! No matter who this person is, it's really exhausting! Anyway, as long as it wasn't for Susie and the others, it's fine! I wrongly blamed that guy just now! But this guy is really weird, why did he raise the price by one yuan and one yuan to take pictures of your worthless bracelet, Miss Xi? what?"

Chapter 1202

"Is it just because I like that bracelet? Oh hehehe... Sister Xi, I chose that jade bracelet for you back then! I didn't expect my vision to be so good haha..."

Beside her ear, Xiao Tao kept chattering non-stop, while Selena's forehead was throbbing, and for some reason, she had a faint feeling of bad premonition...

The behavior of Number Eight...

Why does it inexplicably make her feel weird and familiar...

In addition, when she just entered the door, she seemed to see a familiar figure...

Just when everyone's eyes were on the stage, a tall and strong man with the appearance of a bodyguard in black clothes and black trousers walked onto the stage, whispered something to the host and the auctioneer, and then moved swiftly Signed the transaction book, paid the money, and then left directly.

100 million... 100 million... just paid and signed so casually...

It is worth noting that when the man left, he did not take the crown with him.

"What's the situation? You don't want the crown?" Everyone in the audience was at a loss.

Afterwards, the auctioneer carefully held the crown in his hands, looked at the audience, his eyes were shining, and he said excitedly, "Everyone, I was entrusted by the respected guest No. 8 just now! So... we Mr. No. 8 bought this crown at a sky-high price to give to a lady in our audience! Mr. No. 8 is a loyal fan of this lady!!!"

"What? As a gift?!"

"Dmn it! It was actually given away on the spot! Who is this, such a beast! Spending 100 million to buy things to coax women!"

"Loyal fan? It seems that the gift is a female star! This star chasing is really crazy!"

"I'll go! Whose fan is this! It's too tough!"

"I paid a hundred yuan. I'm a fan of Susie. Susie's fans are always tough!"

...

Xiaotao stretched her head and looked forward, while watching, she muttered angrily, "I can't be Susie's fan! No! Never! Please, please! If Susie's fan I Just smashed his head against the pillar to death!"

Selena: "..."

At this moment, the audience was about to be overwhelmed by discussions. Several famous actresses and actresses, including Susie, were all cast with fiery and gossipy eyes...

Seeing that Guan Zi was almost sold, the auctioneer announced, "The presenter of the crown queen is... Selena! Ms. Ning! We, Mr. No. 8, just took an auction of the jade bracelet donated by Ms. Ning, which shows that it is indeed true love." It's powder!"

The auctioneer teased him jokingly. He originally wanted to liven up the atmosphere, but underneath he had a ghostly expression, and his glasses fell off his chin...

Nima! Auctioneer, are you kidding me?

Are you sure it's a true fan, not a black fan?

In the corner, Xiaotao's eyeballs almost fell out...

At the same time, Selena's cell phone rang suddenly and received a new message...

Honey, do you like the gift?

Sender: Yunluobo

Looking at the three words "cloud radish" in the remark that she had personally changed back then, Selena pinched the center of her eyebrows, the

veins on her forehead were twitching violently, and her face turned blue and purple, as if she had gone mad...

happiness! joyous! you! sister!

She just said... this inexplicably familiar... crazy behavior...

It turned out...it really was that product!

Chapter 1203

"Oh my God! Sister Xi! Sister Xi, did you hear that! That 100 million crown...is for you! It's for you! That No. 8 is your fan! I almost returned I thought it was your blackmail..." Looking at Xiaotao's state, even if she didn't slam her head against the pillar to death, she would almost die of excitement.

And looking at the reactions of other people, you will find that Xiaotao is actually quite calm.

"I'm going to invite our Miss Ning to come on stage..."

Listening to the host's words, the bottom has already exploded.

"It turned out to be Selena..."

"How could this be? Shouldn't Miss Ning be referring to Susie?"

"Is there something wrong?"

...

"Selena is here to invite us, Miss Selena!" The host probably also heard the discussion below, and specially emphasized Selena's name.

Now, no one questioned it anymore.

"The reserve price of this crown is 30 million, and now it has been sold at a price of 100 million, which means that this auction item has raised 70 million for us. Miss Ning, you are undoubtedly helping us raise money in this auction." The guest with the most donations, thank you very much for your contribution to charity, and sincerely wish your acting career is getting better and better..."

On the stage, the host was complimenting Selena enthusiastically. Susie's face was extremely ugly, she had no intention of listening to the host's words, but was overwhelmed by jealousy.

No matter how much she thought about it, she would never have imagined that the person who snatched the crown would be Selena...

Susie was so angry that her whole body was trembling, and when she looked at Roman who was beside her, she had an expression of extreme sadness and grievance, "Roman...why...why did sister treat me like this...she clearly knows that I like this crown ...Clearly knowing what this crown means to me...why does she have to snatch it as long as it is mine..."

Roman also didn't expect this result at all, and pinched his brows tiredly and said, "Susie, Selena is also unintentional..."

"Wuxin? Will there be so many coincidences of Wuxin? When you proposed to me at the finale banquet last time, she had tried every means to steal my limelight, and now it's like this again! She just can't see me! I don't like She endured it again and again, but she bullied me again and again...Roman...I really can't stand it..."

"Susie, no matter how powerful Selena is, she can't do this. She should really be a fan of her... Don't be sad, I'll prepare better things for you later!"

"Roman, why do you keep talking for her! Do you want to be snatched away by her! Do you regret being with me?"

"Don't talk nonsense..."

...

Inside a black car.

As soon as the silver-haired man with a flirtatious face stepped in, Feng Xiaoxiao immediately rubbed her hands and moved over excitedly, "How is it? My move is not bad, right? Heroes save the beauty and so on. It is absolutely a hundred-tested job! Junior sister is Isn't it very touching?"

As soon as the words fell, the man's long and narrow eyes gave her a cold glance.

Feng Xiaoxiao's scalp was numb from being stared at, and she coughed weakly, "What... what's wrong?"

The man casually threw a black mobile phone over.

Feng Xiaoxiao hurriedly caught it, and then hurriedly looked at the phone, only to see such a conversation...

Honey, do you like the gift?

happiness! joyous! you! sister!

Feng Xiaoxiao was dumbfounded: "This... this is not scientific!"

Chapter 1204

"How is it possible! Junior sister is not such an unreasonable person!" Feng Xiaoxiao read the text message several times, and the more she read it, the more confused she became.

The man narrowed his eyes slightly, and his lazy tone revealed a hint of danger, "You mean... I'm unreasonable?"

Feng Xiaoxiao coughed lightly, and hurriedly waved her hands, "No, no, no! How could it be! But this result is indeed far from what I expected! Boss, did you really do what I said? Logically speaking, Junior Sister What I hate the most in China are those two scumbags, you helped her slap those two people in the face, even if my junior sister doesn't appreciate it, she shouldn't scold you!"

The more Feng Xiaoxiao thought about it, the weirder she became, and then she looked at Kevin who was beside the silver-haired man, "Brother, can you tell me what happened at that time? It's best to be more specific!"

The gloomy light of the laptop was reflected on Kevin's face. Hearing this, he tapped the computer a few times before handing the computer over.

Feng Xiaoxiao hurried over to look at the computer, and saw the live video of the charity party on the screen...

The live broadcast was done on weekdays by the organizer, and the number of clicks was very high. It has already been promoted to the first place. It can be seen that something explosive happened at the charity dinner just now.

Feng Xiaoxiao started to gossip again excitedly, but... the more she looked, the uglier her face became...

In the end, that face was already too horrible to look at...

With a "snap", Feng Xiaoxiao closed the laptop, looked at the two men sitting in front with a green face and trembling hands, "You...you..."

After a long while, Feng Xiaoxiao, who was about to explode with anger, barely managed to speak, "My dear boss! Please allow me to ask you from the bottom of my heart, why did you add one yuan to one yuan before??? ? How does your brain circuit work?"

"I'm happy, what's the problem?" The silver-haired man gave her a sideways look.

Feng Xiaoxiao beat her chest, almost spat out a mouthful of old blood.

There was no way to communicate well with the person in front of her, so she could only turn to Kevin, who was at the side, and roared heartbroken, "Brother!!! You know the boss's EQ! But why are you just watching and not stopping!!! !"

Kevin opened his notebook and started making those complicated financial forms again. Hearing this, he said without raising his head, "Why should I stop it?"

Feng Xiaoxiao: "..."

Heaven! Who the hell is here to save me!

She was about to be pissed to death by this group of ba5tards with infinite EQ!

I really shouldn't have the slightest hope for them...

Feng Xiaoxiao struggled as if escaping from the dead, and said weakly, "Boss! Since you have hired me as your dog-headed army... Ah bah, a military advisor in love! Then you should strictly follow the method I taught you, and don't give yourself Let's add some drama, okay? What's the difference between what you did before and a black fan? Maybe the little junior sister suspects that you were sent by Susie to mess things up!"

"Trouble." The silver-haired man had a vaguely irritated look on his brows.

Feng Xiaoxiao was afraid that he would offend this guy, so she quickly softened her tone, "Hey, my boss, if you want to tie my junior sister's heart, it will inevitably cause a little trouble..."

In fact, this guy's low emotional intelligence is all because of money, because for him, it only takes one trick to treat women, and he spends money and money, and he has no interest in men and women, and his brain circuit is incredible, naturally never think about studying those winding things...

Chapter 1205

Originally, I hoped that the elder brother would be able to mention a few words to the boss, but the result is good, the two of them are equally divided, and there is no hope at all...

In the organization, she has a good relationship and a normal brain circuit. There are only two young junior sisters and second senior brothers. Now they are all gone, and she is left alone, and her liver hurts from anger every day...

If it weren't for being really lonely like snow, she wouldn't be able to compromise and help that guy chase his junior sister...

If it is really possible to recover the little junior sister, then of course everyone will be happy!

It's a pity that after trying once this time, she would rather go to the countryside to farm than teach this guy to chase women...

100 million is just in vain... Hehe...

Lu Corporation, President's Office.

"Second Young Master!"

"Second Young Master, you are here!"

"Hi, Second Young Master!"

...

"Where's my brother?"

"The president is in the office!"

Saul didn't have time to pay attention to anyone, he passed through the staff area like a whirlwind, and ran straight towards the president's office.

Pushing the door open, Saul slammed his hands on his brother's desk with a "bang", "Dmn it! Brother! Why are you still in the company! Stop working so hard!!!"

Daniel raised his head from among a pile of complicated documents, pinched his tired eyebrows, "What's the matter?"

"Of course something has happened! Something big has happened! fcuk, there's someone who's thinking about your wife!!!" Saul was furious, his little expression was even more angry than his own wife being robbed. no wife.

Daniel's expression was slightly condensed, and he cast a suspicious look.

Saul immediately leaned over, searched and clicked on a video on Daniel's computer, "Brother! Look, one hundred million, one hundred million! What true fans say so nicely! They are just coveting your wife's beauty! It's just that , this guy doesn't know why he deliberately teased Selena in the first place, could it be to impress Selena more? Hmph, it must be like this! It's so insidious! Brother, you must not lose! You see, I have already selected all the optional gifts for you, and absolutely every one of them can crush that crown..."

Saul talked non-stop for a long time in that blah blah blah blah, and even clicked on the ipad in his hand to show Daniel the presents he was looking for, including crowns, rings, and sports cars...there are all kinds, everything you expect!

It looks like it is bound to win this round!

Daniel's eyes stayed on the corner holding the No. 8 sign in the video for a few seconds, and there was no emotion on his face...

"Brother, brother? Brother, did you hear what I said? The enemy is coming fiercely and we must not show weakness! Whichever of these gifts you think is suitable, I will go and buy them immediately!" Saul yelled anxiously.

Daniel: "No need."

"Why don't you need it! It's so necessary, let me tell you! Although you and Selena have a good relationship, the relationship needs to be maintained! Gifts are still very important!" Saul had a serious expression, and then frowned. Frowning, he murmured, "And... the number eight might be a bit tricky, and even I haven't found out who he is. I don't know who in the imperial capital has such financial resources? But it's definitely, it's definitely a small Xixi's crazy admirer, otherwise, could he be so generous, but I don't know what the relationship with Selena is, is it possible that he knew each other..."

Daniel leaned back in the chair, his face was cold, and he said calmly, "It's just an ex-boyfriend."

Saul: "..."

Chapter 1206

"What!?" Saul's eyes widened, "Ex... ex-boyfriend? This guy is Selena's ex-boyfriend? Brother, how do you know?"

Daniel didn't speak, and looked at the document again.

Being able to casually come up with 100 million working capital, coupled with such a reckless and arrogant style of acting...

No need to check to know who it is.

And that person, Selena once said, dated him for a day.

Even if Selena used to like...even loved him...

It was just once...

Saul looked at the calmness of his brother, who belonged to the "primary family", and expressed his admiration, "That's right, this No. 8 and Roman are just ex-boyfriends, so what if they fight to the death! Brother, you are the main room! Hehehe..."

After reading the last document in his hand, Daniel picked up his coat, got up and left.

"Uh, brother, where are you going?" Saul asked hastily.

"Prepare presents."

"Ah? Are you going to give Selena a gift? What are you going to give? Don't I have to choose?" Saul was immediately disappointed. At the same time, he was also very curious. Could it be that his brother has a better gift for Selena?

...

On the other side, after the banquet, Selena asked Xiao Tao to go back first, and then sent Annie a text message asking her to come out and meet.

Although 70 million of this crown is used for charity, even 30 million is already a huge amount.

Because it was a gift from others, it would not be appropriate for her to donate without authorization, and in the end she could only accept it temporarily.

Now, I can only ask Annie to do me a favor and return it.

She knows that the money is just a drop in the bucket to a certain person, and she also knows that the things he gave away will never be taken back, but she also has her principles, she has a big devil, and things sent by other men are naturally not worth it. May charge.

Although that guy can't be counted in the category of "human" to her...

Before seeing Annie, she made a special trip back, and brought the huge diamond with her, along with the thank you gift to Annie that she had prepared before.

A restaurant box.

"Karen!" Annie was very happy to see Selena.

"For you." Selena handed her a pink bag.

Annie looked at the extremely cute cartoon-shaped biscuits in the bag, and her eyes lit up, "Wow! So cute! Did you give it to me? Karen, where did you buy it?"

"I did it, don't hold it against me."

"What? Karen, you made it yourself? How could you dislike it! I like it so much! Thank you, Karen!" Annie held her in her arms like a baby. She didn't expect Karen to make such a cute thing, with a surprised expression on her face. .

"I should be the one thanking you. The medicine you prescribed to my grandfather last time was very effective." Selena thanked.

"It's just raising your hand... By the way, Karen, you are looking for me... Is there anything else you want?" Annie asked tentatively.

Selena glanced at her, "Do you know what happened today?"

Annie hesitated and said, "Actually, I don't know too well. I only know that the boss, brother Ye and sister Xiaoxiao went out together...it seems to be looking for you...have you met?"

The corner of Selena's mouth twitched, the senior brother and the third senior sister also went?

What the hell are these guys doing?

Selena squeezed her brows, "I actually have something to bother you about looking for you this time. There are two things I hope you can return to Satan! With his personality, he probably won't want it. Just put it back in his room quietly for me." Actually, I actually set it up by myself, but you know, I really don't want to go to that ghostly place where you guys live..."

Chapter 1207

Annie glanced at the things Selena gave her. She seemed to have a lot to say, but she probably felt that it was useless to say them. In the end, she just said, "Okay! Karen, I'll put it back for you. ..."

"Thanks."

...

A gloomy villa on the outskirts of the city.

Remembering Selena's explanation, Annie quietly opened the door of a room as soon as she returned.

The boss should not be back by this time...

The room was quiet, and the lights were not on. She groped lightly and walked to the position of the cabinet, trying to secretly put things into the cabinet...

As a result, as soon as the cabinet door was opened, the candles by the wall lit up, and a faint voice suddenly sounded in my ear, "Little bait, what are you looking for?"

"Ah..." Annie jumped up in fright, and looked at the man leaning on the bed behind her, her face turned pale, "No! I didn't find anything! I didn't steal anything! I...I just..."

"Hand." The man's voice was extremely cold.

Annie had no choice but to take the diamond and crown out of the bag in order to show her innocence.

Seeing those two things, the man immediately understood, his breath suddenly turned cold, "The other one."

Annie could only put the things in her right hand on the bed. From the transparent plastic bag, she could see that there were various cute shapes of biscuits inside.

"The right hand stays, the left hand throws away."

That means let her keep the cookies and throw the rest?

"But...but... Karen gave me the biscuits..." Annie had a reluctant expression on her face.

The man looked at him coldly, and Annie was so frightened that she immediately dropped the biscuit and ran away without a trace.

Ugh...how could this be...that's the biscuit Karen gave me...

Taohuawu.

After Selena asked Annie to send the things back, she finally settled one matter.

After a day of tossing around, she was almost exhausted. After entering the room, she changed into her slippers, threw her bag on the sofa, and then began to walk into the bedroom while taking off her clothes...

When she walked into the bedroom, she threw away the coat and stockings, pulled out the corset and threw it away with a "whoosh" sound, then let out a comfortable sigh, and then relaxed and threw her whole body on the soft and fluffy big bed ...

As a result... the moment I pounced... I was confused...

What a tactile sensation, isn't it?

What is this... hard... warm... full of explosive texture and touch...

My quilt has become fine?

Selena lifted her paws from the heat as if she had been electrocuted, and fumbled frantically to press the switch of the bedside lamp.

In an instant, the lights in the bedroom were brightened.

Then she saw...

The big demon king who came over at some time was leaning on the bed, with a pair of silver-rimmed glasses on his face, and a book that was thrown out by her in his hand. At this moment, the man was wearing pajamas, his hair was slightly wet, and he looked like he had just bathed. In the final appearance, the pajamas have been completely torn off by her, revealing a large area of honey-colored skin...

This lazy and relaxed posture, which is completely opposite to the usual loneliness and abstinence, is almost killing people...

Selena touched her beating heart, her breathing was a little unsteady, "Lu... Daniel... why are you here? You scared me!"

The man lifted the quilt beside him, and a deep voice hovered in his ears, "Come here."

Selena swallowed her mouthful of foam, and crawled over, looking up at the man above her with sparkling eyes, "Darling, what's going on...why...why are you so enthusiastic all of a sudden?"

This is both a bed warmer and a companion to sleep with...

The man frowned slightly, "Don't like it?"

Chapter 1208

Selena shook her head like a rattle, "How is it possible..."

How can you not like...

It's just that my little heart can't bear it a little...

As if satisfied with the answer, the man kissed the girl on the forehead, and then lingered and rolled to the corner of the lips, kissing like a little bit of water. In the seemingly soft kiss, it will burst like a tide in the next second. the raging...

Selena's fingers penetrated into the hair she kissed at her sensitive collarbone, keenly aware that the man's emotions seemed not as calm as he appeared.

Well, the Great Demon King probably knows what happened today, right?

She just attended a charity dinner. Daniel was so busy with work that it was impossible for him to know everything, but he couldn't help but have Saul, the king of gossip, so...the possibility of him knowing was very high!

"Which one do you prefer?" the man asked again.

When Selena heard it, her heart skipped a beat...

Depend on! Sure enough, I know it!

Saul has such a big mouth!

Dmn it, I'll settle accounts with him later, it's important to coax my wife first!

Selena turned over and pressed the man under her body, "What do you like more? There is no 'more', only you, only you..."

The dangerous undercurrent in the man's eyes instantly turned into a scorching flame, and the fingers placed around her waist tightened suddenly...

"That big mouth of Saul, what nonsense is he talking about again? I have asked someone to return that fan's gift, and the bracelet that was taken away was not something close to me, but Xiaotao just bought it for me... I am People with families only accept things from my family!" Selena said, as if she had suddenly realized something, she chuckled, "So...you are so enthusiastic today...so you gave it to me... ..Gifts? Tsk, if I had known that I could get benefits, I would have hired a few more fans to be babysitters to make you jealous a few more times!"

"Are you sure you can bear it?" The man looked at her meaningfully.

Selena's petite heart suddenly trembled, and she laughed dryly, "I'll just talk casually..."

"When will the movie be released?" The man looked at her deeply and asked suddenly.

The topic changed suddenly, Selena was slightly taken aback.

This question was heard in her ears, as if she was asking – when will you marry me?

After a brief absence, Selena came back to her senses, "Yesterday I was on the phone with Director Shen, saying that it will be released next week! Let's go see it together then?"

She already regretted not being able to watch the last "The World" with the Great Demon King, but now that this is even rarer, it is even more commemorative because it was filmed with the Great Demon King!

Daniel nodded, "Yes."

"Ah, by the way, the movie that was snatched by Liang Biqin will have its premiere tomorrow. The publicity and hype has been bombing these days, saying that the script is exquisite, the production is excellent, the special effects are awesome, there are a lot of superstars, and any passer-by is an actor. , The box office record will definitely be broken by then... I'm going to check the situation tomorrow to see how the filming is going! However, I'm really unwilling to contribute to her box office!" Selena muttered.

Hearing this, Daniel brought over the laptop by the bed, clicked it casually, and then a movie started to play on the screen, it was Liang Biqin's "I Only Like You"...

Selena's eyes widened immediately, "I'll go! Boss, you are too awesome, you even got the negatives? And it's super clear..."

Chapter 1209

Before the movie was released here, Daniel had already obtained the film, so it was obviously for her...

Selena sighed with emotion, "We're watching Liang Biqin's movie on such a beautiful day with such a beautiful woman... It's too wasteful..."

"Then what do you want to see?" Daniel asked.

Selena didn't know what was coming to her mind, she smiled maliciously and touched her chin, "I should watch some action movies like Ai Qing...would it be more atmospheric?"

The man glanced down at her, "Do you think I still need to read this when you are by my side?"

Selena: "..."

Great Demon King, your routine is getting deeper and deeper...

She found that every time she molested him now, she would be molested back...

"Ahem, watch a movie! Let's watch a movie!"

Selena finished watching the nearly two-hour movie without fast-forwarding...

In good conscience, after reading it, Selena felt that it was not as bad as she imagined.

Although the script of Liang Biqin's film is not as good as Shen Mian's, the story is strong and the subject matter is very novel, otherwise Selena would not have liked it.

After all, the script is here, and so much money has been spent on it, the effect is still good, except from her professional point of view, many dangerous super-segment doubles are too heavy, and Liang Biqin's acting skills are slightly embarrassing. Big bruise.

With so much publicity expenses and so many celebrities supporting it, the box office will definitely be able to recover it!

The above is from the point of view of Daliu and the audience. Of course, if you look at it from her personal point of view and evaluation criteria, this is rubbish. She was completely out of shape, as if she was playing, and it made her angry.

However, this is how movies are made these days. Even if there is no quality, they can still earn box office by relying on publicity and star power. This has also caused that whether it is a director or an investor, the reputation of an actor is more important than acting skills... ..

"Boss, what do you think of Liang Biqin's movie?" Selena raised her head and asked Daniel's opinion.

As a result... okay... the moment she raised her head, she met the other person's eyes...

Uh, could it be that he didn't watch movies at all for so long, but only went to see her?

Well, the big devil's reaction seems to have represented his views on this movie... It's not attractive at all...

"Well, Mr. Boss, when Director Shen called me yesterday, he asked me to be with you recently...I mean Ke Mingyu, asked me if I have been in touch with Ke Mingyu! It seems that I want to introduce you to an agent!" Selena murmured and said.

"I'll make arrangements later," Daniel said.

Selena's eyes lit up immediately when she heard this, "You...you want to find an agent? This means...you didn't leave this movie after filming, and I will still have a chance to film with you in the future?"

Daniel glanced at her lightly: "Didn't you want to sneak into me? Satisfy you."

fcuk! The big devil's teasing is too foul!

Selena rushed over with a "wow", "Oh my God! When I told Louis that I wanted to take care of you, that guy laughed at me and said it would be my next life! I didn't expect that I would actually have this opportunity in my lifetime! Darling, I really love you to death..."

Chapter 1210

night.

A box in a high-end hotel in the imperial capital.

There was a lot of voices in the box pushing glasses and changing glasses, and the atmosphere was very warm.

"I Only Like You" director Zheng Kangde, producer Wu Kai, several leading actors led by Liang Biqin and other main creative personnel are all present, and the main seat is a smart-looking middle-aged man in an Armani suit. This person is Cui Zhihao, the manager of People's Cinema.

Among the national box office rankings of urban movie theaters, Peoples Cinemas ranked first with a revenue of 3.8 billion yuan. For a movie, the theater manager can be said to control the life and death power of the movie's first day of filming.

If Cui Zhihao is dealt with, the guarantee of the box office is almost half successful.

In the circle, in order to get a higher film schedule, accompanying meals and drinking are commonplace. Naked "bribery" such as rebates and stuffing red envelopes has long been the norm in the industry, even in the imperial capitals of first-tier cities.

At the dinner table, director Zheng Kangde enthusiastically toasted Cui Zhihao, "Come on, Manager Cui, I'll toast you again, this movie depends entirely on your care!"

As Zheng Kangde spoke, he winked at Liang Biqin, and Liang Biqin immediately went over to pour Cui Zhihao a glass of wine in person, rubbing against Cui Zhihao's arm with his heaving chest.

Another actress was not to be outdone, and praised Cui Zhihao in different ways, "I have heard that as long as Manager Cui is interested in a movie, it must be a big hit!"

Zheng Kangde immediately echoed, "Manager Cui is the bellwether of our industry!"

On Cui Zhihao's left is Liang Biqin, and on the right is the beautiful female second, hugging left and right, blushing, laughing, "Where is Director Zheng, the theme of this film by Director Zheng is novel, the audience is all young audiences, and it is currently the main force at the box office. Needless to say, actors and casts, and the publicity is so strong, even if you don't mention it, I will definitely put it in the first place!"

"Manager Cui is really overrated. It's not up to you to decide which movie you want the audience to watch in the theater. No matter how good our movie is, we can't do without your support!" Zheng Kangde saw that the atmosphere was getting better. Cui Zhihao pointed out five fingers, "As long as Manager

Cui gives you your full support, I can make the decision here and give you this number directly!"

Cui Zhihao's eyes lit up immediately when he saw the number compared by Zheng Kangde.

This meant that he was going to give him 5% of the box office rebate!

Under normal circumstances, if the film distributor wants to "cooperate" with the theater, the theater will increase the film schedule in an appropriate amount, but the premise is to charge a certain box office rebate, which is the so-called "red envelope".

Most of this gray income falls into the hands of theater managers.

In the industry, the rebate is 3% in most cases, so Zheng Kangde's price can be said to be very sincere.

With the investment, cast, and popularity of Zheng Kangde's movie, it is stable to have a box office of 300 million yuan. According to the 5% rebate, he can get tens of millions!

Thinking of this, Cui Zhihao immediately smiled and said, "Don't worry, Director Zheng, I can give you this number for the screening rate of this film!"

Cui Zhihao also gave Zheng Kang Debi five fingers.

Fifty percent film placement rate!

Zheng Kangde immediately showed a look of satisfaction and joy, "Manager Cui is really refreshing!"

In the current market environment, if a film can occupy more than 30 film schedules, it means that it has a daily screening volume of 50,000 shows,

which is definitely a blockbuster level. The Hollywood blockbusters that exploded some time ago only have a screening rate of 50.
