Who is behind Zeling Studio?

...

Platinum Palace.

Today is the weekend, Daniel rested, Selena promised that Rick would come over and take him to the amusement park today, so Rick got up early in the morning, and right now he is packing his things in his room.

Saul was still wearing pajamas, so he ran over to gossip with his brother with the newspaper in his arms, "Brother! Look quickly! That kid Gong Shangze won the Golden Top Award! And he beat Dai Wei with a very high score." Nima's sister-in-law is too heaven-defying! Just pick up a treasure and pick it up!"

Daniel drank his tea calmly, it seemed that he knew about it a long time ago.

"However, what does the code name x mean? Does it have any special meaning? Gong... Shang... Ze... There is no abbreviation for x..." Saul was stunned for a while while talking. "Selena...xi...xi...uh..."

Saul carefully glanced at his brother who was just coaxed yesterday, and hurriedly said in a relaxed tone, "Named after the boss, I can't tell that this kid is quite sincere!"

While talking, Steward Yuan led Selena in.

As soon as he saw Selena, Saul immediately sized her up with strange eyes, then covered his face and said, "Selena, you're here! You're so filthy!"

Selena's face darkened, "Why are you so nervous? Where did I get dirty?"

Saul pointed to the six sets of skirts in the newspaper, "Isn't your design theme dirty enough?"

Selena said unhappily, "Are you blind, you have been reborn from the ashes, and you are so positive!"

Saul had a meaningful expression, "But, I only thought of one sentence..."

"What did you think of?" Selena inexplicably felt that she didn't hear anything good.

Sure enough, Saul said seriously, "Woman, you are playing with fire!"

Selena's head was full of black lines, and she couldn't bear it any longer and said, "The dirty one is obviously you! The dirty one sees dirty!"

After finishing speaking, he stopped talking and ran to look for Daniel, "Master Boss, where is Little Treasure?"

As soon as the words fell, Rick who heard Selena's voice ran out like a gust of wind.

Selena picked up the little guy, "Are you ready?"

Rick patted the small schoolbag on his back, indicating that he was all ready.

"Okay, let's go then!"

Selena will be flying abroad for promotion starting tomorrow, and one of the promotions will be stationed in country X, so she plans to take advantage of that time to go to Philadelphia to meet ys.

Before leaving, she wanted to take Rick to have a good time.

"There are a lot of people this weekend, so be careful," Daniel instructed on the sofa.

Selena picked up Rick, and blinked her eyes, "Master Boss, won't you go with us?"

Daniel was obviously taken aback when he heard the words, and looked up from the document, "You... want me to go with you?"

Usually, Selena takes Rick to play around, he won't disturb them, after all, where he is around, they might not have a good time, so, I didn't expect that Selena would ask him to come with him this time...

Chapter 632

Selena nodded honestly, "I think so!"

After finishing speaking, he hesitated, "There are too many people in that kind of place, and they are quite childish. If you don't like it, Mr. Boss, then..."

"I like it." Daniel put down the document in his hand, stood up, and picked up the trench coat on the coat rack.

Seeing this, Selena's eyes immediately lit up. She was afraid that Daniel would not go, but she did not expect to agree so easily.

Little Treasure had gradually stopped rejecting Daniel, and was very happy to know that his father would go with him, his big eyes were full of excitement.

This is the first time he went out to play with Papa and Aunt Selena...

Looking at the family of three, a certain koi was lying on the sofa like a dead fish, with a sad face all over his face, "You left me again!"

Ning Xihu touched his dog's head, "Be good at home and take care of the house, I'll bring you candied haws when I come back!"

"Hmph! Do you think I'm a three-year-old kid? I don't want candied haws!" Saul said angrily, "I want cotton candy! I want colored ones that can be made into flowers!"

Selena: "..."

The three quickly drove to the amusement park.

Because there will be a grand fireworks display in the amusement park tonight, there are extraordinarily many people here. I saw that the scene was very crowded and lively. Most of them were families together, or couples in pairs.

"Little Treasure, let me hug you!" Daniel said.

Selena was also afraid that she would not be strong enough for Rick to be squeezed by others, so she gave Rick a hug in Daniel's arms, "Okay."

Daniel hugged Rick with one hand and her shoulders with the other to protect her, and walked steadily towards a hot project ahead, without letting anyone bump into them at all.

Daniel likes to be quiet, and what he dislikes the most is this kind of crowded places, but he didn't feel impatient at all right now. He patiently accompanied Selena and Rick to play all the activities in the garden all day long, and even I took a lot of photo stickers very cooperatively, and set one of them as the phone desktop on the spot.

As night fell, Daniel had Rick's schoolbag on his arm, a few zodiac masks and some gadgets around his neck, several bags of snacks in his hand, and a big colorful cotton bag for Saul in his other hand. Tang, who worked hard and walked behind the wife and children in front, carried things to pay...

"Quick! Daniel, let's go to the stage! The fireworks show will start soon!" Selena excitedly took Rick's hand and ran forward. After thinking for a while, she turned back and took Daniel's arm.

Daniel glanced at the arms being held, and was in a daze for a moment, as if they were really a family of three.

Finally, the fireworks display began.

A bright flame rose from the horizon, and then exploded in midair, with a "bang", illuminating the entire sky.

Not long after, the sound of bang bang fireworks came one after another, and amidst the fiery trees and silver flowers filling the sky, Selena turned her head and stared blankly at the bright side face of the man beside her against the firelight.

Daniel seemed to have noticed the girl's gaze, and turned to look at her.

Selena opened her mouth and suddenly said a few words to him.

The sound of fireworks was too loud at this moment, Daniel couldn't hear what she said clearly, so he cast a suspicious look.

Selena's eyes were full of fireworks, she leaned over, and said that sentence again, saying that sentence, knowing that he would not hear it at this moment...

"Daniel, I like you!"

Chapter 633

night.

After sending Selena and Rick to Zhujiang Dijing, Daniel did not return to the villa immediately, but made a phone call and asked Saul to go to the bar.

"Brother, you actually invited me to the bar! I thought I was hallucinating!"

Under the flickering lights, Daniel's face was hidden in the shadows. After being silent for an unknown amount of time, he suddenly asked, "Is there a possibility?"

"What's possible?" Saul was confused by this inexplicable question.

"Selena... have moved on." Daniel said.

Saul's eyes widened immediately upon hearing this, "Huh? Who did she empathize with?"

Daniel: "Me."

"Pfft..." Saul almost sprayed the wine in his mouth, "Ahem, why do you think so?"

Daniel: "Feeling."

Saul scratched his head, "Brother, did something happen today?"

Daniel's brows were like a dense fog that couldn't be removed, "It seems that she... said she likes me."

"What!!!!!! Selena said she likes you???" Saul was half excited, and then calmed down, "No, why did you make it look like?"

"At the amusement park, during the fireworks display, she seemed to say something to me, but it was very noisy, so I didn't hear it." Daniel frowned slightly.

Saul was excited for a while, "I was in a hurry! But you understand lip language! So you understand?"

"Lip language is not 100% accurate, not to mention the chaotic environment at the time."

Most importantly, it's really impossible.

The first time, he didn't even think to pay attention to it. The second time, she leaned closer, but he didn't see it. He just made a quick judgment, how could he be sure.

Therefore, what made him suspicious the most was not what she said, but the look in her eyes when she spoke.

The look in her eyes when she looked at her at that time was so touching that she could speak, and the silence speaks louder.

From those eyes, he saw things that he couldn't even imagine...

"Brother, I think so, after Selena comes back this time, you can try her out!"

It was rare for Daniel to agree to Saul's suggestion, "Yes."

He really, really wanted to know the answer.

...

On the second day after returning from the amusement park, Selena boarded a flight abroad early in the morning.

After running around for several days, the crew finally headed to the last stop of the promotion, the capital of Country X, Dib City.

Because it wasn't a mainstream city, everyone was too tired after so many days of tossing around, so not many people were willing to go. Among the actors with more roles, only Selena volunteered, and Guo Qisheng was so moved.

He worked hard from beginning to end and cooperated with the publicity without deliberately stealing the limelight. Which director would not like such an actor? He even planned to create a new play for Selena next year, and she must be the heroine.

Louis didn't know if his conscience had discovered it. After so many days, he didn't come a few times during the entire promotional period. This last time, he finally came along.

As soon as he got off the plane after falling asleep, Louis took off his blindfold, and when he turned his head, he saw Selena reading the script under the light. Immediately, he said speechlessly, "Selena, are you desperate? You're working so hard!"

Seeing that it was almost time to stop, Selena closed the script, glanced at Louis, raised her eyebrows and said, "If you don't fight, how can you support Daniel in the future?"

Louis: "..."

Taking care of Daniel...

Is this goal a little too big?

Chapter 634

Louis ignored the depression in his heart, and muttered, "Then my uncle will wait until the end of time?"

"Bah! Stop cursing me!"

"It was originally, if you want to say that you can take care of me, there is still a little possibility..."

Selena snorted, "I just like challenging the impossible!"

Looking at the girl's expression, Louis couldn't help but feel a throbbing pain in his heart. He knew that this time, she was serious.

He thought she had given up, but unexpectedly, he still underestimated her. From humble retreat at the beginning, to now he is determined to stand side by side with that person...

In the past, he had been thinking, did this woman have no heart at all?

Only now do I know that she has it, but the person who gave it was not you...

Louis withdrew the soreness in his heart, put his arms around her shoulders, and said in a relaxed tone, "Would you like to have a drink together at the end of the night? The best nightclubs in the world are all in Dib City!"

Country X is a place of serious polarization. There are cities like Dibs that spend money and sing nightly, and there are ghost towns like Philadelphia.

"I said, why did you come here so well..." Selena looked contemptuous, "No, I want to catch up on sleep!"

Tomorrow is the time for the appointment, and she has to recharge her batteries.

The crew will leave tomorrow afternoon, so she will take a good rest tonight, and will rush to Philadelphia early tomorrow morning to meet that person, and then come back, the time is just right.

"Selena, did you make a mistake! You haven't been with him yet, and you've started guarding him like a jade! You don't even go to nightclubs!"

Selena shook her legs, "A guy like you who has no heart will understand!"

"Who said I didn't!"

"Ah, do you have one? Who is it?"

"A jerk!"

"Tsk, to deal with a sgum like you, you can only be suppressed if you are good enough! This is called fighting poison with poison!"

"you..."

...

After the promotion was over, the entire crew went out to play. Selena declined everyone's invitation, and fell asleep as soon as she returned to the hotel.

At five o'clock in the morning, the alarm clock rang on time.

Selena opened her eyes all of a sudden, put on the backpack she packed last night, walked out of the hotel, and headed towards Philadelphia.

On the Philadelphia border, she stopped into a breakfast place for a bite and changed in the restroom.

When he came out of the bathroom, he was already dressed in men's clothes.

The old place where the elder brother told her to meet was one of their strongholds, an underground casino in the center of Philadelphia.

She has stayed in Philadelphia for a whole year and is very familiar with it, but the sad thing is that riots broke out in this place every three days, and it is estimated that it has been rebuilt several times in just one year, and she can no longer tell which is which. , It took a long time to identify several landmark buildings.

It is estimated that the government has put a lot of effort into rectification in recent years. There are many patrolling police cars on the streets, and they make trouble before seeing broad daylight. The situation is much better than before.

At this time, Selena didn't know that since she stepped into the territory of Country X, she had been targeted by people...

"Boss, that woman is coming to Philadelphia!"

"Really?" On the leather sofa, the blond man nervously touched the position of his ears under his long hair. There was nothing there, and both ears had been cut off.

"It's true. At first I was still having a headache and it was difficult to do anything with Dib. I didn't expect the brother who was sent to watch her to come out of the hotel with his own eyes, and then came to Philadelphia by himself. He even changed into men's clothes in the middle. We almost didn't Recognize it! However, it just proves one thing!"

Chapter 635

The subordinates said, and put the two photos on the table, "Selena, Keren, these two are indeed the same person! But, why is she not with satan, but changed her identity and ran to the country, and appeared By Daniel's side?"

"Hehe, interesting..." Augustine rubbed his chin with interest.

"Do you need me to check it?" the subordinate asked for instructions.

Augustine waved his hand impatiently, "No, the result is not important, anyway, today, she will... die here!"

The subordinates were shocked when they heard the words, "Boss, you...you want...but she belongs to Satan after all, last time Satan made Kevin..."

"Shut up!" Augustine felt a burning pain in the place where his ear was cut off, and his heart was full of shame, and angrily snapped, "How dare you question my order?"

"No... dare not!"

"Catch me alive! I want them to see with their own eyes how this woman... was played to death by me!" The man's dark eyes were full of bloodlust.

If it wasn't for this woman, his plan would not have failed, nor would he have been kicked out of the alliance, cut off his ammunition, and forced to die...

Don't they care about this woman? He will let them see now, the price of treating him like this!

After much deliberation, the subordinate still felt uneasy, and persuaded with anger, "In case satan finds out..."

Augustine snorted softly when he heard the words, "That wimp, now he's being chased so hard that he can't go out in the Strait of Malacca! When he finds out? When he finds out, that woman's body has been torn to pieces! Besides, the higher-ups will come tomorrow." People took us out of this ghost place, what are you afraid of? You don't want to avenge Philo and Alice?"

The subordinate gritted his teeth, "Okay! I'll bring more people there, I'm afraid that woman will be difficult to deal with!"

Augustine pushed away the hot beauty in his arms, "Wait, I'll go in person!"

...

After Selena figured out the direction, she didn't go to the casino right away but walked into a secret shop without turning around.

"Boss, get the Glock 17."

She couldn't take the p226 that Daniel gave her out of the customs, so she could only buy temporary self-defense here, otherwise, it would be too insecure to walk in this kind of place.

In the shop, a chubby boss was cleaning the bullets, without raising his head, he said, "This small shop does not deal with strangers."

"Boss, are you sure I'm a stranger?" Selena looked at him with a smile.

The boss raised his head impatiently when he heard the words, and when he saw the person lying on the counter, the fat on his face trembled violently, and the things in his hand fell to the ground with clangs, and then he slipped into the Under the table, the movements were agile and completely inconsistent with his figure, "You, you, you... Didn't you leave? Why are you back?"

After speaking, he looked behind her tremblingly, as if to see if there was anyone else.

Selena followed his line of sight. Of course, she knew who he was looking at. This seemingly unremarkable shop was the largest underground trading market in Philadelphia. There were many strange gadgets in it, not only weapons but also antiques. Pharmacy, etc. In the past, she often came with the second senior brother to rob houses, and the boss got a headache when he saw the two of them.

"Whatever you want...you take it yourself! Take it yourself!" The boss hurriedly urged, just wanting to send the person away quickly.

Selena walked over and picked out one by herself, "How much is it?"

"No...no! No money! You go, go!"

Selena was not happy when she heard that, "How can I do that? A Brother is a serious person now!"

Chapter 636

The boss was about to cry, "Little ancestor, what exactly do you want?"

Selena looked innocent, "I want to pay!"

How dare the boss ask for her money, "I don't want it! I really don't want it!"

Selena got a little annoyed, "Dmn! I told you I'll pay! Believe it or not, I'll beat you up!"

Isn't this destroying her principles of life!

After tossing and tossing for a long time, the boss finally quoted a price. Selena paid and left satisfied.

The boss looked at the money on the table tremblingly, with a ghostly expression on his face, and actually gave the money...

After leaving the shop, Selena was lucky enough to see a taxi, so she directly waved to the driver to take her to her destination.

He was closing his eyes and recuperating, when accompanied by a loud noise, the car body suddenly shook violently, as if it had been hit hard by something.

Residents who dare to live in Philadelphia obviously have a few brushes. The driver in front reacted very quickly, and rolled out as soon as he sensed something was wrong, abandoned the car and fled directly.

Selena let out a "sh1t", and immediately pushed the door to get out of the car.

At first, I just thought that there was some kind of riot or robbery, but as soon as I got out of the car, I realized that something was wrong. From the car that hit me just now, four people got out one after another, surrounded her in a fan shape, and pointed four guns at her at the same time. .

Menacing!

Selena's heart skipped a beat, and she subconsciously placed her hand on the gun at her waist.

what happened?

For her!

These white people were obviously strangers. She had just arrived here, so there was no reason why she would get into trouble that she shouldn't have.

It's even more impossible to be an enemy in the past. If it's someone who knew her before, they haven't dared to attack her directly in broad daylight.

"Put the gun down." The leader, a man in a black vest, looked at her sullenly, as if he had some deep hatred for her, "Hurry up!"

The man seemed to know that she was good at marksmanship, so he was very afraid of the gun at her waist, and shot directly at her feet as a warning.

The other three people next to her stared at her without blinking to prevent her from shooting suddenly.

With a "bang", a burst of sand kicked up around Selena's feet.

Those people stared too closely, and Selena knew that under such circumstances there was absolutely no possibility of retaliation. In desperation, she gritted her teeth, drew the gun from her waist and threw it far away.

The leading man was relieved when he saw this, with a ferocious expression on his face, "b!tch, how dare you kill my brother! Today I will avenge them!"

"I'll kill your brother? Who is your brother? I said, did you make a mistake?" Selena was at a loss, talking to them deliberately while quickly looking around.

The man scolded angrily: "Stop talking nonsense! Put your hands up and walk over slowly!"

At this time, Selena suddenly saw a pair of police cars passing by from the corner of her eye, and she was overjoyed.

Even if these people are rampant, people who see the police will still have scruples!

Just as they were about to call for help, the team of police cars actually came directly in their direction. The policeman in the captain's uniform hooked his shoulders to the leader's man with a friendly expression.

"Why is this?"

"It's okay, let's deal with some private matters, please help me patrol the area, don't let anyone come over to disturb you, otherwise, it will be bad if you accidentally hurt someone!"

"Small things, no problem!"

...

Then, Selena watched the team of police cars leave.

Not only was he not rescued, he was also blocked from retreating.

Oops, it seems that the other party is not young!

Chapter 637

The leading man finally lost his patience, thinking that she had no power to fight back anyway, so he winked at the subordinates next to him and asked them to go up and arrest them.

However, the moment the man took a step, three gunshots "bang", "bang" and "bang" were fired.

Three of the four men fell in one second!

The leading man looked at the three companions who had been shot, and his expression changed drastically.

On the opposite side, the gun in Selena's hand was still emitting white smoke, and at this moment, it was pointing directly between his eyebrows.

"You... haven't you already thrown away your gun..." The man was dumbfounded and looked not far away, the gun that Selena had just thrown away was still lying there quietly.

Selena rolled her eyes and looked like an idiot, "Who told you I only have one gun?"

She bought two, okay?

The man was half dead with anger, "fcuk! Cunning yellow man!!!"

"It's obvious that you're too stupid!" Selena snorted, then looked at him with a half-smile, and said quietly, "Guess, is your gun faster or mine?"

The man's hand holding the gun trembled, and cold sweat rolled down his forehead layer by layer.

If the person in front of him was just an ordinary woman, he would naturally not be afraid, but now he already knows that this is Keren!

Rumor has it that he is the best marksman around satan...

Taking advantage of the fact that the other party was restless under the huge psychological pressure, Selena resolutely seized the opportunity and fired a "bang".

Unfortunately, the man responded well and avoided the fatal part. Only his arm was hit, and the gun in his hand fell to the ground.

Still, it was enough for her to escape.

Selena didn't want to stay in this place of right and wrong, Dang even wanted to leave quickly.

Unexpectedly, at this moment, there was a sudden sound of messy footsteps around.

In the next second, she was surrounded by at least a hundred people, all of whom were fully armed.

The man who had been shot by Selena in the arm immediately relaxed, and walked up to a blond man with a respectful expression, "Boss!"

The blond, blue-eyed man who looked like those heads glanced at the three corpses on the ground and the subordinates covering their arms, with no expression on his face.

The man has white skin and a high nose bridge, green eyes, blond hair that reaches to the shoulders, and the position of the ears looks a little strange.

A gust of wind blew over, and Selena inadvertently noticed that the man had no ears...

Then, the man raised his head, looked at Selena who was surrounded by him, and showed a gloomy expression. The elongated voice combined with the distorted expression seemed strange, "Run, why don't you keep running? Hehe, You Huaguo has a saying? Oh, yes, if there is a way to heaven, you don't go, and if there is no way to hell, you break in!"

Looking at the dark crowd around her, Selena secretly cursed, "Run away!"

Did you make a mistake? Just arresting her as a little girl, but mobilizing a large number of people to mobilize an armed force strong enough to control the entire city of Philadelphia? What about fighting the boss?

Although Philadelphia used to be their hometown, their main force has long been transferred to other cities. It seems that this place has been controlled by this blond man.

She is the turtle in the urn now, with a dead end.

What the hell, what kind of hatred does she have with this man?

Full of suspicion, the blond man walked up to her slowly, and looked her up and down recklessly with his eyes as if he was about to strip her off, "Are you Satan's woman?"

Chapter 638

The moment she heard this sentence, the word "sh1t" popped out of Selena's heart!

She said, she is just a small shrimp, how could she have such a large hatred value, the original source is here!

"No!" Selena replied firmly and without hesitation.

The man smiled coldly, and squeezed her chin with his cold fingers, "Oh, no? He cut off the alliance with me because of you. My two ears are thanks to his subordinate Kevin!"

Selena's heart skipped a beat.

Was this man's ear cut off by senior brother?

After listening to the man's words, Selena's brain turned quickly, and she finally got a clue.

She remembered the group of people she dealt with when she was looking for Daniel in the abandoned military factory in Philadelphia last time.

Later, Annie revealed in a text message that these people were allies with the organization before, and because of this incident, they broke up...

After Selena cleared her mind, her expression became more solemn.

If this is the case, then today is really doomed, even if she denies the relationship with satan, it is useless now, she killed this man's subordinates and ruined his affairs, this man will never let go today pass her!

"Oh, that guy's woman, I really want to taste, what is it like..."

The earless man's fingers scraped vaguely on her neck, making Selena's skin crawl with nausea.

While speaking, white light flashed, and the sharp dagger in the man's hand slashed down from Selena's neckline. Selena's leather coat and the shirt inside were torn apart, revealing the whiteness inside. Dazzling skin...

This kind of looming temptation was more than taking off his clothes directly, and the man's gaze suddenly ignited a cluster of flames.

Just by looking at the man's expression, Selena knew what he wanted to do, and immediately felt nauseated.

Helplessly surrounded by a group of desperadoes, the only gun in his hand was also unloaded, leaving no room for resistance.

It's all dead anyway! It's better to fight!

While the man was sizing her up obscenely, Selena suddenly raised her foot and bumped into the man's lifeblood.

The next second, with a bang, a bullet "poofed" into her thigh, and there was a piercing pain.

If she hadn't reacted in time to avoid a few centimeters, this shot would definitely hit her aorta.

The man clutched the bumped part in embarrassment, with a sullen expression on his face, "You're courting death..."

In an instant, hundreds of guns were aimed at her, and as long as the man gave an order, she would be shot into a hornet's nest.

Selena's eyes were cold, yes, she was courting death!

The man seemed to have seen through her intentions, and grabbed her by the hair, "Want to die? It's not that easy!"

Currently, he has controlled the entire Philadelphia, and here, he is the king.

Don't say that satan is impatient and can't take care of himself now, even if he really comes, he will die in Philadelphia. No one should try to save this woman from him.

The man's gaze made Selena feel uncomfortable all over. The meaningless gaze, coupled with the pair of cloudy eyes, made people feel disgusted.

During this period of time, there were also many vehicles passing by. Seeing that the road was blocked by a sea of people, a few drivers poked their heads out of the car windows, thinking that there was a traffic accident. Ignored it completely, stepped on the accelerator, detoured the original road, and drove away at high speed.

After several times in a row, Selena finally gave up the last hope in her heart.

Chapter 639

"Why, who do you expect to save you?" The man looked Selena up and down with his eyes, the corners of his mouth curled up, his expression was full of teasing, as if he was looking at a prey.

"Now that the whole of Philadelphia is under our control, you'd better not have any expectations or hopes. Such hopes will only aggravate your despair in the end." The man stared at Selena and sneered.

At this moment, Selena was expressionless. Since she couldn't survive, wouldn't it be easy to seek death?

Hundreds of black guns were pointed at Selena, as long as the man gave an order, Selena would be smashed into a hornet's nest by countless bullets, leaving countless blood holes on her body.

However, the man was neither slow nor ill, it was like a cat and mouse game, Selena was just his prey, the cat had to get tired of playing with the mouse, and after exhausting the mouse to death, he swallowed the mouse in one gulp.

"Little girl, you can rest assured for a while, I won't kill you so quickly, wait a while, after I get tired of playing with your whole body, I will slowly torture you to death. The game between us has just begun." The man grins.

From the beginning to the end, Selena's expression did not show a trace of fear, but was unusually calm, which made the man very upset. He wanted to see that this woman was kneeling at his feet begging for mercy.

Suddenly, Selena broke free from the man's shackles with strength she didn't know where, and pushed the man staggeringly with all her strength. After that, Selena limped forward without looking back. go.

Selena was shot in the leg, and the speed was very slow, the blood fell on the ground drop by drop, looking extremely distressed.

"boom!"

At this moment, a gunshot sounded from behind, and the bullet hit the ground in front of Selena, causing gravel to splash and a trace of gray smoke.

Selena gritted her teeth, her figure didn't stop at all, as if she wasn't afraid of death at all.

The man dragged the smoking muzzle with his right hand, and said with displeasure: "Who told you to shoot so hastily, what fun is there for a dead mouse, I have plenty of time today!"

"Boss, I understand." The subordinate who fired just now hastily retracted the gun and nodded tremblingly.

Seeing the woman fleeing forward unsteadily, the man was not in a hurry but was full of patience, his eyes full of interest: "Little girl, run away faster so that there will be enough fun and let the I'm even more excited, haha hahaha..."

The man's piercing laughter was like a life-seeking talisman, echoing over the gloomy city...

After an unknown amount of time, Selena's right leg was so painful that it was numb, and her speed became even slower. Looking back, those people had disappeared from her sight.

The night is as cool as water, full of stars, and the moonlight shines through the clouds and sprinkles the brilliance on the earth.

Selena's shot leg had already been bandaged briefly and the bullet was taken out. Although the pain was still unbearable, it was much better than before. At least, this leg wouldn't just be useless.

Thinking of this, Selena laughed at herself, and even now she is still thinking about whether her legs will be abolished. It is still unknown whether he will be able to leave Philadelphia alive. To be more precise, she already knew her fate, but she was still unwilling to admit it.

Before coming here, she had a bad premonition, but she never expected that it would be a hundred times worse than she expected.

Where is this peach blossom robbery? It's clearly a catastrophe...

Only those who have no desires and desires will not be afraid of death, but now, she is afraid, very afraid that she will die.

Chapter 640

She misses Rick so much, and Miss Boss so much...

Selena took a deep breath, and slowly covered her body with her arms.

On a winter night in Philadelphia, it was bone-chillingly cold. Selena's back looked a little lonely and helpless, but her expression was still determined.

That man regarded himself as the master of Philadelphia, thought that everything could not escape his palm, regarded her as a mouse, and himself as a cat, and even deliberately let her go...

She knew that although she escaped temporarily at this moment, she was actually stepping on the death line every minute.

She can't stop.

Selena endured the physical pain, fatigue, hunger and cold, and continued to walk forward.

Earlier, she had thought about calling the police, but it was obvious that the Philadelphia police station should have a good relationship with that man, if she acted rashly, she might fall into the trap of herself.

Regardless of whether she is a mouse in the true sense or not, if she procrastinates for a second, she will procrastinate for another second, and no one can be sure whether there will be a miracle in the next moment.

The night was very cold, and there was not a single pedestrian on the streets of Philadelphia. Occasionally, there were vehicles passing by. I don't know whether it was a coincidence or deliberate. As long as Selena went to ask for help, the speed of those vehicles would increase instantly, and they would pass by Selena. In the blink of an eye, it disappeared.

Selena walked aimlessly forward, and the next second, she suddenly saw a ray of light not far away.

Like a person in the dark seeing the light, Selena subconsciously walked toward the bright place...

In half a moment, Selena walked into an extremely wide street square.

As soon as she entered the square, Selena was slightly taken aback. The people in the square were actually that man and his subordinates.

The man seemed a little surprised when he saw Selena, and then he laughed loudly: "Little girl, I wanted you to feel despair at a deeper level, but I never thought that you couldn't wait any longer. I was just about to go out to find you, but you took the initiative. Delivered to the door!"

How could this man let Selena escape? He had already arranged for several armed men to follow him in the dark. He wanted to find her later, but Selena came here.

After being overjoyed and sad, Selena suddenly calmed down, with a look of dust on her face.

The earless man strode forward, grabbed Selena's long hair, and led her out of the square.

At this moment, Philadelphia in the middle of the night is dead silent, except for this man and his subordinates, there seems to be no one who is irrelevant.

"Little girl, don't worry, I'll fcuk you right here, in front of my subordinates, tsk tsk, don't you think it's very exciting..." The man's gaze was like a poisonous snake covered in mucus. Look at the body differently.

The subordinates of the men around showed ambiguous expressions and laughed in unison.

"Baby, I'll give you a chance. If you enjoy serving me, maybe I can save your life, what do you think?" The man licked his dry lips with his scarlet tongue, and at the same time slowly moved towards Ning The evening is approaching the past...

Before Selena could speak, suddenly, bursts of roaring and piercing motor sounds rushed over like waves.

In the next second, a row of speeding black cars appeared in everyone's sight.

"Boss, it's not ours." A subordinate with a gun looked at the man and said with a vigilant expression.

The man nodded and didn't pay much attention to it. It was just a few cars, and he didn't pay attention to them yet.
